Section III of the American Society of Mechanical Engineers (ASME) Boiler and Pressure Vessel Code, Nuclear Vessels, published by the American Society of Mechanical Engineers, United Engineering Center, 345 East 47th Street, New York, NY 10017, is adopted in the current Marine Engineering Regulations, 46 CFR Parts 50 through 63. The 1971 code which became effective July 1, 1971, entails several major revisions to section III. The present Marine Engineering Regulations are incompatible with the revised code and changes are proposed so that the regulations will be compatible with the July 1, 1971, code and the subsequent summer 1971, winter 1971, and summer 1972 Addenda.

The revised section III of the ASME Boiler and Pressure Vessel Code, Nuclear Powerplant Components, Division 1, Metal Components, has been expanded to include in one publication, piping, pumps, and valves, as well as pressure vessels. Definitive Coast Guard requirements for nuclear piping, pumps, and valves, have not previously appeared. An earlier thrust in this direction, the adoption of the new ANSI B31.7 Code, which was published in the 1971 Marine Council Public Hearing Agenda, was withdrawn in favor of this current action, it being considered more prudent to work with a code which is already adopted and which consolidates requirements for the entire nuclear powerplant. Ancillary to this is the proposed adoption of section V, Nondestructive Examination, of the ASME Code. With regard to the latter, the ASME is consolidating the nondestructive examination requirements currently found throughout the various sections of the code into the new section V. The adoption of section V is proposed now.

Part 55 of the Marine Engineering Regulations is retitled Nuclear Powerplant Components, and the nuclear items presently appearing in Part 56 are deleted and relocated to Part 55 with appropriate modifications and elaboration. Section 55.05, General Requirements, is changed to reflect the increased scope, to cover the added material on pumps, piping, and valves, and to properly resolve requirements for the owner and installer.

The most noteworthy change is that existing § 55.10-30(d), which indicates that the vessel manufacturer's quality assurance program need not be ASME approved, has been eliminated. Proposed changes to §§ 50.15-5(c) and 55.05-1(b) will require that all component manufacturers, with the exception of construction shipyards (insofar as they construct containment vessels (Class MC) and all classes of piping subassemblies), possess the ASME N-type symbol stamps and have an approved quality assurance program. Such stamps are not issued unless a society survey team approves of the applicant and his quality assurance program. A duplicating Coast Guard program of quality assurance checks would be expensive to the taxpayer if it is to be effective. There is no good technical reason not to use the existing ASME program except in the case of vessel (ship, barge, etc.) building facilities. Their quality assurance programs would be required to be accepted by the Coast Guard.

Class 2 pressure vessel requirements are identical to the former Class "C" but also permit the use of section VIII, Division 2, if prior approval is obtained from the Commandant. The existing requirements for piping, pumps, and valves found in 46 CFR 56.04-20 are vague and general, requiring detailed policy decisions which would be based on the new code. This change spells out these requirements in detail and hence promotes uniform application of the regulations.

Changes are also proposed in the methods prescribed for stamping data on certain thin-walled pressure vessels so as to preclude damage to the vessels. Additional relocations and cross-references and the following minor changes are also proposed.

(a) Use of rupture discs in lieu of safety valves for evaporators;

(b) Addition and deletion of adopted standards for piping system components;

(c) Use of bite type fittings in hydraulic systems. It is further proposed to clarify the requirements for the fire testing of hoses used in certain systems as required by Table 46 CFR 56.60-25(c) and 182.15-40 and 182.20-40. Changes are also proposed in Table 46 CFR 105.20-3(a)(1) permitting the limited use of aluminum as a tank material for gasoline and diesel cargo carried by commercial fishing vessels. It closely parallels recent changes to Subchapters F and T for independent fuel tanks.

Finally, it is proposed to modify 46 CFR 162.018-3 to permit the use of certain materials with a melting point below 1700° F. in the construction of liquefied compressed gas safety relief valves where their use can provide significant improvement in the operation of the valves.

In consideration of the foregoing, it is proposed to amend Parts 50, 54, 55, 56, 57, 105, 162, and 182 of Title 46 of the Code of Federal Regulations as follows:

PART 50—GENERAL PROVISIONS

1. Section 50.15-5 is amended by revising paragraph (a) and by adding a new paragraph (d) to read as follows:

§ 50.15-5 ASME Boiler and Pressure Vessel Code.

(a) The following sections of the "ASME Boiler and Pressure Vessel Code," published by The American Society of Mechanical Engineers (ASME), United Engineering Center, 345 East 47th Street, New York, NY, 10017, are adopted subject to modifications specified in this subchapter, which appear with the listing:

(1) Section I, Power Boilers (ASME, sec. I)

(2) Section II, Material Specifications (ASME, sec. II).

(3) Section III (Division1), Nuclear Powerplant Components, Metal Components (ASME, sec. III).

(4) Section IV, Heating Boilers (ASME, sec. IV).

(5) Section V, Nondestructive Examination (ASME, sec. V).

(6) Section VIII (Division 1), Pressure Vessels (ASME, sec. VIII).

(7) Section IX, Welding Qualifications (ASME, sec. IX).

• • • • •

(d) Fabricators constructing nuclear powerplant components, parts, piping subassemblies, and appurtenances for installation on vessels subject to the regulations in this subchapter shall possess an

owner's data report as required by NA-

that all components, parts, piping sub-

§ 55.10-30 Marking and stamping

V37-223 NOV 17 72 XUM

appropriate Code N-symbol stamp as described in paragraph NA–8230 of section III of the ASME Code. The building facility of the vessel on which the nuclear powerplant is to be installed need not possess the installer's stamp (NA–8233.7), or N-type symbol stamps for work related to the construction of a containment vessel (Class MC) and piping subassemblies of any class (see NA–2120) that are actually constructed by the building facility for the vessel's nuclear powerplant as provided for in § 55.05–1 (b) and (c) of this subchapter.

PART 54—PRESSURE VESSEL

§ 54.01–1 [Amended]

3. In Table 54.01–1(a), by striking out the words:

UG–116 modified by	54.10–20
UG–118 modified by	54.10–20

and inserting the words:

UG–116, except (k) replaced by	54.10–20(a).
UG–116(k) replaced by	54.10–20(b).
UG–117 replaced by	54.10–20(c).
UG–118 replaced by	54.10–20(a).
UG–119 modified by	54.10–20(d).

in place thereof.

§ 54.01–5 [Amended]

4. In Table 54.01–5(b), by adding to the heading of the fifth column, immediately after the words "treatment required," a superscript 5, and by adding at the bottom of the table the following footnote:

5 Specific requirements modifying Table UCS–56 of the ASME Code are found in § 54.25–7.

§ 54.10–20 [Amended]

5. By deleting in the heading of § 54.10–20 the words "(replaces UG–116 and UG–118).".

6. By adding to the heading of § 54.10–20(a) the words "(replaces UG–116, except paragraph (k), and UG–118)."

7. In § 54.10–20(b), by inserting after the heading the words "(replaces UG–116(k))."

8. By inserting in § 54.10–20(c) immediately after the heading "Stamping data" the following parenthetic phrase and sentence: "(replaces UG–117). Except as noted in paragraph (d) of this section, the data shall be stamped directly on the pressure vessel."

9. By adding to § 54.10–20 the following new paragraph at the end thereof:

(d) Thin walled vessels (modifies UG–119). In lieu of direct stamping on the pressure vessel, the information required by paragraph (a) of this section shall be stamped on a nameplate permanently attached to the pressure vessel when the pressure vessel is constructed of—

(1) Steel plate less than one-fourth inch thick; or

(2) Nonferrous plate less than one-half inch thick.

§ 54.15–15 [Amended]

10. By adding the following new sentence at the end of § 54.15–15(a): "Evaporators operating between atmospheric pressure and 15 p.s.i.g., may use a rupture disc as an alternative to the safety valve."

11. By adding the following new sentence at the end of § 54.15–15(b): "Rupture discs used in lieu of these safety valves, as provided for in paragraph (a) of this section, shall comply with the requirements of § 54.15–13."

PART 55—NUCLEAR POWERPLANT COMPONENTS

12. In Part 55, by revising the table of sections to read as follows:

Subpart 55.01—General Requirements

Sec.
55.01–1 Adoption of section III of the ASME Code.

Subpart 55.05—Responsibilities and Duties

55.05–1 General (modifies subsection NA).

Subpart 55.10—Class 1 Components

55.10–1 General (modifies subsection NB).
55.10–5 Design.
55.10–20 Welding and fabrication.
55.10–25 Quenched and tempered steels.
55.10–30 Marking and stamping (modifies NA–8000).
55.10–35 Manufacturers' data reports (modifies NA–8400).
55.10–40 Overpressure protection (modifies NB–7000).

Subpart 55.15—Class MC Components

55.15–1 General (modifies subsection NE).
55.15–3 Design (modifies NE–3100).
55.15–5 Welding and fabrication.
55.15–10 Stamping and reports (modifies NE–8000).
55.15–15 Overpressure and vacuum relief protection (modifies NE–7000).

Subpart 55.20—Class 2 Components

55.20–1 General (modifies subsection NC).
55.20–5 Weld production testing.
55.20–10 Overpressure protection.
55.20–20 Stamping (modifies NA–8000).

Subpart 55.25—Class 3 Components

55.25–1 General (modifies subsection ND).
55.25–10 Stamping (modifies NA–8000).

Subpart 55.01—General Requirements

13. In Subpart 55.01—General Requirements, in the introductory note, by striking out the word "vessels" in the second sentence and inserting the words "powerplant components" in place thereof.

§ 55.01–1 [Amended]

14. In § 55.01–1, by inserting the words "division 1" in the heading immediately after the words "section III."

15. In § 55.01–1(a), by striking out the words "pressure vessels" immediately after the first word "Nuclear" and inserting the words "powerplant components" in place thereof.

16. In Table 55.01–1, by inserting "division 1" immediately after the words "section III" in the heading.

17. In Table 55.01–1, by striking out the words

N–110 through N–914 modified by	55.10–1.
N–447 modified by	55.10–5(a).
N–552.1 modified by	55.10–20(a).
N–541 modified by	55.10–20(b).
N–612 replaced by	55.10–15.
N–810 through N–830 modified by	55.10–30.
N–832.2 modified by	55.10–30(d).
N–840 modified by	55.10–35.
N–910 through N–914 modified by	55.10–40.
N–1110 through N–1711.3 modified by	55.15–1.
N–2110 through N–2116 modified by	55.20–1.
N–2116 replaced by	55.20–20(a).

and inserting the words

NA–3000 modified by	55.05–1.
NA–8000 modified by	55.10–30.
NA–8400 modified by	55.10–35.
NB modified by	55.10–1.
NB–3111 modified by	55.10–5.
NB–4300 modified by	55.10–20(a).
NB–4330 and NB–4335 modified by	55.10–20(b).
NB–7000 modified by	55.10–40.
NB–7611 and NB–7612 modified by	55.10–40(b).
NB–7613, NB–7620, and NB–7630 modified by	55.10–40(c).
NB–7640 modified by	55.10–40(b).
NC–modified by	55.20–1.
NA–8000 modified by	55.20–20.
ND–modified by	55.25–1.
NA–8000 modified by	55.25–10.
NE–modified by	55.15–1.
NE–3100 modified by	55.15–3.
NE–7000 modified by	55.15–15.
NE–7116 modified by	55.15–15(a).
NE–8000 modified by	55.15–10.

in place thereof.

18. In footnote 1, Table 55.01–1, by striking out the words "The letter and number following the letter refer" and inserting the words "The second letter refers to the subsection of section III. The number refers" in place thereof.

19. In § 55.01–1(a)(1), by inserting "division 1" immediately after "section III."

20. In § 55.01–1(a)(1), by striking out the words "pressure vessels" and inserting the words "power plant components" in place thereof.

21. In § 55.01–1(b), by striking out the reference "N–130" and inserting "NA–1130" in place thereof.

22. In § 55.01–1(b), by striking out "1-Article 1" and inserting "A-Subsection NA" in place thereof.

23. In § 55.01–1(b), by striking out the words "130-paragraph within Article 1." and inserting the words "—1130-Paragraph within Subsection NA" in place thereof.

Subpart 55.05—Responsibilities and Duties

24. By revising Subpart 55.05 to read as follows:

§ 55.05–1 General (modifies Article NA–3000).

(a) The ship or barge owner or his agent shall comply with NA–3200 except that he need not possess the Society's certificate of authorization nor file an owner's data report as required by NA–3270. The owner or his agent shall submit to the Coast Guard (MMT) the following materials as a minimum:

(1) A preliminary design specification which lists the applicable design codes and standards; design criteria and requirements; materials specifications; quality control provisions; documentation to be provided together with identification of specific components and parts of the powerplant; packaging (if applicable) and cleaning. The specification shall apply to the complete powerplant including all components, parts, piping subassemblies, and appurtenances.

(2) Preliminary calculations which establish the tentative thickness of all pressure containing components.

(3) Joint design and methods proposed to assemble powerplant components, parts, piping subassemblies, and appurtenances at the construction site.

(4) Methods to be followed in the detailed stress calculations.

(5) Diagrammatic arrangement drawings of all pressure vessels and piping forming reactor coolant pressure boundary.

(6) When completed, the final design specification and stress reports as required by subsection NA (see NA–3250 and NA–3350) together with the final arrangement drawings shall be forwarded to the Coast Guard (MMT) for review.

(b) Each manufacturer shall comply with NA–3300 and shall have received a Certificate of Authorization from the Society as described in NA–3330, and shall have a Society-Approved Quality Assurance Program as required by NA–8120 prior to fabrication. The containment vessel (Class MC) and piping subassemblies of any class fabricated by the building facility of the vessel are exempted; however, such facilities shall have a Quality Assurance Program meeting NA–4000 accepted by the Coast Guard (MMT).

(c) The installer as used in Section III of the ASME Code is defined as the vessel's building facility. The installer shall comply with NA–3400 except that he need not possess the "NA" Code symbol stamp or Certificate of Authorization from the Society. The installer shall have a Quality Assurance Program meeting the requirements of NA–4000 and shall have it accepted by the Coast Guard (MMT).

(d) Inspection of nuclear power plant components of all classes for installation in vessels subject to inspection under the requirements of this subchapter shall be conducted by a marine inspector (see § 50.10–15 of this subchapter) in lieu of the Code authorized inspector defined in NA–5112, except that pumps, line valves, safety valves, and shop fabricated piping subassemblies which have an appropriate N-type Code symbol stamp (as illustrated in Table NA–3120–1), an appropriate data report as required by NA–8400, and inspection by a Code authorized inspector may also be accepted. The marine inspector at the power plant construction site shall insure that all components, parts, piping subassemblies and appurtenances bear proper stamping and documentation, and that each has been properly assembled into the complete system.

Subpart 55.10—Class 1 Components

25. By revising Subpart 55.10 to read as follows:

§ 55.10–1 General (modifies subsection NB).

(a) Class 1 components shall meet the requirements of articles NB–1000 through NB–8000 of section III of the ASME Code except as noted otherwise in this subpart.

§ 55.10–5 Design.

(a) *Additional loadings (modifies NB–3111).* The designer must consider loadings in addition to those listed in NB–3111 of the ASME Code, which are peculiar to the marine application. Loadings which must be determined for each application include but are not limited to—

(1) Loading imposed by vessel's attitude in roll, list, pitch, trim, yaw, sway, surge, and heave;

(2) Dynamic forces due to ship motions;

(3) Loading due to shielding; and

(b) *Foundations and supports.* The designer shall determine the natural frequency of the nuclear pressure vessel in its mode of support, considering the engine and propeller shaft speed, and account for it in the design, and shall investigate the support of other components.

§ 55.10–15 [Revoked]

26. By revoking § 55.10–15.

27. By revising § 55.10–20 to read as follows:

§ 55.10–20 Welding and fabrication.

(a) *Welding procedure and performance qualification (modifies NB–4300).* Weld procedure and performance qualifications shall be as required by Part 57 of this subchapter and NB–4300 of the ASME Code.

(b) *Production tests (modifies NB–4330).* NB–4330 of the ASME Code is modified by adding the following requirements:

(1) Weld production test plates are required for vessels. These shall meet the requirements of Subpart 57.06 of this subchapter.

(2) In addition to the Charpy V-notch testing required for weld procedure qualification by NB–4335.1 and NB–4335.2 of the ASME Code, Charpy V-notch production toughness tests of the weld metal and heat affected base metal are required for vessels at the same interval as described in Subpart 57.06 of this subchapter for production test plates. The test specimens and testing shall follow the requirements of NB–4335 of the ASME Code.

28. By revising § 55.10–30, paragraphs (a), (b), and (c) and revoking paragraph (d). As amended, § 55.10–30, would read as follows:

§ 55.10–30 Marking and stamping (modifies NA–8000).

(a) • • •

(4) The numeral 1 for Class 1 nuclear vessel.

(b) • • •

(3) The letters PT.

(4) The letter N for nuclear.

(5) The numeral 1 for Class 1 nuclear vessel.

(c) The markings for safety valves, pumps, piping, and line valves shall follow the requirements of NA–8200. For nuclear components and parts which are not inspected by a marine inspector, see § 55.05–1(d).

(d) [Revoked]

29. Section 55.10–35 by changing section reference in the heading and adding a new paragraph. As amended § 55.10–35 would read as follows:

§ 55.10–35 Manufacturers' data reports (modifies NA–8400).

• • • • • •

(c) Safety valves, pumps, piping, and line valves which are not inspected by a marine inspector shall meet the requirements of NA–8400 for the completion of the appropriate ASME data report.

30. By revising § 55.10–40 to read as follows:

§ 55.10–40 Overpressure protection (modifies NB–7000).

(a) The Overpressure Protection report required by NB–7300 shall be submitted to the Coast Guard for approval.

(b) (Modifies NB–7611, NB–7612, and NB–7640.) Automatic spring-loaded safety valves, and those valves equivalent to automatic spring-loaded safety valves as described in NB–7611, NB–7612, and NB–7640 shall comply with Subpart 162.001 of this chapter in addition to NB–7611, NB–7612, and NB–7640.

(c) (Modifies NB–7613, NB–7620, and NB–7630.) The use of antisimmer-type safety valves, pilot operated pressure relief valves, and power actuated pressure relief valves not equivalent to automatic spring loaded safety valves shall be described in the overpressure protection report and shall be specifically approved by the Commandant. Marking and stamping of valves shall be as described in NB–7900 or, if spring loaded, as required by Subpart 162.001 of this chapter.

Subpart 55.15—Class MC Components

31. By revising Subpart 55.15 to read as follows:

§ 55.15–1 General (modifies subsection NE).

(a) Containment provided via pressure vessel configuration is not mandatory, but, if utilized, shall meet the requirements of this subpart.

(b) Class MC components shall meet the requirements of subsection NE of section III of the ASME Code except as noted otherwise in this subpart.

V 37-223 NOV 17 72 XUM

§ 55.15–3 Design (modifies NE–3100).

(a) Treatment of external loadings and supports shall also comply with § 55.10–5.

• • • • •

§ 55.15–5 Welding and fabrication (modifies NE–4300).

(a) *Weld procedure.* Weld procedure and performance qualification shall follow that for Class 1 components in § 55.10–20(a).

(b) *Production test.* Production tests must meet the requirements of Subpart 57.06 of this subchapter.

(c) *Charpy V-notch testing.* When Charpy V-notch testing is required by NE–4335 of the ASME Code, such testing shall be required for both procedure qualification for all components and for regular production welding for vessels as described in § 55.10–20(b)(2). The test temperature for procedure and production toughness testing shall be as required by NE–2330.

(d) *Quenched and tempered steels.* For vessel constructed of quenched and tempered steels refer to § 57.03–1(d) of this subchapter.

§ 55.15–10 Stamping and reports (modifies NE–8000).

(a) In addition to the requirements of NE–8100, the requirements of §§ 55.10–30 and 55.10–35 shall be followed for marking, stamping, and data reports.

(b) The letters "MC" shall be used for class designation.

(c) For components other than the containment vessel, refer to § 55.10–30(c).

§ 55.15–15 Overpressure and vacuum relief protection (modifies NE–7000).

(a) (*Modifies NE–7116.*) In lieu of the vacuum relief device required by NE–7116, consideration shall be given to designing the containment vessel to remain intact without collapse due to external pressure should sinking occur in a harbor or approach where salvage may be possible. Consideration shall be given to the prevention of pressure vessel crushing in the event of sinking in deep water by relieving external pressure by a method such as flooding. Design proposals shall be submitted to the Coast Guard (MMT) for approval.

Subpart 55.20—Class 2 Components

32. By revising Subpart 55.20 to read as follows:

§ 55.20–1 General (modifies subsection NC).

(a) Class 2 components shall meet the requirements of subsection NC of section III of the ASME Code except as noted otherwise in this subpart.

(b) (Modifies NC–1000.) Class 2 vessels shall be designed, fabricated, inspected, tested, and marked in accordance with the appropriate standards of Part 54 of this subchapter. The requirements of NC–3352 and NC–5200 for vessels shall apply in lieu of the joint design and nondestructive testing requirements of Table 54.01–5(b) of this subchapter. Design based on standards of Division 2 of section VIII of the ASME Code must receive prior approval by the Commandant.

§ 55.20–5 Weld production testing.

• • • Class 2 Vessels • • •

§ 55.20–10 Overpressure protection.

The requirements of NC–7000 shall apply in lieu of Subpart 54.15 of this subchapter. The overpressure protection analysis (NC–7300) shall be submitted to the Coast Guard (MMT) for review.

§ 55.20–20 Stamping (modifies NA–8000).

In lieu of the stamping required by NA–8000 of the ASME Code, vessels constructed in accordance with this subpart shall be stamped as required by § 55.10–20 with the addition of the symbols "N2" after the class. For components other than pressure vessels, refer to § 55.100–30(c).

Subpart 55.25—Class 3 Components

33. By adding a new subpart as follows:

§ 55.25–1 General (modifies subsection ND).

Class 3 components shall meet the requirements of subsection ND except that pressure vessels shall meet the requirements of Part 54 of this subchapter, in lieu of the requirements of subsection ND. However, the installation testing of piping and complete Class 3 nuclear systems shall meet the requirements of ND–6000.

§ 55.25–10 Stamping (modifies NA–8000).

In lieu of the stamping required by NA–8000, pressure vessels constructed in accordance with this subpart shall be stamped as required by § 54.10–20 of this subchapter with the addition of the symbols "N3" after the class. For components other than pressure vessels, refer to § 55.10–30(c).

PART 56—PIPING SYSTEMS AND APPURTENANCES

34. By revising § 56.04–1 to read as follows:

§ 56.04–1 Scope.

Piping shall be classified as shown in Table 56.04–1.

TABLE 56.04–1—PIPING CLASSIFICATIONS

Service	Class	Section in this part
Normal	I, II	56.04–2
Low temperature	I–L, II–L	56.50–105
Nuclear		See Part 55 of this subchapter.

§ 56.04–20 [Revoked]

35. By revoking § 56.04–20.

36. By revising § 56.30–25(f)(2) to read as follows:

§ 56.30–25 Flared, flareless, and compression joints.

• • • • •

(f) • • •

(2) Grip-type fittings that are tightened in accordance with the manufacturers' instructions need not be disassembled for checking. For combustible (§ 30.10–15 of this chapter) fluid service with the exception of hydraulic systems, and for flammable (§ 30.10–22 of this chapter) fluid service, flared fittings shall be used, except that flareless fittings of the nonbite type may be used when the tubing system is of steel, or nickel copper, or copper nickel alloy. When using copper or copper zinc alloys, flared fittings are required. See also §§ 56.50–70 and 56.50–75. In the case of hydraulic systems, flareless fittings of the bite type may be used provided the fittings have been accepted under the provisions of § 50.25–10 of this subchapter.

37. In table 56.60–1(b), by inserting the words "and Threaded." after "SW." in item B16.11, new items B16.23, 28, 29, and SP–44, and striking out SP–49, 50, 59, as revised the table would read as follows:

§ 56.60–1 Acceptable materials and specifications (replaces 123).

• • • • •

TABLE 56.60–1(B)—ADOPTED STANDARD APPLICABLE TO PIPING SYSTEMS (MODIFIES TABLE 126.1)

[46 CFR Part 56]

[CGD 72–57P]

REMOTE VALVE CONTROLS

Proposed Requirements

This proposal clarifies the Coast Guard's design requirements for remote valve controls. The existing regulations have been misinterpreted as a requirement to equip reach rods with indicators when they are used to operate valves located in cargo tanks. This amendment makes clear that no indicators are required on either valves located in cargo tanks or at either end of reach rods. Power actuated remote valve controls are, however, required to have indicators.

Interested persons are invited to submit written data, views, or arguments regarding the proposal to the U.S. Coast Guard (GCMC/82), 400 Seventh Street SW., Washington DC 20590. Statements should include the docket number of this notice, CGD 72–57P and the name and address of the person. Where appropriate, comments should be directed to specific sections of the proposal. Persons submitting comments are encouraged to include information that supports any recommended change or objection to this proposal.

All communications received on or before December 19, 1972, will be fully considered and evaluated before final action is taken on this proposal. Copies of written statements submitted by the public in response to this proposal will be available for examination in room 8234, Department of Transportation, Nassif Building, 400 Seventh Street SW.,

Washington DC. Copies of written state-

under Customs seal is voluntary. This

(b) Any designation may be termi-

tained in §§ 422.2, 423.2, or 424.2 of this

V37-223-NOV17-72 XUM

Washington, DC. Copies of written statements will be furnished interested persons upon request to U.S. Coast Guard (CCMC 82), Washington, D.C. 20590 in accordance with the payment provisions of 49 CFR 7.81.

The proposed amendment may be changed in light of comments received. No hearing is contemplated on this proposal, but one will be held at a time and place announced in a later notice in the FEDERAL REGISTER, if any interested person who requests a public hearing can show that the hearing will aid the Coast Guard in evaluating this proposal.

In consideration of the foregoing, Part 56 of Chapter I of Title 46 of the Code of Federal Regulations would be amended as follows:

§ 56.20–9 [Amended]

1. By amending § 56.20–9(a) by striking the words "as provided for in subparagraph 56.50–1(g)(2)." and inserting in their place the words "where valves are located in tanks."

2. By revising § 56.50–1(g)(2) to read as follows:

§ 56.50–1 General (replaces 122.6 through 122.10).

. . . . . .

(g) . . .

(2)(i) Remote valve controls that are not readily identifiable as to service must be fitted with nameplates.

(ii) Remote valve controls must be accessible under service conditions.

(iii) Remote valve controls, except reach rods, must be fitted with an indicator that shows whether the valve is open or closed.

(iv) Valve reach rods must be adequately protected.

(v) Solid reach rods must be used in tanks containing liquids, except that tank barges having plug cocks inside cargo tanks may have reach rods of extra-heavy pipe with the annular space between the lubricant tube and the pipe wall sealed with a nonsoluble material to prevent penetration of the cargo.

. . . . . .

[CGD 72-139P]

CERTIFICATION OF CARGO CONTAINERS AND ROAD VEHICLES FOR TRANSPORT UNDER CUSTOMS SEAL

Notice of Proposed Rule Making

The Coast Guard is considering amending the cargo container regulations to provide for the approval and certification of road vehicles for international transport of goods under Customs seal.

Interested persons may participate in this proposed rule making by submitting written data, views, or arguments to the Coast Guard (CMC), Room 8234, 400 Seventh Street SW., Washington, DC 20590. Each person submitting comments should include his name and address, identify the notice (CGD 72–139), and give reasons for any recommendations. Comments received will be available for examination by interested persons in Room 8234, Department of Transportation, Nassif Building, 400 Seventh Street SW., Washington, DC.

The Coast Guard will evaluate all communications received before December 19, 1972, and take final action on this proposal. The proposed regulations may be changed in the light of comments received.

The regulations in Chapter IV of Title 49 of the Code of Federal Regulations govern the approval and certification of intermodal cargo containers for transport under Customs seal and implement the technical construction requirements of the Customs Convention on the International Transport of Goods Under Cover of TIR Carnets (TIR Convention), done at Geneva on January 15, 1959 (20 UST 184, TIAS 6633), that concern the approval and certification of containers and the technical construction requirements of the Customs Convention on Containers, done at Geneva on May 18, 1959 (20 UST 301, TIAS 6334). The regulations were issued under the authority of Executive Order 11459 (3 CFR, 1966–1970 Comp., p. 781 (1969)), and the delegation of authority contained in 49 CFR 1.46(f).

Although Executive Order 11459 authorizes the issuance of regulations for the approval and certification of containers and vehicles for international transport of goods under Customs seal pursuant to the Convention, the Coast Guard implemented only the provisions of the Conventions that concerned the approval and certification of containers. The decision to do so was made after the Coast Guard had informally polled the industry and learned that implementing regulations were primarily needed for the approval and certification of containers. Indications were that there was no pressing need for implementing regulations for the approval and certification of road vehicles.

Subsequent to the adoption of Parts 420, 421, 422, 423, and 424 of Title 49, Code of Federal Regulations, manufacturers have requested the Coast Guard to promulgate regulations for approval and certification of road vehicles for international transport of goods under Customs seal. The manufacturers have based their requests on the demand for such vehicles. The Coast Guard proposes the regulations in this document to allow the use of road vehicles in addition to the use of containers for such transportation under the terms of these conventions.

The following changes are proposed in Parts 420, 421, 422, 423, and 424 of Title 49, Code of Federal Regulations:

(a) The scope of the current regulations would be expanded to govern the approval and certification of road vehicles by adding the words "and road vehicles" after the word "container" wherever applicable in Part 420.

(b) Section 420.3 would be amended by adding the definition of "road vehicle" as contained in the Customs Convention on the International Transport of Goods Under Cover of TIR Carnets and the definition of "Customs and TIR Plan" which means the drawing of a container that illustrates the requirements of the proposed § 423.3a or § 424.4 of Subchapter A, Title 49, Code of Federal Regulations.

(c) Oceanographic Society Inc., 17 Battery Place, New York, NY 10004, would be added as a certifying authority in § 421.1.

(d) Part 424 would be revised to add the proposed procedures for approval of individual road vehicles to Subchapter A.

(e) Section 423.3a would be added to Part 423 and § 424.4 would be included in the revised Part 424 to adopt by reference the applicable technical requirements in the Customs Convention on International Transport of Goods Under Cover of TIR Carnets (TIR Convention). The technical requirements for containers are in Annex 6 and the applicable requirements for road vehicles are in Annex 3.

(f) Editorial changes would be made to Parts 421, 422, and 423 to reflect the inclusion in Subchapter A of requirements for the approval and certification of road vehicles and to clarify current regulations.

In consideration of the foregoing, it is proposed to amend Subchapter A of Title 49, Code of Federal Regulations as follows:

SUBCHAPTER A—CARGO CONTAINER AND ROAD VEHICLE CERTIFICATION FOR TRANSPORT UNDER CUSTOMS SEAL

1. By revising the heading of Subchapter A to read as set forth above.

PART 420—CONTAINER AND ROAD VEHICLE CERTIFICATION—GENERAL

2. By revising the heading of Part 420 to read as set forth above.

3. By revising the authority citation of Part 420 to read as follows:

AUTHORITY: The provisions of this Part 420 issued under E.O. 11459, 3 CFR, 1966–1970 Comp., p. 781 (1969); and 49 CFR 1.46(f).

§§ 420.1, 420.3 [Amended]

4. By adding the words "and road vehicles" after the word "container" or "containers" wherever it appears in § 420.1 and § 420.3(a).

5. By revising § 420.2 to read as follows:

§ 420.2 Application and purpose.

(a) Certification of containers and road vehicles for international transport

under Customs seal is voluntary. This chapter does not require certification of containers and road vehicles.

(b) The Customs Convention on the International Transport of Goods Under Cover of TIR Carnets (TIR Convention), January 15, 1959 (20 UST 184, TIAS 6633) requires that the approval of road vehicles be made by competent authorities of the country in which the owner or carrier is resident or established. The Customs Convention on Containers, May 18, 1956 (20 UST 301, TIAS 6334), requires that the approval of containers be made by competent authorities of the country in which the owner is resident or established or by those of the country where the container is used for the first time for transport under Customs seal. The procedures for applying for certification are contained in §§ 422.2, 423.2, and 424.2 of this chapter.

6. By adding new paragraphs (f) and (g) to § 420.3 to read as follows:

§ 420.3 Definitions.

. . . . . .

(f) "Road vehicle" as defined in Chapter I, Article I of the Customs Convention on the International Transport of Goods Under Cover of TIR Carnets (TIR Convention), January 15, 1959 (20 UST 184, TIAS 6633), means not only any road motor vehicle but also any trailer or semitrailer designed to be drawn by such a vehicle.

(g) "Customs and TIR Plan" means the drawing of a container that illustrates each requirement in § 423.3a or § 424.4 of this subchapter.

PART 421—CONTAINER AND ROAD VEHICLE CERTIFICATION—ADMINISTRATION

7. By revising the heading of Part 421 to read as set forth above.

8. By revising the authority citation of Part 421 to read as follows:

AUTHORITY: The provisions of this Part 421 issued under E.O. 11459, 3 CFR, 1969–1970 Comp., p. 781 (1969); and 49 CFR 1.46(f).

9. By revising § 421.1 to read as follows:

§ 421.1 Designated certifying authorities.

(a) The American Bureau of Shipping, 45 Broad St., New York, NY 10004.

(b) International Cargo Gear Bureau, Inc., 17 Battery Place, New York, NY 10004.

(c) The National Cargo Bureau, Inc., 99 John St., New York, NY 10038.

(d) Oceanographic Society, Inc., 17 Battery Place, New York, NY 10004.

5. By revising § 421.2 to read as follows:

§ 421.2 Designation of additional certifying authorities.

(a) The Commandant may designate as a certifying authority any nonprofit firm or association that he finds competent to carry out the functions of Subpart B of this part.

(b) Any designation may be terminated by the Commandant.

§ 421.10 [Amended]

10. By striking out the part reference "Part 424 of this chapter" in § 421.10 and inserting "§ 422.3a of this subchapter" in place thereof.

11. By amending Subpart B by revising §§ 421.11, 421.12, and 421.13 and adding § 421.14 to follow § 421.13, to read as follows:

§ 421.11 Examination of containers and road vehicles.

(a) Each certifying authority must inspect each container and each road vehicle submitted for certification for compliance with the requirements contained in §§ 423.3a or 424.4 of this subchapter as applicable.

(b) Each certifying authority must conduct the examination for containers by design type prescribed in § 422.4 of this subchapter. Each container must be in compliance with the requirements contained in § 422.3a of this subchapter.

§ 421.12 Certificate of approval by design type for a container.

A certifying authority issues a certificate of approval by design type for a container that is approved in accordance with the procedures contained in §§ 422.3 and 422.4 of this subchapter.

§ 421.13 Certificate of approval for a container.

A certifying authority issues or renews a certificate of approval for an individual container that complies with the requirements contained in § 423.3a of this subchapter.

§ 421.14 Certificates of approval for road vehicles.

A certifying authority issues or renews a certificate of approval for an individual road vehicle that complies with the requirements contained in § 424.4 of this subchapter.

§ 421.20 [Amended]

12. By striking the words "shall be approved" in the third sentence of § 421.20(a) and adding the words "are subject to approval" in place thereof.

13. By revising § 421.30 to read as follows:

§ 421.30 Records maintained by a certifying authority.

(a) Each certifying authority shall maintain—

(1) A copy of each certificate of approval of containers by design type that is issued, together with a copy of the plans and application to which the approval refers;

(2) A record of each serial number assigned and affixed by the manufacturer to the containers manufactured under a design type approval;

(3) A copy of each individual certificate of approval of a container or road vehicle that is issued; and

(4) All applications submitted in accordance with the requirements contained in §§ 422.2, 423.2, or 424.2 of this subchapter and any information submitted by a manufacturer for the certification of a container or a road vehicle.

(b) The Commandant or a representative of the Commandant may examine, at reasonable times, the certifying authority's files required by paragraph (a) of this section.

14. By revising § 421.31 to read as follows:

§ 421.31 Records to be furnished the Commandant.

Each certifying authority shall supply the Commandant (MHM), Room 8306, 400 Seventh Street SW., Washington, DC 20590, with—

(a) A copy of each issued certificate of approval for containers by design type and a copy of the plans and application to which the approval refers;

(b) A copy of each issued individual approval for a container or road vehicle; and

(c) Notification of each arrangement approved as an equivalent to the requirements of the Customs convention of the international transport of goods undercover of TIR carnets (TIR Convention), January 15, 1959 (20 UST 184, TIAS 633), as modified by applicable resolutions, as provided in §§ 422.3a(b), 423.3a(b), or 424.4(b) of this subchapter.

15. By adding a new § 421.31a to follow § 421.31 to read as follows:

§ 421.31a Meetings on program.

Each certifying authority's representative for certification functions shall meet after notice with the Commandant or his representatives to review their administration of the certification program.

16. By revising the heading of § 421.32 to read as follows:

§ 421.32 Reports by container manufacturer.

. . . . . .

17. By revising § 421.33 to read as follows:

§ 421.33 Notification of Certifying Authority prior to container production.

The manufacturer shall notify the certifying authority before each production run of containers to be built pursuant to a certificate of approval by design type in order that the certifying authority can schedule any necessary inspection.

18. By revising § 421.40 to read as follows:

§ 421.40 Appeal to Commandant.

(a) Any manufacturer, carrier, or owner may within 30 days after he has been notified by a certifying authority of a determination, including any review provided, appeal the determination to the Commandant.

(b) Any determination which is appealed remains in effect pending a decision by the Commandant.

V 37-223 NOV 17 72 XUM

§ 421.50 [Revoked]

19. By revoking § 421.50.

PART 422—PROCEDURES FOR APPROVAL OF CONTAINERS BY DESIGN TYPE

20. By revising the authority of Part 422 to read as follows:

AUTHORITY: The provisions of this Part 422 issued under E.O. 11459, 3 CFR, 1966–70 COMP., p. 781 (1969); and 49 CFR 1.46(f).

21. By adding §§ 422.1a and 422.1b to follow § 422.1 and to read as follows:

§ 422.1a Eligibility.

Any manufacturer of containers that are being manufactured in a type series from a standard design and specifications so that each container has identical characteristics may apply for an approval by design type.

§ 422.1b Where to apply.

A manufacturer may apply for approval of a container by design type to a certifying authority of the country in which the owner is resident or established.

22. By revising §§ 422.2 and 422.3 to read as follows:

§ 422.2 Application for approval.

Each application by a manufacturer or an owner for certification of a container by design type must include—

(a) Four copies, each no larger than 3 feet by 4 feet, of the Customs and TIR plan;

(b) Customs and TIR plan number;

(c) Four copies of the specifications which include the following information:

(1) The name and address of the manufacturer or the owner; and

(2) A descripion of the container including the—

(i) Type of construction;

(ii) Dimensions;

(iii) Material of construction;

(iv) Coating system used;

(v) Identification marks and numbers; and

(vi) Tare weight;

(d) The location and date for inspection of the prototype; and

(e) A statement signed by the manufacturer that—

(1) A container of the design type concerned is available for inspection and approval by the certifying authority before, during, and after the production run;

(2) Notification will be given to the certifying authority of each change in the design before adoption; and

(3) Each container will be marked with—

(i) The metal plate required in § 422.5;

(ii) The identification numbers or letters of the design type assigned by the manufacturer; and

(iii) The serial number of the container assigned by the manufacturer.

§ 422.3 Plan review.

(a) A manufacturer who wants a container to be approved by design type must submit to the certifying authority the plans and specifications of the container.

(b) The certifying authority that examines the plans and specifications submitted in accordance with paragraph (a) of this section—

(1) Approves the plans and specifications in accordance with the requirements of § 422.3a and arranges to inspect a prototype in accordance with § 422.4; or

(2) Advises the manufacturer of any necessary changes to be made for compliance with the requirements of § 422.3a.

(c) If changes in design of the container are made during production but after approval of the plans and specifications by the certifying authority, the manufacturer must furnish "as-built" drawings of the container to the certifying authority before an inspection of the prototype is made.

23. By adding § 422.3a to follow § 422.3 and to read as follows:

§ 422.3a Technical requirements for containers by design type.

(a) The plans and specifications of a container that are submitted in accordance with the requirements contained in § 422.3 and the one or more containers that are inspected in accordance with the requirements of § 422.4 must comply with the requirements of Annex 6, as modified by applicable resolutions, of the Customs Convention on the International Transport of Goods Under Cover of TIR Carnets (TIR Convention), January 15, 1959 (20 UST 184, TIAS 6633). Copies of Annex 6, as modified by applicable resolutions, may be obtained from the Coast Guard (MHM), Room 8306, 400 7th Street SW., Washington, DC 20590.

(b) If any of the requirements in articles 1 through 3 of annex 6 are not compatible with the technical requirements that insulated and refrigerator containers, furniture containers, tank containers, and containers specially built for carriage by air must fulfill in use, the certifying authority may approve other arrangements that are equivalent to the requirements in annex 6 and serve the purpose for which the certification is intended.

24. By amending § 422.4 by deleting paragraph (b), and revising the heading of § 422.4 to read as follows:

§ 422.4 Examination, inspection, and testing.

* * * * *

PART 423—PROCEDURES FOR INDIVIDUAL APPROVAL OF CONTAINERS

25. By revising the authority citation of Part 423 to read as follows:

AUTHORITY: The provisions of this Part 423 issued under E.O. 11459, 3 CFR, 1966–70 COMP., p. 781 (1969); and 49 CFR 1.46(f).

§ 423.2 [Amended]

26. By amending the introductory text of § 423.2 by adding the word "written" after the first word "A" and striking the word "shall" and inserting "may" in place thereof, and striking the second "shall" and inserting "must" in place thereof.

27. By revising § 423.3 to read as follows:

§ 423.3 Eligibility.

Individual containers may be submitted for inspection by the owner to a certifying authority—

(a) In the country in which the owner is a resident or established; or

(b) In the country in which the container is used for the first time for transport under Customs seal.

28. By adding § 423.3a to follow § 423.3 and to read as follows:

§ 423.3a Technical requirements for containers.

(a) A container that is submitted for inspection for individual approval must comply with the requirements of Annex 6, as modified by applicable resolutions, of the Customs Convention on the International Transport of Goods Under Cover of TIR Carnets (TIR Convention), January 15, 1959 (20 UST 184, TIAS 6633). Copies of Annex 6, as modified by applicable resolutions, may be obtained from the Coast Guard (MHM), Room 8306, 400 Seventh Street SW., Washington, DC 20590.

(b) If any of the requirements in Articles 1 through 3 of Annex 6 are not compatible with the technical requirements that insulated and refrigerator containers, furniture containers, tank containers, and containers specially built for carriage by air must fulfill in use, the certifying authority may approve other arrangements that are equivalent to the requirements in Annex 6 and serve the purpose for which the certification is intended.

29. By revising § 423.4 to read as follows:

§ 423.4 Approval of individual containers.

The certifying authority issues an individual certificate of approval, valid for 2 years, for each container that meets the requirements in § 423.3a.

30. By adding a new § 423.4a to follow § 423.4 and to read as follows:

§ 423.4a Certificate of approval.

A certificate of approval framed as required in Article 1–4 of Annex 6, Customs Convention on the International Transport of Goods Under Cover of TIR Carnets (TIR Convention), is evidence of approval if it remains sealed in the protective frame.

31. By revising §§ 423.5 and 423.6 to read as follows:

§ 423.5 Renewal of certificate.

A certificate of approval may be renewed if the Certifying Authority determines by inspection every 2 years that the container continues to comply with the applicable requirements in § 423.3a.

§ 423.6 Termination of approval.

Approval of a container terminates—

(a) Upon expiration of the certificate of approval;

(b) Upon a change in the container by a major repair or alteration of any of the essential features required in § 423.3a. Repairs by replacement in kind do not constitute a change of the essential features; or

(c) Upon a change of ownership.

PART 424—PROCEDURES FOR APPROVAL OF INDIVIDUAL ROAD VEHICLES

32. By revising the heading of Part 424 as set forth above, and by revising Part 424 to read as follows:

Sec.
424.1 General.
424.2 Application for approval.
424.3 Eligibility.
424.4 Technical requirements for road vehicles.
424.5 Approval of individual road vehicles.
424.6 Certificate of approval.
424.7 Renewal of certificate.
424.8 Termination of approval.

AUTHORITY: The provisions of this Part 424 issued under E.O. 11459, 3 CFR, 1966–1970 COMP., p. 781 (1969); and 49 CFR 1.46(f).

§ 424.1 General.

This part provides for the approval and certification of individual road vehicles that comply with the technical requirements in § 424.4.

§ 424.2 Application for approval.

A written request for approval of an individual road vehicle may be made by the manufacturer, owner, or carrier to a certifying authority and must include—

(a) Type of vehicle;

(b) Name and business address of owner or carrier;

(c) Name of the manufacturer;

(d) Chassis number;

(e) Engine number (if applicable);

(f) Registration number;

(g) Particulars of construction;

(h) Any photos or diagrams required by the certifying authority to facilitate approval; and

(i) A proposed place and date for inspection of the road vehicle.

§ 424.3 Eligibility.

A road vehicle may be submitted for inspection by the manufacturer, owner, or carrier to a certifying authority of the country in which the manufacturer, owner, or carrier, respectively, is resident or established.

§ 424.4 Technical requirements for road vehicles.

(a) A road vehicle that is submitted for inspection for individual approval must comply with the requirements of Annex 3, as modified by applicable resolutions, of the Customs Convention on the International Transport of Goods Under Cover of TIR Carnets (TIR Convention), January 15, 1959 (20 UST 184, TIAS 6633). Copies of Annex 3, as modified by applicable resolution, may be obtained from the Coast Guard (MHM), Room 8306, 400 Seventh Street SW., Washington, DC 20590.

(b) If any of the requirements in Articles 1 through 3 of Annex 3 are not compatible with the technical requirements that insulated vehicles, refrigerator vehicles, furniture vehicles, and tank vehicles must fulfill in use, the certifying authority may approve other arrangements that are equivalent to the requirements in Annex 3 and serve the purpose for which the certificate is intended.

§ 424.5 Approval of individual road vehicles.

The certifying authority issues a certificate of approval, valid for 2 years, to each road vehicle that complies with the applicable requirements in § 424.4.

§ 424.6 Certificate of approval.

A certificate of approval must be kept on the vehicle as evidence of approval.

§ 424.7 Renewal of certificate.

A certificate of approval may be renewed if the certifying authority determines by inspection every 2 years that the vehicle continues to comply with the applicable requirements in § 424.4.

§ 424.8 Termination of approval.

Approval of a road vehicle terminates—

(a) Upon expiration of the certificate of approval;

(b) Upon a change in the road vehicle by a major repair or alteration of any of the essential features required in § 424.4. Repairs by replacement in kind do not constitute a change of the essential features; or

(c) Upon a change of ownership.

These amendments are proposed under the authority of Executive Order 11459, 3 CFR, 1966–1970 COMP., p. 781 (1969); and 49 CFR 1.46(f).

Dated: November 14, 1972.

G. H. READ,
Captain, U.S. Coast Guard, Acting Chief, Office of Merchant Marine Safety.

[FR Doc.72-19822 Filed 11-16-72;8:49 am]

Federal Aviation Administration

[14 CFR Part 71]

[Airspace Docket No. 72-WE-44]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Yuma, Ariz., transition area.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Chief, Airspace and Procedures Branch, Federal Aviation Administration, 5651 West Manchester Avenue, Post Office Box 92007, Worldway Postal Center, Los Angeles, CA 90009. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the regional air traffic division chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in light of the comments received.

A public docket will be available for examination by interested persons in the office of the Regional Counsel, Federal Aviation Administration, 5651 West Manchester Avenue, Los Angeles, CA 90045.

A recent amendment was made to the Yuma, Ariz., transition area (ASD No. 72-WE-37) that will become effective December 7, 1972. Subsequent review of the airspace requirements revealed that due to the ceiling established for V-135 additional airspace is required to protect aircraft executing the HI-TACAN Runway 21R and HI-VORTAC Runway 17 instrument approach procedures to Yuma MCAS/Yuma International Airport. Action is proposed herein to affect this change.

In consideration of the foregoing, the FAA proposes the following airspace action.

In § 71.181 (37 F.R. 2143) the description of the Yuma, Ariz., transition area as amended by (37 F.R. 22576) is further amended by adding "• • •, that airspace extending upward from 9,000 feet MSL bounded on the west by the west edge of V-135, on the east by R-2306C and R-2306A, extending from 20 miles north of the Yuma VORTAC to the arc of a 20-mile radius circle centered on the Blythe, Calif. VORTAC."

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958, as amended, (49 U.S.C. 1348(a)), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Los Angeles, Calif., on November 8, 1972.

ROBERT O. BLANCHARD,
Acting Director, Western Region.

[FR Doc.72-19769 Filed 11-16-72;8:45 am]

V37-1723 NOV 17 72 XUM

Federal Railroad Administration

[49 CFR Part 215]

[Docket No. RSFC–2, Notice 1]

RAILROAD FREIGHT CARS

Lubrication of Journal Bearings

On September 15, 1972, the Federal Railroad Administration (FRA) issued a notice of proposed rule making to add a new Part 215 to the Code of Federal Regulations (37 F.R. 19821). Part 215 would set forth minimum Federal safety standards for railroad freight cars. The notice stated that in addition to the standards proposed at that time further rule making would be initiated to consider requirements for the lubrication of journal bearings. The FRA is initiating this separate proceeding to establish the lubrication requirements because they differ in nature from the rules proposed by the earlier notice for inclusion in Part 215.

The FRA accident statistics for the years 1968 through 1970, based on reports filed by the railroads involved, show that about 500 accidents per year were caused by the failure of journal bearings. Moreover, these accidents resulted in an extremely large amount of damage. For example, in 1969 the total cost of accidents reported to the FRA resulting from journal bearing failures was more than $20 million. This was approximately one half the cost of all train accidents caused by equipment failures reported to the FRA that year.

To reduce the number of journal bearing related accidents, the FRA is considering an amendment to the proposed Part 215 that would revise the stenciling requirements of § 215.11(b) and add a new subheading, entitled "Journal Bearing Lubrication," to subpart E. Two sections under the new subheading would require plain bearing boxes and roller bearings to be lubricated at recurring intervals in accordance with prescribed procedures. Each lubrication of plain bearing boxes would also entail maintenance which is necessary at that time. A third section would require that each railroad freight car be restenciled in accordance with § 215.11(b)(5) after its journal bearings are lubricated to update the lubrication information stenciled on the car. Under a fourth section, if any of the required stenciling relating to lubrication is missing, incorrect, or indistinct, the journal bearings on the car would have to be lubricated at once, or the car removed from service. Lubrication and stenciling would be carried out by whichever railroad has control of the car at the time lubrication is due.

The proposals for journal bearing lubrication contained in this notice are not new as far as the Nation's railroads are concerned. They are the first step toward codification of the railroad industry's own rules for cars in interchange. Unfortunately, not all railroads have complied with these self-imposed rules, as indicated by the large number of train accidents attributed to journal bearing failures. Consequently, the FRA is commencing this action to make the periodic lubrication of journal bearings a mandatory requirement subject to the penalty and injunctive relief provisions of the Federal Railroad Safety Act of 1970. Furthermore, the requirements would apply to all railroad freight cars and not merely those in interchange.

Under the proposed rules, the journal bearings on a new or newly reconditioned freight car that is placed in service after the effective date of the rules would be lubricated within a certain period subsequent to the time the car is built or reconditioned, and periodically thereafter. A new or reconditioned car would not have to be lubricated before being released for service because all new cars and cars which meet the definition of "reconditioned" under Part 215 would already be fully lubricated. As for those existing cars which meet the proposed lubrication requirements, the next lubrication would be due within a prescribed time after the bearings were last lubricated (including lubrication at the time of original construction or reconditioning) as indicated by the stenciling on the car. If there is no stenciling on a car to indicate the time it was last lubricated or the car does not otherwise meet the proposed lubrication requirements, then it would be lubricated as proposed or removed from service.

In consideration of the foregoing, it is proposed to amend Title 49 of the Code of Federal Regulations as follows:

1. By revising paragraph (b) of the proposed § 215.11 to read as follows:

§ 215.11 Stenciling.

* * * * *

(b) The following must be stenciled in letters and numbers at least 1 inch high on each side of each car body:

(1) The date of original construction, preceded by the word "built."

(2) If applicable, the date the car was last reconditioned, preceded by the word "reconditioned."

(3) If the car is equipped with plain bearing boxes—

(i) The symbol "RPKD"; or

(ii) In the case of boxes with rear seals, box lid seals, and journal stops, the symbol "RPKD–30."

(4) If the car is equipped with roller bearings, the symbol "LUB."

(5) Following the symbol stenciled under subparagraph (3) or (4) of this paragraph—

(i) The date all journal bearings were last lubricated;

(ii) The name of the railroad or other entity who performed the lubrication; and

(iii) The location where the bearings were lubricated.

2. By adding the following new centerheading and sections to the proposed Part 215:

JOURNAL BEARING LUBRICATION

§ 215.97 Plain bearing boxes.

(a) A railroad may not operate a railroad freight car which is equipped with plain bearing boxes unless within the preceding 24 months, or in the case of a car whose plain bearing boxes are equipped with rear seals, box lid seals, and journal stops, within the preceding 30 months—

(1) The plain bearing boxes were repacked as prescribed by paragraph (b) of this section; or

(2) The car was reconditioned or originally constructed.

(b) A plain bearing box must be repacked according to the following rules:

(1) Remove journal bearing, wedge, and lubricator, and thoroughly clean the box, including inside of lid and front of box that may contact the lubricator, without using waste material for cleaning purposes;

(2) Examine the journal, journal bearing, wedge, journal stop, and box lid seal, and replace each defective part;

(3) Replace old lubricator with a new one;

(4) Replace dust guard plug when missing or defective, and apply sealer to top of plug;

(5) In the case of a wooden dust guard plug, lock it securely in place;

(6) If car truck is dismantled, examine the rear seal and replace if defective; and

(7) Add free oil up to collar of journal to permit resaturation of the lubricator, then before the car is released for service, check to ensure that at least ½ inch of free oil is visible in the bottom of the box.

§ 215.99 Roller bearings.

(a) A railroad may not operate a railroad freight car which is equipped with roller bearings unless—

(1) The roller bearings have been lubricated as prescribed by the following chart and by paragraphs (b) and (c) of this section; or

(2) The car was reconditioned or originally constructed within the number of months prescribed in the chart for lubricating its roller bearings:

Description of bearing	Size of bearing	Amount of lubricant required	Lubricate bearings within the following number of months before car is operated
Oil lubricated	All	Fill to maximum level	12
Grease lubricated, and caps do not rotate.	12 inches	12 ounces	18
	11 inches or less	8 ounces	
Grease lubricated, and caps rotate.	All	16 ounces	36

(b) In the case of an oil lubricated roller bearing, the filling plug must be properly replaced after the bearing is lubricated.

(c) A grease lubricated roller bearing must be lubricated by—

(1) Cleaning the grease fitting immediately before the application of grease to prevent road dirt and foreign material from being forced into the bearing; and

(2) Using a properly calibrated dispensing device equipped with a strainer that is checked weekly to accurately measure ounces of grease.

(d) A pipe plug on a grease lubricated roller bearing must be replaced with a grease fitting.

§ 215.101 Restenciling required.

When the journal bearings on a railroad freight car are lubricated as prescribed by § 215.97 or § 215.99, the information stenciled on the car in accordance with § 215.11(b)(5) must be erased and replaced with new information which meets the requirements of that section.

§ 215.103 Missing, incorrect, or indistinct stenciling.

Whenever any portion of the information which must be stenciled on a railroad freight car under § 215.11(b)(3)–(5) is missing, incorrect, or indistinct, the journal bearings on that car must be lubricated as prescribed by § 215.97 or § 215.99.

Interested persons are invited to participate in making these safety standards by submitting written data, views, or comments. Communications should identify the docket number and notice number and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Attention: Docket No. RSFC–2, 400 Seventh Street SW., Washington, DC 20590. Communications received before January 15, 1973, will be considered by the Federal Railroad Administrator before taking final action on the proposed standards. Comments received after that date will be considered so far as practicable. All comments received will be available for examination by interested persons at any time during regular working hours in Room 5428, Nassif Building, 400 Seventh Street SW., Washington, DC. The proposals contained in this notice may be changed in light of comment received.

In addition, to insure that all interested persons have an opportunity for oral presentation, the FRA will conduct a public hearing at 10 a.m. on January 24, 1973, in Room 5332, 400 Seventh Street SW., Washington, DC.

The hearing will be an informal one, not a judicial or evidentiary type of hearing. There will be no cross-examination of persons making statements. A staff member of the FRA will make an opening statement outlining the matter set for hearing. Interested persons will then have an opportunity to present their initial oral statements. At the completion of all initial oral statements, those persons who wish to make rebuttal statements will be given the opportunity to do so in the same order in which they made their initial statements. Additional procedures for conducting the hearing will be announced at the hearing.

Interested persons may present oral or written statements at the hearing. All statements will be made a part of record of the hearing and be a matter of public record. Persons who wish to make oral statements at the hearing should notify the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, DC 20591, before January 24, 1973, stating the amount of time required for his initial statement.

This notice is issued under the authority of section 202, 84 Stat. 971, 45 U.S.C. 431; and § 1.49(n) of the regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(n).

Issued in Washington, D.C. on November 13, 1972.

JOHN W. INGRAM,
Administrator.

[FR Doc.72-19827 Filed 11-16-72;8:49 am]

[49 CFR Part 215]

[Docket No. RSFC–3, Notice 1]

RAILROAD FREIGHT CARS

Prohibited Equipment

On September 15, 1972, the Federal Railroad Administration (FRA) issued a notice of proposed rulemaking to add a new Part 215 to the Code of Federal Regulations (37 F.R. 19821). Part 215 would set forth minimum Federal safety standards for railroad freight cars. The notice stated that in addition to the standards proposed at that time further rulemaking would be initiated to consider prohibiting the use of certain types and models of freight car components. The FRA is initiating this separate proceeding to propose these new requirements, because they differ in nature from the rules proposed by the earlier notice for inclusion in Part 215.

The new rule proposed by this notice would prohibit railroads from operating a railroad freight car which is equipped with any of the components listed hereafter in the proposed Appendix B. For the most part, Appendix B specifies modes or types of freight car components which have been prohibited by the Association of American Railroads from use on cars in interchange. The remainder of the components included in Appendix B are presently required by the industry rules to be removed from a car in interchange when its truck is dismantled or the car is otherwise repaired. It has been the industry practice to initially call for the gradual removal of a particular component before it is prohibited from use entirely. However, because unsafe equipment is involved, the FRA has combined these two categories into a single list of prohibited components.

In determining which components should be included in Appendix B, the FRA has examined comparative failure rates. For example, in 1971, out of 2,906 cars in service equipped with NSK roller bearings marked "AAR 11," there were 14 roller bearing failures. This is a failure rate of one for every 208 cars. On the other hand, the failure rate for 429,000 cars with Timken roller bearings was one for every 1,032 cars.

Although a component may be included in Appendix B, this should not hinder the development of a new design or material for that component. For example, section VIII a.(2) of Appendix B would prohibit the use of a truck frame cast from any material other than steel because at present only steel truck frames are considered safe to use. However, if it can be shown that a truck frame made from some other material is also safe, then the Administrator will consider permitting the use of the other material.

In addition to prohibiting railroads from operating a car equipped with any component listed in Appendix B, the proposed rule would also prohibit the operation of any car which is more than 50 years old. Fifty years is considered the age limit beyond which cars cannot be reasonably operated safely. Cars of this vintage have been prohibited in interchange by the AAR rules. Consequently, the proposal to remove them from service is not expected to cause a hardship on the industry. Nevertheless, if the proposed rule is adopted, any railroad that wishes to operate a car which is more than 50 years old could petition the Administrator for a waiver of compliance with the rule. The Administrator would grant a waiver only if he finds it in the public interest and consistent with railroad safety. (See the proposed section on waivers at 37 F.R. 19822.)

In recent years, cars with Duryea underframes manufactured prior to April 1, 1950, have had a high failure rate. The AAR rules require that these cars be removed from service by January 1, 1974. The FRA believes the problem requires more immediate action. Therefore, these cars have been included in the list of cars the proposed rule would prohibit from service.

It is important to note that the rule proposed by this notice would apply to all railroad freight cars and not merely those in interchange. Although the proposed rule is primarily a restatement of certain AAR rules, each railroad that wishes to comment on the proposal should consider the effect it may have on cars which are not operated in interchange.

In consideration of the foregoing, it is proposed to amend Title 49 of the Code of Federal Regulations by adding the following new section and appendix to the proposed Part 215:

§ 215.19 Prohibited cars.

No railroad may operate a railroad freight car which—

XUM
V37-1723 NOV 17 72 XUM

(a) Is more than 50 years old, measured from the date of original construction;

(b) Was originally constructed before April 1, 1950, and is equipped with a Duryea underframe; or

(c) Is equipped with any model or type car component listed in Appendix B of this part.

APPENDIX B—PROHIBITED RAILROAD FREIGHT CAR COMPONENTS

I. *General.* This appendix identifies or describes components which are prohibited from use on railroad freight cars to which this part applies.

II. *Air brakes.* The "K" type air brake may not be used on any car.

III. *Axles.* The AAR alternate standard tubular type axle may not be used on any car.

IV. *Plain bearings.* The solid cartridge type plain bearing may not be used on any car.

V. *Roller bearings.* The following roller bearings may not be used on any car:

(1) Nippon Sieko Kabushiki Kaisha ("NSK") size 6½" by 12" (marked "AAR 11").

(2) Hyatt "Hy-Roll" cylindrical bearing, all sizes (marked "AAR 2").

(3) SKF "Piggybacker" spherical roller, size 6" by 11" (marked "AAR 7").

VI. *Couplers.* The following couplers may not be used on any car:

(1) AAR type D coupler, top or bottom operated.

(2) AAR type E coupler, 5" by 7" shank (E63, E63HT, and E63AHT).

VII. *Draft gears.* The Miner FR–16 and FR–19F draft gears may not be used on any car.

VIII. *Trucks.*

a. None of the following components may be used on a car truck:

(1) Arch bar.

(2) Frame cast from a material other than steel.

(3) Transom frame.

(4) Bolster cast from a material other than steel.

b. A car truck with a cast steel pedestal-type side frame, short wheelbase, and no bolster may not be used on any car.

IX. *Truck bolsters.* A car truck may not contain a bolster which—

(1) Was cast prior to 1927;

(2) Does not have an identification mark or pattern number; or

(3) Has any of the following pattern numbers listed under the name of the manufacturer:

A.S.F.	Dresser (Symington)	Birdsboro	Lenoir car works
21183-B	BO 5234	1488	CS–184
21183-N	BO 5263	1171	CS–611
21413-D	BO 7056	1494	
21648-C	BO 7076-A	1668	
22956-E	BO 7115		

X. *Truck side frames.* A car truck may not contain a side frame which—

(1) Was cast prior to 1927;

(2) Does not have an identification mark or pattern number;

(3) Has an "I", "T", or "L" section compression or tension member; or

(4) Has any of the following pattern numbers listed under the name of the manufacturer:

A.S.F.	National castings	Buckeye	Dominion
7273	33793-1B	3–1776	TF–5100
7323		F–420	
21362 (cast prior to June 1941).			

Pittsburgh Steel Foundry	Scullin Steel	Bettenforf	Canadian Steel Foundry
3–1673	42–CS–180	UT 456	26565
4–1862	4151		
3–1674	4665		
4–2015	4770		
12897	4942		
12921	5290		
21263	5361		
	5361–C.F.		
	5811–A		
	5869–B		
	6577–A		

XI. *Wheels.* The following wheels may not be used on any car:

(1) Cast iron wheel.

(2) Cast steel wheel marked "AAR X–2".

(3) Cast steel wheel marked "AAR X–4".

(4) Davis cast steel wheel.

(5) Southern cast steel wheel manufactured before May 7, 1958.

(6) Griffin cast steel wheel, 70 ton three-riser ball rim design.

(7) Wrought steel wheels manufactured before 1927.

(8) Griffin cast steel wheel, 70 and 50 ton, 33 inch tow wear, three riser (marked "X5" or "CS–2").

XII. *Yokes.* A yoke described as follows may not be used on any car:

(1) Riveted type;

(2) Keyless type;

(3) Vertical key type; or

(4) Has a Farlow draft attachment.

Interested persons are invited to participate in making these safety standards by submitting written data, views, or comments. Communications should identify the docket number and notice number and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Attention: Docket No. RSFC–3, 400 7th Street SW., Washington, DC 20590. Communications received before January 15, 1973, will be considered by the Federal Railroad Administrator before taking final action on the proposed standards. Comments received after that date will be considered so far as practicable. All comments received will be available for examination by interested persons at any time during regular working hours in room 5428, Nassif Building, 400 7th Street SW., Washington, DC. The proposals contained in this notice may be changed in light of comment received.

In addition, to insure that all interested persons have an opportunity for oral presentation, the FRA will conduct a public hearing at 10 a.m. on January 25, 1973, in room 5332, 400 7th Street SW., Washington, DC.

The hearing will be an informal one, not a judicial or evidentiary type of hearing. There will be no cross-examination of persons making statements. A staff member of the FRA will make an opening statement outlining the matter set for hearing. Interested persons will then have an opportunity to present their oral statements. At the completion of all initial oral statements, those persons who wish to make rebuttal statements will be given the opportunity to do so in the same order in which they made their initial statements. Additional procedures for conducting the hearing will be announced at the hearing.

Interested persons may present oral or written statements at the hearing. All statements will be made a part of record of the hearing and be a matter of public record. Persons who wish to make oral statements at the hearing should notify the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, DC 20591, before January 25, 1973, stating the amount of time required for his initial statement.

This notice is issued under the authority of section 202, 84 Stat. 971, 45 U.S.C. 431; and § 1.49(n) of the regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(n).

Issued in Washington, D.C., on November 13, 1972.

JOHN W. INGRAM,
Administrator.

[FR Doc.72-19828 Filed 11-16-72;8:49 am]

FEDERAL COMMUNICATIONS COMMISSION

[47 CFR Part 76]

[Docket No. 19554]

CABLECASTING OF PROGRAMS

Extension of Time for Filing Reply Comments

Order. In the matter of amendment of Part 76, Subpart G, of the Commission's rules and regulations pertaining to the cablecasting of programs for which a per-program of perchannel charge is made, Docket No. 19554.

1. In a petition filed jointly on behalf of the American Broadcasting Co., the Association of Maximum Service Telecasters, the National Association of Theatre Owners, and the National Association of Broadcasters, an extension of the date for filing reply comments in the captioned proceeding from November 15, 1972, to November 29, 1972, is requested.

2. In support of this request, petitioners state that 22 separate comments were filed totaling 651 pages and that more time is needed to adequately respond to the many policy questions raised. Petitioners indicate that counsel for the National Cable Television Association and the Program Suppliers have no objection to a grant of the requested extension.

3. It appears that good cause has been shown for a time extension for the filing of reply comments until November 29, 1972, and the request will accordingly be granted.

Accordingly, it is ordered, That the "Joint Petition for Extension of Time for Filing Reply Comments" filed November 8, 1972, by the American Broadcasting Co., the Association of Maximum Service Telecasters, the National Association of Theatre Owners, and the National Association of Broadcasters is granted and the date for filing reply comments in this proceeding is extended until November 29, 1972.

This action is taken by the Chief, Cable Television Bureau, pursuant to authority delegated by § 0.289(c)(4) of the Commission's rules.

Adopted: November 9, 1972.

Released: November 10, 1972.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] SOL SCHILDHAUSE,
Chief, Cable Television Bureau.

FEDERAL POWER COMMISSION

[18 CFR Part 2]

[Docket No. R–362]

RELIABILITY AND ADEQUACY OF ELECTRIC SERVICE

Regional Bulk Power Supply Programs; Information To Be Reported

NOVEMBER 10, 1972.

Consistent with the purposes of the Commission's Order Nos. 383, issued June 25, 1969, 41 FPC 846 (34 F.R. 11200), 383–1, issued January 13, 1970, 43 FPC 37 (35 F.R. 3240), and 383–2, issued April 10, 1970, 43 FPC 515 (35 F.R. 6121), this order submits for public comment proposed revisions of the information to be submitted annually pursuant to § 2.11(c), Informational reporting, Part 2, General Policy and Interpretations, Chapter I, Title 18 of the Code of Federal Regulations. The changes would expand the reported load and capacity data from a forward projection of 10 years to a period of 20 years into the future. Similarly, the transmission network projections would extend 20 years ahead. The changes would also provide for the submission of increased annual energy requirements data; information relative to alternate fuel use capability of existing and proposed generating capacity; scheduled maintenance on generating capacity and the time relation to summer and winter peaks; data relative to transmission transfer capability within regions and among regions, operating reserve policies and interregional coordination in scheduled maintenance programs.

The Commission proposes that these changes be reflected in data to be submitted in the reporting by regional councils commencing with the calendar year 1972 data, reports filed not later than April 1973, and for years thereafter. § 2.11(c) states in part as follows:

• • • Advance planning and operating data from all segments of the industry, including those operated by the State or Federal Governments or political subdivisions, agencies, or instrumentalities thereof, and cooperatively owned associations, all reporting to and coordinated by regional councils, will assist in the accurate forecasting of power demands and in the appropriate and timely installation of generating and transmission facilities to meet these demands.

• • • • • •

Power pools and other utility groups that coordinate their planning and operations will report the coordinated data to their respective councils. Individual utilities that are not members of pools will, of course, report directly to their regional councils. Utilities that are not members of regional councils, or not interconnected with other utilities, are requested to furnish to the reliability council representing their geographic area as much of the information specified in appendix A as may be pertinent to their circumstances. Cooperation in this respect will lay the foundation for improvement in the reliability and adequacy of our national power supply.

Each change appears with marginal notation as set forth below. The changes may be seen from a comparative reading of appendix A as heretofore promulgated by Order No. 383–2 and the proposed revised appendix. When adopted, the revised appendix, to be designated as appendix A–1, would be in substitution for the appendix A as referred to in Order 383–2 and § 2.11 *Reliability and adequacy of electric service.*

APPENDIX A PER ORDER NO. 383–2

1. Estimates of monthly peak loads for the first 2 years of the projection; estimates of summer and winter peak loads for the remaining 8 years; and monthly energy requirements for the first 2 years if energy substantially influences planning and operation.

2. Itemization of all existing capacity resources in the region and new capacity resources (or retirements) as committed or projected for each year 10 years into the future; including, where known, in-service dates, locations, ownership, and types of future generating units, and capacity exchanges with others at the time of summer and winter peak demands.

3. For each year of the 10-year projection, show the indicated capacity margins for reserves at the time of summer and winter peak loads, based on Items (1) and (2) above, with an assessment of adequacy of reserves for the first 5 years of the projection. Include a statement of the criteria now being used in determining reserve requirements by the Council or its appropriate subdivisions.

4. For each steam generating unit of 300 mw. or more, and for which construction has begun; or is scheduled to begin within 2 years from the date of reporting, a status report on the proposed plan of cooling, and for fossil-fired plants, the fuels proposed and the plan for controlling stack emissions; also, the status of principal studies or model tests and the status of consultations with appropriate local, State, or Federal authorities concerned.

5. A plan of the bulk power transmission network of the region in service at the time of the report (including interties with adjoining regions) and the general routing of facilities committed or tentatively projected for service within 6 years including identification of principal substations, operating voltages and projected in-service dates. In addition, show the transmission facilities projected for the balance of the 10-year period based upon the best information available.

PROPOSED APPENDIX A–1

1. Estimates of monthly peak loads for the first 2 years of the projection; estimates of summer and winter peak loads for the following 8 years; and monthly energy requirements for the first 2 years and annual energy requirements the following eight.

2. Itemization of all existing capacity resources in the region and new capacity resources (or retirements) as committed or projected for each year 10 years into the future; including, where known, in-service dates, locations, ownership, types of future generating units, primary fuel, and capability for use of alternate fuels including handling and storage capacity, and capacity exchanges with others at the time of summer and winter peak demands.

3. For each year of the 10-year projection, show the indicated capacity margins for reserves at the time of summer and winter peak loads, based on items (1) and (2) above, with an assessment of adequacy of reserves for the first 5 years of the projection. Include a statement of the criteria now being used in determining reserve requirements by the Council or its appropriate subdivisions: Also include an estimate of capacity which will be scheduled out for maintenance at the time of the summer and winter peak for the next 5 years.

4. For each steam generating unit of 300 mw. or more, and for which construction has begun; or is scheduled to begin within 2 years from the date of reporting, a status report on the proposed plan of cooling, and for fossil-fired plants, the fuels proposed and the plan for controlling stack emissions; also, the status of principal studies or model tests and the status of consultations with appropriate local, State, or Federal authorities concerned.

5. A plan of the bulk power transmission network of the region in service at the time of the report (including interties with adjoining regions) and the general routing of facilities committed or tentatively projected for service within 6 years including identification of principal substations, operating voltages, and projected in-service dates. In addition, show the transmission facilities projected for the balance of the 10-year period based upon the best information available.

APPENDIX A PER ORDER NO. 383–2

1. Estimates of monthly peak loads for the first 2 years of the projection; estimates of summer and winter peak loads for the remaining 8 years; and monthly energy requirements for the first 2 years if energy substantially influences planning and operation.

2. Itemization of all existing capacity resources in the region and new capacity resources (or retirements) as committed or projected for each year 10 years into the future; including, where known, in-service dates, locations, ownership, and types of future generating units, and capacity exchanges with others at the time of summer and winter peak demands.

3. For each year of the 10-year projection, show the indicated capacity margins for reserves at the time of summer and winter peak loads, based on Items (1) and (2) above, with an assessment of adequacy of reserves for the first 5 years of the projection. Include a statement of the criteria now being used in determining reserve requirements by the Council or its appropriate subdivisions.

4. For each steam generating unit of 300 mw. or more, and for which construction has begun; or is scheduled to begin within 2 years from the date of reporting, a status report on the proposed plan of cooling, and for fossil-fired plants, the fuels proposed and the plan for controlling stack emissions; also, the status of principal studies or model tests and the status of consultations with appropriate local, State, or Federal authorities concerned.

5. A plan of the bulk power transmission network of the region in service at the time of the report (including interties with adjoining regions) and the general routing of facilities committed or tentatively projected for service within 6 years including identification of principal substations, operating voltages and projected in-service dates. In addition, show the transmission facilities projected for the balance of the 10-year period based upon the best information available.

PROPOSED APPENDIX A–2

The proposed changes are designed to

APPENDIX A PER ORDER NO. 383-2

6. A plotting and a description of the base case for load flow studies of the bulk power network of the region (or principal subdivisions) as it exists, substantially, at the time of reporting and as projected 4 to 6 years in the future; and a tabulation and brief statements on the results of a representative number of contingency cases studied; and similarly, information on stability analyses of the network, and including the criteria adopted by the regional council relating to network stability.

7. A description of the principal communication and control systems operating or planned within the region and listing of functions performed by such facilities. (To be reported initially and updated in subsequent reports when significant changes occur.)

8. For each transmission segment designed to operate at 230 kv. (nominal) or higher for which construction has begun or is scheduled to begin within 2 years from the date of the report, information on the status of consultations with affected local communities and groups, and status of applications to State or regional authorities, as appropriate.

9. Information on the following coordinated regional practices: (To be reported initially and updated in subsequent reports when significant changes occur.)

a. Load shedding programs, including estimated steps of load reduction at various steps in declining frequency.

b. Emergency power and shutdown facilities to prevent damage to equipment if station loses system power.

c. Power facilities available for unit startup in the event of total loss of system power.

d. Availability of continuous power independent of system sources for communication and control facilities.

e. Provisions for sustaining the operation of generating units on local loads.

f. Programs for scheduling maintenance outages of generation and transmission facilities.

g. Programs for the selection, setting, and maintenance of relays that affect the overall reliability of the interconnected network.

PROPOSED APPENDIX A-2

6. A plotting and a description of the base case for load flow studies of the bulk power network of the region (or principal subdivisions) as it exists substantially at the time of reporting and as projected 4 to 6 years in the future; and a tabulation of transfer limits between the region and adjacent regions and between subdivisions of the region where appropriate including limiting conditions and limiting facilities; and a tabulation and brief statements on the results of a representative number of contingency cases studied; and similarly, information on stability analyses of the network, and including the criteria adopted by the regional council relating to network stability.

7. A description of the principal communication and control systems operating or planned within the region and listing of functions performed by such facilities.

8. For each transmission segment designed to operate at 230 kv. (nominal) or higher for which construction has begun or is scheduled to begin within 2 years from the date of the report, information on the status of consultations with affected local communities and groups, and status of applications to State or regional authorities, as appropriate.

9. Information on the following coordinated regional practices:

a. Load shedding programs, including estimated steps of load reduction at various steps in declining frequency.

b. Emergency power and shutdown facilities to prevent damage to equipment if station loses system power.

c. Power facilities available for unit startup in the event of total loss of system power.

d. Availability of continuous power independent of system sources for communication and control facilities.

e. Provisions for sustaining the operation of generating units on local loads.

f. Programs for scheduling maintenance outages of generation and transmission facilities.

g. Programs for the selection, setting, and maintenance of relays that affect the overall reliability of the interconnected network.

h. Operating reserve policy.

i. Maintenance planning including interregional coordination of maintenance outages.

10. For each year in the period of 10 to 20 years in the future, show projected load and generation capability which will be necessary to serve this load. Include a statement as to projected size of units and the mix of generation (nuclear, fossil, hydro, pumped storage, and peaking).

11. For the 10th and 20th year, include a map which shows the general configuration of the transmission network both within the region and the ties with adjacent regions. This should give an estimate of the voltages to be used and an indication of the projected transfer capability between adjacent regions and between subdivisions of the region where appropriate.

The proposed changes are designed to further the objectives of the Federal Power Commission's program of reliability and adequacy of electric service throughtout the Nation, pursuant to section 202(a) of the Federal Power Act, 16 U.S.C. 824a(a).

As the Commission stated in Order No. 383-2, 43 FPC 518:

> we believe that the reported information will necessarily change from time to time and that flexibility in securing and collating the reported information is highly desirable.

Before promulgating the changes, the Commission is desirous of receiving the further views and comments of all interested parties, including the existing national and regional reliability councils, individual State commissions, and the National Association of Regulatory Utility Commissioners, the general public and others.

The basic authority of the Commission to initiate this proposed policy-making action is the Federal Power Act, 16 U.S.C. 791(a) et seq., particularly 16 U.S.C. 824a(a), 825h (49 Stat. 848, 858), and the Administrative Procedure Act, 5 U.S.C. 553.

Any interested person may submit to the Federal Power Commission, Washington, D.C. 20426, not later than December 26, 1972, data, views, comments, or suggestions, in writing, concerning all or part of the amendment proposed herein. An original and 14 conformed copies should be filed with the Secretary of the Commission. Written submittals will be placed in the Commission's public files and will be available for public inspection at the Commission's Office of Public Information, Washington, D.C., during regular business hours. Submittals to the Commission should indicate the name, title, mailing address, and telephone number of the person to whom communications concerning the proposal should be addressed, and whether the person filing requests a conference with the staff of the Federal Power Commission to discuss the proposed amendment. The staff, in its discretion, may grant or deny requests for a conference. The Commission will consider all written submittals before acting on the proposed amendment herein.

The Secretary shall cause prompt publication of this notice to be made in the FEDERAL REGISTER.

By direction of the Commission.

KENNETH F. PLUMB,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Ch. II]

[Releases Nos. 34-9848, IC-7475]

MUTUAL FUND DISTRIBUTION

Notice of Public Hearings

The Securities and Exchange Commission, having reviewed the Study of the Potential Economic Impact of the Repeal of Section 22(d) (of the Act, 15 U.S.C. 80a-22(d)) conducted by its Office of Policy Research and the Economic Study of the Distribution of Mutual Funds and Variable Annuities conducted for the National Association of Securities Dealers, Inc. (NASD), by Booz Allen & Hamilton, Inc., has determined that it would be appropriate to reexamine traditional administrative positions and to explore new possibilities in order that mutual funds may be marketed more efficiently at a reasonable cost to investors. Section 22(d) (of the Act) requires, in part, that in the sale of a mutual fund security to the public the principal underwriter and any dealer must sell the security at a current public offering price—net asset value plus stated sales charge—set forth in the prospectus.

In order to obtain a wide range of viewpoints with respect to the justification for this retail price maintenance provision in the distribution of mutual funds, as well as the options which would be open to the industry if section 22(d) (of the Act) were eliminated and how the industry would adjust to such a change, the Commission has determined to commence public hearings on December 11, 1972.

BACKGROUND

A. STUDY OF THE POTENTIAL ECONOMIC IMPACT OF THE REPEAL OF SECTION 22(d) OF THE ACT.

In the Investment Company Amendments Act of 1970 (the 1970 Act) (Public Law 91-547, 84 Stat. 1413) Congress took steps to improve the protection afforded mutual fund investors in the area of sales commissions. The Senate Committee on Banking, Housing and Urban Affairs indicated that "Partly because of section 22(d) (of the Act) and partly because of the way in which mutual fund shares are sold, competition has tended to operate in reverse in the sale of mutual fund shares—raising prices rather than lowering them."[1] The committee gave serious consideration to deleting section 22(d) (of the Act) from the Investment Company Act of 1940 (the "Act") (15 U.S.C. 80a-1 et seq.). However, it was uncertain what that would mean to the investing public and mutual fund sales organizations. Therefore, it requested that the Commission review the consequences of such a proposal and report to it as soon as reasonably practicable.

[1] S. Rept. 91-184, 91st Cong. 1st Sess. 8 (May 21, 1969).

Our staff is about to complete this study which will be released shortly. It deals among other things with the costs of distributing mutual funds, the earnings of those who sell mutual funds, the significance of revenue derived by brokerage firms from mutual fund sales and the significance of mutual fund sales to the securities markets. Before making any definitive recommendations to the Congress as to retail price maintenance, the Commission believes it imperative to have the views of all interested persons with respect to the staff's report and the impact on the industry of various changes in the distribution system that may be desirable.

B. NASD STUDY AND RULE PROPOSALS

The 1970 Act gave the NASD rule making authority to prevent mutual funds from being sold at a sales load which is "excessive." Under amended section 22(b) of the Act mutual fund sales charges must allow for reasonable compensation for sales personnel, broker-dealers, and underwriters, and reasonable sales loads to investors. The amendments also provide the Commission with the power to alter or supplement such NASD rules at any time after June 14, 1972—the effective date of this amendment. It was contemplated that during this period the NASD would study "all relevant factors" in order to provide a basis for its rule proposals. At the outset, the Commission made clear that the NASD study should consider ways in which the existing distribution system could be improved with the resulting efficiencies and lower costs passed on directly to benefit investors and that the Commission would consider the feasibility of achieving this result in connection with its staff study of the impact of eliminating section 22(d) from the Act.

The NASD has now completed its study and has drafted rule proposals based upon it. That study is, of course, a survey of mutual fund distribution as it has existed and the resulting rule proposals are premised on the continuation of that system and the existing regulatory framework. The authors of the study indicated that "If section 22(d) (of the Act) were repealed and sellers were able to set the prices of funds at levels other than their current offering price described in the prospectus, then the analysis presented • • • needs to be reevaluated."

C. OTHER DEVELOPMENTS

In our Statement on the Future Structure of the Securities Markets we announced that the practice of investment company managers using portfolio brokerage of mutual funds to reward broker-dealers for sales of fund shares must be terminated. The NASD has published for comment an amendment to Article III, section 26 of its rules of fair practice designed to implement this policy and is moving ahead expeditiously to adopt the necessary rule change.

The Commission recently liberalized the rules with respect to advertising of investment company securities. In the release announcing the changes we described them as a modest first step in this direction and requested further suggestions.[1] Several have been received and are now under consideration.

It also is timely now to renew consideration of group merchandising of fund shares at reduced sales loads, long a controversial subject. Rule 22d-1 (17 CFR 270.22d-1) permits quantity discounts to be provided in connection with the sale of a mutual fund to any person but excludes from the definition of "person" any group whose funds are combined for such purchase. In 1968, the Commission proposed a revision of this antigrouping provision.[2] That proposal was held in abeyance pending completion of our staff study of Section 22(d) (of the Act). The Commission has recently been asked to consider rule changes which would result in lower administrative costs on payroll deduction plans and other voluntary plans for accumulating mutual fund shares by means of periodic small purchases. These rules now require that shareholders receive individual notices, confirmations, dividend statements, and shareholder reports. Our staff is exploring whether these rules can be revised without diminishing the basic shareholder protections they provide as well as reexamining the earlier grouping proposal and the comments received on it.

ISSUES TO BE CONSIDERED

A. REPEAL OF SECTION 22(d) OF THE ACT

1. *Complete repeal.* The system of retail price maintenance under which mutual funds are distributed tends to raise rather than lower prices. Under it, fund distributors compete for the favor of dealers and salesmen through a system of sales incentives which creates a constant pressure to raise sales loads or reduce the principal underwriter's margin.

The question is whether there is any longer sufficient public interest in the continuation of this system as an exception to the general rule of free competition which prevails in most other segments of our economic life.

2. *Partial repeal.* Should retail price maintenance be retained but only for smaller sales, allowing negotiated rates and free competition to prevail on that portion of any purchase in excess of a fixed amount, for example, $300,000? Or, should a system of negotiated rates be instituted gradually over a period of time permitting data to be assembled as to the effects of repeal on various segments of the mutual fund market? If such gradual reductions are appropriate, can they be achieved under the Commission's exemptive power or would legislation be needed?

3. *Price competition within a limited range.* Should retail price maintenance be retained with respect to a minimum

[1] Securities Act Release No. 5248, May 9, 1972 (37 F.R. 10071).

XUM
V37-1223 NOV 17 72 XUM

schedule of sales loads, with the statute also specifying a maximum sales load, but allowing for price competition in the range between the specified maximum and minimum loads?

4. *A current public offering price described in the prospectus.* Section 22(d) (of the Act) states that "no registered investment company shall sell any redeemable security * * * except either to or through a principal underwriter for distribution or at a current public offering price described in the prospectus." Dealers are also required to sell at "a current public offering price described in the prospectus." There is no explicit requirement that there be a single uniform offering price, though that has been the long-standing interpretation of the provision. Would the statute be satisfied if the prospectus described different offering prices for different dealers or in different situations and thus permitted price competition in a manner sanctioned by the investment company itself?

5. *Prohibit price competition from non-contract dealers.* Historically, a principal reason given for the enactment of section 22(d) (of the Act) was the need to prevent price competition and secondary or "bootleg" markets made by noncontract dealers. Such dealers allegedly undermined the distribution structure by obtaining fund shares from sources other than the principal underwriters and selling them for lower prices than contract dealers could. In this way they could short circuit the distribution process and destroy the underwriter's ability to promote the fund. Is it desirable or necessary to prevent this and, if so, if section 22(d) (of the Act) is repealed should the legislation also provide that only contract dealers would be entitled to sell shares at prices other than the current offering price described in the prospectus?

B. RULES UNDER SECTION 22(B) (OF THE ACT) AND OTHER PROVISIONS OF THE ACT

1. *Lower breakpoints reflecting the reduced cost of diversification on larger purchases.* Section 22(b) of the Act (15 U.S.C. 80a–122(b)) gives the NASD and the Commission rule making authority to prevent mutual funds being sold at a sales load which is excessive. Under that section, as amended, mutual fund sales charges must allow for "reasonable compensation for sales personnel, broker-dealers, and underwriters, and reasonable sales loads to investors." It is clear that, whether or not section 22(d) (of the Act) is repealed, mutual fund investors require the protection of a statutory ceiling on sales loads. One of the principles upon which the NASD study was based was that the cost of fund shares should not exceed the alternate cost of a similar investment. One measure of alternate cost used by the NASD's consultants was the round trip cost of purchasing a diversified stock portfolio. However, on purchases in excess of $5,000 the alternate cost of diversification appears to be significantly less than the load suggested by the NASD rule proposal. Sales in excess of $5,000 accounted for about 70 percent of the total volume of mutual fund sales in 1970. Should any NASD rules take into account the reduced cost of diversification on purchases above the $5,000 level?

2. *Regulation of the dealer-discount.* The Commission in its Statement on the Future Structure of the Securities Markets expressed its concern over the effect of varying sales incentives available from different funds. In theory there seems to be widespread agreement that it is undesirable to allow an individual salesman to participate in the brokerage generated by an investment company complex whose funds he sells. The same kind of problem exists when fund distributors pay different dealer discounts. When one fund offers a dealer discount of 6 percent and other 8 percent, sellers are invited to recommend the fund that pays them best rather than the one that is best for their client. This practice also contributes to the pressure to raise sales loads or reduce the distributor's margin. Is this an area of concern and, if so, does the Commission have authority to deal with it by classifying as an "underwriter" under section 2(a)(40) of the Act (15 U.S.C. 80a–2(a)(40)) anyone who receives more than the "usual and customary distributor's or seller's commission" on the sale of mutual fund shares? In the alternative, should the NASD or the Commission take action under section 22(b) (of the Act) to limit dealer discounts? If dealer discounts should be limited, in what respects?

3. *Continuous discounts.* Under existing sales load structures purchasers of large volumes of mutual fund shares receive a volume discount when purchases are made in amounts exceeding specified breakpoints, e.g., $10,000, $25,000 or $50,000. The reduced charge applies to the entire purchase, not merely to the portion in excess of the breakpoint. This means that for a fund with a basic sales charge of 8.5 percent which drops to 7.5 percent on purchases in excess of $10,000 or more, a $9,900 purchase will produce gross revenue of $841.50 for the selling organization. If the purchase were $100 greater, i.e., $10,000, total selling compensation drops to $750. Such a system discourages sellers from altering prospects to the economies produced by breakpoints and places ethical strains on dealers and salesmen. Should Rule 22d–1 be amended to require that volume discounts be provided only where continuous schedules are in effect under which reductions fall only on that portion of the order in excess of the breakpoints?

4. *The value of additional product features.* The NASD Study suggests that the maximum load be determined by the value of the product and that only those funds which offered certain product features—dividend reinvestment at net asset value, lower breakpoints for volume discounts and dividend reinvestment at net asset value—should charge the maximum loads. Is this a desirable approach in the light of the fact that a significant proportion of investors do not take advantage of these features? Is this approach desirable assuming a system of continuous discounts?

5. *Contractual plans.* The total sales loads on contractual plans and the breakpoints on such plans are higher than the typical loads and breakpoints on mutual funds generally. The effective load on contractual plans may be significantly higher when the effects of lapses and persistency is taken into account. Is it premature at this time to take any action with respect to maximum sales charges applicable to contractual plans in light of the changed conditions in which the plan industry now operates, and in view of the protections afforded to contractual planholders by amended section 27 of the Act (Public Law 91–547, 84 Stat. 1424–1426)?

C. FURTHER LIBERALIZATION OF ADVERTISING RULES

1. *Advertising.* Advertising, an effective and a relatively low-cost method of conveying information to prospective purchasers, has been confined to a minimal role in the marketing of investment company securities. Restrictions on advertising have made it difficult for the mutual fund industry to tell its story through the mass media. The Commission recently liberalized its rule with respect to the advertising of investment company securities. What further liberalization would be in order? Is legislation necessary in this area?

2. *Statement of policy.* The statement of policy which governs investment company advertising and sales literature has not been amended since 1957 (Rel. No. IC–2621, 22 F.R. 8977). A number of its basic approaches have been questioned over the years. These include limitations on projections, use of mountain charts to convey cumulative performance, prohibitions against a total yield approach, absence of data upon which to base conclusions as to average annual performance and variability of performance from year to year. To what extent are these elements of the statement of policy no longer appropriate?

D. SIMPLIFIED MORE READABLE MUTUAL FUND PROSPECTUSES

Advertising restrictions rest on the premise that the statutory prospectus will be the key selling document. However, selling practices typically relegate the prospectus to a secondary role and very often legal requirements result more in confusing the ordinary investor than assisting him in reaching an informed judgment. The Commission has designated an Advisory Committee to make suggestions with respect to this and related subjects. Assuming simple clear prospectuses geared to the ordinary mutual fund investor's needs, will the prospectus be used more extensively and earlier in the distribution process and will this affect selling?

E. GROUP SALES

Mutual fund sales charge schedules provide for quantity discounts on larger orders. But the Commission's rules under section 22(d) (of the Act) preclude the grouping or pooling of orders for the purpose of obtaining such discounts. Has this antigrouping rule, which superseded contrary administrative positions, outlived its usefulness?

F. REDUCING PAPERWORK IN SMALL TRANSACTIONS

Payroll deduction plans and other voluntary plans for accumulating mutual fund shares by means of periodic small purchases appear to offer great potential. Some of the present rules under the Federal securities laws make such plans expensive. The rules in question require that each fund shareholder receive such individual notices and services as individual confirmations, dividend statements and shareholder reports. To what extent can the Commission amend these rules to achieve lower costs on small transactions without diminishing the basic investor protections they provide?

G. NO-LOAD SALES

Under present administrative interpretations brokers and dealers have no direct incentive to recommend "no-load" funds, i.e., funds that sell their shares directly to the public free from any sales charge. The imposition of any charge for recommending the shares or for effecting the purchase of such a fund, especially if the fund encourages or has knowledge of the practice, has been viewed as an impermissible deviation from the prospectus representations as to no-load status as well as a violation of section 22(d) (of the Act). Should the Commission reexamine its present administrative interpretations in order to remove disincentives operating against recommending no-load funds? Should it permit brokers and dealers to charge a normal stock exchange commission for recommending and effecting an investment in a no-load fund?

H. DEVELOPMENT OF AN ADEQUATE ECONOMIC DATA BASE

If mutual fund sales charges are to be regulated, reliable data as to the industry's costs, profitability, and general economic structure is necessary. Such data should be available on a continuous basis so as to enable the regulators to monitor trends, thus avoiding the undue regulatory lag that has plagued other types of regulation. Is it possible to develop a system of cost allocation and other accounting procedures necessary to provide such data in a meaningful fashion? What burdens would be involved in moving the industry to such a uniform system?

PROCEDURES

The policy implications of these and other related questions are of great significance to the securities industry generally and particularly to investment companies, their principal underwriters, the broker dealers and salesmen who distribute them, and to the investing public. Accordingly, all persons interested in, affected by or concerned with the distribution of investment company shares and the role of investment companies in the securities markets are invited to provide their views to the Commission with respect to all such issues.

The proposed public hearings will be policy making proceedings. They are designed to give the Commission further insight into the major issues and alternatives facing the industry in the area of mutual fund distribution in order that the Commission may formulate its own legislative recommendations, propose new rules and amend existing rules to the extent appropriate under its present authority. Of course, as in so many areas of the securities laws, the issues are largely interrelated and actions in one respect may deeply affect others. Thus, the full impact of a particular rule or legislative change may be difficult to gage and all of the questions raised will not be resolved definitively at one time.

These hearings are concerned with the formulation and establishment of policy and the rules necessary to implement it. The procedures will be tailored to this end. Because of the wide ranging scope of the inquiry it appears appropriate and expeditious to require written submissions in the first instance. Comments should be addressed to the enumerated questions or other relevant issues the commentator may care to call to the Commission's attention. Persons commenting may feel free to submit any relevant data or other information relating to these issues, and reference may be made, where appropriate, to the Commission's staff study, the NASD study, to prior hearings, policy statements, or testimony. All such submissions will be available for public inspection. After the Commission has had a chance to review all submissions, brief oral statements will be invited from among those who have made submissions and requested to be heard. Persons making oral presentations should be prepared to respond to inquiries from the Commission and its staff.

Interested persons are requested to submit their views, any data or other comments or information in triplicate, to Allan S. Mostoff, Director, Division of Investment Company Regulation, Washington, D.C. 20549, no later than December 6, 1972. All such material should be designated "Mutual Fund Distribution Hearings," File No. 4–164.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

DEPARTMENT OF STATE

Office of the Secretary

[Public Notice 372; Delegation of Authority 125]

DEPUTY UNDER SECRETARY FOR MANAGEMENT

Delegation of Functions Relating to Committee Management

Pursuant to the authority vested in me by section 4 of the Act of May 26, 1949 (63 Stat. 111, 22 U.S.C. 2658), as amended, I hereby delegate through the Deputy Secretary of State to the Deputy Under Secretary for Management, in addition to his committees management authority currently contained in 1 FAM 150 and 22 CFR 6.10 (37 F.R. 18617, September 14, 1972) the authority to perform the functions conferred upon me as agency head by Executive Order 11671, dated June 5, 1972 (37 F.R. 11307, June 7, 1972), Executive Order 11686, dated October 7, 1972 (37 F.R. 21421, October 11, 1972), and Public Law 92-463 approved October 6, 1972 (86 Stat. 770).

Dated: November 7, 1972.

[SEAL] WILLIAM P. ROGERS,
Secretary of State.

COLORADO

Notice of Proposed Withdrawal and Reservation of Lands; Correction

NOVEMBER 8, 1972.

In F.R. Doc. 72-9415 appearing at page 12330 in the issue for Thursday, June 22, 1972, the land description for the portion of the Marvine Creek Campground in section 31 should read "E¼ corner."

DALE R. ANDRUS,
State Director.

[FR Doc.72-19797 Filed 11-16-72;8:48 am]

[OR 9345]

OREGON

Notice of Proposed Withdrawal and Reservation of Lands

NOVEMBER 10, 1972.

The Department of Agriculture, on behalf of the Forest Service, has filed application, OR 9345, for the withdrawal of national forest land described below, from nonmetalliferous location and entry under the mining laws only (30 U.S.C., Ch. 2), but not from leasing under the mineral leasing laws, subject to valid existing rights.

The applicant desires the lands for use as a recreational thunderegg agate public digging area.

For a period of 30 days from the date of publication of this notice, all persons who wish to submit comments, suggestions, or objections in connection with the proposed withdrawal may present their views in writing to the undersigned officer of the Bureau of Land Management, Department of the Interior, Post Office Box 2965 (729 Northeast Oregon Street), Portland, OR 97208.

The authorized officer of the Bureau of Land Management will undertake such investigations as are necessary to determine the existing and potential demand for the lands and their resources. He will also undertake negotiations with the applicant agency with the view of adjusting the application to reduce the area to the minimum essential to meet the applicant's needs, to provide for the maximum concurrent utilization of the lands for purposes other than the applicant's, to eliminate land needed for purposes more essential than the applicant's, and to reach agreement on the concurrent management of the lands and their resources.

He will also prepare a report for consideration by the Secretary of the Interior who will determine whether or not the lands will be withdrawn as requested by the applicant agency.

The determination of the Secretary on the application will be published in the FEDERAL REGISTER. A separate notice will be sent to each interested party of record.

If circumstances warrant it, a public hearing will be held at a convenient time and place which will be announced.

The lands involved in the application are:

FREMONT NATIONAL FOREST

WILLAMETTE MERIDIAN

T. 40 S., R. 21 E.,
Sec. 8, all;
Sec. 17, N½.

The area described contains approximately 960 acres.

VIRGIL O. SEISER,
Acting Chief, Branch of Lands and Minerals Operations.

Office of Hearings and Appeals

[Docket No. M 73-11]

V-DAY COAL CO.

Notice Regarding Modification of Mandatory Safety Standard

In regard, petition of V-Day Coal Co. for modification of application of Mandatory Safety Standard (Sec. 305(d) of Act; and 30 CFR 75.507).

In accordance with the provisions of section 301(c) of the Federal Coal Mine Health and Safety Act of 1969 (30 U.S.C. § 301 et seq.), notice is given that the V-Day Coal Co., Danville, Ill., has filed a petition to modify the application of section 305(d) of the Act and section 75-507 of the Secretary's implementing regulations (30 CFR 75.507) to its V-Day Mine at Danville, Ill.

Section 305(d) of the Act provides:

All power-connection points, except where permissible power connection units are used, outby the last open crosscut shall be in intake air.

Section 75.507 of the regulations provides:

Except where permissible power connection units are used all power-connection points outby the last open crosscut shall be in intake air.

Petitioner seeks a modification of the application of these standards so as to permit power connection points in return air under the following conditions:

Install a Bacharach Methane Monitor System Model 23-7052 immediately east of the bottom of the slope in the main return. This monitoring device will be set to deenergize at 1 percent methane content all power distributed to and through the shaft bottom. Monitors will have monthly functional checks with the result recorded. During all periods of monitor repair or replacement, a certified person will maintain manual methane checks until such repair or replacement is complete and the monitor is again functioning properly.

The petition states that the modification requested will achieve no less, or greater, safety protection for the miners than the safety standards provided in the above-cited sections of the Act and the regulations and that, if not so modified, the application of the cited standards will result in a diminution of safety in its mine.

Parties interested in this petition should file their answers or comments, within 30 days from the date of publication of this notice in the FEDERAL REGISTER, with the Office of Hearings and Appeals, Hearings Division, U.S. Department of the Interior, 4015 Wilson Boulevard, Arlington, VA 22203. Copies of the petition are available for inspection at that address.

JAMES M. DAY,
Director, Office of Hearings and Appeals.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Food and Drug Administration

[Docket No. FDC-D-274; NADA No. 12-817V]

PURDUE FREDERICK CO.

Cerumenex Vet Drops; Order Vacating Opportunity for Hearing

A notice of opportunity for hearing proposing to withdraw approval of the new animal drug application (NADA) No. 12-817V for Cerumenex Vet Drops was published in the FEDERAL REGISTER of April 29, 1971 (36 F.R. 8065).

Drugs for Veterinary Medicine, Inc., 99-101 Saw Mill River Road, Yonkers, NY 10701, responded on May 27, 1971, to said notice by informing the Commissioner of Food and Drugs that the required data would be submitted as soon as possible. Drugs for Veterinary Medicine, Inc. subsequently notified the Commissioner on August 17, 1971, that the sponsorship of NADA No. 12-817V for Cerumenex Vet Drops had been transferred to The Purdue Frederick Co., 99 Saw Mill River Road, Yonkers, NY 10701.

The Purdue Frederick Co., holder of NADA No. 12-817V has submitted a supplemental new animal drug application with revised labeling. The Commissioner concludes that the labeling, evaluated together with the evidence available when the application was approved, shows that said drug (now known as Cerumenex-V Drops) is safe and effective for the removal of earwax in cats and dogs when administered in accordance with the conditions of use provided for by an order appearing elsewhere in this FEDERAL REGISTER (21 CFR 135a.44).

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512, 82 Stat. 343-351; 21 U.S.C. 360b) and under authority delegated to the Commissioner (21 CFR 2.120), said notice of opportunity for a hearing is vacated for the drug Cerumenex Vet Drops, NADA No. 12-817V.

Dated: November 10, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

Health Services and Mental Health Administration

LONG TERM CARE FOR ELDERLY RESEARCH REVIEW AND ADVISORY COMMITTEE

Notice of Meeting

Pursuant to Executive Order 11671, the Administrator, Health Services and Mental Health Administration, announces the meeting date and other required information for the following national advisory body scheduled to assemble the month of November 1972, in accordance with provisions set forth in section 13 (a) (1) and (2) of that Executive order:

Committee name. Long Term Care for the Elderly Research Review and Advisory Committee.

Date/Time/Place. November 28, 8 p.m., Holiday Inn, Woodmont West Room, 8120 Wisconsin Avenue, Bethesda, MD.

Type of meeting and/or contact person. Closed. Contact Elliott Lesser, Room 15-29, Parklawn Building, 5600 Fishers Lane, Rockville, MD, 301—443-2950.

Purpose. The Committee is charged with the review of research grant applications for Federal assistance in the program areas administered by the National Center for Health Services Research and Development relating to research on long-term care, including research approaches for studying and improving the delivery of care in nursing homes and other long-term care facilities and for identifying alternatives to institutional care.

Agenda. The Committee will be performing only a review of grant applications for Federal assistance and will not be open to the public, in accordance with the determination by the Secretary of Health, Education, and Welfare pursuant to the provisions of Executive Order 11671, section 13(d).

Items for discussion are subject to change due to priorities as directed by the President of the United States, or the Secretary of Health, Education, and Welfare.

A roster of members may be obtained from the contact person listed above.

Dated: November 13, 1972.

ANDREW J. CARDINAL,
Acting Associate Administrator for Management, Health Services and Mental Health Administration.

National Institutes of Health

NATIONAL HEART AND LUNG ADVISORY COUNCIL

Notice of Meeting

Pursuant to Executive Order 11671, notice is hereby given of the meeting of the National Heart and Lung Advisory Council, November 30, December 1 and 2, 1972, at 9 a.m., National Institutes of Health, Building 31, Conference Room 6. This meeting will be open to the public from 9 a.m. to 5 p.m. on November 30, to discuss policy and program issues and implementation of the new legislation (Public Law 92-423). It will be closed to the public all day December 1 and 2, 1972, to review, discuss, and evaluate and/or rank grant applications in accordance with section 13(d) of Executive Order 11671 and the Secretary's determination.

Name of the person from whom rosters of the National Heart and Lung Advisory Council members and/or summary of the meeting may be obtained: Mrs. Rita W. Lyons, Building 31, Room 5A16, NIH, 496-5931. Substantive information may be obtained from Dr. Jerome Green, Westwood Building, Room 5A14, 496-7416.

Dated: November 10, 1972.

Office of the Secretary

ADVISORY COMMITTEE MEETINGS

Guidelines for Closing Meetings to Public

Notice is hereby given of a memorandum on closing advisory committee meetings to the public issued by the Secretary. The Secretary's memorandum reads as follows:

On October 6 the President approved Public Law 92-463, "The Federal Advisory Committee Act," revoked section 8(4) of Executive Order 11671, and directed that the remainder of the order remain in effect until superseded in 90 days by the new Act. The new law is substantially the same as the order and I do not anticipate the Department having difficulty in achieving full compliance with the intent of Congress in light of our experience under Executive Order 11671.

On September 27, pursuant to section 13(d) of Executive Order 11671, I approved a notice of determination [1] closing certain advisory committee meetings to the public.

The Determination recognizes that discussion of records maintained on a confidential or privileged basis by the regulation under the Freedom of Information Act must be held in closed session. Otherwise, the purpose of the regulation would be defeated. In addition, the determination permits closing a meeting, or portion thereof, which is held for the purpose of giving committee members an opportunity to express their individual viewpoints and/or finalize their recommendations.

The determination should be narrowly construed to result in the closing of as

[1] See 37 F.R. 20995, 10-5-72.

NOV 17 1972 V37-223 NOV V XUM

few meetings as possible to public observation and/or participation. Meetings may be closed under the second part of the determination (relating to the internal memoranda exception of the Freedom of Information Act), only when the agency head determines it essential for the effective functioning of the committee, and such determination and reasons therefore, is concurred in by the Department committee management officer. In the case of the Office of the Secretary, the determination shall be made by the Assistant Secretary for Administration and Management. To assure adequate opportunity for sufficient review of such determinations, necessary data must be submitted to the Department committee management officer not less than fifteen (15) business days before the scheduled meeting date.

This process will be evaluated during the next 2 months and revised as required in light of any Office of Management and Budget guidelines which may be issued and the Department's experience.

Notices of all meetings, whether open or closed to the public, must be published in the FEDERAL REGISTER. Whenever feasible, the public ought to be given an opportunity to present relevant information and views to the committee in open session, and meetings should be closed, if at all, for the shortest time possible. Also, committee reports must be made available to the public within a reasonable period of time after their submission.

For further guidance in implementing the determination feel free to contact the Department committee management officer.

Dated: October 24, 1972.

RODNEY H. BRADY,
Assistant Secretary,
for Administration and Management.

HEALTH SERVICES AND MENTAL HEALTH ADMINISTRATION

Statement of Organization, Functions, and Delegations of Authority

Part 3 (Health Services and Mental Health Administration) of the Statement of Organization, Functions, and Delegations of Authority for the Department of Health, Education, and Welfare (33 F.R. 15953, October 30, 1968), as amended, is hereby amended with regard to SEC. 3-20, *Organization and Functions*, as follows:

Within the chapter alphabetically coded 3G-00—*Center for Disease Control* (3G45)—the functional statement for the Epidemiology Program (3G45) is being amended to incorporate the quarantine functions presently performed by the Foreign Quarantine Program (3G51), which is being abolished.

The revised statement for paragraph 3G45 reads as follows:

Epidemiology Program (3G45). (1) Maintains surveillance over communicable diseases and certain preventable conditions of national importance, and develops programs of international surveillance in collaboration with the Smallpox Eradication Program, the Department of State, the World Health Organization, and the Pan American Health Organization; (2) plans, directs, and conducts the national quarantine program which enforces quarantine regulations to protect the United States against the introduction of diseases from foreign countries; (3) implements the provisions of the International Sanitary Regulations; (4) enforces interstate quarantine regulations: (6) investigates special disease problems and recommends control measures; (6) evaluates experimental vaccines and immunizing agents and procedures; (7) provides epidemic aid and epidemiological services and consultation to States, Federal agencies, foreign countries, and other recipients; (8) recruits and trains public health epidemiologists; (9) collects, analyzes, and publishes reports of morbidity and mortality statistical data; and (10) serves as the WHO Regional Reference Laboratory for Rabies in the Americas.

The paragraph entitled Foreign Quarantine Program (3G51) is hereby deleted.

Dated: November 10, 1972.

STEVEN D. KOHLERT,
Deputy Assistant Secretary
for Management.

CIVIL AERONAUTICS BOARD

[Docket No. 24918; Order 72-11-52]

AERO FLETES INTERNACIONALES, S.A.

Cancellation of Foreign Air Carrier Permit; Tentative Findings and Conclusions; Order To Show Cause

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of November 1972.

By Order 68-9-147, adopted August 16, 1968, and approved by the President September 26, 1968, the Board issued a permit to Aero Fletes Internacionales, S.A. (AFISA), to engage in foreign air transportation with respect to property and mail between a point or points in the Republic of Panama and the terminal point Miami, Fla.

The Board has received a letter from the Office of Aviation of the Department of State stating that the Embassy of Panama has advised that the Civil Aeronautics Administration of the Republic of Panama has refused to renew AFISA's permit to operate air services.

Based upon the foregoing, the Board tentatively finds that the foreign air carrier permit now held by AFISA should be canceled, and that, unless objections are received within 20 days from the date of the service of this order, the Board should make such tentative findings final and submit to the President for his approval a final order canceling the said permit.

Accordingly, it is ordered, That:

1. All interested persons are directed to show cause why the Board should not issue an order which would make final the tentative findings and conclusions herein and which would, subject to the approval of the President, cancel the foreign air carrier permit held by AFISA;

2. Any interested person having objections to the issuance of such an order shall file with the Board a statement of objections supported by evidence within 20 days of service of this order; [1]

3. If timely and properly supported objections are filed, further consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board;

4. In the event no objections are filed, all further procedural steps will be deemed to have been waived and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

5. AFISA and the Ambassador of Panama in Washington shall be served copies of this order.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-19844 Filed 11-16-72;8:50 am]

[1] Since provision is made for a response to this order, petitions for reconsideration of this order will not be entertained.

[Docket No. 20884; Order 72-11-35]

AIR PANAMA INTERNACIONAL, S.A.

Order To Show Cause Regarding Foreign Air Carrier Permit

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 10th day of November 1972.

Application of Air Panama Internacional, S.A. for a foreign air carrier permit pursuant to section 402 of the Federal Aviation Act of 1958.

By Order 69-10-93, approved October 17, 1969, the Board issued a foreign air carrier permit to Air Panama Internacional, S.A. authorizing the carrier for a period of 5 years to engage in foreign air transportation of passengers, cargo, and mail between Panama and Miami. Since the Panamanian carrier had no immediate plans to inaugurate service to New York, the Board deferred action on the portion of Air Panama's application seeking rights at New York.

On October 13, 1970 Air Panama filed a motion to reopen the record in this docket to consider the grant of a Panama-New York route which the carrier planned to operate pursuant to a wet lease agreement with the Spanish air carrier, Iberia. No action has been taken with respect to this motion. A second motion to reopen the record was filed on September 19, 1972, in which Air Panama requested the right to serve New York independently of any lease agreements with other foreign air carriers. No objections to this motion have been filed, and the motion will be granted.[1]

In granting Air Panama a Panama-Miami route, the Board found that the carrier met the fitness standards of the Act and that the Miami services were in the public interest. The only reason the Board did not include the requested grant of New York authority in the permit was the absence at the time of any affirmative plans by the carrier to commence New York operations. Therefore, consideration of New York rights was deferred.

Air Panama has performed its presently authorized services successfully for several years and, on the record before us (as supplemented by its motion), has demonstrated that the extension of its services to New York is in the public interest and that it possesses the necessary fitness to operate the new route independently. The authority to serve New York requested by Air Panama is provided for in the United States-Panama bilateral air transport agreement, and Air Panama has been designated by its government to operate services on the route. Air Panama states that it will conduct the Panama-New York operations with its own equipment and crews. To this end, the carrier has ordered and financed B-727 equipment, which it plans to introduce on the route this year in the event its application is granted.

In view of the facts of record and the matters set forth in Air Panama's motion, the Board tentatively finds and concludes that: (a) It is in the public interest to amend the foreign air carrier permit held by Air Panama Internacional, S.A., so as to authorize the carrier, through October 17, 1974, to engage in foreign air transportation of persons, property, and mail between a point or points in the Republic of Panama and the coterminal points Miami, Florida, and New York, N.Y.; (b) Air Panama is fit, willing, and able to provide the above-described foreign air transportation and to conform to the provisions of the Act and the rules, regulations, and requirements of the Board thereunder; and (c) the public interest requires that the exercise of the privileges that would be granted in Air Panama's amended permit should be subject to the terms, conditions, and limitations contained in the attached proposed order and accompanying proposed form of permit, and to such other reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

Accordingly, it is ordered, That:

1. Air Panama's motion to reopen the record filed on September 19, 1972, be and it hereby is granted, and Air Panama's motion to reopen the record filed on October 13, 1970, be and it hereby is dismissed;

2. All interested persons be and they hereby are directed to show cause why the Board should not make final the tentative findings and conclusions herein, and why an order and a foreign air carrier permit substantially in the forms attached to this order should not be issued, subject to the approval of the President pursuant to section 801 of the Act;

3. Any interested person having objections to the tentative findings and conclusions set forth herein or to the issuance of the proposed order or proposed foreign air carrier permit shall file such objections within 10 days after the date of service of this order, and file with the Board and serve on the persons named in paragraph 6 a memorandum of objection specifying the part or parts of the tentative findings and conclusions or order or permit objected to and stating the specific grounds of any such objections;[2]

4. If timely and properly supported objections are filed, full consideration will be accorded the matters and issues raised by the objections before further action is taken by the Board: *Provided,* That the Board may proceed to enter an order in accordance with the tentative findings and conclusions herein if it determines that there are no factual issues presented that warrant the holding of an evidentiary hearing;

5. In the event no objections are filed, all further procedural steps shall be deemed waived, and the Board may proceed to enter an order in accordance with the tentative findings and conclusions set forth herein; and

6. Copies of this order shall be served upon the following: Air Panama Internacional, S.A., Iberia, Lineas Aereas de Espana, S.A., and the Bureau of Operating Rights of the Civil Aeronautics Board.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

SPECIMEN ORDER

CIVIL AERONAUTICS BOARD

[Docket No. 20884]

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the -----.

Application of Air Panama Internacional, S.A., for a foreign air carrier permit pursuant to section 402 of the Federal Aviation Act of 1958

It is ordered:

1. That an amended foreign air carrier permit in the form attached hereto be issued to Air Panama Internacional, S.A. (Air Panama);

2. That said permit shall be signed on behalf of the Board by its Secretary, shall have affixed thereto the seal of the Board, and shall be effective upon the effective date of this order;

3. That the exercise of the privileges granted by said permit issued to Air Panama and the foreign air carrier permit held by Iberia, Lineas Aereas de Espana, S.A. (Iberia) shall also be subject to the following conditions:

(a) Air Panama and Iberia shall file with the Board all written agreements, amendments to existing agreements, and memoranda setting forth the circumstances of oral agreements and understandings between them affecting, directly or indirectly, air services to the United States;

(b) Air Panama and Iberia shall not engage in joint public relations, advertising, publicity, or scheduling activities which tend to pass off the services of one carrier as the services of the other carrier or as part of a unified system of which each is a part;

(c) Where either Air Panama or Iberia provides general agency services for the other carrier at points in the United States served by Air Panama and Iberia, Air Panama or Iberia shall specifically identify all flights of either Air Panama or Iberia as flights of that carrier without reference to any relationship to the carrier performing the agency services;

(d) Telephone facilities to which the public has access at points served in the United States by Air Panama and Iberia shall preserve the identity of the individual carriers;

(e) Where joint traffic or sales facilities are maintained by Air Panama and Iberia in the United States, the separate identity of each carrier shall be maintained by reasonably comparable use of display advertising, desk space, personnel uniforms, and other facilities and activities;

(f) The respective personnel of Air Panama and Iberia shall preserve the individual identity of the respective carriers in all public dealings; and

[1] We will dismiss the Oct. 13, 1970 motion since it has been superseded by the motion of Sept. 19, 1972.

[2] Since provision is made for the filing of objections to this order, petitions for reconsideration of this order will not be entertained.

V 37-223 NOV 17 72 XUM

4. That this order shall become effective upon the date of its approval by the President of the United States.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

SPECIMEN PERMIT

CIVIL AERONAUTICS BOARD

PERMIT TO FOREIGN AIR CARRIERS

(as amended)

Air Panama Internacional, S.A. is hereby authorized, subject to the provisions hereinafter set forth, the provisions of the Federal Aviation Act of 1958, and the orders, rules, and regulations issued thereunder, to engage in foreign air transportation with respect to persons, property, and mail, as follows:

Between a point or points in the Republic of Panama and the coterminal points Miami, Fla., and New York, N.Y.

The holder shall be authorized to engage in charter trips in foreign air transportation subject to the terms, conditions, and limitations prescribed by Part 212 of the Board's Economic Regulations.

The holder shall conform to the airworthiness and airman competency requirements prescribed by the Government of Panama for Panamanian international air service.

This permit shall be subject to all applicable provisions of any treaty, convention, or agreement affecting international air transportation now in effect, or that may become effective during the period this permit remains in effect, to which the United States and Panama shall be parties.

By accepting this permit, the holder waives any right it may possess to assert any defense of sovereign immunity from suit in any action or proceeding instituted against the holder in any court or other tribunal in the United States (or its territories or possessions) based upon any claim arising out of operations by the holder under this permit.

The holder shall keep on deposit with the Board a signed counterpart of CAB Agreement 18900, an agreement relating to liability limitations of the Warsaw Convention and the Hague Protocol approved by Board Order E-23680, May 13, 1966, and a signed counterpart of any amendment or amendments to such agreement which may be approved by the Board and to which the holder becomes a party.

The holder (1) shall not provide foreign air transportation under this permit unless there is in effect third-party liability insurance in the amount of $1 million or more to meet potential liability claims which may arise in connection with its operations under this permit, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the third-party liability insurance provided, and (2) shall not provide foreign air transportation with respect to persons unless there is in effect liability insurance sufficient to cover the obligations assumed in CAB Agreement 18900, and unless there is on file with the Docket Section of the Board a statement showing the name and address of the insurance carrier and the amounts and liability limits of the passenger liability insurance provided. Upon request, the Board may authorize the holder to supply the name and address of an insurance syndicate in lieu of the names and addresses of the member insurers.

The exercise of the privileges granted hereby shall be subject to such reasonable terms, conditions, and limitations required by the public interest as may from time to time be prescribed by the Board.

This permit shall be effective on ----------, and unless otherwise terminated as provided hereinafter, shall terminate on October 17, 1974. Prior to the termination of this permit on October 17, 1974, this permit shall terminate (1) upon the effective date of any treaty, convention, or agreement or amendment thereto, which shall have the effect of eliminating the route hereby authorized from the routes which may be operated by the airlines designated by the Government of Panama, or (2) upon the effective date of any permit granted by the Board to any other carrier designated by the Government of Panama in lieu of the holder hereof, or (3) upon the termination or expiration of the Air Transport Agreement between the Government of the United States and the Government of Panama effective April 14, 1949, as amended, effective June 3, 1952, and June 5, 1967: *Provided, however,* That clause (3) of this paragraph shall not apply if, prior to the events specified in clause (3), the operation of the foreign air transportation herein authorized becomes the subject of any treaty, convention, or agreement to which the United States and Panama are or shall become parties.

In witness whereof, the Civil Aeronautics Board has caused this permit to be executed by the Secretary of the Board, and the seal of the Board to be affixed hereto, on the ----------.

[SEAL] HARRY J. ZINK,
Secretary.

[Docket No. 24072; Order 72-11-54]

BRANIFF AIRWAYS, INC.

Order Regarding Expanded Application of Category Z Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of November 1972.

By a tariff revision,[1] filed December 9, 1971, effective January 8, 1972, Braniff Airways, Inc., proposed to permit employees of the Army and Air Force Exchange System (AAFES) to travel on official business at category Z fares when requests for the transportation are made using AAFES form 1500-22 in lieu of Government transportation requests (GTR's), the use of which has been prohibited to exchange personnel.

These tariffs have already been ordered investigated and suspended.[2] However, Braniff was not made a party to the proceeding. We are therefore by this order making Braniff a party to the investigation.

Accordingly, pursuant to the Federal Aviation Act of 1958, as amended, and particularly sections 204 and 1002 thereof,

It is ordered, That:

1. Braniff Airways, Inc., is hereby made a party to this proceeding.

2. A copy of this order will be served upon all parties to Docket No. 24072, and Braniff Airways, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-19846 Filed 11-16-72;8:50 am]

[Docket No. 24488; Order 72-11-28]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Currency Matters

Issued under delegated authority November 9, 1972.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers and other carriers, embodied in the resolutions of the Joint Conferences of the International Air Transport Association (IATA). The agreement, which was adopted at the Passenger Traffic Conference held September to October 1972, in Torremolinos, Spain, has been assigned the above-designated agreement number.

The agreement would amend existing resolutions governing currency exchange matters for the purpose of local publication, sale, and rounding-off of passenger fares, by introducing currency provisions for the Nigerian Naira, as well as limiting sales, in Syrian pounds to Syria only. Additionally, the agreement would remove Okinawa from the country listing governing rounding-off of passenger fares.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the following resolutions, which are incorporated in Agreement C.A.B. 23366, are adverse to the public interest or in violation of the Act:

CAB Agreement 23366	IATA No.	Title	Application
R-1	021B	Rates of Exchange—Nigerian Naira (Amending)	1; 2; 3.
R-2	023a	Rounding-off Passenger Fares—Nigeria, Okinawa (Amending)	1; 2; 3; 1/2; 2/3; 3/1; 1/2/3.
R-3	021b	Rates of Exchange—Sales in Syrian Pounds (Amending)	1; 2; 3.

Accordingly, it is ordered, That:

Agreement C.A.B. 23366 be and hereby is approved.

Persons entitled to petition the Board for review of this order pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within 10 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

[1] Revision to International Air Traffic Tariffs Corp., Agent, Tariff C.A.B., No. 374.

[2] Orders 72-1-10 and 72-5-79, dated respectively January 6, 1972, and May 5, 1972.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-19843 Filed 11-16-72;8:50 am]

[Dockets Nos. 24488; 23780; Order 72-11-58]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Youth and Student Fares in Foreign Air Transportation

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of November 1972.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic regulations, between various air carriers, foreign air carriers, and other carriers, embodied in the resolutions of joint conferences 1-2 and 1-2-3 of the International Air Transport Association (IATA). The agreement, which was adopted by mail vote, has been designated C.A.B. Agreement 23301.

The agreement would establish individual and group youth fares for travel between the United States and Europe/Africa/Middle East for the period December 1, 1972, through March 31, 1973. These youth fares are proposed at levels ranging up to 21 percent higher than those currently in effect pursuant to Government orders, and are available to persons between the ages of 12 and 24. Confirmed reservations are not available until 7 days prior to the scheduled departure of the flight.

Both Pan American World Airways, Inc. (Pan American) and Trans World Airlines, Inc. (TWA) have filed comments in support of the agreement. Generally, both carriers indicate that the subject agreement represents an interim solution to the present mix of youth fares established pursuant to orders from various foreign governments, the terms and conditions of which vary considerably from one country to another and result in confusion to the traveling public and an administrative burden for the U.S. carriers who were forced to meet the fares in order to remain competitive. Pan American forecasts the average youth fare increase at 11 percent which, during the 4 month life of the agreement, would result in an improvement in operating profit of $280,000. TWA estimates an average fare increase of 10 percent, producing a net revenue improvement of $300,000.

The member carriers of the National Air Carrier Association (NACA)[1] urge that the Board approve the fares on an interim basis (i.e. for the term of the agreement until April 1, 1973) but at the same time take appropriate action to notify the foreign governments involved of dissatisfaction with the fares and indicate the Board's intention to suspend and investigate the fares if they are continued after March 31, 1973. NACA contends that the subject agreement represents some improvement over the present Government-ordered fares, and that disapproval by the Board, which would leave in effect the more destructive existing fares, would be counterproductive.

TWA, in its response to the NACA comments, points out that the request regarding the suspension of fares after March 31, 1973, is premature and that any action by the Board at this time pertaining to fares yet to be filed would constitute a prejudgment. TWA refers to its letter of jusification wherein it states that effective April 1, 1973, the age limitation will be reduced to 12 to 21 years of age, providing consistency with U.S. domestic youth fare requirements. Additionally, TWA refers to the ongoing investigation of youth/student fares,[2] and states that absent a showing of serious conditions warranting suspension, the Board should resolve the transatlantic youth fare question in that investigation.

Although this agreement raises the same questions of fare level, age eligibility and discrimination as posed by existing Government-ordered youth fares now under investigation, we will approve it for the agreed limited period of application because it does in fact represent an improvement. The agreement represents a step toward more realistic levels and reduces the age limit to 12 to 24 years. (The age limits now range as high as 29.) We will, however, include an investigation of the fares in Docket No. 23780.

We have concluded to deny NACA's requests at this time although we intend to bear their points in mind. The instant agreement, as indicated previously, raises the same questions of fare level and discrimination as are involved in currently effective fares already under investigation. As we still have before us NACA's complaint filed on April 10, 1972, which requests suspension of youth fares, NACA's present request will be considered in the ultimate disposition of their earlier complaint.

The Board, acting pursuant to sections 102, 204(a), 404(b), 412, and 1002 of the Act and pending investigation in Docket No. 23780, does not find that Agreement C.A.B. 23301, R-1 through R-5, is adverse to the public interest or in violation of the Act, provided that with respect to Resolution 092g:

(a) In the event a passenger discontinues his journey en route for any reason, the amount of the fare paid may be applied as a credit toward the purchase of transportation at the applicable fare calculated from the original point of origin.

(b) The amount of the forfeiture to be imposed in the event of cancellation by the group or members of the group prior to or at departure time for any reason shall not exceed 25 percent of the fare paid and after departure the forfeiture shall not exceed 25 percent of the excess of the price of the group fare ticket over the cost of normal fare transportation from the point of origin to the point of cancellation.

(c) Full refund shall be made in the event of death or illness of the passenger or of a member of the passenger's immediate family prior to travel.

(d) Full refund of the group fares paid shall be made in the event of cancellation of travel arrangements by a carrier on the ground that the group or any member of the group is ineligible for the group fares.

Accordingly, it is ordered, That:

1. Agreement C.A.B. 23301 be and hereby is approved subject to the conditions set forth herein;

2. An investigation is hereby instituted to determine whether Agreement C.A.B. 23301 is adverse to the public interest or in violation of the Federal Aviation Act of 1958, and whether the fares, rules, conditions, and provisions which are, or will be, established pursuant to this agreement or are or will be unjustly discriminatory, unduly preferential, or unduly prejudicial, and if such fares, rules, conditions, or provisions are found to be unjustly discriminatory, unduly preferential, or unduly prejudicial, to determine how such fares, rules, conditions, or provisions should be altered, or what order should be made to remove such discrimination, preference, or prejudice; and

3. The investigation ordered in paragraph 2 above is consolidated into that currently pending in Docket 23780.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[Docket No. 24919; Order 72-11-53]

TRANS WORLD AIRLINES, INC.

Proposed Extension of Las Vegas GIT Fares; Order of Investigation and Suspension

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of November 1972.

By tariff revisions[1] marked to become effective November 15, 1972, Trans World Airlines, Inc. (TWA), proposes to extend its off-season Las Vegas GIT fares beyond their present expiry date of November 15, 1972, to June 14, 1973, and to increase the fares to reflect the recent 2.7-percent increase in regular fares. The fares provide discounts of 40 percent from the normal fares on all days except Sundays. A $15 surcharge applies on Sundays (in each direction) reducing the discount to 35 percent on that day.

[1] Overseas National Airways, Saturn Airways, Trans International Airlines and World Airways.

[2] Docket No. 23780.

[1] Revisions to Airline Tariff Publishers, Inc., Agent, Tariff CAB No. 136.

V37-223 NOV 17 72 XUM

The minimum group size is 15, stay requirements are 3 to 30 days, and a minimum purchase of $35 in ground arrangements is required.

United Air Lines, Inc. (United) has filed a complaint against the proposal requesting its investigation and suspension.[2] The carrier alleges that the proposed GIT fares are economically unsound in a period when the industry can ill afford a further decline in yield; that since a high proportion of Las Vegas traffic is GIT traffic, it makes economic sense to recover a higher portion of the cost; that substantial unnecessary revenue dilution results when the discount is greater than needed to promote and develop new traffic, as appears to be the case here; and that traffic generation last year was approximately the same under the 30-percent discount which applied during the summer as it was under the 40-percent off-season discount.

In answer to United's complaint and in support of the proposal, TWA alleges that the Las Vegas market is highly seasonal in nature and requires a seasonal fare differential to reduce the effect on costs of this seasonality; that the existing fares have been profitable despite unanticipated extra section requirements; that use of United's statistics is misleading since the 1971 base period was depressed by general economic conditions and does not set traffic growth in its proper perspective; that the market is still developing and to reduce the 40-percent off-season discount will have a substantial depressing effect on GIT traffic and the success of the program; and that promotional fares of this type should complement normal traffic fluctuations, not accentuate them, as would a single year-round level of GIT fares.

Upon consideration of the tariff filing, the complaint and answer thereto, and all relevant matters, the Board finds that the proposed fares may be unjust, unreasonable, unjustly discriminatory, unduly preferential, unduly prejudicial, or otherwise unlawful, and should be investigated. The Board has also concluded to suspend the fares pending investigation.

In our view, the substantial volume of GIT traffic involved, together with a declining yield and planned capacity increases in the Chicago-Las Vegas market, raise strong doubts as to the reasonableness of the fares. TWA indicates that 27 percent of its traffic in the Chicago-Las Vegas market from October 1971 through May 1972 moved on the GIT fares, and United similarly states that the winter GIT fare was used by an average of 25 percent of its traffic in the Chicago/East markets, the volume ranging as high as 60 percent on particular days. The significance of this experience is heightened by the carriers' experienced yields and their planned schedule changes for the upcoming winter period.

A comparison of TWA's coach yields in the Chicago-Las Vegas market since the GIT fares were introduced shows a steady decline compared to the same month of the preceding year (before the introduction of the fares). The decline began in January 1972, and by May its yield had declined by more than 11 percent. This is apparently due primarily to use of the GIT fare, since we are not aware of any other major fare changes in the Chicago-Las Vegas market. A decline in yield of this magnitude at a time of rising costs cannot long continue. This is particularly true if, as it would appear, TWA's planned increase in schedules and seat capacity this winter season is, at least in part, due to traffic volume generated by the GIT fares. TWA's scheduled flights in the Chicago-Las Vegas market for November 1972, provide slightly more than twice the number of seats offered in 1971. In these circumstances, we seriously doubt the appropriateness of testing the fares against added costs as TWA would have us do.

We note that United has filed to extend the Las Vegas GIT fares for 1 year at a 30-percent discount, the same discount in effect during this past summer.[3] In view of the carriers' experience with these fares the reasonableness of GIT fares in this market even at a 30-percent discount is not wholly free from doubt.

Suspension of United's proposal would result in rather substantial increases in fares over those available last year, and would leave the Individual Inclusive Tour Basing fare at a 20-percent discount as the lowest available to a substantial portion of the traffic. At that level considerable traffic might be lost, with the possibility of a net revenue reduction. Accordingly, we will permit United's proposal to extend the GIT fares at a 30-percent discount for a 1-year period to become effective. However, we will require United, and any other carriers providing such fares, to submit reports of traffic generation and diversion, and revenue and expense data as set forth in Appendix A.[4] This report should also be accompanied by a written evaluation of the results of the experiment. In the absence of this information, the Board would not be prepared to consider any proposal to extend these or similar fares for a further period of effectiveness.

Accordingly, pursuant to the Federal Aviation Act of 1958, and particularly sections 204(a), 403, 404, and 1002 thereof,

It is ordered, That:

1. An investigation is instituted to determine whether the fares and provisions described in Appendix B [4] and rules, regulations, or practices affecting such fares and provisions, are or will be unjust, unreasonable, unjustly discriminatory, unduly prejudicial, or otherwise unlawful, and if found to be unlawful, to determine and prescribe the lawful fares and provisions, and rules, regulations, and practices affecting such fares and provisions;

2. Pending hearing and decision by the Board, the fares and provisions described in Appendix B hereto are suspended and their use deferred to and including February 12, 1973, unless otherwise ordered by the Board, and that no changes be made therein during the period of suspension except by order or special permission of the Board;

3. Except to the extent granted herein the complaint in Docket 24846 is dismissed;

4. The proceeding ordered herein will be assigned before an administrative law judge of the Board at a time and place hereafter to be designated; and

5. Copies of this order will be filed in the aforesaid tariffs and served upon Trans World Airlines, Inc., and United Air Lines, Inc.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.[5]

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-19847 Filed 11-16-72;8:50 am]

[2] United has filed a matching defensive tariff. Revisions to Airline Tariff Publishers, Inc., Agent, Tariff CAB No. 143.

[3] No complaints were filed against this proposal, which preceded its competitive filing to match TWA.

[4] Appendixes A and B filed as part of the original document.

[5] Members Minetti and Murphy issued a separate concurring statement, filed as part of the original document.

DEPARTMENT OF TRANSPORTATION

Federal Aviation Administration

FAA OFFICE AT MANILA, REPUBLIC OF THE PHILIPPINES

Notice of Establishment

Notice is hereby given that on or about November 15, 1972, an FAA office will be established at Manila, Republic of the Philippines. This office will be staffed with an FAA representative who will serve the aviation public by providing increased FAA surveillance of aviation activities in the Philippines. This information will be reflected in the FAA organization statement the next time it is reissued.

Issued in Honolulu, Hawaii, on November 7, 1972.

JACK G. WEBB,
Director, Pacific-Asia Region.

FEDERAL POWER COMMISSION

[Docket No. RP73-61]

ALABAMA-TENNESSEE NATURAL GAS CO.

Notice of Proposed Changes in Rates and Charges

NOVEMBER 14, 1972.

Take notice that Alabama-Tennessee Natural Gas Co. (Alabama-Tennessee) on October 31, 1972, tendered for filing revised sheets to its FPC Gas Tariff, Second Revised Volume No. 1:

Fourth Revised Sheet No. 5 Superseding Third Revised Sheet No. 5.
Fourth Revised Sheet No. 11 Superseding Third Revised Sheet No. 11.
Fourth Revised Sheet No. 14 Superseding Third Revised Sheet No. 14.

The company states that the tariff sheets are designed solely to pass on to Alabama-Tennessee's jurisdictional customers the increased cost of gas to Alabama-Tennessee as a result of the increased rate filing of Tennessee Gas Pipeline Co., filed with the Commission on October 20, 1972, in Dockets Nos. RP71-6, RP71-57, and RP72-1.

Alabama-Tennessee requests that the rate filing be made effective on December 1, 1972, or such other date as Tennessee's rates, upon which this filing are based, are permitted to become effective.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with §§ 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 24, 1972. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceedings. Any person wishing to become a party must file a petition to intervene. Copies of this application are on file with the Commission and are available for inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19886 Filed 11-16-72;8:52 am]

[Docket No. CI73-337]

CHAMPLIN PETROLEUM CO.

Notice of Application

NOVEMBER 14, 1972.

Take notice that on November 8, 1972, Champlin Petroleum Co. (Applicant), Post Office Box 9365, Fort Worth, TX 76107, filed in Docket No. CI73-337 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale and resale and delivery in interstate commerce to United Gas Pipe Line Co. of residue gas attributable to casinghead gas purchased and processed by Applicant in its Midland Gasoline Plant in the Conroe Field, Montgomery County, Tex., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell up to 14,000 Mcf of gas per day at 35 cents per Mcf at 14.65 p.s.i.a. subject to upward and downward B.t.u. adjustment, for 1 year within the contemplation of § 2.70 of the Commission's general policy and interpretations (18 CFR 2.70).

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before November 27, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of certificate is required by the public convenience and necesssity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19887 Filed 11-16-72;8:52 am]

[Docket No. CS73-318]

WELLS, RICH, GREENE, INC. ET AL.

Notice of Applications for "Small Producer" Certificates [1]

NOVEMBER 8, 1972.

Take notice that each of the applicants listed herein has filed an application pursuant to section 7(c) of the Natural Gas Act and § 157.40 of the regulations thereunder for a "small producer" certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce, all as more fully set forth in the applications which are on file with the Commission and open to public inspection.

Any person desiring to be heard or to make any protest with reference to said applications should on or before December 4, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on all applications in which no petition to intervene is filed within the time required herein if the Commission on its own review of the matter believes that a grant of the certificates is required by the public convenience and necessity. Where a petition for leave to intervene is timely filed, or where the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

FEDERAL RESERVE SYSTEM

FEDERAL OPEN MARKET COMMITTEE

Current Economic Policy Directive

In accordance with § 271.5 of its rules regarding availability of information, there is set forth below the Committee's Current Economic Policy directive issued at its meeting held on August 15, 1972.[1]

The information reviewed at this meeting indicates that real output of goods and services increased at a rapid rate in the second quarter, and continued though less rapid growth appears in prospect for the current quarter. The unemployment rate was lower in June and July, but it was still substantial. The pace of advance in wage rates has slowed on balance in recent months, and the rate of increase in average prices of all goods and services in the private economy moderated in the second quarter. In July, the rise in wholesale prices of industrial commodities slowed, but wholesale prices of farm and food products rose sharply further. Since mid-July foreign exchange market conditions have been quiet and the central bank reserves of most industrial countries have changed little. In June, the large excess of U.S. merchandise imports over exports persisted.

The narrowly defined money stock grew at an unusually rapid rate in July, following relatively slow growth in May and June. Growth in the broadly defined money stock remained substantial, although inflows of consumer-type time and savings deposits to banks slowed appreciably. The bank credit proxy expanded sharply in July, reflecting strength in both private demand deposits and large-denomination CD's. In recent weeks, interest rates on most market securities have declined somewhat on balance, and the Treasury completed a highly successful refunding.

In light of the foregoing developments, it is the policy of the Federal Open Market Committee to foster financial conditions conducive to sustainable real economic growth and increased employment, abatement of inflationary pressures, and attainment of reasonable equilibrium in the country's balance of payments.

To implement this policy, while taking account of developments in capital markets and international developments, the Committee seeks to achieve bank reserve and money market conditions that will support moderate growth in monetary aggregates over the months ahead.

By order of the Federal Open Market Committee, November 10, 1972.

ARTHUR L. BROIDA,
Deputy Secretary.

[FR Doc.72-19794 Filed 11-16-72;8:48 am]

[1] The Record of Policy Actions of the Committee for the meeting of August 15, 1972, is filed as part of the original document. Copies are available on request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551.

FIRST NATIONAL FINANCIAL CORP.

Acquisition of Bank

First National Financial Corp., Kalamazoo, Mich., has applied for the Board's approval under section 3(a)(3) of the Bank Holding Company Act (12 U.S.C. 1842(a)(3)) to acquire 100 percent of the voting shares of the successor by merger to The Commercial Bank of Stambaugh, Stambaugh, Mich. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than December 7, 1972.

Board of Governors of the Federal Reserve System, November 10, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-19792 Filed 11-16-72;8:47 am]

NORTHERN ILLINOIS BANCORP, INC.

Formation of Bank Holding Company

Northern Illinois Bancorp, Inc., Joliet, Ill., has applied for the Board's approval under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)) to become a bank holding company through acquisition of 100 percent of the voting shares (less directors' qualifying shares) of the successor by merger to Louis Joliet Bank, Joliet, Ill. The factors that are considered in acting on the application are set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

The application may be inspected at the office of the Board of Governors or at the Federal Reserve Bank of Chicago. Any person wishing to comment on the application should submit his views in writing to the Secretary, Board of Governors of the Federal Reserve System, Washington, D.C. 20551, to be received not later than December 11, 1972.

Board of Governors of the Federal Reserve System, November 13, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

INTERNATIONAL BOUNDARY AND WATER COMMISSION, UNITED STATES AND MEXICO

CONSIDERATION OF ENVIRONMENTAL IMPACT AND PROVIDING OF PUBLIC INFORMATION

Operational Implementation Procedures

NOVEMBER 9, 1972.

Manual—Operational procedure for implementing section 102 of the "National Environmental Policy Act of 1969".

TABLE OF CONTENTS

Para. *Title*
1. Purpose and scope.
2. Applicability.
3. References.
4. Requirements of the National Environmental Policy Act of 1969.
5. Policy.
6. Responsibility within the U.S. section.
7. Procedure for preparation, planning, and coordination of the statement.
8. Administrative action.
9. Criteria for determining whether a project or activity will significantly affect the quality of the human environment.
10. Use of statements in U.S. section's review process; distribution to Council on Environmental Quality.
11. Availability of environmental statement and comments to public.
12. Publication in the FEDERAL REGISTER.
13. Budget process.
14. Lease, license, and permit applications.
15. Operations at construction sites.
16. Section 309 of Clean Air Act Amendments of 1970.
17. Exceptions.
18. Effective date.

APPENDICES

A. Guidelines, dated April 23, 1971, for statements on proposed Federal actions affecting the environment.
B. Preparation of environmental statements.
C. Form—Status of section 102(2)(C) statements.
D. Statements involving power transmission lines—Environmental considerations.
E. Examples of contract specifications.

The National Environmental Policy Act of 1969 (NEPA or the Act) (Public Law 91-190), Executive Order 11514 (E.O. 11514) dated March 5, 1970, and the Guidelines of the Council on Environmental Quality (CEQ or Council) dated April 23, 1971, provide that environmental considerations are to be given careful attention and appropriate weight in every recommendation or report on proposals for legislation and for other major Federal actions significantly affecting the quality of the human environment.

1. *Purpose and scope.* This manual provides general policies, procedures and guidance required by section 102 of the NEPA to:

(a) Identify actions requiring environmental impact statements;

(b) Obtain information and internal U.S. section review required for the preparation of environmental statements;

(c) Designate the official(s) who are to be responsible for preparation, review, and approval of the statements;

(d) Consult with and take into account the comments of appropriate Federal, State, and local agencies, as well as interested individuals, associations, and groups.

(e) Meet requirements for providing timely public information on proposals for legislation and for other major actions having a potential significant adverse effect on the human environment.

2. *Applicability.* This manual applies to all elements of this section concerned with the investigation, planning, development, construction, and management of projects (including leasing and licensing of land and issuing of permits in regard thereto) or activities that affect ecological systems and the human environment.

3. *References.* (a) Environmental Control—Message from the President (H. Doc. No. 91-225); Congressional Record, February 10, 1970, pp. H-743-748.

(b) Budget Message of the President, 1971; Congressional Record, February 2, 1970; see pages S-968, S-970, and S-973.

(c) The State of the Union Address by the President (H. Doc. No. 91-226); Congressional Record, January 22, 1970; pp. H-186-188.

(d) Executive Order No. 11507; Prevention, Control, and Abatement of Air and Water Pollution at Federal Facilities, February 4, 1970; 35 F.R. 2573 (Feb. 1970)—(supersedes Executive Orders Nos. 11282 and 11288).

(e) Executive Order 11514; Protection and Enhancement of Environmental Quality, March 5, 1970; 35 F.R. 4247 (March 7, 1970).

(f) National Environmental Policy Act of 1969 (Public Law 91-190).

(g) Water Quality Improvement Act of 1970 (Public Law 91-224).

(h) Section 309 of the Clean Air Act Amendments of 1970 (Public Law 91-604).

(i) Freedom of Information Act (5 U.S.C. 552).

(j) National Historic Preservation Act of 1966 (Public Law 89-665).

(k) Guidelines of the Council on Environmental Quality, April 23, 1971, pp. 7724-29.

(l) Bulletin No. 71-3, August 31, 1970, Executive Office of the President, Office of Management and Budget.

(m) Circular No. A-95, dated June 15, 1970, and all revisions thereto, Executive Office of the President, Office of Management and Budget.

(n) Memo entitled, "Federal Agencies with jurisdiction by law or special expertise to make comments with respect to various types of environmental impact of propsed actions," dated July 29, 1970, by Timothy Atkeson, General Counsel, Council on Environmental Quality.

(o) Memo entitled, "Environmental impact statements prepared by the International Boundary and Water Commission," dated April 21, 1971, by Timothy Atkeson, General Counsel, Council on Environmental Quality.

(p) Corps of Engineers procedure regarding preparation of environmental statements, 37 F.R. 2525 (Feb. 2, 1972).

(q) Memo entitled, "Recommendation for Improving Agency NEPA Procedures," dated May 16, 1972, by Timothy Atkeson, General Counsel, Council on Environmental Quality.

(r) Department of State Final Procedures for Compliance with Federal Environmental Statutes, 37 F.R. 19167 (Sept. 19, 1972).

(s) Forest Service NEPA procedures, 36 F.R. 23670 (1971).

(t) Water Resources Council "Proposed Principles and Standards for Planning Water and Related Land Resources," 36 F.R. 24159-62 (1971).

4. *Requirements of the National Environmental Policy Act of 1969.* Section 101 of the National Environmental Policy Act of 1969, hereinafter referred to as the Act or NEPA, establishes a broad Federal policy on environmental quality. Section 102 directs that policies, regulations, and public laws will be interpreted and administered to the fullest extent possible in accordance with the policies of the Act, and imposes upon all Federal agencies the requirement to—

(a) Utilize a systematic, interdisciplinary approach which will insure the integrated use of the natural and social sciences and the environmental design arts in planning and in decisionmaking which may have an impact on man's environment (sec. 102(2)(A)).

(b) Identify and develop methods and procedures which will give the environment appropriate consideration in decisionmaking along with economic and technical considerations (sec. 102(2)(B)).

(c) Include with every recommendation, report on proposals for legislation and other major Federal actions significantly affecting the quality of the human environment, a detailed environmental statement (sec. 102(2)(C)).

(d) Study, develop, and describe appropriate alternatives (sec. 102(2)(D)).

(e) Recognize the worldwide and long-range character of environmental problems (sec. 102(2)(E)).

(f) Make available to States, counties, municipalities, institutions, and individuals, advice and information useful in restoring, maintaining, and enhancing the quality of the environment (sec. 102(2)(F)).

(g) Initiate and utilize ecological information in the planning and development of resources-oriented projects (sec. 102(2)(G)).

(h) Assist the Council on Environmental Quality (sec. 102(2)H)).

Both section 102(2)(C), which requires a detailed five-point statement of environmental impact, and section 102(2)(D), which requires analysis of alternatives where unresolved conflicts occur, are interpreted to be applicable to feasibility reports and to requests for funds

are submitted to CEQ, the Council's

statements, using the prescribed format

ever, to the maximum extent feasible.

V37-1723 NOV 17 72 XUM

to initiate construction of previously authorized projects. Under certain conditions they are also applicable to continuing construction and maintenance projects and to the granting of leases, licenses, and permits.

5. *Policy.* In formulating plans for construction, operation, and maintenance, water resource development or management, impact on the environment will be fully considered from the very initiation of preauthorization planning. Early and continuing search in cooperation with appropriate local, State, and Federal agencies, as well as interested individuals, associations, and groups, will be undertaken to develop alternatives and measures which will enhance, protect, and restore the quality of the environment, or, at least, minimize the mitigate unavoidable deleterious effects. Preparation of the five-point statement required by the Act will constitute an integral part of the preauthorization feasibility report process. The statement will serve as a summation of evaluations of the effects that alternative actions will have on the environment and as an explanation of the alternatives considered in arriving at the finally recommended plan.

6. *Responsibility within the U.S. section.* (a) The Chief, Planning and Reports Section, Engineering Division, under the supervision of Principal Engineer Supervising, is hereby designated as the responsible official within the meaning of section 102 of the Act and is responsible for the implementation of the requirements of the Act as they relate to the making of environmental assessments and the preparation of and the processing of environmental statements. When appropriate to supplement work in evaluating the environmental impact of a proposed action, he will solicit information from within the U.S. section, other Government agencies (Federal, State, and local) with jurisdiction by law or special expertise with respect to any environmental impact involved, and interested individuals, associations or groups. He shall consult with the Special Legal Assistant concerning legislative actions covered by the Act and for interpretations of the Act, the Executive orders and the guidelines, and for advice on legal requirements for filing environmental impact statements and on legal requirements regarding their contents.

In the case of an agency or agencies acting as agent for the U.S. section in the design and construction of a project (as distinguished from merely preparing an environmental statement for the Section's use) that agent will prepare, distribute, and coordinate the review of the statement according to its established procedures. This includes transmittal to Council on Environmental Quality. However, the agent has the responsibility to confer with the U.S. section and to keep it fully informed.

When uncertainty persists within the U.S. section as to the requirement in a specific case for filing an environmental impact statement, the Special Legal Assistant will initiate consultations with the Office of Environmental Affairs, (SCI/EN—Department of State) and the Assistant Legal Adviser for Environmental Affairs (L/EN—Department of State) and followthrough to a final determination. In every case where the U.S. section determines that no environmental impact settlement is required, it shall so inform SCI/EN.

(b) The Special Legal Assistant will be responsible for the publishing of the necessary notices in the FEDERAL REGISTER and shall act as coordinator of the U.S. section's activities.

7. *Procedure for preparation, planning, and coordination of the statement.*—(a) *Preparation.*—Statements to be meaningful for review and decisionmaking shall utilize, along with any other points the responsible official deems appropriate, the following categories of criteria:

(1) Describe physical and environmental aspects sufficiently to permit evaluation and independent appraisal of the favorable and adverse environmental effects of each proposal. They should be simple and concise, yet should include all pertinent facts. Length would depend upon the particular proposal and the nature of its impacts and the environmental setting.

(2) Be submitted as a separate document, not as an inclosure or appendix to other documents such as preauthorization studies or design memorandums. Such reports and design memorandums must contain adequate background information to support fully the conclusions and recommendations on environmental matters. The statements should not be construed as a further means for assisting or supporting project justification.

(3) Not be limited to ultimate conclusions, but should demonstrate that the U.S. section has adequately considered the potential impact of the proposal upon the environment. The statement should summarize information and cite sources of overall appraisals which are based upon judgments of complex matters (e.g., water quality by Environmental Protection Agency (EPA)). In most cases any activity that will significantly affect the quality of the following elements of the human environment will require an environmental statement:

(*a*) Rare and endangered species—plants or animals.

(*b*) Formally classified areas, such as wilderness areas, primitive areas, wild and scenic rivers, national recreation areas, natural areas, scenic areas, historical areas, archeological areas, geological areas, and national trails.

(*c*) Municipal watersheds.

(*d*) Shorelines.

(*e*) Open and green spaces.

(*f*) Large unroaded areas.

(*g*) Lakes.

(*h*) Beaches and shores.

(*i*) Scenic attractions, and other areas of natural beauty.

(*j*) Wetlands and estuaries.

(*k*) Adjacent national parks and monuments, wildlife refuges, or similar State and locally designated areas.

(*l*) Free-flowing streams.

(*m*) Air quality.

(*n*) Water quality.

(*o*) Key wildlife or fish areas.

(*p*) Prescribed burning program, including roller chopping, rock raking, shearing, cabling, etc.

(*q*) Rights-of-way permits for major transmission lines.

(*r*) Major sewage treatment facilities.

(*s*) Major acquisition or exchange.

(*t*) Estauries.

(*u*) Biological resources.

(*v*) Ecological systems.

A definitive list of activities requiring environmental statements cannot be specified. The above list is certainly not all-inclusive, nor will all plans and actions within the activities require statements. The responsible official must consider all available factors.

(4) In the final statement include and comment on the views of those opposing the proposal for environmental reasons, if any. The summarized views of agencies having environmental responsibilities, and with which the proposals have been coordinated, should be included.

(5) Include a full and objective appraisal of the environmental effects, good and bad, and of available alternatives. Where available, include the benefit-to-cost ratio of alternatives, or differences in annual costs. In no case will adverse effects, either real or potential, be ignored or slighted in an attempt to justify an action previously recommended. Similarly, care must be taken to avoid overstating favorable effects.

(6) Discuss the proposal's impact on environmental resources of regional significance (draw attention to national versus regional and local importance) whenever the impact extends beyond the immediate area.

(7) Discuss the significant relationships between the proposal and other developments (existing and authorized). For example, a statement on a project which would convert a free-flowing section of a stream into a reservoir should contain information on the amount of flowing and flat water available in the area. Draw attention to cumulative effects of many small actions, and the chain reactions or secondary effects of interrelated activities.

(8) Where possible, the statements should show an indication of the magnitude of the effect including short-term changes. This may include changes in flow in cubic feet per second for both peak- and low-flow periods or changes in dissolved oxygen or temperature, which are key parameters for measuring water quality, and other factors vital to the ecology of the area, such as degree of ecosystem disturbance—both onsite and offsite effects.

(9) Include an appropriate summary. Regardless of the type of summary used within the section for review purposes, when the statements (draft and final) are submitted to CEQ, the Council's prescribed format for a summary shall be utilized.

(10) Discuss the probable impact of the proposed action on the environment, including impact on ecological systems such as wildlife, fish, and marine life.

(11) Point out any probable adverse environmental effects which cannot be avoided.

(12) Review all reasonable alternatives to the proposed action, and the environmental impacts of each.

(13) Discuss the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.

(14) Comment on any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.

(15) Where appropriate, discuss problems and objections raised by other Federal, State, and local agencies and by interested individuals, associations, and groups, in the review process and the disposition of issues involved.

(16) Contain a bibliography to assist readers and reviewers to determine the sources of information used.

(17) Discuss any existing State or Federal legislation, program, or study that concerns the study area or would have an effect upon it. Examples of such legislation and studies are those dealing with wild and scenic rivers, wilderness or wild areas, national recreation areas, estuaries, or preservation of natural areas and Fish and Wildlife coordination.

(18) Indicate that (*a*) the National Register of Historic Places has been consulted and that no National Register properties will be affected by the project, or (*b*) a listing of the properties to be affected, an analysis of the nature of the effects, a discussion of the ways in which the effects were taken into account, and an account of steps taken to assure compliance with section 106 of the National Historic Preservation Act of 1966 (80 Stat. 915) in accordance with procedures of the Advisory Council on Historic Preservation as they appear in the FEDERAL REGISTER, February 20, 1971. In the case of properties under the control or jurisdiction of the U.S. Government, the statement should include a discussion of steps taken to comply with section 2(b) of Executive Order 11593 of May 13, 1971. The statement should contain evidence of contact with the State liaison officer for historic preservation for the State involved and a copy of his comments concerning the effect of the undertaking upon historical and archeological resources.

(19) Develop uniqueness or rareness of resources.

(20) Draw attention to scope of anticipated public involvement and controversy anticipated.

The guidelines dated April 23, 1971, of the Council on Environmental Quality, Appendix A, and the guidance contained in Appendix B will be considered and utilized in preparing environmental statements, using the prescribed format or any revision thereto.

In each instance where it is determined, after the necessary investigation and assessment, that no environmental impact statement will be prepared by the U.S. section, a memorandum will be prepared for U.S. section files indicating the extent of the investigation and assessment conducted and the reasons for the determination that no impact statement will be prepared. A list of such actions will be available to Government agencies or members of the public on request.

(b) *Planning relationships.* (1) In the development of new projects or proposals, the rationale of environmental statement and assessment of environmental considerations will be integrated into the planning process from the beginning. Preliminary identification and assessment of possible environmental impacts and effects will be made and fully discussed at an early milestone in the study. Even where it is clear from the start that a proposed action will not require an environmental impact statement, the results of that investigation will be an integral part of the decisionmaking process. When kept current, such an environmental assessment can provide valuable assistance in the investigation and study process. The first meeting with the public should be scheduled early in the development stages so that the environmental "pulse" may be felt from the beginning. Agencies and conservation associations will be advised of the initiation of the investigation, and be requested to provide environmental information for the area.

(2) Beginning with the formulation stage, all anticipated environmental impacts and effects of each solution under consideration will be identified and discussed. This may entail the preparation of an environmental memorandum. After consideration of all the preliminary factors, including those which may have been forthcoming as a result of the first meeting with the public, a second meeting with the public should be scheduled. Any environmental factors known to the U.S. section should be summarized and made available prior to the meeting. This will generate a meaningful and thorough discussion during the meeting. Interested citizens and citizen groups must be informed of the fact a public meeting is scheduled so that their views may be considered.

By the time the late stage in the planning has been reached the U.S. section's environmental position should have been formulated. A third meeting with the public should be scheduled so that the environmental discussions regarding any proposal and alternatives will be specific and thorough insofar as the environmental impacts and effects are concerned.

(3) On projects which were recommended, authorized, or under construction prior to the National Environmental Policy Act of 1969, the range of alternatives and the opportunity to study and evaluate them may be more limited. However, to the maximum extent feasible, alternative solutions and opportunities for environmental enhancement, preservation, and mitigation will be investigated prior to preparation of the statement. Regardless of the level at which formal coordination is to take place, the environmental impact of all reasonable alternatives will be carefully examined and evaluated in coordination with appropriate Federal, State, and local agencies prior to preparing a recommendation or an environmental statement.

(4) As a "followup" the public will be informed of the general content of all statements before or at the time that the recommendation or report is furnished to the Council by publishing of an appropriate notice in the FEDERAL REGISTER, by public notice to all parties known to be interested, by press release, or by a combination of such means. In addition, prior to formulation of recommendations and preparation of the statement, in all cases where public hearings are held, there will be presented a notice of the hearing and at the hearing a discussion setting forth the information upon which a statement is based will be conducted. The discussion will include a listing of alternatives; the environmental impacts—positive or negative—associated with each fundamental alternative; the nature of environmental tradeoff implied by various alternatives; including irretrievable commitments of each alternative; and the relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity under the various alternatives. Whenever public announcement of recommendations or reports is made prior to submission of the statement to the Council, the announcement will contain an appropriate summary of the proposed statements and comments of other agencies. The draft statement may be provided interested agencies, groups, and citizens. In certain cases, where critical and sensitive environmental effects and widespread public concern have been identified, a pre-announcement clearance to hold a public meeting will be requested. Requests will be supported by full recitation of the problems at issue with analysis of the pros and cons of the proposed and alternative courses of action.

Section 2(b) of Executive Order 11514 envisions use of public hearings wherever appropriate. Public hearings will be employed by the U.S. section on any occasion where it is felt same will enable the taking of the "environmental pulse" unless it is determined that the requirements of carrying on international relations, including the constraints of time and the posture of the United States in negotiation, do not allow such hearings to be carried out without prejudice to the national interest. The provisions of the Administrative Procedures Act do not apply to hearings involving "foreign affairs functions"; however, in each case where hearings are employed in accordance with this paragraph, a public notice of the hearing indicating the time and

place of the hearing and the matters to be considered will be made available to

(30) day period and ninety (90) day period may run concurrently to the extent

(c) Section 101(b) of the NEPA indicates the broad range of aspects of the

considered differ significantly from those that have already been reviewed, an environmental statement should be pro-

sumed the agency consulted has no comments to make.

13. *Budget process.* The requirement of

dividual projects and activities, and the amounts of funds involved, that are considered subject to section 102(2)(C),

V37-223 NOV 17 72 XUM

place of the hearing and the matters to be considered will be made available to the public at least 15 days prior to the hearing. Chief, Planning and Reports, shall arrange for the hearing and the publication of the prescribed notice, and shall conduct the hearing. If such hearings cannot be carried out, arrangements should still be made, where practicable, for an expedited opportunity for members of the public to present their views orally.

(c) *Coordination of statement.* Coordination of the statement with Federal, State, and local agencies, as well as interested individuals, associations, and groups, will be in accordance with existing policies and the following clarification:

(1) Coordination with responsible agencies will include transmittal of draft environmental statements for their review and comment. Upon receipt, agency comments will be reviewed and summarized in the statement. Copies of the agency comments will be included as an attachment to the statement when forwarded for further action. The agency comments and the views expressed should be no older than 3 calendar years for previously authorized projects. More recent coordination will be required if significant changes in the proposal or in the associated environment have occurred in the meantime. Copies of the statement will be forwarded to the appropriate contact points listed in Appendix II, CEQ's Guidelines dated April 23, 1971, as well as to the field offices. The transmittal letter to field offices will advise that a statement has been furnished to the contact listed in Appendix II. Insofar as distribution of statements within a State is necessary, the clearinghouses established by Budget Circular No. A-95 dated June 15, 1970, or any revisions thereto, will be utilized.

(2) In the event environmental statements are being prepared on two or more units in the same area, the work on preparing statements will be scheduled and consolidated to result in one statement being transmitted to the Department and Council for all units in an area.

8. *Administrative action.* No administrative action—to the maximum extent practicable—is to be taken sooner than ninety (90) days after a draft environmental statement has been furnished to and received by the Council, circulated for comment, and, except where advance public disclosure will result in significantly increased cost of procurement to the Government, made available to the public pursuant to the guidelines. Further, no administrative action should be taken sooner than thirty (30) days after the final text of an environmental statement (together with comments) has been received by the Council and made available to the public. In the event the final text of an environmental statement is filed within ninety (90) days after a draft statement has been circulated for comment, received by the Council, and made public pursuant to this manual, the thirty (30) day period and ninety (90) day period may run concurrently to the extent that they overlap.

9. *Criteria for determining whether a Federal project or activity will significantly affect the quality of the human environment.* The following criteria will be employed in deciding whether a proposed action requires the preparation of an environmental statement:

(a) "Actions" include but are not limited to:

(1) Projects that are part of treaties and which significantly affect the quality of the human environment.

(2) Recommendations or reports to the Congress on proposals for legislation affecting U.S. section programs, including proposals to authorize projects.

(3) Recommendations or reports on proposals for authorization of projects except for emergency measures.

(4) Initiation of construction or land acquisition on projects which are not yet started for which funds have been appropriated or are provided by an Appropriation Act.

(5) Budget submissions requesting funds for the initiation of construction or real estate acquisition on authorized projects.

(6) Policy—and procedure making, especially proposed actions which are highly controversial.

(b) The statutory clause "major Federal actions significantly affecting the quality of the human environment" is to be construed with a view to the overall, cumulative impact of the action proposed (and of further actions contemplated) and reasonable alternatives thereto (including those not within the authority of the U.S. section). Such actions may be localized in their impact, but if there is potential that the quality of the human environment may be significantly affected, the statement is to be prepared. Proposed actions, the environmental impact of which is likely to be highly controversial or unresolved conflicts concerning alternative use of available resources exist, should be covered in all cases.

In considering what constitutes major action significantly affecting the quality of the human environment, U.S. section personnel should bear in mind that the effect of many Federal decisions about a project or complex of projects can be individually limited but cumulatively considerable. This can occur when one or more agencies over a period of years put into a project individually minor but collectively major resources, when one decision involving a limited amount of money is a precedent for action in much larger cases or represents a decision in principle about a future major course of action, or when several Government agencies individually make decisions about partial aspects of a major action. The lead agency should prepare an environmental statement if it is reasonable to anticipate a cumulatively significant effect on the quality of the human environment from the Federal action.

(c) Section 101(b) of the NEPA indicates the broad range of aspects of the environment to be surveyed in any assessment of significant effect. The NEPA also indicates that adverse significant effects include those that degrade the quality of the environment, curtail the range of beneficial uses of the environment or serve short-term, to the disadvantage of long-term, environmental goals. Significant effects can also include actions which may have both beneficial and detrimental effects, even if, on balance, the agency believes that the effect will be beneficial. Significant adverse effects on the quality of the human environment human beings and those that indirectly affect human beings through adverse effects on the environment.

(d) Not every U.S. section activity will be considered a major Federal action significantly affecting the quality of the human environment for the purposes of the Act. For example, the following general classes of actions ordinarily do not require the filing of an environmental impact statement:

(1) Participation in research or study projects.

(2) Mandatory actions required under any treaty or international agreement to which the United States is a party, or required by the decision of international organizations (including courts), authorities, or consultations in which the United States is a member or participant.

(3) Mapping and surveying activities.

(4) Stream gaging, routine hydrologic test drilling, well logging, aquifer response testing, and similar data-gathering activities in connection with water resources investigations.

(5) Operation and maintenance of project facilities, including dams, channels, floodways, powerplants, buildings, fences, gates, and other appurtenant facilities including but not limited to:

(a) Storage of waters in reservoirs and releases therefrom for both flood control and conservation purposes.

(b) Grazing leases.

(c) Licenses and permits for recreation facilities at existing projects.

(d) Maintaining low vegetative growth in floodways and channels.

(e) Sediment removal from river channels.

(f) Restoration and repair of banks at reservoirs and on rivers that may involve riprap activities.

(g) Restoration and repair of earth embankments.

(6) Administrative procurements (e.g., general supplies).

(7) Contract for personal services.

(8) Legislative proposals originating in another agency.

10. *Use of statements in U.S. section's review process; distribution to Council on Environmental Quality.* (a) The principle to be applied is to obtain views of other agencies at the earliest possible time in the development of a program and project proposals. Care should be exercised so as not to duplicate the clearance process, but when actions being

considered differ significantly from those that have already been reviewed, an environmental statement should be provided.

(b) Twelve (12) copies of draft environmental statements (when prepared) and twelve (12) copies of the final text of environmental statements (together with all comments received thereon by the responsible agency from Federal, State, and local agencies and from interested individuals, associations, and groups) shall be supplied to the Council in the Executive Office of the President. (This will serve as making environmental statements available to the President.) It is important that draft environmental statements be prepared and circulated for comment and furnished to the Council early enough in the agency review process before an action is taken in order to permit meaningful consideration of the environmental issues involved.

11. *Availability of environmental statement and comments to public.* The U.S. section, when it prepares the statement, is responsible for making such statement and the comments received available to the public pursuant to the provisions of the Freedom of Information Act (5 U.S.C.A. 552). Copies of the draft and final statements will be filed with the National Technical Information Service.

A copy of the final environmental statement will be furnished to each agency, individual, or association providing substantive comments on the draft statement.

12. *Publication in the* FEDERAL REGISTER. Notices will be placed in the FEDERAL REGISTER when:

(a) The draft statement has been approved by the Commissioner and transmitted to the Council on Environmental Quality.

(b) The final statement has been approved by the Commissioner and transmitted to the Council on Environmental Quality.

(c) Comments are received after the final statement has been approved, transmitted to Council on Environmental Quality, and publication regarding final statement has previously been published.

(d) Public meetings are held if deemed feasible.

The notice will contain sufficient information to inform those reading it of the location and purpose of a project, where copies of the statement may be obtained and where the meeting is to be held.

When comments are being sought by a publication, a time limit of not less than thirty (30) days may be established for local, State, and Federal agencies to reply. The U.S. section will, in all cases possible, allow private individuals sixty (60) days in which to comment. In cases where extensions of time are requested in which to comment, an endeavor will be made to comply with requests for extension of time up to fifteen (15) days. If no reply is received within the period allowed for comments, it will be presumed the agency consulted has no comments to make.

13. *Budget process.* The requirement of NEPA, Water Quality Improvement Act, Executive Order 11514, the Guidelines, and Office of Management and Budget Bulletin No. 72-6 shall be met through the U.S. section's budget process to the maximum extent practicable. The following requirements of the budget process will be met:

(a) *Legislation.* This section is responsible for identifying those of its legislative proposals, or favorable reports on bills on which it is the principal agency concerned, that would require the preparation of the statements and receipt of the comments required under section 102 of the Act. When there is doubt as to which is the principal agency concerned, Special Legal Assistant shall consult with the Office of Management and Budget's Legislative Reference Division.

The proposed section 102(2)(C) statements and the required comments shall accompany legislative proposals and reports when these are sent to the Office of Management and Budget for clearance. Copies of this material shall have been previously furnished directly to the Council for its information. As a part of the normal clearance process, the Office of Management and Budget will circulate the proposed statements, along with the proposals or reports, to appropriate Federal agencies, and will consult with the Council. In certain cases, the clearance process may disclose the need for a section 102(2)(C) statement where none has been prepared. In this event, the Office of Management and Budget will request the U.S. Section to develop and submit such a statement.

After differences with other agencies over the legislative proposal or report have been resolved, and after the legislative proposal or report has been cleared by the Office of Management and Budget, the final statement and comments shall accompany the proposal or report to the Congress as supporting material.

(b) *Annual budget estimates.* In the event the U.S. section has major program actions which significantly affect the quality of the human environment, annual budget estimates shall be accompanied by a special summary statement explaining generally the environmental impact expected to result from those activities and programs for which it is not possible to make an assessment of the potential impact on specific areas of the environment. Special summary statements shall include relevant information about general environmental impact and alternatives, and, to the extent possible, important environmental problems that may be caused by proposed actions but which still must be assessed as plans for programs and activities are further refined. The special summary statement shall also include, in the form illustrated in appendix C, the following information by appropriation or fund account:

Column A.—*Action, project, or activity.* Identify the agency actions and individual projects and activities, and the amounts of funds involved, that are considered subject to section 102(2)(C). Where the action is a part of a larger activity, identify only the project or action subject to section 102(2)(C) and the amount involved.

Column B.—*Final statement completed.* Check the appropriate category. If there are significant unresolved issues with other agencies, include a copy of the statement with the submission to the Office of Management and Budget.

Column C.—*Statement being prepared.* Give the status (e.g., awaiting comments from interested agencies) and estimated completion date.

Agencies that prepare section 102(2)(C) statements for annual authorizing legislation shall submit the proposed section 102(2)(C) statements in lieu of a special summary statement required by paragraph (b) above, except that the information required for the special summary exhibit shall be submitted along with the proposed section 102(2)(C) statement. Copies of the special summary statement or proposed section 102(2)(C) statement (accompanied by information for the special summary exhibit) shall be furnished directly to the Council on Environmental Quality.

14. *Lease, license, and permit applications.* As required by existing regulations, lease, license, and permit applications will be coordinated with Federal, State, and local agencies which are authorized to develop and enforce environmental standards, unless granting of the lease, license, or permit could not significantly affect the quality of the human environment. Comments from such agencies or from the U.S. section will be presented to the applicant who will be given the opportunity to modify his application so as to remove the cause, if any, for an agency's objection that there will be a significant effect on the quality of the human environment.

In the event an applicant does not take action to remove an objection, the U.S. section will prepare the statement required by section 102(2)(C) of NEPA. The applicant is required to carry out at his expense the necessary environmental assessment and investigation as may be required by the U.S. section for use in preparation of the statement, in addition to any information the applicant may wish to furnish in order to demonstrate that granting of the lease, license, or permit is in the public interest. A summary of the information on which the statement is based will be furnished to the public in the notice of public hearing and at the hearing, if one be held.

The granting of the lease, license, or permit is the "Federal action" which may require the statement. While applicant has the duty and responsibility to undertake the environmental assessment and investigation, the U.S. section has primary and nondelegable responsibility for determining environmental impact of an action at every distinctive and comprehensive stage. The preparation of a statement by an applicant and the

later adoption of same by the U.S. sec-

or amendments thereto. (Reference attached appendix D.)

proposals; however, it will be presumed that the agency has no comments to

time and the posture of the United States in negotiation, allow such hearings to be

be discussed. For projects on which initial formulation has been completed, much of

projects and alternatives proposed, under construction or in operation by any agency

XUM

V37-223 NOV 17 72

XUM

later adoption of same by the U.S. section would be abdication by the U.S. section of a significant part of its responsibility to determine environmental impact.

Failure of an applicant to furnish the requested information shall result in the denial of an application.

Leases, licenses, or permits granted or approved by the U.S. section will contain provisions to assure compliance with applicable air and water quality standards; to conserve and protect the environment; and to avoid, minimize or correct hazards to the public health and safety. The lessee, licensee, or permittee will be required to provide adequate measures to avoid, control, minimize, or correct erosion, contamination, or other abuses and damages to the environment within or without the premises under lease, license, or permit that may result from or have been caused by operations conducted on the premises.

Farming and grazing operations shall be conducted in accordance with recognized principles of good practice, conservation, and prudent management. Land use stipulations or conservation plans to define such use and the measures necessary for the conservation, protection, and control of the environment shall be incorporated in and made a part of the lease, license, or permit.

Commercial and industrial developments shall be constructed and operations conducted on the premises under lease, license, or permit to control and minimize environmental pollution and abuses so that the quality of the human environment will not be significantly affected. Leases, licenses, and permits shall contain provisions for the lessee, licensee, or permittee to submit, for advance approval, general and comprehensive plans of any proposed construction or developments for the use and conduct of operations as authorized for the premises prior to commencing any actual construction or development activities. Such plans, including architects' designs, construction specifications, machinery or equipment installation and operation or specifications for other operations or developments, shall provide measures necessary to protect, control, or abate environmental pollution or abuses and avoid, minimize, or correct hazards to the public health and safety.

Other uses as authorized by leases, licenses, or permits issued shall conform to the requirements and provisions formulated for each such use as adapted to local conditions and the environmental factors which are in need of protection and control measures.

Due to the nature of this section's leasing, licensing, and permit program, all factors are to be carefully considered before determining what is needed for the protection of the environment, conservation, and land use requirements.

Applications involving power transmission lines will be prepared in accordance with Bureau of Land Management, Department of the Interior, regulations as published in Subchapter B, Subpart but which involve the authority of EPA, EPA will be informed that no state-2850 of 43 CFR 2851.2–1 or any revisions or amendments thereto. (Reference attached appendix D.)

15. *Operations at construction sites.* Some operations that contribute to pollution and noise at construction sites and therefore require close surveillance, are enumerated in the following list:

(a) *Air pollution:*
(1) Burning;
(2) Earthmoving operations (dust);
(3) Sandblasting;
(4) Sprayed-on coatings;
(5) Soil stabilization operations (cement or lime);
(6) Concrete mixing plant (dust);
(7) Batch truck operation (dust);
(8) Winter heating equipment (smoke and fumes);
(9) Gunite operations (rebound); and
(10) Asphalt operations (dust—smoke—volatiles).

(b) *Water pollution:*
(1) Solid wastes;
(2) Earthmoving operations (runoff);
(3) Clearing operations (erosion);
(4) Core drilling and grouting operations (waste water);
(5) Well point system runoff (erosion);
(6) Concrete operations:
(a) Aggregate washing;
(b) Spillage;
(c) Water curing; and
(d) Washing of mixers and batch trucks.

(c) *Noise:*
(1) Pile-driving;
(2) Equipment noise;
(3) Drilling and blasting; and
(4) Rock crushing.

The construction engineer should ascertain that the contractor complies with:

(i) The current applicable Federal regulations;

(ii) The current applicable local regulations; and

(iii) Methods and restrictions of operations that are contract requirements.

On projects where regulations and contract requirements do not specifically outline procedures, the contractor's cooperation should be encouraged in an effort to run a clean and safe operation.

Appropriate provisions will be included in the contract specifications for the works to be performed requiring compliance with Federal, State, and local pollution laws, regulations, and rules. Examples of contract specifications are attached at appendix E.

16. *Section 309 of the Clean Air Act Amendments of 1970.* Section 8 of the Council's guidelines requires that, in addition to normal coordination procedures, the following rules apply to coordination with EPA:

(a) Comments of the Administrator or his designated representative will accompany each final statement on matters related to air or water quality, noise control, solid waste disposal, radiation criteria and standards, or other provisions relating to the authority of EPA.

(b) Copies of basic proposals (studies, proposed legislation, rules, leases, permits, etc.) will be furnished to EPA with each statement. For actions for which statements are not being prepared ment will be prepared and that comments are requested on the proposal.

(c) A period of 45 days will be allowed for EPA review of statements and/or proposals; however, it will be presumed that the agency has no comments to make only when the impacts or matters related to the authorities of EPA are minor, or the agency has indicated that it does not desire to comment.

Upon circulation of draft statement to the EPA, comments shall be requested under both the NEPA and section 309 of the Clean Air Act.

17. *Exceptions.* The nature of negotiations and relations at the international level may make it necessary to depart in some instances from the procedures in the guidelines. CEQ foresaw the need for such departures in CEQ Guidelines 4 and 10. Exceptions applicable to the U.S. section are set forth below.

(a) The statements which are written to comply with the Act should not normally include any classified or administratively controlled material, nor should they normally include statements with respect to positions other than the optimum position of the United States in any ensuing negotiation or discussion. Although environmental impact statements should, whenever possible, be unclassified and hence available to the public, there may be situations where such statements cannot adequately discuss environmental effects without disclosure of classified information. In these instances, the statement should be appropriately classified. Whenever possible, the classification should terminate on a specified date or upon the happening of a described event. Such statements, so long as they are classified, will not be made available to the public.

(b) Since final statements may not be available until the conclusion of negotiations for an agreement or of a discussion, the 30-day time delay between submission of such a document and final Federal action set out in CEQ Guideline 10(b) will not apply to actions taken in these situations. Every attempt will be made to comply with the 90-day period which guideline 10(b) requires between submission of the draft statement and final action. Where schedules of international conferences make this impossible, the U.S. Section will notify the Council on Environmental Quality as soon as possible of the circumstances, with the purpose of fulfilling the intent of the Act insofar as possible.

(c) In certain exceptional instances it may be necessary at times to reduce the 30-day period for agency comments set out in CEQ Guideline 7. When this is the case, all agencies to whom the draft statement has been sent will be informed by the U.S. Section of the reduced time period. The reduced time period must also be included in the public notice published in the FEDERAL REGISTER.

(d) Section 2(b) of Executive Order 11514 establishes requirements for providing public information on Federal actions and impact statements and envisions extensive use of public hearings. Public hearings will be employed by the U.S. Section only upon a determination by the U.S. Commissioner that the requirements of carrying on international relations, including the constraints of

time and the posture of the United States in negotiation, allow such hearings to be carried out without prejudice to the national interests.

(e) In those instances wherein the draft and/or final statement is submitted to the Department (SCI/EN) for concurrence before distribution outside the U.S. Section and no notification is received from the Department after the expiration of ten (10) days from the date of mailing by the U.S. Section, the U.S. Section will assume the Department has concurred and shall proceed on that basis.

18. *Effective date.* These procedures supersede any draft of proposed procedures which has been published in the FEDERAL REGISTER or circulated to other agencies (local, State, or Federal), interested individuals, associations, or groups. These procedures become effective upon the date of their publication in the FEDERAL REGISTER.

FRANK P. FULLERTON,
Special Legal Assistant.

APPENDIX A—GUIDELINES, DATED APRIL 23, 1971, FOR STATEMENTS ON PROPOSED FEDERAL ACTIONS AFFECTING THE ENVIRONMENT

NOTE: See pages 7724–7729 in the issue of Friday, October 23, 1971.

APPENDIX B—PREPARATION OF ENVIRONMENTAL STATEMENTS

1. *General.* Preparation of environmental statements will be based on considerations discussed in the procedures to which this appendix forms a part, the guidelines and the detailed guidance to follow. These directions are intended to assure consistency of effort in preparing statements and are not proposed to induce unthinking uniformity or limit flexibility when preparing statements. These statements have several levels of importance with reference to the decision-making process, U.S. Section relations with the public, and internal project planning activities. A careful, objective detailing of environmental impacts, alternatives, and implications of a proposed project should give reviewers both within and outside the U.S. Section insight into the particular tradeoffs and commitments associated with the action. The general public, environmental agencies, and congressional committees will all expect the statements to be a valid source of information on project effects, as well as a reflection of how this Section views environmental factors and seeks to accommodate them. Since the statements must be made available to the public and may receive broad exposure in the media, it can be assummed that they will receive careful scrutiny. Most importantly, preparation of the statements should cause systematic consideration of environmental impacts. An imaginative evaluation of alternatives and their implications should begin in the earliest stages of project formulation, with planners contemplating the criteria and range of information to be employed in preparation of final statements.

2. *Working papers.* In order to assure a comprehensive treatment of environmental concerns, a working document checklist of pertinent environmental elements should be compiled and periodically updated by the environmental planners. A discussion of these elements should establish their importance, placing emphasis on whether they are unique, endangered, old, popular, etc.—in essence, explore the ecological, aesthetic, cultural, and other values which appear to make the elements environmentally significant. The manner in which economic considerations affect those values should also be discussed. For projects on which initial formulation has been completed, much of the information needed to characterize the elements may already be contained in existing survey documents, designed memoranda and project files. Conversely, the organization of working papers at an early stage in the planning process will assist in subsequent survey studies and post-authorization design. Planners should keep abreast of current literature and information sources to aid in compiling environmental data.

3. *Environmental elements.* Logical categories and sample elements for the working papers follow.

(a) Geological elements: Land forms (mountains, canyons), rock and mineral features, paleontologic items (fossils), structures (faults, synclines). Related: Soils, erosion, strip mined areas, caves.

(b) Hydrological elements: Lakes, reservoirs, estuaries, rivers, subsurface water, marshes, valley storage, springs. Related: Turbidity, pollutants, aquifer recharge areas, surf.

(c) Botanical elements: Trees, shrubs, aquatic plants, microflora. Related: Seasonal colors, virgin forests.

(d) Zoological elements: Mammals, birds, amphibians, fish, shellfish, microfauna. Related: Migration routes, breeding characteristics.

(e) Archeological/historical/cultural elements: Ruins, artifact sites, ghost towns, battlefields, cemeteries, festival sites, ethnic colonies.

(f) Miscellaneous elements: Scientific areas, national parks or forests, hunting clubs, wildlife refuges, contemporary human features (buildings, transportation systems).

It should be noted that the elements under the last two categories are relevant to the human environment and are not strictly environmental in nature. Their consideration is essential to assure treatment responsive to the full concern of the NEPA.

4. *Format.* Environmental statements will constitute a separate document from other U.S. section papers. It will include a cover sheet and a summary statement and be prepared on 8½ x 11 white paper (without letterhead), with clear black type. The cover sheet identifying the project will contain the following:

Date_____

(Draft, Final) Environmental Statement
Official Project Name
associated water feature, State
prepared by
U.S. Section, International Boundary and Water Commission
El Paso, Tex.

5. *Content of statement.* The body of environmental statements will contain, as a minimum, the following eight separate sections (and attachment containing coordination letters) with the length of each being adequate to identify and develop the required information.

(a) *Project description.* Describe the proposal by name, specific location, purposes, authorizing document (if applicable), current status, and benefit-cost ratio. Generally delineate the project purpose and what the plan of the proposal entails.

(b) *Environmental setting without the project.* Describe the area, the present level of economic development, existing land and water uses, and other environmental determinants. Discuss the environmental setting without focusing only on the immediate area at the risk of ignoring important regional aspects critical to the assessment of environmental impacts. It is possible and often desirable to treat the project setting in relation to river basins, watersheds, or functional ecosystems. Discuss the interrelations of projects and alternatives proposed, under construction or in operation by any agency or organization.

(c) *The environmental impact of the proposed action.* (1) Identify environmental impacts, viewed as changes or conversions of environmental elements which result from the direct and indirect consequences of the proposed action. A thoughtful assessment of the environmental elements under both a "with" and "without the project" condition should aid in determining impacts. For example, the filling of a portion of the wetlands of an estuary would involve the obvious conversion of aquatic/marsh areas to terrestrial environments, the loss of wetland habitats and associated organisms, a gain in area for terrestrial organisms, a change in the nutrient regime of the runoff water entering that portion of the estuary, alteration of the hydrology of some given area, perhaps the introduction of buildings or roads, curtailment of certain commercial uses, disruption of water-based recreational pursuits, conversion of wildland esthetics to less pristine attributes, perhaps the removal of some portion of popular duck hunting grounds or unique bird nesting area, etc. Such impacts shall be detailed in a dispassionate manner to provide a basis for a meaningful treatment of the tradeoffs involved. Quantitative estimates of losses or gains (e.g., areas of marshland, number of ducks nesting or harvested) will be set forth whenever practicable.

(2) Discuss both the beneficial and detrimental aspects of the environmental changes or conversions placing some relative value on the impacts described. A distinction should be observed here, whereby the impacts (changes) were initially detailed without making value judgments which at this point are discussed in terms of their effects (who or what is affected by the changes). Identify the recipient (environmental element, interest group, industry, agency) of these effects and the nature and extent of the impacts on them. Discuss these effects not only with reference to the project area, but in relation to any applicable region, basin, watershed, or ecosystem. In the example given, the loss of wetland might have relevance to different areas depending on the uniqueness of the filled area, the developmental plans and state of adjacent and regional wetlands, and the extent of the secondary effects of the filling (alteration of estuarine salinity wedge, sedimentation effects on adjacent shellfish, the modification of the surficial and groundwater hydrology of contiguous marsh and upland areas, etc.).

(3) Identify remedial, protective, and mitigation measures which would be taken in response to adverse effects of environmental impacts. Such measures taken for the minor or short-lived negative aspects of the project will be discussed in this section. The adverse effects which cannot be satisfactorily dealt with will be considered in greater detail along with their abatement and mitigation measures in the following section.

(d) *Any adverse environmental effects which cannot be avoided should the proposal be implemented.* Discuss the unavoidable adverse effects that significantly affect the quality of the human environment and the implications thereof, and identify the abatement or mitigation measures proposed to rectify these and the extent of their effectiveness. The loss of a given acreage of wetland by filling may be mitigated by purchase of a comparable land area, but this does not eliminate the adverse effect. Certainly the effects on the altered elements will not disappear simply because additional land is purchased. Identify the nature and extent of the principal adverse effects and the parties affected. For example, the effects of the filled wetland might include the loss of shellfish through sedimentation actions (turbidity and burial), the loss of organisms

XUM
V 37 I 223 NOV 17 72 XUM

through the leaching of toxic substances from polluted marsh sediments used in the fill, the loss of a popular/valuable waterfowl census site in the estuary or the burial of ancient Indian midden sites of indeterminate archeological value. Present and comment on the objections of all concerned parties.

(e) *Alternatives to the proposed action.* Describe the various alternatives considered, their general environmental impact, and the reason(s) why each was not recommended. Identify alternatives as to their beneficial and detrimental effects on the environmental elements, specifically taking into account the alternative of no action. This latter alternative requires a projection of the future environmental setting if the project is not accomplished. Discuss both natural and man-induced changes. Discuss economically justified alternatives predicated upon standard evaluation methods, but additionally, insofar as possible, identify and evaluate other ways of providing functions similar to those provided by the proposed project but which were specifically formulated with environmental quality objectives in mind. For example, the environmental tradeoffs involved in filling the marsh would be different for alternatives such as: Utilizing an inland site rather than filling in the marsh, hauling fill material from an upland borrow pit rather than dredging it from the estuary, or providing construction on piles or floats rather than on fill material.

(f) *The relationship between local short-term uses of man's environment and the maintenance and enhancement of long-term productivity.* Assess the cumulative and long-term impacts of the proposed action with the view that each generation is a trustee of the environment for succeeding generations. Give special attention to considerations that would narrow the range of beneficial uses of the environment or pose long-term risks to health or safety. The propriety of any action should be weighed against the potential for damage to man's life support system—the biosphere—thereby guarding against the shortsighted foreclosure of future options or needs. It is appropriate to make such evaluations on land-use patterns and development, alterations in the organic productivity of biological communities and ecosystems, and modifications in the proportions of environmental components (water, uplands, wetland, vegetation, fauna) for a region or ecosystem. For example, if a coastal marsh is extensively filled, the ability of an associated estuary to support its normal biota might be seriously impaired. Altered sediment, nutrient, and biocide additions to the waters might well affect the inherent biological productivity of the estuary. In other words, if the estuary's marshes are modified enough to affect basic estuarine processes, certain amenities, biota, products, industry, and recreation opportunities could be lost. The long-term implications of these changes are directly related to the degree that the losses are sizable or unique.

(g) *Any irreversible and irretrievable commitments of resources which would be involved in the proposed action should it be implemented.* Discuss irrevocable uses of resources, changes in land use, destruction of archeological or historical sites, unalterable disruptions in the ecosystem, and other effects that would curtail the diversity and range of beneficial uses of the environment should the proposal be implemented. For example, in filling a marsh there could be a number of potential irreversible or irretrievable effects. The particular aquatic habitat filled in the marsh would be permanently lost for aquatic organisms and fill would be removed from one area and deposited in another.

(h) *Coordination with other agencies.* List all Government and private entities with whom coordination has been acomplished, as well as a discussion of public participation efforts and specific coordination measures with environmental interests. All views expressed, both pro and con, concerning the environmental effects of the proposal should be summarized, identified, and included. When formal coordination measures have been accomplished, a copy of all comments received concerning the proposal will be attached to the statement. If formal comments are not included, state what coordination measures have been taken and the resultant comments.

APPENDIX D—STATEMENTS INVOLVING POWER TRANSMISSION LINES—ENVIRONMENTAL CONSIDERATIONS

NOTE: See 43 CFR 2851.2-1(c)(6).

APPENDIX E—EXAMPLES OF CONTRACT SPECIFICATIONS

SC.—*Landscape preservation.*

(a) *General.* The Contractor shall exercise care to preserve the natural landscape and shall conduct his construction operations so as to prevent any unnecessary destruction, scarring, or defacing of the natural surroundings in the vicinity of the work. Except where clearing is required for permanent works, for approved construction roads and for excavation operations, all trees, native shrubbery, and vegetation shall be preserved and shall be protected from damage which may be caused by the Contractor's construction operations and equipment. Movement of crews and equipment within the right-of-way and over routes provided for access to the work shall be performed in a manner to prevent damage to grazing land, crops, or property.

No special reseeding or replanting will be required under these specifications; however, on completion of the work and in addition to the requirements of any general conditions of a contract, all work areas shall be smoothed and graded in a manner to conform to the natural appearance of the landscape. Where unnecessary destruction, scarring, damage, or defacing may occur as a result of the Contractor's operations, as determined by the Contracting Officer, the same shall be repaired, replanted, reseeded, or otherwise corrected at the Contractor's expense.

(b) *Construction roads.* The location, alinement, and grade of construction roads shall be subject to approval of the Contracting Officer. When no longer required by the Contractor, construction roads shall be made impassable to vehicular traffic and the surfaces shall be scarified and left in a condition which will facilitate natural revegetation.

(c) *Contractor's yard area.* The Contractor's shop, office, and yard area shall be located and arranged in a manner to preserve trees and vegetation to the maximum practicable extent. On abondonment all storage and construction buildings including concrete footings and slabs, and all construction materials and debris shall be removed from the site, or subject to the Contracting Officer's approval, may be buried on the site. The yard area shall be left in a neat and natural appearing condition.

(d) *Borrow areas and quarry sites.* Before being abandoned, the sides of borrow pits and quarry sites shall be brought to stable slopes with slope intersections rounded and shaped to provide a natural appearance. All rubbish, Contractor's equipment, and structures shall be removed from site. Waste piles shall be leveled and trimmed to regular lines and shaped to provide a neat appearance.

(e) *Blasting precautions.* In addition to the requirements of paragraph SC. —, the Contractor shall adopt precautions when using explosives which will prevent scattering of rocks, stumps, or other debris outside the work area.

(f) *Costs.* The cost of all work required by this paragraph shall be included in the price bid in the schedule for other items of work.

SC. — *Prevention of water pollution.*

The Contractor shall comply with applicable Federal and State laws, orders, and regulations concerning the control and abatement of water pollution.

The Contractor's construction activities shall be performed by methods that will prevent entrance, or accidental spillage, of solid matter, contaminants, debris, and other objectionable pollutants and wastes into streams, flowing or dry watercourses, lakes, and underground water sources. Such pollutants and wastes include, but are not restricted to, refuse, garbage, cement, concrete, sewage effluent, industrial waste, radioactive substances, oil, and other petroleum products, aggregate processing tailings, mineral salts, and thermal pollution. Sanitary wastes shall be disposed of in accordance with State and local laws and ordinances.

Unwatering work for structure foundations or earthwork operations near streams or watercourses shall be conducted in a manner to prevent excessive muddy water and eroded materials from entering the streams or watercourses by construction of intercepting ditches, bypass channels, barriers, settling ponds, or by other approved means.

Waste waters from aggregate processing, concrete batching, or other construction operations shall not enter streams, watercourses, or other surface waters without the use of such turbidity control methods as setting ponds, gravel-filter entrapment dikes, approved flocculating processes that are not harmful to fish, recirculation systems for washing of aggregates, or other approved methods. Any such waste waters discharged into surface waters shall be essentially free of settleable material. For the purpose of these specifications, settleable material is defined as that material which will settle from the water by gravity during a 1-hour quiescent detention period.

Sanitary facilities shall be provided and maintained in accordance with section III of the Corps of Engineers' Manual "General Safety Requirements."

The costs of complying with this paragraph shall be included in the prices bid in the schedule for the various items of work.

SC.—*Abatement of air pollution.*

The Contractor shall comply with applicable Federal, State, interstate, and local laws and regulations concerning the prevention and control of air pollution.

In conduct of construction activities and operation of equipment, the Contractor shall utilize such practicable methods and devices as are reasonably available to control, prevent, and otherwise minimize atmospheric emissions or discharges of air contaminants.

Equipment and vehicles that show excessive emissions shall not be operated until corrective repairs or adjustments are made.

The Contractor's methods of storing and handling cement and pozzolans shall include means of controlling atmospheric discharges of dust.

Burning of rubbish will not be permitted. Rubbish, trash, and combustible materials shall be removed from the site and disposed of in an approved manner.

During the performance of the work required by these specifications or any operations apurtenant thereto, whether on right-of-way provided by the Government or elsewhere, the Contractor shall furnish all the labor, equipment, materials, and means required, and shall carry out proper and efficient measures wherever and as often as necessary to reduce the dust nuisance, and to prevent dust which has originated from his operations from damaging land and dwellings, or causing a nuisance to persons. The Contractor will be held liable for any damage resulting from dust originating from his operations under these specifications on Government right-of-way or elsewhere.

The costs of complying with this paragraph, including the cost of sprinkling for dust control or other methods of reducing formation of air pollution shall be included in the prices bid in the schedule for the various items of work.

OFFICE OF THE FEDERAL REGISTER

COMPUTER-PRODUCED DOCUMENTS

Consultation Regarding Preparation and Use

Recent growth in Federal Register documents (to a current level of 22,000 documents and 25,000 pages a year for the daily issue alone) makes it essential that more efficient production methods be explored. In this regard, each agency that processes by computer, data that will eventually be included in documents submitted for publication in the FEDERAL REGISTER, and that can furnish a magnetic tape of such material, is urged to consult with this office before preparation of such documents.

The purpose of the consultation is to determine whether it may be possible to use the agency tape as the basis for FEDERAL REGISTER publication. (For an example of a document produced from an agency computer tape, see 37 F.R. 21280, October 7, 1972.)

This consultation may also result in substantial benefits to agencies in their document preparation procedures since in many cases computer printouts submitted to the FEDERAL REGISTER may be acceptable as the original and copies of a document required by 1 CFR 16.1 (or § 18.1 of 1 CFR Ch. I which becomes effective on January 2, 1973).

FRED J. EMERY,
Director of the Federal Register.

NOVEMBER 15, 1972.

SECURITIES AND EXCHANGE COMMISSION

[File No. 24SF-3943]

CONSOLIDATED MOGUL MINING CO., INC.

Order Temporarily Suspending Exemption, Statement of Reasons Therefor, and Notice of Opportunity for Hearing

NOVEMBER 8, 1972.

I. On September 7, 1972, Consolidated Mogul Mining Co., Inc. (Consolidated Mogul), 322 Newhouse Building, 10 Exchange Place, Salt Lake City, UT 84111, filed with the Commission a notification covering an offering of 3 million shares of common stock at $0.10 per share, for the purpose of obtaining an exemption from the registration requirements of the Securities Act of 1933, pursuant to the provisions of section 3(b) thereof and Regulation A thereunder. The company was incorporated on May 6, 1970, for the purpose of conducting exploratory mining operations.

V. E. Anderson & Co., a broker-dealer having its principal place of business in Salt Lake City, Utah, was named as underwriter.

II. The Commission, on the basis of information reported to it by its staff, has reason to believe that:

1. The Regulation A exemption is not available to Consolidated Mogul pursuant to the prohibitions of Rule 252(d)(2) of Regulation A, in that the underwriter, V. E. Anderson & Co., is the subject of a permanent injunction for violations of section 17(a) of the Securities Exchange Act of 1934 entered on April 18, 1969, in the U.S. District Court for Utah.

2. The notification and offering circular of Consolidated Mogul omit to state material facts necessary in order to make the statements made, in the light of the circumstances under which they were made, not misleading and contain untrue statements of material facts, particularly with respect to:

(a) The disposition of shares by Gregory Chachas and Charles Foote and the purchase of shares by J. William Pace and Thad B. Emery;

(b) The relationship between Gregory Chachas and Station Zebra, Inc., and transfers of mining claims between themselves and Consolidated Mogul; and

(c) The prior affiliation of Gregory Chachas with Consolidated Mogul as officer, director, promoter, and principal security holder.

3. The terms and conditions of Regulation A have not been complied with in that:

(a) Items 2 and 3 of the notification did not list Gregory Chachas as a predecessor and a promoter;

(b) Item 6 of the notification failed to describe the injunction against the underwriter, V. E. Anderson & Co.; and

(c) Item 9 of the notification failed to reflect certain transfers of its shares between former and present officers.

4. The offering, if made, would have been in violation of section 17 of the Securities Act of 1933.

III. It appearing to the Commission that it is in the public interest and for the protection of investors that the exemption of the issuer under Regulation A be temporarily suspended,

It is ordered, Pursuant to Rule 261(a) of the general rules and regulations under the Securities Act of 1933, as amended, that the exemption of Consolidated Mogul Mining Co., Inc., under Regulation A be, and it hereby is, temporarily suspended and that Gregory Chachas be named as a cause of this suspension.

It is further ordered, Pursuant to Rule 7 of the Commission's rules of practice, that the issuer file an answer to the allegations contained in this order within 30 days of the entry thereof.

Notice is hereby given that any person having an interest in the matter may file with the Secretary of the Commission a written request for hearing within 30 days after the entry of this order; that within 20 days after receipt of such request the Commission will, or at any time upon its own motion may, set the matter down for hearing at a place to be designated by the Commission, for the purpose of determining whether this order of suspension should be vacated or made permanent, without prejudice, however, to the consideration and presentation of additional matters at the hearing; that, if no hearing is requested and none is ordered by the Commission, this order shall become permanent on the 30th day after the entry and shall remain in effect unless or until it is modified or vacated by the Commission; and that notice of the time and place for any hearing will be promptly given by the Commission.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

INVESTORS DIVERSIFIED SERVICES, INC.

Notice of Filing of Application for Exemption and Order of Temporary Exemption Pending Determination of Application

NOVEMBER 9, 1972.

Notice is hereby given that Investors Diversified Services, Inc. (IDS), 800 Investors Building, Minneapolis, Minn. 55402, has filed an application pursuant to section 9(c) of the Investment Company Act of 1940 (the Act) for an order exempting IDS and all companies affiliated with IDS (hereinafter collectively referred to as "Applicants") from the provisions of section 9(a) of the Act, and for an order of temporary exemption from section 9(a) pending the Commission's determination of the application. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

Applicants state that IDS and its subsidiaries make up a diversified financial services organization which, among other things, serves as principal underwriter, investment adviser, or depositor of a number of registered investment companies with over 1 million customer accounts, as follows: (1) Seven open-end management investment companies (the "Funds"), i.e., Investors Mutual, Inc., Investors Stock Fund, Inc., Investors Selective Fund, Inc., Investors Variable Payment Fund, Inc., IDS New Dimensions Fund. Inc., IDS Progressive Fund, Inc., and IDS Growth Fund, Inc.; (2) two unit investment trusts, i.e., Investors Accumulation Plan. Inc., which offers periodic payment plan certificates for the accumulation of shares of Investors Stock Fund, Inc. (IAP Plans), and IIP Plans for the accumulation of IDS Growth Fund, Inc.; (3) Investors Syndicate Life Insurance and Annuity Company (ISL) Variable Annuity Fund A and Variable Annuity Fund B; (4) a face amount certificate company, Investors Syndicate of America, Inc. (ISA); (5) Nuveen Tax-Exempt Bond Funds, a series of unit investment trusts.

On December 2, 1970, the Securities and Exchange Commission commenced an action, pursuant to section 21(e) of the Securities Exchange Act of 1934 (Exchange Act), against Lum's, Inc., IDS, and five others (the "Lum's action") to enjoin alleged violations of section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder in connection with the sale of the common stock of Lum's, Inc. (now known as Caesars World, Inc.), by IDS New Dimensions Fund, Inc., and Investors Variable Payment Fund, Inc., two of the open-end investment companies for which IDS acts as investment adviser. On November 9, 1972, a stipulation of settlement was entered into between the plaintiff, Securities and Exchange Commission, and IDS and thereafter a final judgment of permanent injunction by consent was entered in the action, permanently enjoining IDS, its officers, agents, servants, and employees from recommending the purchase or sale of any security of Lum's, Inc. (now known as Caesars World, Inc.), in violation of section 10(b) and Rule 10b-5 and directing IDS to implement, and supervise its employees' compliance with, a written statement of policy with respect to the receipt and use of material inside (nonpublic) information.

Section 9(a)(2) of the Act, as here pertinent, makes it unlawful for any person who, by reason of any misconduct, is permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security to serve or act in the capacity of investment adviser or depositor of any registered investment company, or principal underwriter for any registered open-end company, registered unit investment trust, or registered face-amount certificate company. Section 9(a)(3) makes it unlawful for a company, any affiliated person of which is ineligible by reason of section 9(a)(2), to serve or act in the enumerated capacities.

Section 9(c) provides that upon application the Commission by order shall grant an exemption from the provisions of section 9(a) either unconditionally or on an appropriate temporary or other conditional basis, if it is established that the prohibitions of section 9(a), as applied to the applicant, are unduly or disproportionately severe or that the conduct of such person has been such as not to make it against the public interest or protection of investors to grant such application.

Applicants submit that the prohibitions of section 9(a) of the Act, to the extent applicable by virtue of the entry of the final judgment of permanent injunction by consent, would be unduly and disproportionately severe as applied to Applicants and that the conduct of IDS has been such as not to make it against the public interest or the protection of investors for the Commission to grant a permanent exemption from the provisions of section 9(a) of the Act. In support thereof Applicants state:

(1) The prohibitions of section 9(a) would deprive the Funds, IAP Plans, IIP Plans, ISL Variable Annuity Funds A and B, ISA, Nuveen Tax-Exempt Bond Funds, and their more than 1 million customer accounts of the services of their distributor, investment adviser, or depositor.

(2) The prohibitions of section 9(a) would deprive IDS of its underwriting and advisory functions that employ most of its 4,000 sales representatives and 3,000 employees, and would have a substantial adverse effect on the revenues and earnings of IDS and on the interests of its 11,000 public shareholders.

(3) The activities of IDS with regard to the sale of Lum's, Inc., common stock were for the benefit of the funds involved and not for the direct pecuniary benefit of IDS, and there was no intent to violate any law.

(4) IDS has distributed to its personnel involved with trading or investment recommendations a formal written statement of policy with respect to the receipt and use of material inside (nonpublic) information and will implement and supervise its employees' compliance with this policy.

(5) IDS has compliance programs, designed to assure compliance by IDS personnel with applicable Federal and State securities laws. IDS believes that its programs, particularly with respect to its distribution activities and its relations with the shareholders of the Funds and the holders of certificates, have been viewed favorably by regulatory authorities and have been emulated by its competitors.

(6) IDS has never before been required to seek exemption from provisions of section 9(a) of the Act.

(7) The application of the law regarding the nature and proscribed uses of material inside information is complex and uncertain. More than 6 months after the events complained of in the Lum's action, the Commission, on its own motion, ordered the review of a case concerning the sale of stock without disclosure of certain material inside information because:

> The legal issues raised respecting the obligations of "tippees" were important matters of first impression having significant implication as to which it was desirable that the Commission express • • • its own views. Matter of Investors Management Co., Inc. et al. Securities Exchange Act Release No. 8947, July 30, 1970.

The Commission's opinion on these matters, announced on July 29, 1971, set forth more definite criteria regarding application of the provisions of Rule 10b-5 than was available previously.

The Commission has considered the matter and finds that: (1) Insofar as it is desirable to assure the continuity of management operations of the registered companies affiliated with IDS, the prohibitions of section 9(a) might be unduly or disproportionately severe as applied to Applicants, and (2) the conduct of the Applicants has been such as not to make it against the public interest or protection of investors to grant the application for a temporary exemption from section 9(a) pending determination of the application.

Accordingly, It is ordered, Pursuant to section 9(c) of the Act that Applicants be and they are hereby temporarily exempted from the provisions of section 9(a) of the Act, operative as a result of the entry of the injunction against IDS in *Securities and Exchange Commission* v. *Lums, Inc. et al.*, pending determination by the Commission of Applicants' application for an order unconditionally exempting them from the provisions of section 9(a) operative as a result of the entry of such injunction.

Notice is further given that any interested person may, not later than December 4, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the address set forth above. Proof of such service (by affidavit or in the case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided in Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

[70-4961]

MIDDLE SOUTH UTILITIES, INC., AND ARKANSAS POWER & LIGHT CO.

Notice of Post-Effective Amendment Regarding Issue and Sale of Notes by Holding Company to Banks

NOVEMBER 9, 1972.

Notice is hereby given that Middle South Utilities, Inc. (Middle South), 280 Park Avenue, New York, NY 10017, a registered holding company, has filed with this Commission a fourth post-effective amendment to the application-declaration heretofore filed in this proceeding pursuant to sections 6(a) and 7 of the Public Utility Holding Company Act of 1935 (Act). All interested persons are referred to the application-declaration, as now amended, which is summarized below, for a complete statement of the proposed transaction.

The Commission has heretofore authorized Middle South, under an $80 million revolving credit agreement, to issue and sell to a group of named banks $60 million of unsecured promissory short-term notes (see Holding Company Act Release No. 17423, Jan. 6, 1972). The proceeds from the sale of these promissory notes were used by Middle South to purchase common stock of its subsidiary companies, Arkansas Power & Light Co., and Louisiana Power & Light Co. (Louisiana).

In order to purchase an additional 3,150,000 shares of common stock, without nominal or par value, of Louisiana (which transaction will be the subject of a separate application-declaration), Middle South now seeks authorization in this proceeding to increase the aggregate principal amount of short-term notes that may be outstanding with the named banks at any one time from $60 million to $80 million. The additional $20 million of borrowings will be made pro rata among such banks in accordance with their respective commitments under the credit agreement. All other terms of said agreement—including those covering the interest rate and maturity date—will remain unchanged.

It is represented that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transaction. No separate or special expenses are anticipated in connection with the proposed transaction.

Notice is further given that any interested person may, not later than December 5, 1972, request in writing that a hearing be held on such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said fourth post-effective amendment to the application-declaration which he desires to controvert; or he may request that he be notified if the Commission should order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the applicant-declarant at the above-stated address, and proof of service (by affidavit or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the application-declaration, as now amended or as it may be further amended, may be granted and permitted to become effective as provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

VESTAUR SECURITIES, INC.

Notice of Filing of Application for Exemption

NOVEMBER 9, 1972.

Notice is hereby given that Vestaur Securities, Inc. (the "Applicant"), 1411 Walnut Street, Philadelphia, PA 19102, a diversified, closed-end management investment company registered under the Investment Company Act of 1940 (the "Act"), has filed an application for an order pursuant to section 6(c) of the Act declaring that Philip R. Reynolds, a Director of the Applicant, shall not be deemed an "interested person" of Applicant as that term is defined in section 2(a)(19) of the Act solely by reason of his status either as a Senior Vice President of the Travelers Corp. (Travelers), or as a Senior Vice President of its subsidiary, the Travelers Insurance Co. (Travelers Insurance). All interested persons are referred to the Application on file with the Commission for a statement of the representations made therein, which are summarized below.

Mr. Reynolds, a director of the Applicant, is a Senior Vice President of Travelers and Travelers Insurance. Travelers is the parent of five wholly owned, either directly or indirectly, subsidiaries which are broker-dealers registered under the Securities Exchange Act of 1934 (the 1934 Act) and members of the National Association of Securities Dealers, Inc.:

It is ordered, Pursuant to sections 15(c)(5) and 19(a)(4) of the Securities Exchange Act of 1934, that trading in such securities on the above-mentioned exchanges and otherwise than on a national securities exchange be summarily suspended, this order to be effective for the period November 9, 1972, through November 18, 1972.

By the Commission.

INVESTORS DIVERSIFIED SERVICES, INC.

Notice of Filing of Application for Exemption and Order of Temporary Exemption Pending Determination of Application

NOVEMBER 9, 1972.

Notice is hereby given that Investors Diversified Services, Inc. (IDS), 800 Investors Building, Minneapolis, Minn. 55402, has filed an application pursuant to section 9(c) of the Investment Company Act of 1940 (the Act) for an order exempting IDS and all companies affiliated with IDS (hereinafter collectively referred to as "Applicants") from the provisions of section 9(a) of the Act, and for an order of temporary exemption from section 9(a) pending the Commission's determination of the application. All interested persons are referred to the application on file with the Commission for a statement of the representations made therein which are summarized below.

Applicants state that IDS and its subsidiaries make up a diversified financial services organization which, among other things, serves as principal underwriter, investment adviser, or depositor of a number of registered investment companies with over 1 million customer accounts, as follows: (1) Seven open-end management investment companies (the "Funds"), i.e., Investors Mutual, Inc., Investors Stock Fund, Inc., Investors Selective Fund, Inc., Investors Variable Payment Fund, Inc., IDS New Dimensions Fund. Inc., IDS Progressive Fund, Inc., and IDS Growth Fund, Inc.; (2) two unit investment trusts, i.e., Investors Accumulation Plan. Inc., which offers periodic payment plan certificates for the accumulation of shares of Investors Stock Fund, Inc. (IAP Plans), and IIP Plans for the accumulation of IDS Growth Fund, Inc.; (3) Investors Syndicate Life Insurance and Annuity Company (ISL) Variable Annuity Fund A and Variable Annuity Fund B; (4) a face amount certificate company, Investors Syndicate of America, Inc. (ISA); (5) Nuveen Tax-Exempt Bond Funds, a series of unit investment trusts.

On December 2, 1970, the Securities and Exchange Commission commenced an action, pursuant to section 21(e) of the Securities Exchange Act of 1934 (Exchange Act), against Lum's, Inc., IDS, and five others (the "Lum's action") to enjoin alleged violations of section 10(b) of the Exchange Act and Rule 10b-5 promulgated thereunder in connection with the sale of the common stock of Lum's, Inc. (now known as Caesars World, Inc.), by IDS New Dimensions Fund, Inc., and Investors Variable Payment Fund, Inc., two of the open-end investment companies for which IDS acts as investment adviser. On November 9, 1972, a stipulation of settlement was entered into between the plaintiff, Securities and Exchange Commission, and IDS and thereafter a final judgment of permanent injunction by consent was entered in the action, permanently enjoining IDS, its officers, agents, servants, and employees from recommending the purchase or sale of any security of Lum's, Inc. (now known as Caesars World, Inc.), in violation of section 10(b) and Rule 10b-5 and directing IDS to implement, and supervise its employees' compliance with, a written statement of policy with respect to the receipt and use of material inside (nonpublic) information.

Section 9(a)(2) of the Act, as here pertinent, makes it unlawful for any person who, by reason of any misconduct, is permanently or temporarily enjoined by order, judgment, or decree of any court of competent jurisdiction from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security to serve or act in the capacity of investment adviser or depositor of any registered investment company, or principal underwriter for any registered open-end company, registered unit investment trust, or registered face-amount certificate company. Section 9(a)(3) makes it unlawful for a company, any affiliated person of which is ineligible by reason of section 9(a)(2), to serve or act in the enumerated capacities.

Section 9(c) provides that upon application the Commission by order shall grant an exemption from the provisions of section 9(a) either unconditionally or on an appropriate temporary or other conditional basis, if it is established that the prohibitions of section 9(a), as applied to the applicant, are unduly or disproportionately severe or that the conduct of such person has been such as not to make it against the public interest or protection of investors to grant such application.

Applicants submit that the prohibitions of section 9(a) of the Act, to the extent applicable by virtue of the entry of the final judgment of permanent injunction by consent, would be unduly and disproportionately severe as applied to Applicants and that the conduct of IDS has been such as not to make it against the public interest or the protection of investors for the Commission to grant a permanent exemption from the provisions of section 9(a) of the Act. In support thereof Applicants state:

(1) The prohibitions of section 9(a) would deprive the Funds, IAP Plans, IIP Plans, ISL Variable Annuity Funds A and B, ISA, Nuveen Tax-Exempt Bond Funds, and their more than 1 million customer accounts of the services of their distributor, investment adviser, or depositor.

(2) The prohibitions of section 9(a) would deprive IDS of its underwriting and advisory functions that employ most of its 4,000 sales representatives and 3,000 employees, and would have a substantial adverse effect on the revenues and earnings of IDS and on the interests of its 11,000 public shareholders.

(3) The activities of IDS with regard to the sale of Lum's, Inc., common stock were for the benefit of the funds involved and not for the direct pecuniary benefit of IDS, and there was no intent to violate any law.

(4) IDS has distributed to its personnel involved with trading or investment recommendations a formal written statement of policy with respect to the receipt and use of material inside (nonpublic) information and will implement and supervise its employees' compliance with this policy.

(5) IDS has compliance programs, designed to assure compliance by IDS personnel with applicable Federal and State securities laws. IDS believes that its programs, particularly with respect to its distribution activities and its relations with the shareholders of the Funds and the holders of certificates, have been viewed favorably by regulatory authorities and have been emulated by its competitors.

(6) IDS has never before been required to seek exemption from provisions of section 9(a) of the Act.

(7) The application of the law regarding the nature and proscribed uses of material inside information is complex and uncertain. More than 6 months after the events complained of in the Lum's

V 37 • 223 NOV 17 72 XUM

Travelers Insurance, Travelers Equities Sales, Inc. (Travelers Equities), the Massachusetts Co. Distributor, Inc., (Massachusetts Distributor), General Securities, Inc. (General Securities), and Travelers Securities Corp. (Travelers Securities).

The broker-dealer capabilities of Travelers Insurance were established and have been maintained for the sole purpose of executing transactions involving only the variable annuities of Travelers Insurance.

Travelers Equities is a wholly owned subsidiary of Travelers. Massachusetts Distributor & General Securities are wholly owned subsidiaries of the Massachusetts Co., Inc., which is a wholly owned subsidiary of Travelers. Any broker-dealer activities of such companies are limited to the execution of transactions involving mutual funds and variable annuities offered or sponsored by one or more subsidiaries of Travelers.

Travelers Securities, a wholly owned subsidiary of Travelers, is a member of the Philadelphia-Baltimore-Washington Stock Exchange. Mr. Reynolds is not an officer or director of Travelers Securities. The broker-dealer activities of Travelers Securities, although designed and operated for the purpose of engaging in transactions for the account of various subsidiaries of, or companies affiliated with, Travelers, have involved transactions for persons outside the Travelers' corporate complex. However, as a matter of internal policy, Travelers Securities does not follow, does not make markets in, and does not execute or clear transactions involving, securities of registered investment companies, such as the Applicant. The broker-dealer activities of Travelers Securities have traditionally been concentrated in transactions involving equity securities and when concerned with debt securities transactions have been so only to the extent of dealing in tax exempt bonds. Because its broker-dealer activities are so tailored, Travelers Securities has no expertise in, nor would it have occasion to, deal in the securities of the Applicant or to execute portfolio transactions for the Applicant whose investment objective is to buy and sell marketable debt securities.

Section 2(a)(19) of the Act, in pertinent part, defines an "interested person" of an investment company to include any broker or dealer registered under the 1934 Act or any affiliated person of such broker or dealer.

Section 2(a)(3) of the Act defines an affiliated person of another person to include any officer or Director of such other person.

Section 6(c) of the Act provides that the Commission may, upon application, conditionally or unconditionally exempt any person from any provision of the Act if and to the extent that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Under the definition of section 2(a)(19) of the 1940 Act, Mr. Reynolds may be deemed an "interested person" of the Applicant by virtue of his position as a Senior Vice President of Travelers Insurance, or his position as a Senior Vice President of Travelers.

Applicant asserts that Mr. Reynolds' position either as a Senior Vice President of Travelers or as a Senior Vice President of Travelers Insurance does not affect, and would not impair, his independence in acting on behalf of Applicant and its shareholders, and that the requested exemption is therefore consistent with the provisions of section 6(c) of the Act.

Notice is further given that any interested person may, not later than November 20, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

The period of public notification provided for herein is deemed reasonable in view of the nature of the application and Applicant's request that the application be resolved in time for a public offering of its shares to be made on or about November 22, 1972.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

Secretary.

[812-3276]

WINFIELD & CO., INC. ET AL.

Notice of Filing of Application for Exemption and Temporary Order of Exemption Pending Determination of the Application

NOVEMBER 8, 1972.

Notice is hereby given that Winfield & Co., Inc. (Winco), Applied Financial Systems, Inc. (AFS), Winfield Distributors, Inc. (WinDist), 155 Bovet Road, San Mateo, CA, Franklin Resources, Inc. (Resources), and Franklin Distributors, Inc. (FrankDist), 99 Wall Street, New York, NY, referred to collectively as Applicants, have filed an application pursuant to section 9(c) of the Investment Company Act of 1940 (Act) for an order exempting Applicants from the provisions of section 9(a) of the Act and, without prejudice to the Commission's consideration of such application, all of the Applicants, except Resources, have applied for a temporary order of exemption from section 9(a) pending the Commission's determination of the application for permanent exemption. All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Winco is the investment adviser of Winfield Growth Fund, Inc., Wincap Fund, Inc., and Age Fund, Inc., open end investment companies (Winfield Funds). The Winfield Funds have net assets of more than $150 million and more than 100,000 stockholders.

AFS, a 62 percent owned subsidiary of Winco, acts as transfer agent for Winfield Funds and other investment companies and, while not admitting such, may be deemed to be a depositor. WinDist, a wholly owned subsidiary of Winco, is principal underwriter of the Winfield Funds, and acts as sponsor-depositor for Winfield Investment Programs (W.I.P.), a unit investment trust for the accumulation of shares of Winfield Growth Fund, Inc.

Resources owns, or has entered into a contract to purchase, subject to certain restrictions, approximately 52 percent of the voting stock of Winco. FrankDist, a wholly owned subsidiary of Resources, is the investment adviser and principal underwriter of Franklin Custodian Funds, Inc. (Franklin Funds), an open end investment company. Franklin Funds have net assets of approximately $70 million and 20,000 shareholders. FrankDist is also the sponsor-depositor for Franklin Investment Programs—Growth Series, and Franklin Investment Programs—Utilities Series, unit investment trusts for the accumulation of shares of Franklin Funds.

On November 8, 1972, the U.S. District Court for the Southern District of New York entered a Final Judgment of Permanent Injunction against Winco and Winfield Associates, Inc. (Associates), ("Securities and Exchange Commission v. Everest Management et al.", 71 Civ. Action No. 4932). Associates, a wholly owned subsidiary of Winco is presently in the process of dissolution. The judgment, among other things, enjoins Winco and Associates from violating section 17(a) of the Securities Act of 1933, section 10(b) of the Securities Exchange Act of 1934, and Rule 10b-5 thereunder, sections 206 (1) and (2) of the Investment Advisers Act of 1940, and sections 17(d), 17(e), 36, 36(a), and 37 of the Investment Company Act of 1940, and Rule 17d-1 thereunder.

Prior to the injunctive action Winco and WinDist and certain of their affiliates had been sanctioned by the Commission for violations of the securities laws (Securities Exchange Act Release No. 9478). That case is not related to the injunctive action.

Section 9(a) of the Act, insofar as is pertinent here, makes it unlawful for any person, or any company with which such person is affiliated, to act in the capacity of employee, officer, director, member of an advisory board, investment adviser, principal underwriter or depositor of any registered investment company if such person is by reason of any misconduct enjoined by any court of competent jurisdiction from engaging in or continuing any conduct or practice in connection with the purchase or sale of any security.

Section 9(c) provides that upon application the Commission shall grant an exemption from the provisions of section 9(a) either unconditionally or on an appropriate temporary or other conditional basis, if it is established that the prohibitions of section 9(a), as applied to the applicant, are unduly or disproportionately severe or that the conduct of such persons has been such as not to make it against the public interest or protection of investors to grant such application.

Applicants contend that the standards for exemption, specified in section 9(c) of the Act, are entirely satisfied by the facts in this case.

Applicants represent that the complaint filed by the Commission did not allege violations of the Securities Acts with respect to any Applicant with the exception of Winco. All other applicants assert that they had no connection whatsoever with any of the activities alleged in the complaint.

Applicants represent that the allegations of the complaint charge that a former employee and officer of Winco and Associates, did, while so connected, engage in violations of the Federal securities laws for which Winco and Associates are chargeable, and that in the transactions leading to the Commission's injunctive action, Winco and Associates and its present officers and directors acted in good faith and without knowledge of the alleged activities of the former employee and officer.

Applicants represent further that Winco has made diligent efforts to prevent any recurrence of the kinds of violations charged by the Commission. Its Board of Directors has adopted formal rules and charged particular officers with enforcement responsibilities.

Applicants represent further that Winco has an agreement with Resources under which Winco will merge, subject to Winfield Funds shareholder approval, into a new subsidiary of Resources and that this proposed merger will transfer the control of Winco to persons which can in no way be charged with responsibilities for any wrongs which may have occurred in Winco's past.

Applicants also represent that the continued uninterrupted investment advisory, shareholder servicing and underwriting services rendered by Winco, WinDist, AFS, and FrankDist to the Winfield and Franklin Funds are essential for the protection and welfare of the Winfield and Franklin Funds, and their respective shareholders.

The Commission has considered the matter and finds that:

(1) The conduct of the Applicants has been such as not to make it against the public interest or protection of investors to grant the application by Winco, WinDist, AFS, and FrankDist for a temporary exemption from section 9(a) pending determination of the application, and

(2) In order to maintain uninterrupted management of the investment companies under the management of Winco, WinDist, AFS, and FrankDist, it is necessary and appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act that the temporary order of exemption be issued forthwith.

Accordingly, it is ordered, Pursuant to section 9(c) of the Act that Winco, WinDist, AFS, and FrankDist be and they are hereby temporarily exempted from the provisions of section 9(a) of the Act, operative as a result of the entry of the injunction against Winco and Associates in "Securities and Exchange Commission v. Everest Management Corp. et al.", pending determination by the Commission of Applicants' application for an order unconditionally exempting them from the provisions of section 9(a) operative as a result of the entry of such injunction.

Notice is further given that any interested person may not later than November 28, 1972, at 5:30 p.m., submit to the Commission in writing, a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such a request, and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission shall order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicants at the addresses set forth above. Proof of such service (by affidavit or in the case of an attorney at law, by certificate shall be filed contemporaneously with the request. At any time after said date, as provided in Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

By the Commission.

[SEAL] RONALD F. HUNT,
Secretary.

TARIFF COMMISSION

[337-L-55]

CONVERTIBLE GAME TABLES

Notice of Complaint Received

The U.S. Tariff Commission hereby gives notice of the receipt on October 26, 1972, of a complaint under section 337 of the Tariff Act of 1930 (19 U.S.C. 1337) filed by ATI Recreation, Inc., of Miami Lakes, Fla., alleging unfair methods of competition and unfair acts in the importation and sale of convertible game tables which are embraced within the claims of U.S. Design Patent No. 233,539 and are covered by U.S. trademark application 416,491 for the name TRIO owned by the complainant. In addition, complainant is the owner of U.S. trademark application 407,363 covering the name GAMBIT, but no allegations of infringement of this trademark have been made. Armac Enterprises, Inc., 3900 South Union Street, Chicago, IL 60609 and Sears, Roebuck & Co., 925 South Homan Avenue, Chicago, IL, have been named as either importing or offering for sale the subject product.

In accordance with the provisions of § 203.3 of its rules of practice and procedure (19 CFR 203.3), the Commission has initiated a preliminary inquiry into the allegations of the complaint for the purpose of determining whether there is good

V37-223 NOV 17 72 XUM

and sufficient reason for a full investigation, and if so whether the Commission should recommend to the President the issuance of a temporary exclusion from entry under section 337(f) of the Tariff Act.

A copy of the complaint is available for public inspection at the Office of the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, DC, and at the New York office of the Tariff Commission located in Room 437 of the Customhouse.

Information submitted by interested persons which is pertinent to the aforementioned preliminary inquiry will be considered by the Commission if it is received not later than December 28, 1972. Extensions of time for submitting information will not be granted unless good and sufficient cause is shown thereon. Such information should be sent to the Secretary, U.S. Tariff Commission, Eighth and E Streets NW., Washington, DC 20436. A signed original and nineteen (19) true copies of each document must be filed.

Issued: November 14, 1972.

By order of the Commission.

[SEAL] KENNETH R. MASON, *Secretary.*

TENNESSEE VALLEY AUTHORITY

WATTS BAR NUCLEAR PLANT

Notice of Availability of Final Environmental Statement

Notice is hereby given that a document entitled "Environmental Statement, Watts Bar Nuclear Plant Units 1 and 2" dated November 9, 1972, is being made available to the President, the Council on Environmental Quality, and to the public as required by section 102(2)(C) of the National Environmental Policy Act. The statement contains the comments and views of appropriate Federal and State agencies concerning the project. Copies of the document are being placed for public examination in the Atomic Energy Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545, in the office of the Director of Information, Tennessee Valley Authority, 508 Union Avenue, Knoxville, TN 37902, and at TVA's Washington office, 435 Woodward Building, 15th and H Streets, Washington, DC 20444. The statement will also be available for examination in the Dayton Public Library, First Avenue, Dayton, Tenn. 37321.

Single copies of the final statement will be furnished upon request addressed to the Director of Information at the above address.

Dated at Knoxville, Tenn., this the 9th day of November 1972, for the Tennessee Valley Authority.

LYNN SEEBER, *General Manager.*

DEPARTMENT OF LABOR

Office of the Secretary

RCA CORP.

Notice of Certification of Eligibility of Workers To Apply for Adjustment Assistance

Under date of July 30, 1972, the U.S. Tariff Commission made a report of the results of its investigation (TEA-W-144) under section 301(c)(2) of the Trade Expansion Act of 1962 (76 Stat. 884) in response to a petition for determination of eligibility to apply for adjustment assistance submitted on behalf of workers formerly employed by RCA Corp., at its Indianapolis and Rockville plants, Indianapolis, Ind. In this report, the Commission, being equally divided, made no finding with respect to whether articles like or directly competitive with the television yokes, tuners, and horizontal output transformers produced at the plants are, as a result in major part of concessions granted under trade agreements, being imported into the United States in such increased quantities as to cause, or threaten to cause, the unemployment or underemployment of a significant number or proportion of the workers of such firm or an appropriate subdivision. The President subsequently decided, under the authority of section 330(d)(1) of the Tariff Act of 1930, as amended, to consider the findings of those Commissioners who found in the affirmative as the finding of the Commission.

Upon receipt of the President's authorization, the Department, through the Director of the Office of Foreign Economic Policy, Bureau of International Labor Affairs, instituted an investigation. Following this, the Director made a recommendation to me relating to the matter of certification (Notice of Delegation of Authority and Notice of Investigation, 34 F.R. 18342; 37 F.R. 2472, 21023; 29 CFR Part 90). In the recommendation she noted that imports by the company of articles like or directly competitive with the television tuners produced at the Rockville plant and the television yokes and horizontal output transformers produced at the Indianapolis plant increased substantially. As a result, the company cut back production of these imported articles and employment levels of workers engaged in producing these articles declined. Unemployment and underemployment directly related to import competition began in October 1969. Tuner production at the Rockville plant ceased at the end of March 1971; transformer production at the Indianapolis plant ceased at the end of December 1971. Yoke production at the Indianapolis plant stabilized in December 1971 and employment related to yoke production has remained constant since that time. After due consideration, I make the following certification:

All hourly and salaried employees of the Indianapolis plant of RCA Corp., Indianapolis, Ind., who became unemployed or underemployed after September 30, 1969, and before January 2, 1972, and all hourly and salaried workers of the Rockville plant of RCA Corp., Indianapolis, Ind., who became unemployed or underemployed after September 30, 1969, and before April 4, 1971, and who were employed in the production of television yokes, television tuners, or television horizontal output transformers or, who were employed in employment related to the production of television yokes, television tuners or television horizontal output transformers are eligible to apply for adjustment assistance under title III, chapter 3, of the Trade Expansion Act of 1962.

Signed at Washington, D.C., this 13th day of November 1972.

JOEL SEGALL, *Deputy Under Secretary, International Affairs.*

INTERSTATE COMMERCE COMMISSION

[Notice No. 119]

ASSIGNMENT OF HEARINGS

NOVEMBER 14, 1972.

Cases assigned for hearing, postponement, cancellation, or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

MC-121303 Sub 3, O. K. Warehouse Co., Inc., extension used household goods in containers, now assigned December 11, 1972, will be held in Room 577, Federal Office Building, 300 East Eighth Street, Austin, TX.

MC 115703 Sub 6, Kreitz Motor Express, Inc., now assigned December 11, 1972, at Cleveland, Ohio, in Room 1455, 14th Floor, Federal Office Building, 1240 East Ninth Street.

MC 134738 Sub 1, Lawrence D. Willoughby and Robert Fritz doing business as Solon Equipment, now assigned December 13, 1972, at Cleveland, Ohio, in Room 1455, 14th Floor, Federal Office Building, 1240 East Ninth Street.

MC-F-11483, Lattavo Bros., Inc. Purchase—Crown Cartage & Storage Co., MC 45194 Sub 12, Lattavo Bros., Inc., now assigned December 18, 1972, at Columbus, Ohio, hearing will be held in Room 4, State Office Building, 65 South Front Street.

MC 51312 Sub 12, Bowling Green Transfer, Inc., now assigned December 20, 1972, at Columbus, Ohio, hearing will be held in Room 4, State Office Building, 65 South Front Street.

MC 109397 Sub 277, Tri-state Motor Transit Co., now assigned December 21, 1972, at Columbus, Ohio, hearing will be held in Room 4, State Office Building, 65 South Front Street.

MC 115162 Sub 238, Poole Truck Line, Inc., now assigned November 30, 1972, at Birmingham, Ala., hearing will be held in Room 428, Fourth Floor, Department of Labor, Ninth Avenue South.

MC-C-7776, Cooper Transfer Co., Inc.—Investigation and revocation of certificates, now assigned November 28, 1972, MC 73165 Sub 302, Eagle Mtr. Lines, Inc., now assigned December 4, 1972, MC 20783 Sub 85, Tompkins Motor Lines, Inc., now assigned December 5, 1972, at Birmingham, Ala., hearings will be held in Room 1931, Conference Room, Department of Labor, Ninth Avenue South.

[Ex Parte 241, Rule 19; 7th Rev. Exemption 12]

ATLANTIC & WESTERN RAILWAY CO. ET AL.

Exemption From Mandatory Car Service Rules

It appearing, that the railroads named herein own numerous plain boxcars; that under present conditions, there is virtually no demand for these cars on the lines of the car owners; that return of these cars to the car owners would result in their being stored idle on these lines; that such cars can be used by other carriers for transporting traffic offered for shipments to points remote from the car owners; and that compliance with Car Service Rules 1 and 2 prevents such use of plain boxcars owned by the railroads listed herein, resulting in unnecessary loss of utilization of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain boxcars described in the Official Railway Equipment Register, ICC R.E.R. No. 385, issued by W J. Trezise, or successive issues thereof, as having mechanical designation XM, and bearing reporting marks assigned to the railroads named below, shall be exempt from the provisions of Car Service Rules 1(a), 2(a), and 2(b).

Atlantic & Western Railway Co., Reporting marks: ATW.
Chicago & Illinois Midland Railway Co., Reporting marks: CIM.
The La Salle & Bureau County Railroad Co., Reporting marks: LSBC.
Louisville, New Albany & Corydon Railroad Co., Reporting marks: LNAC.
Manufacturers Railway Co., Reporting marks: MRS.
Richmond, Fredericksburg & Potomac Railroad Co., Reporting marks: RFP.
Toledo, Peoria & Western Railroad Co., Reporting marks: TPW.
Vermont Railway, Inc., Reporting marks: Rut or VTR.
Wellsville, Addison & Galeton Railroad Corp., Reporting marks: WAG.

Effective November 15, 1972, and continuing in effect until further order of this Commission.

Issued at Washington, D.C., November 10, 1972.

[Ex Parte 241, Rule 19; Third Rev. Exemption 19]

BALTIMORE & OHIO RAILROAD CO. ET AL.

Exemption From Mandatory Car Service Rules

It appearing, that there has been a substantial increase in the movement of grain and grain products originating at stations on the railroads listed herein; that major harvests of corn, milo, and soybeans are commencing in the areas served by these railroads; that boxcar supplies available to these railroads are inadequate to meet all of the needs of the shippers served by them; that surpluses of plain boxcars exist on certain railroads; and that these railroads have consented to the use of their cars by the railroads listed herein.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, plain boxcars described in the Official Railway Equipment Register, ICC R.E.R. No. 384, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, with inside length 44 feet 6 inches, or less and regardless of door width, owned by the following railroads:

The Baltimore & Ohio Railroad Co.
Bangor & Aroostook Railroad Co.
The Chesapeake & Ohio Railway Co.
Delaware & Hudson Railway Co.
The Denver & Rio Grande Western Railroad Co.

are exempt from the provisions of Car Service Rules 1 and 2 when located empty on, or loaded by, any of the lines named below:

Illinois Terminal Railroad Co. eliminated.
Toledo, Peoria & Western Railroad Co. eliminated.
The Atchison, Topeka & Santa Fe Railway Co.
Burlington Northern Inc.:
 The Colorado & Southern Railway Co.

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

NOVEMBER 10, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 82841 (Sub-No. 103 TA), filed October 25, 1972. Applicant: HUNT TRANSPORTATION, INC., 10770 I Street, Omaha, NE 68127. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* as described in Appendix V of *Description in Motor Carrier Certificates*, Ex Parte No. MC-45, 64 M.C.C. 209, between Tulsa and the Port of Catoosa, Okla., on the one hand, and points in Idaho, on the other, for 180 days. Supporting shipper: Jones & Laughlin Steel Corp., 3 Gateway Center, Pittsburgh, Pa. 15230. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 106 South 15 Street, 711 Federal Office Building, Omaha, NE 68102.

No. MC 100666 (Sub-No. 229 TA), filed October 26, 1972. Applicant: MELTON TRUCK LINES, INC., Post Office Box 7666, 1129 Grimmett Drive, Shreveport, LA 71107. Applicant's representative: Wilburn L. Williamson, 280 National Foundation Life Center, 3535 Northwest 58th Street, Oklahoma City, OK 73112. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic pipe, plastic tubing, plastic conduit, valves, fittings, compound joint sealer, bonding cement and accessories and tools* used in the installation of such products, from the plantsite of Ethyl Corp. at Columbia, Miss., to points in Alabama, Arizona, Florida, Georgia, Louisiana, and Texas, for 180 days. Supporting shipper: Ethyl Corp., Ethyl Tower, 451 Florida Boulevard, Baton Rouge, LA 70801. Send protests to: Paul D. Collins, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 701 Loyola Avenue, New Orleans, LA 70113.

No. MC 103051 (Sub-No. 259 TA), filed October 24, 1972. Applicant: FLEET TRANSPORT COMPANY, INC., Post Office Box 90408, 934 44th Avenue N., Nashville, TN 37209. Applicant's representative: W. G. North (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Salt and salt products*, in bags, blocks, packages, and in bulk, in dump vehicles, from Cairo, Ga., to points in Alabama and Florida, for 180 days. Supporting shipper: Cargill, Inc., Salt Department, Cargill Building, Minneapolis, Minn. Send protests to: Joe J. Tate, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 803—1808 West End Building, Nashville, Tenn. 37203.

No. MC 111729 (Sub-No. 362 TA), filed October 24, 1972. Applicant: AMERICAN COURIER CORPORATION, 2 Nevada Drive, Lake Success, NY 11040. Applicant's representative: John M. Delany (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Business papers, records, and audit and accounting media of all kinds, and advertising material moving therewith*, (a) between Hicksville, N.Y., on the one hand, and, on the other, Atlantic City and Pennsauken, N.J., and Levittown, Pa.; (b) between Downers Grove, Ill., and Madison, Wis.; and (2) *business papers, records and adult and accounting media of all kinds, and advertising material moving therewith, and cardiac pacemakers and related accessories, instruction booklets, specification sheets and identification charts*, between New Orleans, La., on the one hand, and, on the other, points in Alabama, Arkansas, Mississippi, and Tennessee, and points in Florida, on and west of U.S. Highway 231, for 90 days. Supporting shippers: Major Computer Corp., 17 West Marie Street, Hicksville, NY; Medtronic, Inc., 4900 Veterans Boulevard, Suite 710, Security Homestead Building, Metairie, LA 70002; "Numbers", 1017 Burlington Street, Downers Grove, IL 60515. Send protests to: Thomas W. Hopp, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, NY 10007.

No. MC 111729 (Sub-No. 363 TA), filed October 24, 1972. Applicant: AMERICAN COURIER CORPORATION, 2 Nevada Drive, Lake Success, NY 11040. Applicant's representative: John M. Delany (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Business papers, records and audit and accounting media of all kinds, and advertising material moving therewith*, between West Springfield, Mass., on the one hand, and, on the other, points in Connecticut, Maine, New Hampshire, New York, and Rhode Island, for 90 days. Supporting shipper: Agway Inc., Box 1333, Syracuse, NY 13201. Send protests to: Thomas W. Hopp, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 26 Federal Plaza, New York, NY 10007.

No. MC 112801 (Sub-No. 138 TA), filed October 25, 1972. Applicant: TRANSPORT SERVICE CO., Post Office Box 50272, 5100 West 41st Street, Chicago, IL 60650. Applicant's representative: Albert A. Andrin, 29 South La Salle Street, Chicago, IL 60603. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Synthetic resins and synthetic latex*, liquid, in bulk, in tank vehicles, from the plant and warehouse facilities of Borden Chemical Co., at Illiopolis, Ill., to points in Georgia, Massachusetts, New York, Ohio, Pennsylvania, and Wisconsin; and to Demopolis and Mobile, Ala.; Boca Raton, Orlando, and Tampa, Fla.; Alexandria, Cediyerville, Richmond, and Wabash, Ind.; Hutchinson, Wichita, and Kansas City, Kans.; Louisville, Lexington, and Danville, Ky.; Battle Creek,

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

Grand Rapids, Benton Harbor, Port Huron, and Rockford, Mich.; Greenville and Picayune, Miss.; Grand Rapids, Cloquet, and St. Paul, Minn.; Carl Junction, Kansas City, St. Louis, and Kirkwood, Mo.; Newark and South Kearney, N.J.; Oklahoma City and Tulsa, Okla.; Nashville and Memphis, Tenn.; Dallas, Gainsville, Itasca, and Houston, Tex., for 180 days. Supporting shipper: Borden Chemical Co., Illiopolis, Ill. Send protests to: District Supervisor Robert G. Anderson, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 South Dearborn Street, Chicago, IL 60604.

No. MC 114533 (Sub-No. 263 TA), filed October 24, 1972. Applicant: BANKERS DISPATCH CORPORATION, 4970 South Archer Avenue, Chicago, IL 60632. Applicant's representative: Stanley Komosa (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Audit media and other business records*, between Oakbrook, Ill., on the one hand, and, on the other, points in Indiana, Iowa, Ohio, Wisconsin, Michigan, and Missouri, between St. Joseph, Mich., on the one hand, and on the other, points in Illinois, Indiana, and Wisconsin: (2) *graphic arts material*, between St. Joseph, Mich., on the one hand, and, on the other, points in Illinois, Indiana, and Wisconsin and (3) *eyeglasses, frames, lenses, and parts thereof*, between Joliet, Ill., on the one hand, and, on the other, points in Indiana and Wisconsin, for 180 days. Supporting shippers: Prudential Property and Casualty Insurance Co., 2111 Enco Drive, Oak Brook, IL 60521; A & R Roe Printers, Wayne near Pleasant Street, St. Joseph, Mich. 49085; B & M Optical Co., 551 Columbia Street, Joliet, IL 60434. Send protests to: District Supervisor Robert G. Anderson, Interstate Commerce Commission, Bureau of Operations, Everett McKinley Dirksen Building, 219 South Dearborn Street, Room 1086, Chiacgo, IL 60604.

No. MC 117644 (Sub-No. 29 TA), filed October 27, 1972. Applicant: D & T TRUCKING CO., INC., 498 Northwest First Street, Post Office Box 2611, New Brighton, MN 55112. Applicant's representative: Robert Dolle (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Dairy products and other commodities distributed by dairies* (except commodities in bulk), from plantsites, warehouses, storage, and production facilities utilized by Land O'Lakes, Inc., in Minnesota, Eau Claire, Reedsburg, Spencer, and Whitehall, Wis., and Chicago, Ill., to points in Ohio and Louisville, Ky., for 180 days. Supporting shipper: Land O'Lakes, Inc., Minneapolis, Minn. Send protests to: District Supervisor Raymond T. Jones, Interstate Commerce Commission, Bureau of Operations, 448 Federal Building, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 119789 (Sub-No. 122 TA), filed October 24, 1972. Applicant: CARAVAN REFRIGERATED CARGO, INC., Post Office Box 6188, 1612 Irving Boulevard, Dallas, TX 75222. Applicant's representative: James N. Weatherly (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Canned and bottled foodstuffs*, from Lafayette and New Iberia, La., to points in Illinois, Indiana, Michigan, Ohio, and Wisconsin, for 180 days. NOTE: Carrier does not intend to tack authority. Supporting shipper: B. F. Trappey's Sons, Inc., Locker Drawer 400, New Iberia, LA 70560. Send protests to: District Supervisor E. K. Willis, Jr., Interstate Commerce Commission, Bureau of Operations, 1100 Commerce Street, Room 13C12, Dallas, TX 75202.

No. MC 119934 (Sub-No. 185 TA), filed October 24, 1972. Applicant: ECOFF TRUCKING, INC., 625 East Broadway, Fortville, IN 46040. Applicant's representative: J. F. Crouch (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Cupric chloride*, from Vincennes, Ind., to Elyria, Ohio, in bulk, in rubber-lined tank vehicles, for 180 days. Supporting shipper: Universal Scientific Co., Inc., 1312 South 13th Street, Vincennes, IN 47591. Send protests to: James W. Habermehl, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 802 Century Building, 36 South Penn Street, Indianapolis, IN 46204.

No. MC 123048 (Sub-No. 234 TA), filed October 27, 1972. Applicant: DIAMOND TRANSPORTATION SYSTEM, INC., 1919 Hamilton Avenue, Post Office Box A (53401), Racine, WI 53403. Applicant's representative: Carl S. Pope (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Tractors, forklifts, front-end loaders, self-propelled compactors, and attachments and parts*, from the plant and warehouse facilities of Bilco, Inc., at or near Grantsburg, Wis., to points in California, Georgia, New York, North Dakota, Texas, Vermont, Wisconsin, and Minnesota, for 180 days. Supporting shipper: Bilco Inc., Grantsburg, Wis. 54840 (George Zirnhelt, president). Send protests to: District Supervisor John E. Ryden, Interstate Commerce Commission, Bureau of Operations, 135 West Wells Street, Room 807, Milwaukee, WI 53203.

No. MC 123829 (Sub-No. 1 TA), filed October 25, 1972. Applicant: LUBBOCK-AMARILLO ARMORED SERVICE, INC., 524 32d Street, Lubbock, TX 79408. Applicant's representative: John M. Delany, 2 Nevada Drive, Lake Success, NY 11040. Inc., Shenandoah, Iowa 51601. Send protests to: Carroll Russell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 711 Federal Office Building, Omaha, Nebr. 68102.

No. MC 135813 (Sub-No. 2 TA), filed October 19, 1972. Applicant: PARR TRUCKING SERVICE, INC., 829 Alsop Lane, Post Office Box 1308, Owensboro, KY 42301. Applicant's representative: George M. Catlett, 703–706 McClure Building, Frankfort, KY 40601. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Molten aluminum alloy*, from the plantsite of National Southwire Aluminum Co., in Hancock County, Ky., to Bedford, Ind., for 180 days. Supporting shipper: Paul L. Klinvex, manager, traffic and transportation, National Aluminum Corp., 2800 Grant Building, Pittsburgh, Pa. 15219. Send protests to: R. W. Schneiter, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 222 Bakhaus Building, 1500 West Main Street, Lexington, KY 40505.

No. MC 138131 TA, filed October 20, 1972. Applicant: ARROW TRANSFER & STORAGE CO. (a corporation), 1124 Market Street, Chattanooga, TN 37402. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Telephone equipment, material, and supplies, including tools* used in the construction and maintenance of telephone systems and communications, between Chattanooga, Tenn., and points in the counties of Bledsoe, Bradley, Cumberland, Fentress, Grundy, Hamilton, McMinn, Marion, Meigs, Monroe, Overton, Pickett, Polk, Putnam, Sequatchie, Van Buren, and White, for 180 days. Supporting shipper: Western Electric, 6701 Roswell Road NE., Atlanta, GA 30328, J. F. Ballard, resident transportation manager. Send protests to: Joe J. Tate, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Suite 803, 1808 West End Building, Nashville, Tenn. 37203.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary*.

DEPARTMENT OF LABOR

Employment Standards Administration

■

Minimum Wages for Federal and Federally Assisted Construction

Area Wage Determination Decisions, Modifications, and Supersedeas Decisions

No. 223—Pt. II——1

DEPARTMENT OF LABOR

limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the application of these rates is limited to Federal and federally assisted contracts subject to Executive Order 11246 or Executive Order 11375 which are entered into before the effective date of the decision. Modifications and supersedeas decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5 with the same limitation.

DEPARTMENT OF LABOR

Employment Standards Administration

MINIMUM WAGES FOR FEDERAL AND FEDERALLY ASSISTED CONSTRUCTION

Area Wage Determination Decisions and Modifications and Supersedeas Decisions

Area wage determination decisions. Area Wage Determination Decisions of the Secretary of Labor specify, in accordance with applicable law and on the basis of information available to the Department of Labor from its study of local wage conditions and from other sources, the basic hourly wage rates and fringe benefit payments which are determined to be prevailing for the described classes of laborers and mechanics employed in construction activity of the character and in the localities specified therein.

The determinations in these decisions of such prevailing rates and fringe benefits have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determinations by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 F.R. 21138) and of Secretary of Labor's Orders 12-71 and 15-71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in these decisions shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged on contract work of the character and in the localities described therein.

Good cause is hereby found for not utilizing notice and public procedure thereon prior to the issuance of these determinations as prescribed in 5 U.S.C. 553 and not providing for delay in effective date as prescribed in that section, because the necessity to issue construction industry wage determinations frequently and in large volume causes procedures to be impractical and contrary to the public interest.

Area Wage Determination Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5. Accordingly, the applicable decision together with any modifications issued subsequent to its publication date shall be made a part of every contract for performance of the described work within the geographic area indicated as required by an applicable Federal prevailing wage law and 29 CFR Part 5. The wage rates contained therein shall be the minimum paid under such contract by contractors and subcontractors on the work.

Modifications and supersedeas decisions to area wage determination decisions. Modifications and Supersedeas Decisions to Area Wage Determination Decisions are based upon information obtained concerning changes in prevailing hourly wage rates and fringe benefit payments since the decisions were issued.

The determinations of prevailing rates and fringe benefits made in the Modifications and Supersedeas Decisions have been made by authority of the Secretary of Labor pursuant to the provisions of the Davis-Bacon Act of March 3, 1931, as amended (46 Stat. 1494, as amended, 40 U.S.C. 276a) and of other Federal statutes referred to in 29 CFR 1.1 (including the statutes listed at 36 F.R. 306 following Secretary of Labor's Order No. 24-70) containing provisions for the payment of wages which are dependent upon determination by the Secretary of Labor under the Davis-Bacon Act; and pursuant to the provisions of Part 1 of Subtitle A of Title 29 of Code of Federal Regulations, Procedure for Predetermination of Wage Rates (37 F.R. 21138) and of Secretary of Labor's Orders 13-71 and 15-71 (36 F.R. 8755, 8756). The prevailing rates and fringe benefits determined in foregoing Area Wage Determination Decisions, as hereby modified, and/or superseded shall, in accordance with the provisions of the foregoing statutes, constitute the minimum wages payable on Federal and federally assisted construction projects to laborers and mechanics of the specified classes engaged in contract work of the character and in the localities described therein.

Modifications and Supersedeas Decisions are effective from their date of publication in the FEDERAL REGISTER without limitation as to time and are to be used in accordance with the provisions of 29 CFR Parts 1 and 5.

Any person, organization, or governmental agency having an interest in the wages determined as prevailing is encouraged to submit wage rate information for consideration by the Department. Further information and self-explanatory forms for the purpose of submitting this data may be obtained by writing to the U.S. Department of Labor, Employment Standards Administration, Office of Special Wage Standards, Division of Wage Determinations, Washington, D.C. 20210. The cause for not utilizing the rule making procedures prescribed in 5 U.S.C. 553 has been set forth in the original Area Wage Determination Decision.

The following is a list of the Area Wage Determination Decision, Modifications, and Supersedeas Decisions which are set forth below in this document.

Area Wage Determination Decision No. AP-48 for the State of Ohio.

Modifications to Area Wage Determination Decisions for specified localities in the States of Alabama, Arkansas, California, Florida, Georgia, Illinois, Kentucky, Louisiana, Mississippi, Missouri, New Mexico, Pennsylvania, Tennessee, and Texas which were published in the FEDERAL REGISTER on the following dates:

Decision No.	*Date*
AM-475; AM-1,854; AM-1,859; AM-1,863; AM-1,864.	Aug. 20, 1971.
AM-8,568; AM-8,569; AM-8,590.	Mar. 17, 1972.
AM-8,618; AM-8,619	June 2, 1972.
AP-117; AP-119	Aug. 18, 1972.
AP-116; AP-118; AP-235; AP-322; AP-323.	Sept. 15, 1972.
AP-342; AP-343; AP-349; AP-421.	Sept. 29, 1972.
AP-132; AP-133; AP-246	Oct. 13, 1972.
AP-28; AP-29	Nov. 3, 1972.

Supersedeas Decisions to Area Wage Determination Decisions for specified localities in the States of Delaware, Florida, Kansas, Maryland, Missouri, Ohio, Oklahoma, Texas, Virginia, and the District of Columbia which were published in the FEDERAL REGISTER on the following dates:

Decision No.	*Date*
AM-411(AP-41); AM-416 (AP-46).	Aug. 11, 1971.
AM-404(AP-34); AM-405 (AP-35); AM-406(AP-36); AM-407(AP-37); AM-408 (AP-38); AM-410(AP-40); AM-412(AP-42); AM-413 (AP-43); AM-414(AP-44); AM-415(AP-45); AM-417 (AP-47).	Aug. 18, 1971.
AM-451(AP-128); AM-452 (AP-123); AM-453(AP-127); AM-455(AP-125); AM-457(AP-124); AM-461 (AP-126).	Aug. 20, 1971.
AM-6,724(AP-514)	April 28, 1972.
AM-6,728(AP-515)	May 19, 1972.
AM-8,614(AP-39)	May 26, 1972.
AM-9,699(AP-444)	June 30, 1972.
AP-409(AP-443); AP-411 (AP-442).	Aug. 4, 1972.
AP-306(AP-361); AP-308 (AP-360).	Aug. 11, 1972.

Supersedeas decision numbers are in parentheses following the number of the decision being superseded.

Signed at Washington, D.C., this 10th day of November 1972.

HORACE E. MENASCO,
Administrator,
Wage and Hour Division.

PAID HOLIDAYS (Where Applicable)

A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Employer contributes 4% of basic hourly rate for 5 years or more of service or 2% of basic hourly rate for 6 months to 5 years of service as Vacation Pay Credit.

b. 6 paid holidays: A through F.

c. One paid holiday: Labor Day, providing employee is currently on payroll and would be scheduled to work the holiday, also employee must work the day prior to and after the holiday.

d. A through F, provided that the employee worked the days preceding and following the holiday.

e. Election Day paid holiday.

f. Employer contributes $.90 to Health and Welfare and Pension Fund.

g. $4.00 per week for Health and Welfare and $1.00 per week for life insurance contribution.

h. $6.00 per week for those on the payroll for over 90 days.

j. Paid Holidays: A through F for employee currently employed by the employer at the time the holiday occurs, and who would otherwise be scheduled to work and would work on such day if it were not observed as a holiday, and who has worked under working conditions, the last regularly scheduled workday after the holiday.

POWER EQUIPMENT OPERATORS
BUILDING AND HEAVY CONSTRUCTION

	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.	Others
WAGE GROUP I						
Machines doing hook work, any machine handling machinery, cable spinning machines, helicopters, machines similar to the above	$9.24	4.6%	6.5%	a	.7%	
WAGE GROUP II						
Pile drivers or engineers working with dock builders and pile drivers, all types of cranes, all types of backhoes, cableways, draglines, keystones, all types of shovels, derricks, trench shovels, tranching machines, hoists with two towers, pavers 21E and over, all types overhead cranes, building hoists (double drum), gradalls, mucking machine in tunnel, all front end loaders 3-½ cu. yds. and over, tandem scrapers, pippin type backhoes, boat captains, batch plant operators (concrete), drills, self contained rotary drills, fork lifts, 20 ft. lift and over, machines similar to the above	8.95	4.6%	6.5%	a	.7%	
WAGE GROUP III						
Conveyors, building hoists (single drum), scrapers and tournapulls, spreaders, high or low pressure boilers, concrete pumps, well drillers, bulldozers and tractors, asphalt plant engineers, roller (high grade finishing), ditch winch type trencher, all loaders under 3-½ cu. yds., mechanic-welders, motor patrols, drill helper-self contained rotary drills, core drill operator, forklift trucks under 20 ft. lift, machines similar to the above	8.09	4.6%	6.5%	a	.7%	
WAGE GROUP IV						
Welding machines, well points, pumps, heaters, farm tractors, form line graders, fine grade machine, road finishing machines, concrete breaking machines, rollers, seaman pullverizing mixer, power broom, seeding spreader, tireman (for power equipment), machines similar to the above	7.33	4.6%	6.5%	a	.7%	
WAGE GROUP V						
Firemen, grease truck	6.87	4.6%	6.5%	a	.7%

PAID HOLIDAYS: (Where Applicable)
A-New Year's Day; B-Memorial Day; C-Independence Day;
D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. 6 paid holidays; A through F.

b. Employer contributes 4% of regular hourly rate to vacation pay credit for employee who has worked in business more than 5 years. Employer contributes 2% of regular hourly rate to vacation pay credit for employee who has worked in business less than 5 years.

c. Per week, Per employee, providing employee has been on payroll at least 30 days.

d. Nine paid holidays, A through F plus Washington's Birthday, Good Friday and Christmas Eve, providing employee has worked 45 full days during the 120 calendar days prior to the holidays, and the regular scheduled work days immediately and following the holiday.

e. Per week per employee, providing employee has been on payroll 300 hours.

BUILDING CONSTRUCTION	BASIC HOURLY RATES	FRINGE BENEFITS PAYMENTS				
		H & W	PENSIONS	VACATION	APP. TR.	OTH
POWER EQUIPMENT OPERATORS:						
A-Frames, air compressor on steel erection, all rotary drills used on caisson work for foundations and substructure work, boiler operator or compressor operator when compressor or boiler is mounted on crane (piggy back operation), boom trucks (all types), cableways, cherry pickers, combination concrete mixer and tower, concrete pumps, cranes (all types), derricks (all types), draglines, elevating grader or euclid loader, floating equipment, gradalls, helicopter operator hoisting building materials, helicopter winch operator hoisting builders materials, hoes (all ypes), hoisting engines (two or more drums), lift slab or panel jack operators, locomotives (all types), maintenance engineer (mechanic or welder), mixer paving (multiple drum), mobile concrete pumps with boom, panelboard (all types on site), pile driver, power shovels, side booms, slip form pavers, straddle carriers (building construction on site), tower derricks, trench machines (over 24" wide)	$8.63	.38	.65		.09	
Asphalt paver, bulldozer, CMI type equipment, endloaders, kohlman type loaders (dirt loading), mucking machines, power grader, power scoops, power scrapers, push cats	8.56	.38	.65		.09	
Air compressor (presurizing shafts or tunnels), all asphalt rollers, fork lifts, hoist (one drum), house elevators, man lift, power boilers (over 15 lbs., pressure), pump operator installing or operating well points or other type of dewatering system, pumps (4" & over discharge), submersible pumps (4" & over discharge), trenchers (24" and under)	8.41	.38	.65		.09	

POWER EQUIPMENT OPERATORS:	BASIC HOURLY RATES	FRINGE BENEFITS PAYMENTS				
		H & W	PENSIONS	VACATION	APP. TR.	OTHE
Compressors on building construction, conveyors (building material), gunite machines, mixers (capacity more than one bag), mixers (one bag capacity side loader), post driver, post driver, post hole digger, pavement breaker (hydraulic or cable), road widening trencher, rollers welder operator	7.75	.38	.65		.09	
Backfillers & tampers, batch plant, bar & joint installing machine, bull floats, burlap & curing machines, clefplanes, concrete spreading machines, crushers, drum fireman (asphalt), farm type tractor (pulling attachments), finishing machines form trenchers, high pressure pumps (over 4" discharge), hydro seeders, self propelled power spreaders, self propelled sub-grader, tire repairman, tractors pulling sheep foot roller or grader, vibratory compactors (with integral power)	7.44	.38	.65		.09	
Oiler, helper, signalman, light plant operator, power driven heaters (oil fired), power boilers (less than 15 lbs. pressure), pumps (under 4" discharge), submersible pumps (under 4" discharge)	6.82	.38	.65		.09	

BUILDING CONSTRUCTION REMAINDER OF COUNTY TRUCK DRIVERS:	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Othe
Tractor trailer combinations and drags	$5.42	a12.50	a13.00	b & c		
Drivers	5.21	a12.50	a13.00	b & c		
Helpers	5.16	a12.50	a13.00	b & c		

PAID HOLIDAYS: (WHERE APPLICABLE)
A-New Year's Day; B-Memorial Day;
C-Independence Day; D-Labor Day;
E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Per week per employee on payroll for 30 days.

b. Paid vacations: 1 year of employment 1 week; 2 years 2 weeks; 10 years 3 weeks; 15 years 4 weeks.

c. Six paid holidays: A thru F.

LABORERS:						
GROUP 1						
Laborers (construction), plant laborers or gardener, high-of-way laborer, landscape laborer, utility man or handyman, joint setter, flagman, carpenter helper, waterproofing laboier, slurry seal, seal coating, surface treatment or road mix laborer, riprap laborer and grouter, asphalt laborer, dump man (batch trucks), guardrail and fence installers, mesh handlers and placers, concrete curing applicator, scaffold erector	$5.33	.45	.20		.02	
GROUP 2						
Asphalt raker, concrete puddler, kettle man (pipeline), all machine driven tools (gas, electric, air), mason tender, mortar mixer, sheeting and shoring man, surface grinder man, power buggy or power wheelbarrow	5.455	.45	.20		.02	
GROUP 3						
Form setter, bottom man, welder helper (pipeline), concrete saw man, cutting with burning torch, pipe layer, hand spiker (railroad), car pusher (without air), underground man (working in sewer and waterline, cleaning, repairing and reconditioning), tunnel laborer (without air) and caisson, cofferdam (below 25 feet deep), air track and wagon drill	5.53	.45	.20		.02	
GROUP 4						
Blaster and powder man, muckers, wrencher (mechanical joints and utility pipeline), yarner, top lander	5.68	.45	.20		.02	
GROUP 5						
Curb setter and cutter, miner (without air), concrete crew in tunnels utility pipeline tapper, gunnite nozzle man, waterline caulker	5.98	.45	.20		.02	

AP-34 Pg. 8 — Ohio - 1 - PEO L 1 of 2

HEAVY & HIGHWAY CONSTRUCTION	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.	Othe
POWER EQUIPMENT OPERATORS:						
CLASS I						
Air compressor on steel erection, boiler operator on compressor or generator when mounted on a rig, cableways, combination concrete mixer and tower, concrete plans (over 4 yd. capacity), concrete pumps, cranes (all types, including A frames, boom trucks, cherry pickers), derricks, draglines, dredge (dipper, clam or suction), elevating grader or euclid loader, floating equipment (all types), helicopter crew (operator-hoist or winch), hoes (all types), hoisting engi engines, hoisting engines on shaft or tunnel work, industrial-type tractor, jet engine dryer (D8 or D9) diesel tractor, locomotives (standard gauge), maintenance operator Class A, mixer, paving (single or double drum), mucking machines, multiple scraper, piledriving machines (all types), power shovels, Quad 9 (double pusher), refrigerating machine (freezer operation), rotary drill on caisson work, slip-form paver, survey crew party chief, tower derricks, tree shredder, trench machines (over 24 " wide), truck mounted concrete pumps, tug boat, tunnel machine, wheel excavator	$6.81	.38	.65		.09	
CLASS II						
Asphalt paver, automatic subgrade machine, self-propelled (CMI type), bulldozers, endoloader, kolman loader (production type - dirt), lead grease man, maintenance operator Class B, power grader, power scoop - 2 scrapers, push cat, trench machines (24" wide and under	6.74	.38	.65		.09	
CLASS III						
Air compressors on tunnel work (low pressure), asphalt plant engineer, locomotive (narrow gauge), mixers, concrete (more than one bag capacity), mixers, one bag capacity (side loader), power boilers over 15 lb. pressure, pump operator installing and operating well points, pumps (6" and over discharge), rollers - asphalt, utility operator (small equipment), welding machines and generators	6.43	.38	.65		.09	

AP-34 Pg. 9 — Ohio - 1 - PEO 2 of 2

POWER EQUIPMENT OPERATORS: (CONTD)	Basic Hourly Rates	Fringe Benefits Payments: H & W	Pensions	Vacation	App. Tr.	Othe
CLASS IV						
Back fillers, bar, joint and mesh installing machines, batch plant, bull floats, burlap and curing machines, compressors (portable, sewer, heavy and highway), concrete plant (capacity 4 yd, and under), concrete saw (multiple), conveyors (highway), crushers, deckhand, drill highway (with integral power), farm-type tractors with attachments (highway), finishing machines, fireman, floating equipment (all types), fork lift (highway), form trenchers, hydro seeders, plant mixers, post mixers, post hole digger (power auger), power brush burner, power form handling equipment, road widening trencher, rollers (brick, grade, macandam), self-propelled power spreaders, self-propelled power subgraders, steam fireman, survey instrument man, tractor(pulling sheepfoot roller or grader), vibratory compactors (with integral power)	$6.16	.38	.65		.09	
CLASS V						
Drum fireman (asphalt plant), helper, inboard-outboard motor boat-launch, oil heaters (asphalt plant), oilers, power driven heaters, pumps (under 4" discharge), signalmen, survey rodmen or chainmen, tire repairmen	5.48	.38	.65		.09

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Others
POWER EQUIPMENT OPERATORS: (CONT'D)						
Compressors on building construction, conveyors (building material), gunite machines, mixers (cap., more than one bag), mixers (one bag cap., side loader), post driver, post hole digger, pavement breaker (hydraulic or cable), road widening trencher, rollers, welder operator	8.35	.38	.65		.09	
Backfillers and tamper, batch plant, bar & joint installing machine, bull floats burlap & curing machines, clefplanters, concrete spreading machines, crushers, drum firemen (asphalt), farm type tractors (pulling attachment) finishing machines, form trenchers, high pressure pumps (over 3" discharge), hydro seeders, self propelled power spreader, self propelled sub-grader, tractor (pulling sheep foot roller or grader) tire repairman, vibratory compactors (with integral power)	8.03	.38	.65		.09	
Oiler, helper, signalmen, light plant oper., power driven heaters (oil fired), power boilers (less than 15 lbs, pressure), submersible pumps (under 4" discharge), pumps (under 4" discharge)	7.40	.38	.65		.09	

HEAVY & HIGHWAY CONSTRUCTION

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Other
LABORERS:						
GROUP 1						
Laborers (construction), plant laborers or yardmen, right-of-way laborer, landscape laborer, utility man or handyman, joint setter, flagman, carpenter helper, waterproofing laborer, slurry seal, seal coating, surface treatment or road mix laborer, riprap laborer and grouter, asphalt laborer, dump man (batch trucks), guardrail and fence installers, mesh handlers and placers, concrete curing applicator, scaffold erector	$6.64	.45	.20		.02	
GROUP 2						
Asphalt raker, concrete puddler, kettle man (pipeline), all machine driven tools (gas, electric, air), mason tender, mortar mixer, sheeting and shoring man, surface grinder man, power wheelbarrow	6.765	.45	.20		.02	
GROUP 3						
Form setter, bottom man, welder helper (pipeline), concrete saw man, cutting with burning torch, pipe layer, hand spiker (railroad), car pusher (without air), underground man (working in sewer and waterline, cleaning, repairing and reconditioning), tunnel laborer (without air) and caisson, cofferdam (below 25 feet deep), air track and wagon drill	6.84	.45	.20		.02	
GROUP 4						
Blaster and powder man, mucker, wrencher (mechanical joints and utility pipeline), yarner, top lander	6.99	.45	.20		.02	
GROUP 5						
Curb setter and cutter, miner without air, concrete crew in tunnels, utility pipeline tapper, gunnite nozzle man, waterline caulker	7.29	.45	.20		.02	

HEAVY & HIGHWAY CONSTRUCTION

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Other
POWER EQUIPMENT OPERATORS:						
CLASS I						
Air compressor on steel erection, asphalt plant engineers, boiler operator, compressor or generator when mounted on a rig, cableways, combination concrete mixer and tower, concrete plants (over 4 yd. capacity), concrete pumps, cranes (all types, including A frames, boom trucks, cherry pickers), derricks, draglines, dredge (dipper, clam or suction), elevating grader or euclid loader, floating equipment (all types), helicopter crew (operator-hoist or winch), hoes (all types), hoisting engines, hoisting engines on shaft or tunnel work, industrial-type tractor, locomotives (standard gauge), maintenance operator Class A, mixer, paving (single or double drum), mucking machines, multiple scraper, pile-driving machines (all types), power shovels, Quad 9 (double pusher), refrigerating machine (freezer operation), rotary drill on caisson work, slip-form paver, survey crew party chief, tower derricks, tree shredder, trench machines over 24" wide), truck mounted concrete pumps, tug boat, tunnel machine, wheel excavator	$7.52	.38	.65		.09	
CLASS II						
Asphalt paver, automatic subgrade machine, self-propelled (CMI type), bulldozers, endloader, kolman loader (production type - dirt), lead grease man, maintenance operator Class B, power grader, power scoops and scrapers, push cat, trench machines (24" wide and under)	7.42	.38	.65		.09	
CLASS III						
Air compressors on tunnel work (low pressure), asphalt plant engineer, locomotive (narrow gauge), mixers, concrete more than one bag capacity), mixers, one bag capacity (side loader), power boilers over 15 lb. pressure, pump operator installing and operating well points, pumps (4" and over discharge), rollers - asphalt, utility operator (small equipment), welding machines and generators	7.15	.38	.65		.09	

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Oth
POWER EQUIPMENT OPERATORS: (CONTD)						
CLASS IV						
Back fillers, bar, joint and mesh installing machines, batch plant, bull floats, burlap and curing machines, compressors (portable, sewer, heavy and highway), concrete plant (capacity 4 yd. and under), concrete saw (multiple), conveyors (highway), crushers, deckhand, drill highway (with integral power), farm-type tractors with attachments (highway), finishing machines, fireman, floating equipment (all types), fork lift (highway), form trenchers, hydro seeders, plant mixers, post driver, post hole digger (power auger), power brush burner, power form handling equipment, road widening trencher, rollers (brick, grade, macadam), self-propelled power spreaders, self-propelled power subgraders, steam fireman, survey instrument man, tractor (pulling sheepfoot roller or grader), vibratory compactors (with integral power)	$6.85	.38	.65		.09	
CLASS V						
Drum fireman (asphalt plant), helpers, inboard-outboard motor boat-launch, oil heaters (asphalt plant), oilers, power driven heaters, pumps (under 4" discharge), signalmen, survey rodmen or chainmen, tire repairmen	6.43	.38	.65		.09	

	Basic Hourly Rates	Fringe Benefits Payments				
		H & W	Pensions	Vacation	App. Tr.	Other
TRUCK DRIVERS:						
Straight and dumps, including asphalt, warehousemen in bona fide warehouses for storage of construction material, straight fuel	$5.25	.30	.30	a+b		
Semi fuel, semi pole drivers hauling steel pipe and semi tractor drivers	5.40	.30	.30	a+b		
Ready-mix, agitator or bulk concrete drivers, dry batch truck	5.63	.30	.30	a+b		
Euclids, darts, tank asphalt spreaders, low boys, carry-all drivers, tournarockers, hi-lifts, fork lifts, extra long trailers & semi pole trailers (except when hauling steel pipe), double hook-up tractor trailers, including team track and railroad siding, semi tractor and tri-axle trailer, tandem tractor and tandem trailer and tri-axle trailer, tag along trailers, expandable trailers, loads requiring road permits	5.75	.30	.30	a+b		

OHIO-9-TD

PAID HOLIDAYS (Where Applicable)
A-New Year's Day; B-Memorial Day; C-Independence Day; D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES
a. One week's vacation for one year of service; two weeks for five years of service; three weeks for ten years of service and four weeks for seventeen years of service.

b. Seven paid holidays: A through F plus National Election Day.

PAID HOLIDAYS: Where Applicable
A-New Year's Day; B-Memorial Day; C-Independence Day;
D-Labor Day; E-Thanksgiving Day; F-Christmas Day.

FOOTNOTES:

a. Six paid holidays: A through F.

b. Employer contributes 4% of regular hourly rate to vacation pay credit for employee who has worked in the business more than 5 years. Employer contributes 2% of regular hourly rate to vacation pay credit for employee who has worked in the business less than 5 years.

c. Nine paid holidays: A through F, Washington's Birthday, Good Friday and Christmas Eve providing employee has worked 45 full days during the 120 calendar days prior to the holiday, and the regular scheduled work days immediately preceding and following the holiday.

d. Per year

e. Per week, per employee.

f. One paid holiday: Labor Day, providing the employee has worked 5 consecutive days before and after the holiday.

g. One year of service, 1 weeks paid vacation; 2 or more years of service, 2 weeks paid vacation.

Title 21—FOOD AND DRUGS

Chapter III—Special Action Office for Drug Abuse Prevention

PART 401—CONFIDENTIALITY OF DRUG ABUSE PATIENT RECORDS

The Special Action Office for Drug Abuse Prevention has received numerous requests for interpretations of section 408 of the Drug Abuse Office and Treatment Act of 1972 (21 U.S.C. 1175). That section deals with the confidentiality of patient records maintained by treatment organizations. On the basis of the authority conferred by that Act, as well as other provisions of law, the Special Action Office, in consultation with the Department of Justice and the Department of Health, Education, and Welfare, has prepared the accompanying interpretative regulation to deal comprehensively with both substantive and procedural issues arising under section 408.

The rationale underlying the policy of section 408 is simple and compelling. Drug abuse in our society, at least with heroin, inevitably involves unlawful possession of drugs as a minimum criminal complication, and the very high cost of the heroin required to maintain a full-blown habit leads in many instances to a pattern of crimes against property. Socially, there is no more crushing a stigma than to be known as a junkie. If society is to make significant progress in the struggle against drug abuse, it is imperative that all unnecessary impediments to voluntary treatment be removed. There is clear agreement among drug abuse treatment program operators that their ability to assure patients and prospective patients of anonymity is essential to the success of their programs. The identification of a person as a patient of a general practitioner or hospital clinic is not ordinarily of great significance, but the identification of a person as an enrollee in a narcotic treatment program can, in and of itself, have profoundly adverse consequences.

It was in recognition of these considerations, among others, that Congress enacted section 408 of Public Law 92–255 (21 U.S.C. 1175). It must be emphasized that the operation of this section in no way creates a sanctuary for criminals. The enrollment of an addict in a treatment program takes away nothing, immunizes nothing, that would be available to law enforcement authorities if the program did not exist or the addict did not enroll in it. The only effect of his enrollment is to diminish the likelihood of his continued criminal conduct, and if the price of this is to isolate the records generated by the enrollment itself, this is a small price indeed in the light of the social benefits.

A threshold question is the scope of the section in terms of the programs and activities covered. By its terms, section 408 applies to patient records "maintained in connection with the performance of any drug abuse prevention function authorized or assisted under any provision of this Act. • • •" Under section 221 of the Act (21 U.S.C. 1131), the Director is required to provide overall planning and policy for all Federal drug abuse prevention functions, and under section 222 (21 U.S.C. 1132), he is given plenary budgetary authority with respect to all such functions for the express purpose of implementing his authority under section 221. Thus, all drug abuse prevention functions carried on with Federal authorization or support are subject to the Director's authority under section 221, and therefore fall within the scope of section 408. This result appears consistent with the thrust of the Act read as a whole: It is clear from the conference report (H. Rept. No. 92–920, p. 33) that the conferees attached great importance to section 408, and it is entirely reasonable to construe the scope of this section as coextensive with that of section 221. Section 401.01 of the regulation so provides.

While the legislative history of section 408 makes clear the intent of Congress that patient records should not be used to the patients' disadvantage, from the Act read as a whole the intention is equally clear to encourage the social and occupational rehabilitation of drug abusers. Under the regulation, the terms "benefit" and "governmental personnel" are construed in this light.

Although the statute makes no mention of disclosure to a patient's attorney, either with or without his consent, it is clear that an absolute prohibition on disclosure to counsel would raise grave constitutional questions, as well as be at variance with the remedial purposes of the Act. The constitutionally protected right to counsel, to be meaningful, must necessarily include the concept of informed counsel, and this can only be given on the basis of facts. Section 401.25 interprets the statute in the light of these principles.

Employment is an indispensable element of successful rehabilitation. Gainful employment in the case of a known former addict may be impossible to secure unless the prospective employer has some evidence that the individual either is currently enrolled in a treatment program or has successfully completed one. On the other hand, employers generally neither desire nor are capable of interpreting the raw data in the treatment program records. In recognition of this need, provisions have been included to permit treatment program operators to work with employers who have indicated their willingness to cooperate with drug rehabilitation programs.

Similar reasoning applies in the case of communications with members of a patient's family. In those cases where such information will help the family to aid in the treatment or rehabilitation process, and the patient desires that it be given to them, evaluations or status reports may be furnished to members of a patient's family under that section.

To aid the Director of the Special Action Office for Drug Abuse Prevention in determining whether this regulation should be amended, revoked, or reissued after interested persons have been given an opportunity to participate, interested persons are invited to submit written data, views, and arguments. Any such material should be submitted to the General Counsel, Special Action Office for Drug Abuse Prevention, 726 Jackson Place NW., Washington, DC 20506, to be received not later than January 15, 1973. Such material will be made available for inspection and copying upon request.

The Special Action Office is informed that litigation is now pending whose outcome could seriously affect treatment programs throughout the country. In addition, uncertainties as to the interpretation and application of section 408 are creating difficulties and hardships for many such programs and their patients. On the one hand, treatment program counsellors are uncertain of the extent to which they can assure patients and prospective patients of the confidentiality of treatment records; on the other hand, efforts to promote occupational rehabilitation by working with actual or prospective employers, with the consent of the patients, are being frustrated in some instances by interpretations which have been placed on section 408.

In view of the foregoing circumstances, it is hereby found that good cause exists to make this regulation effective immediately, and that notice and public procedure thereon prior to its effectiveness are impracticable, unnecessary, and contrary to the public interest, and it is hereby ordered that Title 21 of the Code of Federal Regulations be amended by adding at the end thereof a new chapter, as hereinafter set forth, effective upon publication in the FEDERAL REGISTER (11–17–72).

By order of the Director of the Special Action Office for Drug Abuse Prevention, November 15, 1972.

GRASTY CREWS II,
General Counsel.

PART 400—[RESERVED]

GENERAL PROVISIONS

Sec.
401.01 Definitions.
401.02 Applicability.
401.03 General rules regarding confidentiality.
401.04 Incompetent or deceased patients.
401.05 Security precautions.
401.06 Extent of disclosure.

DISCLOSURES WITHOUT COURT AUTHORIZATION AND WITH CONSENT OF PATIENT

401.21 Form of consent.
401.22 Disclosure to medical personnel.
401.23 Disclosure to governmental personnel for purpose of obtaining benefits.
401.24 Disclosure in connection with parole, probation, or suspension of prosecution.
401.25 Disclosure to legal counsel.
401.26 Evaluations in connection with rehabilitation.

DISCLOSURES WITHOUT COURT AUTHORIZATION AND WITHOUT CONSENT OF PATIENT

Sec.
401.41 Disclosure without consent in general.
401.42 Medical emergency.
401.43 Records maintained in connection with chemotherapeutic treatment.
401.44 Research, audits, and program evaluation.

CRIMINAL PENALTIES

401.51 Penalty for unauthorized disclosure.

INTERPRETATION OF SECTION 408(b)(2)(C) IN RELATION TO OTHER LAWS

401.61 Relationship of section 408(b)(2)(C) to other provisions of section 408 and to other legislation generally.
401.62 Scope of orders; relationship to confidentiality provisions of Public Law 91–513.

INTERPRETATIVE GUIDELINES FOR APPLICATIONS AND ORDERS UNDER SECTION 408(b)(2)(C)

401.71 Applications for orders should be restricted to records of specified patients.
401.72 Information which should be furnished in support of application.
401.73 Suggested safeguards against unnecessary disclosures.

AUTHORITY: The provisions of this Part 401 are authorized under sections 213, 221, 222, and 408 of the Drug Abuse Office and Treatment Act of 1972 (Public Law 92–255; 21 U.S.C. 1122, 1131, 1132, and 1175), and other relevant provisions of law.

GENERAL PROVISIONS

§ 401.01 Definitions.

For the purposes of this part, the following words shall have the meanings indicated:

(a) The term "Act" means the Drug Abuse Office and Treatment Act of 1972 (Public Law 92–255) including such amendments thereto as may be in effect at the time the provision referring to it is applied.

(b) The term "Director" means the Director of the Special Action Office for Drug Abuse Prevention.

(c) The term "drug abuse prevention function" means any program or activity relating to drug abuse education, training, treatment, rehabilitation, or research, and includes any such function even when performed by an organization whose primary mission is in the field of drug traffic prevention functions (as defined in 21 U.S.C. 1103(c)), or is unrelated to drugs.

(d) The term "drug abuse prevention function authorized or assisted under any provision of the Act or any act amended by the Act" means any drug abuse prevention function—

(1) Which is conducted in whole or in part by any department, agency, or instrumentality of the United States, or

(2) For the lawful conduct of which in whole or part any license, permit, or other authorization is required to be granted by any department or agency of the United States.

(e) The term "patient" means any person who is or has been interviewed, examined, diagnosed, treated, or rehabilitated in connection with any drug abuse prevention function.

(f) The term "governmental personnel" means those persons who are employed by the U.S. Government, by any State government, or by any agency or political subdivision of either, and includes Veterans Administration personnel as described in § 401.23(b).

(g) The term "medical personnel" includes physicians, nurses, psychologists, counselors, and supporting clerical and technical personnel.

§ 401.02 Applicability.

(a) Except as provided in paragraph (b) of this section, this part applies to records or any part thereof made on or after March 21, 1972, of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse prevention function authorized or assisted under the Act or any act amended by the Act.

(b) The provisions of section 408 of the Act (21 U.S.C. 1175) and the remaining provisions of this part do not apply to any interchange of records entirely within the Armed Forces, within those components of the Veterans Administration furnishing health care to veterans, or between such components and the Armed Forces, but otherwise such section and this part apply to any communication to or from any person outside the Armed Forces or such components of the Veterans Administration.

§ 401.03 General rules regarding confidentiality.

Records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse prevention function shall be confidential, may be disclosed only as authorized by this part, and may not otherwise be divulged in any civil, criminal, administrative, or legislative proceeding conducted by any Federal, State, or local authority, whether such proceeding is commenced before or after the effective date of this part.

§ 401.04 Incompetent or deceased patients.

In any case in which disclosure is authorized with the consent of the patient, such consent may be given by a guardian, conservator, or other court-appointed designee in the case of an incompetent patient, and by an executor, administrator, or other personal representative in the case of a deceased patient.

§ 401.05 Security precautions.

(a) Appropriate precautions should be taken for the security of records to which this part applies. The succeeding paragraphs of this section set forth examples of such precautions, but these should be added to or may be modified in the light of individual circumstances.

(b) The file of each patient maintained in connection with the performance of any drug abuse prevention function should be marked "Confidential Patient Information," as should any record identifying an individual as a drug abuse patient, including photographs, fingerprints, reports of skin abrasions indicating drug use, or other documentation of patient identification.

(c) Each file drawer, cabinet, or other container in which such files are kept should be conspicuously labeled with a cautionary statement such as the following:

CONFIDENTIAL PATIENT INFORMATION
Any unauthorized disclosure is a Federal offense.

§ 401.06 Extent of disclosure.

Any disclosure made under this part, whether with or without the patient's consent, shall be limited to information necessary in the light of the need or purpose for the disclosure.

DISCLOSURES WITHOUT COURT AUTHORIZATION AND WITH CONSENT OF PATIENT

§ 401.21 Form of consent.

(a) Where disclosure is authorized with the consent of the patient, such consent must, except as otherwise provided, be in writing and signed by the patient. Such consent must state—

(1) The name of the person or organization to whom disclosure is to be made,

(2) The specific type of information to be disclosed, and

(3) The purpose or need for such disclosure.

§ 401.22 Disclosure to medical personnel.

With the patient's consent, disclosure to medical personnel is authorized for the purposes of diagnosis or treatment. The consent must be in writing and in the form prescribed in § 401.21. All medical personnel to whom disclosure is made shall be subject to all of the rules on confidentiality as set forth in this part.

§ 401.23 Disclosure to governmental personnel for purpose of obtaining benefits.

(a) With the written consent of a patient, disclosure is authorized to governmental personnel for the purpose of obtaining benefits to which the patient is entitled. For the purposes of this section, benefits to which a patient is entitled include, but are not limited to, any welfare, medicare, or other public financial assistance authorized by Federal, State, or local law, the suspension of prosecution, the granting of probation or parole, public pension or retirement benefits, and any other benefit conferred by lawful authority.

(b) Disclosure may be made to Veterans Administration personnel for the purpose of determining a patient's eligibility for hospitalization, pension, or other veterans' benefits. For the purpose of this section, Veterans Administration personnel includes any personnel (whether or not employed or compensated by the Veterans Administration) authorized by the Veterans Administration to assist patients in the preparation and submission of their claims.

INTERPRETATION OF SECTION 408(b)(2)(C) IN RELATION TO OTHER LAWS

401.41 Relationship of section 408(b)(2)(C) to other provisions of section 408 and to other legislation generally.
401.42 Scope of orders; relationship to confidentiality provisions of Public Law 91–513.

INTERPRETATIVE GUIDELINES FOR APPLICATIONS AND ORDERS UNDER SECTION 408(b)(2)(C)

401.51 Applications for orders should be restricted to records of specified patients.
401.52 Information which should be furnished in support of application.
401.53 Suggested safeguards against unnecessary disclosures.

AUTHORITY: The provisions of this Part 401 are authorized under sections 213, 221, 222, and 408 of the Drug Abuse Office and Treatment Act of 1972 (Public Law 92–255; 21 U.S.C. 1122, 1131, 1132, and 1175), and other relevant provisions of law.

GENERAL PROVISIONS

§ 401.01 Definitions.

For the purposes of this part, the following words shall have the meanings indicated:

(a) The term "Act" means the Drug Abuse Office and Treatment Act of 1972 (Public Law 92–255) including such amendments thereto as may be in effect at the time the provision referring to it is applied.

(b) The term "Director" means the Director of the Special Action Office for Drug Abuse Prevention.

(c) The term "drug abuse prevention function" means any program or activity relating to drug abuse education, training, treatment, rehabilitation, or research, and includes any such function even when performed by an organization whose primary mission is in the field of drug traffic prevention functions (as defined in 21 U.S.C. 1103(c)), or is unrelated to drugs.

(d) The term "drug abuse prevention function authorized or assisted under any provision of the Act or any act amended by the Act" means any drug abuse prevention function—

(1) Which is conducted in whole or in part by any department, agency, or instrumentality of the United States, or

(2) For the lawful conduct of which in whole or part any license, permit, or other authorization is required to be granted by any department or agency of the United States.

(e) The term "patient" means any person who is or has been interviewed, examined, diagnosed, treated, or rehabilitated in connection with any drug abuse prevention function.

(f) The term "governmental personnel" means those persons who are employed by the U.S. Government, by any State government, or by any agency or political subdivision of either, and includes Veterans Administration personnel as described in § 401.23(b).

(g) The term "medical personnel" includes physicians, nurses, psychologists, counselors, and supporting clerical and technical personnel.

§ 401.02 Applicability.

(a) Except as provided in paragraph (b) of this section, this part applies to records or any part thereof made on or after March 21, 1972, of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse prevention function authorized or assisted under the Act or any act amended by the Act.

(b) The provisions of section 408 of the Act (21 U.S.C. 1175) and the remaining provisions of this part do not apply to any interchange of records entirely within the Armed Forces, within those components of the Veterans Administration furnishing health care to veterans, or between such components and the Armed Forces, but otherwise such section and this part apply to any communication to or from any person outside the Armed Forces or such components of the Veterans Administration.

§ 401.03 General rules regarding confidentiality.

Records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse prevention function shall be confidential, may be disclosed only as authorized by this part, and may not otherwise be divulged in any civil, criminal, administrative, or legislative proceeding conducted by any Federal, State, or local authority, whether such proceeding is commenced before or after the effective date of this part.

§ 401.04 Incompetent or deceased patients.

In any case in which disclosure is authorized with the consent of the patient, such consent may be given by a guardian, conservator, or other court-appointed designee in the case of an incompetent patient, and by an executor, administrator, or other personal representative in the case of a deceased patient.

§ 401.05 Security precautions.

(a) Appropriate precautions should be taken for the security of records to which this part applies. The succeeding paragraphs of this section set forth examples of such precautions, but these should be added to or may be modified in the light of individual circumstances.

(b) The file of each patient maintained in connection with the performance of any drug abuse prevention function should be marked "Confidential Patient Information," as should any record identifying an individual as a drug abuse patient, including photographs, fingerprints, reports of skin abrasions indicating drug use, or other documentation of patient identification.

(c) Each file drawer, cabinet, or other container in which such files are kept should be conspicuously labeled with a cautionary statement such as the following:

CONFIDENTIAL PATIENT INFORMATION
Any unauthorized disclosure is a Federal offense.

§ 401.06 Extent of disclosure.

Any disclosure made under this part, whether with or without the patient's consent, shall be limited to information necessary in the light of the need or purpose for the disclosure.

DISCLOSURES WITHOUT COURT AUTHORIZATION AND WITH CONSENT OF PATIENT

§ 401.21 Form of consent.

(a) Where disclosure is authorized with the consent of the patient, such consent must, except as otherwise provided, be in writing and signed by the patient. Such consent must state—

(1) The name of the person or organization to whom disclosure is to be made,

(2) The specific type of information to be disclosed, and

(3) The purpose or need for such disclosure.

§ 401.22 Disclosure to medical personnel.

With the patient's consent, disclosure to medical personnel is authorized for the purposes of diagnosis or treatment. The consent must be in writing and in the form prescribed in § 401.21. All medical personnel to whom disclosure is made shall be subject to all of the rules on confidentiality as set forth in this part.

§ 401.23 Disclosure to governmental personnel for purpose of obtaining benefits.

(a) With the written consent of a patient, disclosure is authorized to governmental personnel for the purpose of obtaining benefits to which the patient is entitled. For the purposes of this section, benefits to which a patient is entitled include, but are not limited to, any welfare, medicare, or other public financial assistance authorized by Federal, State, or local law, the suspension of prosecution, the granting of probation or parole, public pension or retirement benefits, and any other benefit conferred by lawful authority.

(b) Disclosure may be made to Veterans Administration personnel for the purpose of determining a patient's eligibility for hospitalization, pension, or other veterans' benefits. For the purpose of this section, Veterans Administration personnel includes any personnel (whether or not employed or compensated by the Veterans Administration) authorized by the Veterans Administration to assist patients in the preparation and submission of their claims.

INTERPRETATION OF SECTION 408(b)(2)(C) IN RELATION TO OTHER LAWS

401.41 Relationship of section 408(b)(2)(C) to other provisions of section 408 and to other legislation generally.
401.42 Scope of orders; relationship to confidentiality provisions of Public Law 91–513.

INTERPRETATIVE GUIDELINES FOR APPLICATIONS AND ORDERS UNDER SECTION 408(b)(2)(C)

401.51 Applications for orders should be restricted to records of specified patients.
401.52 Information which should be furnished in support of application.
401.53 Suggested safeguards against unnecessary disclosures.

AUTHORITY: The provisions of this Part 401 are authorized under sections 213, 221, 222, and 408 of the Drug Abuse Office and Treatment Act of 1972 (Public Law 92–255; 21 U.S.C. 1122, 1131, 1132, and 1175), and other relevant provisions of law.

GENERAL PROVISIONS

§ 401.01 Definitions.

For the purposes of this part, the following words shall have the meanings indicated:

(a) The term "Act" means the Drug Abuse Office and Treatment Act of 1972 (Public Law 92–255) including such amendments thereto as may be in effect at the time the provision referring to it is applied.

(b) The term "Director" means the Director of the Special Action Office for Drug Abuse Prevention.

(c) The term "drug abuse prevention function" means any program or activity relating to drug abuse education, training, treatment, rehabilitation, or research, and includes any such function even when performed by an organization whose primary mission is in the field of drug traffic prevention functions (as defined in 21 U.S.C. 1103(c)), or is unrelated to drugs.

(d) The term "drug abuse prevention function authorized or assisted under any provision of the Act or any act amended by the Act" means any drug abuse prevention function—

(1) Which is conducted in whole or in part by any department, agency, or instrumentality of the United States, or

(2) For the lawful conduct of which in whole or part any license, permit, or other authorization is required to be granted by any department or agency of the United States.

(e) The term "patient" means any person who is or has been interviewed, examined, diagnosed, treated, or rehabilitated in connection with any drug abuse prevention function.

(f) The term "governmental personnel" means those persons who are employed by the U.S. Government, by any State government, or by any agency or political subdivision of either, and includes Veterans Administration personnel as described in § 401.23(b).

(g) The term "medical personnel" includes physicians, nurses, psychologists, counselors, and supporting clerical and technical personnel.

§ 401.02 Applicability.

(a) Except as provided in paragraph (b) of this section, this part applies to records or any part thereof made on or after March 21, 1972, of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse prevention function authorized or assisted under the Act or any act amended by the Act.

(b) The provisions of section 408 of the Act (21 U.S.C. 1175) and the remaining provisions of this part do not apply to any interchange of records entirely within the Armed Forces, within those components of the Veterans Administration furnishing health care to veterans, or between such components and the Armed Forces, but otherwise such section and this part apply to any communication to or from any person outside the Armed Forces or such components of the Veterans Administration.

§ 401.03 General rules regarding confidentiality.

Records of the identity, diagnosis, prognosis, or treatment of any patient which are maintained in connection with the performance of any drug abuse prevention function shall be confidential, may be disclosed only as authorized by this part, and may not otherwise be divulged in any civil, criminal, administrative, or legislative proceeding conducted by any Federal, State, or local authority, whether such proceeding is commenced before or after the effective date of this part.

§ 401.04 Incompetent or deceased patients.

In any case in which disclosure is authorized with the consent of the patient, such consent may be given by a guardian, conservator, or other court-appointed designee in the case of an incompetent patient, and by an executor, administrator, or other personal representative in the case of a deceased patient.

§ 401.05 Security precautions.

(a) Appropriate precautions should be taken for the security of records to which this part applies. The succeeding paragraphs of this section set forth examples of such precautions, but these should be added to or may be modified in the light of individual circumstances.

(b) The file of each patient maintained in connection with the performance of any drug abuse prevention function should be marked "Confidential Patient Information," as should any record identifying an individual as a drug abuse patient, including photographs, fingerprints, reports of skin abrasions indicating drug use, or other documentation of patient identification.

(c) Each file drawer, cabinet, or other container in which such files are kept should be conspicuously labeled with a cautionary statement such as the following:

CONFIDENTIAL PATIENT INFORMATION
Any unauthorized disclosure is a Federal offense.

§ 401.06 Extent of disclosure.

Any disclosure made under this part, whether with or without the patient's consent, shall be limited to information necessary in the light of the need or purpose for the disclosure.

DISCLOSURES WITHOUT COURT AUTHORIZATION AND WITH CONSENT OF PATIENT

§ 401.21 Form of consent.

(a) Where disclosure is authorized with the consent of the patient, such consent must, except as otherwise provided, be in writing and signed by the patient. Such consent must state—

(1) The name of the person or organization to whom disclosure is to be made,

(2) The specific type of information to be disclosed, and

(3) The purpose or need for such disclosure.

§ 401.22 Disclosure to medical personnel.

With the patient's consent, disclosure to medical personnel is authorized for the purposes of diagnosis or treatment. The consent must be in writing and in the form prescribed in § 401.21. All medical personnel to whom disclosure is made shall be subject to all of the rules on confidentiality as set forth in this part.

§ 401.23 Disclosure to governmental personnel for purpose of obtaining benefits.

(a) With the written consent of a patient, disclosure is authorized to governmental personnel for the purpose of obtaining benefits to which the patient is entitled. For the purposes of this section, benefits to which a patient is entitled include, but are not limited to, any welfare, medicare, or other public financial assistance authorized by Federal, State, or local law, the suspension of prosecution, the granting of probation or parole, public pension or retirement benefits, and any other benefit conferred by lawful authority.

(b) Disclosure may be made to Veterans Administration personnel for the purpose of determining a patient's eligibility for hospitalization, pension, or other veterans' benefits. For the purpose of this section, Veterans Administration personnel includes any personnel (whether or not employed or compensated by the Veterans Administration) authorized by the Veterans Administration to assist patients in the preparation and submission of their claims.

XUM
V37-2372 NOV 17 72 XUM

(c) Where treatment for drug abuse has been made a condition to the granting or continuation of a welfare or other public benefit, disclosure is authorized to governmental personnel responsible for the administration or determination of such benefits.

§ 401.24 Disclosure in connection with parole, probation, or suspension of prosecution.

(a) In the case of a drug abuser charged with a criminal offense or who is subject to parole or other probationary action and who has agreed to participate in a drug abuse prevention treatment program as a condition of release from confinement or as a condition to the dropping, deferral, or suspension of charges or judgment, disclosure of such person's treatment records in connection with such program is authorized if the patient consents in writing to participate in such program and consents to disclosure in accordance with § 401.21.

(b) Disclosure pursuant to this section shall be limited to the patient's attorney and to governmental personnel having responsibility with respect to the prosecution of the patient or for supervising his probation or parole.

§ 401.25 Disclosure to legal counsel.

(a) In any situation in which disclosure is permitted with the patient's consent for one or more of the authorized purposes as stated in this part and the patient has secured the advice of legal counsel, disclosure may be made to the patient's attorney upon the written application of the patient endorsed by the attorney.

(b) In any situation in which a patient seeks the advice of legal counsel on the question of waiving confidentiality, disclosure is authorized to the extent necessary to render such advice, if written application for such disclosure is made by the patient and endorsed by the attorney.

§ 401.26 Evaluations in connection with rehabilitation.

(a) Whenever a patient or former patient has been employed or been accepted for employment conditioned upon his progress or status in a treatment program, an evaluation of such progress or status by a qualified physician or counsellor may be furnished to the employer subject to all of the following conditions and requirements:

(1) The request for such an evaluation must be in writing and signed by the patient.

(2) The request must identify the employer (or official therein) cooperating in the patient's rehabilitation program.

(3) The treatment organization must vertify the authenticity of the request by telephone or other means of communication and ascertain the extent that the information is needed to vertify the patient's treatment status.

(4) The information shall be limited to that reasonably necessary in view of the type of employment involved.

(5) No information may be furnished by a treatment organization unless the organization is satisfied on the basis of past experience or other credible information (which may in appropriate cases consist of a written statement by the employer) that such information will be used for the purpose of assisting in the rehabilitation of the patient and not for the purpose of identifying the individual as a patient in order to deny him employment or advancement because of his history of drug abuse.

(b) Information in the nature of a general evaluation of a patient's present or past status in a treatment program may be furnished to members of the patient's family if, in the judgment of a qualified physician or counsellor, such information would be helpful in treatment or rehabilitation of the patient and the patient makes a written request for such information to be furnished.

DISCLOSURES WITHOUT COURT AUTHORIZATION AND WITHOUT CONSENT OF PATIENT

§ 401.41 Disclosure without consent in general.

(a) Disclosure of a patient's records may be made without the consent of the patient and without authority of a court order as follows:

(1) To medical personnel to meet a medical emergency; and

(2) To qualified personnel for purposes of research, audits, or program evaluation.

§ 401.42 Medical emergency.

Disclosure to medical personnel, either private or governmental, is authorized without the consent of a patient only when necessary to meet a bona fide medical emergency and only to the extent necessary to meet such emergency. For the purposes of this section a bona fide emergency may be considered to exist whenever competent medical authority has determined that the life or health of the patient involved may be impaired and medical treatment without the record could be detrimental to the patient's health. Where, for example, a person is incarcerated and claims to be a patient in a methadone treatment program, this claim may be verified by inquiry to the treatment center administering the program or to a registry such as is referred to in § 401.43 in order to avoid overdose on the one hand, or the danger of untreated withdrawal on the other.

§ 401.43 Records maintained in connection with chemotherapeutic treatment.

The communication of information relating to patient identity and dosage between or among programs approved by the Commissioner of Food and Drugs pursuant to § 130.44 of this title, or between such programs and a registry serving them, shall not be considered as a disclosure in violation of section 408(a) of the Act (21 U.S.C. 1175(a)), but any such information received by any such registry shall be fully subject to section 408 of the Act and to the provisions of this part.

§ 401.44 Research, audits, and program evaluation.

(a) Disclosure without consent is authorized to qualified personnel for the purpose of conducting scientific research, management, or financial audits, or program evaluation, but such personnel may not identify, directly or indirectly, any individual patient in any report of such research, audit, or evaluation, or otherwise disclose patient identities in any manner. Information so obtained may be used in enforcing lawful requirements imposed with respect to the operation of treatment programs employing controlled substances, but section 408(c) of the Act (21 U.S.C. 1175(c)) specifically prohibits the use of patient records to initiate or substantiate any criminal charges against a patient or to conduct any investigation of a patient, except as authorized under a court order granted under section 408(b)(2)(C) (21 U.S.C. 1175(b)(2)(C)).

CRIMINAL PENALTIES

§ 401.51 Penalty for unauthorized disclosure.

Subsection (e) of section 408 of the Act (21 U.S.C. 1175) provides that except as authorized under subsection (b) of that section, any person who discloses the contents of any record referred to in subsection (a) of that section shall be fined not more than $500 in the case of a first offense, and not more than $5,000 in the case of each subsequent offense.

INTERPRETATION OF SECTION 408(b)(2)(C) IN RELATION TO OTHER LAWS

§ 401.61 Relationship of section 408(b)(2)(C) to other provisions of section 408 and to other legislation generally.

Section 408(b)(2)(C) of the Act (21 U.S.C. 1175(b)(2)(C)) empowers the courts, in appropriate circumstances, to authorize disclosures which would otherwise be prohibited by section 408(a). Both the positioning of this authority in the bill as initially passed by the Senate and the explicit crossreference in section 408(a) of the final Act make clear the congressional intent that section 408(b)(2)(C) operate as a mechanism for the relief of the 408(a) strictures and not as an affirmative grant of jurisdiction to authorize disclosures prohibited by other provisions of law, whether Federal or State. By the same token, it should be noted that the authority which section 408(b)(2)(C) of the Act (21 U.S.C. 1175(b)(2)(C)) confers on courts to issue orders authorizing the disclosure of records applies only to records referred to in section 408(a) (21 U.S.C. 1175(a))—that is, the records maintained by operating treatment or research programs, and not to secondary records generated by the disclosure of the 408(a) records to researchers, auditors, or evaluators pursuant to section 408(b)(2)(B).

§ 401.62 Scope of orders; relationship to confidentiality provisions of Public Law 91-513.

(a) It is abundantly clear that section 408(b)(2)(C) was not intended to confer

jurisdiction on any court to compel disclosure of any information, but solely to authorize such disclosure. An order or provision of an order based on some other authority, or a subpena, or other appropriate legal process, is required to compel disclosure. To illustrate, if a person who maintains records subject to section 408(a) of the Act is merely requested, or is even served with a subpena, to disclose information contained therein which is a type whose disclosure is not authorized under section 408 of the Act or any of the foregoing provisions of this part, he must refuse such a request unless, and until, an order is issued under section 408(b)(2)(C). Such an order could authorize, but could not, of its own force, require disclosure. If there were no subpena or other compulsory process, the custodian of the records would have the discretion as to whether to disclose the information sought unless and until disclosure were ordered by means of appropriate legal process, the authority for which would have to be found in some source other than section 408 of the Act. This result is compelled by the language of section 408(b)(2) itself. The words used, "the content of such record may be disclosed * * * if authorized by an appropriate order" are too explicit and too well established as words of art to be interpreted as meaning "the content of such record shall be disclosed if required by an appropriate order."

(b)(1) This interpretation of the permissible scope of a 408(b)(2)(C) order is not only appropriate in the light of the purposes, language, and legislative history of the Act in which it appears, but also is necessary in order to harmonize that section with other legislation dealing with a narrower aspect of the same subject matter. By sections 3(a) and 502(c) of the Comprehensive Drug Abuse Control and Treatment Act of 1970 (42 U.S.C. 242a(a); 21 U.S.C. 872(c)), Congress conferred on the Secretary of Health, Education, and Welfare and on the Attorney General, respectively, power to authorize persons engaged in durg research to withhold names and other identifying characteristics of persons who are the subject of such research, and expressly provided that when such authority has been obtained, its holder may not be compelled to disclose identifying information "in any Federal, State, or local civil, criminal, administrative, legislative, or other proceedings * * *"

(2) If section 408 of the 1972 Act were to be interpreted as an independent grant of authority to compel testimony, it would obviously be in direct conflict with the provisions of the 1970 Act discussed above. This becomes significant, for example, in the case of methadone, which for the purpose of treating opiate addiction on a longer-range basis is classified as an experimental drug which may not be administered except in connection with research. Nothing in either the language or the legislative history of the Act indicates any intent on the part of Congress to amend the provisions of the 1970 Act or to reduce the protection which can be afforded under them. Since the language of section 408 permits, if it does not require, a construction which harmonizes with the 1970 Act, it clearly should not be construed to authorize a court order in derogation of any exercise of the authority of the Secretary of Health, Education, and Welfare under section 242a(a) of title 42, United States Code, or the Attorney General under section 872(c) of title 21, United States Code.

INTERPRETATIVE GUIDELINES FOR APPLICATIONS AND ORDERS UNDER SECTION 408(b)(2)(C)

§ 401.71 Applications for orders should be restricted to records of specified patients.

Section 408(b)(2)(C) empowers courts of competent jurisdiction to authorize disclosure only on a showing of good cause. That section expressly provides that in assessing whether good cause exists, the court must weight the public interest and the need for disclosure against the injury (a) to the patient, (b) to the physician-patient relationship, and (c) to the treatment services. Because these factors can only be weighted with respect to the particular patient involved, any application for such an order should relate only to the records (or a part thereof) of a specific patient and should include an identification of the patient and an indication whether the application is being made with or without his consent. This conclusion is buttressed by the form of section 408, which appears to have been deliberately cast in terms of the individual patient, e.g. section 408(b)(1), "If the patient * * * gives his written consent * * *." and 408(b)(2), "If the patient * * * does not give his written consent * * *", suggesting an intention that the disclosure order be limited to the records of a particular patient who either did or did not consent to the disclosure.

§ 401.72 Information which should be furnished in support of application.

In those cases in which an application is not made by or with the consent of the patient, or is not joined in or consented to by the person or organization responsible for the records to which it relates, the Act implicitly requires that such application be supported by adequate information to enable the court to make the following findings:

(a) The nature of the public interest that would be served by granting the application;

(b) Any actual or potential injury, either economic or social, that could result to the patient or to the relationship of the patient to his physician;

(c) The effect that an order of disclosure would have on the administration of the drug-abuse prevention program; and

(d) A clear showing that the interests of the public are substantial in relation to possible injury to the patient or to the patient-physician relationship.

§ 401.73 Suggested safeguards against unnecessary disclosures.

Section 408(b)(2)(C) implicitly negatives any court order requiring unlimited disclosure when limited disclosure would serve the purpose. It states that "in determining the extent to which any disclosure of all or any part of any record is necessary," the court is required to impose appropriate safeguards against unauthorized disclosure. To facilitate compliance with this requirement, it would be within the intent and spirit of this provision of section 408 that any such court order:

(a) Limit disclosure to those parts of the patient's record deemed essential to fulfill the objective for which the order was granted;

(b) Limit disclosure to those persons whose need for the information is the basis for the order;

(c) Require, where appropriate, that all information disclosed be held in camera; and

(d) Include any other appropriate measures to keep disclosure to a minimum, consistent with the protection of the patient ,the physician-patient relationship and the administration of the drug-abuse prevention program.

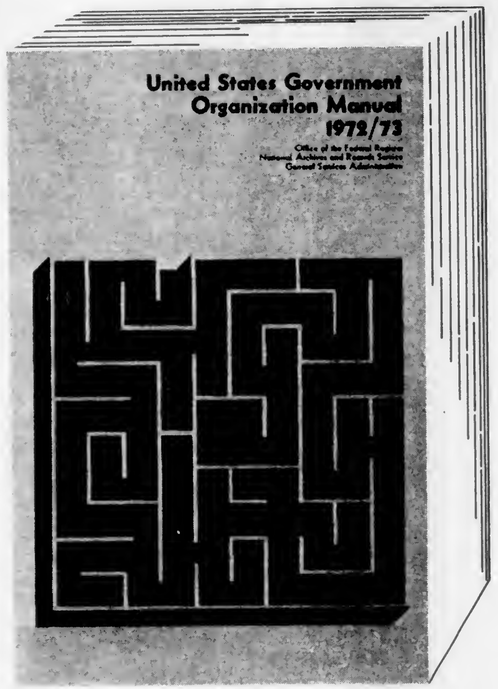
FEDERAL REGISTER, VOL. 37, NO. 223—FRIDAY, NOVEMBER 17, 1972

An Invaluable Reference Tool



1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

CODE OF FEDERAL REGULATIONS

(Revised as of October 1, 1972)

Title 49—Transportation (Part 1300–End)---------- $2.00

[A Cumulative checklist of CFR issuances for 1972 appears in the first issue of the Federal Register each month under Title 1]

Order from Superintendent of Documents, United States Government Printing Office, Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

Title 3—The President

PROCLAMATION 4170

Thanksgiving Day, 1972

By the President of the United States of America

A Proclamation

When the first settlers gathered to offer their thanks to the God who had protected them on the edge of a wilderness, they established anew on American shores a thanksgiving tradition as old as Western man himself.

From Moses at the Red Sea to Jesus preparing to feed the multitudes, the Scriptures summon us to words and deeds of gratitude, even before divine blessings are fully perceived. From Washington kneeling at Valley Forge to the prayer of an astronaut circling the moon, our own history repeats that summons and proves its practicality.

Today, in an age of too much fashionable despair, the world more than ever needs to hear America's perennial harvest message: "Take heart! Give thanks! To see clearly about us is to rejoice; and to rejoice is to worship the Father; and to worship Him is to receive more blessings still."

At this Thanksgiving time our country can look back with special gratitude across the events of a year which has brought more progress toward lasting peace than any other year for a generation past; and we can look forward with trust in Divine Providence toward the opportunities which peace will bring.

Truly our cup runs over with the bounty of God—our lives, our liberties, and our loved ones; our worldly goods and our spiritual heritage; the beauty of our land, the breadth of our horizons, and the promise of peace that crowns it all. For all of this, let us now humbly give thanks.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, in consonance with Section 6103 of Title 5 of the United States Code designating the fourth Thursday of November in each year as Thanksgiving Day, do hereby proclaim Thursday, November 23, 1972, as a day of national thanksgiving. I call upon all Americans to assemble in homes and places of worship on this day, to join in offering gratitude for the countless blessings our people enjoy, and to embrace the elderly and less fortunate as special celebrants in the day's events, loving them as we have been loved.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of November, in the year of our Lord nineteen hundred seventy-two, and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

[FR Doc.72-20101 Filed 11-17-72;12:27 pm]

V37-24 NOV 18 72 XUM

PROCLAMATION 4171

National Farm-City Week, 1972

By the President of the United States of America

A Proclamation

The breadwinners of our national family—those whose hard work helps to provide the rest of us with food to eat and clothes to wear—are America's nearly 3 million farmers.

American agriculture leads our own economy and the world in productivity. The bounty of our farms is an indispensable element in the steadily rising standard of living for our cities—indeed for every American community large or small. This is the strong bond of interdependence and mutual benefit which links farm people to city people throughout this country, and to peoples in other countries all over the globe, wherever the agricultural exports of our heartland alleviate hunger and so promote the cause of peace.

National Farm-City Week is an occasion for wider recognition of this interdependence and for new efforts to increase cooperation between farm and city people. It is a time for renewal of our commitment to balanced national growth and to assuring the farmer of a fair share in the national prosperity to which he contributes so much.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, do hereby designate the week of November 17 through November 23, 1972, as National Farm-City Week. I encourage all citizens, especially leaders of agricultural organizations, business groups, labor unions, youth and women's clubs, schools, and other interested groups, to participate in this observance. I urge the Department of Agriculture, land-grant educational institutions, and all appropriate organizations and Government officials to mark the significance of National Farm-City Week with special events and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this seventeenth day of November, in the year of our Lord nineteen hundred seventy-two, and of the Indepedence of the United States of America the one hundred ninety-seventh.

Richard Nixon

MEMORANDUM OF NOVEMBER 1, 1972

[Presidential Determination No. 73-5]

Presidential Determination—The Republic of Korea, Turkey, and Jordan

Memorandum for the Secretary of State

THE WHITE HOUSE,
Washington, November 1, 1972.

In accordance with the recommendation in your memorandum of August 7, 1972, I hereby:

(a) Determine, pursuant to Section 504(a) of the Foreign Assistance Act of 1961, as amended, that the furnishing of sophisticated weapons systems in FY 1973 to the Republic of Korea, Turkey, and Jordan is important to the national security of the United States.

(b) Determine, pursuant to Section 4 of the Foreign Military Sales Act, as amended, that the financing of the sale of sophisticated weapons systems to Jordan is important to the security of the United States.

You are requested on my behalf to report this determination to the Senate and the House of Representatives as required by law.

This determination shall be published in the FEDERAL REGISTER.

Richard Nixon

Rules and Regulations

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 560]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

§ 910.860 Lemon Regulation 560.

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule-making procedure, and postpone the effective date of this section until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this section is based became available and the time when this section must become effective in order to effectuate the declared policy of the act is insufficient, and a reasonable time is permitted, under the circumstances, for preparation for such effective time; and good cause exists for making the provisions hereof effective as hereinafter set forth. The committee held an open meeting during the current week, after giving due notice thereof, to consider supply and market conditions for lemons and the need for regulation; interested persons were afforded an opportunity to submit information and views at this meeting; the recommendation and supporting information for regulation during the period specified herein were promptly submitted to the Department after such meeting was held; the provisions of this section, including its effective time, are identical with the aforesaid recommendation of the committee, and information concerning such provisions and effective time has been disseminated among handlers of such lemons; it is necessary, in order to effectuate the declared policy of the act, to make this section effective during the period herein specified; and compliance with this section will not require any special preparation on the part of persons subject hereto which cannot be completed on or before the effective date hereof. Such committee meeting was held on November 14, 1972.

(b) *Order.* (1) The quantity of lemons grown in California and Arizona which may be handled during the period November 19 through November 25, 1972, is hereby fixed at 175,000 cartons.

(2) As used in this section, "handled", and "carton(s)" have the same meaning as when used in the said amended marketing agreement and order.

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 15, 1972.

ARTHUR E. BROWNE,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-19980 Filed 11-17-72;8:53 am]

Chapter XIV—Commodity Credit Corporation

SUBCHAPTER C—EXPORT PROGRAMS

PART 1488—FINANCING OF SALES OF AGRICULTURAL COMMODITIES

Subpart A—Financing of Export Sales of Agricultural Commodities From Private Stocks Under CCC Export Credit Sales Program (GSM–4, Revision II)

CCC DRAFTS

On page 20038 of the FEDERAL REGISTER of September 23, 1972, there was published a notice of proposed rule making to amend § 1488.5 of GSM–4, Revision II, Regulations Covering Export Financing of Sales of Agricultural Commodities under the CCC Export Credit Sales Program.

The effect of this amendment is to change procedures under letters of credit by providing for the use of one draft in effecting repayments under the CCC Export Credit Sales Program.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections related to the proposed amendment. No comments have been received. Therefore, the proposed amendment, with clarifying language, is adopted without substantive change as set forth below.

Effective date. Shall be effective upon publication in the FEDERAL REGISTER (11–18–72).

Dated: November 10, 1972.

LAUREL C. MEADE,
Vice President, Commodity Credit Corporation, General Sales Manager, Export Marketing Service.

Amendment of § 1488.5 provides for the use of one draft in effecting repayments under the CCC export credit sales program. As amended, § 1488.5 will read as follows:

§ 1488.5 CCC drafts.

Under bank obligations, CCC will draw one draft for the amount due. If any portion of a CCC draft is dishonored, the U.S. bank or branch bank shall return the dishonored draft together with its statement of the reason for nonpayment. If a draft which is drawn under a partially confirmed bank obligation is dishonored, at the request of the confirming bank CCC will replace the draft with separate drafts for the confirmed and unconfirmed portions. Such replacement shall not alter the confirming bank's obligation for timely payment to CCC of the confirmed portion of the credit. For confirmed amounts, except as provided in § 1488.4 (c) and (d), a U.S. or branch bank may request refund from CCC of the amount paid if it certifies to CCC that it is unable to recover funds from the foreign bank due to a stipulated political risk which existed on the date payment was made to CCC under the draft. On approval by CCC of such request, the refund shall be promptly made together with interest at the Federal Reserve Bank of New York discount rate from the date payment was originally made to CCC to but not including the date of refund by CCC. For unconfirmed amounts, remittance to CCC shall be considered final, and the U.S. bank or branch bank shall not thereafter have recourse to CCC.

[FR Doc.72-19903 Filed 11-17-72;8:49 am]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-2298]

PART 13—PROHIBITED TRADE PRACTICES

American Home Products Corp. and Cunningham and Walsh, Inc.

misleadingly; § 13.20 *Comparative data or merits:* 13.20–20 Competitors' products; § 13.175 *Quality of product or service;* § 13.265 *Tests and investigations.* Subpart—Misrepresenting oneself and goods—Goods: § 13.1575 *Comparative data or merits;* § 13.1710 *Qualities or properties;* § 13.1762 *Tests, purported.* Subpart—Using deceptive techniques in advertising: § 13.2275 *Using deceptive techniques in advertising;* 13.2275–70 Television depictions.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C 45) [Cease and desist order, American Home Products Corp, et al., New York, N.Y., Docket No. C–2298, October 6, 1972]

In the Matter of American Home Products Corp., a Corporation, and Cunningham & Walsh, Inc., a Corporation

Consent order requiring a New York City seller and distributor of household products and its New York City advertising agency, among other things to cease advertising any consumer commodity by the use of or referral to a demonstration, test, or experiment that appears or purports to prove superiority of such products over competitive products when such demonstration, test, or experiment does not constitute proof thereof.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered,* That respondent American Home Products Corp., a corporation, its successors and assigns and respondent's officers, agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale, or distribution of: (i) Any ironing aid or fabric conditioner including Easy-On Speed Starch or any other household consumer commodity consumed or expended in the laundering, ironing, or treatment of garments or other fabrics usually found in the house; (ii) any insecticide including Black Flag Ant & Roach Killer used in whole or in part within the house or any other household consumer commodity consumed or expended to control insects, pests or weeds or to fertilize earth in and around the house; (iii) any household consumer commodity consumed or expended to freshen or deodorize the air within the house or to light fires in and around the house; (iv) any product used to cool foods or beverages; (v) any household window cleaner including Easy-Off Liquid Window Cleaner or any household floor polish, including Aerowax Floor Wax; or (vi) any other household consumer commodity consumed or expended in cleaning, maintaining, repairing, or polishing the house and its usual furnishings, fixtures, or objects; or (vii) any aerosol shaving cream products; or (viii) any shoe care product; in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Advertising any such consumer commodity by presenting or referring to a demonstration, test, or experiment that appears or purports to be proof of any fact or product feature that is material to inducing the sale of the commodity, such as but not limited to comparative superiority of one commodity over another, when, in fact, such demonstration, test, or experiment does not constitute actual proof thereof.

II. *It is further ordered,* That respondent Cunningham & Walsh, Inc., a corporation, its successors and assigns and respondent's officers, agents, representatives, and employees, directly or through any corporation, subsidiary, division, or other device, in connection with the advertising, offering for sale, sale, or distribution of: (i) Any ironing aid or fabric conditioner including Easy-On Speed Starch or any American Home Products Corp. household consumer commodity consumed or expended in the laundering, ironing, or treatment of garments or other fabrics usually found in the house; (ii) any insecticide including Black Flag Ant & Roach Killer used in whole or in part within the house or any American Home Products Corp. household consumer commodity consumed or expended to control insects, pests, or weeds or to fertilize earth in and around the house; (iii) any American Home Products Corp. household consumer commodity consumed or expended to freshen or deodorize the air within the house or to light fires in and around the house; (iv) any American Home Products Corp. product used to cool foods or beverages; (v) any household window cleaner including Easy-Off Liquid Window Cleaner; or (vi) any American Home Products Corp. household consumer commodity consumed or expended in cleaning, maintaining, repairing, or polishing the house and its usual furnishings, fixtures, or objects; or (vii) any American Home Products Corp. aerosol shaving cream product; or (viii) any American Home Products Corp. shoe care product; in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Advertising any such consumer commodity by presenting or referring to a demonstration, test, or experiment that appears or purports to be proof of any fact or product feature that is material to inducing the sale of the commodity, such as but not limited to comparative superiority of one commodity over another, when, in fact, such demonstration, test, or experiment does not constitute actual proof thereof, and respondent knew or should have known that such was the case.

It is further ordered, That respondent corporations shall forthwith distribute a copy of this order to each of their operating divisions.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That respondents herein shall, within sixty (60) days after the order becomes final, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

Issued: October 6, 1972.

PART 13—PROHIBITED TRADE PRACTICES

Regal Ware, Inc., and James D. Reigle

Subpart—Advertising falsely or misleadingly: § 13.70 *Fictitious or misleading guarantees;* § 13.135 *Nature of product or service;* § 13.170 *Qualities or properties of product or service.* Subpart—Furnishing means and instrumentalities of misrepresentation or deception: § 13.1055 *Furnishing means and instrumentalities of misrepresentation or deception.* Subpart—Misrepresenting oneself and goods—Business Status, Advantages or connections: § 13.1520 *Personnel or staff*—Goods: § 13.1647 *Guarantees;* § 13.1685 *Nature;* § 13.1710 *Qualities or properties.* Subpart—Neglecting, unfairly, or deceptively, to make material disclosure: § 13.1905 *Terms and conditions.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, Regal Ware, Inc., et al., Kewaskum, Wis., Docket No. C–2299, October 6, 1972]

In the Matter of Regal Ware, Inc., a Corporation, and James D. Reigle, Individually and as an Officer of Said Corporation

Consent order requiring a Kewaskum, Wis., distributor and seller of cooking utensils, among other things to cease misrepresenting the nature and properties of its products; representing respondents' sales personnel as members of its advertising department; and representing its guarantees as unconditional without revealing, in advertising, any conditions to which they are subject.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Regal Ware, Inc., a corporation, its successors and assigns and officers, and James D. Reigle, individually and as an officer of said corporation, and respondents' officers, agents, representatives, and employees directly or through any corporation, subsidiary, division, or other device, in connection with the offering for

sale, sale, distribution, or advertising of stainless steel or aluminum cookware, coated or uncoated, presently in respondents' line of products, or any other cookware products of substantially similar properties which they may offer for sale in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, orally or in writing, that:

(a) When their cooking utensils are covered with the lids supplied therefor, a vapor "seal" or "lock" is formed or that no vapor loss occurs during the cooking of food in said utensils, except that such representations may be used when expressly limited to that portion of the cooking time after the heat is turned down in the method of cooking recommended by respondents.

(b) The use of said cookware products will enable users to realize substantial savings in time spent in the kitchen in connection with the cooking of food.

(c) The sales agents and representatives of respondents' dealers, distributors, and franchisees are members of respondents' advertising department; that such persons are conducting an advertising campaign, or that such persons are other than salesmen whose purpose is to sell said cookware products.

2. Representing, directly or by implication, orally or in writing, that any product or service is guaranteed unless:

(a) The nature and extent of the guarantee, the identity of the guarantor, and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed, and

(b) The guarantor does in fact perform all of the actual and represented obligations under the terms of the guarantee.

3. Failing to disclose, clearly and conspicuously, in offers of free gifts or other promotional offers seeking leads to prospective purchasers of cookware products which are sold through sales representatives, that prospective purchasers may be visited by sales representatives.

4. Supplying to or placing in the hands of any distributor, dealer, franchisee, or salesman brochures, sales manuals, charts, pamphlets, or any other advertising material which are displayed or may be displayed to the purchasing public which contain any of the representations prohibited in paragraphs 1, 2, and 3 hereof.

5. Failing to deliver a copy of this order to cease and desist to all of respondents' present and future salesmen, distributors, dealers, and franchisees engaged in the sale of respondents' cookware products, and failing to secure from such persons a signed statement acknowledging receipt of said order.

It is further ordered, That the aforesaid respondents shall direct all of respondents' salesmen, distributors, dealers, or franchisees possessing repondents' products to remove and destroy all brochures, sales manuals, flip-charts, pamphlets, or any other advertising material which are displayed, or may be displayed, to the purchasing public which contain any of the representations or practices prohibited in paragraphs 1, 2, and 3 hereof; and in the event any such salesman, distributor, dealer, or franchisee refuses to, or does not, cooperate fully with respondents in this regard, respondents shall in that event cease to furnish and supply such salesman, distributor, dealer, or franchisee their products for resale to the public until such time as he does so cooperate.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of a subsidiary or any other change in the corporation which may affect compliance obligations arising out of the order, provided, however, that if respondents do not have thirty (30) days lead time between proposal of such change and its consummation, respondents shall notify the Commission thereof at the earliest feasible time before consummation and any entity which may succeed to any part of the business covered by this order will have been advised of every provision of this order and will have agreed to be bound thereby.

It is further ordered, That respondents herein shall within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

Issued: October 6, 1972.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601–1605) [Cease and desist order, Tallman Piano Stores, Inc. et al., Salem, Oreg., Docket No. C–2297, Oct. 5, 1972]

In the Matter of Tallman Piano Stores, Inc., Tallman Pianos-Organs, Inc., and Piano Organ Acceptance Corporation, Corporations, and Richard L. Taw, Individually and as an Officer of Said Corporation

Consent order requiring Salem, Oreg., and Burien, Wash., sellers and distributors of new and used pianos and organs, among other things to cease representing used merchandise as new; misrepresenting prices as regular or customary; representing any price as special or reduced unless such reduction in price is substantial; and failing to disclose to customers such information as required by Regulation Z of the Truth in Lending Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered,* That respondents Tallman Piano Stores, Inc., Tallman Pianos-Organs, Inc., and Piano Organ Acceptance Corp., corporations, their successors and assigns, and their officers, and Richard L. Taw, individually and as an officer, and respondents' agents, representatives and employees directly or through any corporation, subsidiary, division or other device, in connection with the advertising, offering for sale, sale or distribution of pianos, organs or any other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Representing, directly or by implication, orally, in writing, or visually, that a used piano or organ is new; failing to disclose that a used piano or organ is not new.

2. Representing, directly or by implication, orally, in writing, or visually, that an amount, including but not limited to the manufacturer's suggested list price, is respondents' regular and customary retail price for a piano or organ, unless such amount is the price at which such item has been sold in substantial quantities by respondents in the recent regular course of their business; or

3. Misrepresenting, directly or by implication, orally, in writing, or visually, that any price for a piano or organ, however described, is the customary retail price for that piano or organ in a particular trade area.

4. Representing, directly or by implication, orally, in writing, or visually, that one of respondents' stores has a particular number of pianos and organs available for sale unless the represented number is in that store's physical inventory at the time the representation is made.

5. Representing, directly or by implication, orally, in writing, or visually, that

V37-224-NOV 18 72 XUM

respondents' products are guaranteed unless the nature and extent of the guarantee, the identity of the guarantor, and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed in immediate conjunction therewith.

6. Representing, directly or by implication, orally, in writing, or visually, that any price for respondents' products is a special and reduced price, unless such price constitutes a significant reduction from an established selling price at which such products have been sold in substantial quantities by respondents in the recent regular course of their business; or misrepresenting, in any manner, the savings available to purchasers.

7. Failing to maintain adequate records: (a) Which disclose facts upon which any savings claims, including former pricing claims and comparative value claims, and similar representations of the type described in paragraph 6 of this order are based, and (b) from which the validity of any savings claims, including former pricing claims and comparative value claims, and similar representations of the type described in paragraph 6 of this order can be determined.

II. *It is ordered*, That respondents Tallman Piano Stores, Inc., Tallman Pianos-Organs, Inc., and Piano Organ Acceptance Corp., corporations, their successors and assigns, and their officers, and Richard L. Taw, individually and as an officer, and respondents' agents, representatives and employees directly or through any corporation, subsidiary, division or other device, in connection with any consumer credit sale, as "consumer credit" and "credit sale" are defined in Regulation Z (12 CFR 226) of the Truth in Lending Act (Public Law 90-321.L. 90-321, 15 U.S.C. 1601 *et seq.*), do forthwith cease and desist from:

1. Failing to disclose the price at which respondents, in the regular course of business, offer to sell for cash the property or services which are the subject of the credit sale, and to describe that price as the "cash price", as required by § 226.8(c)(1) of Regulation Z.

2. Failing to disclose the amount of any downpayment in money, and to describe that amount as the "cash downpayment" as required by §226.8(c)(2) of Regulation Z.

3. Failing to disclose the amount of any downpayment in property, and to describe that amount as the "trade-in", as required by § 226.8(c)(2) of Regulation Z.

4. Failing to disclose the sum of the "cash downpayment" and the "trade-in", and to describe that sum as the "total downpayment", as required by § 226.8(c)(2) of Regulation Z.

5. Failing to disclose the difference between the "cash price" and the "total downpayment", and to describe that difference as the "unpaid balance of cash price", as required by § 226.8(c)(3) of Regulation Z.

6. Failing to disclose all charges which are not part of the "finance charge" but are included in the amount financed, and to itemize each such charge individually, as required by § 226.8(c)(4) of Regulation Z.

7. Failing to disclose the sum of the "unpaid balance of cash price" and all other amounts itemized individually, which are part of the amount financed but which are not included in the finance charge, and to describe that amount as the "unpaid balance", as required by § 226.8(c)(5) of Regulation Z.

8. Failing to disclose the amount of credit extended, and to describe that amount as the "amount financed", as required by § 226.8(c)(7) of Regulation Z.

9. Failing to disclose the sum of all charges made to the customer which are required by § 226.4 of Regulation Z to be included in the finance charge, and to describe that sum as the "finance charge", as required by § 226.8(c)(8)(i) of Regulation Z.

10. Failing to disclose accurately the sum of the cash price, all charges which are included in the amount financed but which are not part of the finance charge, and the finance charge, and to describe that sum as the "deferred payment price", as required by § 226.8(c)(8)(ii) of Regulation Z.

11. Failing to disclose the date the finance charge begins to accrue in any transaction in which that date is different from the date of the transaction, as required by § 226.8(b)(1) of Regulation Z.

12. Failing to disclose the annual percentage rate accurately to the nearest quarter of 1 percent, in accordance with § 226.8(b)(2) of Regulation Z.

13. Failing to disclose the number, amount, and due dates or periods of payments scheduled to repay the indebtedness, and to describe any payment which is more than twice the amount of an otherwise regularly scheduled equal payment as a "balloon payment", as required by § 226.8(b)(3) of Regulation Z.

14. Failing to disclose the sum of the payments scheduled to repay the indebtedness, and to describe the sum as the "total of payments" as required by § 226.8(b)(3) of Regulation Z.

15. Failing to describe the type of any security interest in property held, or to be retained or acquired in connection with any extension of credit, or to describe or identify the property to which that security interest relates, as required by § 226.8(b)(5) of Regulation Z.

16. Failing to identify the method of computing any unearned portion of the finance charge in the event of prepayment of the obligation, or failing to state the amount or method of computation of any charge that may be deducted from the amount of any rebate of such finance charge that will be credited to the obligation or refunded to the customer, whether by failing to state that such charge will be deducted before or after computation of the unearned portion or otherwise, as required by § 226.8(b)(7) of Regulation Z.

17. Stating, in any advertisement, the rate of any finance charge unless respondents state the rate of that charge expressed as an "annual percentage rate", as required by § 226.10(d)(1) of Regulation Z.

18. Stating, in any advertisement, the amount of downpayment required or that no downpayment is required, the amount of any installment payment, the number of installments or the period of repayment, or that there is no charge for credit, in connection with a consumer credit transaction, without also stating all of the following items, in the terminology prescribed under § 226.08 of Regulation Z, as required by § 226.10(d)(2) thereof:

(i) The cash price;

(ii) The amount of the downpayment required or that no downpayment is required, as applicable;

(iii) The number, amount, and due dates or period of payments scheduled to repay the indebtedness if the credit is extended;

(iv) The amount of the finance charge expressed as an annual percentage rate; and

(v) The deferred payment price.

19. Failing, in any consumer credit transaction or advertisement, to make all disclosures, determined in accordance with §§ 226.4 and 226.5 of Regulation Z, in the manner, form and amount required by §§ 226.6, 226.7, 226.8, 226.9, and 226.10 of Regulation Z.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That respondents deliver a copy of this order to cease and desist to all present and future personnel of respondents engaged in the consummation of any extension of consumer credit or in any aspect of preparation, creation, or placing of advertising, and that respondents secure a signed statement acknowledging receipt of said order from each such person.

It is further ordered, That respondents notify the Commission at least thirty (30) days prior to any proposed change in corporate respondents, such as dissolution, assignment, or sale resulting in the emergence of a successor corporation or partnership, the creation or dissolution of subsidiaries, or other organizational change which may affect compliance obligations arising out of this order.

It is further ordered, That the respondents shall, within sixty (60) days after service upon them of this order, file with the Commission a written report setting forth in detail the manner and form of their compliance with this order.

By the Commission.

Issued: October 5, 1972.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY, REGULATION OF INTRASTATE ACTIVITIES

[Docket No. 72-581]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Release of Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, in subparagraph (e)(8) relating to the State of Tennessee, subdivision (ii) relating to Cumberland and Fentress Counties is deleted.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended, 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505.)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment excludes portions of Cumberland and Fentress Counties in Tennessee from the areas quarantined because of hog cholera. Therefore, the restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas contained in 9 CFR Part 76, as amended, do not apply to the excluded areas, but will continue to apply to the quarantined areas described in § 76.2(e). Further, the restrictions pertaining to the interstate movement of swine and swine products from nonquarantined areas contained in said Part 76 apply to the excluded areas.

The amendment relieves restrictions presently imposed but no longer deemed necessary to prevent the spread of hog cholera, and it should be made effective promptly in order to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to this Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable and unnecessary, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of November 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.72-19937 Filed 11-17-72;8:52 am]

[Docket No. 72-582]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, in subparagraph (e)(2) relating to the State of Indiana, a new subdivision (v) relating to Wells County is added to read:

(e) • • •

(2) *Indiana.*

• • • • •

(v) That portion of Wells County bounded by a line beginning at the junction of the Wells-Allen County line and State Highway 303; thence, following the Wells-Allen County line in an easterly direction to the junction of the Wells-Allen-Adams County lines; thence, following the Wells-Adams County line in a southerly direction to County Road 200 N; thence, following County Road 200 N in a westerly direction to State Highway 303; thence, following State Highway 303 in a northerly direction to its junction with the Wells-Allen County line.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264–1265, as amended; sec. 1; 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended, 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment quarantines a portion of Wells County in Indiana because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined area.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of November 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Virgin Islands of the United States. The entire area.

(Secs. 4, 5, 23 Stat. 32, as amended; secs. 1, 2, 32, Stat. 791–792, as amended; sec. 3, 33 Stat. 1265, as amended; sec. 2, 65 Stat. 693; 21 U.S.C. 111–113, 114a–1, 120, 121, 125; 29 F.R. 16210, as amended; 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505, 9 CFR 78.16)

Effective date. The foregoing amendment shall become effective upon publication in the FEDERAL REGISTER (11–18–72).

The amendment deletes Lake and Turner Counties in South Dakota from the list of areas designated as Modified Certified Brucellosis Areas because it has been determined that such areas no longer come within the definition of § 78.1(l).

Beadle and Shannon Counties in South Dakota and Dawson, Knox, and Terry Counties in Texas were deleted from the list of Modified Certified Brucellosis Areas on October 11, 1972. Since said date, it has been determined that these counties again come within the definition of § 78.1(l); and, therefore, they have been redesignated as Modified Certified Brucellosis Areas.

The amendment adds the following additional area to the list of areas designated as Modified Certified Brucellosis Areas because it has been determined that such area comes within the definition of § 78.1(l): Kenedy County in Texas.

The amendment imposes certain restrictions necessary to prevent the spread of brucellosis in cattle and relieves certain restrictions presently imposed. It should be made effective promptly in order to accomplish its purpose in the public interest and to be of maximum benefit to persons subject to the restrictions which are relieved. Accordingly, under the administrative procedures provisions of 5 U.S.C. 553, it is found upon good cause that notice and other public procedures with respect to the amendment are impracticable, unnecessary, and contrary to the public interest, and good cause is found for making the amendment effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of November 1972.

DONALD MILLER,
Acting Deputy Administrator, Veterinary Services, Animal and Plant Health Inspection Service.

[FR Doc.72–19939 Filed 11–17–72;8:52 am]

SUBCHAPTER D—EXPORTATION AND IMPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS

PART 94—RINDERPEST, FOOT-AND-MOUTH DISEASE, FOWL PEST (FOWL PLAGUE), NEWCASTLE DISEASE (AVIAN PNEUMOENCEPHALITIS), AFRICAN SWINE FEVER, AND HOG CHOLERA: PROHIBITED AND RESTRICTED IMPORTATIONS

Addition to List of Countries Determined To Be Free of Hog Cholera

Pursuant to section 2 of the Act of February 2, 1903, as amended, and sections 2, 3, 4, and 11 of the Act of July 2, 1962 (21 U.S.C. 111, 134a, 134b, 134c, 134f), Part 94, Title 9, Code of Federal Regulations, is hereby amended as follows:

1. Section 94.9(a) is amended by deleting in both instances "England" and substituting "Great Britain (England, Scotland, Wales, and Isle of Man)" therefor, and by adding, "Iceland" after "Great Britain."

2. Section 94.10 is amended by deleting "England" and substituting "Great Britain (England, Scotland, Wales, and Isle of Man)" therefor, and by adding, "Iceland" after "Great Britain."

(Sec. 2, 32 Stat. 792, as amended; secs. 2, 3, 4, and 11, 76 Stat. 129, 130, 132; 21 U.S.C. 111, 134a, 134b, 134c, 134f; 29 F.R. 16210, as amended; 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505)

Effective date. The foregoing amendments shall become effective upon issuance.

The amendments delete "England" and substitute "Great Britain (England, Scotland, Wales, and Isle of Man)" therefor, and add Iceland, in the list of countries determined to be free of hog cholera and from which swine, pork and pork products may be imported into the United States without complying with §§ 94.9 and 94.10 but subject to other applicable restrictions.

The amendments relieve certain restrictions presently imposed but no longer deemed necessary to prevent the introduction and dissemination of the contagion of hog cholera, and must be made effective immediately to be of maximum benefit to affected persons. It does not appear that public participation in this rulemaking proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendments are impracticable and unnecessary, and good cause is found for making them effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 14th day of November 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72–RM–19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone and Transition Area

On October 6, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 21174) stating that the Federal Aviation Administration was considering amendments to Part 71 of the Federal Aviation Regulations that would alter the description of the Watertown, S. Dak., control zone and transition area.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. These amendments shall be effective 0901 G.m.t., February 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Aurora, Colo., on November 9, 1972.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.171 (37 F.R. 2056) the description of the Watertown, S. Dak., control zone is amended to read as follows:

WATERTOWN, S. DAK.

Within a 5-mile radius of Watertown Municipal Airport (latitude 44°54'51" N., longitude 97°09'16" W.); within 1.5 miles each side of the Watertown VORTAC 001° radial, extending from the 5-mile radius zone to 2.5 miles north of the VORTAC; and within 1 mile each side of the Watertown VORTAC 181° radial, extending from the 5-mile radius zone to 10.5 miles south of the VORTAC.

In § 71.181 (37 F.R. 2143) the description of the Watertown, S. Dak., transition area is amended to read as follows:

WATERTOWN, S. DAK.

That airspace extending upward from 700 feet above the surface within a 14.5-mile radius of the Watertown VORTAC extending clockwise from the 238° radial to the 066° radial; within a 26-mile radius of the Watertown VORTAC extending clockwise from the 066° radial to a line located parallel to and 4.5 miles west of the 181° radial; and within 6 miles east and 9.5 miles west of the Watertown VORTAC 001° radial extending from the VORTAC to 21 miles north; and that airspace extending upward from 1,200 feet above the surface within 9.5 miles east and 7 miles west of the 181° radial extending from the VORTAC to 31.5 miles south; and within a 26-mile radius of the Watertown VORTAC extending clockwise from a line 7 miles west of and parallel to the 181° radial to the 238° radial.

[FR Doc.72–19897 Filed 11–17–72;8:49 am]

[Airspace Docket No. 72–RM–24]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On October 3, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 20727) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Missoula, Mont., transition area.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received, and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., February 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act 49 U.S.C. 1655(c))

Issued in Aurora, Colo., on November 10, 1972.

M. M. MARTIN,
Director, Rocky Mountain Region.

In § 71.181 (37 F.R. 2143) the description of the Missoula, Mont., transition area is amended to read as follows:

That airspace extending upward from 700 feet above the surface within 8 miles southwest of the Missoula, Mont. VORTAC 296° radial extending from the VORTAC to 21 miles northwest; and within 8.5 miles southwest and 5.5 miles northeast of the Missoula VORTAC 311° radial extending from the VORTAC to 38 miles northwest; and that airspace extending upward from 1,200 feet above the surface within a 13-mile radius of the Missoula, Mont. VORTAC (latitude 46°54'29" N., longitude 114°04'58" W.); within a 32-mile radius of the Missoula, Mont. VORTAC extending clockwise from the 256° radial to the 357° radial; within 9.5 miles southwest of the Missoula, Mont. VORTAC 298° radial extending from the VORTAC to 38 miles northwest; and within 9 miles southwest and 6 miles northeast of the Missoula, Mont. VORTAC 113° radial extending from the VORTAC to 19 miles southeast.

Chapter II—Civil Aeronautics Board

SUBCHAPTER A—ECONOMIC REGULATIONS

[Reg. ER–779; Amdt. 18]

PART 221—CONSTRUCTION, PUBLICATION, FILING, AND POSTING OF TARIFFS OF AIR CARRIERS AND FOREIGN AIR CARRIERS

Notice of Liability Limitations

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of November 1972.

By circulation of notice of proposed rule making EDR–230,[1] the Board gave notice that it had under consideration modification of the provisions of Part 221 of the Economic Regulations (14 CFR Part 221) which require standard notices of the limitations on liability provided by the Warsaw Convention. Because of the recent devaluation of the dollar in relation to gold, the dollar limitations specified in these notices no longer reflect the minimum liability requirements of the Convention, which are based on a gold standard. Therefore, it was proposed to amend the liability notices prescribed in §§ 221.175 and 221.176 (a) and (b) to require air carriers and foreign air carriers which avail themselves of limitations on liability for death or personal injury, or for loss or damage to baggage, as provided by the Warsaw Convention, to accurately state, in their ticket and sign notices of such limitations, the dollar limitations currently allowable under the Convention.

Interested persons have been afforded an opportunity to participate in this proceeding, but no comments have been filed in response to the rule making notice. Accordingly, we have determined to adopt the rules as proposed, and we incorporate herein the tentative findings made in EDR–230.

Since carriers have only recently been required to order new ticket stock, in implementation of the Board's regulation requiring notice of baggage liability limitations,[2] we will, as contemplated in the rule making notice, allow carriers until March 15, 1973, to revise their ticket notices to reflect the aforedescribed dollar limitations. The revision to the standard sign notice shall be made within 30 days after publication of this rule in the FEDERAL REGISTER.[3]

In consideration of the foregoing, the Civil Aeronautics Board hereby amends Part 221 of the Economic Regulations (14 CFR Part 221) effective December 18, 1972, as follows:

[1] September 12, 1972, 37 F.R. 18926, Docket 24750.
[2] ER–708, Jan. 1, 1972.
[3] These amendments to the regulations in no manner affect the issues before the U.S. Court of Appeals for the District of Columbia Circuit in the pending case, Deutsche Lufthansa Aktiengesellschaft v. Civil Aeronautics Board, C.A.D.C. No. 72–1052, filed Jan. 17, 1972.

terest to prescribe new accounting treatment for these items, consider it compelling as cost allocations

PART 101—UNIFORM SYSTEM OF

V37-2224-NOV18-72 XUM

1. Amend paragraph (a) of § 221.175, the paragraph as amended to read as follows:

§ 221.175 Special notice of limited liability for death or injury under the Warsaw Convention.

(a) In addition to the aforesaid requirements of this subpart, each air carrier and foreign air carrier which, to any extent, avails itself of the limitation on liability to passengers provided by the Warsaw Convention, shall, at the time of delivery of the ticket, furnish to each passenger whose transportation is governed by the Convention and whose place of departure or place of destination is in the United States, the following statement in writing:

ADVICE TO INTERNATIONAL PASSENGERS ON LIMITATION OF LIABILITY

Passengers embarking upon a journey involving an ultimate destination or a stop in a country other than the country of departure are advised that the provisions of a treaty known as the Warsaw Convention may be applicable to their entire journey including the portion entirely within the countries of departure and destination. The Convention governs and in most cases limits the liability of carriers to passengers for death or personal injury to approximately $9,000.

Additional protection can usually be obtained by purchasing insurance from a private company. Such insurance is not affected by any limitation of the carrier's liability under the Warsaw Convention. For further information please consult your airline or insurance company representative.

Provided, however, That when the carrier elects to agree to a higher limit of liability to passengers than that provided in Article 22(1) of the Warsaw Convention, such statement shall be modified to reflect the higher limit. The statement prescribed herein shall be printed in type at least as large as 10-point modern type and in ink contrasting with the stock on: (1) Each ticket; (2) a piece of paper either placed in the ticket envelope with the ticket or attached to the ticket; or (3) the ticket envelope; *And provided further,* That, until March 15, 1973, a carrier may substitute the sum of "$8,290" in place of the sum of "$9,000" in the text of the statement prescribed by this paragraph.

* * * * *

2. Amend paragraphs (a) and (b) of § 221.176, the paragraphs as amended to read as follows:

§ 221.176 Notice of limited liability for baggage; alternative consolidated notice of liability limitations.

(a) Each air carrier and foreign air carrier which, to any extent, avails itself of limitations on liability for loss of, damage to, or delay in delivery of baggage shall cause to be displayed continuously in a conspicuous public place at each desk, station, and position in the United States which is in the charge of a person employed exclusively by it or by it jointly with another person, or by any agent employed by such air carrier or foreign air carrier to sell tickets to passengers or accept baggage for checking, a sign which shall have printed thereon the following statement:

NOTICE OF LIMITED LIABILITY FOR BAGGAGE

Liability for loss, delay, or damage to baggage is limited as follows unless a higher value is declared and an extra charge is paid: (1) For most international travel (including domestic portions of international journeys) to approximately $8.16 per pound for checked baggage and $360 per passenger for unchecked baggage; (2) for travel wholly between U.S. points, to $500 per passenger on most carriers. Special rules may apply to valuables. Consult your carrier for details.

Provided, however, That an air carrier or foreign air carrier which provides a higher limitation of liability for death or personal injury than that set forth in the Warsaw Convention and has signed a counterpart of the agreement approved by the Board by Order E-23680, dated May 13, 1966 (31 F.R. 7302, May 19, 1966), may use the following notice in full compliance with the posting requirements of this paragraph and of § 221.175 (b) of this chapter:

ADVICE TO PASSENGERS ON LIMITATIONS OF LIABILITY

Airline liability for death or personal injury may be limited by the Warsaw Convention and tariff provisions in the case of travel to or from a foreign country.

Liability for loss, delay, or damage to baggage is limited as follows unless a higher value is declared and an extra charge is paid: (1) For most international travel (including domestic portions of international journeys) to approximately $8.16 per pound for checked baggage and $360 per passenger for unchecked baggage; (2) for travel wholly between U.S. points, to $500 per passenger for most carriers. Special rules may apply to valuable articles.

See the notice with your ticket or consult your airline or travel agent for further information.

Provided, further, That carriers may include in the notice the parenthetical phrase "($18.00 per kilo)" after the phrase "$8.16 per pound" in referring to the baggage liability limitation for most international travel. Such statements shall be printed in boldface type at least one-fourth of an inch high and shall be so located as to be clearly visible and clearly readable to the traveling public.

(b) Each air carrier and foreign air carrier which, to any extent, avails itself of limitations of liability for loss of, damage to, or delay in delivery of, baggage shall include on each ticket issued in the United States or in a foreign country by it or its authorized agent, the following notice printed in at least 10-point type:

NOTICE OF BAGGAGE LIABILITY LIMITATIONS

Liability for loss, delay, or damage to baggage is limited as follows unless a higher value is declared in advance and additional charges are paid: (1) For most international travel (including domestic portions of international journeys) to approximately $8.16 per pound for checked baggage and $360 per passenger for unchecked baggage; (2) for travel wholly between U.S. points, to $500 per passenger on most carriers (a few have lower limits). Excess valuation may not be declared on certain types of valuable articles. Carriers assume no liability for fragile or perishable articles. Further information may be obtained from the carrier.

Provided, however, That carriers may include in their ticket notice the parenthetical phrase "($18.00 per kilo)" after the phrase "$8.16 per pound" in referring to the baggage liability limitation for most international travel. *And provided further,* That, until March 15, 1973, a carrier may (i) substitute the sums "$7.50" and "$330," respectively, in place of the sums "$8.16" and "$360," respectively, in the statement prescribed by this paragraph, and (ii) substitute the sums "$16.58" and "$7.50," respectively, in place of the sums "$18.00" and "$8.16," respectively, in the optional language permitted by the first proviso to this paragraph.

* * * * *

(Sections 204(a), 403, and 416 of the Federal Aviation Act of 1958, as amended, 72 Stat. 743, 758, and 771 as amended; 49 U.S.C. 1323, 1373, and 1386)

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK,
Secretary.

[FR Doc.72-19927 Filed 11-17-72;8:50 am]

Title 18—CONSERVATION OF POWER AND WATER RESOURCES

Chapter I—Federal Power Commission

[Docket No. R-445 Order 460]

UNIFORM SYSTEM OF ACCOUNTS; STATEMENT AND REPORTS (SCHEDULES)

Accounting Procedures for Merchandising, Jobbing, and Contract Work

NOVEMBER 13, 1972.

On June 14, 1972, the Commission issued a notice of proposed rule making in this proceeding (37 F.R. 12159, June 20, 1972) proposing to amend its Uniform Systems of Accounts for Classes A, B, C, and D Public Utilities and Licensees, and FPC Form No. 1, Annual Report for Public Utilities and Licensees and Others (Class A and Class B); and FPC Form No. 2, Annual Report for Natural Gas Companies (Class A and Class B) consistent with the amendments to the Uniform System of Accounts.

Comments were invited from interested parties to be submitted by July 31, 1972.

In response to the notice of rule making, the Commission received comments from 11 respondents.[1]

The amendments to the Uniform Systems of Accounts and Annual Report Forms evolve from the Commission's in-

[1] Haskins & Sells, Allegheny Power Service Corp., American Electric Power Service Corp., Arizona Public Service Co., Commonwealth Edison Co., Detroit Edison Co., the Gulf States Utilities Co., Public Service of Indiana, Wisconsin Power & Light Co., Iowa-Illinois Gas & Electric Co., and Robert E. Stromberg.

terest to prescribe new accounting treatment for revenues, costs, and expenses relating to merchandising, jobbing, and contract work.[2] This new treatment would require that the privilege of optional accounting be abolished and that all future related revenues, costs, and expenses be accounted for below-the-line, since the item is considered essentially nonoperating in nature.

Upon consideration of the comments from interested parties, the Commission has decided to implement the proposals basically as put forth in the proposed rulemaking Docket No. R-445, with the exception of the proposed effective date of January 1, 1972. Considering the hardship that would be involved in retroactive accounting it is determined a more realistic effective date would be January 1, 1973. Additionally, any reference to Account 915 now in Accounts 913, Advertising Expenses (Classes A and B), 924, Property Insurance (Classes A, B, and C), and 932, Maintenance of General Plant (935 Class C), although not mentioned in the rule making, will necessarily have to be deleted.

Three respondents commented they could see no need for the proposed change. The fundamental concern of two of these three respondents, neither of whom were a regulated utility or State commission, was that other regulatory bodies that have primary responsibility for establishing rates for many companies reporting both to the Commission and the local regulatory body, may require different treatment for ratemaking and accounting purposes. The Commission was aware of this fact and considered it before proposing rule making. In this connection, it is not the Commission's intent to create additional burdens for other regulatory commissions or the regulated utilities. On the other hand, the Commission believes strongly the item in question has no place in utility operating income from an equitable point of view nor should optional type accounting be allowed in those cases where it can be avoided.

The remaining objecting respondent believed that in light of the additional "bookkeeping" in order to properly allocate costs, plus the fact that revenues and expenses are now readily identifiable and further result in an insignificant effect on net operating income of individual companies and the industry in total, the proposal should be abandoned. After considering the comment we do not consider it compelling as cost allocations are also necessary when following the prescriptions of the Uniform Systems of Accounts, whether accounting for the item above or below-the-line. As to the remainder of the comment, the principle of equity and uniformity involved is overriding.

Two responses received confirmed there is a difference of interpretation as to the proper accounting for installment sales interest income. To resolve this inconsistency, we are amending Account 415, Merchandising, Jobbing, and Contract Work, to prescribe that interest income related to installment sales shall be accounted for in Account 419, Interest and Dividend Income. We are making this amendment, even though it was not included in the proposed rulemaking due to the need for clarity in this area and that it is considered minor in nature.

The Commission finds:

(1) The notice and opportunity to participate in this rule making proceeding with respect to the matters presently before this Commission through the submission, in writing, of data, views, comments, and suggestions in the manner described above, are consistent and in accordance with the procedural requirements prescribed by 5 U.S.C. 553.

(2) The amendments to Parts 101 and 104 of the Commission's Uniform System of Accounts for Public Utilities and Licensees, and Annual Report Form No. 1 prescribed by § 141.1 in Chapter I, Title 18 of the Code of Federal Regulations, herein prescribed, are necessary and appropriate for the administration of the Federal Power Act.

(3) The amendments to Parts 201 and 204 of the Commission's Uniform System of Accounts for Natural Gas Companies, and Annual Report Form No. 2 prescribed by § 260.1 in Chapter I, Title 18 of the Code of Federal Regulations, herein prescribed, are necessary and appropriate for the administration of the Natural Gas Act.

(4) Since the amendments prescribed herein, which were not included in the notice of this proceeding, are of a minor nature and consistent with the prime purpose of the proposed rule making, further compliance with the notice provision of 5 U.S.C. 553 is unnecessary.

(5) Good cause exists for making the amendments to the Uniform Systems of Accounts for Public Utilities and Licensees and Natural Gas Companies ordered herein, effective January 1, 1973, and the amendments to FPC Annual Report Forms No. 1 and No. 2 ordered herein, effective for the reporting year 1973. The Commission, acting pursuant to the provisions of the Federal Power Act, as amended, particularly sections 301, 302, 303, 304, and 309 thereof (49 Stat. 854, 855, 856, 858, 859; 16 U.S.C. 825, 825a, 825b, 825c, 825h) and of the Natural Gas Act, as amended, particularly sections 8, 9, 10, and 16 thereof (52 Stat. 825, 826, 830; 15 U.S.C. 717g, 717h, 717i, 717o), orders:

[2] Presently accounted for in Accounts 415, Revenues from Merchandising, Jobbing, and Contract Work, and 416, Costs and Expenses of Merchandising, Jobbing, and Contract Work, if a State regulatory body having rate jurisdiction requires the net income therefrom to be reported as other income; otherwise in Accounts 914 and 915 if such regulatory body requires the net income to be reported as an operating income or expense item. In the absence of such a requirement, the utility may use either Accounts 415 and 416 or 914 and 916 at their option.

PART 101—UNIFORM SYSTEM OF ACCOUNTS FOR PUBLIC UTILITIES AND LICENSEES (CLASS A AND CLASS B)

A. The Commission's Uniform System of Accounts for Class A and Class B Public Utilities and Licensees prescribed by Part 101, Chapter I, Title 18 of the Code of Federal Regulations is amended as follows:

1. In the text of Income Accounts, amend paragraph A by adding a final sentence and revising Note A to Accounts "415, Revenues from merchandising, jobbing, and contract work," and "416, Costs and expenses of merchandising, jobbing, and contract work." As so revised, the text will read:

Income Accounts

* * * * *

2. OTHER INCOME AND DEDUCTIONS

415 Revenues from merchandising, jobbing, and contract work.

416 Costs and expenses of merchandising, jobbing, and contract work.

A. * * * Interest related income from installment sales shall be recorded in Account 419, Interest and Dividend income.

* * * * *

NOTE A: The classification of revenues, costs, and expenses of merchandising, jobbing, and contract work as nonoperating, and thus inclusion in this account, is for accounting purposes. It does not preclude consideration of justification to the contrary for ratemaking or other purposes.

* * * * *

2. Amend the chart of the Operation and Maintenance Expense Accounts by revoking account titles "914, Revenues from merchandising, jobbing, and contract work," and "915, Costs and expenses of merchandising, jobbing, and contract work." As so amended, the chart of accounts will read:

Operation and Maintenance Expense Accounts

* * * * *

5. SALES EXPENSES

Operation

* * * * *

914 [Revoked]
915 [Revoked]

* * * * *

3. Amend the text of the Operation and Maintenance Expense Accounts by:

a. Deleting "or 915, as appropriate," from the last sentence of "Note A" and from "Note B" to Account "913, Advertising Expenses."

b. Revoking Accounts "914, Revenues from merchandising, jobbing, and contract work," and "915, Costs and expenses of merchandising, jobbing, and contract work."

c. Deleting "or Account 915, as appropriate," from the end of the sentence of "Note B:(5)" to Account "924, Property insurance."

XUM
V37-224 NOV 18 72 XUM

d. Deleting "or 915" from the list of accounts referred to in paragraph "B" of Account "932, Maintenance of general plant."

As so amended, the text will read:

Title 38—PENSIONS, BONUSES, AND VETERANS' RELIEF

Chapter I—Veterans Administration
PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

VENEREAL DISEASE, ALCOHOLISM AND DRUG USAGE

On page 20335 of the FEDERAL REGISTER of September 29, 1972, there was published a notice of proposed regulatory development to amend § 3.301(c), Title 38, Code of Federal Regulations relating to willful misconduct as a factor in alcoholism, venereal disease and drug usage. Interested persons were given 30 days in which to submit comments, suggestions, or objections regarding the proposed regulation.

One written comment was received which objected generally to the proposed regulatory change. The objection was considered but it was determined the beneficial objectives outweighed the stated objections and the proposed regulation is hereby adopted without change as set forth below.

Effective date. In § 3.301(c), subparagraph (2) is effective August 13, 1964, and subparagraphs (1) and (3) are effective November 14, 1972.

Approved: November 14, 1972.

By direction of the Administrator.

RUFUS H. WILSON, *Associate Deputy Administrator.*

Paragraph (c) of § 3.301 is amended as follows:

§ 3.301 Line of duty and misconduct.

* * * * *

(c) *Specific applications.* For the purpose of determining entitlement to service-connected and nonservice-connected benefits the definitions in § 3.1 (m) and (n) apply except as modified within the following subparagraphs. The provisions of subparagraphs (2) and (3) of this paragraph are subject to the provisions of § 3.302 where applicable.

(1) *Venereal disease.* The residuals of venereal disease are not to be considered the result of willful misconduct. Consideration of service connection for residuals of venereal disease as having been incurred in service requires that the initial infection must have occurred during active service. Increase in service of manifestations of venereal disease will usually be held due to natural progress unless the facts of record indicate the increase in manifestations was precipitated by trauma or by the conditions of the veteran's service, in which event service connection may be established by aggravation. Medical principles pertaining to the incubation period and its relation to the course of the disease; i.e., initial or acute manifestation, or period and course of secondary and late residuals manifested, will be considered when time of incurrence of venereal disease prior to or after entry into service is at issue. In the issue of service connection, whether the veteran complied with service regulations and directives for reporting the disease and undergoing treatment is immaterial after November 14, 1972, and the service department characterization of acquisition of the disease as "willful misconduct" or as "not in line of duty" will not govern.

(2) *Alcoholism.* The simple drinking of alcoholic beverage is not of itself willful misconduct. The deliberate drinking of a known poisonous substance or under conditions which would raise a presumption to that effect will be considered willful misconduct. If, in the drinking of a beverage to enjoy its intoxicating effects, intoxication results proximately and immediately in disability or death, the disability or death will be considered the result of the person's willful misconduct. Organic diseases and disabilities which are a secondary result of the chronic use of alcohol as a beverage, whether out of compulsion or otherwise, will not be considered of willful misconduct origin.

(3) *Drug usage.* The isolated and infrequent use of drugs by itself will not be considered willful misconduct; however, the progressive and frequent use of drugs to the point of addiction will be considered willful misconduct. Where drugs are used to enjoy or experience their effects and the effects result proximately and immediately in disability or death, such disability or death will be considered the result of the person's willful misconduct. Organic diseases and disabilities which are a secondary result of the chronic use of drugs and infections coinciding with the injection of drugs will not be considered of willful misconduct origin. Similarly, where drugs are used for therapeutic purposes or where use of drugs or addiction thereto, results from a service-connected disability, it will not be considered of misconduct origin. (38 U.S.C. 105, 310, 321, 331, 401, and 521(a))

[FR Doc.72-19919 Filed 11-17-72;8:53 am]

PART 3—ADJUDICATION

Subpart A—Pension, Compensation, and Dependency and Indemnity Compensation

ELIGIBILITY FOR LOAN GUARANTY BENEFITS

The following regulatory change provides that, as a factor of eligibility in claims for loan guaranty benefits, the requirement is that the widow be unmarried and implements a liberalization provided by Public Law 91-376 (84 Stat. 787) for widow's benefits. Prior to Public Law 91-376 the requirement was that the widow be unremarried. The liberalization provided by Public Law 91-376 restores rights to benefits as widow of the veteran when a widow's subsequent remarriage is terminated.

Compliance with the provisions of § 1.12 of this chapter, as to notice of proposed regulatory development and delayed effective date, is unnecessary in this instance and would serve no useful purpose because this amendment merely corrects an inconsistency in VA regulations.

In § 3.805, paragraph (e) is amended and immediately following § 3.805, cross references are added to read as follows:

§ 3.805 Loan guaranty for widows; certification.

A certification of loan guaranty benefits may be extended to widows based on an application filed on or after January 1, 1959, if:

* * * * *

(e) The veteran's widow is unmarried; and

* * * * *

CROSS REFERENCES: Widow. See § 3.50(b). Terminated marital relationships. See § 3.55.

(72 Stat. 1114; 38 U.S.C. 210)

This VA regulation is effective January 1, 1971.

By direction of the Administrator.

Approved: November 6, 1972.

[SEAL] FRED B. RHODES, *Deputy Administrator.*

Title 24—HOUSING AND URBAN DEVELOPMENT

Chapter II—Office of Assistant Secretary for Housing Production and Mortgage Credit—Federal Housing Commissioner [Federal Housing Administration]

[Docket No. R-72-178]

PART 235—MORTGAGE INSURANCE AND ASSISTANCE PAYMENTS FOR HOME OWNERSHIP AND PROJECT REHABILITATION

Eligibility Requirement for Homes for Lower Income Families

On page 7166 of the FEDERAL REGISTER of April 11, 1972, there was published a notice of proposed rule making to amend § 235.20 of the Department's regulations by expanding the eligibility requirements for lower income families in existing condominium projects.

Since the rule was published for notice, questions have arisen concerning the standards which the Commissioner may prescribe as eligibility requirements for existing condominium projects. In addition to the usual condominium requirements which are provided in §235.20 (b), (c), (d), (e), and (f) of the regulations, eligible units must be existing public housing units concerning which there has been established a condominium which meets such other standards as the Commissioner may prescribe and for which the mortgagor qualifies as a family occupying low rent public housing.

One other comment was received after the deadline of May 12, 1972, questioning the reason for the existing 11 or less unit exception. The rule change does not affect condominium projects of 11 or less units which are not required to be financed under a mortgage insured under certain of the HUD-FHA multifamily programs.

The rule, as adopted, has been rephrased to limit eligible units to existing public housing units where the mortgagor qualifies as a family occupying low-rent public housing and where an approved condominium has been established for such units.

The full text of the amendment to § 235.20, as finally adopted, is as follows:

§ 235.20 Requirements for family unit in condominium.

* * * * *

(a) *Family unit eligibility.* The family unit must be located in a project which has been financed with a mortgage which is or has been insured under any of the FHA-multifamily housing programs other than sections 213(a) (1) and (2) of the National Housing Act: *Provided* That, this FHA mortgage financing rule does not apply to projects involving 11 or less units nor to existing public housing units concerning which there has been established a condominium which meets such standards as the Commissioner may prescribe and for which the mortgagor qualifies as a family occupying low-rent public housing.

* * * * *

Effective date. This regulation shall be effective on December 18, 1972.

EUGENE A. GULLEDGE, *Assistant Secretary for Housing Production and Mortgage Credit-FHA Commissioner.*

[FR Doc.72-19917 Filed 11-17-72;8:53 am]

Chapter VI—Office of Assistant Secretary for Community Planning and Management, Department of Housing and Urban Development

[Docket No. R-72-164]

PART 600—COMPREHENSIVE PLANNING ASSISTANCE

Subpart A—General Information

WAIVERS

Section 600.59 is being added to 24 CFR Part 600 to permit the Assistant Secretary for Community Planning and Management to waive any administrative requirement of that part. Such waiver will be conditioned upon a finding that a disaster, emergency, or other extraordinary situation necessitates waiver in order to avoid undue hardship and to carry out the purposes of section 701 of the Housing Act of 1954, as amended.

Since this amendment relaxes previous requirements with respect to the eligibility of certain applicants, we find that it is unnecessary to provide for comment and public procedure and good cause exists for making this amendment effective upon publication.

Subpart A is amended by adding a new § 600.59 to read as follows:

§ 600.59 Waivers.

The Assistant Secretary for Community Planning and Management may waive any administrative requirement of these regulations whenever he determines that due to the occurrence of a disaster or emergency or other extraordinary situation, the waiver is necessary to avoid undue hardship and to carry out the purposes of section 701 of the Housing Act of 1954, as amended.

(Sec. 701, Housing Act of 1954, as amended, 68 Stat. 640; 40 U.S.C. 461; Secretary's delegation of authority published at 36 F.R. 5004, effective March 8, 1971)

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER (11-18-72).

CLIFFORD W. GRAVES, *Deputy Assistant Secretary for Community Planning and Management.*

Chapter X—Federal Insurance Administration, Department of Housing and Urban Development

SUBCHAPTER B—NATIONAL FLOOD INSURANCE PROGRAM

PART 1914—AREAS ELIGIBLE FOR THE SALE OF INSURANCE

Status of Participating Communities

Section 1914.4 of Part 1914 of Subchapter B of Chapter X of Title 24 of the Code of Federal Regulations is amended by adding in alphabetical sequence a new entry to the table. In this entry, a complete chronology of effective dates appears for each listed community. Each date appearing in the last column of the table is followed by a designation which indicates whether the date signifies the effective date of the authorization of the sale of flood insurance in the area under the emergency or the regular flood insurance program. The entry reads as follows:

§ 1914.4 **Status of participating communities.**

State	County	Location	Map No.	State map repository	Local map repository	Effective date of authorization of sale of flood insurance for area

Chapter 101—Federal Property Management Regulations

SUBCHAPTER F—TELECOMMUNICATIONS AND PUBLIC UTILITIES

PART 101–35—TELECOMMUNICATIONS

Subpart 101–35.3—Utilization and Ordering of Telecommunications Services

TELEPHONE SERVICE

This regulation prescribes the use of Standard Form 145, Order for Telephone Service, and Standard Form 145A, Continuation Sheet—Order for Telephone Service.

Section 101–35.303 is revised to read as follows:

§ 101–35.303 **Telephone service.**

(a) *Form for ordering service.* Standard Form 145, Order for Telephone Service, and Standard Form 145A, Continuation Sheet—Order for Telephone Service, are prescribed for use by Federal agencies in ordering telephone service from Government joint-use and GSA-operated of GSA-managed switchboards. Federal Government agencies with service from GSA-operated or GSA-managed switchboards shall forward all requests for telephone service to the serving switchboard. No other form or ordering procedure shall be used unless it is expressly permitted or authorized by GSA. Agencies may use this form also as the basis for managing their own internal telephone systems.

(b) *Preparation of orders.* Instructions for the preparation of Standard Form 145, Order for Telephone Service, are provided on the flyleaf of each pad of forms. Any necessary supplemental or clarifying instructions will be issued by GSA regional offices.

(Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c))

Effective date. This regulation is effective upon publication in the FEDERAL REGISTER (11–18–72).

Dated: November 13, 1972.

ARTHUR F. SAMPSON,
Acting Administrator of General Services.

SUBCHAPTER H—UTILIZATION AND DISPOSAL

PART 101–45—SALE, ABANDONMENT, OR DESTRUCTION OF PERSONAL PROPERTY

Submission of Bids

This amendment adds a new Subpart 101–45.7 which prescribes policies and methods relating to bids submitted in advertised sales of Government personal property.

Part 101–45 is amended by adding a new Subpart 101–45.7, as follows:

§ 51.101 **Applicability.**

V 37-224 NOV 18 72 XUM

Subpart 101–45.7—Submission of Bids

Sec.
101–45.700 Scope of subpart.
101–45.701 Responsiveness of bids.
101–45.702 Time of bid submission.
101–45.703 Late bids.
101–45.703–1 General.
101–45.703–2 Consideration for award.
101–45.703–3 Telegraphic bids.
101–45.703–4 Hand-carried bids.
101–45.703–5 Disposition of late bids.
101–45.703–6 Records.
101–45.704 Modification or withdrawal of bids.
101–45.705 Late modifications and withdrawals.

AUTHORITY: The provisions of this Subpart 101–45.7 are issued under Sec. 205(c), 63 Stat. 390; 40 U.S.C. 486(c).

Subpart 101–45.7—Submission of Bids

§ 101–45.700 Scope of subpart.

This subpart prescribes policies and methods relating to bids submitted in advertised sales of Government personal property and includes the treatment of late bids received in connection with such sales.

§ 101–45.701 Responsiveness of bids.

(a) To be considered for award, a bid must comply in all material respects with the invitation for bids so that, both as to the method and timeliness of submission and as to the substance of any resulting contract, all bidders may stand on an equal footing and the integrity of the formal advertising system may be maintained.

(b) Telegraphic or telephonic bids shall not be considered unless otherwise provided in the invitation for bids. (See § 101–45.4904, item number 3 entitled "Consideration of Bids.")

(c) Bids shall be filled out, executed, and submitted in accordance with the instructions contained in the invitation for bids. If a bidder uses his own bid form or a letter to submit a bid, the bid may be considered only if (1) the bidder accepts all the terms and conditions of the invitation for bids and (2) award on the bid would result in a binding contract, the terms and conditions of which do not vary from the terms and conditions of the invitation.

§ 101–45.702 Time of bid submission.

Bids shall be submitted so as to be received by the contracting officer not later than the exact time set for opening of bids. Where telegraphic bids are authorized, a telegraphic bid received by telephone from the receiving telegraph office not later than the time set for opening of bids shall be considered if such bid is confirmed by the telegraph company by sending a copy of the telegram which formed the basis for the telephone call.

§ 101–45.703 Late bids.

§ 101–45.703–1 General.

Bids received by the contracting officer after the exact time set for bid opening are late bids. (See §§ 101–45.4904–1, 101–45.4904–2, and 101–45.4904–3 for item entitled "Consideration of Late Bids, Modifications, or Withdrawals.") Late bids shall not be considered for award except as authorized in this § 101–45.703.

§ 101–45.703–2 Consideration for award.

(a) A late bid shall be considered for award only:

(1) In the instance of sealed bid sales, if the bid submitted by mail was received by the contracting officer prior to award, was mailed and, in fact, delivered to the address specified in the invitation in sufficient time to have been received by the contracting officer by the time and date set forth in the invitation for opening of bids, and except for delay attributable to personnel of the sales office or their designees would have been received on time; or

(2) In the instance of spot bid and auction sales, if the bid submitted by mail (where authorized) was received by the contracting officer after the time and date set forth in the invitation for receipt of bids but before the time set for the start of the sale, and was mailed and, in fact, delivered to the address specified in the invitation in sufficient time to have been received by the contracting officer by the time and date set forth in the invitation for receipt of bids, and except for delay attributable to personnel of the sales office or their designees would have been received on time.

(b) The only evidence acceptable to establish timely receipt of bids at the address designated in the invitation for bids is documentary evidence of receipt at such address within the control of the selling agency. Such evidence could be a date or time stamp, or a log entry.

§ 101–45.703–3 Telegraphic bids.

A late bid submitted by telegraph (where authorized) received before award shall not be considered for award regardless of the cause of the late receipt, including delays caused by the telegraph company, except for a telegraphic bid delayed solely because of mishandling on the part of the Government in its transmittal to the office designated in the invitation for bids for the receipt of bids.

§ 101–45.703–4 Hand-carried bids.

A late hand-carried bid or any other late bid not submitted by mail or telegram shall not be considered for award.

§ 101–45.703–5 Disposition of late bids.

A late bid which is not for consideration shall be returned to the bidder as promptly as possible (unless other disposition is requested or agreed to by the bidder). However, an unidentified late bid may be opened solely for the purpose of identification and then only by the contracting officer or his authorized representative. Late bids opened for identification purposes or by mistake shall be resealed in the envelope. The contracting officer or his authorized representative shall immediately write on the envelope his signature and position, date and time opened, invitation for bids number, and an explanation of the opening. No information contained therein shall be disclosed to anyone.

§ 101–45.703–6 Records.

To the extent available, the following information shall be included in the contract case files with respect to each late bid:

(a) A statement of the date and hour of mailing or filing;

(b) A statement of the date and hour of receipt;

(c) A mechanical reproduction of the envelope, or other covering, if the late bid was returned, in lieu of paragraphs (a) and (b) of this section;

(d) The determination of whether the late bid was considered for award, with supporting facts;

(e) A statement of the disposition of the late bid; and

(f) The envelope, or other covering, if the late bid was considered for award.

§ 101–45.704 Modification or withdrawal of bids.

(a) Bids may be modified or withdrawn by written or telegraphic notice received by the contracting officer not later than the exact time set for opening of bids (in the instance of sealed bid sales) or not later than the exact time set for the receipt of mailed-in or telegraphic bids (in the instance of spot bid and auction sales where such bids are authorized). A telegraphic modification or withdrawal of a bid received by telephone from the receiving telegraph office not later than the time set for opening of bids shall be considered if such message is confirmed by the telegraph company by sending a copy of the written telegram which formed the basis for the telephone call. Modifications received by telegram (including a record of those telephoned by the telegraph company) shall be sealed in an envelope by a proper official who shall write thereon the date and time of receipt and by whom, the invitation for bids number, and his signature. No information contained therein shall be disclosed before the time set for bid opening or for the start of the sale.

(b) A bid may be withdrawn in person by a bidder or his authorized representative, provided his identity is made known and he signs a receipt for the bid, but only if the withdrawal is prior to the exact time set for the opening of bids (in the instance of sealed bid sales) or the exact time set for the start of the sale (in the instance of spot bid and auction sales).

§ 101–45.705 Late modifications and withdrawals.

(a) Modifications of bids and requests for withdrawal of bids which are received by the contracting officer after the exact time set for bid opening (in sealed bid sales) or after the exact time set for the receipt of bids (in spot bid or auction sales) are "late modifications" and "late withdrawals", respectively. A late modification or late withdrawal shall be subject to the provisions of § 101–45.703.

However, a late modification of the otherwise successful bid shall be opened at any time it is received; and if in the judgment of the contracting officer it makes the terms of the bid more favorable to the Government, it shall be considered.

(b) Mailed-in and telegraphic modifications or withdrawals which are received by the contracting officer after the time set for the start of a spot bid or auction sale shall not be considered, regardless of the cause of delay.

Effective date. This amendment is effective upon publication in the FEDERAL REGISTER (11–18–72).

Dated: November 13, 1972.

ARTHUR F. SAMPSON,
Acting Administrator of General Services.

Title 42—PUBLIC HEALTH

Chapter I—Public Health Service, Department of Health, Education, and Welfare

SUBCHAPTER D—GRANTS

PART 51—GRANTS TO STATES FOR COMPREHENSIVE HEALTH PLANNING AND PUBLIC HEALTH SERVICES

Subpart B—Grants to States for Comprehensive Public Health Services

In the FEDERAL REGISTER of February 19, 1972 (37 F.R. 3759 et seq.) the Administrator, Health Services and Mental Health Administration, with the approval of the Secretary of the Department of Health, Education, and Welfare, proposed to revise Subpart B of Part 51 of Title 42, CFR, governing grants to States for comprehensive public health services under section 314(d) of the Public Health Service Act (42 U.S.C. 246(d)). The purpose of the revision was to implement the Health Services and Mental Health Administration simplified state plan review system for this program, to implement amendments to section 314 (d) of the Public Health Service Act made during the 91st Congress, and to make other technical and conforming amendments. Public comment was invited.

Responses were received from three State health and mental health authorities requesting clarification of: (1) The new procedures for submission of the simplified State plan certification and budget that incorporates other required documentation by reference, which documents are to be retained in the State agency offices for review by HEW Regional Office staff; and (2) the proposed State funding requirements with respect to drug abuse and drug dependence and alcohol abuse and alcoholism. The proposed regulation has been modified to clarify the appropriate portions.

Section 314(d) of the Public Health Service Act has been further amended since the publication of the notice of proposed rule making on February 19, 1972. Section 403(a) of Public Law 92–255 amended subsection 314(d)(2)(K), adding to the State plan requirements, two new provisions with respect to drug abuse and drug dependence. Subsection 51.104 (h) of the regulations has been revised by adding paragraphs (2) and (3) to conform it with these two new provisions added by Public Law 92–255.

A copy of the proposed revision of § 51.104(h) was mailed to all State and territorial health and mental health authorities together with an invitation to submit any comments they might wish to make and an invitation to attend a conference to discuss any questions they might have. As required by section 314 (g) of the Public Health Service Act, the Health Services and Mental Health Administration consulted with a conference of State health and mental health authorities on August 21, 1972, regarding this proposed revision of § 51.104(h). No suggestions for substantial changes in the proposal were made in writing or at the conference, but § 51.104(h) has been modified to clarify questions raised thereby. Inasmuch as this revision of § 51.104(h) is required by section 403(a) of Public Law 92–255, and was brought before the conference with State health and mental health authorities as required by section 314(g) of the Public Health Service Act, the Secretary has determined that such revision may be incorporated in the present regulation rather than first being separately published as a notice of proposed rule making.

Therefore, having evaluated the comments received and all other relevant material, the proposed regulation, with changes, as set forth below, is hereby adopted effective on the date of publication in the FEDERAL REGISTER (11–18–72).

Dated: October 24, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: November 15, 1972.

ROBERT O. BEATTY,
Acting Secretary.

Subpart B—Grants to States for Comprehensive Public Health Services

Sec.
51.101 Applicability.
51.102 Definitions.
51.103 Submission of State plans.
51.104 State plan requirements.
51.105 State allotments.
51.106 Allocation of allotments for mental health.
51.107 Allocation of allotments to support services in communities.
51.108 Expenditures and payments.
51.109 Equipment, supplies or personnel in lieu of cash.
51.110 Nondiscrimination.

AUTHORITY: The provisions of this Subpart B issued under secs. 215, 314 of the Public Health Service Act as amended; 58 Stat. 690, 80 Stat. 1180; 42 U.S.C. 216, 246.

§ 51.101 Applicability.

The regulations of this subpart apply to grants to State health and mental health authorities to assist the States, including the District of Columbia, Puerto Rico, the Virgin Islands, Guam, American Samoa, and the Trust Territory of the Pacific Islands, in establishing and maintaining adequate public health services, including the training of personnel for State and local health work, as authorized by section 314(d) of the Public Health Service Act, as amended.

§ 51.102 Definitions.

All terms not defined herein shall have the same meanings as given them in the Act. As used in this subpart:

(a) "Act" means section 314 of the Public Health Service Act, as amended (42 U.S.C. 246).

(b) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved may be delegated.

(c) "State plan" refers to the information, proposals, and assurances submitted by the State authority pursuant to section 314(d) of the Act and the regulations of this subpart for public health activities of the State and political subdivisions, and of other public and private nonprofit agencies to whom Federal or State funds are made available.

(d) "State authority" means the State health, or with respect to mental health, the State mental health authority.

§ 51.103 Submission of State plans.

In order to receive funds from an allotment under this subpart, a State must submit to and have approved by the Secretary a State plan which contains or, as required by these regulations, incorporates by reference the information and meets the requirements specified in the Act and in the regulations of this subpart. Such plan shall be submitted by the State health authority, or in the case of mental health, by the State mental health authority, after reasonable opportunity has been provided to the Governor of the State for his review and comment. Documents incorporated by reference become a part of the State plan as though fully set forth therein. Such documents must be (a) clearly identified as to subject, date, and location, (b) officially adopted and disseminated in accordance with applicable procedures, and (c) made available to the Secretary and to the public for inspection.

§ 51.104 State plan requirements.

(a) *Responsibility of State authority.* The plan must incorporate by reference documents describing the methods by which the State authority will either administer or supervise the administration of the activities to be carried out under the State plan. In providing funds to any activity which it does not administer, the State authority shall apply criteria and require conformance to standards which

(2) The plan must incorporate by ref-

(4) Provide for maintaining an ade-

V37-224-NOV18-72 XUM

would assure no lower quality for services to be supported than maintained for activities which it undertakes to conduct directly.

(b) *Evaluation of activities.* The plan must incorporate by reference documents setting forth methods of evaluating the performance of activities being carried out under the plan to assure that they meet the standards set forth in the plan and those prescribed in the regulations of this subpart.

(c) *Providing and strengthening public health services.* The plan must—

(1) Incorporate by reference written policies and procedures by which other governmental and nonprofit private agencies, institutions, and organizations will be made aware of the availability of Federal and State funds for the conduct of public health activities, including those locally initiated or sponsored, under the State plan, and by which requests for commitment of such funds will be evaluated and approved; and

(2) Contain or be supported by an assurance that the funds paid to the State for the activities to be carried out under it will be used to provide and strengthen public health services in the various political subdivisions in order to improve the health of the people of the State. The plan must incorporate by reference written policies and procedures under which the State will consider, in expending such funds, (i) the extent to which services provided under the State plan are made available to all people in all areas of the State, and (ii) the extent to which such funds and services represent a strengthening of public health services in such areas, including expansion or improved alignment of services.

(d) *Participation by local, regional, metropolitan, and other public or private nonprofit agencies.* (1) The State plan shall contain or be supported by assurances that:

(i) In accordance with the standards and criteria required in paragraph (a) of this section, funds will be made available by the State authority to other public or nonprofit private agencies, institutions and organizations initiating, sponsoring, or providing public health services which qualify for inclusion in and support under the State plan;

(ii) Such agencies, institutions, and organizations to which funds are made available are required to participate in the costs of such services;

(iii) In determining to which agencies, institutions, and organizations funds are to be made available, and the amount of funds which are to be made available to each, the State authority will consider the extent to which the services to be provided will be directed to public health programs of high priority, will be of high quality, and will reach the people in local communities in greatest need of such services;

(iv) In its evaluation of requests for such funds the State authority will provide a period for review and will consider any comments relating to such requests of the regional, metropolitan, or local area comprehensive health planning agency serving the area, if such agency exists.

(2) The State plan must incorporate by reference written identification of local, regional, metropolitan, and other public or private nonprofit agencies receiving funds under the State plan, identified as public or private nonprofit agencies.

(e) *Federal funds to supplement non-Federal funds otherwise available.* The State plan must contain or be supported by assurances that Federal funds will not supplant non-Federal funds otherwise available for providing the services and carrying out the activities under the plan and that such funds will, to the extent practical, be used to increase the level of funds otherwise available for such services and activities. Substantial compliance with such assurances will be deemed to have been met if the Secretary finds that:

(1) The level of State funds available to and spent by the State authority for those public health services under the approved State plan (including State funds allocated to other public or nonprofit private agencies, institutions and organizations) is at least no lower for any fiscal year than it was for the immediately preceding fiscal year, except that the Secretary may also take into consideration the extent to which the level of such funds for any fiscal year may have included funds for an activity of a nonrecurring nature, and the extent to which reductions in population or per capita income may affect the availability of such non-Federal funds. In any case no State shall be required to share in the approved State plan in excess of the minimum requirement as determined in accordance with subsections 314(a) (5) and (6) of the Act.

(2) The aggregate level of non-Federal funds (other than State funds allocated by the State authority) available to and spent by other public or nonprofit private agencies, institutions, and organizations to which Federal grant funds are made available under the State plan from the State's allotment is no lower for any fiscal year than it was for the immediately preceding fiscal year.

(f) *Accord with comprehensive planning.* (1) Where a State comprehensive health planning agency has been designated pursuant to section 314(a) of the Act, and where such agency has adopted planning recommendations pertaining to services to be provided under the State plan for public health services, the State plan must contain an assurance that such services will be furnished in accordance with such recommendations.

(2) If the State comprehensive health planning agency has not adopted or incorporated into its planning recommendations State mental health plans, the State plan must contain an assurance that mental health services under the approved plan for this part will be consistent with such other current statewide plans for mental health planning in the State as have been adopted by the State mental health authority.

(g) *Compatability with total health program of State.* The plan shall contain or be supported by an assurance that the services to be provided under the plan are compatible with the total health program of the State.

(h) *Drug abuse and drug dependence, and alcohol abuse and alcoholism.* (1) The State plan must incorporate by reference written provision for the delivery and funding of services for prevention and treatment of (i) drug abuse and drug dependence and (ii) alcohol abuse and alcoholism. Such services for drug abuse and drug dependence shall be consistent with the State plan, if any, developed pursuant to section 409(e) of the Drug Abuse Office and Treatment Act of 1972 (86 Stat. 65; 21 U.S.C. 1176(e)), and such services for alcohol abuse and alcoholism shall be consistent with the State plan, if any, developed pursuant to section 303 of the Comprehensive Alcohol Abuse and Alcoholism Prevention, Treatment, and Rehabilitation Act of 1970 (84 Stat. 1850; 42 U.S.C. 4573). The provisions shall also be in accordance with the plans described in paragraph (f) of this section. In assessing such provisions for drug abuse and drug dependence and alcohol abuse and alcoholism services, the Secretary shall consider the extent to which the services and funding to be provided under the plans are commensurate with the relative extent of the drug abuse and drug dependence problem and the alcohol abuse and alcoholism problem, respectively, in the State when compared to the general need for public health services in such State.

(2) The State plan must incorporate by reference provision for the procedures and standards for licensing or accreditation of treatment and rehabilitation facilities for persons with drug abuse and drug dependence problems, which shall be consistent with those set forth in the State plan, if any, which has been developed pursuant to section 409(e) of the Drug Abuse Office and Treatment Act of 1972 (86 Stat. 65; 21 U.S.C. 1176(e)).

(3) The State plan must also incorporate by reference provisions for the expansion of State mental health and other prevention and treatment programs for persons with drug abuse and drug dependence problems, which shall be consistent with those set forth in the State plan, if any, which has been developed pursuant to section 409(e) of the Drug Abuse Office and Treatment Act of 1972 (86 Stat. 65; 21 U.S.C. 1176(e)).

(i) *Scope and quality of services.* The following standards shall be applicable to services furnished under the plan:

(1) The plan must incorporate by reference documents showing that preventive, diagnostic, treatment, and rehabilitative programs will include special attention to the health needs of high risk population groups in terms of age, economic status, geographic location, or other relevant factors. In addition, preventive services shall be based on sound epidemiologic principles.

(2) The plan must incorporate by reference documents showing (i) the anticipated impact on the health of the people in terms of the specific objectives toward which the activities are directed and (ii) the methods by which such services will be evaluated to determine whether such specific objectives have been achieved.

(3) Services under the plan must be provided by or supervised by qualified personnel, such qualification to be determined by reference to merit system occupational standards, State and local licensing laws and specialty Board requirements for health professionals, which standards, laws and requirements shall be incorporated by reference in the plan.

(j) *Methods of personnel administration.* The State plan shall provide for the establishment and maintenance of personnel standards on a merit basis for persons employed by the State authority, and by official local health and mental health departments, to provide or supervise the provision of public health services under the approved State plan, and of State agency supervision of compliance with such standards by official local health and mental health departments. Conformity with Standards for a Merit System of Personnel Administration, 45 CFR Part 70, issued by the Secretary of Health, Education, and Welfare, including any amendments thereto, and any standards prescribed by the U.S. Civil Service Commission pursuant to section 208 of the Intergovernmental Personnel Act of 1970 (Public Law 91-648; 84 Stat. 1915) modifying or superseding such Standards, will be deemed to meet this requirement as determined by said Commission. Laws, rules, regulations and policy statements, and amendments thereto, effectuating such methods of personnel administration and State agency supervision shall be incorporated by reference in the State plan.

(k) *Professional consultation.* The State plan must contain an assurance that the State authority will provide professional consultation as appropriate to agencies, institutions, or organizations other than the State authority providing services under the State plan.

(l) *Location of services.* The State plan must incorporate by reference written procedures for informing the general public in the State of the kinds and locations of services which are available under the State plan.

(m) *Review and modification.* The State plan must contain an assurance that the State authority will review and evaluate its approved plan at least once annually and submit appropriate modifications thereof to the Secretary. As a minimum, the State authority shall make annual modifications of the plan which will (1) reflect budgetary and expenditure requirements for the new fiscal year and (2) update any assurances or other informational requirements included in the State plan.

(n) *Reports and records.* The State plan must contain an assurance that in addition to any other reports or records required by the regulations of this subpart or which may reasonably be required by the Secretary under the Act:

(1) The State authority shall maintain adequate records to show the disposition of all funds (Federal and non-Federal) expended for activities under the approved State plan.

(2) The State authority shall make annual expenditure reports.

(3) All records required by the Act and the regulations of this subpart shall be retained for 3 years after the submission of the annual expenditure report required by subparagraph (2) of this paragraph: *Provided*, That, (i) all records pertaining to audit questions which have arisen before the end of such 3-year period shall be retained until the resolution of all such questions; and (ii) records for nonexpendable property which was acquired under the State plan shall be retained for 3 years after the final distribution of such property.

(4) All records required by the Act and the regulations of this subpart shall be available to the Comptroller General of the United States and the Secretary, or their authorized representatives, for purposes of making audits, examinations, excerpts and transcriptions.

(o) *Accounting procedures.* The State plan shall incorporate by reference such written fiscal control and fund accounting procedures as are necessary to assure the proper disbursement of and accounting for funds paid to the State under this subpart. Such procedures shall provide for an accurate and timely recording of receipts of Federal funds paid to the State for expenditures incurred or to be incurred under the approved plan, of the amounts and purposes of expenditures made in carrying out such plan and of any unearned balances of Federal funds paid to the State. In addition, such procedures must:

(1) Provide for the determination of allowability and the allocation of costs in accordance with Chapter 5-60 of the Department of Health, Education, and Welfare Grants Administration Manual;[1]

(2) Provide for the separation of allowable expenditures as between the State plan for public health services and the State plan for mental health services and for the separation of allowable expenditures under each State plan between those which are for the provision of health services in communities of the State and those which are for other purposes;

(3) Provide adequate information to show exclusion from expenditures claimed for Federal participation of those costs for which payments have been received or are due under other Federal grants or contracts or which are required or used to match other Federal funds;

(4) Provide for maintaining an adequate record of refunds, proceeds from the sale of equipment, fees, and other similar adjustments received. These adjustments shall be deducted from total expenditures in order to arrive at the expenditures available for Federal participation under the State plan. In addition, when any equipment purchased from funds under the approved State plan is transferred or otherwise disposed of to an activity which would not be eligible for support under this program, a portion of its fair market value at the time of transfer shall be deducted for the same purpose. Such portion shall be in the same proportion as participation of the Federal funds was in the expenditures under the State plan in the year in which such equipment was purchased.

(5) Provide for the maintenance of payroll and inventory records in accordance with Chapters 1-71 and 1-410, respectively, of the Department of Health, Education, and Welfare Grants Administration Manual.

§ 51.105 State allotments.

The allotments for Federal fiscal years 1971, 1972, and 1973 shall be determined in the following manner:

(a) On the basis of population (as determined from the latest available estimate from the Department of Commerce), $3 per person up to a maximum of 100,000 persons, plus;

(b) Fifty percent of the remainder of the amount available on the basis of population (as determined for purposes of paragraph (a) of this section) and 50 percent on the basis of population weighted by financial need (as determined by the latest available estimates of per capita personal income from the Department of Commerce), adjusted so that the total allotment to any State under paragraph (a) of this section plus this paragraph (b) will not be less than the total of the amounts allotted to it under formula grants for cancer control, plus other allotments under section 314 of the Public Health Service Act prior to its amendment by Public Law 89-749, for the fiscal year ending June 30, 1967.

(c) For the purposes of these computations, American Samoa and the Trust Territory of the Pacific Islands shall each be considered to have had total allotments for fiscal year 1967 equal to the lowest total allotments of any other State for that year.

§ 51.106 Allocation of allotments for mental health.

(a) *General.* The Secretary shall allocate 15 percent of each State's allotment for each fiscal year to the State mental health authority and 85 percent to the State health authority, except that when, in any case, 15 percent of the State's allotment is less than the amount of that State's fiscal year 1967 allotment for mental health services, the percentage allocated to the mental health authority of such State shall be increased to that percentage which will provide that such allocation for the year will

significant source and reservoir of hea- portation under Part 71 and the Com- mitted under conditions specified by the

XUM
V37-224 NOV 18 72 XUM V

equal the fiscal year 1967 allotment to that State for mental health services, and the percentage allocation for the year to the State health authority of such State shall be correspondingly reduced.

(b) *Exception.* If recommended concurrently by the State health authority and the State mental health authority, or by the Governor, for any fiscal year, the Secretary may allocate a higher percentage to the State mental health authority and a correspondingly lower percentage to the State health authority.

§ 51.107 Allocation of allotments to support services in communities.

For each fiscal year, an amount equal to at least 70 percent of the funds allotted to the State health authority and to the State mental health authority, respectively, under section 314(d) of the Act shall be available only for the provision of health services in communities of the State. Such services in communities shall include all eligible activities conducted under the State plan which, in the judgment of the Secretary or his delegate, are directly involved in the provision of services to people, in the training of personnel for community services, and in the prevention or alleviation of health, mental health, or environmental health problems in communities, whether such activities are provided by State or local agencies, but shall not include such activities as administration, planning, consultation, and data collection and analysis activities conducted by the State agency for statewide planning and administrative purposes not directly involved in the provision of services to people. The cost of data collection and analysis activities conducted by the State agency which are an integral part of services provided directly to people may be included as a part of the allotment available only for the provision of health services in communities.

§ 51.108 Expenditures and payments.

(a) *Federal share.* Each State for which a State plan for public health services has been approved shall be paid from its allotment for the fiscal year an amount which equals its "Federal share" (as defined and computed within the limits of the allotment in accordance with subsection 314(d) (5) and (6) of the Act) of the expenditures incurred by such State or a political subdivision thereof during such fiscal year under its approved State plan. The Secretary shall make such adjustments in amounts of payments as may be necessary to correct under or over payments previously made (including expenditures which are disallowed on the basis of audit findings). A State shall not be entitled to payments from any fiscal year allotment for expenditures incurred in a prior or subsequent year. Payments will be made where practicable through a letter of credit system or, when such system is not practicable, on the basis of payment requests from the State to meet its current needs.

(b) *Eligible costs.* Federal participation in providing "Public Health Services" under a State plan may include the costs of any physical, mental, or environmental health service which the State authority is authorized to undertake or support, or the costs of training, including in-service and specialized or short-term training of personnel for State and local health work, except that the following costs of services and training shall not be included:

(1) The provision of air pollution control activities to the extent such costs are precluded by the Clean Air Act (42 U.S.C. 1857 et seq.) as amended;

(2) The provision of inpatient care in hospitals or other institutions, except where the Secretary determines that such care during a limited period of time is necessary for effective evaluation, demonstration, or extension of new or improved public health procedures;

(3) Research activities, other than those which are a part of health service programs or demonstrations, or of health surveys, epidemiologic studies, or case findings;

(4) The acquisition of land or construction or acquisition of buildings;

(5) Such other costs as the Secretary may find to be inconsistent with the Act or the regulations of this subpart.

(c) *Expenditures by nonprofit private agencies.* For the purposes of determining the Federal share for any State, expenditures made by nonprofit private agencies, organizations, and groups shall be regarded as expenditures by such State or political subdivision thereof, subject to the following conditions and limitations:

(1) Such expenditures may be included only when made by such an agency, institution, or organization to which the State authority has made available funds from Federal or State sources for carrying out services to be provided under the approved State plan for the fiscal year;

(2) The amount of expenditures by such nonprofit agency which may be included for any fiscal year does not exceed the amount of the funds made available to such agency by the State under the plan plus not more than an equal amount of expenditure by such agency from nongovernmental funds;

(3) The records of the expenditures by a nonprofit private agency, in carrying out the State plan, shall be maintained and be available for inspection and audit for the period specified in § 51.104(l)(3).

§ 51.109 Equipment, supplies, or personnel in lieu of cash.

At the request of and for the convenience of a State authority, the Secretary may, in lieu of cash payments, furnish to such authority equipment or supplies or detail officers or employees of the Department of Health, Education, and Welfare when he finds that such equipment, supplies, or personnel would be used in carrying out the approved State plan for public health services. In such cases, the Secretary shall reduce the payments to which such State authority would otherwise be entitled from its allotment for the fiscal year by an amount which equals the fair market value of the equipment or supplies furnished and by the amount of the pay, allowances, traveling expenses, and other costs in connection with such detail of officers or employees. For purposes of determining the amount of the expenditures for any fiscal year made in carrying out the approved State plan and the Federal share of such expenditures, the costs incurred by the Secretary in furnishing such equipment or supplies and in detailing such personnel to the State agency during the fiscal year shall be considered as expenditures made by and funds paid to the State.

§ 51.110 Nondiscrimination.

(a) Attention is called to the requirements of title VI of the Civil Rights Act of 1964 (42 U.SC. 2000d; 78 Stat. 252), which provides that no person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such title VI has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80). Such regulation is applicable to services and programs provided under approved State plans for public health services receiving Federal assistance under section 314(d) of the Act, and requires receipt and acceptance by the Secretary of the applicable documentation set forth therein.

(b) All services provided under the State plan shall be made available without discrimination on the grounds of sex, creed, marital status, or duration of residence.

[FR Doc.72-19910 Filed 11-17-72;8:51 am]

SUBCHAPTER F—QUARANTINE, INSPECTION, LICENSING

PART 71—FOREIGN QUARANTINE

PART 72—INTERSTATE QUARANTINE

Prohibition on Importation of Turtles, Tortoises, and Terrapins; Bacteriological Testing and Certification for Interstate Shipment

A notice was published in the FEDERAL REGISTER of April 7, 1972 (37 F.R. 7005), in which the Administrator of the Health Services and Mental Health Administration with the approval of the Secretary, and the Commissioner of Food and Drugs proposed to amend Parts 71 and 72 respectively of Title 42, Code of Federal Regulations, to: (1) Provide a general prohibition on the importation of small pet turtles, tortoises, terrapins, and other members of the order *Testudinata*, and (2) set bacteriological standards for such animals in interstate shipments.

The proposal was based upon epidemiological investigations that have shown that small pet turtles are a particularly significant source and reservoir of bacteria of the genus *Salmonella* and bacteria of the genus *Arizona* affecting humans.

On the basis of results of these investigations, it is estimated that each year in the United States, 280,000 human cases of salmonellosis are turtle associated. Most of these cases occur in children. While few fatalities are thought to be associated with infection acquired from turtles, the *Salmonella* and *Arizona* bacteria typically produce an acute febrile gastroenteritis (abdominal pain, nausea, fever, diarrhea) which may require hospitalization. There are also reports of associated meningitis and brain abscesses.

Each year an estimated 15 million small turtles are sold as pets in the United States. Approximately 90 percent of turtles sold as pets are produced on commercial turtle farms or captured in the wild in the United States. The remaining 800,000 to 1,500,000 turtles are imported following their capture in the wild.

Turtles and their relatives are particularly well adapted hosts for *Salmonella* and *Arizona* bacteria. Characteristically, infection does not produce any apparent disease, but it may persist for long periods of time, if not for the life of the turtle. Contaminated breeding and holding environments, the practice of feeding turtles salmonella-contaminated animal offal, and transovarial transmission (infection of the egg) all serve to perpetuate the transmission cycle.

Repeated bacteriological examination of turtles collected at breeding farms, at the time of importation, and in trade consistently reveal the ubiquitous distribution of *Salmonella* and *Arizona* bacteria associated with turtles.

The Administrator and the Commissioner felt that considerations of public health compelled: (1) Imposition of a general prohibition on the importation of small turtles and (2) provision for both the bacteriological testing and the certification of freedom from infectious diseases for small turtles shipped in interstate commerce. However, importation of small turtles and interstate shipment of uncertified small turtles for bona fide scientific purpose, or for use in educational institutions, and for exhibition, under circumstances such that the numbers of turtles are limited and the turtles are handled and maintained under conditions that minimize risks to the public health, should be permitted.

The April 7, 1972, notice allowed a 60-day period for the filing of comments thereon by interested persons. Of the 48 comments received from individuals, a consumer interest organization, State and local government agencies, a Member of Congress, turtle fanciers and hobbyist clubs and societies, wildlife societies, dealers and importers of such animals, and a trade association, 25 expressed full or partial support for the proposal. The principal points raised in the other comments, together with the Administrator's response to those concerning the proposed prohibition of importation under Part 71 and the Commissioner's response to those concerning the proposed bacteriological testing and certification for interstate shipment under Part 72, and the Administrator's and Commissioner's joint response to those concerning both Parts 71 and 72, are as follows:

1. Several comments questioned the inclusion of tortoises and terrapins in the definition of the term "turtles" as used in the proposed regulations. The Administrator and the Commissioner conclude that such inclusion is necessary because the distinction between turtles, tortoises, and terrapins cannot invariably be made except by highly trained taxonomists. However, the Administrator and the Commissioner have concluded that the regulations should be revised as set forth below to exempt the eggs of marine turtles from the requirements of the regulations since such eggs are imported for use in restocking certain areas of the coast of the United States with those species.

2. A number of comments received, protested the application of the proposed regulations to all turtles with a carapace length of less than 6 inches. Some recommended that the size of the turtles subject to the proposed regulations be reduced from the proposed carapace length of less than 6 inches to 3 inches in length while others recommended that the requirements of the proposed regulations apply only to "baby green turtles" or "red ear sliders". Most of the recommendations offered explanatory comments that the 6-inch carapace designation would severely limit the number of breeding-size turtles and that the smaller (3 inches or less) species are the more common pet varieties purchased for, or by children. In response to these comments the Administrator and Commissioner conclude that the regulations should be revised to apply only to turtles with a carapace length of less than 4 inches.

As a total ban on the importation of turtles with a carapace length of less than 4 inches would prohibit all persons entering the United States from bringing with them their pet turtles or turtle eggs and would prohibit fanciers of rare turtles from importing such species, the Administrator concludes that an exception should be made (as set forth under 42 CFR 71.173) to permit such importation of turtles and/or turtle eggs in any combination not to exceed six. The Administrator concludes that this exemption would not constitute a significant hazard to public health because of the severely restricted size of such importations. For similar reasons the Commissioner concludes that a similar exemption should be provided (as set forth under 42 CFR 72.26 (d)) to permit interstate shipment of rare species of turtles and privately owned pet turtles or turtle eggs in any combination not to exceed six.

3. One comment questioned whether a ban on importation of turtles would be discriminatory since the interstate shipment of domestic turtles would be permitted under conditions specified by the proposed amendment to Part 72. The Administrator concludes that a ban against the importation of turtles, as set forth below, is necessary since adequate laboratory facilities do not exist in all turtle-exporting countries which could effectively establish that shipments of imported turtles would be free of contamination.

4. Ten comments either objected to the Part 72 test procedure as being inhumane or expressed concern over the number of turtles which would be sacrificed in the test. The main objection to the proposed test procedure is the provision which requires placing 60 turtles from each lot being tested into sterile containers with a specified amount of water and holding for 72 hours. The reason for this requirement is to determine not only if the turtles bear *Salmonella* and/or *Arizona* externally, but also whether they are shedders of these bacteria (i.e., whether or not the feces or other body discharges contain these bacteria). In response to these comments and in addition to reducing the size of the turtles subject to the test, the Commissioner has revised the test procedure to provide that larger capacity glass containers shall be employed whenever necessary to avoid overcrowding of the turtles being tested. Data have shown, however, that the number of turtles specified in the test is necessary to obtain adequate representation of the lot and reasonable assurance that a lot is free of *Salmonella* and *Arizona*; this remains unchanged.

5. Another comment claimed that imported turtles are less often contaminated than domestic turtles. The Administrator finds this has been disproved in extensive studies carried out by the Center for Disease Control on large samples of imported turtles, two-thirds of which were found to be contaminated.

6. Eight comments recommended that turtles offered for sale bear a warning legend regarding the potential health hazard or that warning signs be posted at place of sale. The Administrator and the Commissioner have adequate evidence that the majority of the cases of turtle associated *Salmonellosis* occur in children. Because children are more frequently affected, as well as being the purchasers of these pets, warning legends regarding *Salmonella* and *Arizona*, whether placed at point of purchase or accompanying the purchase, are considered unmeaningful to the purchaser and therefore ineffective.

7. Three comments recommended that an age limitation be established for purchase of turtles in order that informed adults will be the sole purchasers of turtles, and five comments recommended that education of the public would be either preferable to the regulations or should be accomplished in addition to the regulations. Since data show that there are an estimated 280,000 turtle associated cases of *Salmonellosis* yearly and 15 million small turtles are sold as pets annually, the Administrator and the Commissioner conclude that greater

XUM
V 37-224 NOV 18 72 XUM V

XUM

V37-224-NOV18-72

protection of the public can be achieved by regulation at the source of origin, i.e., assuring that turtles shipped are free of *Salmonella* and *Arizona* bacteria. However, in addition to the regulations, FDA educational programs will issue information regarding holding and feeding practices in an attempt to limit perpetuation of the bacterial cycle.

8. Other comments included a recommendation for the development of a drug that will destroy *Salmonella* and *Arizona* and a recommendation that the scope of the regulations be expanded to include snakes. The Administrator and the Commissioner conclude that public health considerations do not permit delaying issuance of the proposed regulations pending feasibility of use of such a drug and that the recommendation to include snakes goes beyond the scope of the proposal and cannot be implemented by these regulations. Whenever experience and or new information indicate a need for change, the Administrator and or Commissioner will amend or revise these regulations or issue additional regulations as appropriate.

Having considered the comments the Commissioner and the Administrator conclude that the proposal with revisions and changes made for clarification, should be adopted as set forth below. A paragraph concerning enforcement has been added by the Commissioner of Food and Drugs, to clarify the criminal consequences of violation of 42 CFR 72.26 and the legal status of turtles and turtle eggs which may cause the spread of *Salmonella* or *Arizona* infection or which otherwise violate § 72.26, and to assure that the right to a hearing and other fundamental requirements of due process will be accorded before destruction of violative turtles or turtle eggs. Therefore, pursuant to provisions of the Public Health Service Act (sec. 361, 58 Stat. 703; 42 U.S.C. 264) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120) and to the Administrator of the Health Services and Mental Health Administration (33 F.R. 15963), Parts 71 and 72 are amended as follows:

1. In Part 71, a new Subpart J–2 is established immediately after Subpart J–1 as follows:

Subpart J–2—Importation of Turtles, Tortoises, Terrapins

Sec
71.171 Definitions.
71.172 Importation; general prohibition.
71.173 Exceptions.
71.174 Application for permits.
71.175 Issuance of permits; criteria.
71.176 Penalties.

AUTHORITY: The provisions of this Subpart J issued under sec. 361, 58 Stat. 703; 42 U.S.C. 264

Subpart J–2—Importation of Turtles, Tortoises, Terrapins

§ 71.171 Definitions.

As used in this subpart:

(a) "Turtles" includes all animals commonly known as turtles, tortoises, terrapins and all other animals of the order *Testudinata*, class *Reptilia* except marine species (Families *Dermochelidae* and *Cheloniidae*).

(b) "Director" means the Director, Center for Disease Control, Health Services and Mental Health Administration, Department of Health, Education, and Welfare, Atlanta, Ga. 30333.

§ 71.172 Importation; general prohibition.

Except as otherwise provided in this subpart, viable turtle eggs and live turtles with a carapace length of less than 4 inches may not be imported into the United States.

§ 71.173 Exceptions.

(a) Live turtles with a carapace length of less than 4 inches and viable turtle eggs may be imported into the United States: *Provided*, That such importation is limited to lots of less than seven (7) live turtles or less than seven (7) viable turtle eggs, or any combination of such turtles and turtle eggs totalling less than seven (7), for any entry.

(b) Lots of seven (7) or more viable turtle eggs or seven (7) or more live turtles with a carapace length of less than 4 inches, or any combination of such turtles and turtle eggs totaling seven (7) or more, may be imported into the United States for bona fide scientific or educational purposes or for exhibition when accompanied by a permit issued by the Director.

(c) The requirements in paragraph (a) and (b) of this section shall not apply to the eggs of marine turtles excluded from this regulation under § 71.171(a).

§ 71.174 Application for permits.

Application for permits to import lots of seven (7) or more viable turtle eggs or seven (7) or more live turtles with a carapace length of less than 4 inches, or any combination of such turtles and turtle eggs totaling seven (7) or more, for the purposes set forth in § 71.173 shall be made by letter to the Director, and shall contain, identify, or describe the name and address of the applicant, the number of specimens, and the common and scientific names of each species to be imported, the holding facilities; the intended use of the turtles following their importation, the precautions to be undertaken to prevent infection of members of the public with bacteria of the *Salmonella* and *Arizona* genera and such other information and assurances as the Director may deem necessary to protect the public health.

§ 71.175 Issuance of permits; criteria.

A permit may be issued upon a determination that the holder of the permit will isolate or otherwise confine the turtles and will take such other precautions as may be determined by the Director to be necessary to avoid infection of members of the public with bacteria of the *Salmonella* and *Arizona* genera and on condition that the holder of the permit will provide such reports as may be required by the Director to protect the public health.

§ 71.176 Penalties.

Any person violating any provision of this subpart shall be subject to a fine of not more than $1,000 or imprisonment for not more than 1 year, or both, as provided in section 368 of the Public Health Service Act (42 U.S.C. 271).

2. Part 72 is amended by adding a new section, as follows:

§ 72.26 Turtles.

(a) *Definitions.* As used in this section:

(1) The term "turtles" includes all animals commonly known as turtles, tortoises, terrapins, and all other animals of the order *Testudinata*, class *Reptilia* except marine species (families *Dermachelidae* and *Cheloniidae*).

(2) The term "State of origin" as used in paragraph (b) of this section means the State or possession in which the turtles or turtle eggs were originally hatched or produced.

(b) *Interstate shipment; general prohibition.* Except as otherwise provided in this section, viable turtle eggs and live turtles with a carapace length of less than 4 inches shall not be transported or offered for sale after shipment in interstate commerce, unless the shipment is accompanied by a certificate issued by the health authority of the State of origin certifying that each shipment of live turtles or viable turtle eggs is free of bacteria of the *Salmonella* and *Arizona* genera. After shipment in interstate commerce the same intact shipment of live turtles or viable turtle eggs shall not require further such certification under provisions of this section; however, if at any subsequent point in its distribution such shipment becomes commingled or intermingled with a lot that has not been so certified, then such turtles or turtle eggs shall not be offered for sale or further transported in interstate commerce unless the entire lot has been tested and certified free of bacteria of the *Salmonella* and *Arizona* genera by the health authority of the State or possession in which such commingling or intermingling occurred.

(c) *Certification; test procedures.* Certification of freedom from bacteria of the *Salmonella* and *Arizona* genera may be issued by the health authority of the appropriate State or possession on the basis of the examination of 60 turtles or 60 turtle eggs from each shipment, regardless of the size of the shipment. The examination shall be conducted in a laboratory licensed in microbiology pursuant to section 353 of the Public Health Service Act and shall utilize the following procedure adapted from "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th edition, sections 41.024–41.040, pages 845–851:

(1) Place five turtles in each of 12 sterile glass containers with a capacity of

1,000 milliliters (larger capacity containers should be used if necessary to avoid overcrowding).

(2) Add 50 milliliters of sterile distilled water to each of the containers of turtles.

(3) Cover each container with sterile aluminum foil and hold the turtles in the containers at room temperature (about 25° C.) for at least 72 hours.

(4) Do not remove the foil cover or add food, water, or other materials to the containers during the holding period.

(5) After a minimum of 72 hours remove the turtles from the containers using a sterile forceps.

(6) For each of the 12 containers transfer 1 milliliter of the residual water into a separate tube containing 10 milliliters of tetrathionate broth (with iodine and brilliant green) and incubate these 12 tetrathionate enrichment cultures for 24 hours at 35° to 37° C.

(7) After 24 hours incubation, subculture each of the 12 tetrathionate enrichment cultures to brilliant green agar and complete isolation and identification according to methods specified in "Official Methods of Analysis of the Association of Official Analytical Chemists," 11th Edition section 41.024–41.040, pages 845–851.

(8) In the examination of turtle eggs, rinse 60 eggs with sterile distilled water to remove visible extraneous matter from the shells. Place the 60 cleansed eggs into a sterile blender cup. Replace blender lid and homogenize eggs for 2 minutes at low speed. Transfer 1 milliliter of the blended egg material into 10 milliliters of tetrathionate broth, and proceed as in subparagraphs (6) and (7) of this paragraph.

(9) Upon completion of the laboratory examination, the examining laboratory shall submit a report to the health officer of the appropriate State or possession, or his delegated representative. The laboratory report shall specify the name and address of the producer or shipper (consignor) and of the consignee, the number and species of turtles or turtle eggs intended for interstate shipment, and the results of the examination, and it shall be signed by the examining microbiologist or director of the examining laboratory. Certification of freedom from bacteria of the *Salmonella* and *Arizona* genera may be issued if, to the satisfaction of the health authority of the appropriate State or possession, the laboratory examination has been performed according to the procedure specified in this section, and all specimens examined were free of bacteria of the *Salmonella* and *Arizona* genera.

(d) *Destruction of turtles or turtle eggs; criminal penalties*—(1) *Destruction.* Any live turtles or viable turtle eggs which have been transported in interstate commerce without a certificate required by paragraph (b) of this section, and any live turtles or viable turtle eggs which are held for sale or offered for any other type of commercial or public distribution and are found to contain bacteria of the *Salmonella* or *Arizona* genera when sampled and tested by a method appropriate for determination of the presence of such bacteria in the turtles or turtle eggs, and any live turtles or viable turtle eggs which are held for sale or offered for any other type of commercial or public distribution and are found to be held in water which contains bacteria of the *Salmonella* or *Arizona* genera when tested by an appropriate method, shall be subject to destruction, by or under the supervision of an officer or employee of the Food and Drug Administration in accordance with the following procedures:

(i) Any District Office of the Food and Drug Administration, upon detecting live turtles or viable turtle eggs which have been transported in interstate commerce without a certificate required by paragraph (b) of this section, or which are held for sale or offered for any other type of commercial or public distribution and which contain, or are held in water containing, bacteria of the *Salmonella* or *Arizona* genera, shall serve upon the person in whose possession such turtles or turtle eggs are found a written demand that such turtles or turtle eggs be destroyed, under the supervision of said District Office, within 10 working days from the date of promulgation of the demand. The demand shall recite with particularity the facts which justify the demand. After service of the demand, the person in possession of the turtles or turtle eggs shall not sell, distribute, or otherwise dispose of any of the turtles or turtle eggs except to destroy them under the supervision of the District Office, unless and until the Director of the Bureau of Foods withdraws the demand for destruction after an appeal pursuant to subdivision (ii) of this subparagraph.

(ii) The person on whom the demand for destruction is served may either comply with the demand or, within 10 working days from the date of its promulgation, appeal the demand for destruction to the Director of the Bureau of Foods, Food and Drug Administration. The demand for destruction may also be appealed, within the same period of 10 working days, by any other person having a pecuniary interest in such turtles or turtle eggs. In the event of such an appeal, the Bureau Director shall provide an opportunity for a hearing, by written notice to the appellant(s) specifying a time and place for the hearing, to be held within 14 days from the date of the notice but not within less than 7 days unless by agreement with the appellant(s).

(iii) Appearance by any appellant at the hearing may be by mail or in person, with or without counsel. The hearing shall be conducted by the Bureau Director or his designee, and a written summary of the proceedings shall be prepared by the person presiding. Any appellant shall have the right to hear and to question the evidence on which the demand for destruction is based, including the right to cross-examine witnesses, and he may present oral or written evidence in response to the demand.

(iv) If, based on the evidence presented at the hearing, the Bureau Director finds that the turtles or turtle eggs were transported in interstate commerce without a certificate in violation of this section, or that the turtles or turtle eggs were held for sale or offered for any other type of commercial or public distribution and that they contain, or are held in water which contains, bacteria of the *Salmonella* or *Arizona* genera, the Bureau Director shall affirm the demand that they be destroyed under the supervision of an officer or employee of the Food and Drug Administration; otherwise, the Bureau Director shall issue a written notice that the prior demand by the District Office is withdrawn. If the Bureau Director affirms the demand for destruction he shall order that the destruction be accomplished within 10 working days from the date of the promulgation of his decision. The Bureau Director's decision shall be accompanied by a statement of the reasons for the decision. The decision of the Bureau Director shall constitute final Agency action, appealable in the courts.

(v) If there is no appeal to the Director of the Bureau of Foods from the demand by the FDA District Office and the person in possession of the turtles or turtle eggs fails to destroy them within 10 working days, or if the demand is affirmed by the Director of the Bureau of Foods after an appeal and the person in possession of the turtles or turtle eggs fails to destroy them within 10 working days, the District Office shall designate an officer or employee to destroy the turtles or turtle eggs. It shall be unlawful to prevent or to attempt to prevent such destruction of turtles or turtle eggs by the officer or employee designated by the District Office. Such destruction will be stayed if so ordered by a court pursuant to an appeal in the courts as provided in subdivision (iv) of this subparagraph.

(2) *Criminal penalties.* Any person who violates any provision of this section, including but not limited to any person who transports live turtles or viable turtle eggs in interstate commerce without a certificate required by paragraph (b) of this section, or who offers for sale, live turtles or viable turtle eggs which have been transported in interstate commerce without such a certificate, or who refuses to comply with a valid final demand for destruction of turtles or turtle eggs (either an unappealed demand by an FDA District Office or a demand which has been affirmed by the Director of the Bureau of Foods pursuant to appeal), shall be subject to a fine of not more than $1,000 or imprisonment for not more than 1 year, or both, for each violation, in accordance with section 368 of the Public Health Service Act (42 U.S.C. 271).

(e) *Exceptions.* The provisions of this section are not applicable to:

(1) Live turtles and viable turtle eggs used for bona fide scientific, educational, or exhibitional purposes, other than use as pets.

(2) Lots of less than seven (7) live turtles or less than seven (7) viable turtle eggs or any combination of such turtles and turtle eggs totaling less than seven (7).

(3) Marine turtles excluded from this regulation under the provisions of paragraph (a)(1) of this section and eggs of such turtles.

Effective date. This order shall become effective 30 days after its date of publication in the FEDERAL REGISTER.

(Sec. 361, 58 Stat. 703; 42 U.S.C. 264)

Dated: November 6, 1972.

NOTE: Incorporation by reference provisions approved by the Director of the Federal Register September 25, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: November 15, 1972.

ROBERT O. BEATTY,
Acting Secretary.

Dated: October 31, 1972.

CHARLES C. EDWARDS,
Commisioner, Food and Drug Administration.

Title 49—TRANSPORTATION

Subtitle A—Office of the Secretary of Transportation

[OST Docket No. 1; Amdt. 1-64]

PART 1—ORGANIZATION AND DELEGATION OF POWERS AND DUTIES

Delegation of Authority With Respect to Safety of Liquid Pipelines

The purpose of this amendment is to revoke the delegation to the Federal Railroad Administrator to carry out the liquid pipeline safety functions under 18 U.S.C. 831-835 and to delegate that authority to the Assistant Secretary for Safety and Consumer Affairs.

Since this amendment relates to Departmental management, procedures, and practices, notice and public procedure thereon is unnecessary and it may be made effective in less than 30 days after publication in the FEDERAL REGISTER.

In consideration of the foregoing, Part 1 of Title 49, Code of Federal Regulations, is amended, effective November 7, 1972, as follows:

§ 1.24 [Amended]

1. Section 1.24(e) is amended by deleting the words "of natural and other toxic gas".

2. Section 1.49(f) is revised to read as follows:

§ 1.49 Delegations to Federal Railroad Administrator.

* * * * *

(f) Carry out the functions of the Secretary under sections 831-835 of title 18, United States Code, relating generally to explosives and other dangerous articles, so far as they pertain to railroads.

* * * * *

3. Section 1.58(d) is revised to read as follows:

§ 1.58 Delegations to Assistant Secretary for Safety and Consumer Affairs.

* * * * *

(d) Carry out the functions vested in the Secretary by the following statutes:

(1) The Natural Gas Pipeline Safety Act of 1968 (82 Stat. 720, 49 U.S.C. 1671).

(2) Sections 831-835 of title 18, United States Code, so far as they pertain to pipelines.

* * * * *

This amendment is issued under the authority of section 9 of the Department of Transportation Act (49 U.S.C. 1657).

Issued in Washington, D.C., on November 7, 1972.

JOHN A. VOLPE,
Secretary of Transportation.

NOVEMBER 7, 1972.

ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Proposed Container, Pack, and Container Marking Regulations

Consideration is being given to the following proposal, applicable to § 906.340 *Container, pack, and container marking regulations* (7 CFR 906.340; 37 F.R. 2765; 4707; 21800; 23626), recommended by the Texas Valley Citrus Committee, established pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906) regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas. This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601-674).

All persons who desire to submit written data, views, or arguments in connection with the proposal should file the same with the Hearing Clerk, Room 112A, U.S. Department of Agriculture, Washington, D.C. 20250, not later than the seventh day after the publication of this notice in the FEDERAL REGISTER. All written submissions made pursuant to this notice will be made available for public inspection at the office of the Hearing Clerk during regular business hours (7 CFR 1.27(b)).

This action reflects the committee's appraisal of the need for restricting the use of containers and pack sizes to those most suitable for the packing and handling of fruit to promote orderly marketing, so as to provide consumers with good quality fruit, while improving returns to producers pursuant to the declared policy of the act. The proposed amendment would update the language of paragraph (a)(2)(i) in § 906.340, so that it conforms to the current U.S. Standards for Oranges (Texas and States other than Florida, California, and Arizona). Such standards were revised effective October 1, 1969. Specifically, the proposed amendment would (1) specify, except as otherwise provided by regulations issued pursuant to this part, that oranges shall be packed within the diameter limits specified in § 51.691 (c) of the U.S. Standards for Grades of Oranges (Texas and States other than Florida, California, and Arizona); (2) require oranges when packed in boxes or cartons to be packed in accordance with the requirements of standard pack; and (3) specify that the packing tolerances set forth in the U.S. Standards for Oranges shall apply to the pack requirements for Navel oranges and Valencia and similar late type oranges, and make a few nonsubstantive changes in such provisions.

The proposal is that the provisions of paragraph (a)(2)(i) of § 906.340 (7 CFR 906.340; 37 F.R. 2765; 4707; 21800; 23626) be amended to read as follows:

§ 906.340 Container, pack, and container marking regulations.

(a) * * *

(2) * * *

(i) *Oranges.* (*a*) Oranges, except Navel oranges and Valencia and similar late type oranges, when packed in any box, bag, or carton shall, except as otherwise provided by regulations issued pursuant to this part, be within the diameter limits specified for the various pack sizes in § 51.691(c) of the U.S. Standards for Oranges (Texas and States other than Florida, California, and Arizona);

(*b*) Oranges, except Navel oranges and Valencia and similar late-type oranges, when packed in boxes or cartons shall be packed in accordance with the requirements of standard pack; and

(*c*) Navel oranges and Valencia and similar late type oranges, when placed packed in any box or carton shall be sized in accordance with the sizes set forth in the following table I, except as otherwise provided by regulations issued pursuant to this part, and otherwise meet the requirements of standard pack; and when in containers not packed according to a definite pattern shall be sized in accordance with the sizes set forth in the following table I and otherwise meet the requirements of standard sizing: *Provided*, That the packing tolerances, which are set forth in the U.S. Standards for Oranges, shall be applicable to fruit so packed: And *provided further*, That the variation from the smallest to the largest fruit in any container is not more than the following applicable amount:

(*1*) 46, 54, 64, 70 or 72, or 80 sizes—not more than eight-sixteenths inch in diameter;

(*2*) 100, 112, or 125 sizes—not more than six-sixteenths inch in diameter;

(*3*) 163, or 200 sizes—not more than five-sixteenths inch in diameter; and

(*4*) 252, 288, or 324 sizes—not more than four-sixteenths inch in diameter.

TABLE I—1⅑ BUSHEL BOX
(DIAMETER IN INCHES)

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office of the Secretary

[45 CFR Part 16]

DEPARTMENT GRANT APPEALS PROCESS

Notice of Proposed Departmental Grant Appeals Board

Pursuant to the authority contained in sections 1, 5, 6, and 7 of Reorganization Plan Number 1 of 1953 (18 F.R. 2053, 67 Stat. 631) and the authority implicit in the separate statutes authorizing the provision of assistance through grants as set forth in the appendices to the rule proposed herein, the Secretary of Health, Education, and Welfare, with the concurrence and approval of the concerned agency heads, hereby proposes to amend Title 45 of the Code of Federal Regulations by adding a new Part 16, as set forth below.

The new Part 16 would establish a Departmental Grant Appeals Board from which Grant Appeals Panels would be selected for the purpose of reviewing and providing hearings upon post-award disputes which may arise in the administration of certain grant programs by constituent agencies of the Department of Health, Education, and Welfare.

Part 16 would insure fair and impartial review or reconsideration of such disputes by establishing review procedures at the Department level.

(3) The disapproval of a grantee's re-

determines that such requirements have

findings of fact and conclusions based

V37-224 NOV 18 72 XUM

Grantees will have access to these procedures on the basis of certain adverse determinations by cognizant officers or employees of the constituent agencies. Following proceedings before the Board of a formal or informal nature (depending upon the nature of the issues of the case), the Board will render an initial decision in writing which will be sent directly to each party to the proceeding and to the head of the constituent agency involved in the case before it. Each party will have the opportunity to submit written comments on the initial decision to the head of the constituent agency.

The initial decision of the Board (or the Panel thereof assigned to a case) will become the final decision of the constituent agency, unless, within a prescribed time, the head of the constituent agency determines to review such decision and, upon such review, it is modified. If modified such decision will not be served before affording the Secretary an opportunity to study it. (The parties will not have an appeal "as of right" to the agency head; the agency head may decline to review the initial decision of the Board.)

This decision and review structure follows procedures customarily used by Federal agencies for review of hearing decisions under the Administrative Procedure Act and is designed to afford to aggrieved grantees maximum due process and to the heads of the constituent agencies the benefit of a full record before a final decision is made in disputes between grantees and employees or officers of the agency.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposed new Part 16 to the U.S. Secretary of Health, Education, and Welfare, 330 Independence Avenue SW., Washington, DC 20201, within 45 days from the date of publication of this notice in the FEDERAL REGISTER. Comments received in response to the notice will be available for public inspection at Room 4808, 400 6th Street SW., Washington, DC 20201 from 9 a.m. to 4:30 p.m., Monday through Friday.

Dated: October 19, 1972.

ELLIOT L. RICHARDSON,
Secretary.

PART 16—DEPARTMENTAL GRANT APPEALS BOARD

Sec.
16.1 Purpose.
16.2 Scope.
16.3 Definitions.
16.4 Grant appeals board; grant appeals panel.
16.5 Determinations subject to the jurisdiction of the board.
16.6 Submission.
16.7 Effect of submission.
16.8 Substantive and procedural rules.
16.9 Hearing before panel or a hearing officer.
16.10 Initial decision; final decision.
16.11 Separation of functions.

AUTHORITY: The provisions of this Part 16 issued under sections 1, 5, 6, and 7 of Reorganization Plan No. 1 of 1953, 18 F.R. 2053, 67 Stat. 631 and the individual authorities cited in the Appendices.

§ 16.1 Purpose.

This part establishes a Departmental Grant Appeals Board, for the purpose of reviewing and providing hearings upon post-award disputes which may arise in the administration of or carrying out of grants under grant programs (as described in § 16.2) and which are submitted to the Board as provided in § 16.6.

§ 16.2 Scope.

(a) This part applies to certain determinations (as set forth in § 16.5), made after the effective date of this part, with respect to grants awarded by a constituent agency of the Department of Health, Education, and Welfare pursuant to: (1) Any program which authorizes the making of direct, discretionary project grants or (2) any other program (including any State plan, formula program) which the head of the constituent agency, with the approval of the Secretary, may designate in whole or in part.

(b) Notwithstanding paragraph (a) of this section, this part shall not be applicable to a determination: (1) If the grantee is entitled to an opportunity for hearing with respect to such determination pursuant to 5 U.S.C. sec. 554 or (2) if, in order to meet special needs applicable to a particular program, the constituent agency has established an appropriate alternative procedure (which is available to the grantee) for the review or resolution of such determination and the Secretary has approved such procedure as an alternative to the procedures under this part.

(c) Programs to which this part is applicable shall be listed in the Appendixes to this part. With the approval of the Secretary, a program not so listed may be made subject to this part through an appropriate designation by the head of the constituent agency concerned. The Appendixes referred to in the preceding sentence shall be promptly updated to reflect such designations.

(d) This part does not apply to any action taken pursuant to title VI of the Civil Rights Act of 1964, Part 80 of this title, and Executive Order No. 11246.

§ 16.3 Definitions.

For purposes of this part:

(a) "Board" means the Departmental Grant Appeals Board, as described in paragraph (a) of § 16.4.

(b) "Board Chairman" means the Board member designated by the Secretary to serve as Chairman of the Board.

(c) "Panel" means a Grant Appeals Panel, as described in paragraph (b) of § 16.4.

(d) "Panel Chairman" means a member of a Grant Appeals Panel who has been designated as Chairman of such Panel by the Board Chairman.

(e) "Constituent agency" means the Office of Education, the Health Services and Mental Health Administration, the Social and Rehabilitation Service, the Office of Child Development, the National Institutes of Health, the Food and Drug Administration, the Office of Grant Administration Policy, or any other organizational component of the Department which the Secretary may designate.

(f) "Head of the constituent agency" means, as appropriate, the Commissioner of Education, the Administrator, Health Services and Mental Health Administration, the Administrator of the Social and Rehabilitation Service, the Director of the Office of Child Development, the Director of the National Institutes of Health, the Commissioner of the Food and Drug Administration, the Deputy Assistant Secretary for Grant Administration Policy, or the head of any organizational component designated by the Secretary pursuant to paragraph (e) of this section.

(g) The terms "Department" and "Departmental" refer to the U.S. Department of Health, Education, and Welfare.

(h) "Secretary" means the U.S. Secretary of Health, Education, and Welfare.

(i) "Termination" of a grant means the termination of the grantee's authority to charge allowable costs to a grant prior to the grant expiration date in the grant award document.

§ 16.4 Grant Appeals Board; Grant Appeals Panel.

(a) There is established, within the Office of the Secretary, a Departmental Grant Appeals Board consisting of not more than nine members appointed by the Secretary, for such terms as may be designated by him, to perform the functions described in this part. Persons who are not otherwise employees or officers of the Department or of any of its constituent agencies (as well as such employees or officers) may be appointed to the Board.

(b) The Secretary shall designate one of the members of the Board to be Chairman. The Board Chairman shall designate Grant Appeals Panels for the consideration of one or more cases submitted to the Board. Each such Panel shall consist of not less than three members of the Board. The Board Chairman may, at his discretion, constitute the entire Board to sit for any case or class of cases. The Board Chairman shall designate himself or any other member of a Panel to serve as Chairman.

§ 16.5 Determinations subject to the jurisdiction of the Board.

(a) Subject to § 16.2 and paragraph (b) of this section, the Board shall have jurisdiction over the following determinations of a cognizant officer or employee of a constituent agency adverse to a grantee:

(1) Termination, in whole or in part, of a grant for failure of the grantee to conform with grant terms and conditions.

(2) A determination that an expenditure not allowable under the grant has been charged to the grant or that the grantee has otherwise failed to discharge its obligation to account for grant funds.

(3) The disapproval of a grantee's request for permission to incur an expenditure during the term of a grant.

(4) A determination that a grant is void.

(5) Establishment of indirect cost or research patient hospital care rates (except where the grantee has appealed to the Armed Services Board of Contract Appeals with respect to such determination under a contract with the Department).

(b) A determination described in paragraph (a) of this section may not be reviewed by the Board unless: (1) An officer or employee of the constituent agency has notified the grantee in writing of such determination and (2) such informal procedures as the agency has established by regulation for the resolution (prior to submission to the Board) of issues related to such determination have been exhausted. A notification described in subparagraph (1) of this paragraph shall set forth the reasons for the determination in sufficient detail to enable the grantee to respond and shall inform the grantee of his opportunity for review under this part. In the case of a determination under paragraph (a) (3) of this section, the failure of a constituent agency to approve a grantee's request within a reasonable time shall be deemed by the Board a notification for purposes of this paragraph.

§ 16.6 Submission.

(a) *Application for review.* (1) A grantee with respect to whom a determination described in § 16.5 has been made and who desires review may file with the Board an application for review of such determination. The grantee's application for review must be postmarked no later than 30 days after the postmark date of notification provided pursuant to § 16.5(b)(1) except when (i) the head of the constituent agency, by regulation, establishes a different period of time for any class of cases or (ii) the Board Chairman grants an extension of time for good cause shown.

(2) Although the application for review need not follow any prescribed form, it shall clearly identify the question or questions in dispute and contain a full statement of the grantee's position with respect to such question or questions, and the pertinent facts and reasons in support of such position. The grantee shall attach to his submission a copy of the agency notification described in § 16.5(b)(1). (b) *Action by Board on application for review.*

(1) The Board Chairman shall promptly send a copy of the grantee's application to the appropriate constituent agency.

(2) If the Board Chairman determines, after receipt of an application for review, that the requirements of § 16.5 have been satisfied, he shall promptly refer the application to a Grant Appeals Panel designated pursuant to § 16.4(b) for further proceedings under this part. If he determines that such requirements have not been met, the Board Chairman shall advise the grantee of the reasons for the rejection of the application.

§ 16.7 Effect of submission.

When an application has been filed with the Board with respect to a determination, no action may be taken by the constituent agency pursuant to such determination until such application has been disposed of, except that the filing of the application shall not affect the authority which the constituent agency may have to suspend assistance under a grant during proceedings under this part or otherwise to withhold or defer payments under the grant.

§ 16.8 Substantive and procedural rules.

(a) *Substantive rules.* The Panel shall be bound by all applicable laws and regulations.

(b) *Procedural rules.* (1) With respect to cases involving, in the opinion of the Panel, no dispute as to a material fact the resolution of which would be materially assisted by oral testimony, the Panel shall take appropriate steps to afford to each party to the proceeding an opportunity for presenting his case at the option of the Panel (i) in whole or in part in writing or (ii) in an informal conference before the Panel which shall afford each party: (*a*) Sufficient notice of the issues to be considered (where such notice has not previously been afforded); and (*b*) an opportunity to be represented by counsel.

(2) With respect to cases involving a dispute as to a material fact the resolution of which would be materially assisted by oral testimony, the Panel shall afford each party an opportunity for a hearing, which shall include, in addition to provisions required by subparagraph (1)(ii) of this paragraph provisions designed to assure to each party the following:

(i) A transcript of the proceedings;

(ii) An opportunity to present witnesses on his behalf; and

(iii) An opportunity to cross-examine other witnesses either orally or through written interrogatories.

(3) After consultation with the constituent agencies, the Board shall, with the approval of the Secretary, promulgate and publish rules of procedure, including rules respecting opportunity for intervention by interested third parties, relating to proceedings under this part.

§ 16.9 Hearing before Panel or a Hearing Officer.

A hearing pursuant to § 16.8(b)(2) shall be conducted, as determined by the Panel Chairman, either before the Panel or a hearing officer. The hearing officer may be (a) one of the members of the Panel or (b) a nonmember who is appointed as a hearing examiner under 5 U.S.C. 3105.

§ 16.10 Initial decision; final decision.

(a) The Panel shall prepare an initial written decision, which shall include findings of fact and conclusions based thereon. When a hearing is conducted before a hearing officer alone, the hearing officer shall separately find and state the facts and conclusions which shall be incorporated in the initial decision prepared by the Panel.

(b) Copies of the initial decision shall be mailed promptly by the Panel to each party, or his counsel and to the Secretary with a notice affording such party an opportunity to submit written comments thereon to the head of the appropriate constituent agency within a specified reasonable time.

(c) The initial decision of the Panel shall be transmitted to the head of the constituent agency and shall become the final decision of the constituent agency, unless, within 25 days after the expiration of the time for receipt of written comments, the head of the appropriate constituent agency signifies his determination to review such decision.

(d) In any case in which the head of the constituent agency modifies or reverses the initial decision of the Panel, he shall accompany such action by written statement of the grounds for such modification or reversal, which shall promptly be filed with the Secretary and the Board. In order to afford the Secretary an opportunity to study such decision of the agency head, it shall be served upon the parties no earlier than 30 days after such filing. Such decision shall not become final until it is served upon the grantee involved or his attorney.

(e) The authority to review initial decisions shall not be delegated. Review of any initial decision by the head of the constituent agency shall be based upon such decision, the written record, if any, of the Panel's proceedings, and written comments or oral arguments by the parties, or by their counsel, to the proceeding.

§ 16.11 Separation of functions.

No person who participated in prior administrative consideration, or in the preparation or presentation of, a case submitted to the Board shall advise or consult with, and no person having an interest in such case shall make or cause to be made an ex parte communication to, the Panel, Board, or head of the constituent agency with respect to such case, unless all parties to the case are given timely and adequate notice of such advice, consultation, or communication, and reasonable opportunity to respond is given all parties.

APPENDICES

This part is issued under sections 1, 5, 6, and 7 of Reorganization Plan No. 1 of 1953, 18 F.R. 2053, 67 Stat. 631 and is applicable to programs carried out under the following authorities:

DEPARTMENT OF TRANSPORTATION

Hazardous Materials Regulations Board

[49 CFR Parts 171, 174, 175]

[Docket No. HM–22; Notice No. 72–12]

MATTER INCORPORATED BY REFERENCE

Notice of Proposed Rule Making

The Hazardous Materials Regulations Board of the Department of Transportation is considering amending the Hazardous Materials Regulations to update the following references:

1. The addenda to sections VIII (Division I) and IX of the American Society of Mechanical Engineers Boiler and Pressure Vessel Code.
2. CGA Pamphlet C–8, "Standard for Requalification of DOT–3HT Cylinders."
3. NFPA No. 58, "Storage and Handling Liquefied Petroleum Gases."

In addition, it is proposed to add a reference to NACE Standard TM–01–60, "Test Method Laboratory Corrosion Testing of Metals for the Process Industries," which was omitted in Docket HM–57 (37 F.R. 5946), and remove the title of the Bureau of Explosives' Pamphlet No. 22 in §§ 174.600(a) and 175.655(j)(3) Note 2 since the pamphlet is now incorporated in Part 171.

Petitions have been received by the Board requesting these changes.

In consideration of the foregoing, it is proposed to amend 49 CFR Parts 171, 174, and 175 as follows:

PART 171—GENERAL INFORMATION AND REGULATIONS

In § 171.7, subparagraphs (d)(1), (d)(3)(iii), and (d)(6) would be amended; subparagraph (d)(9) would be added to read as follows:

§ 171.7 Matter incorporated by reference.

. . . . . .

(d) • • •

(1) ASME Code means sections VIII (Division I) and IX of the 1971 edition of the "American Society of Mechanical Engineers Boiler and Pressure Vessel Code," and addenda thereto through June 30, 1972.

. . . . . .

(3) • • •

(iii) CGA Pamphlet C–8 is titled, "Standard for Requalification of DOT–3HT Cylinders," 1972 edition.

. . . . . .

(6) NFPA Pamphlet No. 58 is titled, "Standard for the Storage and Handling of Liquefied Petroleum Gases," 1972 edition.

. . . . . .

(9) NACE Standard TM–01–69 is titled, "Test Method Laboratory Corrosion Testing of Metals for the Process Industries," 1969 edition.

PART 174—CARRIERS BY RAIL FREIGHT

In § 174.600, paragraph (a) would be amended to read as follows:

§ 174.600 In case of a wreck.

(a) Details involving the handling of hazardous materials in the event of a wreck may be found in Bureau of Explosives Pamphlet No. 22:

. . . . . .

PART 175—CARRIERS BY RAIL EXPRESS

In § 175.655, Note 2 following subparagraph (j)(3) would be amended to read as follows:

§ 175.655 Protection of packages.

(j) • • •

(3) • • •

NOTE 2: Details involving the handling of radio-active materials in the event of an accident can be found in Bureau of Explosives Pamphlet No. 22.

. . . . . .

Interested persons are invited to give their views on this proposal. Communications should identify the docket number and be submitted in duplicate to the Secretary, Hazardous Materials Regulations Board, 400 Sixth Street, SW., Washington, DC 20590. Communications received on or before December 19, 1972, will be considered before final action is taken on the proopsal. All comments received will be available for examination by interested persons at the Office of the Secretary, Hazardous Materials Regulations Board, both before and after the closing date for comments.

This proposal is made under the authority of sections 831–835, title 18, United States Code, section 9 of the Department of Transportation Act (49 U.S.C. 1657), and title VI and section 902(h) of the Federal Aviation Act of 1958 (49 U.S.C. 1421–1430 and 1472(h)).

Issued in Washington, D.C., on November 14, 1972.

W. J. BURNS,
Director,
Office of Hazardous Materials.

FEDERAL DEPOSIT INSURANCE CORPORATION

[12 CFR Part 338]

FAIR HOUSING LENDING PRACTICES

Notice of Hearing on Proposed Rule Making

On September 14, 1972, the Federal Deposit Insurance Corporation, by action of its Board of Directors, caused to be published in the FEDERAL REGISTER of September 20, 1972 (37 F.R. 19385), a proposed Part 338 of its regulations, entitled Fair Housing Lending Practices. The notice of proposed rule making solicited comments on the proposal and stated (1) that a hearing would be held to solicit further views and (2) that at least 30 days' notice would be accorded as to the time and place of the hearing.

Notice is hereby given that a hearing will be held on Tuesday, December 19, 1972, at the New Executive Office Building, Room 2008, 17th and H Streets NW., Washington, D.C., beginning at 10 a.m. Each person or representative of a group who wishes to make an oral presentation must make a request in writing addressed to the Secretary, Federal Deposit Insurance Corporation, at 550 17th Street NW., Washington, DC 20429, on or before December 5, 1972. A written copy of the statement, or a summary of points to be covered, must accompany the request.

Oral presentations will be limited to no more than 30 minutes per person or group representative unless the Board further limits the time for oral presentations in the interests of expediting the hearing or prior approval of the Board is obtained for additional time. A request for additional time, setting forth the amount of additional time required and the reasons therefor, should be made in writing and should accompany the request to be heard.

The Board of Directors or its representative may exclude testimony and related data or material which is deemed improper, irrelevant, or repetitive.

Persons making statements will be notified by December 15, 1972, of their order of appearance and of the amount of time to be allotted them for their presentation. A list of all persons who will be speaking, the order of their appearance, and the written statement or summary submitted by them will be available in the Secretary's Office for inspection from December 15, 1972.

The hearing will be an informal public hearing conducted by the Board of Directors of the Federal Deposit Insurance Corporation or a representative designated by the Board. Participants will not be permitted to examine or cross-examine other participants. However, the members of the Board of Directors or its representative may question those appearing for the purpose of obtaining a fuller exposition of their views. Also, persons may, should they so desire, submit questions in writing to be asked of speakers by the presiding officer if, in his discretion, he believes such questions would contribute to a more complete airing of the issues.

After all initial statements have been completed, the Board of Directors or its representative may allow rebuttal statements.

In the light of written comments received in support of the proposed regulation, some of which recommended additions thereto, the Corporation would like comments at the hearing on its authority for, and the desirability of, expanding the scope of the proposed regulation to include:

(1) A prohibition against any lending discrimination based on sex;

(2) A prohibition against discrimination in any lending practice, not simply mortgage lending. The argument has been made that discrimination in other kinds of bank services tends to discourage persons from making applications for mortgage loans.

The Corporation has also received comments questioning the desirability and the effect of asking for racial or ethnic data by use of the Fair Housing Informational Statement described in § 338.6 of the proposed regulation. The argument made in these comments is that excluding such data from such forms is the best way to prevent conscious or unconscious racial discrimination in mortgage lending and is consistent with efforts made over time by minority groups to exclude such data. The Corporation would appreciate comments, including any surveys, particularly from representatives of minority groups or individual members of minorities, regarding the attitude of members of such groups toward providing the information required by the aforementioned Informational Statement.

In addition, written comments have been received by the Corporation from those who oppose the use of the Fair Housing Informational Statement because it would serve little or no useful purpose in areas of low minority concentration. The Corporation, therefore,

(f) *Adopted child.* Date of adoption

V37-224-NOV18-72 XUM

would welcome comments at the hearing concerning:

(1) The feasibility of applying § 338.6 of the proposed regulation on an experimental basis in limited geographical areas;

(2) The feasibility of exempting from the requirements of § 338.6 of the proposed regulation State nonmember banks located in areas of low minority concentration; and

(3) Constructive alternatives to the Informational Statement that would provide reliable data indicating the existence or absence of discrimination in the mortgage lending practices of State nonmember banks without the administrative problems and expense inherent in the use of such a Statement.

Persons planning to appear at the hearing are encouraged to review the public file in the Office of the Secretary of the Corporation, Room 6110, 550 17th Street NW., Washington, DC, to understand the comments on the proposed regulation received by the Corporation.

Dated at Washington, D.C., this 15th day of November 1972.

FEDERAL DEPOSIT INSURANCE CORPORATION,
[SEAL] E. F. DOWNEY,
Secretary.

VETERANS ADMINISTRATION

[38 CFR Part 3]

ADJUDICATION; DEFINITIONS

"Wife", "Widow" and "Legally Adopted Child"

Public Law 92-540, enacted October 24, 1972, provides that the term "child" in 38 U.S.C. 101(4) now includes a person who has been placed for adoption under an agreement entered into by the adopting parent (or parents) with any agency authorized by law to so act provided that the child remains in the custody of the adopting parent (or parents) during the period of placement for adoption under such agreement. In addition this law changes the definition of the term "wife" and "widow" in 37 U.S.C. 102(b) to include any husband or widower of a female veteran. Previously the term "wife" or "widow" included the husband or widower of a female veteran only if such individual was permanently incapable of self-support due to mental or physical disability. To implement these provisions of the law it is proposed to amend 38 CFR Part 3 as set forth below.

Interested persons are invited to submit written comments, suggestions, or objections regarding the proposal to the Administrator of Veterans Affairs (232H), Veterans Administration, Central Office, 810 Vermont Avenue NW., Washington, DC 20420. All relevant material received not later than 30 days after publication of this notice in the FEDERAL REGISTER will be considered. All written comments received will be available for public inspection at the above address only between the hours of 8 a.m. and 4:30 p.m., Monday through Friday (except holidays), during the mentioned 30-day period and for 10 days thereafter. Any persons visiting Central Office for the purpose of inspecting any such comments will be received by the Central Office Veterans Assistance Unit in Room 132. Such visitors to any VA field station will be informed that the records are available for inspection only in Central Office and will be furnished the address and the above room number.

Notice is also given that it is proposed to make these regulatory changes effective October 24, 1972.

1. Section 3.51 is revised to read as follows:

§ 3.51 Husband or widower.

(a) *General.* The term "wife" includes the husband of a female veteran and the term "widow" includes the widower of a female veteran.

(38 U.S.C. 102(b))

(b) *Entitlement.* A husband or widower is in the same status as a wife or widow of a male veteran and is eligible to receive the same benefits, if otherwise entitled, in a claim for pension, compensation, or dependency and indemnity compensation.

2. In § 3.57, paragraph (c) is amended to read as follows:

§ 3.57 Child.

* * * * *

(c) *Legally adopted child.* The term means a child adopted pursuant to a final decree of adoption, a child adopted pursuant to an unrescinded interlocutory decree of adoption while remaining in the custody of the adopting parent (or parents) during the interlocutory period, and a child who has been placed for adoption under an agreement entered into by the adopting parent (or parents) with any agency authorized under law to so act, unless and until such agreement is terminated, while the child remains in the custody of the adopting parent (or parents) during the period of placement for adoption under such agreement. The term includes, as of the date of death of a veteran, such a child who

(1) Was under age 18 and living in the veteran's household at the time of his death, and

(2) Was adopted by the veteran's spouse under a decree issued within 2 years after August 25, 1959, or the veteran's death whichever is later, and

(3) Was not receiving from an individual other than the veteran or his spouse, or from a welfare organization which furnishes services or assistance for children, recurring contributions of sufficient size to constitute the major portion of the child's support.

3. In § 3.210, the introductory portion of paragraph (c) preceding subparagraph (1) is amended to read as follows:

§ 3.210 Child's relationship.

* * * * *

(c) *Adopted child.* Except as provided in subparagraph (1) of this paragraph evidence of relationship will include a certified copy of the decree of adoption or a copy of the adoptive placement agreement and such other evidence as may be necessary.

* * * * *

4. Section 3.315 is revised to read as follows:

§ 3.315 Basic eligibility determinations; dependents, loans, education.

(a) *Child over 18 years.* A child of a veteran may be considered a "child" after age 18 for purposes of benefits under title 38, United States Code (except ch. 19 and sec. 5202(b) of ch. 85), if found by a rating determination to have become, prior to age 18, permanently incapable of self-support.

(38 U.S.C. 101(4)(B))

(b) *Loans.* Where a World War II veteran or a Korean conflict veteran had less than 90 days' service, or a veteran who served on or after February 1, 1955, had less than 181 days' service on active duty as defined in §§ 36.4301(gg) and 36.4501(o) of this chapter, eligibility of the veteran for a home, farm, or business loan under 38 U.S.C. ch. 37 requires a determination that the veteran was discharged or released because of a service-connected disability or that the official service department records show that he had at the time of separation from service a service-connected disability which in medical judgment would have warranted a discharge for disability. These determinations are subject to the presumption of incurrence under § 3.304(b). Determinations based on World War II, Korean conflict and Vietnam era service are also subject to the presumption of aggravation under § 3.306(b) while determinations based on service on or after February 1, 1955, and before August 5, 1964 are subject to the presumption of aggravation under § 3.306 (a) and (c). The provisions of this paragraph are also applicable, regardless of length of service, in determining eligibility to the maximum period of entitlement based on discharge or release for a service-connected disability.

(38 U.S.C. 1802, 1818)

(c) *Veterans' educational assistance.* Where a veteran who served on or after February 1, 1955, had less than 181 days service on active duty, as defined in § 21.1040 of this chapter, eligibility for educational assistance under 38 U.S.C. ch. 34 requires a determination that the veteran was discharged or released because of a service-connected disability or that the official service department records show that he had at the time of separation from service a service-connected disability which in medical judgment would have warranted a discharge for disability. These determinations are subject to the presumptions of incurrence

under § 3.304(b) and aggravation under § 3.306 (a) and (c), based on service rendered on or after February 1, 1955 and before August 5, 1964, and under § 3.306 (b), based on service rendered during the Vietnam era.

(38 U.S.C. 1852(a))

5. In § 3.356, paragraph (a) and the introductory portion and subparagraphs (1) and (2) of paragraph (b) are amended to read as follows:

§ 3.356 Conditions which determine permanent incapacity for self-support.

(a) *Basic determinations.* A child must be shown to be permanently incapable of self-support by reason of mental or physical defect at the date of attaining the age of 18 years.

(b) *Rating criteria.* Rating determinations will be made solely on the basis of whether the child is permanently incapable of self-support through his own efforts by reason of physical or mental defects. The question of permanent incapacity for self-support is one of fact for determination by the rating agency on competent evidence of record in the individual case. Rating criteria applicable to disabled veterans are not controlling. Principal factors for consideration are:

(1) The fact that a claimant is earning his or her own support is prima facie evidence that he or she is not incapable of self-support. Incapacity for self-support will not be considered to exist when the child by his or her own efforts is provided with sufficient income for his or her reasonable support.

(2) A child shown by proper evidence to have been permanently incapable of self-support prior to the date of attaining the age of 18 years, may be so held at a later date even though there may have been a short intervening period or periods when his or her condition was such that he or she was employed, provided the cause of incapacity is the same as that upon which the original determination was made and there were no intervening diseases or injuries that could be considered as major factors. Employment which was only casual, intermittent, tryout, unsuccessful, or terminated after a short period by reason of disability, should not be considered as rebutting permanent incapability of self-support otherwise established.

* * * * *

6. In § 3.403, paragraph (f) is amended to read as follows:

§ 3.403 Children.

Awards of pension, compensation, or dependency and indemnity compensation, to or for a child, or to or for a veteran or widow on behalf of such child, will be effective as follows:

* * * * *

(f) *Adopted child.* Date of adoption either interlocutory or final or date of adoptive placement agreement, but not earlier than the date from which benefits are otherwise payable.

7. In § 3.503, paragraph (j) is amended to read as follows:

§ 3.503 Children.

The effective date of discontinuance of pension, compensation, or dependency and indemnity compensation to or for a child, or to or for a veteran or widow on behalf of such child, will be the earliest of the dates stated in this section. Where an award is reduced, the reduced rate will be payable the day following the date of discontinuance of the greater benefit.

* * * * *

(j) *Interlocutory adoption decree or adoptive placement agreement.* Date child left custody of adopting parent during the interlocutory period or during adoptive placement agreement, or date of rescission of the decree or date of termination of the adoptive placement agreement, whichever first occurs.

Approved: November 14, 1972.

By direction of the Administrator.

NAVAL PETROLEUM AND OIL SHALE RESERVES

Notice of Boundary Description of Naval Petroleum Reserve No. 4; Correction

A notice of the boundary description of Naval Petroleum Reserve No. 4 was published in the FEDERAL REGISTER Friday, May 19, 1972 (37 F.R. 10088). Due to an undetected typographical inadvertence appearing in the middle of the second column at page 10089, the western tip of Kulgurak Island located at approximate latitude 71°09'32" N., longitude 155°05'53" W. was erroneously described at approximate latitude 70°-09'32" N., longitude 155°05'53" W. Accordingly, the latitude should read 71°09'32" N. and not 70°09'32" N.

Dated: November 13, 1972.

[SEAL] MERLIN H. STARING,
Rear Admiral, JAGC, U.S. Navy,
Judge Advocate General of the Navy.

DEPARTMENT OF THE INTERIOR

Bureau of Land Management

OUTER CONTINENTAL SHELF OFF LOUISIANA

Oil and Gas Lease Sale

Bid submission procedures. 1. Pursuant to section 8 of the Outer Continental Shelf Lands Act (67 Stat. 462; 43 U.S.C. 1331 et seq.) and the regulations issued thereunder (43 CFR Part 3300), sealed bids addressed to the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, The Plaza Tower Building, Suite 3200, 1001 Howard Avenue, New Orleans, LA 70113, will be received until 9:30 a.m., c.s.t., on December 19, 1972, for the lease of oil and gas in the tracts, described in paragraph 12 herein, in areas of the Outer Continental Shelf adjacent to the State of Louisiana. On December 19, 1972, bids may also be delivered in person to the Manager, New Orleans Outer Continental Shelf Office, Bureau of Land Management, at the Grand Ballroom in the Sheraton Charles Hotel between 8:30 a.m., c.s.t., and 9:30 a.m., c.s.t. Bids delivered by mail or in person after 9:30 a.m., c.s.t., on that date will be returned to the bidders unopened. Bids may not be modified or withdrawn unless written modifications or withdrawals are received by the Manager by 9:30 a.m., c.s.t., December 19, 1972. All bids must be submitted in accordance with applicable regulations, including 43 CFR 3302.1, 3302.4, and 3302.5.

Form of bid. 2. A separate bid in a separate envelope must be submitted for each tract. The envelope should be endorsed "Sealed Bid for Oil and Gas Lease, Louisiana (insert number of tract) not to be opened until 10 a.m., c.s.t., December 19, 1972." A suggested form of bid is set out in paragraph 15. Bidders must submit with each bid one-fifth of the amount bid in cash or by cashier's check, bank draft, certified check, or money order, payable to the order of the Bureau of Land Management. Oil payment, overriding royalty, logarithmic or sliding scale bids may not be submitted. No bid for less than a full tract as listed in paragraph 12 will be considered. Bidders are warned against violation of section 1860 in title 18 U.S.C. prohibiting unlawful combination or intimidation of bidders.

3. Each bidder must have submitted by 9:30 a.m., c.s.t., December 19, 1972, the certification required by 41 CFR 60-1.7(b) and Executive Order No. 11246 of September 24, 1965, as amended by Executive Order No. 11375, on Form 1140-1 (November 1969) and Form 1140-7 (December 1971).

4. Official leasing maps in a set of 26, which contains the maps on which the tracts being offered for lease may be located, can be purchased for $5 per set. The official leasing maps and copies of the Compliance Report Certification Form 1140-1 (November 1969) and copies of the Affirmative Action Program Representation Form 1140-7 (December 1971) may be obtained from the Manager, New Orleans Outer Continental Shelf Office, or the Manager, Eastern States Land Office, 7981 Eastern Avenue, Silver Spring, MD 20910.

Bid opening. 5. Bids will be opened on December 19, 1972, at 10 a.m., c.s.t., in the Grand Ballroom, Sheraton Charles Hotel, 211 St. Charles Street, New Orleans, LA. The opening of bids is for the sole purpose of publicly announcing and recording bids received and no bids will be accepted or rejected at that time. If the Department is prohibited for any reason from opening any bid before midnight December 19, 1972, that bid will be returned unopened to the bidder as soon thereafter as possible.

6. Any cash, checks, drafts, or money orders submitted with the bids may be deposited in an unearned escrow account in the Treasury during the period the bids are being considered. Such a deposit does not constitute and shall not be construed as acceptance of any bids on behalf of the United States.

Acceptance or rejection of bids. 7. No bid for any tract will be accepted and no lease for any tract will be awarded to any bidder unless the bidder has complied with all requirements of this notice, his bid is the highest valid cash bonus bid for that tract, and the amount of the bonus bid has been determined to be adequate by the United States. No bid will be considered for acceptance unless it offers a cash bonus in the amount of $25 or more per acre or fraction thereof. The United States reserves the right to reject any bid submitted, including, but not by way of limitation, the right to reject any bid for inadequacy even though the bonus bid is in the amount of $25 or more per acre or fraction thereof.

Lease terms. 8. Leases issued as a result of this sale will be on Form 3300-1 (February 1971), as modified in accordance with paragraphs 9 and 10 of this notice. Attention is directed to the Equal Opportunity Clause in section 3(h) and the Certification of Nonsegregated Facilities Clause in section 3(i) of the lease. Copies of the lease form are available from the Manager, New Orleans Outer Continental Shelf Office, or the Manager, Eastern States Land Office.

9. Leases issued as a result of this sale will contain the following stipulation:

Upon discovery of any site, structure, or object of historical, architectural, or archeological significance, the operator in charge of any OCS petroleum related activity, including but not limited to, well-drilling and pipeline and platform construction, shall immediately report the finding to the Area Supervisor, Geological Survey, and make every reasonable effort to preserve and protect the site, structure, or object from damage during the course of his operations.

10. Leases issued for Tracts No. La. 2325, 2414, 2415, 2416, 2417, 2418, 2419, 2420, 2421, 2422, 2423, 2424, 2425, 2426, 2427, 2428, 2429, 2430, 2431, 2432, 2433, and 2434 will contain the following additional stipulation:

Structures for drilling or production shall be kept to the minimum necessary for the proper exploration, development, and production of this leased area, and to the greatest extent consistent with the proper exploration, development, and production of this leased area, shall be placed so as not to interfere with other significant uses of the leased area, including commercial fishing. To this end, no structure for drilling or production may be erected within the leased area until the Area Supervisor, Geological Survey, has found that the structure is necessary, on the basis of existing geological and engineering data, for the proper exploration, development and production of the leased area. The lessee's exploratory and development plans, filed under 30 CFR 250.34, shall identify the anticipated placement and grouping of necessary structures, showing how such placement and grouping will have the minimum practicable effect on other significant uses of the leased area, including commercial fishing.

11. Leases will provide for a royalty rate of one-sixth, and a yearly rental or minimum royalty of $3 per acre or fraction thereof. The successful bidder will be required to pay the remainder of the bid and the first year's rental of $3 per acre or fraction thereof and furnish an

acceptable surety bond as required in 43 CFR 3304.1 prior to the issuance of each lease.

Tract description. 12. The tracts offered for bid are as follows:

13. Some of the tracts offered for lease may fall in fairway areas (including the prolongations thereof) or anchorage areas, or both, as designated by the District Engineer, New Orleans District, Corps of Engineers, U.S. Army. For the location of those areas and for operational restrictions imposed by that agency, the District Engineer should be consulted.

WITHDRAWAL OF TRACTS

14. The United States reserves the right to withdraw any tract from this sale prior to the acceptance of a bid for that tract.

SUGGESTED BID FORM

15. It is suggested that bidders submit their bids in the following form:

Manager, Outer Continental Shelf Office,
Bureau of Land Management, Department of the Interior, The Plaza Tower Building, Suite 3200, 1001 Howard Avenue, New Orleans, LA. 70113.

OIL AND GAS BID

The following bid is submitted for an oil and gas lease on the land of the Outer Continental Shelf specified below.

Area _____; Official Leasing Map No. _____

Tract No.	Total amount bid	Amount per acre	Amount submitted with bid

No. Misc. No. _____

_____ (Signature)
(Please type signer's name under signature)
Percent _____
_____ (Company)
_____ (Address)

IMPORTANT

The bid must be accompanied by one-fifth of the total amount bid. This amount may be paid in cash or by money order, cashier's check, certified check, or bank draft. A separate bid must be made for each tract.

IRVING SENZEL,
Acting Director,
Bureau of Land Management.

Approved: November 15, 1972.

HARRISON LOESCH,
Assistant Secretary
of the Interior.

UNIVERSITY OF GEORGIA

Statement of Organization, Functions, and Delegations of Authority

Pursuant to the requirements of section 552(a)(1) of title 5 of the United States Code, the University of Georgia hereby publishes the following statement of organization, functions, and delegations of authority.

The University of Georgia is a public institution of higher education established by the Georgia General Assembly in 1785 and chartered in 1801. It is governed by the Board of Regents of the University System of Georgia, which is composed of 15 members appointed by the Governor of Georgia. The Board of Regents has delegated to the President of the University of Georgia the authority to administer the University. The President is assisted by a staff of administrative officers and by the Faculty Senate, which is composed of elected representatives of the faculty. The President has delegated to the Vice President for Academic Affairs the authority to administer the academic programs of the University. The Vice President for Academic Affairs is assisted by the Graduate School, the Undergraduate Instruction Committee, and the Graduate Instruction Committee. The Graduate School is administered by the Dean of the Graduate School, who is assisted by the Graduate Council, which is composed of elected representatives of the faculty. The Undergraduate Instruction Committee and the Graduate Instruction Committee are administered by the Vice President for Academic Affairs, who is assisted by the Undergraduate Instruction Committee and the Graduate Instruction Committee, which are composed of elected representatives of the faculty.

The University of Georgia is organized into 17 schools and colleges, each of which is administered by a dean who is assisted by a faculty council composed of elected representatives of the faculty. The schools and colleges are:

1. College of Agriculture
2. College of Arts and Sciences
3. College of Business Administration
4. College of Education
5. College of Engineering
6. College of Forest Resources
7. College of Home Economics
8. College of Journalism
9. College of Law
10. College of Pharmacy
11. College of Veterinary Medicine
12. Graduate School
13. School of Dentistry
14. School of Medicine
15. School of Nursing
16. School of Public Health
17. School of Social Work

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-310]

ACADEMY TANKERS, INC.

Notice of Application

Notice is hereby given that application has been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below listed applicant, and/or related persons or firms, employ ships in the domestic, intercoastal or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such applicant if its application for operating-differential subsidy is granted.

The following applicant has requested permission involving the domestic, intercoastal, or coastwise services described below:

Name of applicant: Academy Tankers, Inc. (Academy).

Description of domestic service and vessels: The applicant, Academy, owns and operates the vessels listed hereafter, which vessels have operated in the domestic, intercoastal and/or coastwise service, and Academy's parent, Petrolane, Inc., also owns the Arthur Levy Boat Service which comprises a number of corporations owning or leasing vessels operating in domestic commerce serving offshore oil drilling rigs. Academy has requested written permission to continue its domestic operations as well as those of its various sister corporations:

THOMAS A.
THOMAS M.
THOMAS Q.

Written permission is now required by the applicant, Academy, notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessels carried domestic commerce of the United States on that voyage.

Interested parties may inspect this application in the Office of the Secretary, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in the application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on November 27, 1972, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administration will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., November 29, 1972, in Room 4896, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

Dated: November 16, 1972.

By order of the Maritime Administration.

JAMES S. DAWSON, Jr.,
Secretary.

Office of Import Programs

GEORGETOWN UNIVERSITY

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 72-00103-65-28200. Applicant: Georgetown University, 37th and O Streets NW., Washington, DC 20007. Article: Electron spin resonance spectrometer. Manufacturer: Japan Electron Optics Laboratory Co., Japan. Intended use of article: The article will be used in the following experiments: (1) Determination of ESR spectra of powders, single crystals, solutions and gases at different temperature; (2) flow-mixing experiments of kinetic studies; (3) ultraviolet irradiation of samples in cavity; and (4) electrolytic generation of paramagnetic species in cavity. The article will also be used in teaching courses in biochemical techniques and physical chemistry laboratory to graduate and undergraduate students.

Comments: Comments dated December 17, 1971 have been received from Varian Associates (Varian) which state inter alia that the Varian E-line spectrometer systems, specifically the Varian E-9, E-12 or E-15 EPR (ESR) spectrometers, are of greater or equivalent scientific value to the foreign article for the purposes for which the article is intended to be used.

Decision: Application denied. An instrument of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: In reply to question 8 the applicant alleges the following as pertinent specifications of the foreign article: (1) A sample marker which allows a sample (Mn^{++} in MgO), for calibration of both g and hyperfine splitting, to be inserted simultaneously with the sample to be measured in the standard cavity. (This avoids contamination of the sample.) (2) A copper, standard cavity with a gold-plated interior. (This permits use at high temperatures and ready clearing when contaminated.) (3) 100 percent effective UV irradiation of samples in the standard cavity by means of a window that permits direct focusing on to the sample. (4) Magnetic field sweep rates 1, 2.5, 5, 10, and 25 seconds. (5) All sweep widths, sweep times, field modulation, and filter adjustments which are utilized for recording on the chart are synchronized with the oscilloscope presentation. (6) A flow-mixing kit consisting of four precision machined mixing chambers, two large volume injection syringes, stopcocks, and pressure bar housed in a glass fronted cabinet. (7) Although not ordered at this time, an electrolytic cell which is compatible with the variable temperature accessory of the article, may be ordered. The National Bureau of Standards (NBS) advises in its memorandum dated June 15, 1972 that specifications (1) through (6) above are pertinent specifications within the meaning of § 701.2(n) of the regulations. Specification (7) was not ordered with the article and therefore cannot be considered in the determination of scientific equivalency according to §§ 701.2(d) and 701.6(a)(3) of the regulations. NBS further advises that the Varian E-line spectrometers satisfies all the pertinent specifications in the following manner:

Specification 1. Varian offers a dual cavity accessory as well as their standard cavity permitting simultaneous insertion of a reference sample and the sample to be measured. Contamination can be prevented by appropriate choice of a capsule material such as quartz.

Specification 2. Varian cavities may be used in excess of 700° C. and are easily cleaned.

Specification 3. Varian provides optical transmission cavity accessories.

Specification 4. Varian provides a rapid scan accessory capable of sweep rates from 0.025 to 100 seconds.

Specification 5. Varian provides for oscilloscope presentation.

Specification 6. Varian provides a flow mixing chamber which would be capable of modification upon special order to the applicant's specifications.

Accordingly, we find that the Varian E-line spectrometers are of equivalent scientific value to the foreign article for such purposes as the article is intended to be used.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

UNIVERSITY OF GEORGIA

Notice of Decision on Application for Duty-Free Entry of Scientific Article

The following is a decision on an application for duty-free entry of a scientific article pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to this decision is available for public review during ordinary business hours of the Department of Commerce, at the Office of Import Programs, Department of Commerce, Washington, D.C.

Docket No. 73-00014-63-73610. Applicant: University of Georgia, Department of Plant Pathology and Genetics, No. 215 Food Science Building, Athens, Ga. 30601. Article: Volumetric recording spore trap. Manufacturer: Burkard Scientific (Sales), Ltd., United Kingdom. Intended use of article: The article is intended to be used to determine air spora in experimental conditions favoring buildup of disease. Comments: No comments have been received with respect to this application. Decision: Application approved. No instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, is being manufactured in the United States. Reasons: The foreign article is designed to continuously sample airborne particles and provide a record of the quantity of particles collected at a given time over a period of 7 days. We are advised by the Department of Health, Education, and Welfare (HEW) in its memorandum dated October 27, 1972, that the ability to record for 7 days is pertinent to the applicant's research studies. HEW further advises that it knows of no domestic sampling apparatus with this necessary characteristic.

The Department of Commerce knows of no other instrument or apparatus of equivalent scientific value to the foreign article, for such purposes as this article is intended to be used, which is being manufactured in the United States.

B. BLANKENHEIMER,
Acting Director,
Office of Import Programs.

[FR Doc.72-19906 Filed 11-17-72;8:49 am]

WESTERN SCHOOL CORP. ET AL.

Notice of Consolidated Decision on Applications for Duty-Free Entry of Scientific Articles

The following is a consolidated decision on applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651, 80 Stat. 897) and the regulations issued thereunder as amended (37 F.R. 3892 et seq.).

A copy of the record pertaining to each of the applications in this consolidated decision is available for public review during ordinary business hours of the Department of Commerce, at the Special Import Programs Division, Office of Import Programs, Department of Commerce, Washington, D.C.

Decision: Applications denied. Applicants have failed to establish that instruments or apparatus of equivalent scientific value to the foreign articles, for such purposes as the foreign articles are intended to be used, are not being manufactured in the United States.

Reasons: Section 701.8 of the regulations provides in pertinent part:

> The applicant shall on or before the 20th day following the date of such notice, inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article for the same intended purposes to which the denied application relates. The applicant shall then resubmit the new application on or before the 90th day following the date of the notice of denial without prejudice to resubmission, unless an extension of time is granted by the Deputy Assistant Secretary in writing prior to the expiration of the 90-day period. • • • If the applicant fails, within the applicable time periods specified above, to either (a) inform the Deputy Assistant Secretary whether it intends to resubmit another application for the same article to which the denial without prejudice to resubmission relates, or (b) resubmit the new application, the prior denial without prejudice to resubmission shall have the effect of a final decision by the Deputy Assistant Secretary on the application within the context of § 701.11.

The meaning of the subsection is that should an applicant either fail to notify the Deputy Assistant Secretary of its intent to resubmit another application for the same article to which the denial without prejudice relates within the 20-day period, or fails to resubmit a new application within the 90-day period, the prior denial without prejudice to resubmission will have the effect of a final denial of the application.

None of the applicants to which this consolidated decision relates has satisfied the requirements set forth above, therefore, the prior denials without prejudice have the effect of a final decision denying their respective applications.

Section 701.8 further provides:

> • • • the Deputy Assistant Secretary shall transmit a summary of the prior denial without prejudice to resubmission to the FEDERAL REGISTER for publication, to the Commissioner of Customs, and to the applicant.

Each of the prior denials without prejudice to resubmission to which this consolidated decision relates was based on the failure of the respective applicants to submit the required documentation, including a completely executed application form, in sufficient detail to allow the issue of "scientific equivalency" to be determined by the Deputy Assistant Secretary.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Office for Civil Rights

NONDISCRIMINATION UNDER FEDERAL CONTRACTS

Higher Education Guidelines

A copy of the following memorandum and attached guidelines and appendices was sent by the Director, Office for Civil Rights, to more than 2,500 university and college presidents, on October 1, 1972:

MEMORANDUM TO COLLEGE AND UNIVERSITY PRESIDENTS

OCTOBER 1, 1972.

As the new academic year begins, I wish to bring to your attention the requirement that all universities and colleges with Federal contracts comply with Executive Order 11246, "Nondiscrimination Under Federal Contracts." We expect that all affected colleges and universities will henceforth be in compliance with the Order and its implementing regulations as stated in the following guidelines.

While these guidelines address themselves to compliance with the Executive order, for your information we have also attached as appendices other civil rights laws affecting institutions of higher education and over which this Office has enforcement responsibility.

We hope that you will become familiar with these guidelines and laws and direct your staff and faculty to make every effort to abide by them.

The Department of Health, Education, and Welfare stands ready to assist in every way possible so that all institutions of higher education will be able to meet the requirements of the Executive order and other Federal requirements regarding nondiscriminatory treatment.

Additional copies of these guidelines are available from the Regional Office for Civil Rights in your area or from the Public Information Office, Office for Civil Rights, Department of Health, Education, and Welfare, Washington, D.C. 20201.

I. LEGAL PROVISIONS

The Office for Civil Rights (OCR) in the Department of Health, Education, and Welfare (HEW) is responsible for the enforcement in institutions of higher education of Executive Order 11246, as amended by Executive Order 11375 (Tab A), which imposes equal employment opportunity requirements upon Federal contractors, and upon construction contractors on projects receiving Federal assistance from HEW.

EXECUTIVE ORDER 11246, AS AMENDED

In signing a Government contract or subcontract in excess of $10,000 the contractor agrees that it "will not discriminate against any employee or applicant for employment because of race, color, religion, sex, or national origin," and that it "will take affirmative action to ensure that applicants are employed and that employees are treated during employment" without regard to these factors. In the event of the contractor's noncompliance with the nondiscrimination clauses of the contract, or with the rules and regulations of the Secretary of Labor, the contract may be canceled, terminated, or suspended in whole or in part and the contractor may be declared ineligible for further Government contracts.

Part II of the Executive order sets forth other contractor obligations, enforcement procedures, and administrative responsibilities. Part III of the Executive order describes the equal opportunity obligations of applicants for Federal assistance involving construction.

The equal employment opportunity obligations of Federal contractors apply to all employment by a contractor, and not solely to employment associated with the receipt or use of Federal funds. The specific obligations of nondiscrimination and affirmative action associated with the Executive order apply and are enforceable by the Office for Civil Rights only in the case of contracts, not grants.[1]

REGULATIONS OF THE DEPARTMENT OF LABOR

The requirements of the Executive order are implemented by the regulations of the Department of Labor (41 Code of Federal Regulations Chapter 60). Part 60-1, "Obligations of Contractors and Subcontractors" (Tab B) sets forth matters of general applicability, including the scope of coverage of the Executive order, the obligations of employers subject to that coverage, administrative requirements applicable to Federal agencies, steps in investigation and enforcement of compliance with the order, and guidance for filing complaints of discrimination. Sanctions and OCR investigative procedures are discussed at Tab I.

REVISED ORDER NO. 4 AND NON-PUBLIC INSTITUTIONS

Revised Order No. 4 (Part 60-2) (Tab C), which implements and supplements Section 60-1.40 of Part 60-1, requires each private institution contracor with 50 or more employees and a contract in excess of $50,000 to develop and maintain a written affirmative action program within 120 days of receipt of such a contract. Section 60-1.40 and Revised Order No. 4 set forth the required contents of such a program, including directions for analyses of the contractor's work force and employment practices, steps to be taken to improve recruitment, hiring, and promotion of minority persons and women, and other specific procedures to assure equal employment opportunity.

REVISED ORDER NO. 4 AND PUBLIC INSTITUTIONS

While all contractors, both public and private, are required to implement an affirmative action program, at present the basic requirement of Revised Order No. 4 that a contractor maintain a written affirmative action plan is not applicable to public institutions (those under State or local control) (see 41 CFR 60-1.5(a)(4)). Public institutions are nevertheless required to take action to ensure nondiscrimination and to comply with the Executive order and regulations other than Order No. 4. In our judgment, a public institution can best carry out these obligations by conducting the kinds of analyses required of nonpublic institutions, and organizing in written form its plans to overcome problems of past discrimination.

In addition, the regulations which set forth the procedures for conducting compliance reviews of all contractors, including public institutions, require written commitments as to "the precise actions to be taken and

[1] Where a grantee of funds for construction participates in construction under the grant, its employment is subject to the requirements of the equal opportunity clause during the term of participation. When such grantee or applicant for Federal funds is an agency or instrumentality of a State or local government, only such agency or instrumentality is subject to the clause.

dates for completion" to overcome any deficiencies which a compliance review identifies (41 CFR 60-1.20). These "precise actions" and "dates for completion," which must be provided in writing by a public institution following an HEW compliance review, will ordinarily be similar in content to the written affirmative action commitments required as a matter of regulation of nonpublic institutions (41 CFR 60-2.11).

On October 4, 1972, the Department of Labor will announce in the FEDERAL REGISTER its intention to amend the regulations to remove the present exemption of public educational institutions from the requirement of maintaining a written affirmative action plan. When effective, all educational institutions, both public and private, will have the same affirmative action obligations under the Executive order.

NONDISCRIMINATION AND AFFIRMATIVE ACTION IN THE EXECUTIVE ORDER

Executive Order 11246 embodies two concepts: nondiscrimination and affirmative action.

"Nondiscrimination" requires the elimination of all existing discriminatory conditions, whether purposeful or inadvertent. A university contractor must carefully and systematically examine all of its employment policies to be sure that they do not, if implemented as stated, operate to the detriment of any persons on grounds of race, color, religion, sex, or national origin. The contractor must also ensure that the practices of those responsible in matters of employment, including all supervisors, are nondiscriminatory.

"Affirmative action" requires the contractor to do more than ensure employment neutrality with regard to race, color, religion, sex, and national origin. As the phrase implies, affirmative action requires the employer to make additional efforts to recruit, employ, and promote qualified members of groups formerly excluded, even if that exclusion cannot be traced to particular discriminatory actions on the part of the employer. The premise of the affirmative action concept of the Executive order is that unless positive action is undertaken to overcome the effects of systemic institutional forms of exclusion and discrimination, a benign neutrality in employment practices will tend to perpetuate the "status quo ante" indefinitely.

WHO IS PROTECTED BY THE EXECUTIVE ORDER

The "nondiscrimination" requirements of the Executive order apply to all persons, whether or not the individual is a member of a conventionally defined "minority group." In other words, no person may be denied employment or related benefits on grounds of his or her race, color, religion, sex, and national origin.

The "affirmative action" requirements of determining underutilization, setting goals and timetables and taking related action as detailed in Revised Order No. 4 were designed to further employment opportunity for women and minorities. Minorities are defined by the Department of Labor as Negroes, Spanish-surnamed, American Indians, and Orientals.

GOALS AND TIMETABLES

As a part of the affirmative action obligation, Revised Order No. 4 requires a contractor to determine whether women and minorities are "underutilized" in its employee work force and, if that is the case, to develop as a part of its affirmative action program specific goals and timetables designed to overcome that underutilization. (See Tab J.) Underutilization is defined in the regulations as "having fewer women or minorities in a particular job than would reasonably be expected by their availability."

Goals are projected levels of achievement resulting from an analysis by the contractor of its deficiencies, and of what it can reasonably do to remedy them, given the availability of qualified minorities and women and the expected turnover in its work force. Establishing goals should be coupled with the adoption of genuine and effective techniques and procedures to locate qualified members of groups which have previously been denied opportunities for employment or advancement and to eliminate obstacles within the structure and operation of the institution (e.g. discriminatory hiring or promotion standards) which have prevented members of certain groups from securing employment or advancement.

The achievement of goals is not the sole measurement of a contractor's compliance, but represents a primary threshold for determining a contractor's level of performance and whether an issue of compliance exists. If the contractor falls short of its goals at the end of the period it has set, that failure in itself does not require a conclusion of noncompliance. It does, however, require a determination by the contractor as to why the failure occurred. If the goals were not met because the number of employment openings was inaccurately estimated, or because of changed employment market conditions or the unavailability of women and minorities with the specific qualifications needed, but the record discloses that the contractor followed its affirmative action program, it has complied with the letter and spirit of the Executive order. If, on the other hand, it appears that the cause for failure was an inattention to the nondiscrimination and affirmative action policies and procedures set by the contractor, then the contractor may be found out of compliance. It should be emphasized that while goals are required, quotas are neither required nor permitted by the Executive order. When used correctly, goals are an indicator of probable compliance and achievement, not a rigid or exclusive measure of performance.

Nothing in the Executive order requires that a university contractor eliminate or dilute standards which are necessary to the successful performance of the institution's educational and research functions. The affirmative action concept does not require that a university employ or promote any persons who are unqualified. The concept does require, however, that any standards or criteria which have had the effect of excluding women and minorities be eliminated, unless the contractor can demonstrate that such criteria are conditions of successful performance in the particular position involved.

II. PERSONNEL POLICIES AND PRACTICES

An employer must establish in reasonable detail and make available upon request the standards and procedures which govern all employment practices in the operation of each organizational unit, including any tests in use and the criteria by which qualifications for appointment, retention, or promotion are judged. It should be determined whether such standards and criteria are valid predictors of job performance, including whether they are relevant to the duties of the particular position in question. This requirement should not ignore or obviate the range of permissible discretion which has characterized employment judgments, particularly in the academic area. Where such discretion appears to have operated to deny equality of opportunity, however, it must be subjected to rigorous examination and its discriminatory effects eliminated. There are real and proper limits on the extent to which criteria for academic employment can be explicitly articulated; however, the absence of any articulation of such criteria provides opportunities for arbitrary and discriminatory employment decisions.

RECRUITMENT

Recruitment is the process by which an institution or department within an institution develops an applicant pool from which hiring decisions are made. Recruitment may be an active process, in which the institution seeks to communicate its employment needs to candidates through advertisement, word-of-mouth notification to graduate schools or other training programs, disciplinary conventions, or job registers. Recruitment may also be the passive function of including in the applicant pool those persons who on their own initiative or by unsolicited recommendation apply to the institution for a position.

In both academic and nonacademic areas, universities must recruit women and minority persons as actively as they have recruited white males. Some universities, for example, have tended to recruit heavily at institutions graduating exclusively or predominantly nonminority males, and have failed to advertise in media which would reach the minority and female communities, or have relied upon personal contacts and friendships which have had the effect of excluding from consideration women and minority group persons.

In the academic area, the informality of word-of-mouth recruiting and its reliance on factors outside the knowledge or control of the university makes this method particularly susceptible to abuse. In addition, since women and minorities are often not in word-of-mouth channels of recruitment, their candidacies may not be advanced with the same frequency or strength of endorsement as they merit, and as their white male colleagues receive.

The university contractor must examine the recruitment activities and policies of each unit responsible for recruiting. Where such an examination reveals a significantly lower representation of women or minorities in the university's applicant pool than would reasonably be expected from their availability in the work force, the contractor must modify or supplement its recruiting policies by vigorous and systematic efforts to locate and encourage the candidacy of qualified women and minorities. Where policies have the effect of excluding qualified women or minorities, and where their effects cannot be mitigated by the implementation of additional policies, such policies must be eliminated.

An expanded search network should include not only the traditional avenues through which promising candidates have been located (e.g., in the case of academic appointments, direct letters to graduate departments, or in the case of nonacademic appointments, advertising in community newspapers). In addition, to the extent that it is necessary to overcome underutilization, the university should search in areas and channels previously unexplored.

Certain organizations such as those mentioned in Revised Order No. 4 may be prepared to refer women and minority applicants. For faculty and administrative appointments, disciplinary and professional associations, including committees and caucus groups, should be contacted and their facilities for employee location and referral used.

Particularly in the case of academic personnel, potentially fruitful channels of recruitment include the following:

a. Advertisements in appropriate professional journals and job registries;

b. Unsolicited applications or inquiries;

V37-224-NOV 18 72 XUM

c. Women teaching at predominantly women's colleges, minorities teaching at predominantly minority colleges;

d. Minorities or women professional engaged in nonacademic positions, such as industry, government, law firms, hospitals;

e. Professional women and minorities working at independent research institutions and libraries;

f. Professional minorities and women who have received significant grants or professional recognition;

g. Women and minorities already at the institution and elsewhere working in research or other capacities not on the academic ladder;

h. Minority and women doctoral recipients, from the contractor's own institution and from other institutions, who are not presently using their professional training;

i. Women and minorities presently candidates for graduate degrees at the institution and elsewhere who show promise of outstanding achievement (some institutions have developed programs of support for completion of doctoral programs with a related possibility of future appointment);

j. Minorities and women listed in relevant professional files, registries and data banks, including those which have made a particularly conscientious effort to locate women and minority persons.

It should be noted that a contractor is required to make explicit its commitment to equal employment opportunity in all recruiting announcements or advertisements. It may do this by indicating that it is an "equal opportunity employer." It is a violation of the Executive order, however, for a prospective employer to state that only members of a particular minority group or sex will be considered.

Where search committees are used to locate candidates for appointment, they can best carry out the above measures when they are composed of persons willing and able to explore new avenues of recruitment. Effective search committees should, if possible, include among their members women and minority persons.

Policies which exclude recruitment at predominantly minority colleges and universities restrict the pool of qualified minority faculty from which prospective appointees may be chosen. Even if the intent of such policies may be to prevent the so-called "raiding" of minority faculty by predominantly white institutions, such policies violate the nondiscrimination provision of the Executive order since their effect is to deny opportunity for employment on grounds relating to race. Such policies have operated to the serious disadvantage of students and teachers at minority institutions by denying them notice of research and teaching opportunities, assistantships, endowed professorships, and many other programs which might enhance their potential for advancement, whether they choose to stay at a predominantly minority institution or move to a nonminority institution.

Minorities and women are frequently recruited only for positions thought to be for minorities and women, such as equal employment programs, ethnic studies, or women's studies. While these positions may have a particular suitability for minority persons and women, institutions must not restrict consideration of women and minorities to such areas, but should actively recruit them for any position for which they may be qualified.

HIRING

Once a nondiscriminatory applicant pool has been established through recruitment, the process of selection from that pool must also carefully follow procedures designed to insure nondiscrimination. In all cases, standards and criteria for employment should be made reasonably explicit, and should be accessible to all employees and applicants. Such standards may not overtly draw a distinction based on race, sex, color, religion, or national origin, nor may they be applied inconsistently to deny equality of opportunity on these bases.

In hiring decisions, assignment to a particular title or rank may be discriminatory. For example, in many institutions women are more often assigned initially to lower academic ranks than are men. A study by one disciplinary association showed that women tend to be offered a first appointment at the rank of instructor rather than the rank of assistant professor three times more often than men with identical qualifications. Where there is no valid basis for such differential treatment, such a practice is in violation of the Executive order.

Recruiting and hiring decisions which are governed by unverified assumptions about a particular individual's willingness or ability to relocate because of his or her race or sex are in violation of the Executive order. For example, university personnel responsible for employment decisions should not assume that a woman will be unwilling to accept an offer because of her marital status, or that a minority person will be unwilling to live in a predominantly white community.

Institutional policies regarding the employment of an institution's own graduates must not be applied in any manner which would deny opportunities to women and minorities. A university must give equal consideration to its graduate students regardless of their race or sex for future faculty positions, if the institution employs its own graduates.

In the area of academic appointments, a nondiscriminatory selection process does not mean that an institution should indulge in "reverse discrimination" or "preferential treatment" which leads to the selection of unqualified persons over qualified ones. Indeed, to take such aciton on grounds of race, ethnicity, sex, or religion constitutes discrimination in the violation of the Executive order.

It should also be pointed out that nothing in the Executive order requires or permits a contractor to fire, demote, or displace persons on grounds of race, color, sex, religion, or national origin in order to fulfill the affirmative action concept of the Executive order. Again, to do so would violate the Executive order. Affirmative action goals are to be sought through recruitment and hiring for vacancies created by normal growth and attrition in existing positions.

Unfortunately, a number of university officials have chosen to explain dismissals, transfers, alterations of job descriptions, changes in promotion potential or fringe benefits, and refusals to hire not on the basis of merit or some objective sought by the university administration aside from the Executive order, but on grounds that such actions and other "preferential treatment regardless of merit" are now required by Federal law. Such statements constitute either a misunderstanding of the law or a willful distortion of it. In either case, where they actually reflect decisions not to employ or promote on grounds of race, color, sex, religion, or national origin, they constitute a violation of the Executive order and other Federal laws.

ANTINEPOTISM POLICIES

Policies or practices which prohibit or limit the simultaneous employment of two members of the same family and which have an adverse impact upon one sex or the other are in violation of the Executive order. For example, because men have traditionally been favored in employment over women, antinepotism regulations in most cases operate to deny employment opportunity to a wife rather than to a husband.

If an institution's regulations against the simultaneous employment of husband and wife are discriminatory on their face (e.g., applicable to "faculty wives"), or if they have in practice served in most instances to deny a wife rather than a husbnad employment or promotion opportunity, salary increases, or other employment benefits, they should be altered or abolished in order to mitigate their discriminatory impact.

Stated or imolied presumptions against the consideration of more than one member of the same family for employment by the same institution or within the same academic department also tends to limit the opportunities available to women more than to men.

If an individual has been denied "opportunity" for employment, advancement, or benefits on the basis of an antinepotism rule or practice, that action is discriminatory and is prohibited under the Executive order. Institutional regulations which set reasonable restrictions on an individual's capacity to function as judge or advocate in specific situations involving a member of his or her immediate family are permissible where they do not have the effect of denying equal employment opportunity to one sex over the other[2].

PLACEMENT, JOB CLASSIFICATION, AND ASSIGNMENT

A contractor must examine carefully its job category assignments and treatment of individuals within a single job classification. Experience shows that individuals of one sex or race frequently tend to be "clustered" in certain job classifications, or in certain departments or divisions within an institution. Most often those classifications or departments in which women or minorities are found tend to be lower paid, and have less opportunity for advancement than those to which nonminority males are assigned.

Where there are no valid or substantial differences in duties or qualifications between different job classifications, and where persons in the classifications are segregated by race, color, religion, sex, or national origin, those separate classifications must be eliminated or merged. For example, where male administrative aides and female administrative assistants are performing the same duties and bear the same responsibilities, but are accorded different salaries and advancement opportunities, and where the separate classifications upon examination yield no valid distinctions, the separate classifications must be eliminated or merged.

In academic employment, minorities and women have sometimes been classified as "research associates," "lecturers," or similar categories of employment which do not carry with them the benefits and protections of regular academic appointment, and from which promotion is rare, while men with the same qualifications are appointed to regular faculty positions. Such sex- or minority-segregated classification is discriminatory and must be eliminated. In addition, appropriate remedies must be afforded those persons previously assigned to such classifications.

[2] For an indication of what should constitute "reasonable restriction," see the policy statement of the American Association of University Professors on "Faculty Appointment and Family Relationship," which suggests that "faculty members should neither initiate or participate in institutional decisions involving a direct benefit (initial appointment, retention, promotion, salary, leave of absence, etc.) to members of their immediate families."

TRAINING

To eliminate discrimination and assure equal opportunity in promotion, an employer should initiate necessary remedial, job training, and work study programs aimed at upgrading specific skills. This is generally applicable in the case of nonacademic employees, but may also be relevant in the case of academic employees as, for example, in providing opportunities to participate in research projects, or to gain new professional skills through leave policies or special programs offered by the institution.

In institutions where in-service training programs are one of the ladders to administrative positions, minorities and women must be admitted into these programs on an equal basis with nonminority men. Furthermore, opportunities for training may not be limited to positions which are occupied by nonminorities and males.

The employment of students by an institution is subject to the same considerations of nondiscrimination and affirmative action as is all other employment in an institution.

PROMOTION

A contractor's policies and practices on promotion should be made reasonably explicit, and administered to ensure that women and minorities are not at a disadvantage. A contractor is also obligated to make special efforts to ensure that women and minorities in its work force are given equal opportunity for promotion. Specifically, 41 CFR 60–2.24 states that this result may be achieved through remedial, work study and job training programs; through career counseling programs; through the posting and announcement of promotion opportunities; and by the validation of all criteria for promotion.

TERMINATION

Where action to terminate has a disproportionate effect upon women or minorities and the employer is unable to demonstrate reasons for the decision to terminate unrelated to race, religion, color, national origin, or sex, such actions are discriminatory. Seniority is an acceptable standard for termination, with one exception: where an incumbent has been found to have been the victim of discrimination and as a result has less actual seniority than he or she would have had but for such discrimination, either seniority cannot be used as the primary basis for termination, or the incumbent must be presumed to have the seniority which he or she would have had in the absence of discrimination.

CONDITIONS OF WORK

A university employer must ensure nondiscrimination in all terms and conditions of employment, including work assignments, educational and training opportunities, research opportunities, use of facilities, and opportunities to serve on committees or decision-making bodies.

Intentional policy or practice which subjects persons of a particular sex or minority status to heavier teaching loads, less desirable class assignments, and fewer opportunities to serve on key decision-making bodies or to apply for research grants or leaves of absence for professional purposes, is in violation of the Executive order.

Similarly, institutional facilities such as dining halls or faculty clubs have sometimes restricted their services to men only. Where such services are a part of the ordinary benefits of employment for certain classifications of employees, no members of such classifications can be denied them on the basis of race, color, national origin, sex, or religion.

RIGHTS AND BENEFITS-SALARY

The Executive order requires that universities adhere carefully to the concept of equal pay for equal work.

In many situations persons who hold the same or equivalent positions, with the same or equivalent qualifications, are not paid similar salaries, and disparities are identifiable along lines of race, color, national origin, sex, or religion.

An institution should set forth with reasonable particularity criteria for determining salary for each job classification and within each job classification. These criteria should be made available to all present and potential employees.

The question is often raised as to whether a person who applies for a position within a given job classification may be given a higher or lower rate of pay at entry based upon his or her pay in another position, or upon market factors defined outside the context of the institution's determination of rates of pay. Where reference to external market factors results in a disparate effect upon women or minority group persons, a reference to those rates of pay is prohibited. For example, if a minority or female applicant applies for a position as an assistant professor, and the salary range of those entering that position is from $10,000 to $12,000, the fact that the applicant's former position paid only $8,000 cannot be used to deny him or her the minimum pay for the new position, when nonminority men in a comparable situation are given an entry salary at or above the minimum stipulated area. In this example, the applicant's level of pay must be determined on the basis of capability and record of performance, not former salary.

BACK PAY

Back pay awards are authorized and widely used as a remedy under title VII of the Civil Rights Act of 1964, the Equal Pay Act, and the National Labor Relations Act. Universities, like other employers, are subject to the provisions of these statutes.

This means that evidence of discrimination that would require back pay as a remedy will be referred to the appropriate Federal enforcement agency if the Office for Civil Rights is not able to negotiate a voluntary settlement with a university. At the direction of the Department of Labor, the Office for Civil Rights will continue to pursue back pay settlements only in cases involving employees who, while protected by the Executive order, were not protected by the three statutes mentioned above at the time violation occurred.

Contractors continue to have the prospective obligation to include in an affirmative action program whatever payments are necessary to remove existing differentials in pay (based on race or sex) identified in the analyses required under the Executive order.

LEAVE POLICIES

A university contractor must not discriminate against employees in its leave policies, including paid and unpaid leave for educational or professional purposes, sick leave, annual leave, temporary disability, and leave for purposes of personal necessity.

EMPLOYMENT POLICIES RELATING TO PREGNANCY AND CHILDBIRTH

41 CFR 60-20 (Sex Discrimination Guidelines) (Tab D) provides that "women shall not be penalized in their conditions of employment because they require time away from work on account of childbearing." Pregnancy and childbearing must be considered as a justification of a leave of absence for a female employee regardless of marital status, for a reasonable length of time, and for reinstatement following childbirth without loss of seniority or accrued benefits.

A. *Eligibility.* If an employer has a policy on eligibility for leave, a female employee may not be required to serve longer than the minimum length of service required for other types of leave in order to qualify for maternity leave. If the employer has no leave policy, childbearing must nevertheless be considered as a justification for a leave of absence for a female employee for a reasonable length of time.

B. *Mandatory period of leave.* Any policy requiring a mandatory leave of absence violates the Executive order unless it is based on individual medical or job characteristics. In such cases the employer must clearly demonstrate an overriding need based on medical safety or "business necessity," i.e., that the successful performance of the position or job in question requires the leave. For example, service in a radiation laboratory may constitute a demonstrable hazard to the expectant mother or her child. A mandatory period of leave should not, however, be stipulated by the university; the length of leave, whether mandatory or voluntary, should be based on a bona fide medical need related to pregnancy or childbirth.

C. *Eligibility for and conditions of return.* Following the end of leave warranted by childbirth, a female employee must be offered reinstatement to her original position or one of like status and pay without loss of seniority or accrued benefits.

D. *Other conditions of leave.* Department of Labor guidelines provide that the conditions related to pregnancy leave, i.e., salary, accrual of seniority, and other benefits, reinstatement rights, etc., must be in accordance with the employer's general leave policy.

On April 5, 1972, the Equal Employment Opportunity Commission, under title VII of the Civil Rights Act of 1964, issued revised guidelines on sex discrimination, 37 F.R. 6835, which differ substantially from the present Department of Labor guidelines under the Executive order. The Labor Department has not adopted the rules of the EEOC as its own, although universities are subject to them. However, serious consideration is now being given to revising the Labor Department guidelines to equate disabilities caused by pregnancy and childbirth with all other temporary disabilities for which an employer might provide leave time, insurance pay, and other benefits.

E. *Child care leave.* If employees are generally granted leave for personal reasons, such as for a year or more, leave for purposes relating to child care should be considered grounds for such leave, and should be available to men and women on an equal basis. A faculty member should not be required to have such leave time counted toward the completion of a term as a probationary faculty member, unless personal leave for other reasons is so considered. Nor should such leave time be subtracted from a stated term of appointment, or serve as a basis for nonrenewal of contract.

FRINGE BENEFITS

Fringe benefits are defined to include medical, hospital, accident, life insurance, and retirement benefits; profit-sharing and bonus plans; leave, and other terms and conditions of employment.

The university should carefully examine its fringe benefit programs for possible discriminatory effects. For example, it is unlawful for an employer to establish a retirement or pension plan which establishes different optional or mandatory retirement ages for men and for women.

Where an employer conditions benefits available to employees and their spouses and

U.S.C. 552(b)(4). Compliance agencies also Act of 1964 which forbids discrimination on ices of the United States or the merchant

V 37 • 224 NOV 18 72 XUM

families on whether the employee is the "head of the household" or "principal wage earner" in the family unit, such benefits cannot be made available only to male employees and their families. The employer also must not presume that a married man is the "head of the household" or "principal wage earner"; this is a matter which must be determined by the employee and his or her family.

It is also unlawful for an employer to make benefits available to the wives and families of male employees where the same benefits are not available to the husbands and families of female employees.

With regard to retirement benefits and insurance, pensions, and other welfare programs, Department of Labor Sex Discrimination Guidelines provide that benefits must be equal for both sexes, or that the employer's contribution must be equal for both sexes. This means that a different rate of retirement benefits for men and women does not violate the Executive order if the employer's contributions for both sexes are equal. It is not a violation of the Executive order if the employer, in seeking to equalize benefits for men and women employees, contributes more for one sex than the other.[3]

CHILD CARE

41 CFR 60–2.24 states that an employer should, as part of his affirmative action program, encourage child care programs appropriately designed to improve the employment opportunities of minorities and women. An increasing number of institutions have established child care programs for their male and female employees and students, and we commend such efforts to all institutions. As part of an affirmative action program, such programs may improve the employment opportunities of all employees, not only women and minorities, and contribute significantly to an institution's affirmative action profile.

GRIEVANCE PROCEDURES

As of March 1972 and pursuant to the provisions of the Equal Employment Opportunity Act of 1972, the Equal Employment Opportunity Commission has jurisdiction over individual complaints of discrimination by academic as well as nonacademic employees of educational institutions.

Pursuant to formal agreement between OCR and EEOC, and to avoid duplication of effort, individual complaints of discrimination will be investigated and remedied by EEOC. Class complaints, groups of individual complaints or other information which indicates possible institutional patterns of discrimination (as opposed to isolated cases) will remain subject to investigation by OCR. In such cases, retrospective relief for individuals within such classes or groups will remain within the jurisdiction of EEOC.

Where an employer has established sound standards of due process for the hearing of employee grievances, and has undertaken a prompt and good faith effort to identify and provide relief for grievances, a duplicative assumption of jurisdiction by the Federal Government has not always proven necessary. We therefore urge the development of sound grievance procedures for all employees, academic and nonacademic alike, in order to insure the fair treatment of individual cases where discrimination is alleged, and to maintain the integrity of the employer's internal employment system.

Institutional grievance procedures which provide for prompt and equitable hearing of employee grievances relating to employment discrimination should be written and available to all present and prospective employees.

III. DEVELOPMENT OF AFFIRMATIVE ACTION PROGRAMS

Effective affirmative action programs shall contain, but not necessarily be limited to, the following ingredients:

1. *Development or reaffirmation of the contractor's equal employment opportunity policy.* Each institution should have a clear written statement over the signature of the chief administrative officer which sets forth the institution's legal obligation and policy for the guidance of all supervisory personnel, both academic and nonacademic, for all employees and for the community served by the institution. The policy statement should reflect the institution's affirmative commitment to equal employment opportunity, as well as its commitment to eliminate discrimination in employment on the basis of race, color, sex, religion and national origin.

2. *Dissemination of the policy.* Internal communication of the institution's policy in writing to all supervisory personnel is essential to their understanding, cooperation and compliance. All persons responsible for personnel decisions must know what the law requires, what the institution's policy is, and how to interpret the policy and implement the program within the area of their responsibility. Formal and informal external dissemination of the policy is necessary to inform and secure the cooperation of organizations within the community, including civil rights groups, professional associations, women's groups, and various sources of referral within the recruitment area of the institution.

The employer should communicate to all present and prospective employees the existence of the affirmative action program, and make available such elements of the program as will enable them to know of and avail themselves of its benefits.

3. *Responsibility for implementation.* An administrative procedure must be set up to organize and monitor the affirmative action program. 41 CFR 60–2.22 provides that an executive of the contractor should be appointed as director of EEO programs, and that he or she should be given "the necessary top management support and staffing to execute the assignment." (See the remainder of § 2.22 for details of the responsibilities of the Equal Employment Opportunity Officer.) This should be a person knowledgeable of and sensitive to the problems of women and minority groups. Depending upon the size of the institution, this may be his or her sole responsibility, and necessary authority and staff should be accorded the position to ensure the proper implementation of the program.

In several institutions the EEO officer has been assisted by one or more task forces composed in substantial part of women and minority persons. This has usually facilitated the task of the EEO officer and enhanced the prospects of success for the affirmative action program in the institution.

4. *Identification of problem areas by organizational units and job classifications.* In this section the contractor should address itself to the issues discussed in sections I and II above. The questions involved in data gathering and analysis are treated in appendix J.

Once an inventory is completed, the data should be coded and controlled in strict confidence so that access is limited to those persons involved in administering and reviewing the Equal Employment Opportunity Program. Some State and local laws may prohibit the collection and retention of data relating to the race, sex, color, religion, or national origin of employees and applicants for employment. Under the principle of Federal supremacy, requirements for such inventories and recordkeeping under the Executive order supersede any conflicting State or local law, and the existence of such laws is not an acceptable excuse for failure to collect or supply such information as required under the Executive order.

5. *Internal audit and reporting systems.* An institution must include in its administrative operation a system of audit and reporting to assist in the implementation and monitoring of the affirmative action program, and in periodic evaluations of its effectiveness. In some cases a reporting system has taken the form of a monitoring of all personnel actions, so that department heads and other supervisors must make periodic reports on affirmative action efforts to a central office. In most cases all new appointments must be accompanied by documentation of an energetic and systematic search for women and minorities.

Reporting and monitoring systems will differ from institution to institution according to the nature of the goals and programs established, but all should be sufficiently organized to provide a ready indication of whether or not the program is succeeding, and particularly whether or not good faith efforts have been made to insure fair treatment of women and minority group persons before and during employment. Reporting systems should include a method of evaluating applicant flow; referral and hiring rate; and an application retention system to allow the development of an inventory of available skills.

At least once annually the institution must prepare a formal report to OCR on the results of its affirmative action compliance program. The evaluation necessary to prepare such a report will serve as a basis for updating the program, taking into consideration changes in the institution's work force (e.g., expansion, contraction, turnover), changes in the availability of minorities and women through improved educational opportunities, and changes in the comparative availability of women as opposed to men as a result of changing interest levels in different types of work.

6. *Publication of affirmative action programs.* In accordance with 41 CFR 60–2.21 (11), which states that the contractor should "communicate to his employees the existence of the contractor's affirmative action program and make available such elements of his program as will enable such employees to know of and avail themselves of its benefits," the Office for Civil Rights urges institutions to make public their affirmative action plans. University contractors should also be aware that affirmative action plans accepted by the Office for Civil Rights are subject to disclosure to the public under the Freedom of Information Act, 5 U.S.C. 552. Subject to certain exemptions, disclosure ordinarily will include broad utilization analyses, proposed remedial steps, goals and timetables, policies on recruitment, hiring, promotion, termination, grievance procedures, and other affirmative measures to be taken. Other types of documents which must be released by the Government upon a request for disclosure include the contractor's validation studies of tests and other preemployment selection methods.

Exempt from disclosure are those portions of the plan which contain confidential information about employees, the disclosure of which may constitute an invasion of privacy, information in the nature of trade secrets, and confidential commercial or financial information within the meaning of 5

[3] Benefits which are different for men and women have been declared in violation of title VII of the Civil Rights Act of 1964 in recent guidelines published by the Equal Employment Opportunity Commission. These guidelines also state that it is no defense against a charge of sex discrimination that the cost of such benefit is greater for one sex than for the other.

U.S.C. 552(b)(4). Compliance agencies also are not authorized to disclose the Standard Form 100 (EEO–1) or similar reporting forms or information about individuals.

7. *Developing a plan.* The Office for Civil Rights recognizes that in an institution of higher education, and particularly in the academic staff, responsibility for matters concerning personnel decisions is diffused among many persons at a number of different levels. The success of a university's affirmative action program may be dependent in large part upon the willingness and ability of the faculty to assist in its development and implementation. Therefore, the Office for Civil Rights urges that university administrators involve members of their faculty, as well as other supervisory personnel in their work force, in the process of developing an information base, determining potential employee availability, the establishment of goals and timetables, monitoring and evaluating the effectiveness of the plan, and in all other appropriate elements of a plan. A number of institutions have successfully established faculty or joint faculty-staff commissions or task forces to assist in the preparation and administration of its affirmative action obligations. We therefore recommend to university contractors that particular attention be given the need to bring into the deliberative and decisionmaking process those within the academic community who have a responsibility in personnel matters.

The Office for Civil Rights stands ready to the fullest extent possible to assist university contractors in meeting their equal employment opportunity obligations.

TAB G: MEMORANDUM TO PRESIDENTS OF INSTITUTIONS OF HIGHER EDUCATION PARTICIPATING IN FEDERAL ASSISTANCE PROGRAMS

AUGUST 1972.

As you may know, on June 23, 1972, the President signed into law the "Education Amendments of 1972" (effective July 1, 1972). Title IX of this Act prohibits sex discrimination in all federally assisted education programs and amends certain portions of the Civil Rights Act of 1964. The Office for Civil Rights, Department of Health, Education, and Welfare, is presently in the process of developing regulations and guidelines to implement title IX. For your immediate information, however, I have set forth below a brief summary of the pertinent provisions of title IX, and have attached a copy of the law.

A. *Basic provision.* Title IX of the Higher Education Act states:

"No person in the United States shall, on the basis of sex, be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any education program or activity receiving Federal financial assistance * * *."

This sex discrimination provision of title IX is patterned after title VI of the Civil Rights Act of 1964 which forbids discrimination on the basis of race, color, and national origin in all federally assisted programs. By specific exemption, the prohibitions of title VI do not reach employment practices (except where the primary objective of the Federal aid is to provide employment). However, there is no similar exemption for employment in title IX.

Therefore, effective July 1, as a condition of receiving Federal assistance, your institution must make all benefits and services available to students without discrimination on the basis of sex. As indicated below, there are exemptions to and a deferment in implementing the admissions provision. However, all other requirements of this title are presently in effect.

B. *Which institutions are covered.* All educational programs and activities which are offered by any institution or organization and which receive Federal financial assistance by way of grant, loan, or contract other than a contract of insurance or guaranty are covered. Title IX specifically lists the types of educational institutions which are covered. These include public and private preschools, elementary and secondary schools, institutions of vocational education, professional education, and undergraduate and graduate higher education.

C. *Provisions concerning admissions to schools and colleges.* 1. Certain educational institutions covered by title IX are prohibited from sex discrimination in all of their programs and activities, including admissions to their institutions. These institutions include:

a. Institutions of vocational education (public and private).

b. Institutions of professional education (public and private).

c. Institutions of graduate higher education (public and private).

d. Public undergraduate institutions of higher education (except those which have been traditionally and continually single-sex).

2. Exemptions from the admissions provisions.

Some educational institutions covered under title IX are exempted from complying with the prohibition against discrimination in admissions. These institutions are:

a. Private undergraduate institutions of higher education.

b. Elementary and secondary schools other than secondary vocational schools whose primary purpose is to train students in vocational and technical areas.

c. Public institutions of undergraduate higher education which have been traditionally and continually single-sex.

Schools of vocational, professional, graduate higher education, and public undergraduate higher education which are in transition from single-sex institutions to coeducational institutions are exempt from nondiscrimination in admissions for specified periods of time provided each is carrying out a plan approved by HEW, under which the transition will be completed. Although all these institutions are exempt from the requirement of immediately admitting students of the previously excluded sex, they are required not to discriminate, as of the effective date of the Act (July 1, 1972), against any admitted students in any educational program or activity offered by the educational institutions.

D. *Other exemptions*—1. *Religious institutions.* Institutions controlled by religious organizations are exempt if the application of the antidiscrimination provisions is not consistent with the religious tenets of such organizations.

2. *Military schools.* Those educational institutions whose primary purpose is the training of individuals for the military services of the United States or the merchant marine are exempt.

E. *Provisions relating to living facilities.* The Act allows institutions receiving Federal funds to maintain separate living facilities for persons of different sexes.

F. *Who enforces the Act.* The Federal departments empowered to extend aid to educational institutions have the enforcement responsibility. (The enforcement provisions are virtually identical to those of title VI of the Civil Rights Act of 1964.) Reviews can be conducted whether or not a complaint has been filed. We presently are in the process of developing procedures under which this agency will represent all Federal agencies in the administration of title IX, as is presently the case under title VI of the Civil Rights Act of 1964.

G. *Who can file charges.* Individuals and organizations can challenge any unlawful discriminatory practice in a Federal program or activity by filing a complaint with the appropriate Federal agency. During the review process, names of complainants are kept confidential if possible.

H. *What happens when a complaint is filed.* An investigation is conducted, if warranted, and if a violation is found, informal conciliation and persuasion are first used to eliminate the discriminatory practices.

I. *Formal enforcement procedures.* If persuasion fails, the Act provides for formal hearings conducted by the Federal agency(s) involved. Such action can result in the termination or withholding of Federal financial assistance. In some instances, cases can be referred to the Department of Justice with a recommendation that formal legal action be taken. Recipients of Federal moneys which have been terminated or withheld can seek judicial review of the final order issued by the agency.

J. *Preferential treatment.* Institutions cannot be required to establish quotas or grant "preferential or disparate" treatment to members of one sex when an imbalance exists with respect to the number or percentage of persons of one sex participating in or receiving the benefits of federally assisted educational programs or activities. This provision is analogous to the racial imbalance provision in title VI which states that the absence of a racial balance is not in itself proof of discrimination. However, these provisions do not mean that corrective actions may not be required to overcome past discrimination.

K. *Provision concerning blind students.* Students cannot be denied admission on the grounds of blindness or severely impaired vision to any federally assisted education program or activity. The institution, however, is not required to provide special services for such persons.

We will provide more specific guidance on the requirements of title IX in the near future. In the interim, should you have any questions relating to this matter, please feel free to write to me.

J. STANLEY POTTINGER,
Director, Office for Civil Rights.

(The remainder of Tab G was a copy of title IX of the Education Amendments of 1972, Public Law 92–318, 92d Cong., S. 659, June 23, 1972.)

TAB H: Tab H of the October 1, 1972, Memorandum and Guidelines was a copy of the Equal Employment Opportunity Act of 1972, Public Law 92–261, 92nd Congress, H.R. 1746, March 24, 1972.

TAB I: OFFICE FOR CIVIL RIGHTS COMPLIANCE PROCEDURES

Section 206 of the Executive order authorizes the Secretary of Labor to investigate the employment practices of any Government contractor to determine whether or not it is

If either the original or updated program

conducted with representatives of organiza-

be given to the government contracting

XUM
V37-224-NOV18-72
XUM

in compliance with the nondiscrimination and affirmative action provisions contained therein. The Secretary of Labor may also receive and investigate complaints from employees or prospective employees which allege discrimination in violation of the Executive order. To implement these provisions, the Secretary of Labor has directed that government agencies with compliance responsibility for specific types of Federal contractors institute programs for conducting regular compliance reviews, and institute a prompt investigation of each complaint filed with it or referred to it.

The Office of Civil Rights within the Department of Health, Education, and Welfare has been assigned responsibility by the Secretary of Labor for conducting reviews and investigations in institutions of higher education "regardless of the agency which awards the contract." Reviews and investigations are undertaken by the ten Regional Offices for Civil Rights, which have the responsibility for determining in the first instance whether a contractor is in compliance, and of recommending possible enforcement action to the Director of the Office for Civil Rights in Washington.

Section 211 of the Executive order provides that the Secretary of Labor may direct contracting agencies not to enter into contracts unless the prospective contractor has satisfactorily complied with the provisions of the Executive order, or has submitted a program for comoliance acceptable to the Secretary of Labor. To implement this directive, the Secretary of Labor has provided that no contract of $1 million or more shall be awarded unless a pre-award clearance has been conducted by the comoliance agency at least 12 months prior to the award, and unless that review has found the prospective contractor to be in comoliance or able to comoly as the result of the submission of an acceotable affirmative action plan. Government contracting agencies may also be separately notified by the Secretary of Labor that a contractor or prospective contractor is unable to comoly with the equal employment opportunity clause for the ourpose of all future awards or extensions or renewals of existing contracts.

Types of reviews. There are a variety of circumstances which may prompt the Regional Office for Civil Rights to schedule a review or investigation of the employment practices of a college or university.

1. *Pre-award reviews.* When any agency of the Federal Government identifies an institution of higher education as the prospective recipient of a contract of $1 million or more, the Office for Civil Rights is responsible for conducting a review of the institution's compliance status. The requirement applies in the case of a modification of an existing contract when the amount of additional funds is $1 million or more, as well as to the extension of an existing contract or award of a new contract in this amount.

2. *Reviews directed by Office of Federal Contract Compliance.* The Director, Office of Federal Contract Compliance, Department of Labor, may direct the Office for Civil Rights to conduct a compliance review. For example, a specific review may be requested as a part of a coordinated Government-wide review of all contractors in a specific geographical area, or may be based on the receipt by the Director of information from public or private sources indicating that a specific problem of discrimination may exist within an institution's work force.

3. *Complaint investigations.* Until the summer of 1972, the Office for Civil Rights had been responsible for investigating complaints from professional employees against an institution received directly by the Office for Civil Rights or referred to it by the Director, Office of Federal Contract Compliance. The U.S. Equal Employment Opportunity Commission, with its district offices throughout the nation, now has this responsibility. (See guidelines.)

Institutions of higher education are subject to the provisions of title VII of the Civil Rights Act of 1964, which prohibits discrimination in employment whether or not the employer receives Federal financial assistance. The Equal Employment Opportunity Commission is responsible for enforcing title VII. The Office for Civil Rights continues to investigate complaints seeking relief for an affected class as well as general allegations of patterns of discrimination at an institution. Such class complaints or allegations may be factors in determining which institutions will be scheduled for review.

4. *Regular compliance reviews.* Reviews are also undertaken as part of a systematic program of the Office for Civil Rights to examine the employment practices of contractors for which it is assigned responsibility. Most of these reviews are routinely scheduled, although it should be noted that they may be given a higher priority as a result of information received from either public or private sources that a specific problem of discrimination against a class or classes of persons exists within the institution.

Except for pre-award clearances, all reviews and investigations are scheduled by the Regional Offices on a quarterly basis. Since the number and location of pre-award reviews cannot be anticipated by the Office for Civil Rights sufficiently in advance to permit planned scheduling, they are scheduled as required.[4]

Access to information. In conducting a compliance review, the Office for Civil Rights must have adequate information about the contractor's employment practices. Such information includes data reflecting generally the employment status of existing employees and specific information on the contractor's recruitment and hiring patterns, and on its employment criteria, policies, and procedures. (See Appendix J on data requirements.) It may also be necessary in particular instances to have access to specific information pertinent to employment decisions. It may also be necessary to compare the treatment of a number of individuals in order to determine factors which have affected relevant employment decisions.

Examination of individual records could conclusively demonstrate the existence of discrimination if, for example, there is overt mention in a personnel file that race, color, national origin, religion, or sex was improperly considered in an employment decision. In such a case, examination of more general statistical data might serve as a gauge of the extent of discrimination and the scope of the required remedy. A similar approach would be warranted where initial comparison of personnel files of similarly situated employees indicates significantly different treatment corresponding with the race, color, ethnicity, religion, or sex of the employees involved. Where the focal point of an investigation becomes an individual or class instance of discrimination, the examination of certain personnel records will in most cases be necessary.

It should be made clear that access by the Office for Civil Rights to personnel information is limited to its obligation to identify and eliminate discrimination prohibited by the Executive Order, and to secure required affirmative action. The Office has no intention or authority to seek information for any other purpose. With this in mind, we expect the full cooperation of institutions of higher education in providing the Office for Civil Rights information necessary to evaluate the contractor's compliance status. See 41 CFR 60–1.7(a) (3) and 60–1.43, and paragraph (5) of the equal opportunity clause.

In addition, the Office for Civil Rights' investigative responsibilities require that it have access to employees of contractors, as sources of information. The Office is therefore authorized to interview any employee, without the presence of a contractor representative, in the course of investigation or compliance activities, subject, of course, to reasonable procedures on time, place, and manner. (See 41 CFR 60–1.20, 60–1.24, and 60–1.32.)

The Office will request information in reasonable form, and will not demand access to information and copying of records except during normal business hours. Failure to provide information or permit access to and copying of pertinent records constitutes noncompliance with the contractor's obligations under the Executive Order, and subjects the contractor to enforcement action, including a hearing before an independent hearing examiner. During the course of an enforcement hearing the contractor has an opportunity to contest the Office for Civil Rights' determination as to the necessity and pertinence of information it seeks.

Consistent with its limited responsibilities, the Office for Civil Rights will not publicly disclose information gathered during the course of a compliance review except as indicated in the guidelines.

Conduct of compliance reviews[5]—1. *Notice to the institution.* Once an institution has been selected and scheduled for review, a letter is sent by the Regional Civil Rights Director to the head of the institution advising him of the anticipated date for commencement of the review. This notification will be sent to the institution as far in advance as possible, but ordinarily at least six weeks prior to the initiation of the compliance review.[6] The notice will request the institution to prepare and make available either prior to or at the beginning of the review certain information which is necessary to a determination of compliance. This information ordinarily will consist of:

1. For private institutions which are subject to Revised Order No. 4, a copy of the original affirmative action program including all of the base data, analyses, documents and supporting data which were used in preparing the program. If the program has been in effect for more than 6 months, the updated affirmative action program and the evaluation of the program's operation since it was originally developed should be included, as well as all actions taken to correct any problems of discrimination or underutilization.

[4] Allegations of discrimination filed by campus organizations, or by advocacy groups such as NOW, WEAL, NAACP, and The National Urban League, which do not contain the signature of any alleged victim of the discrimination or of an authorized representative of such an individual will be handled as part of a general compliance review.

[5] This section describes procedures normally followed, in the absence of unforeseen circumstances.

[6] An exception to this minimum notice period will be in the case of a pre-award review where the anticipated date of award of the contract or modification will not permit such notice. In these circumstances, as much advance notice as possible will be given to the institution. We have found that the normal prior notice period can generally be no more than one week in these cases. However, in most circumstances, because an institution is directly involved in contract negotiations with the government, it can anticipate the need for an Office for Civil Rights pre-award review sufficiently in advance of the receipt of notice to proceed with preparing the information necessary for the review.

If either the original or updated program has been in effect for less than 6 months, and if the institution believes that actions taken under it would affect a determination of its compliance, the university may, of course, include such information in its report.

2. For public institutions specifically exempted from Order No. 4 and for private institutions which have not previously held contracts covered by the Executive order, the notice will request that the institution prepare the basic employment information described. If such institutions have drawn conclusions from the data as to discrimination or underutilization, the institutions are free to include the information, and we strongly encourage them to do so. Information on any programs and policies which have been developed pursuant to the contractor's affirmative action obligations should also be included.

3. If the institution, whether public or private, has been previously reviewed by the Office for Civil Rights, a full report, both narrative and statistical, indicating all actions taken to correct any problems which may have been reported to the institution as a result of the prior review should be provided.

The Regional Office may request that the above described information be submitted to it prior to commencement of the on-site review, or it may request that it be available when its review team arrives to begin the on-site review. Although it would be preferable to schedule the review sufficiently in advance to permit the institution to prepare the information and forward it to the Regional Office, this will not always be possible, particularly in the case of a mandatory pre-award review.

2. *On-site review.* The purpose of a compliance review is to determine whether or not the institution is fulfilling its contractual obligations of nondiscrimination and affirmative action. In most instances, prior to any review, it is helpful for the Regional Office to have the benefit of the contractor's own analysis of its employment practices, its own evaluation of its utilization of minorities and females and its own plans and programs for overcoming problems which it has identified through these self-evaluation procedures. Indeed, if the contractor has fully complied with its obligations under 41 CFR Part 60–1, 60–2, 60–3, and 60–20, the review may consist of no more than an evaluation by the Regional Office of the adequacy of the contractor's analyses and conclusions and of the plans and programs which he has developed to overcome problems of discrimination and underutilization. The scope of the review will to a great extent depend on the quality of self-evaluation engaged in by the contractor prior to the on-site review.

On the basis of a review of the data prepared by the contractor, the Regional Office will select for review specific departments or other organizational units, specific job categories across departmental or organizational lines, and specific personnel practices or policies applicable within the institution as a whole. If the review team deems it necessary for the purpose of determining compliance, the review will involve the detailed examination of formal and informal personnel procedures and policies, as well as individual personnel records of employees, former employees, and applicants for employment in the organizational units and job categories being analyzed. During the course of the review, the Regional Office team may wish to conduct interviews with employees, former employees, and applicants for employment in those job categories or organizational units being examined and with personnel responsible for participating in the personnel decisions affecting the selected job categories or organizational units. Interviews may also be conducted with representatives of organizations active on the campus and community organizations which have an interest in equal employment opportunity. It should be emphasized that the organizational examination may be expanded during the review if any information is developed which in the judgment of the Regional Office requires further evaluation and examination.

Based on the information gathered through these processes preliminary findings will be developed by the review team and presented to the head of the institution or his designated representative at an exit conference. Suggestions will be offered as to how the institution can correct or remedy any problems of discrimination or underutilization discovered during the review. While it is expected that the review team will keep the contractor's representatives fully informed of problems as they are discovered during the review, the formal exit conference will assure that the contractor is fully apprised of the likely findings of the review.

The exit interview does not represent a formal presentation of the findings, but provides the contractor an opportunity to review and react to the probable findings, to submit any additional documentation, and to discuss any additional factors which may not have been brought to the reviewers' attention during the review.

3. *Compliance letter.* Within approximately 30 days of the on-site review and the exit conference, the head of the institution will receive a formal letter from the Regional Civil Rights Director. The letter will include an evaluation of the institution's compliance status in each organizational unit, job category, or personnel policy or procedure examined during the review. The letter will include an identification and discussion of all facts considered. The letter may also indicate specifically what must be accomplished by the contractor, suggestions as to what additional actions the contractor might take, and a maximum period of time within which the remedy must be effected.

This letter may be presented either in person by a member of the Regional Office staff or mailed to the contractor. If major problems are found, the letter will be discussed in detail with the responsible administrative officers of the institution.

4. *Response by the contractor.* Within approximately 30 days of receipt of a compliance letter the contractor will be expected to respond in writing to the Regional Civil Rights Director. This response must address itself to each citation contained in the compliance letter and indicate in detail what action has been taken or is planned by the contractor on each point, including the period within which he intends to take action. If the action differs from that set forth as acceptable in the compliance letter, a full justification for the alternative must be set forth, including evidence that the alternative will be effective. If the time limit for effective action differs from that indicated in the compliance letter, the contractor must also provide evidence to support his conclusion that the action cannot be effected within the time specified by the Regional Office.

If the contractor disagrees with a finding made by the Regional Civil Rights Director, its response must state in detail the basis for disagreement and provide evidence to refute the validity of the facts upon which the finding was based, or demonstrate that the finding itself was based on an erroneous interpretation of the facts. In any such case it is expected that the contractor will provide any additional documentation which it considers appropriate to support its position.

Exceptions to the exit conference, compliance letters, and response procedures will in most cases be required in preaward reviews which carry a requirement that notice be given to the government contracting agency regarding the prospective contractor's compliance status within 30 days of the request for clearance. In such instances every effort will be made by the Regional Office to issue the formal letter within 3 weeks of the request, which would allow the contractor 1 week for response. If the contractor is unable for reasons beyond his control to respond within the 1-week period, an extension of the 30-day clearance period will be requested by the Office for Civil Rights from the contracting agency. However, if the contractor elects not to respond within the 1 week or an extension cannot be secured from the contracting agency, the Office for Civil Rights will be unable to make the positive certification required for the award.

5. *Evaluation of the response.* Within approximately 30 days of receipt of the institution's response, the Regional Civil Rights Director will notify the head of the institution of the results of his evaluation of the response. If the response appears to the Regional Office to be satisfactory, or if the response is sufficient to alter a previous finding, the notification will indicate the Regional Office's tentative acceptance of the response and will advise the institution that it has been forwarded to the Washington Office with a recommendation for final acceptance.

If the response is not acceptable to the Regional Office, the notification will indicate the areas of unacceptability and usually will request a conference with the contractor to attempt to resolve the differences. If a resolution cannot be achieved within approximately 30 days following this notification, the matter will be forwarded to the Washington Office with appropriate recommendations for additional conciliation efforts or enforcement action. If such recommendations are made by a Regional Office, the head of the institution will be so advised in writing by the Regional Civil Rights Director. When a case is not resolved at the level of the Regional Office, the Washington Office may determine that additional conciliation efforts are necessary before taking enforcement action. In such cases, the Director of the Office for Civil Rights will inform the institution of its opportunity to meet with the Director or his representatives for further discussion of the unresolved issues.

Conduct of class complaint investigations—1. *Notice of the institution.* Within approximately 10 days of the filing of a class complaint, a notice will be sent by the Regional Civil Rights Director to the head of the institution advising him of the receipt of a complaint. This notice will include the date, place, and circumstances of the alleged unlawful employment practice. Notification of a scheduled review will be sent to the institution as far in advance as possible but at least 2 weeks prior to the initiation of the investigation.

2. *On-site investigation.* At the opening of an investigation a copy of the complaint will be provided to the institution, and the institution will be advised of the procedures to be followed by the reviewer conducting the investigation. The institution will also be advised at this time of the particular personnel processes and the organizational units or job categories which will be reviewed as a part of the investigation. The investigation may involve, according to the discretion of the compliance review team, an examination of relevant data and information concerning present employees, former employees, or applicants for employment in the organization units and job categories associated with the complaint. It may also include an analysis of formal and informal personnel procedures and policies associated with the particular practice being examined;

Rights, although the contractor may be re-

C. REQUIRED ANALYSIS

upon which it draws is significantly different

V 37 • 224 NOV 18 72 XUM

interviews with employees, former employees or applicants for employment.

Based on the information gathered during the investigation, preliminary findings will be developed by the investigative team and presented to the head of the institution or his designated representative at an exit conference. As in the case of regular reviews, the exit interview does not represent a formal presentation of the findings but provides the contractor an opportunity to submit any additional documentation and discuss any additional factors which may not have been brought to the reviewers' attention during the review and which it wishes the reviewers to consider in preparing their formal findings. If the preliminary finding is that the allegations are valid, the investigative team will advise the institution as to the specific corrective action which may be required by the contractor to remedy the discriminatory treatment, and of the date by which such actions should be taken. It should be noted that while a formal finding is not made at the exit conference, this should not preclude the contractor's acting to remedy a matter brought to his attention during the exit conference, prior to receipt of formal findings.

It should be emphasized that the law protects individuals who have complained of discrimination from harassment by the employer because of that complaint. Instances of harassment or reprisals brought to the attention of the Office for Civil Rights may be considered a basis for enforcement action. The same criteria apply to relatives of complainants and to those who aid in a government inquiry.

Steps following noncompliance determinations show cause notices. When the Director of the Office for Civil Rights has reasonable cause to believe that a contractor has violated the equal opportunity clause, he may issue a notice requiring the contractor to show cause, within 30 days, why monitoring, enforcement procedures or other appropriate action to insure compliance should not be instituted. (See 41 CFR 60–1.28.) A show cause notice will in all cases be issued to the contractor when it is found that a contractor does not have an affirmative action program or that the program is not acceptable under the standards contained in 41 CFR 60–2.10 through 60–2.32. The Department of Labor recently issued a notice of proposed rule making to require that a show cause notice be issued when there is a substantial deviation from an affirmative action program (37 F.R. 17766). In other enforcement circumstances, a show cause notice is not required and its use is at the sole discretion of the Director, Office of Federal Contract Compliance, Department of Labor.

Show cause notices may also be issued by the Regional Civil Rights Director as a part of letters of findings following either a compliance review or a complaint investigation if it is found that an institution which is required to have developed an affirmative action program has not done so, or that the affirmative action program which has been developed by the institution does not conform to the guidelines contained in 41 CFR 60–2.10 through 60–2.32.

Sanctions and penalties. The Executive order authorizes the imposition of the following sanctions and penalties against contractors who have failed to comply with the provisions of the Executive order and the implementing regulations:

1. Publication of the name of the noncomplying contractor.

2. Cancellation, termination, and suspension of contracts or portions of contracts.

3. Debarment from future contracts or extensions or modifications of existing contracts.

In addition, the Director, Office of Federal Contract Compliance, may in some cases recommend to the Department of Justice or the Equal Employment Opportunity Commission the initiation of appropriate judicial proceedings, including criminal proceedings by the Department of Justice for providing false information.

Prior to the imposition of any sanctions and penalties, reasonable efforts within a reasonable time must be made to secure compliance through conference, conciliation, mediation and persuasion, and the contractor must be afforded an opportunity for a hearing. We have briefly described the processes of conference, conciliation, mediation, and persuasion above in outlining the compliance review and compliant investigation procedures. When these efforts fail to produce corrective action adequate to overcome any instance of noncompliance, appropriate administrative proceedings leading to the imposition of sanctions and penalties will be initiated. The first step in this process will be a letter giving contractors 10 days in which to comply or request a hearing before an impartial hearing officer. The procedures for imposition of the sanctions and penalties are detailed in 41 CFR 60–1.26, 60–1.27, 60–1.30 and 60–1.31.

A hearing adjudicates whether the contractor is out of compliance with the requirements of the Executive order and its regulations. Except to the extent that applicable law provides otherwise, the burden of proving noncompliance is on the Government. Hearings are conducted in accordance with the Department's rules for such proceedings, published at 45 CFR Part 82 and 37 F.R. 7323. These rules also prescribe the procedures for intervention of interested parties in these proceedings (§ 82.6), and for review within the Department of the decision of the hearing officer (§ 82.37).

The Office for Civil Rights is responsible for advising HEW contracting agencies as to whether contractors for which they are responsible can comply with the requirements of the equal employment opportunity clause contained in each Federal contract over $10,000. Such advice is binding upon the contracting officers in their determinations of the responsibility of prospective contractors. OFCC is responsible for advising other agencies on the contractor's compliance status. Such advice is ordinarily based upon the information and findings of the OCR review.

If the Office for Civil Rights has determined, pursuant to the review and enforcement procedures outlined in this and the preceding section, that a contractor is unable to comply with its equal employment opportunity obligations, the Director may so advise all contracting agencies.[7] This notification may or may not occur in the context of a response to a request for clearance of a new award or of the modification or extension of an existing contract.[8]

Notification of "inability to comply" to contracting agencies by the Director of the Office for Civil Rights has the effect of denying or deferring the extension of an existing contract or the award of a new contract which may arise. In such cases, the contractor is entitled to have an immediate hearing on its compliance status concurrent with the second denial or deferral of a contract award.

Procedures for a formal hearing, including those for cancellation or termination of existing contracts and debarment from further contracts, are set forth in detail in 41 CFR 60–1.26(b) (Tab B), and in chapter 27–10 of the Department of Health, Education, and Welfare General Administration Manual (34 F.R. 1276).

Tab J: Data Gathering and Analysis—Suggested Procedures

A necessary prerequisite to the development of a meaningful affirmative action program is the identification and analysis of problem areas inherent in minority and female employment, and an evaluation of the opportunities for utilization of minorities and women in the contractor's workforce. (See Guidelines p. 2 for an explanation of the obligations of public contractors.)

The first step in the contractor's analysis of his work force is to determine where policies and practices have had the effect of denying equal employment opportunity and benefits to certain groups of persons on a discriminatory basis. This will necessitate the development of a comprehensive inventory of all employees.

An employer must then organize this inventory so as to determine:

1. Any patterns of job classification and assignment identifiable by sex or minority group;

2. Any job classification or organizational unit where women and minorities are not employed or are underutilized (see Guidelines p. 3 for a definition of underutilization); and

3. Any patterns of difference in rate of pay, status, type of appointment, termination, or rates of advancement within job classifications or organizational units which are identifiable by sex or minority group.

The results of a contractor's analysis should be shared and discussed with personnel relations staff, with department and divisional heads and with other supervisors responsible for academic and nonacademic personnel to determine whether patterns suggesting deficiencies in equal employment exist and, if so, why. At this stage of evaluation, some institutions have set up task forces to assist in identifying discriminatory patterns and practices. This has proven particularly useful in the area of academic employment, where the faculty has traditionally had a principal responsibility for matters relating to faculty status.

A. Basic data file

The contractor must first establish a basic data file on its employees. This is the primary source material of the institution and need not be submitted to the Office for Civil Rights, although the contractor may be required at some time to supply OCR with this information in order to determine the accuracy in the compilation of the data.

The basic file should contain the following for each employee:

(1) Name and/or identification number (See discussion below).
(2) Sex.
(3) Ethnic identification (Negro, Spanish-surnamed, American Indian, Oriental. All others, including Caucasians, should be identified as "other").
(4) Year or date of birth, or age.
(5) Current salary (full-time annual equivalent).
(6) Current job family or generic job family.
(7) Current job title.
(8) Personnel action resulting in current job title (new hire, promotion, transfer, demotion).
(9) Date of personnel action resulting in current title (years in current job).
(10) Previous job title.
(11) Employment status (full-time, part-time, tenured, non-tenured, etc.).
(12) Educational level.
(13) Organizational unit where employed.
(14) Date of hire.

The contractor may wish to compile this basic data in the form of a master list, or computer printout, arranged by department, within department by job classification, and within job classification by length of service and salary. The Office for Civil Rights will not normally require that these printouts be submitted, if the summaries described below are compiled in such a way as to be sufficient to determine compliance.

In collecting data on employees, it is not necessary to identify the employees by name. Where there is an objection raised by an individual to providing data on his or her race or sex, it should be made clear that individuals are not themselves legally bound to report such information. Where an inventory by voluntary submission of such data on the part of employees is not obtained, however, employers must rely on their supervisors to make identification on the basis of their "best knowledge" of employees. It is clear that no inventory method, and particularly the latter one, will provide perfect accuracy. Nevertheless, the institution must devise some method which will produce reasonably accurate data upon which to base its identification of problems or deficiencies and to develop a responsive affirmative action program.

B. Organization

The basic data on all employees must be summarized for ready analysis in the following manner:

1. By department, a list of each job classification in descending order (e.g. professor, associate professor; secretary 1, secretary 2, etc.) showing the numbers by sex for each racial and ethnic group, as well as cumulative figures for minorities and for females generally.

2. By job classification, within the entire institution, showing the numbers by sex for each ethnic group, as well as cumulative figures for minorities and for females generally. In order to satisfy this requirement an institution must establish an organization chart, broken down by career ladders; it must also classify all job titles and organize them into career ladders. The duties, educational requirements, experiential requirements and pay ranges for each position must be made reasonably explicit.

3. By department, the mean salary in each job classification, by sex for each racial and ethnic group.

4. By job classification, across department lines, the mean salary in each classification, by sex for each racial and ethnic group.

C. Required analysis

1. *Availability of women and minorities.* A unique aspect of equal employment opportunity under the Executive order is the required compilation of availability data on women and minorities for use as a measure of the contractor's equal employment opportunity. By comparing availability data with current employees, the contractor has an indication of how representative its workforce is of the persons qualified for employment in its institution.

The Department of Labor's Revised Order No. 4 (41 CFR 60–2.11(a) (1 and 2)) contains explicit guidelines for constructing an availability index for minorities and an availability index for women. These indices are particularly applicable in the case of nonacademic personnel.

The demographic data needed to develop these estimates can generally be secured through the Census Bureau, the Department of Labor's Bureau of Labor Statistics and its Women's Bureau, and from city, county and state governments, including planning commissions and public employment agencies. Estimates concerning minority population, workforce and requisite skills may often be obtained from local Chambers of Commerce, union organizations, and minority and women's advocacy groups such as the Urban League and NOW. The community organizations serving minorities and women will often be the closest to the situation and thus should be contacted by the contractor in preparing estimates of availability.

For academic personnel the development of availability figures is slightly different, because the recruiting area will vary from institution to institution. It may be a national or even international one. Because the skills required for a particular position are often quite specialized, accurate information on availability may be more difficult to obtain.

OCR recommends the following procedure for determining availability figures for women and minorities for academic positions:

Many disciplinary associations and professional groups have data that show percentages of racial and national origin minorities available in certain fields, and a 1968 study by the Ford Foundation (Office of Reports) provides percentages of Negroes holding doctorates. To determine the number of women available for senior level positions, the Office recommends that the contractor use data available from the National Register of Scientific and Technical Personnel prepared by the National Science Foundation, and the U.S. Office of Education's annual reports on earned degrees. Another source is the National Research Council of the National Academy of Science. This data has been compiled by sex, but is now being compiled by race, as well. The NSF data is broken down by sex, specialty and subspecialty, highest degree, years of professional experience, and primary work activity. The OE data is broken down by sex, degree earned, school granting degree, and specialty. For women in junior positions, the Office recommends that the contractor consider the OE annual report of earned degrees for the last 5 years and current graduate school enrollments.

To the extent that an institution makes a practice of employing its own graduates, the number and percentage of graduate degrees which it has itself awarded to women and minorities in the past 10 years or so should be reflected in the goals which it sets for its future faculty appointments.

For academic employees the basic national data on earned doctoral degrees will provide the basis for a utilization analysis of a contractor's work force, unless the contractor can otherwise demonstrate that the labor market upon which it draws is significantly different from this base. For example, some institutions appoint a large number of new faculty from a particular group of graduate schools; such institutions may use data obtained from these schools to determine the availability of women and minorities. If the annual output of women and minorities from the primary feeder schools exceeds the national average, the contractor will be expected to use higher figures to determine availability. If the output from the feeder schools is less than the national average, the institution will be expected to justify its use of such recruitment sources, or use the higher figures to determine eligibility.

2. *Comparison of current work force with availability data.* The next step for the contractor is to compare the number of women and minorities in its current work force with their availability in the market from which it can reasonably recruit. This comparison must be by comparable job categories. Wherever the comparison reveals that a hiring unit of the university (a department or other section) is not employing minorities and women to the extent that they are available and qualified for work, it is then required to set goals to overcome this situation.

Goals should be set so as to overcome deficiencies in the utilization of minorities and women within a reasonable time. In many cases this can be accomplished within 5 years; in others more time or less time will be required.

Goals may be set in numbers or percentages, and should reflect not only the number of new hires but also the projected overall composition of the work force in the given unit.

It is necessary to set goals that will overcome underutilization in the institution's work force within a reasonable period of time, not merely to set goals for new hires based on current availability.

In many institutions the appropriate unit for goals is the school or division, rather than the department. While estimates of availability in academic employment can best be determined on a disciplinary basis, anticipated turnover and vacancies can usually be calculated on a wider basis. While a school, division or college may be the organizational unit which assumes responsibility for setting and achieving goals, departments which have traditionally excluded women or minorities from their ranks are expected to make particular efforts to recruit, hire and promote women and minorities. In other words, the Office for Civil Rights will be concerned not only with whether a school meets its overall goals, but also whether apparent general success has been achieved only by strenuous efforts on the part of a few departments.

3. *Salary analysis.* A salary analysis is required for all employees. The basic question to be answered by such an analysis is whether there is a difference in the salary of employees with the same job title that can be attributed to their sex or minority status. However, before this analysis is done, job titles must be compared and overlapping ones merged so that persons doing the same work with different job titles benefit from the salary analysis.

The most effective means of undertaking a meaningful salary analysis may vary from institution to institution. Factors which are taken into consideration in determining salary may vary among and even within institutions. The purpose and function of every salary analysis should be to determine whether women or minority group persons are being paid lower wages for performing the same or essentially the same duties.

[7] 41 CFR 60–2.2 provides in part that "[A]ny contractor required . . . to develop an affirmative action program . . . who has not complied fully * * * is not in compliance with Executive Order 11246 * * *" and "is unable to comply with the equal employment opportunity clause" unless the Government can "otherwise affirmatively determine that the contractor is able to comply with his equal employment obligations or, unless, upon review, it is determined by the Director [Office of Federal Contract Compliance] that substantial issues of law or fact exist as to the contractor's responsibility to the extent that a hearing is, in his sole judgment, required prior to determination * * *"

[8] 41 CFR 60–1.20(d) provides that contracts of $1 million or more, including modifications or extensions of existing contracts which involve the allocation of additional funds in the amount of $1 million or more, cannot be awarded without a finding that the prospective contractor is complying with the provisions of the Executive order and the implementing regulations.

D. ADDITIONAL TYPES OF ANALYSES WHICH ARE

DEPARTMENT OF

Report of Subcommittee on Research and Program Development.

more than twice that for a curie of any other radionuclide (i.e., 3.7×10^{10}), and

V 37 I 224 NOV 18 72 I
XUM
XUM

D. ADDITIONAL TYPES OF ANALYSES WHICH ARE USEFUL IN DETERMINING COMPLIANCE

1. *Locations analysis.* In an attempt to prevent the development of segregated job titles in any physical location, a locations report is suggested. This report should examine the race-sex-national origin composition of each job title in each major organizational unit of the institution, e.g., athletic department, health services, hospitals, central administration, deans' offices, building and grounds, etc.

This analysis may not be revealing where the units involved are small or where the numbers of minorities or women in the job title are few. But where a university discovers that it has one minority or sex group clustered in any one unit, even though there are members of the opposite sex or of other minorities in the same job title clustered elsewhere, corrective action must be taken. If a university discovers the reason for this concentration, it can prevent it from recurring or continuing by altering its policies.

This type of analysis may also be useful in determining at what point in the organizational structure women or minorities cease to move upward, and what obstacles to upward mobility may exist within the contractor's organizational structure.

2. *Promotion analysis.* A university may also compile data to determine the success or failure of women and minorities in attaining promotion or tenure. One possible method is to compare the time spent prior to gaining promotion or tenure by males and by females of similar experience or by minorities and by others of similar experience. Another comparison could show the percentage in each group eligible for and those granted promotion or tenure. Wide variance among sex-ethnic-racial groups would necessitate further analysis.

E. TESTING AND TEST VALIDATION

41 CFR Part 60-3 ("Employee Testing and Other Selection Procedures") requires all contractors to validate tests used as a basis for employment decisions, in order to make certain they are not discriminatory, and provides that contractors may be required to validate other employee selection techniques.

The term "test" is defined as any paper-and-pencil or performance measure used as a basis for any employment decision and all other formal, scored, quantified or standardized techniques of assessing job suitability.

The latter techniques include personal history and background requirements which are specifically used as a basis for qualifying or disqualifying applicants or employees, specific educational or work history requirements, scored interviews, biographical information blanks, interviewer's rating scales, and scored application forms.

If a test or selection technique is determined to have a disproportionate impact on minority persons or women, such test or selection technique must be validated pursuant to the regulations cited above.

A testing report should contain the following data: Name of test, publisher, and publication date of the test, the groups on whom it was validated and when and where the groups to whom it is administered by the contractor and in what employment decisions it is used, the average score, the standard deviation for each race-sex group taking the test and the number of people in each race-sex group taking the test. Data should be kept indicating the scores, standard deviation, and number of people in each race-sex group who took the test and subsequently received a favorable personnel action (hired, promoted, placed in new job) in part because of their test scores. Based on the analysis of this data, the contractor must determine where tests must be eliminated or modified.

Dated: November 13, 1972.

J. STANLEY POTTINGER,
Director, Office for Civil Rights.

Office of the Secretary

CHILD AND FAMILY DEVELOPMENT RESEARCH REVIEW COMMITTEE

Notice of Early Childhood Study Section Meeting

The Early Childhood Study Section of the Child and Family Development Research Review Committee will meet on November 28, 29, and 30, 1972. Each day the study section will meet from 9 a.m. until 5:30 p.m. in the cabinet room of the Shoreham Hotel, 2500 Calvert Avenue NW., Washington, DC. The meetings will be closed to the public. The purpose of the Child and Family Development Research Review Committee is to review applications of research and demonstration projects and to make recommendations to the Director of the Office of Child Development as to which projects should be funded. A list of Committee members and a summary of the meeting may be obtained from:

Barbara Rosengard, Research and Evaluation Division, Office of Child Development, Post Office Box 1182, Washington, DC 20013, 202—755—7758.

Dated: November 9, 1972.

BARBARA ROSENGARD,
Executive Secretary.

HEAD START NATIONAL ADVISORY COMMITTEE

Notice of Committee Meeting

There will be a meeting of the Head Start National Advisory Committee on Monday, Tuesday, and Wednesday, December 4, 5, and 6, 1972. The meeting will be held at the Holiday Inn, 8777 Georgia Avenue, Silver Spring, MD, from 9 a.m. until 5 p.m., and is open to the public. The purpose of the Head Start National Advisory Committee is to advise the Director of Project Head Start on matters related to the planning, conduct, and direction of Head Start. The agenda for the upcoming meeting will include: Reports from the bylaws and program review subcommittees; adoption of the bylaws; briefings on the status of Head Start legislation and appropriations, and on projects and programs currently being emphasized by the Office of Child Development; election of officers; and subcommittee meetings.

Dated: November 8, 1972.

CLEMENTINE B. BROWN,
Acting Executive Secretary.

Social Security Administration

HEALTH INSURANCE BENEFITS ADVISORY COUNCIL

Notice of Public Meeting

Notice is hereby given, pursuant to Executive Order No. 11671, published in the FEDERAL REGISTER of June 7, 1972 (37 F.R. 11307), that the Health Insurance Benefits Advisory Council, established pursuant to section 1867 of the Social Security Act, as amended, which advises the Secretary of the Department of Health, Education, and Welfare on medicare and medicaid matters, will meet on Friday, December 1, 1972, and Saturday, December 2, 1972, at 9 a.m. in Room G-10, East Building, Social Security Administration, Woodlawn, Baltimore County, MD. The various committees may meet Thursday evening, November 30, 1972, and, if so, will report to the Council on Saturday. The meetings are open to the public. The Council will consider matters relating to the medicare and medicaid programs.

Further information on the Council may be obtained from Mr. Max Perlman, Executive Secretary, Health Insurance Benefits Advisory Council, Room 585, East Building, Social Security Administration, 6401 Security Boulevard, Baltimore, MD 21235, telephone 301—594-9134. Members of the public planning to attend should send written notice of intent to the Executive Secretary.

Dated: November 13, 1972.

MAX PERLMAN,
Executive Secretary, Health Insurance Benefits, Advisory Council.

DEPARTMENT OF TRANSPORTATION

National Highway Traffic Safety Administration

NATIONAL HIGHWAY SAFETY ADVISORY COMMITTEE

Notice of Public Meeting

On November 29 and 30, 1972, the National Highway Safety Advisory Committee will hold open meetings in Arlington, Va., and Washington, D.C.

The National Highway Safety Advisory Committee is composed of 35 members appointed by the president in accordance with the Highway Safety Act of 1966 (23 U.S.C. 401 et seq.). The Committee consists of representatives of State and local governments, State legislatures, public and private interests contributing to, affected by, or concerned with highway safety, other public and private agencies, organizations, and groups demonstrating an active interest in highway safety, and research scientists and other experts in highway safety.

The Advisory Committee advises, consults with, and makes recommendations to the Secretary of Transportation on matters relating to the activities of the Department in the field of highway safety. The Committee is specifically authorized (1) to review research projects or programs, and (2) to review, prior to issuance, standards proposed to be issued by the Secretary under the national highway safety program.

The following meetings will be held:

The full committee will meet from 9 a.m. to 12 noon on November 29 in Salon B of the Crystal City Marriott Motor Hotel, 1999 Jefferson Davis Highway, Arlington, VA, with the following agenda:

Report of Executive Subcommittee.
Report on Traffic Court Adjudication Problems Related to Drunk Driving Cases.
Status Report on Federal Agencies' Implementation of Highway Safety Standards.
Status Report on Standards Revision.

From 1:30 p.m. to 4 p.m., the two subcommittees will meet with the following agenda:

Subcommittee on Standards Implementation.
Status Report on "Report Card".
Discussion on Federal Agencies' Implementation of Highway Safety Standards.
Discussion and Status Report on Regional Highway Safety Conference.
Plans for Legislative Liaison: Meetings Between Committee Members and State Legislators.
New business.

Subcommittee on Research and Program Development.
GAO Report on Highway Safety Improvement program.
Discussion on Standards Revision.
Briefing on Driver Control Programs and Research.
Status Report on States' Implementation of Single State Agency Requirements.
New business.

On November 30, the full committee will meet from 9 a.m. until 12 noon in room 2230 of the DOT Headquarters Building, with the following agenda:

Report of Subcommittee on Standards Implementation.
Report of Subcommittee on Research and Program Development.
New business.

Further information may be obtained from the Executive Secretariat, National Highway Traffic Safety Administration, Department of Transportation, 400 Seventh Street SW., Washington, DC 20590, 202—426-2872.

This notice is given pursuant to section 13 of Executive Order 11671, June 5, 1972.

Issued on: November 14, 1972.

CALVIN BURKHART,
Executive Secretary.

ATOMIC ENERGY COMMISSION

[Docket Nos. 50-329; 50-330]

CONSUMERS POWER CO. (MIDLAND PLANT, UNITS 1 AND 2)

Reconstitution of Atomic Safety and Licensing Appeal Board

Notice is hereby given that, in accordance with the authority in 10 CFR 2.787(a), the Chairman of the Atomic Safety and Licensing Appeal Panel has reconstituted the Atomic Safety and Licensing Appeal Board for this proceeding to consist of the following members:

Alan S. Rosenthal, Chairman.
Dr. John H. Buck.
Mr. William Parler.

Dated: November 13, 1972.

WILLIAM L. WOODARD,
Executive Secretary, Atomic Safety and Licensing Appeal Panel.

[FR Doc.72-19855 Filed 11-17-72;8:45 am]

[Docket No. PRM-20-3]

GENERAL ELECTRIC CO.

Filing of Petition

Notice is hereby given that the General Electric Co., 175 Curtner Avenue, San Jose, CA, by letter dated October 30, 1972, has filed with the Atomic Energy Commission a petition for rule making to amend 10 CFR Part 20 by the deletion of § 20.5(c)(1) and the revision of the maximum permissible concentrations for natural uranium and natural thorium in Appendix B to those based on a curie, defined as 3.7×10^{10} disintegrations per second.

For purposes of the Commission's standards for protection against radiation, § 20.5(c)(1) defines 1 curie of natural uranium as the sum of 3.7×10^{10} disintegrations per second from U^{238} plus 3.7×10^{10} dis/sec. from U^{234} plus 1.7×10^{9} dis/sec. from U^{235}. Also, it defines 1 curie of natural thorium as the sum of 3.7×10^{10} dis/sec. from Th^{232} plus 3.7×10^{10} dis/sec. from Th^{228}.

The petition notes that this definition results in a value which is slightly more than twice that for a curie of any other radionuclide (i.e., 3.7×10^{10}), and that the maximum permissible concentrations of natural uranium and natural thorium in Appendix B of 10 CFR Part 20 are expressed in terms of the curie as defined in § 20.5(c)(1).

The petition states that this definition causes serious misunderstanding and erroneous interpretation of certain measurement results while serving no real purpose related to safety.

The petition also states that deletion of this definition, and revision of the maximum permissible concentration values based on a natural uranium curie, as well as on a natural thorium curie, defined as 3.7×10^{10} disintegrations per second, will eliminate confusion, is authorized by law, and will not result in undue hazard to life and property.

A copy of the petition for rule making is available for public inspection in the Commission's Public Document Room at 1717 H Street NW., Washington, DC. A copy of the petition may be obtained by writing the Rules and Proceedings Branch at the below address.

All interested persons who desire to submit written comments or suggestions concerning the petition for rule making should send their comments to the Rules and Proceedings Branch, Office of Administration, Office of the Director of Regulation, U.S. Atomic Energy Commission, Washington, D.C. 20545, within 60 days after publication of this notice in the FEDERAL REGISTER.

Dated at Germantown, Md., this 10th day of November 1972.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.72-19856 Filed 11-17-72;8:45 am]

[Dockets Nos. 50-400, 50-401, 50-402, and 50-403]

CAROLINA POWER & LIGHT CO.

Establishment of Atomic Safety and Licensing Board

On September 29, 1972, the Commission published in the FEDERAL REGISTER, 37 F.R. 20344, a notice of hearing to consider the applications filed by the Carolina Power & Light Co. for construction permits for the Shearon Harris Nuclear Power Plant, Units 1; 2, 3, and 4. The notice indicated that the Safety and Licensing Board for this proceeding would be designated at a later date, and that notice of its membership would be published in the FEDERAL REGISTER.

Pursuant to the Atomic Energy Act of 1954, as amended, the regulations of Title 10, Code of Federal Regulations, Part 2, Rules of Practice, and the notice of hearing referred to above, notice is hereby given that the Safety and Licensing Board in this proceeding will consist of Mr. Glenn O. Bright, Dr. J. V. Leeds, Jr., and Mr. Thomas W. Reilly, Esq., Chairman. Dr. David L. Hetrick has been designated as a technically qualified alternate and Mr. Hugh K. Clark, Esq., has

XUM
V37-2224 NOV 18 72 XUM

been designated as an alternate qualified in the conduct of administrative proceedings.

The positions and mailing addresses of the Board members are as follows:

1. Mr. Thomas W. Reilly, Chairman, an attorney member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
2. Mr. Glenn O. Bright, a technical member of the Atomic Safety and Licensing Board Panel, U.S. Atomic Energy Commission, Washington, D.C. 20545.
3. Dr. J. V. Leeds, Jr., associate professor, Environment and Electrical Engineering, Rice University, mailing address—Post Office Box 941, Houston, TX 77001.
4. Mr. Hugh K. Clark, alternate chairman, retired attorney, E. I. du Pont de Nemours Co., mailing address—Post Office Box 127A, Kennedyville, MD 21645.
5. Dr. David L. Hetrick, alternate, professor, Department of Nuclear Engineering, College of Engineering, The University of Arizona, Tucson, Ariz. 85721.

As provided in the notice of hearing, the date and place of a prehearing conference and of a hearing will be scheduled by the Board and will be published in the FEDERAL REGISTER.

Dated at Washington, D.C., this 15th day of November 1972.

JAMES R. YORE,
Executive Secretary, Atomic Safety and Licensing Board Panel.

UNDERGROUND NUCLEAR TEST PROGRAM, NEVADA TEST SITE

Notice of Availability of the General Manager's Draft Environmental Statement

Notice is hereby given that a document entitled "Draft Environmental Statement—Underground Nuclear Test Program—Nevada Test Site" issued pursuant to the Atomic Energy Commission's implementation of section 102(2)(c) of the National Environmental Policy Act of 1969 is being placed in the Commission's Public Document Room, 1717 H Street NW., Washington, DC 20545, and in the Commission's Albuquerque Operations Office, Post Office Box 5400, Albuquerque, NM 87115; Chicago Operations Office, 9500 South Cass Avenue, Argonne, IL 60439; Grand Junction Office, Post Office Box 2567, Grand Junction, CO 81501; Idaho Operations Office, Post Office 2108, Idaho Falls, ID 83401; New York Office, 376 Hudson Street, New York, NY 10014; Oak Ridge Operations Office, Post Office Box E, Oak Ridge, TN 37830; San Francisco Operations Office, 2111 Bancroft Way, Berkeley, CA 94704. This statement was prepared in support of legislative action related to the Commission's underground nuclear tests at the test site in Nevada of 1 megaton or less for weapons development, nuclear effects studies and PLOWSHARE development.

The draft environmental statement will be furnished upon request addressed to the Director, Division of Environmental Affairs, U.S. Atomic Energy Commission, Washington, D.C. 20545.

Comments on the draft environmental statement from members of the public shall be considered in the final environmental statement if received by the Director, Division of Environmental Affairs, within forty-five (45) calendar days from the date of publication of this notice in the FEDERAL REGISTER.

Dated at Germantown, Md., this 13th day of November 1972.

CIVIL AERONAUTICS BOARD

[Docket No. 24488; Order 72-11-55]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Passenger Fares

Adopted by the Civil Aeronautics Board at its office in Washington, D.C., on the 14th day of November 1972.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's Economic Regulations between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of Traffic Conference 1 of the International Air Transport Association (IATA). The agreement, adopted for expedited November 1, 1972 effectiveness at the Worldwide Passenger Conference held September-October 1972, in Torremolinos, Spain, expires on April 30, 1973.

The agreement would establish group inclusive tour fares between Miami and Port au Prince at $92 and $82 peak and basic seasons, respectively. The agreement would also specify normal first-class and economy fares for travel between Brasilia and Guayaquil/Lima/Quito, and excursion fares for travel between Brasilia and Lima. Additionally, the agreement encompasses the adoption of a new resolution governing group inclusive tour fares from Port of Spain to Belem/Fortaleza/Manaus. We are approving the agreement to the extent that it involves fares directly applicable in air transportation, and normal first-class and economy fares, as well as excursion fares, which are combinable with fares to/from U.S. points and which thus have indirect application in air transportation as defined by the Act. Group inclusive tour fares not involving travel to or from the United States, on the other hand, are not similarly combinable and we are herein disclaiming jurisdiction with respect to that aspect of the agreement.

The Board, acting pursuant to sections 102, 204(a), and 412 of the Act, makes the following findings:

1. It is not found that the following resolution, which is incorporated in Agreement CAB 23341 as indicated, is adverse to the public interest or in violation of the Act:

FEDERAL COMMUNICATIONS

V37-224 NOV 18 72 XUM V

Agreement CAB	IATA No.	Title	Application
23341 R–4	088	TC1 14 Day Group Inclusive Tour Fares—Caribbean and Bermuda (Amending).	1.

2. It is not found that the following resolutions, which are incorporated in Agreement CAB 23341 as indicated and which do not directly affect air transportation within the meaning of the Act, are adverse to the public interest or in violation of the Act:

Agreement CAB	IATA No.	Title	Application
23341 R–1	051	TC1 First Class Fares (Amending)	1.
R–2	061	TC1 Economy Class Fares (Amending)	1.
R–3	070	TC1 Excursion Fares (Amending)	1.

3. It is not found that the following resolution, which is incorporated in Agreement CAB 23341 as indicated, affects air transportation within the meaning of the Act:

Agreement CAB	IATA No.	Title	Application
23341 R–5	084v	TC1 Group Inclusive Tour Fares—Port of Spain—Brazil (New).	1.

Accordingly, it is ordered, That:

1. Agreement CAB 23341, R–1 through R–4 be and hereby is approved; and
2. Jurisdiction is disclaimed with respect to Agreement CAB 23341, R–5.

This order will be published in the FEDERAL REGISTER.

By the Civil Aeronautics Board.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-19929 Filed 11-17-72;8:51 am]

[Docket No. 23333; Order 72-11-36]

INTERNATIONAL AIR TRANSPORT ASSOCIATION

Order Regarding Specific Commodity Rates

Issued under delegated authority, November 10, 1972.

An agreement has been filed with the Board pursuant to section 412(a) of the Federal Aviation Act of 1958 (the Act) and Part 261 of the Board's economic regulations, between various air carriers, foreign air carriers, and other carriers embodied in the resolutions of the International Air Transport Association (IATA), and adopted pursuant to the provisions of Resolution 590 dealing with specific commodity rates.

The agreement, adopted pursuant to unprotested notices to the carriers and promulgated in an IATA letter dated November 3, 1972, names additional specific commodity rates as set forth in the attachment hereto.[1] These rates reflect reductions from the otherwise applicable general cargo rates.

Pursuant to authority duly delegated by the Board in the Board's regulations, 14 CFR 385.14, it is not found that the subject agreement is adverse to the public interest or in violation of the Act, provided that approval is subject to the condition hereinafter ordered.

Accordingly, it is ordered, That:

Agreement C.A.B. 23371, R–1 through R–4, be and hereby is approved, provided that approval shall not constitute approval of the specific commodity descriptions contained therein for purposes of tariff publications, provided further that tariff filings shall be marked to become effective on not less than 30 days' notice from the date of filing.

Persons entitled to petition the Board for review of this order, pursuant to the Board's regulations, 14 CFR 385.50, may file such petitions within 10 days after the date of service of this order.

This order shall be effective and become the action of the Civil Aeronautics Board upon expiration of the above period, unless within such period a petition for review thereof is filed or the Board gives notice that it will review this order on its own motion.

This order will be published in the FEDERAL REGISTER.

[SEAL] HARRY J. ZINK, *Secretary.*

[FR Doc.72-19928 Filed 11-17-72;8:50 am]

[1] Filed as part of the original document.

FEDERAL COMMUNICATIONS COMMISSION

[Report No. 622]

COMMON CARRIER SERVICES INFORMATION [1]

Domestic Public Radio Services Applications Accepted for Filing [2]

NOVEMBER 13, 1972.

Pursuant to §§ 1.227(b)(3) and 21.30(b) of the Commission's rules, an application, in order to be considered with any domestic public radio services application appearing on the attached list, must be substantially complete and tendered for filing by whichever date is earlier: (a) The close of business 1 business day preceding the day on which the Commission takes action on the previously filed application; or (b) within 60 days after the date of the public notice listing the first prior filed application (with which subsequent applications are in conflict) as having been accepted for filing. An application which is subsequently amended by a major change will be considered to be a newly filed application. It is to be noted that the cutoff dates are set forth in the alternative—applications will be entitled to consideration with those listed in the appendix if filed by the end of the 60-day period, only if the Commission has not acted upon the application by that time pursuant to the first alternative earlier date. The mutual exclusivity rights of a new application are governed by the earliest action with respect to any one of the earlier filed conflicting applications.

The attention of any party in interest desiring to file pleadings pursuant to section 309 of the Communications Act of 1934, as amended, concerning any domestic public radio services application accepted for filing, is directed to § 21.27 of the Commission's rules for provisions governing the time for filing and other requirements relating to such pleadings.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE, *Secretary.*

[1] All applications listed in the appendix are subject to further consideration and review and may be returned and/or dismissed if not found to be in accordance with the Commission's rules, regulations, and other requirements.

[2] The above alternative cutoff rules apply to those applications listed in the appendix as having been accepted in Domestic Public Land Mobile Radio, Rural Radio, Point-to-Point Microwave Radio, and Local Television Transmission Services (Part 21 of the rules).

RURAL RADIO SERVICE—continued

APPLICATIONS ACCEPTED FOR FILING

DOMESTIC PUBLIC LAND MOBILE RADIO SERVICE

3206-C2-P-73—Mosel & Centerville Telephone Co. (New), for a new one-way station to operate on 152.84 MHz at 4 miles northwest of Howards Grove, Wis.

3207-C2-P-73—The Pacific Telephone & Telegraph Co. (KMM586), replace transmitter and change the antenna system located at Rocky Hill, 3 miles east of Exeter, Calif., operating on 152.54 MHz.

3208-C2-P-(5)-73—Southern Bell Telephone & Telegraph Co. (KIG292), change the antenna system and relocate facilities operating on 152.51, 153.57, 152.66, 152.72, and 152.78 MHz at 325 Gardenia Street, West Palm Beach, FL (same location).

3299-C2-P-(2)-73—Gulf Mobilphone Alabama, Inc. (KTS206), to reduce the height of antenna operating on 454.075 and 454.125 MHz located at the First National Bank Building, Mobile, Ala.

3300-C2-AL-(2)-73—Moore's Service; consent to assignment of license from Allen C. Moore, doing business as Moore's Service, assignor, to Moore's Service, Inc., assignee, stations: KSJ628 and KLF692 (one way), Fort Wayne, Ind.

Correction

2853-C2-P/ML-73—Communications Equipment & Service Co. (KWA832), correct to read: Channels 152.03 and 152.09 MHz at location No. 1: Ester Dome, Alaska, only. See Report No. 621, dated November 6, 1972.

RURAL RADIO SERVICE

3188-C1-MP/L-73—RCA Alaska Communications, Inc. (WOG23), change the antenna system and add 454.45 MHz at Frontier Camp, 190 miles east-southeast of Barrow, Alaska.

3189-C1-P/L-73—Same for a new interoffice fixed station to operate on 459.45 MHz at Franklin Bluffs, 22 miles north of Sagwon Airport, Alaska.

3192-C1-P/ML-73—Pacific Northwest Bell Telephone Co. (KZA73), change frequency to 157.86 MHz communicating with Klamath Falls, Oreg. (KOP342). Subscriber and location: Round Lake Ranch, 5.5 miles north-northeast of Keno, Oreg.

3209-C1-P-73—RCA Alaska Communications, Inc. (New), for a new central office station to operate on 152.54, 152.63, 152.69, and 152.81 MHz at the remote mountaintop, Tuklung Mountain, Alaska.

3210-C1-P-73—Same as above, except, for a new rural subscriber station to operate on 157.80, 157.89, 157.95, and 158.07 MHz at Manokotak Village, 20 miles west-southwest of Dillingham, Alaska.

3211-C1-P-73—Same, except, to be located at Togiak Village, 60 miles west of Dillingham, Alaska.

3212-C1-P-73—Same, except, to be located at Twin Hills Village, 62 miles west of Dillingham, Alaska.

3213-C1-P-73—Same, except, to be located at Ekuk Village, 18 miles south of Dillingham, Alaska.

3214-C1-P-73—Same, except, to be located at Clarks Point Village, 15 miles south of Dillingham, Alaska.

3215-C1-P-73—Same, except, for a central office to operate on 152.54, 152.63, and 152.69 MHz at Kakaket Creek WAGS, Alaska.

3216-C1-P-73—Same, except, for a rural subscriber station to operate on 157.80, 157.89, and 157.95 MHz at Koyuktuk Village, 25 miles west-northwest of Galena AFS, Alaska.

3217-C1-P-73—Same, except, to be located Nulato Village, 35 miles west of Galena AFS, Alaska.

3218-C1-P-73—Same, except, to be located at Ruby Village, 43 miles east of Galena AFS, Alaska.

3219-C1-P-73—Same, except, for a central office to operate on 152.54, 152.63, 152.69, and 152.81 MHz at Muklung Hills, Alaska.

3220-C1-P-73—Same, except, for a rural subscriber station to be located at Ekwok Village, 45 miles northeast of Dillingham, Alaska, to operate on 157.80, 157.89, 157.95, and 158.07 MHz.

3221-C1-P-73—Same, except, to be located at Koliganak Village, 70 miles northeast of Dillingham, Alaska.

3222-C1-P-73—Same, except, to be located at New Stuyahok Village, 55 miles northeast of Dillingham, Alaska.

3223-C1-P-73—Same, except, to be located at Aleknagik Village, 15 miles north-northwest of Dillingham, Alaska.

3224-C1-P-73—Same, except, to be located at Portage Creek Village, 32 miles east of Dillingham, Alaska.

3291-C1-P-73—Same, except, for a central office to operate on 152.54, 152.63, and 152.69 MHz at Indian Mountain AFS, Alaska.

3292-C1-P-73—Same, except, to be located at Alakaket Village, 123 miles northeast of Galena AFS, Alaska.

3293-C1-P-73—Same, except, to be located at Hughes Village, 120 miles northwest of Galena AFS, Alaska.

3294-C1-P-73—Same, except, to be located at Huslia Village, 60 miles north of Galena AFS, Alaska.

3301-C1-P-73—Somerset Telephone Co. (KOE39), replace transmitter operating on 152.51 MHz at Eustis Ridge Road, Eustis, Maine.

3302-C1-P-73—Same (KOE40), replace transmitter operating on 157.77 MHz at Coburn Gore, Maine.

POINT-TO-POINT MICROWAVE RADIO SERVICE

3182-C1-MP-73—Western Tele-Communications, Inc. (WKR45), station at Woodson Mountain, 7 miles west-southwest of Ramona, Calif. Latitude 33°00'31" N, longitude 116°-58'15" W, MP to change polarization of frequency 5990 MHz to horizontal toward Toro Peak, Calif., azimuth 41°36'.

2795-C1-ML-73—Southern Bell Telephone & Telegraph Co. (KIN54), 3.2 miles southwest of Waxhaw, N.C. Latitude 34°53'14" N, longitude 80°46'59" W. Modification of license to change polarization from H to V on frequencies 3760, 3830, 3910, 3990, and 4070 MHz toward Graniteville, N.C.

2796-C1-ML-72—Same (KJ765), 900 Franklin Avenue, Graniteville, N.C. Latitude 35°-15'07" N., longitude 80°49'45" W. Modification of license to change polarization from H to V on frequencies 3710, 3790, 3870, 3950, and 4030 MHz toward Waxhaw, N.C.

3195-C1-ML-73—The Western Union Telegraph Co. (KNK84), Central Tower Building, San Francisco, Calif. Latitude 37°47'14" N., longitude 122°24'08" W. Modification of license to increase the authorized emission designator only of the Western Union Type MLD-431 from 6100F9 to 10,560F9 for 600 FDM channel loading.

3196-C1-ML-73—Same (KNK85), Western Union Building, 126 12th Street, Oakland, CA. Latitude 37°47'59" N., longitude 122°15'47" W. Modification of license to increase the authorized emission designator only of the Western Union Type MLD-431 from 6100F9 to 10,560F9 for 600 FDM channel loading.

DRAFTING COMMITTEE OF SPECIAL NIAC WORKING GROUP

Notice of Meeting

NOVEMBER 17, 1972.

A Drafting Committee of the Special NIAC Working Group—Priority of Use and Restoration of Leased Intercity Private Line Services—will meet at 1 p.m., Monday, November 20, 1972, in Room 205, Federal Communications Commission Annex, 1229 20th Street NW., Washington, DC., to consider proposed revisions to FCC Form 915. Request for certification for Priority of Restoration of Leased Private Line Communication Service.

The National Industry Advisory Commitee (NIAC) is made up of broadcasters and industrial users of communications. Formed in 1958 to advise the Commission on matters relating to emergency communications, its function is to develop plans for use in specific fields of industry covering a broad range of emergency contingencies.

FEDERAL COMMUNICATIONS COMMISSION,
[SEAL] BEN F. WAPLE,
Secretary.

[FR Doc.72-20070 Filed 11-17-72;10:05 am]

ENVIRONMENTAL PROTECTION AGENCY

ENVIRONMENTAL IMPACT STATEMENTS

Availability of Agency Comments

Appendix I contains a listing of draft environmental impact statements which the Environmental Protection Agency (EPA) has reviewed and commented upon in writing during the period from October 16, 1972, to October 31, 1972, as required by section 102(2)(C) of the National Environmental Policy Act of 1969 and section 309 of the Clean Air Act, as amended. The listing includes the Federal agency responsible for the statement, the number assigned by EPA to the statement, the title of the statement, the classification of the nature of EPA's comments, and the source for copies of the comments.

Appendix II contains definitions of the four classifications of EPA's comments. Copies of EPA's comments on these draft environmental impact statements are available to the public from the EPA offices noted.

Appendix III contains a listing of the addresses of the sources for copies of EPA comments listed in Appendix I.

Copies of the draft environmental impact statements are available from the Federal department or agency which prepared the draft statement or from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

Dated: November 8, 1972.

SHELDON MEYERS,

APPENDIX II

DEFINITION OF CODES FOR THE GENERAL NATURE OF EPA COMMENTS

(1) *General agreement/lack of objections:* The agency generally:

(a) Has no objections to the proposed action as described in the draft impact statement;

(b) Suggests only minor changes in the proposed action or the draft impact statement; or

(c) Has no comments on the draft impact statement or the proposed action.

(2) *Inadequate information:* The agency feels that the draft impact statement does not contain adequate information to assess fully the environmental impact of the proposed action. The agency's comments call for more information about the potential environmental hazards addressed in the statement, or ask that a potential environmental hazard be addressed since it was not addressed in the draft statement.

(3) *Major changes necessary:* The agency believes that the proposed action, as described in the draft impact statement, needs major revisions or major additional safeguards to adequately protect the environment.

(4) *Unsatisfactory:* The agency believes that the proposed action is unsatisfactory because of its potentially harmful effect on the environment. Furthermore, the agency believes that the safeguards which might be utilized may not adequately protect the environment from the hazards arising from this action. The agency therefore recommends that alternatives to the action be analyzed further (including the possibility of no action at all).

FEDERAL MARITIME COMMISSION

LASH-SEABEE AGREEMENT NO. 9980

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., Room 1015; or may inspect the agreement at the Field Offices located at New York, N.Y., New Orleans, La., and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

R. J. Finnan, Rate Analyst, Lykes Bros. Steamship Co., Inc., 300 Poydras Street, New Orleans, La. 70130.

Agreement No. 9980-1, between Central Gulf Steamship Corp., Combi Line (A Joint Service of Hapag Lloyd, A.G. and Holland America Line), and Lykes Bros. Steamship Co., Inc., amends Article 3 of LASH/SEABEE Agreement No. 9980, covering a cooperative working arrangement between said carriers in connection with their operation of LASH/SEABEE vessels, to provide that any carriers which furnishes evidence of ability and intention in good faith to institute and maintain such services, and agrees to abide by all the terms and conditions of said agreement, may become a party thereto. The agreement presently requires that a carrier must be regularly operating in the trade in order to become a participant in the agreement.

Dated: November 14, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[No. 72–58]

DISCRIMINATORY PORT DETENTION SURCHARGE IN THE U.S. ATLANTIC AND GULF/SOUTH AND EAST AFRICAN TRADE ON CARGO DESTINED TO MOMBASA, KENYA

Revision of Filing Schedule

Respondent conference has temporarily suspended the port detention surcharge which is the subject of the show cause order in this proceeding. Respondent has also requested a stay of proceedings until December 31, 1972, pending development by it of in-depth information concerning conditions of detention at Mombasa, Kenya. Hearing Counsel support respondent's request and propose to submit a report to the Commission by December 31. 1972, on the prospective status of the surcharge.

Upon consideration of these developments, the Commission has determined to alter the filing schedule in this proceeding.

Respondent's affidavits of fact and memoranda of law, and Hearing Counsel's status report, and any requests for hearing shall be filed on or before January 2, 1973. Reply affidavits of fact and memoranda of law shall be filed by Hearing Counsel on or before January 17, 1973.

By the Commission.

FEDERAL POWER COMMISSION

[Docket No. CP73–127]

MANCHESTER GAS CO.

Notice of Application

NOVEMBER 15, 1972.

Take notice that on November 10, 1972, Manchester Gas Co. (Applicant), 1260 Elm Street, Manchester, NH 03101, filed in Docket No. CP73–127 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the over-the-road transportation by cryogenic semitrailer of liquefied natural gas (LNG) from Tewksbury, Mass., to Manchester, N.H., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant intends to purchase from New England LNG Co., Inc. (New England), a volume of LNG equivalent to 8,250 Mcf of vaporous gas [1] from October 1, 1972, through March 31, 1973, and herein proposes to transport said LNG from New England's storage facility in Tewksbury, Mass., to Applicant's facilities in Manchester, N.H. Applicant proposes to transport up to two 11,000-gallon trailer loads of LNG per day purchased from New England. New England has filed in Docket No. CP73–74 an application for a certificate authorizing the sale of LNG to Applicant to assist Applicant in meeting the requirements of its customers at times of peak demand during the 1973–74 winter season.

Applicant states that it is a natural gas distribution company not subject to the jurisdiction of the Commission and requests the Commission to recognize that the proposed transportation of LNG for Applicant's own use will not prejudice its otherwise non-jurisdictional status under the Natural Gas Act.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before November 27, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission of this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–19977 Filed 11–17–72;8:53 am]

[Docket No. CP73–111]

NORTHERN NATURAL GAS CO.

Notice of Application

NOVEMBER 13, 1972.

Take notice that on October 24, 1972, Northern Natural Gas Co. (Applicant) 2223 Dodge Street, Omaha, NE 68102, filed in Docket No. CP73–111 a budget-type application pursuant to sections 7 (c) and 7(b) of the Natural Gas Act, as implemented by §§ 157.7(b) and 157.7(e) of the Commission's regulations thereunder, for a certificate of public convenience and necessity authorizing the construction, during the calendar year 1973, and operation of certain natural gas sales and transportation facilities and for permission and approval to abandon, during the calendar year 1973, certain direct service and facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

The stated purpose of this budget type application is to augment Applicant's ability to supply the natural gas requirements of its distributors and small direct customers and to abandon certain natural gas service and facilities with the least possible delay.

The total cost of the facilities proposed herein is not to exceed $300,000, which Applicant plans to finance from cash on hand.

Applicant requests a waiver of § 157.7 (c) (1) (ii) which prohibits the filing of an budget-type application when a distributor is required to make a contribution to the Applicant for cost of construction of facilities. Applicant states that it has been its practice to require distributors to make a contribution to the cost of constructing measuring and regulating facilities and appurtenances where no additional contract demand is being purchased by such distributors and that such policy is contained in its FPC Gas Tariff, Third Revised Volume No. 1, on file with the Commission.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 5, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–19889 Filed 11–17–72;8:48 am]

[1] Equivalent to 99.858 gallons of LNG at 12.104 gallons per Mcf of vaporous gas.

[Dockets Nos. E–7781, E–7782]

SAN DIEGO GAS & ELECTRIC CO.

Notice of Applications

NOVEMBER 13, 1972.

Take notice that San Diego Gas & Electric Co. (Applicant) has filed with the Federal Power Commission: (1) An application in Docket No. E–7782 for an order, pursuant to section 202(e) of the Federal Power Act, authorizing the transmission of electric energy from the United States to Mexico; and (2) an application in Docket No. E–7781 for a permit, pursuant to Executive Order No. 10485, dated September 3, 1953, for the construction and operation at the international border between the United States and Mexico of certain facilities for the transmission of electric energy between the United States and Mexico. Applicant is incorporated under the laws of the State of California, with its principal place of business at San Diego, Calif.

Applicant proposes to export electric energy to Mexico for sale and delivery to Comision Federal de Electricidad (CFE), an agency of the Republic of Mexico, by means of a 12,000 volt overhead transmission line which Applicant proposes to construct and operate at the United States-Mexican Border in the vicinity of Jacumba, Calif., U.S.A., and Jacume, Baja California, Mexico, where connection will be made with similar transmission facilities of CFE. Accordingly, Applicant seeks: (1) An order (Docket No. E–7782) authorizing the exportation of energy to Mexico at a rate of transmission not to exceed 1,000 kw.; and (2) a permit (Docket No. E–7781) authorizing the construction and operation of the 12,000 volt line at the international border as described above.

The electric energy to be exported will be sold by Applicant to CFE in accordance with the terms and conditions and at the rates set forth and included in the "Agreement For Sale Of Electric Energy To Comision Federal De Electricidad," dated September 15, 1972, a copy of which was submitted as an exhibit to the application in Docket No. E–7782. The energy purchased from Applicant by CFE will be resold and distributed by CFE to its customers in and around the towns of Jacume, and La Rumorosa, Baja California, Mexico.

Any person desiring to be heard or to make any protest with reference to said applications should on or before December 1, 1972, file with the Federal Power Commission, Washington, D.C. 20426, petitions to intervene or protests in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules. The applications are on file with the Commission and available for public inspection.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72–19890 Filed 11–17–72;8:48 am]

[Docket No. CI73–336]

TENNECO OIL CO.

Notice of Application

NOVEMBER 14, 1972.

Take notice that on November 8, 1972, Tenneco Oil Co. (Applicant), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CI73–336 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Tennessee), from the East Cameron Block 271 Area, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell natural gas to Tennessee from East Cameron Blocks 271, 272, 254, and 255, offshore Louisiana, at an initial rate of 45 cents per Mcf subject to B.t.u. adjustment. The subject contract with Tennessee dated October 12, 1972, provides for price escalations of 1 cent per Mcf annually for the 20-year term of the contract.

Applicant asserts that the 45 cents per Mcf rate with annual escalations is significantly lower than comparative prices for the following:

1. Imported liquefied natural gas sales approved by the Commission or pending before it;
2. Proposed domestic sales of synthetic pipeline gas;
3. Future sales of Alaskan gas;
4. Domestic coal gasification proposals;
5. Recent intrastate gas sales in the southern Louisiana area; and
6. Certain intrastate gas sales as evidenced by reports that certain companies have contracted to sell their gas at rates of 52 cents and 73 cents per Mcf in Oklahoma and Ohio, respectively.

Applicant further asserts that the instant proposal is justified in light of the proposed increase in new gas prices to 50 cents per Mcf in the Appalachian Area and of the finding of the Oklahoma Corporation Commission that the "present intrinsic value of Oklahoma gas is more than 60 cents per Mcf at the wellhead." Applicant believes that approval of this application will encourage the producing industry, including Applicant itself, to accelerate exploration, development, and commitment of new gas reserves for the interstate market.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1972, file with the Federal Power

Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Persons wishing to become parties to a proceeding or to participate as a party in any hearing therein must file petitions to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-112]

TEXAS GAS TRANSMISSION CORP. AND TRUNKLINE GAS CO.

Notice of Application

NOVEMBER 13, 1972.

Take notice that on October 25, 1972, Texas Gas Transmission Corp. (Texas Gas), Post Office Box 1160, Owensboro, KY 42301, and Trunkline Gas Co. (Trunkline), Post Office Box 1642, Houston, TX 77001, filed in Docket No. CP73-112 a joint application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of natural gas and the construction and operation of certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants propose, pursuant to a gas exchange agreement dated October 5, 1972, to exchange natural gas until November 1, 1977, or such later point in time should Trunkline for some reason fail to redeliver the deferred volumes of natural gas by such date, in the following manner:

1. With the commencement of the exchange until November 1, 1973, Texas Gas shall deliver or cause to be delivered to Trunkline up to 50,000 Mcf of natural gas per day for deferred redelivery, that is, such gas shall be redelivered during a period subsequent to the receipt of the gas;

2. During the period November 1, 1973, to November 1, 1974, Texas Gas will deliver or cause to be delivered to Trunkline up to 50,000 Mcf of natural gas per day for deferred or simultaneous redelivery or both, as long as the aggregate volumes delivered by Texas Gas do not exceed 50,000 Mcf per day; and

3. During the period November 1, 1974, to November 1, 1977, Trunkline shall redeliver or cause to be redelivered to Texas Gas volumes of gas delivered to Trunkline for redelivery.

Applicants state that deliveries by Texas Gas to Trunkline will be made by Transcontinental Gas Pipe Line Corp. (Transco) for the account of Trunkline at the interconnection of the facilities of Consolidated Gas Supply Corp. (Consolidated) and Transco near Egan, Acadia Parish, La., and points of redelivery by Trunkline to Texas Gas will be in the vicinity of China, Jefferson Davis Parish, La., at the interconnection of Texas Gas' and Trunkline's pipelines in Caldwell Parish, La., at the tailgate of Texaco Inc.'s Henry Gasoline Plant, Vermilion Parish, La., and other mutually agreeable points.

To accomplish the delivery and redelivery of natural gas applicants propose that Texas Gas install tap and flange connections on its facilities at the interconnection of the facilities of Trunkline and Texas Gas at the China redelivery point and measurement facilities and connection pipelines between the facilities of Trunkline and Texas Gas at the Caldwell Parish redelivery point. Applicants also propose that Trunkline install tap and flange connections on its facilities at the Caldwell Parish redelivery point and install measurement facilities and connecting pipelines between the facilities of Texas Gas and Trunkline at the China redelivery point.

Applicants estimate the total cost of the facilities to be constructed by Texas Gas at $55,300 and by Trunkline at $67,000, which applicants propose to finance from funds on hand.

The subject exchange agreement provides that Trunkline and Texas Gas shall pay 32 cents per Mcf for the gas delivered and redelivered as part of the deferred volumes except that Texas Gas shall pay Trunkline a 4-cent per Mcf transportation charge for the deferred volumes redelivered at the Caldwell Parish redelivered point. Said agreement also provides that Texas Gas shall pay the 4-cents per Mcf transportation charge for all simultaneous gas redelivered at the Caldwell Parish redelivery point.

Applicants state that the gas reserves which Texas Gas will utilize for the exchange proposed herein are reserves under contract to Texas Gas and Texas Gas Exploration Corp. in the Eugene Island Area, offshore Louisiana, for which transportation service will be rendered by Columbia Gulf Transmission Co. to onshore Louisiana. Applicants also indicate that Consolidated plans to render transportation service for Texas Gas which will originate at the western terminus of Columbia's Blue Water System near Egan, La., and will terminate at the point where the facilities of Consolidated interconnect with the facilities of Transco, approximately 1½ miles from the western terminus of the Blue Water System.

Applicants indicate that the proposed exchange arrangements are designated to help insure an adequate supply of natural gas for Trunkline during the period ending November 1, 1974.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 5, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19892 Filed 11-17-72;8:48 am]

[Docket No. CP73-113]

TRANSWESTERN PIPELINE CO.

Notice of Application

NOVEMBER 13, 1972.

Take notice that on October 26, 1972, Transwestern Pipeline Co. (Applicant), Post Office Box 2521, Houston, TX 77002, filed in Docket No. CP73-113 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities and the transportation and exchange of natural gas with Phillips Petroleum Co. (Phillips) in Texas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes pursuant to a letter exchange agreement dated September 18, 1972, to transport and exchange natural gas with Phillips on an equivalent B.t.u. basis for a period of 5 years. Said agreement provides for the delivery of natural gas to Phillips at delivery points to be installed on Applicant's 6-inch pipeline in Roberts County, Tex., and its 10-inch pipeline in Sherman County, Tex., and for Phillips to deliver simultaneously to Applicant quantities of natural gas at the outlet of Phillips' Gray Plant in Gray County, Tex. Said agreement also provides that Applicant may interrupt such deliveries of gas if in its sole judgment the delivery of such gas might interfere with its obligations to the sellers of such gas or its commitments to its own customers.

Applicant states that this exchange will permit the pressure in its pipeline to be lowered, thereby increasing the deliverability of low pressure wells presently connected to its pipeline system in the area and resulting in more efficient use of its existing system.

Applicant further states that in order to implement such an exchange, it will be necessary to install taps and related side-valves on its pipeline, at an estimated cost of $14,000, for which Phillips will reimburse Applicant. Additionally, Applicant indicates that Phillips will convey to it, subject to certain conditions upon the termination of the exchange requiring the conveying back to Phillips, certain metering, regulating and interconnecting facilities at the Gray Plant, connecting said plant to Applicant's Lefors Station. Phillips has filed an application in Docket No. CI73-309 to implement its part of the exchange agreement.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 5, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

SECURITIES AND EXCHANGE COMMISSION

[70-5265]

ARKANSAS POWER & LIGHT CO.

Notice of Proposed Issue and Sale of Notes to Banks and to Dealer in Commercial Paper and Exception From Competitive Bidding

NOVEMBER 13, 1972.

Notice is hereby given that Arkansas Power & Light Co. (Arkansas), Ninth and Louisiana Streets, Little Rock, Ark. 72203, a subsidiary company of Middle South Utilities, Inc., a registered holding company, has filed a declaration and an amendment thereto with this Commission pursuant to the Public Utility Holding Company Act of 1935 (Act), designating sections 6(a) and 7 of the Act and Rule 50(a)(2) promulgated thereunder as applicable to the proposed transactions. All interested persons are referred to the declaration, which is summarized below, for a complete statement of the proposed transactions.

By order dated August 4, 1971 (Holding Company Act Release No. 17218), the Commission authorized Arkansas to issue and sell from time to time through May 31, 1973, unsecured short-term promissory notes (including commercial paper) to various commercial banks and/or a dealer in commercial paper, in an aggregate principal amount not exceeding $45 million outstanding at any one time.

Arkansas now proposes to revise this program and to issue and sell from time to time through May 31, 1974 (with possible extension of such period for an additional year, upon the filing of a post-effective amendment to this declaration and upon issuance of a further order of the Commission permitting such amendment to become effective), its unsecured short-term promissory notes (including commercial paper) to various commercial banks and/or a dealer in commercial paper in an aggregate principal amount outstanding at any one time of not more than $60 million, of which not more than $40 million will consist of commercial paper outstanding at any one time. Subject to these limitations, Arkansas states that the nature of each issue of such notes (including commercial paper) will be determined in the light of the then prevailing market conditions and other factors so as to achieve the lowest effective cost of money.

The notes proposed to be issued and sold to banks will be in the form of unsecured promissory notes payable not more than 9 months from the date of issue with right of renewal; will bear interest at the prime rate in effect at the lending bank at the date of issue or renewal or from time to time depending upon the requirements of the lending bank; and will, at the option of Arkansas, be prepayable, in whole or in part, at any time without premium or penalty. While no commitments have been made, it is expected that the banks to which such notes will be issued and sold, and the maximum amount to be issued and outstanding at any one time to each such bank, will be substantially as follows:

First National Bank of Eastern Arkansas, Forrest City, Ark.	$275,000
Arkansas Bank & Trust Co., Hot Springs, Ark.	750,000
First National Bank of Hot Springs, Ark.	350,000
The Commercial National Bank, Little Rock, Ark.	700,000
First National Bank in Little Rock, Ark.	3,000,000
Union National Bank, Little Rock, Ark.	1,000,000
Worthen Bank & Trust Co., Little Rock, Ark.	2,100,000
Manufacturers Hanover Trust Co., New York, N.Y.	20,000,000
National Bank of Commerce, Pine Bluff, Ark.	750,000
Simmons First National Bank, Pine Bluff, Ark.	5,000,000
Peoples Bank & Trust Co., Russellville, Ark.	200,000
Total	$34,125,000

The filing states that, except as indicated above, Arkansas will not effect borrowings from banks pursuant to this declaration until it shall have filed an amendment hereto setting forth the name or names of the banks from which such other borrowings are to be effected and the amount thereof and such borrowings shall have been authorized by order of the Commission.

Arkansas maintains a working balance with each of the above-named Arkansas banks of approximately 10 percent of the above-proposed borrowings, and states that if such balances were maintained solely to satisfy compensating balance requirements, the effective interest cost on such borrowings, assuming a 6 percent prime rate, would be 6.7 percent. The above-named New York bank may require a compensating balance of up to 20 percent of the amount of outstanding loans from that bank to Arkansas, the exact amount of the compensating balance being negotiated at the time the loans are made. Assuming a 6 percent prime rate and a 20 percent compensating balance, the effective interest cost on loans from the New York bank would be 7.5 percent.

The proposed commercial paper, with maturities not exceeding 270 days, will be issued and sold to Salomon Bros., a dealer in commercial paper. The commercial paper will be sold at a discount rate which will not be in excess of the discount rate per annum prevailing at the date of issuance for commercial pa-

ers should be limited. Whether pursuant

XUM V37-224 NOV 18 72 XUM

per of comparable quality of that particular maturity. The commercial paper will be in denominations of not less than $50,000 and will not be payable prior to maturity. The filing states that the rate for commercial paper will not exceed the commercial bank rate which, on the date of issue, Arkansas could obtain from commercial banks on notes of equal principal amounts except for commercial paper of a maturity not exceeding 60 days issued to refund outstanding commercial paper if, in Arkansas' judgment, it would be impractical to borrow from commercial banks to refund such outstanding commercial paper.

No commission or fee will be payable by Arkansas in connection with the issuance and sale of the commercial paper. The dealer, as principal, will reoffer and sell the commercial paper at a discount rate of one-eighth of 1 percent per annum less than the prevailing discount rate to the company, in such a manner as not to constitute a public offering. The dealer in reoffering the commercial paper will limit the reoffer and sale to a nonpublic customer list of not more than 200 buyers of commercial paper. The filing states that it is anticipated that the commercial paper will be held by the buyers to maturity; however, the dealer may, if desired by a buyer, repurchase the commercial paper for resale to others on the list of customers.

Arkansas requests exception from the competitive bidding requirements of Rule 50 for the proposed issue and sale of commercial paper. The company states that the proposed commercial paper will have a maturity not in excess of 270 days, that current rates for commercial paper for such prime borrowers as Arkansas are published daily in financial publications, and that it is not practical to invite bids for commercial paper.

The net proceeds from the proposed transactions, together with other funds available from time to time to Arkansas from its operations or derived from the issuance and sale of long-term and/or equity securities, will be applied to Arkansas' construction program which is expected to require expenditures of approximately $118,500,000 in 1972 and $155,800,000 in 1973.

As the proposed promissory notes mature, they will be renewed (but to mature not later than February 28, 1975) or repaid out of funds then available to Arkansas from its operations or derived from the issuance and sale of similar securities or long-term debt and/or equity securities.

The declaration further states that no State commission and no Federal commission, other than this Commission, has jurisdiction over the proposed transactions and that the fees and expenses to be incurred in connection therewith are estimated not to exceed $5,000.

Arkansas also proposes that the Rule 24 certificates of notification regarding the issuance and sale of the notes and commercial paper be filed on quarterly basis.

Notice is further given that any interested person may, not later than December 8, 1972, request in writing that a hearing be held in respect of such matter, stating the nature of his interest, the reasons for such request, and the issues of fact or law raised by said declaration which he desires to controvert; or he may request that he be notified should the Commission order a hearing thereon. Any such request should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request should be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon the declarant at the above-stated address, and proof of service (by affidavit, or, in case of an attorney at law, by certificate) should be filed with the request. At any time after said date, the declaration, as amended or as it may be further amended, may be permitted to become effective in the manner provided in Rule 23 of the general rules and regulations promulgated under the Act, or the Commission may grant exemption from such rules as provided in Rules 20(a) and 100 thereof, or take such other action as it may deem appropriate. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Corporate Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

MUTUAL FUND DISTRIBUTION AND POTENTIAL IMPACT OF REPEAL

Order Directing Public Proceeding

NOVEMBER 1, 1972.

I. The Commission has reviewed the information contained in the study of the potential economic impact of the repeal of section 22(d) of the Investment Company Act ("Act") conducted by the Commission's Office of Policy Research and the Economic Study of the Distribution of Mutual Funds and Variable Annuities conducted for the National Association of Securities Dealers, Inc. ("NASD") by Booz, Allen & Hamilton, Inc., as well as the comments received in connection with the adoption of rule changes relating to investment company advertising (Securities Act Release No. 5248). Based upon this review the Commission has determined that it would be appropriate to seek a wide range of viewpoints with respect to the justification for retail price maintenance in the distribution of mutual funds, the options which would be open if section 22(d) of the Act were eliminated and how the industry would adjust to such a change. It also believes that it would be appropriate to reexamine some of its traditional administrative positions and to explore new possibilities in order that mutual funds may be marketed more efficiently at a reasonable cost to investors.

II. *Accordingly, it is ordered,* Pursuant to sections 6, 7, 10, and 19(a) of the Securities Act, section 15(b)(10) of the Securities Exchange Act, sections 12(b), 14(b), 22(b) and (c), 38(a), and 46(a) of the Investment Company Act, and Rule 4(b) of the rules of practice of the Commission, that a public rule-making proceeding be held to afford the Commission a wide range of views with respect to: (1) The potential impact of the repeal of section 22(d) of the Act: (2) What changes in the Commission's rules affecting the present system of mutual fund distribution may be desirable; (3) The matters set forth in section III below; and (4) Possible legislation as may appear necessary to the Commission in the public interest and for the protection of investors.

III. Specifically the matters to be considered in such public proceeding will include:

A. Whether there is any longer sufficient public interest to justify the continuation of the system of retail price maintenance under which mutual fund shares are sold as an exception to the general rule of free competition which prevails in most other segments of our economic life.

B. Whether rules under section 22(b) of the Investment Company Act of 1940 should require increased volume discounts for larger purchases. Whether such discounts should be continuous and include proportionately lower sales charges as quantities purchased increase. Whether, and in what respect, that portion of the sales charge retained by dealers should be limited. Whether pursuant to any rules under section 22(b) of the Act maximum sales loads should be permitted to be charged only by those funds which offer certain product features. Whether the same maximum limitations should apply to periodic payment contractual plans as are applied to mutual fund sales generally.

C. Whether further liberlization of the Commission's advertising rules for mutual funds would be appropriate. If so, is legislation necessary in this area? Whether the statement of policy should be revised.

D. Assuming a simple clear prospectus geared to the ordinary mutual fund investor's needs, will the prospectus be used more extensively and earlier in the distribution process and will this affect selling?

E. Whether Rule 22d-1 or other Commission rules should be revised to permit additional group merchandising of fund shares at reduced loads.

F. To what extent can the Commission amend its rules such as Rules 19a-1, 22c-1, and 30d-1 under the Investment Company Act and Rules 15c1-4 and 17a-3 under the Securities Exchange Act of 1934 to reduce the cost of servicing small mutual fund transactions without diminishing the basic investor protections provided by such rules, particularly those which require that each fund shareholder receive individual notices and services such as individual confirmations, dividend statements, and shareholder reports.

G. Whether the Commission should reexamine its present administrative interpretations in order to remove disincentives operating against recommending no-load funds. Whether it should permit brokers and dealers to charge a normal stock exchange commission for recommending and effecting an investment in a no-load fund.

H. Is it possible to develop a system of cost allocation and other accounting procedures necessary to provide data with respect to the costs, profitability, and general economic structure of investment company advisers and distributors in a meaningful fashion. What burdens would be involved in moving the industry to such a uniform system.

For a more detailed discussion of the issues to be considered, see Investment Company Act Release No. 7475, November 3, 1972, which is incorporated herein by reference.

IV. *It is further ordered,* That a public hearing in connection with the proceeding shall commence on December 11, 1972, at 10 a.m., Eastern Standard Time, in Room 776 at the Headquarters Office of the Commission, 500 North Capitol Street NW., Washington, DC 20549 and continue thereafter at such times and places as the Hearing Officer may determine.

It is further ordered, Pursuant to the provisions of section 42(b) of the Investment Company Act that for purposes of such public proceeding each of the following: Allan S. Mostoff, Director, Anne

plicant has requested an exemption from

P. Jones, Associate Director, and Lewis J. Mendelson, Assistant Director, Division of Investment Company Regulation, and Bernard Wexler, Director of the Office of Policy Planning be and hereby are designated as Hearing Officers to preside individually at such proceeding as necessary to administer oaths and affirmations, subpena witnesses, compel their attendance, take evidence, require production of any books, papers, and correspondence and memoranda and other records deemed relevant or material to the inquiry and to perform all other duties in connection therewith authorized by law.

It is further ordered, That interested persons wishing to submit written statements of their views relating to the matters described in Sections I, II, and III, may do so by submitting such statements to Allan S. Mostoff, Director, Division of Investment Company Regulation, 500 North Capitol Street NW., Washington, DC 20549 on or before December 6, 1972. All such statements shall become part of the public record in this proceeding.

It is further ordered, That any interested person who has made a written submission and who wishes to appear and give an oral presentation of his views at the hearing may do so at the sole discretion of a hearing officer based on the relevance and materiality of the presentation and on the similarity of presentations already made or scheduled to be made. Such oral presentations shall be scheduled by a Hearing Officer during the period of the proceeding and shall be subject to the following procedures:

1. Oral statements may be limited in time. Persons desiring specified time should accompany their request with an adequate explanation of their need.

2. The written text of the oral statement to be given generally must be received no later than December 6, 1972.

3. Persons making an oral presentation should be prepared to respond to inquiries from the Hearing Officer and the Commission staff.

By the Commission.

MUTUAL OF OMAHA GROWTH FUND, INC.

Notice of Filing of An Application for An Order Exempting A Proposed Exchange of Shares

NOVEMBER 13, 1972.

Notice is hereby given that Mutual of Omaha Growth Fund, Inc. (Applicant), 3102 Farnam Street, Omaha, NE 68131, a Nebraska corporation registered under the Investment Company Act of 1940 (Act), as an open-end diversified management investment company, has filed an application pursuant to section 6(c) of the Act requesting an order of the Commission exempting from the provisions of sections 22(c) and 22(d) of the Act and Rule 22c-1 thereunder a proposed transaction in which Applicant's redeemable securities will be issued at a price other than the current public offering price described in the prospectus in exchange for substantially all the assets of First Security Growth Fund, Inc. (Security). All interested persons are referred to the application on file with the Commission for a statement of the representations therein which are summarized below.

Security is an open-end diversified, management investment company incorporated under the laws of the State of Delaware. As of August 31, 1972, the net assets of Security amounted to $3,495,629, consisting almost entirely of cash and marketable securities. As of that date there were approximately 733,074 shares outstanding of Security stock owned by approximately 1,200 shareholders.

Pursuant to the Agreement and Plan of Reorganization (Plan) between Applicant and Security, Applicant will acquire all of the net assets of Security in exchange for shares of Applicant's common stock. The number of Applicant's shares to be issued in exchange for the net assets of Security is to be determined by dividing the aggregate market value of the assets of Security to be transferred to Applicant by Applicant's then net asset value per share subject to a certain adjustment which would reflect the respective proportion of assets of Security and Applicant representing realized and undistributed gains (or losses), as well as unrealized appreciation as of the valuation time. If the valuation under the Plan had taken place at the close of business on August 31, 1972, the tax adjustment would have increased the market value of the assets of Security by $45,088. When received by Security, the Applicant's shares are to be distributed to Security stockholders in complete liquidation of Security, in proportion to their respective stock ownership in Security.

SECTION 22(d)

Applicant's shares are currently offered to the public on a continuous basis at net asset value plus varying sales charges, ranging from 8 percent on sales of less than $10,000 to 1 percent on sales of $100,000 or more, as disclosed in Applicant's prospectus. Pursuant to the terms of the plan no sales charge will be added to the net asset value of Applicant in determining the number of Applicant's shares to be issued. Applicant seeks an order pursuant to section 6(c) of the Act exempting the transaction from section 22(d). Section 22(d) prohibits a registered investment company from selling its shares at a price which differs from the offering price described in the company's prospectus.

Section 22(d) further provides that "nothing in this subsection shall prevent a sale made (1) pursuant to an offer of exchange permitted by section 11 including any offer made pursuant to section 11(b)." Although the plan may be deemed to be a reorganization within the meaning of section 11(b) of the Act, Applicant has requested an exemption from 22(d) in order to avoid any question of the applicability of that section.

Applicant represents that its board of directors has approved the plan as being in the best interests of its stockholders, taking all relevant considerations into account, including, among others, the assets to be acquired, the investment policies and objectives of Applicant, and the fact that the resulting increase in assets will tend to reduce slightly per share expenses. Applicant further represents that no affiliation existed between Security or its officers or directors and Applicant, its officers and directors at the time of negotiation of the plan, and that the plan was negotiated at arm's length by the two corporations.

SECTION 22(c)

The plan provides that the time for valuing the net assets of Security, as well as the net asset value of the shares of Applicant to be exchanged pusuant to the plan, shall be 3:30 p.m. on such date as may be mutually agreed upon by Security and Applicant, but in no event later than ten (10) business days after the stockholders of Security have approved the plan. The actual exchange of net assets of Security for shares of Applicant shall be made at 10 a.m. on the second business day following the valuation time.

Section 22(c) of the Act and Rule 22c-1 thereunder inter alia prohibit registered investment companies from issuing their redeemable securities except at a price based on the current net asset value of such security which is next computed after receipt of an order to purchase the security.

Section 6(c) permits the Commission, upon application, to exempt any transaction from any provision or provisions of the Act or from any rule or regulation thereunder if it finds that such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than December 6, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit or in case of attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing

of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

[812-3282]

NEL EQUITY FUND, INC. ET AL.

Notice of Application for an Order Exempting Applicants

NOVEMBER 13, 1972.

Notice is hereby given that NEL Equity Fund, Inc., NEL Growth Fund, Inc., and New England Life Side Fund, Inc. (collectively the "Funds"), all of which are open-end diversified management investment companies registered under the Investment Company Act of 1940 (Act), and NEL Equity Services Corp. (NELESCO), 501 Boylston Street, Boston, MA 02117, the principal underwriter for each of the Funds (hereinafter collectively called "Applicants") have filed an application pursuant to section 6(c) of the Act for an order exempting applicants from section 22(d) of the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations made herein, which are summarized below.

Section 22(d) of the Act provides, in pertinent part, that no registered investment company or principal underwriter thereof shall sell any redeemable security issued by such company to any person except at a current offering price described in the prospectus.

Applicants propose to offer to persons who redeem shares of any of the Funds a one-time privilege to (1) reinstate their accounts by repurchasing shares at net asset value without a sales charge up to the amount redeemed or (2) purchase, under the exchange privilege available generally to shareholders of the Funds, shares of any other of the Funds at net asset value without a sales charge up to the amount of the redemption proceeds.

It is contemplated that notice of this proposed privilege will be given to eligible persons in writing or by telephone as part of the processing of their redemption request. To be effective, written notice from such eligible persons of the exercise of the privilege must be received by NELESCO or by State Street Bank and Trust Co., transfer agent for the Funds, or postmarked within 15 days after the redemption request is received. The reinstatement or exchange will be made at net asset value next determined after the written notice of the exercise of the privilege is received.

Applicants state that in order to minimize the possibility of shareholder abuse through speculation on a possible short-term decline in the net asset value of a Fund's shares, the reinvestment privilege will be offered on a one-time basis and must be exercised within the relatively short period of time specified.

Applicants state that no sales commission will be received by NELESCO or sales representatives on such purchases. All costs involved in giving notice of the proposed privilege will be borne by NELESCO. It is not expected that additional bookkeeping costs incurred by the Funds in reversing redemptions will be significant. A $5 service fee will be charged to all shareholders exercising the exchange privilege.

Applicants submit that, in some instances, shareholders may mistakenly redeem their Fund shares because they either misunderstand, are unaware of, or overlook certain opportunities available to them as shareholders.

Section 6(c) of the Act provides that the Commission may conditionally or unconditionally exempt any person or transaction from any provisions of the Act if such exemption is necessary or appropriate in the public interest and consistent with the protection of investors and the purposes fairly intended by the policy and provisions of the Act.

Notice is further given that any interested person may, not later than December 6, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon applicants at the address stated above. Proof of such service (by affidavit or in case of an attorney at law by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon request or upon the Commission's own motion. Persons who request a hearing or advice as to whether a hearing is ordered will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

[SEAL] RONALD F. HUNT, *Secretary.*

UNITED FUNDS CANADA-INTERNATIONAL LTD.

Notice of Filing of Application for Order Declaring That Company has Ceased To Be an Investment Company

NOVEMBER 13, 1972.

Notice is hereby given that United Funds Canada-International Ltd. (Applicant), Suite 2100, York Centre, 145 King Street West, Toronto 110, Ontario, registered under the Investment Company Act of 1940 (Act) as a diversified, open-end management investment company, has filed an application pursuant to section 8(f) of the Act for an order of the Commission declaring that the Applicant has ceased to be an investment company as defined in the Act. All interested persons are referred to the application on file with the Commission for a statement of the representations set forth therein, which are summarized below.

Applicant represents, among other things, that pursuant to an Agreement and Plan of Reorganization (the Plan) dated September 18, 1972, between Applicant and United Continental Growth Fund, Inc. (the Growth Fund), which Plan was approved by the shareholders of Applicant on that date, substantially all of its assets were, on October 14, 1972, transferred to the Growth Fund in exchange for its shares which were thereupon distributed to the shareholders of Applicant; that Applicant has no securities outstanding at the present time; that it has no assets at the present time other than a minimal sum of cash to meet final liabilities; that the public offering of its shares has been terminated; and that it is in the process of liquidation and dissolution.

Section 8(f) of the Act provides, in pertinent part, that when the Commission, upon application, finds that a registered investment company has ceased to be an investment company, it shall so declare by order, and upon the taking effect of such order the registration of such company shall cease to be in effect.

Notice is further given that any interested person may, not later than December 8, 1972, at 5:30 p.m., submit to the Commission in writing a request for a hearing on the matter accompanied by a statement as to the nature of his interest, the reason for such request, and the issues, if any, of fact or law proposed to be controverted, or he may request that he be notified if the Commission should order a hearing thereon. Any such communication should be addressed: Secretary, Securities and Exchange Commission, Washington, D.C. 20549. A copy of such request shall be served personally or by mail (airmail if the person being served is located more than 500 miles from the point of mailing) upon Applicant at the address stated above. Proof of such service (by affidavit, or in case of an attorney at law, by certificate) shall be filed contemporaneously with the request. At any time after said date, as provided by Rule 0-5 of the rules and regulations promulgated under the Act, an order disposing of the application herein may be issued by the Commission upon the basis of the information stated in said application, unless an order for hearing upon said application shall be issued upon request or upon the Commission's own motion. Persons who request a hearing, or advice as to whether a hearing is ordered, will receive notice of further developments in this matter, including the date of the hearing (if ordered) and any postponements thereof.

For the Commission, by the Division of Investment Company Regulation, pursuant to delegated authority.

SMALL BUSINESS ADMINISTRATION

FOOTHILL VENTURE CORP.

Notice of Filing of an Application for Exemption With Respect to Conflict-of-Interest Transaction

Notice is hereby given that Foothill Venture Corp. (FVC), 8383 Wilshire Boulevard, Beverly Hills, CA 90211, a Federal licensee under the Small Business Investment Act of 1958, as amended (the Act), has filed an application pursuant to § 107.1004 of the Small Business Administration (SBA) rules and regulations (13 CFR 107.1004 (1972)) for an exemption with respect to a conflict-of-interest transaction covered by section 312 of the Act.

FVC proposes to invest $100,000, in Natel Electronics Industries, Inc. (Natel), 1800 Avenue of the Stars, Suite 753, Los Angeles, CA 90067. This investment comes within the purview of the above-cited regulation because Messrs. Don Gevirtz and John Nickoll are both officers and directors of FVC and directors of Natel. In addition, McCarty Investment Co., 8383 Wilshire Boulevard, Beverly Hills, CA 90211, a partnership in which The Foothill Group, Inc., 8333 Wilshire Boulevard, Beverly Hills, CA 90211, is the general partner, has an investment of over 10 percent of the common stock of Natel. The Foothill Group, Inc., is the parent of FVC.

In addition to his above affiliations Mr. Gevirtz is the chairman of the board, president, and chief executive officer of The Foothill Group, Inc., and a limited partner in the McCarty Investment Co. Mr. Nickoll is the vice chairman of the board, and executive vice president of The Foothill Group, Inc., and a limited partner in the McCarty Investment Co.

The application represents the following:

1. The investment will be a $100,000, 5-year convertible debenture.

2. The proceeds of the debenture will be used for product development and working capital.

3. This investment must be approved by the California Corporations Commissioner who must pass on the fairness and equity of this transaction with respect to the stockholders of both the issuer and the purchaser.

4. FVC's Board of Directors voted unanimously to make this investment.

5. The investment will enable a small aerospace company to expand soundly and profitably.

Notice is further given that any interested person may, not later than 15 days from the publication of this notice, submit to SBA, in writing relevant comments on this transaction. Any such communication should be addressed to the Associate Administrator for Operations and Investment, Small Business Administration, 1441 L Street NW., Washington, DC 20416. After the aforementioned 15-day period, SBA may, under the regulations, dispose of the application upon the basis of the information stated in said application and other relevant data.

Dated: November 10, 1972.

ANTHONY G. CHASE, *Deputy Administrator.*

DEPUTY GENERAL COUNSEL; OFFICE OF GENERAL COUNSEL

Redelegation on Legal Activities

I. Pursuant to the authority delegated by the Administrator to the General Counsel in Delegation of Authority No. 11 (37 F.R. 20751), the following authority is hereby redelegated to the specific positions as indicated herein:

Deputy General Counsel. To approve or decline fees relating to the closing of loans for attorneys retained by SBA.

To approve or decline fees and expenses relating to the closing of investment company and development company loans for attorneys retained by SBA, and to approve or decline fees and expenses arising out of small business investment company matters relating to litigation and liquidation matters for attorneys retained by SBA, trustees under deeds of trust, receivers, title examinations and reports, advertising, and other necessary litigation expenses.

Associate General Counsel, Office of Litigation. Except as relates to small business investment company matters, to approve or decline fees and expenses relating to litigation and liquidation matters for attorneys retained by SBA, trustees under deeds of trust, receivers, title examinations and reports, advertising and other necessary litigation expenses.

II. The specific authorities delegated herein may not be redelegated.

III. All authority delegated herein may be exercised by any SBA employee designated as acting in that position.

IV. All authority previously delegated by the General Counsel and other officials under his jurisdiction is hereby rescinded without prejudice to actions taken under such delegations prior to the date hereof.

Effective date: September 15, 1972.

DEPUTY ASSOCIATE ADMINISTRATOR ET AL.

Redelegation on Financial Assistance

I. Pursuant to the authority delegated by the Administrator to the Associate Administrator for Financial Assistance in Delegation of Authority No. 12 (37 F.R. 20751), the following authority is hereby delegated to the specific positions as indicated herein:

A. *Deputy Associate Administrator for Financial Assistance.* 1. To perform any and all acts which I, as Associate Administrator for Financial Assistance, am authorized to perform under the aforementioned Delegation of Authority.

B. *Director, Office of Financing.* 1. To approve or decline business, economic opportunity, and all types of disaster loan applications, including reconsiderations applications, including reconsiderations thereof, and to execute authorizations and amendments pertaining to such loans.

2. To cancel, reinstate, modify, and amend authorizations for fully or partially undisbursed loans.

3. To determine eligibility of business, economic opportunity, and all types of disaster loan applicants.

C. *Chief, Program Operations Division.* 1. To approve or decline business, economic opportunity, and all types of disaster loan applications, including reconsiderations thereof, and to execute authorizations and amendments pertaining to such loans.

2. To cancel, reinstate, modify, and amend authorizations for fully or partially undisbursed loans.

3. To determine eligibility of business, economic opportunity, and all types of disaster loan applicants.

D. *Director, Office of Loan Administration.* 1. To take all necessary action in connection with the servicing, administration, collection, and liquidation of all loans, other obligations and acquired property, with the exception of those loans classified as in litigation, but is not authorized:

(a) To sell any primary obligation or other evidence of indebtedness, exclusive of property acquired, owed to the Agency for a sum less than the total amount due thereon.

(b) To accept or reject a compromise settlement of an indebtedness owed to the Agency for a sum less than the total amount due thereon.

(c) To deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the initiation of suit for recovery from a participating bank under any alleged violation of a participation or guaranty agreement.

2. To take all necessary actions in connection with the liquidation of SBIC's and EDA loans for the Department of Commerce.

3. To take all necessary actions in connection with the servicing (financial aspects) of certificates of competency and, as appropriate, financial aspects of contracts let by SBA under section 8(a) of the Small Business Act, as amended.

E. *Chiefs, Operations Assistance Division and Program and Systems Division.* 1. To take all necessary action in connection with the servicing, collection, or liquidation of fully disbursed loans not in litigation and other obligations and acquired property within all loan programs of the Small Business Administration, but is not authorized:

a. To sell any primary obligation or other evidence of indebtedness, exclusive of property acquired, owed to the Agency for a sum less than the total amount due thereon.

b. To accept or reject a compromise settlement of an indebtedness owed to the Agency for a sum less than the total amount due thereon.

c. To deny liability of the Small Business Administration under the terms of a participation or guaranty agreement, or the initiation of suit for recovery from a participating bank under any alleged violation of a participation or guaranty agreement.

2. To take all necessary actions in connection with the liquidation of SBIC's and EDA loans for the Department of Commerce.

3. To take all necessary actions in connection with the servicing (financial aspects) of certificates of competency and, as appropriate, financial aspects of contracts let by SBA under section 8(a) of the Small Business Act, as amended.

F. *Director, Office of Community Development.* 1. To approve or decline development company (sections 501 and 502) loan applications, including reconsiderations thereof, and to executive authorizations and modifications pertaining to such loans.

2. To cancel, reinstate, modify, and amend authorizations for fully undisbursed loans.

3. To determine eligibility of development company loan, lease guarantee, and surety bond applicants.

4. To approve or decline applications for the guarantee of the payment of rents under a lease where aggregate rentals do not exceed the lesser of $15,000 per month or $2,500,000 over the term guaranteed.

5. To enter into reinsurance agreements with participating insurance companies and to modify and revise the same whenever necessary.

6. To approve or decline applications for reinsured guarantees received from participating insurance companies for the payment of rents under a lease where the SBA share of such participation does not exceed the lesser of $15,000 per month or $2,500,000 over the term guaranteed.

7. To approve the investment of moneys in the lease guarantee revolving fund not needed for the payment of current operating expenses for the payment of claims arising under the lease guarantee program, in bonds or other obligations guaranteed as to principal and interest by the United States.

8. To guarantee sureties of small business against portions of losses resulting from the breach of bid, payment, or performance bonds on contracts up to $500,000.

9. To make size determinations for the purpose of the lease guarantee and surety bond programs.

G. *Chief, Development Company Loan Division.* 1. To approve or decline development company (sections 501 and 502) loan applications, including reconsiderations thereof, and to execute authorizations and modifications pertaining to such loans.

2. To cancel, reinstate, modify, and amend authorizations for fully undisbursed loans.

3. To determine eligibility of development company loan applicants.

H. *Chief, Underwriting Division.* 1. To approve or decline applications for the guarantee of the payment of rents under a lease where aggregate rentals do not exceed the lesser of $15,000 per month or $2,500,000 over the term guaranteed.

2. To enter into reinsurance agreements with participating insurance companies and to modify and revise the same whenever necessary.

3. To approve or decline applicants for reinsured guarantees received from participating insurance companies for the payment of rents under a lease where the SBA share of such participation does not exceed the lesser of $15,000 per month or $2,500,000 over the term guaranteed.

4. To guarantee sureties of small business against portions of losses resulting from the breach of bid, payment of performance bonds on contracts up to $500,000.

5. To determine eligibility of lease guaranty and surety bond applicants.

I. *Central Office Claims Review Committee.* 1. This committee shall consist of the Director, Office of Loan Administration, acting as chairman; Director, Office of Financing; and Associate General Counsel, Office of Litigation.

2. This committee shall meet and consider reasonable and properly supported compromise proposals provided the decision of the committee is unanimous.

II. The authority delegated herein may not be redelegated.

DIRECTOR, OFFICE OF BUSINESS DEVELOPMENT AND CHIEF, GOVERNMENT CONTRACTS DIVISION

Redelegation on Procurement and Management Assistance

I. Pursuant to the authority delegated by the Administrator to the Associate Administrator for Procurement and Management Assistance by Delegation of Authority No. 13 (37 F.R. 20752), the following authority is hereby delegated to the specific positions as indicated herein:

A. *Director, Office of Business Development.* 1. To enter into contracts on behalf of the Small Business Administration with the U.S. Government and any department, agency, or officer thereof having procurement powers, obligating the Small Business Administration to furnish articles, equipment, supplies, or materials to the Government and agreeing as to the terms and conditions of such contracts.

2. To certify to any officer of the Government having procurement powers that the Small Business Administration is competent to perform any specific Government procurement contract to be let by any such officer.

3. To arrange for the performance of such contracts by negotiating or otherwise letting subcontracts to small business concerns or others for the manufacture, supply, or assembly of such articles, equipment, supplies, or materials, or parts thereof, or servicing or processing in connection therewith, or such management services as may be necessary to enable the Small Business Administration to perform such contracts.

B. *Chief, Government Contracts Division.* 1. To enter into contracts on behalf of the Small Business Administration with the U.S. Government and any department, agency, or officer thereof having procurement powers, obligating the Small Business Administration to furnish articles, equipment, supplies, or materials to the Government and agreeing as to the terms and conditions of such contracts.

2. To certify to any officer of the Government having procurement powers that the Small Business Administration is competent to perform any specific Government procurement contract to be let by any such officer.

3. To arrange for the performance of such contracts by negotiating or otherwise letting subcontracts to small business concerns or others for the manufacture, supply, or assembly of such articles, equipment, supplies, or materials, or parts thereof, or servicing or processing in connection therewith, or such management services as may be necessary to enable the Small Business Administration to perform such contracts.

II. The specific authorities delegated herein may not be redelegated.

III. All authority delegated herein may be exercised by any SBA employee designated as acting in that position.

Effective date: September 15, 1972.

MARSHALL J. PARKER,
Associate Administrator for Procurement and Management Assistance.

[Delegation of Authority 15-A]

DIRECTOR, OFFICE OF MANAGEMENT SYSTEMS, ET AL.

Redelegation of Administrative and Financial Activities

I. Pursuant to the authority delegated by the Administrator to the Assistant Administrator for Administration in Delegation of Authority No. 15 (37 F.R. 20753), the following authority is hereby redelegated to the specific positions as indicated herein:

A. *Administrative Services*—1. *Director, Office of Management Systems.* a. To contract for supplies, materials and equipment, printing, transportation, communications, space, and special services for the agency pursuant to chapter 4 of title 41, United States Code, subject to the limitations contained in section 257 (a) and (b) of that chapter.

b. To rent temporarily, within the District of Columbia or elsewhere, such hotel or other accommodations as are needed to facilitate the conduct of meetings of SBA advisory councils.

2. *Chief, Administrative Services Division.* a. To contract for supplies, materials and equipment, printing, transportation, communications, space, and special services for the agency pursuant to chapter 4 of title 41, United States Code, subject to the limitations contained in section 257 (a) and (b) of that chapter.

b. To rent temporarily, within the District of Columbia or elsewhere, such hotel or other accommodations as are needed to facilitate the conduct of meetings of SBA advisory councils.

3. *Assistant Chief, Administrative Services Division.* a. To contract for supplies, materials and equipment, printing, transportation, communications, space, and special services for the agency pursuant to chapter 4 of title 41, United States Code, subject to the limitations contained in section 257 (a) and (b) of that chapter.

b. To rent temporarily, within the District of Columbia or elsewhere, such hotel or other accommodations as are needed to facilitate the conduct of meetings of SBA advisory councils.

c. To issue government bills of lading, printing and binding orders, purchase orders, work orders, telephone orders, and tax exemption certificates.

4. *Chief, Procurement and Supply Branch.* a. To contract for supplies, materials and equipment, printing, and special services pursuant to chapter 4 of title 41, United States Code, subject to the limitations contained in section 257 (a) and (b) of that chapter.

b. To issue government bills of lading, printing and binding orders, purchase orders, work orders, telephone orders, and tax exemption certificates.

5. *Assistant Chief, Procurement and Supply Branch.* a. To issue government bills of lading, printing and binding orders, purchase orders, and tax exemption certificates as they relate to chapter 4 of title 41, United States Code, subject to the limitations contained in section 257 (a) and (b) of that chapter.

6. *Warehouse Foreman, Procurement and Supply Branch.* a. To issue government bills of lading.

7. *Chief, Office Services Branch.* a. To issue work orders, telephone orders, and authorize and approve repairs to machinery and equipment.

B. *Financial Management*—1. *Director, Office of Budget and Finance.* a. To assign, endorse, transfer, deliver, or release (but in all cases without representation, recourse, or warranty) promissory notes, bonds, debentures, and other obligating instruments on all loans or investments made or serviced by SBA when paid in full or when transferred to the Department of Justice for liquidation.

2. *Chief, Accounting Operations Branch.* a. Same as B.1.a., above.

3. *Chief, Fiscal Branch.* a. Same as B.1.a., above.

II. The specific authorities delegated herein may not be redelegated.

III. All authority delegated herein may be exercised by any SBA employee designated as acting in that position.

Effective date: September 15, 1972.

RONALD G. COLEMAN,
Assistant Administrator for Administration.

[Delegation of Authority 16-A]

DIRECTOR, OFFICE OF GOVERNMENT AND INDUSTRY RELATIONS

Delegation of Authority for Minority Enterprise Activities

I. Pursuant to authority delegated to the Assistant Administrator for Minority Enterprise by Delegation of Authority No. 16 (37 F.R. 20753), authority is hereby delegated to the positions as indicated below:

A. *Director, Office of Government and Industry Relations.* 1. To execute grants, agreements, and contracts providing financial assistance to public or private organizations to pay all or part of the costs of technical and management assistance projects designed to furnish centralized services with regard to public services and government programs, including programs authorized under section 402 of the Economic Opportunity Act of 1964, as amended, with special attention to small business concerns located in urban areas of high concentration of unemployed or low-income individuals or owned by low-income individuals.

II. This authority may not be redelegated.

III. This authority may be exercised by any person designated as Acting Director, Office of Minority Industry Relations.

Effective date: September 15, 1972.

NICK ORTIZ,
Acting Assistant Administrator for Minority Enterprise.

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

AGRICULTURAL SUBCOMMITTEE ON PESTICIDES

Notice of Public Meeting

Notice is hereby given that the Agricultural Subcommittee on Pesticides of the Standards Advisory Committee on Agriculture, established under section 7 (b) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1597; 29 U.S.C. 656) and 29 CFR Part 1912, will meet at 9 a.m. on Tuesday, November 21, 1972, in Room 107A of the Main Labor Building, 14th and Constitution Avenue NW., Washington DC.

The subcommittee will take up matters pertaining to the establishment of standards to provide protection to agricultural workers who may be exposed to potentially toxic pesticides in the course of their employment, and, particularly, matters relating to field reentry periods after certain crops have been treated with certain pesticides.

The meeting shall be open to the public.

Signed at Washington, D.C., this 15th day of November, 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

Office of Labor-Management and Welfare Pension Reports

ADVISORY COUNCIL ON EMPLOYEE WELFARE AND PENSION BENEFIT PLANS

Notice of Meeting

Pursuant to section 14 of the Welfare and Pension Plans Disclosure Act (29 U.S.C. 308e), a meeting of the Advisory Council on Employee Welfare and Pension Benefit Plans will be held on Tuesday, November 28, 1972, at 10 a.m. in Conference Room 102, Department of Labor Building, 14th and Constitution Avenue NW., Washington, DC. The meeting will be open to members of the public who signify an intention to attend.

The agenda for the meeting follows:

1. Administration of oath of new members.
2. Approval of minutes of last meeting.
3. Bonding experience under the Welfare and Pension Plans Disclosure Act.
4. "Know Your Pension Rights"—a technical assistance pamphlet which suggests questions participants should ask about their plans.

Persons desiring to attend should notify Mr. Edward F. Lysczek, Executive Secretary to the Advisory Council, 301—495-4291.

Signed at Washington, D.C., this 14th day of November 1972.

W. J. USERY, JR.,
Assistant Secretary for Labor-Management Relations.

Office of the Secretary

NEW JERSEY

Notice of Determination of "Temporary Off" Indicator and Ending of Temporary Compensation Period

Pursuant to the provisions of section 202 of the Emergency Unemployment Compensation Act of 1971 (Public Law 92-224, title II), hereinafter referred to as the Act, and 20 CFR 617.13(a), I hereby give notice of my determination that there is a "temporary off" indicator for the week ending October 7, 1972, in the State of New Jersey.

As provided in section 202(c)(3)(A)(i)(II) of the Act and 20 CFR 617.5 (b) and (c), the temporary compensation period in this State shall end on October 28, 1972, the last day of the third week following the week for which there is a "temporary off" indicator in that State. Under the Act, temporary compensation is not payable in the State of New Jersey for any week of unemployment which begins after October 28, 1972.

Signed at Washington, D.C., this 14th day of November 1972.

J. D. HODGSON,
Secretary of Labor.

[FR Doc.72-19862 Filed 11-17-72;8:46 am]

NORTH DAKOTA

Notice of Termination of Extended Unemployment Compensation

The Federal-State Extended Unemployment Compensation Act of 1970, title II, Public Law 91-373, establishes a program of payment to unemployed workers who have received all of the regular compensation to which they are entitled, commencing when unemployment is high (according to indicators set forth in the law) and terminating when unemployment ceases to be high (according to indicators set forth in the law). Pursuant to section 203(b)(2) of the Act, notice is hereby given that Martin N. Gronvold, executive director of the North Dakota Employment Security Bureau, has determined that there was a State "off" indicator in North Dakota for the week beginning September 3, 1972, and that an extended benefit period terminated in the State with the week beginning September 24, 1972.

Signed at Washington, D.C., this 14th day of November 1972.

J. D. HODGSON,
Secretary of Labor.

[FR Doc.72-19864 Filed 11-17-72;8:46 am]

RHODE ISLAND

Notice of Determination of "Temporary Off" Indicator and Ending of Temporary Compensation Period

Pursuant to the provisions of section 202 of the Emergency Unemployment Compensation Act of 1971 (Public Law 92-224, title II), hereinafter referred to as the Act, and 20 CFR 617.13(a), I hereby give notice of my determination that there is a "temporary off" indicator for the week ending October 14, 1972, in Rhode Island.

As provided in section 202(c)(3)(A)(i)(II) of the Act and 20 CFR 617.5 (b) and (c), the temporary compensation period in the State of Rhode Island shall end on November 4, 1972, the last day of the third week following the week for which there is a "temporary off" indicator in Rhode Island. Under the Act, temporary compensation is not payable in this State for any week of unemployment which begins after November 4, 1972.

Signed at Washington, D.C., this 14th day of November 1972.

J. D. HODGSON,
Secretary of Labor.

INTERSTATE COMMERCE COMMISSION

[Notice 162]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following

50704, Send protests to: Herbert W. Al- Office Box 1209, 28201, Charlotte, NC. DISPATCH CORPORATION, 4970 South

numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-74023. By order of November 6, 1972, the Motor Carrier Board approved the transfer to Richard Willey, doing business as E. J. Pelletier and Son, Movers, Laconia, N.H., of the operating rights in Certificates Nos. MC-76814, MC-76814 (sub-No. 2), and MC-76814 (sub-No. 3) issued October 31, 1956, February 12, 1947, and July 18, 1947, respectively, to Ernest J. Pelletier, doing business as Ernest J. Pelletier and Son, Laconia, N.H., authorizing the transportation of household goods, between points in Belknap County, N.H., on the one hand, and, on the other, points in Vermont, Massachusetts, Rhode Island, Connecticut, Maine, and New York, and such merchandise as is dealt in by wholesale, retail, and chain grocery stores and food business houses, from Laconia, N.H., to points in Belknap, Carroll, Grafton, Merrimack, and Strafford Counties, N.H. Richard P. Brouillard, 16 Academy Street, Laconia, NH 03246, attorney for applicants.

[SEAL] ROBERT L. OSWALD,
Secretary.

[Notice 152]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

NOVEMBER 14, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rules of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

MOTOR CARRIERS OF PROPERTY

No. MC 3255 (Sub-No. 12 TA) (Amendment), filed October 2, 1972, published in the FEDERAL REGISTER issue of November 1, 1972, amended and republished in part as amended this issue. Applicant: PEP TRUCKING CO., INC., 386 Henderson Street, Jersey City, NJ 07302. Applicant's representative: George A. Olsen, 60 Tonnele Avenue, Jersey City, NJ 07306. NOTE: The purpose of this partial republication is to change the authority sought from contract carrier to *common carrier*, and reassign a new MC No. *325* (Sub-No. *12* TA), in lieu of MC No. 138077 TA. The rest of the application remains the same.

No. MC 5326 (Sub-No. 15 TA), filed October 26, 1972. Applicant: WILSON B. DILL, CARL M. DILL, SR., and ARTHUR B. DILL, doing business as DILL BROS. COMPANY, Galena, Md. 21635. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed*, from Delmar, Del., to points in Cecil, Kent, Queen Annes, Talbot, and Caroline Counties, Md., for 180 days. Supporting shipper: George W. Brinsfield, Red-White Mills, Inc., Delmar, Del. Send protests to: William L. Hughes, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 814-B Federal Building, Baltimore, Md. 21201.

No. MC 9269 (Sub-No. 16 TA), filed October 30, 1972. Applicant: BEST WAY MOTOR FREIGHT, INC. (Wash. Corp.), 1765 Sixth Avenue South, Seattle, WA 98134. Applicant's representative: George R. LaBissoniere, 1424 Washington Building, Seattle, Wash. 98101. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *General commodities*, except articles of unusual value, commodities in bulk, household goods as defined by the Commission, and articles which because of their size or weight require the use of special equipment, between Moses Lake, Wash., and Ephrata, Wash., via State Highway 282 and thence via State Highway 28 to Soap Lake, Wash., and thence via Highway 17 to the junction of State Highway 282, from Ephrata over State Highway 28 to Quincy, Wash., and return over the same route also via State Highway 281 to its junction with Interstate Highway 90 as an alternate route via Interstate Highway 90 to Moses Lake for operating convenience only, for 180 days. NOTE: Authority requested to tack with existing authority authorized in Docket MC 9269 (Sub-No. 14 TA), which is unrestricted as to tacking or interlining and also for permission to interline with other carriers at Moses Lake, Wash. Supported by: There are approximately 25 statements of support attached to the application, which may be examined here at the Interstate Commerce Commission in Washington, D.C., or copies thereof which may be examined at the field office named below. Send protests to: L. D. Boone, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 6049 Federal Office Building, Seattle, Wash. 98104.

No. MC 19227 (Sub-No. 172 TA), filed October 25, 1972. Applicant: LEONARD BROS. TRUCKING CO., INC., 2595 Northwest 20th Street, Miami, FL 33142. Applicant's representative: J. Fred Dewhurst (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Equipment shelters*, from Port Jervis, N.Y., to Austin, Tex., for 180 days. Supporting shipper: Skvdyne, Division of Brooks & Perkins, Inc., River Road, Port Jervis, N.Y. 12771. Send protests to: District Supervisor, Joseph B. Teichert, Bureau of Operations, Interstate Commerce Commission, 5720 Southwest 17th Street, Room 105, Miami, FL 33155.

No. MC 29821 (Sub-No. 4 TA), filed October 30, 1972. Applicant: NEWBERG AUTO FREIGHT, INC., 408 West First Street, Newberg, OR 97132. Applicant's representative: Lawrence V. Smart, Jr., 419 Northwest 23d Avenue, Portland, OR 97210. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Paper-mill machine parts*, between Newberg, Oreg., and points in King and Cowlitz Counties, Wash., for 180 days. Supporting shipper: Publishers Paper, Post Office Box 70, Newberg, OR 97132. Send protests to: A. E. Odoms, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR 97204.

No. MC 30844 (Sub-No. 436 TA), filed October 24, 1972. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Zip 50702, Post Office Box 500, Waterloo, IA 50704. Applicant's representative: Paul Rhodes (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Frozen foodstuffs*, from Quincy, Ill., to Solon, Ohio, for 180 days. Supporting shipper: Stouffer Foods, 5750 Harper Road, Solon, OH 44139. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 30844 (Sub-No. 437 TA), filed October 30, 1972. Applicant: KROBLIN REFRIGERATED XPRESS, INC., 2125 Commercial Street, Zip 50702, Post Office Box 500, Waterloo, IA 50704. Applicant's representative: Paul Rhodes (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plant machinery, equipment, materials and supplies, metal and plastic boxes, metal cabinets, metal chests, and hospital carts*, between Waterloo, Iowa, and Pocahontas, Ark., for 180 days. Supporting shipper: Waterloo Industries, Inc., Post Office Box 209, Waterloo, IA

50704. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 32367 (Sub-No. 21 TA), filed October 31, 1972. Applicant: RED & WHITE MARKET & TRANSFER, INC., (Nebr. Corp.), 607 South Burlington Avenue, Hastings, NE 68901. Applicant's representative: Gailyn L. Larsen, Box 80806, Lincoln, NE 68501. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Engines and parts and accessories thereof*, from Port Huron, Lansing, and Farmington, Mich., to Hastings, Nebr.; and (2) *fabricated sheet metal*, from Auto Sheet Metal Co., a Division of Leer Ziegler, at or near, Detroit, Mich., to Hastings, Nebr., for 180 days. Supporting shipper: Charles C. Osborne, President Industrial-Irrigation Services, 221 East J Street, Hastings, NE 68901. Send protests to: Max H. Johnston, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 320 Federal Building, and Courthouse, Lincoln, NE 68508.

No. MC 35807 (Sub-No. 26 TA), filed November 6, 1972. Applicant: WELLS FARGO ARMORED SERVICE CORPORATION, Mailing: Post Office Box 4313 (30302), 210 Baker Street NW., Atlanta, GA 30313. Applicant's representative: Melvin E. Ballet (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Commercial papers, documents, and written instruments* (except coin, currency, and negotiable securities) as are used in banking operations, between Philadelphia, Pa., on the one hand, and, on the other, points in Delaware and those in Mercer, Burlington, Ocean, Camden, Gloucester, Atlantic, Salem, Cumberland, and Cape May Counties, N.J., for 180 days. Supporting shipper: Federal Reserve Bank of Philadelphia, Philadelphia, Pa. 19101. Send protests to: William L. Scroggs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Room 309, 1252 West Peachtree Street NW., Atlanta, GA 30309.

No. MC 42146 (Sub-No. 14 TA), filed October 28, 1972. Applicant: A. G. BOONE COMPANY, 1117 South Clarkson Street, Charlotte, NC 28208. Applicant's representative: A. G. Boone (same address as above). Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, and in connection therewith, *equipment, materials and supplies* used in the conduct of such business, between points in North Carolina, on the one hand, and, on the other, points in Duval County, Fla., Chatham, Glynn, and Walker Counties, Ga., Beaufort County, S.C., and Anderson, Blount, Hamblen, Hamilton, Knox, McMinn, and Roane Counties, Tenn., for 180 days. Supporting shipper: The Great Atlantic and Pacific Tea Co., Inc., 2024 Thrift Road, Post Office Box 1209, 28201, Charlotte, NC. Send protests to: Frank H. Wait, Jr., Interstate Commerce Commission, Bureau of Operations, Suite 417, BSR Building, 316 East Morehead Street, Charlotte, NC 28202.

No. MC 44639 (Sub-No. 61 TA), filed October 26, 1972. Applicant: L. & M. EXPRESS CO., INC., 220 Ridge Road, Lyndhurst, NJ 07071. Applicant's representative: Herman B. J. Weckstein, 60 Park Place, Newark, NJ 07102. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Wearing apparel and materials and supplies* used in the manufacture of wearing apparel, between Boydton, Va., on the one hand, and, on the other, Crewe, Va., and New York, N.Y., commercial zone, for 180 days. NOTE: Applicant states it does intend to tack with the authority in MC 44639 at New York, N.Y. Supporting shipper: Tarri Towne Casuals, Inc., 1370 Broadway, New York, NY 10018. Send protests to: District Supervisor Robert E. Johnston, Interstate Commerce Commission, Bureau of Operations, 970 Broad Street, Newark, NJ 07102.

No. MC 103993 (Sub-No. 737 TA), filed October 24, 1972. Applicant: MORGAN DRIVE-AWAY, INC., 2800 Lexington Avenue, Elkhart, IN 46514. Applicant's representative: Paul D. Borghesani (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Trailers*, designed to be drawn by passenger automobiles, in initial movements, from points in Herkimer County, N.Y., to points in the United States (except Alaska and Hawaii), for 180 days. Supporting shipper: Highland Homes, Inc., 340 Harter Street, Herkimer, NY. Send protests to: District Supervisor J. H. Gray, Bureau of Operations, Interstate Commerce Commission, 345 West Wayne Street, Room 204, Fort Wayne, IN 46802.

No. MC 113908 (Sub-No. 243 TA), filed October 25, 1972. Applicant: ERICKSON TRANSPORT CORPORATION, Post Office Box 3180, Glenstone Station, 2105 East Dale Street, Springfield, MO 65804. Applicant's representative: B. B. Whitehead (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Alcoholic liquors*, in bulk, in tank vehicles, from Auburndale, Lake Alfred, and Winterhaven, Fla., to Peoria, Ill., and Schaefferstown, Pa. (except brandy and wine from Lake Alfred, Fla., to Peoria, Ill., and *brandy, wine, and rum* from Lake Alfred, Fla., to Schaefferstown, Pa.), *refused and/or rejected shipments on return*, for 180 days. Supporting shipper: Hiram Walker & Sons, Inc., foot of Edmond Street, Peoria, Ill. 61601. Send protests to: John V. Barry, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 1100 Federal Office Building, 911 Walnut Street, Kansas City, MO 64106.

V 37-224 NOV 18 72 XUM

TRUCK LINE, 1203 South Riverside Drive, Jamestown, ND 58401. Applicant's representative: James B. Hovland, 425 Gate City Building, Fargo, N. Dak. 58102. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles* for the account of Richardton Machine & Manufacturing Co., Inc., from the Chicago, Ill., Minneapolis, Minn., and Duluth, Minn., commercial zones to Richardton, N. Dak., for 180 days. Supporting shipper: Richardton Machine & Manufacturing Co., Inc., Richardton, N. Dak. 58652. Send protests to: J. H. Ambs, District Supervisor, Interstate Commerce Commission, Bureau of Operations, Post Office Box 2340, Fargo, N. Dak. 58102.

No. MC 129594 (Sub-No. 3 TA), filed October 24, 1972. Applicant: TRIPLE "D" CARTAGE, INC., 1004 11th Street NE., Mason City, IA 50401. Applicant's representative: Clayton L. Wornson, 206 Brick & Tile Building, Mason City, Iowa 50401. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such merchandise* as is dealt in by wholesale, retail, and chain grocery and food business houses, except in bulk, and in connection therewith, *equipment, materials and supplies* used in the conduct of such business, except in bulk, from Mason City, Iowa, to points in that part of Minnesota on and north of Minnesota Highway 19 and on and south of a line extending from Ortonville, Minn., on the west; thence over U.S. Highway 12 easterly to Benson, Minn.; thence over Minnesota Highway 9 to New London, Minn.; thence over Minnesota Highway 23 to its intersection with Minnesota Highway 48 south of Hinckley, Minn.; thence over Highway 48 to the Minnesota-Wisconsin border (except Litchfield and St. Cloud, Minn., heretofore authorized), *with return of the same commodities* from Ortonville, Cokato, St. Cloud, Glencoe, New Prague, Hastings, Arlington, LeSuer, Faribault, Forest Lake, and Minneapolis-St. Paul commercial zone, Minn., to Mason City, Iowa, for 180 days. Supporting shipper: Farm House Foods Corp., Post Office Box 1377, Mason City, IA 50401. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 133097 (Sub-No. 1 TA), filed October 16, 1972. Applicant: HAHN TRANSPORTATION, INC., New Market, Md. 21774. Applicant's representative: Francis J. Ortman, 1100 17th Street NW., Suite 613, Washington, DC 20036. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Gasoline*, in bulk, in tank vehicles, from Baltimore, Md., to the gasoline stations of Cheker Oil Co. in Winchester, Va., and Harrisburg, Pa., for 180 days. Supporting shipper: Cheker Oil Co., 2701 Jackson Avenue, Post Office Box 216, South Chicago Heights, IL 60411. Send protests to: Robert D. Caldwell, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 12th Street and Constitution Avenue NW., Washington, D.C. 20423.

No. MC 134588 (Sub-No. 3 TA), filed October 12, 1972. Applicant: VIKING WAY, INC., Post Office Box 2256, Office: 131 West Seventh Street, Ogden, UT 84404. Applicant's representative: Philip C. Pugsley, 315 East Second South Street, Salt Lake City, UT. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Cheese and dairy products*, in refrigerated vans, from Logan, Utah, to Los Angeles, Sacramento, and San Francisco, Calif., and *return shipments of occasionally rejected or unsatisfactory cheese and dairy products* in refrigerated vans, for 180 days. Supporting shipper: Dairy Distributors, Inc., 1000 North Tenth West, Logan, UT 84321 (Edwin Gossner, President). Send protests to: District Supervisor Lyle D. Helfer, Bureau of Operations, Interstate Commerce Commission, 5239 Federal Building, 125 South State Street, Salt Lake City, UT 84111.

MOTOR CARRIERS OF PASSENGERS

No. MC 2890 (Sub-No. 46 TA), filed October 30, 1972. Applicant: AMERICAN BUSLINES, INC., Post Office Box 730, Office: 300 South Broadway Avenue, Wichita, KS 67201. Applicant's representative: C. Zimmerman, Brown Building, Wichita, Kans. 67201. Authority sought to operate as a *common carrier*, by motor vehicle, over regular routes, transporting: *Passengers and their baggage*, in the same vehicle, in special operations, between Fort Leonard Wood, Mo., and Memphis, Tenn., from Fort Leonard Wood, Mo., over Missouri Highway A–W to junction Missouri State Highway 17, thence over Missouri State Highway 17 to junction U.S. Highway 63 at Houston, Mo., thence over U.S. Highway 63 to junction Interstate Highway 55 at Turrell Junction, Ark., thence over Interstate Highway 55 to Memphis, Tenn., serving no intermediate points, and returning over the same route, for 60 days. NOTE: Applicant will interline with other carriers at Memphis, Tenn. Supported by: Several Service Men. Send Protests to: M. E. Taylor, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 501 Petroleum Building, Wichita, Kans. 67202.

By the Commission.

[SEAL] ROBERT L. OSWALD, *Secretary.*

Published daily, Monday through Saturday (no publication on Sundays, days following official Federal holidays, or days following Christmas Day), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C. Ch. 15), and the regulations of the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 15 cents for each issue, or 15 cents for each 10 pages or less of requested material. There are no refunds for cancellations.

Remittance should be made by check or money order, payable to the Superintendent of Documents, and should be sent to the Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the Code of Federal Regulations, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended June 19, 1937. The Code of Federal Regulations is sold by the Superintendent of Documents. Prices vary.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the Code of Federal Regulations.

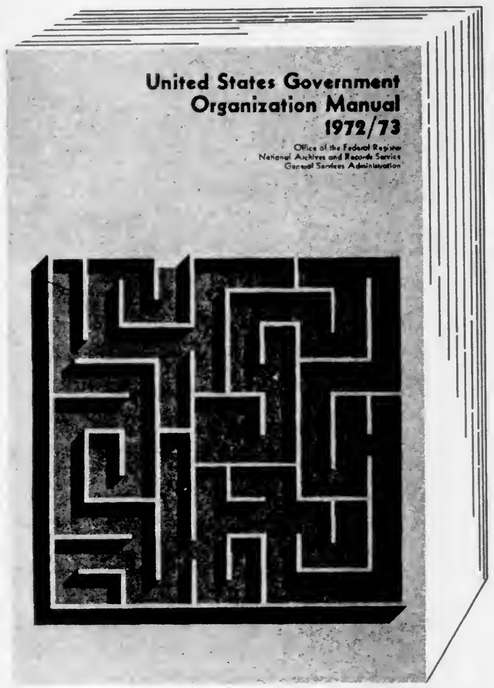
An Invaluable Reference Tool



1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

$3.00 per copy.
Paperbound, with charts

Guide to Record Retention Requirements

[Revised as of January 1, 1972]

This useful reference tool is designed to keep businessmen and the general public informed concerning the many published requirements in Federal laws and regulations relating to record retention.

The 92-page "Guide" contains over 1,000 digests which tell the user (1) what type records must be kept, (2) who must keep them, and (3) how long they must be kept. Each digest carries a reference to the full text of the basic law or regulation providing for such retention.

The booklet's index, numbering over 2,200 items, lists for ready reference the categories of persons, companies, and products affected by Federal record retention requirements.

Price: $1.00

Compiled by Office of the Federal Register, National Archives and Records Service, General Services Administration

Order from Superintendent of Documents, U.S. Government Printing Office Washington, D.C. 20402

FEDERAL REGISTER

Area Code 202 Phone 962-8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

HIGHLIGHTS—Continued

INCOME TAX—

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 3—The President

PROCLAMATION 4172

National Family Week

By the President of the United States of America

A Proclamation

As prospects brighten for a lasting peace in the world, we can hope to approach more closely the age-old ideal of a single, harmonious family of man.

As we work toward that great goal, however, we must never forget that our starting point—the center of our affections and the wellspring of our self-renewal—must be the basic family circle. Parent and child, husband and wife, brother and sister, all truly mean "home" to every human being.

No institution can ever take the family's place in giving meaning to human life and a stable structure to society; indeed, as a wise philosopher observed thousands of years ago, "the root of the state is in the family." The pressures of our modern age make this a time of challenge for families in America, but every community has its inspiring examples of families which have risen to the demand and made the time of challenge a time of glory.

Our long-cherished American observances of Mother's Day and Father's Day are fittingly complemented by this new idea of a National Family Week, which this year will coincide with the Thanksgiving holiday—a time when families traditionally reunite, and when the family unit itself should stand high on that list of blessings for which we offer our thanks to God.

NOW, THEREFORE, I, RICHARD NIXON, President of the United States of America, in consonance with House Joint Resolution 135, do hereby proclaim the week beginning Sunday, November 19, 1972, as National Family Week. I invite the Governors of the several States, the chief officials of local governments, and all the people of the United States to mark this week with appropriate ceremonies and activities.

IN WITNESS WHEREOF, I have hereunto set my hand this eighteenth day of November, in the year of our Lord nineteen hundred seventy-two, and of the Independence of the United States of America the one hundred ninety-seventh.

Richard Nixon

[FR Doc.72-20207 Filed 11-20-72;11:55 am]

XUM V37-225 NOV 21 72 XUM V

MEMORANDUM OF NOVEMBER 13, 1972

[Presidential Determination No. 73-7]

Presidential Determination—Spain

Memorandum for the Secretary of State

THE WHITE HOUSE,
Washington, November 13, 1972.

In accordance with the recommendation in your memorandum of August 7, I hereby:

(a) Determine, pursuant to Section 614(a) of the Foreign Assistance Act of 1961, as amended, that authorization of the use of up to $10 million of funds available in FY 1973 for the grant of defense articles and services, together with excess defense articles, to Spain without regard to the limitation of Section 620(m) of the Act is important to the Security of the United States; and

(b) Authorize, pursuant to Section 614(a) of the Act, such use of up to $10 million of funds for the grant of defense articles and services, together with excess defense articles, to Spain without regard to the limitation of Section 620(m) of the Act.

You are requested on my behalf to report this determination to the Senate and the House of Representatives within thirty days.

Richard Nixon

[FR Doc.72-20179 Filed 11-20-72;11:11 am]

Rules and Regulations

Title 7—AGRICULTURE

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Lemon Reg. 559, Amdt. 1]

PART 910—LEMONS GROWN IN CALIFORNIA AND ARIZONA

Limitation of Handling

(a) *Findings.* (1) Pursuant to the marketing agreement, as amended, and Order No. 910, as amended (7 CFR Part 910; 36 F.R. 9061), regulating the handling of lemons grown in California and Arizona, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations and information submitted by the Lemon Administrative Committee, established under the said amended marketing agreement and order, and upon other available information, it is hereby found that the limitation of handling of such lemons, as hereinafter provided, will tend to effectuate the declared policy of the act.

(2) It is hereby further found that it is impracticable and contrary to the public interest to give preliminary notice, engage in public rule making procedure, and postpone the effective date of this amendment until 30 days after publication hereof in the FEDERAL REGISTER (5 U.S.C. 553) because the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and this amendment relieves restriction on the handling of lemons grown in California and Arizona.

(b) *Order, as amended.* The provision in paragraph (b) (1) of § 910.859 (Lemon Regulation 559, 37 F.R. 24025) during the period November 12 through November 18, 1972, is hereby amended to read as follows:

§ 910.859 Lemon Regulation 559.

* * * * *

(b) *Order.* (1) * * * 190,000 cartons.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated: November 15, 1972.

ARTHUR E. BROWNE,
Deputy Director, Fruit and Vegetable Division, Agricultural Marketing Service.

[FR Doc.72-19981 Filed 11-20-72;8:48 am]

[Amdt. 1]

PART 966—TOMATOES GROWN IN FLORIDA

Limitation of Shipments

Notice of rule making with respect to a proposed amendment to the limitation of shipments regulation, to be made effective under Marketing Agreement No. 125 and Order No. 966, both as amended (7 CFR Part 966), regulating the handling of tomatoes grown in the Florida production area, was published in the FEDERAL REGISTER of November 4, 1972 (37 F.R. 23552). This program is effective under the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.).

The notice afforded interested persons an opportunity to file written data, views, or arguments pertaining thereto not later than November 10, 1972. None was filed.

After consideration of all relevant matters, including the proposal set forth in the aforesaid notice, which was recommended by the Florida Tomato Committee, established pursuant to said marketing agreement and order, it is hereby found and determined that this amendment will tend to effectuate the declared policy of the act.

It is hereby further found that good cause exists for not postponing the effective date of this amendment until 30 days after its publication in the FEDERAL REGISTER (5 U.S.C. 553) in that: (1) Tomatoes grown in the production area are now being marketed and increased volume of shipments is expected beginning on or about the effective date hereof; (2) compliance with this amendment will not require any special preparation by handlers which cannot be completed by the effective date; and (3) notice hereof has been made available to interested persons and by publication in the FEDERAL REGISTER of November 4, 1972.

This amendment reduces the minimum and maximum diameters of each size classification presently in effect by 1/32 of an inch. This reduction will result in the Florida tomato industry's size classifications becoming closer to those used in other tomato producing areas while still remaining within the size arrangements set forth in § 51.1860 of the United States Standards for Grades of Tomatoes.

Regulation, as amended. In § 966.310 (37 F.R. 21423), the size classification paragraphs are amended to read as follows:

§ 966.310 Limitation of shipments.

* * * * *

(a) * * *

(1) * * *

Size classification:	*Diameter (inches)*
7 by 8	2 1/32 and smaller.
7 by 7	Over 2 1/32 to 2 9/32, inclusive.
6 by 7	Over 2 9/32 to 2 17/32, inclusive.
6 by 6	Over 2 17/32 to 2 27/32, inclusive.
5 by 6 and larger	Over 2 27/32.

Measurement of diameters shall be in accordance with the methods prescribed in the U.S. Standards for Grades of Fresh Tomatoes (§§ 51.1855 to 51.1877 of this title).

(2) Tomatoes of designated sizes may not be commingled unless they are over 2 17/32 inches in diameter and each container shall be marked to indicate the designated size.

(3) To allow for variations incident to proper sizing, not more than a total of ten (10) percent, by count, of the tomatoes in any lot may be smaller than the specified minimum diameter or larger than the maximum diameter.

* * * * *

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Effective date: To become effective November 27, 1972.

Dated: November 16, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 9—ANIMALS AND ANIMAL PRODUCTS

Chapter I—Animal and Plant Health Inspection Service, Department of Agriculture

SUBCHAPTER C—INTERSTATE TRANSPORTATION OF ANIMALS (INCLUDING POULTRY) AND ANIMAL PRODUCTS; EXTRAORDINARY EMERGENCY REGULATION OF INTRASTATE ACTIVITIES

[Docket No. 72-583]

PART 76—HOG CHOLERA AND OTHER COMMUNICABLE SWINE DISEASES

Areas Quarantined

Pursuant to provisions of the Act of May 29, 1884, as amended, the Act of February 2, 1903, as amended, the Act of March 3, 1905, as amended, the Act of September 6, 1961, and the Act of July 2, 1962 (21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f), Part 76, Title 9, Code of Federal Regulations, restricting the interstate movement of swine and certain products because of hog cholera and other communicable swine diseases, is hereby amended in the following respects:

In § 76.2, a new paragraph (e)(4) relating to the State of New Jersey is added to read:

(e) • • •

(4) *New Jersey.* That portion of the State of New Jersey comprised of all of Gloucester County.

(Secs. 4–7, 23 Stat. 32, as amended; secs. 1 and 2, 32 Stat. 791–792, as amended; secs. 1–4, 33 Stat. 1264, 1265, as amended; sec. 1, 75 Stat. 481; secs. 3 and 11, 76 Stat. 130, 132; 21 U.S.C. 111–113, 114g, 115, 117, 120, 121, 123–126, 134b, 134f; 29 F.R. 16210, as amended, 36 F.R. 20707, 21529, 21530, 37 F.R. 6327, 6505)

Effective date. The foregoing amendment shall become effective upon issuance.

The amendment quarantines all of Gloucester County, N.J., because of the existence of hog cholera. This action is deemed necessary to prevent further spread of the disease. The restrictions pertaining to the interstate movement of swine and swine products from or through quarantined areas as contained in 9 CFR Part 76, as amended, will apply to the quarantined area.

The amendment imposes certain further restrictions necessary to prevent the interstate spread of hog cholera, and must be made effective immediately to accomplish its purpose in the public interest. It does not appear that public participation in this rule-making proceeding would make additional relevant information available to the Department.

Accordingly, under the administrative procedure provisions in 5 U.S.C. 553, it is found upon good cause that notice and other public procedure with respect to the amendment are impracticable, unnecessary and contrary to the public interest, and good cause is found for making it effective less than 30 days after publication in the FEDERAL REGISTER.

Done at Washington, D.C., this 16th day of November 1972.

G. H. WISE,
Acting Administrator, Animal and Plant Health Inspection Service.

[FR Doc.72-20060 Filed 11-20-72;8:55 am]

Title 10—ATOMIC ENERGY

Chapter I—Atomic Energy Commission

PART 2—RULES OF PRACTICE

Time for Filing Proposed Findings of Fact and Conclusions of Law

The Atomic Energy Commission has adopted an amendment to its rules of practice, 10 CFR Part 2, pertaining to the time within which parties to an adjudicatory proceeding must file proposed findings of fact and conclusions of law after the close of the record.

The rules of practice now provide § 2.754 for the filing of such proposed findings and conclusions and briefs within 20 days after the record is closed by the party who has the burden of proof, such as a license applicant. Other parties then have 20 days thereafter to file proposed findings and conclusions and briefs, except that the regulatory staff has 25 days. The party who has the burden of proof may reply within 10 days after service of proposed findings and conclusions and briefs by other parties.

Section 2.754 has been amended to provide that the party who has the burden of proof shall file proposed findings of fact and conclusions of law and briefs within 15 days after the close of the record, while other parties, except the regulatory staff, may file such proposed findings and conclusions and briefs within 25 days after the close of the record. The regulatory staff has 30 days after the close of the record to file proposed findings and conclusions and briefs. The party who has the burden of proof may reply within 5 days after service of the proposed findings and conclusions and briefs of the other parties. Conforming amendments have been made to appendix A of Part 2. The amendments are expected to result in greater expedition in Commission adjudicatory proceedings without impairing the rights of any party.

Pursuant to the Atomic Energy Act of 1954, as amended, and sections 552 and 553 of title 5 of the United States Code, the following amendments to Title 10, Chapter I, Code of Federal Regulations, Part 2, are published as a document subject to codification to be effective 30 days after publication in the FEDERAL REGISTER.

1. Paragraph (b) of § 2.754 is amended to read as follows:

§ 2.754 Proposed findings and conclusions.

• • • • •

(b) Except as otherwise ordered by the presiding officer:

(1) The party who has the burden of proof shall, within fifteen (15) days after the record is closed, file proposed findings of fact and conclusions of law and briefs, and a proposed form of order or decision.

(2) Other parties may file proposed findings, conclusions of law and briefs within twenty-five (25) days after the record is closed. However, the regulatory staff may file such proposed findings, conclusions of law and briefs within thirty (30) days after the record is closed.

(3) A party who has the burden of proof may reply within five (5) days after service of proposed findings and conclusions of law and briefs by other parties.

• • • • •

2. Paragraph (g)(3) of section V of appendix A is amended to read as follows:

V. THE HEARING

• • • • •

(g) Close of hearing:

• • • • •

(3) A schedule should be set by the board and recorded, either in the transcript or by written order, of the dates upon which the parties are directed by the board to file proposed findings of fact and conclusions of law. In uncontested cases, the proposed findings will ordinarily be extremely brief. In contested proceedings, proposed findings of fact and conclusions of law submitted by the parties may be more detailed. While brevity in such submissions is encouraged, the proposed findings and conclusions should be such as to reflect the position of parties submitting them, and the technical and factual basis therefor.

• • • • •

(Sec. 161; 68 Stat. 948, as amended; 42 U.S.C. 2201)

Dated at Germantown, Md., this 6th day of November 1972.

For the Atomic Energy Commission.

PAUL C. BENDER,
Secretary of the Commission.

[FR Doc.72-19942 Filed 11-20-72;8:45 am]

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72-GL-58]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

The purpose of this amendment to Part 71 of the Federal Aviation Regulations is to revise the La Crosse, Wis., control zone.

The non-Federal owned RBN at La Crosse, Wis., has been decommissioned and the instrument approach procedure based on this NAVAID has been canceled. This action will require revision of the La Crosse control zone deleting the portion based on the RBN.

Since this alteration will reduce the amount of designated controlled airspace at La Crosse, Wis., it will not impose any additional burden on any person. Therefore, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation Regulations is amended effective immediately, as hereinafter set forth:

In § 71.171 (37 F.R. 2056), the following control zone is amended to read:

LA CROSSE, WIS.

That airspace within a 5-mile radius of La Crosse Municipal Airport (latitude 43°52'-38" N., longitude 91°15'21" W.); within 3 miles each side of the La Crosse VOR 322° radial extending from the 5-mile-radius zone to 11½ miles northwest of the VOR; and within 2½ miles each side of the La Crosse VOR 185° radial extending from the 5-mile-radius zone to 5½ miles south of the VOR; and within 2 miles each side of the La Crosse ILS localizer north course, extending from the 5-mile-radius zone to 9 miles north of the airport.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348; sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Des Plaines, Ill., on October 31, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

[FR Doc.72-19962 Filed 11-20-72;8:47 am]

[Airspace Docket No. 72-NW-19]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Control Zone

On September 30, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 20572) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation Regulations that would alter the description of the Pocatello, Idaho control zone.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. Due consideration was given to all relevant matter presented.

Objections were received from several interested parties including the Power County Airport Board and the State of Idaho Department of Aeronautics. The objections concerned the inclusion of the American Falls Airport into the Pocatello control zone. The substance of the objections was in regard to the difference in weather conditions between the two airports. They said the American Falls Airport often has VFR weather when the Pocatello Municipal Airport has IFR weather due to local conditions at Pocatello.

A review of the proposed amendment disclosed that the deletion of the American Falls Airport from the description of the control zone would have no adverse effect upon the IFR operations using the Pocatello Municipal Airport LOC/DME (BC) Runway 3 Approach.

Accordingly that airspace within 1-mile radius of the American Falls Airport is deleted from the amendment. Since this change is less restrictive in nature and imposes no additional burden on any person, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, the proposed amendment is hereby adopted subject to the following change:

After the phrase, "• • • southwest of the VORTAC" delete "and" and substitute "excluding" therefor.

Effective date. This amendment shall be effective 0901 G.m.t., February 1, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Seattle, Wash., on November 9, 1972.

C. B. WALK, JR.,
Director, Northwest Region.

In § 71.171 (37 F.R. 2056) the description of the Pocatello, Idaho control zone is amended as follows:

To the existing description add "• • • that airspace within 5 miles each side of the Pocatello VORTAC 225 radial extending from the 5-mile radius to 10½ miles southwest of the VORTAC excluding that airspace within a 1-mile radius of the American Falls Airport (latitude 42°48'00" N., longitude 112°49'30" W.), American Falls, Idaho."

[FR Doc.72-19961 Filed 11-20-72;8:46 am]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

[Docket No. C-2305]

PART 13—PROHIBITED TRADE PRACTICES

AAMCO Automatic Transmissions, Inc.

Subpart—Cutting off access to customers or market: § 13.535 *Contracts restricting customers' handling of competing products;* § 13.540 *Forcing goods.* Subpart—Cutting off supplies or service: § 13.655 *Threatening disciplinary action or otherwise.* Subpart—Dealing on exclusive and tying basis: § 13.670 *Dealing on exclusive and tying basis:* 13.670–20 Federal Trade Commission Act. Subpart—Enforcing dealings or payments wrongfully: § 13.1045 *Enforcing dealings or payments wrongfully.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, AAMCO Automatic Transmissions, Inc., Bridgeport, Pa., Docket No. C-2305, Oct. 18, 1972]

In the Matter of AAMCO Automatic Transmissions, Inc., a Corporation

Consent order requiring a Bridgeport, Pa., franchisor of automobile automatic transmissions and related parts and services, among other things to cease requiring its franchisees to purchase the parts, equipment, merchandise, or services used by such franchisees in the establishment and operation of their businesses solely from respondent. The order further requires respondent to compile an approved vendor list and to allow franchisees to purchase from any vendor on it, provided said vendors comply with the quality control program set forth in the order.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

I. *It is ordered,* That respondent, AAMCO Automatic Transmissions, Inc. (AAMCO), a corporation, its successors, assigns, officers, directors, agents, representatives, directly or through any corporate or other device, in connection with the franchising of automotive transmission repair franchisees and the operation of an automotive repair franchisor business, such franchising and operation constituting commerce, as "commerce" is defined in the Federal Trade Commission Act, forthwith cease and desist from requiring, in any manner or by any means, directly or indirectly, its franchisees to purchase the automotive parts, new or rebuilt, equipment, merchandise or services used by such franchisees in the establishment and operation of their automotive repair businesses from AAMCO or from any other source except as hereinafter provided.

II. *It is further ordered,* That respondent take all necessary action to effect the cancellation of each provision of every contract between it and its franchisees which is contrary to or inconsistent with any provision of this order.

III. *It is provided,* That nothing in the order shall prohibit AAMCO, a corporation, its successors, assigns, officers, directors, agents, representatives, and employees, from restricting the sources from which the franchisees of AAMCO are permitted to purchase the new or rebuilt automotive parts, equipment or merchandise used in their operations as franchisees of AAMCO in accordance with the following quality control program.

A. (1) Respondent shall compile a list of approved new automobile transmission parts vendors. All such vendors who desire to be placed on the approved vendor list, who certify in writing to AAMCO that their secondary level of parts inspection is equivalent to AAMCO's and who actually perform a secondary level of parts inspection equivalent to that performed by AAMCO, as described in AAMCO's Quality Control Manual, which shall be made available to prospective vendors, shall be placed on the approved vendor list. For the purposes of this order, a "secondary level of inspection" is defined as a quality control procedure whereby automobile transmission parts are tested and inspected by the vendor prior to their sale. Those vendors who manufacture any of the parts which they sell shall be considered to

V37-225-NOV21-72 XUM

have the required secondary level of inspection if they have a quality control procedure whereby their parts prior to sale are subjected to an inspection equivalent to that performed by AAMCO.

(a) In order to allow AAMCO to ascertain the comparability of the secondary level of inspection of a vendor who desires to be placed on the approved vendor list, AAMCO shall be allowed to require that such vendor permit AAMCO to make a reasonable inspection of its quality control program.

(b) Any question as to the equivalency of a vendor's secondary level of inspection which is raised at any time by AAMCO shall be resolved by the determination of an independent testing laboratory, selected by the Commission, with the costs being borne by the vendor. AAMCO shall raise such question only when there is a reasonable basis therefore and after AAMCO has inspected the vendor's quality control program. Whenever such a question is raised by AAMCO, respondent shall submit to the Commission a statement as to what basis exists upon which to question the equivalency of the vendor's secondary level of inspection. When such a question is raised by AAMCO the vendor shall not be placed on the approved list pending the resolution of the question of the comparability of the vendor's secondary level of inspection. A vendor who is found not to have the requisite inspection program shall be afforded an opportunity to cure any defects in his program and to request at that time that he be placed on the approved vendor list subject to the criteria enumerated heretofore.

(c) Respondent shall forward a copy of the initial approved vendor list to the franchisees of AAMCO and shall publish such list every six (6) months in a publication, such as the "Twin Post," which is periodically sent to every franchisee of AAMCO.

(2) Respondent shall allow the franchisees of AAMCO to purchase from AAMCO or any person on the approved vendor list the new automobile transmission parts used in their businesses which comply with AAMCO's published specifications. In addition, AAMCO shall allow its franchisees to purchase new automobile transmission parts from all vendors who have qualified to be placed on the approved vendor list prior to the next publication of the list. Such specifications shall be made available to any vendor who is on, or desires to be placed on the approved vendor list.

(a) Any disputes as to whether an approved vendor's parts comply with AAMCO's published specifications, such disputes to be raised by AAMCO only where a reasonable basis for such dispute exists, shall be settled by testing by an independent testing laboratory selected by the Commission at the vendor's expense. Respondent shall submit a statement as to the basis for such question to the Commission. Pending the results of such tests, AAMCO may prohibit its franchisees from purchasing or using the specific parts whose compliance with AAMCO's published specifications is questioned. Vendors shall be given an opportunity to cure any noncompliance by resubmitting the parts in question to an independent testing laboratory selected by the Commission for testing at the Vendor's expense.

(b) The purchase contracts and/or purchase orders between the AAMCO franchisees and the vendors from whom they purchase such parts, and the invoices of such vendors, shall specify that such parts comply with AAMCO's published specifications and that they have undergone the requisite secondary level of inspections.

(3) None of the above provisions shall prohibit respondent from requiring that the franchisees of AAMCO purchase in kit form new automobile transmission parts. Respondent shall provide every vendor who desires to be placed on the approved vendor list with information as to the composition of kits then sold by respondent. Respondent shall also inform all vendors on the approved vendor list of all changes in the composition of kits sold by respondent.

(4) In order to be placed on the approved vendor list and to sell new automobile transmission parts to AAMCO franchisees, a vendor shall not be required by respondent: To perform a quality control program different than that which AAMCO performs on the parts which AAMCO sells to its franchisees; to sell in kit form those parts which AAMCO sells to its franchisees in other than kit form; to sell kits whose composition is different than the kits AAMCO sells; or to comply with AAMCO's published specifications for specific parts where AAMCO does not itself comply with its own published specifications for these parts which it sells to its franchisees.

B. (1) Respondent shall formulate, establish, and publish reasonable standards and specifications for equipment, merchandise, and rebuilt automotive transmission parts, i.e., those parts, such as torque converters, which are customarily rebuilt and which are customarily purchased by AAMCO franchisees for use in transmission repairs, indicating the quality which they desire for such parts, equipment and merchandise in order to protect and maintain the quality of rebuilt parts, equipment, and merchandise used by franchisees of AAMCO. Respondent shall forthwith forward any such standards and specifications to the persons named in Attachment A, as well as make such standards and specifications available to any manufacturer or wholesaler of rebuilt automotive parts, equipment, or merchandise requesting same.

(2) Respondent shall formulate, establish, and publish a list of approved manufacturers whose rebuilt parts, equipment, or merchandise comply with respondent's published standards and specifications and indicate which of such manufacturers' rebuilt parts, equipment, or merchandise are in compliance. Such list shall be forthwith forwarded to the persons named in Attachment A. Such list shall be published every six (6) months in the "Twin Post," or any publication which is periodically sent to every franchisee of AAMCO, and, in addition, be made available to any manufacturer or wholesaler of rebuilt automotive parts, equipment, or merchandise requesting same.

(a) The manufacturers of rebuilt automotive parts, equipment, or merchandise whose parts, equipment, or merchandise AAMCO, as of the date this order becomes effective, buys, or whose rebuilt parts, equipment, or merchandise are distributed by AAMCO, as of the date this order becomes effective, shall be placed on the approved manufacturers list for such parts, equipment, or merchandise as are purchased or distributed by AAMCO.

(b) Respondent shall place on the approved manufacturer list all manufacturers of rebuilt automotive parts, equipment, or merchandise, in addition to those described above in (a), who comply with the following:

(i) Such manufacturers desiring to be placed on the approved manufacturers list shall represent to AAMCO that the rebuilt parts, equipment, or merchandise for which they desire to be approved meet AAMCO's published standards and specifications.

(ii) Any disputes as to whether a manufacturer's equipment, merchandise, or rebuilt parts substantially comply with AAMCO's published specifications, such disputes to be raised by AAMCO only where a reason for such dispute exists, shall be settled by an independent testing laboratory chosen by the Federal Trade Commission at the manufacturer's expense. Respondent shall submit a statement as to the basis for such question to the Commission.

(iii) All such manufacturers shall be placed on AAMCO's approved manufacturer list for the rebuilt parts, equipment, or merchandise involved if such parts, equipment, or merchandise of the manufacturer are found to comply with AAMCO's published standards and specifications.

(3) If at any time the respondent has a reasonable basis upon which to question whether the equipment, merchandise, or rebuilt parts of an approved manufacturer comply with AAMCO's published specifications, said manufacturer shall be removed from the approved manufacturer list for the specific equipment, merchandise, or rebuilt parts involved. Respondents shall submit a statement as to the basis for such question to the Commission.

(a) Any dispute as to whether an approved manufacturer's equipment, merchandise, or rebuilt parts comply with AAMCO's published specifications shall

be settled by testing at the manufacturer's expense by an independent testing laboratory, selected by the Commission. Such manufacturer shall be afforded the opportunity for cure established heretofore in III A(2)(a) of this order.

(4) In order to be placed on the approved manufacturer list and to sell specific equipment, merchandise, or rebuilt parts to AAMCO franchisees, a manufacturer shall not be required by respondent to comply with AAMCO's published specifications for specific equipment, merchandise, or rebuilt parts where AAMCO does not itself comply with its own published specifications for these items which it sells to its franchisees.

(5) Respondent shall allow franchisees of AAMCO to purchase the rebuilt parts, equipment, or merchandise of a manufacturer who is on the approved manufacturers list for such parts, equipment, or merchandise. In addition, AAMCO shall allow its franchisees to purchase rebuilt parts, equipment, or merchandise from all manufacturers who have qualified to be placed on the approved manufacturer list prior to the next publication of the list. The purchase contracts and/or purchase orders between AAMCO franchisees and the sources from which they purchase approved rebuilt automotive parts, equipment, or merchandise shall specify that the rebuilt parts, equipment, or merchandise being purchased are manufactured by a company on the approved manufacturers list for such parts, equipment, or merchandise. The invoices of the sources from which AAMCO franchisees purchase approved parts, equipment, or merchandise shall specify that such parts, equipment, or merchandise are manufactured by a company on the approved manufacturer list for such parts, equipment, or merchandise.

IV. Respondent shall be allowed to require that the franchisees of AAMCO submit to AAMCO sufficient information to enable AAMCO to determine if the individual franchisees are using equipment, merchandise, and new and rebuilt transmission parts which comply with the procedures set forth in this order. Respondent shall also be allowed to require compliance with this provision in a reasonable manner.

V. *It is further ordered*, That respondent shall forthwith forward a copy of this order and of attached letter "A" to each present and future franchisee of AAMCO and to the persons named in Attachment A.

VI. *It is further ordered*, That respondent within sixty (60) days after service upon it of this order, file with the Commission a report in writing setting forth in detail the manner and form in which it has complied with this order.

VII. *It is further ordered*, That respondent notify the Commission at least thirty (30) days after any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

Issued: October 18, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN, *Secretary.*

LETTER "A"

(OFFICIAL AAMCO STATIONERY)

GENTLEMEN: The Federal Trade Commission has entered an order against AAMCO Automatic Transmissions, Inc. (AAMCO) which prohibits it from requiring its transmission franchisees to purchase only from AAMCO the mechanical equipment and transmission parts our franchisees use in their automotive transmission business. A copy of this order is attached.

The order permits AAMCO to require its franchisees to limit their purchases of parts and equipment to those parties who qualify under the following AAMCO Quality Control Program or to purchase such parts and equipment from AAMCO. We shall formulate and publish standards for a quality control program whereby the transmission parts are tested and inspected by vendors prior to sale. In addition we will publish specifications for new and rebuilt transmission parts and equipment. A description of the quality control program and the specifications shall be made available to manufacturers and suppliers which request them. Companies which follow the quality control procedures and specifications shall be placed on an approved manufacturer's list for such parts or equipment. This list will be published in an AAMCO publication every 6 months.

The AAMCO franchisees are required to submit to AAMCO sufficient information to enable AAMCO to determine if such franchisees are using equipment, merchandise, and new and rebuilt transmission parts which comply with the procedures set forth in this order.

AAMCO's franchisees are free to purchase parts and equipment only from those vendors on the approved manufacturers list and from AAMCO.

Sincerely yours,

ROBERT MORGAN.

[Docket C-2303]

PART 13—PROHIBITED TRADE PRACTICES

Danube Carpet Mills, Inc., and Carl D. Hagaman

Subpart—Importing, manufacturing, selling, or transporting flammable wear: § 13.1060 *Importing, manufacturing, selling, or transporting flammable wear.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 67 Stat. 111, as amended; 15 U.S.C. 45, 1191) [Cease and desist order, Danube Carpet Mills, Inc. et al., Fort Oglethorpe, Ga., Docket No. C-2303, Oct. 13, 1972]

In the Matter of Danube Carpet Mills, Inc., a Corporation, and Carl D. Hagaman, Individually and as an Officer of the Corporation

Consent order requiring a Fort Oglethorpe, Ga., manufacturer and seller of carpets and rugs, among other things to cease manufacturing for sale, selling, importing, or distributing any product, fabric, or related material, which fails to conform to an applicable standard of flammability or regulation issued or amended under the provisions of the Flammable Fabrics Act.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

XUM
V37-2252
NOV 21 72
XUM

It is ordered, That respondent Danube Carpet Mills, Inc., a corporation, its successors and assigns, and its officers, and respondent Carl D. Hagaman, individually and as an officer of said corporation, and respondents' agents, representatives, and employees directly or through any corporation, subsidiary, division, or other device, do forthwith cease and desist from manufacturing for sale, selling, offering for sale, in commerce, or importing into the United States, or introducing, delivering for introduction, transporting or causing to be transported in commerce, or selling or delivering after sale or shipment in commerce, any product, fabric, or related material; or manufacturing for sale, selling, or offering for sale, any product made of fabric or related material which has been shipped or received in commerce, as "commerce," "product," "fabric," and "related material" are defined in the Flammable Fabrics Act, as amended, which product, fabric or related material fails to conform to an applicable standard or regulation continued in effect, issued or amended under the provisions of the aforesaid Act.

It is further ordered, That respondents notify all of their customers who have purchased or to whom have been delivered the products which gave rise to this complaint, of the flammable nature of said products and effect the recall of said products from such customers.

It is further ordered, That the respondents herein either process the products which gave rise to the complaint so as to bring them into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or destroy said products.

It is further ordered, That respondents herein shall, within ten (10) days after service upon them of this order, file with the Commission a special report in writing setting forth the respondents' intentions as to compliance with this order.

This special report shall also advise the Commission fully and specifically concerning: (1) The identity of the products which gave rise to the complaint, (2) the identity of the purchasers of said products, (3) the amount of said products on hand and in the channels of commerce, (4) any action taken and any further actions proposed to be taken to notify customers of the flammability of said products and effect the recall of said products from customers, and the results thereof, (5) any disposition of said products since April 27, 1972, and (6) any action taken or proposed to be taken to bring said products into conformance with the applicable standard of flammability under the Flammable Fabrics Act, as amended, or to destroy said products, and the results of such action. Respondents will submit with their report, a complete description of each style of carpet or rug currently in inventory or production. Upon request, respondents will forward to the Commission for testing a sample of any such carpet or rug.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business or employment in which he is engaged as well as a description of his duties and responsibilities.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, filed with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

Issued: October 13, 1972.

By the Commission.

Subpart—Neglecting, unfairly or deceptively, to make material disclosure: § 13.1852 *Formal regulatory and statutory requirements:* 13.1852-35 Fur Products Labeling Act.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, sec. 8, 65 Stat. 179; 15 U.S.C. 45, 69f) [Cease and desist order, Kefalas Bros. et al., New York, N.Y., Docket No. C-2304, Oct. 16, 1972]

In the Matter of Kefalas Bros., a Partnership, and John Kefalas and Harry Kefalas Individually and as Copartners Trading as Kefalas Bros.

Consent order requiring a New York City manufacturer of fur products, among other things to cease misbranding and falsely invoicing its merchandise.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents Kefalas Bros., a partnership, and John Kefalas and Harry Kefalas, individually, and as copartners, trading as Kefalas Bros., or any other name or names and respondents' representatives, agents, and employees, directly or through any corporate or other device in connection with the introduction, or manufacture for introduction, into commerce, or the sale, advertising, or offering for sale in commerce, or the transportation or distribution in commerce, of any fur product; or in connection with the manufacture for sale, sale, advertising, offering for sale, transportation or distribution of any fur product, which is made in whole, or in part of fur, which has been shipped or received in commerce, as the terms "commerce," "fur," and "fur product," are defined in the Fur Products Labeling Act, do forthwith cease and desist from:

A. Misbranding fur products by:

1. Representing, directly or by implication, on labels that the fur contained in any fur product is natural when the fur contained therein is pointed, bleached, dyed, tip-dyed, or otherwise artificially colored.

2. Failing to affix labels to fur products showing in words and figures plainly legible all of the information required to be disclosed by each of the subsections of section 4(2) of the Fur Products Labeling Act.

3. Failing to set forth on a label the item number or mark assigned to such fur product.

B. Falsely or deceptively invoicing any fur product by failing to set forth on an invoice the item number or mark assigned to such fur product.

It is further ordered, That the individual respondents named herein promptly notify the Commission of the discontinuance of their present business or employment and of their affiliation with a new business or employment. Such notice shall include respondents' current business or employment in which they are engaged as well as a description of their duties and responsibilities.

It is further ordered, That respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report, in writing, setting forth in detail the manner and form in which they have complied with the order.

Issued: October 16, 1972.

By the Commission.

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interpret or apply sec. 5, 38 Stat. 719, as amended, 82 Stat. 146, 147; 15 U.S.C. 45, 1601-1605) [Cease and desist order, Sanford Levinson, etc., Akron, Ohio, Docket No. C-2301, Oct. 6, 1972]

In the Matter of Sanford Levinson, Also Known as Morris Cohen, Stanley Lewis, etc., an Individual, Trading and Doing Business as Shangri-La Industries, Modern Decorators American Distributors and Decorators, etc.

Consent order requiring a retailer of swimming pools and other articles of merchandise, whose last known place of business was in Akron, Ohio, among other things to cease misrepresenting his stock on hand and willingness to perform advertised services; disparaging or refusing to sell any products or services advertised; using deceptive or misleading representations to obtain prospective customers; misrepresenting prices as usual or customary unless the representation is true; and failing to disclose to customers such information as is required by Regulation Z of the Truth in Lending Act. Respondent is also required to include on the face of its notes a notice that a subsequent holder may take over the note and the customer may still be required to pay the instrument of indebtedness even if the purchase contract is not fulfilled.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

COUNT I. *It is ordered*, That respondent Sanford Levinson, also known as Morris Cohen, Stanley Lewis, or any other assumed name or names, an individual trading and doing business as Shangri-La Industries, Modern Decorators, American Distributors and Decorators, or any other trade name or names, and respondent's agents, representatives, and employees, directly or indirectly, orally or in writing, or through any corporate or other device in connection with the advertising, offering for sale, distribution and installation of swimming pools or any other product or service, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Advertising or offering any swimming pools or any other products or services for sale for the purpose of obtaining leads or prospects for the sale of different products or services, unless respondent maintains an adequate and readily available stock of said products or is ready, willing and able to perform said services.

2. Disparaging, in any manner, or refusing to sell, any swimming pool, or any other products or services advertised by respondent.

3. Using any advertising, sales plan or procedure involving the use of false, deceptive or misleading statements or representations which are designed to obtain leads or prospects for the sale of swimming pools or any other product or service.

4. Representing that any swimming pools or other products or services are offered for sale when such offer is not a bona fide offer to sell said swimming pools or other products or services.

5. Representing that the special swimming pool decks which are advertised are available for sale from respondent's salesmen.

6. Representing that the swimming pools, or any other products or services are nationally advertised in leading magazines, unless magazine advertisements featuring such products are circulated to a national market.

7. Representing that any amount is respondent's usual and customary retail price of swimming pools or any other product or service, unless the amount is the price at which the merchandise has been usually sold at retail by respondent in the regular course of business.

8. Repesenting that the swimming pools, or any other products are maintenance free, or words of similar meaning and import.

9. Representing that the Aquamate Swimming Pool can be used as an ice skating pond during the winter months, or that any product can be used for other than its primary purpose, unless the respondent fully discloses all problems related to such secondary uses.

10. Representing that the home of any of respondent's customers or prospective customers for swimming pools or other products or services has been selected to be used or will be used as a "model home" or otherwise for advertising or sales purposes.

11. Representing that any allowance, discount or commission, in the form of cash, merchandise or services, is granted by respondent to purchasers of swimming pools or any other product or service in return for permitting the premises on which respondent's products are installed or services are performed to be used for "model home" or demonstration purposes.

12. Using the term "guarantee" or any term of similar import or meaning in any advertising or sales presentation for swimming pools or other products or services, unless the purchaser of such swimming pool or other products or services is accorded full satisfaction including the right to cancel the contract and obtain a full refund for failure to honor the guarantee.

13. Representing that any of respondent's products and installations are guaranteed, unless the nature and extent of the guarantee, the identity of the guarantor, and the manner in which the guarantor will perform thereunder are fully and conspicuously disclosed in immediate conjunction therewith; or making any direct or implied representation that any of respondent's products or installations are guaranteed unless, in each instance, a written guarantee is given to the purchaser containing provisions fully equivalent to those contained in such representations, and unless respondent promptly fulfills all of his obligations under the represented terms of such guarantee.

14. Representing that respondent will honor the guarantee by providing service for any defects in the swimming pool or its related equipment, or any other product or service unless respondent has provided for the manpower, tools, equipment, and other facilities necessary to honor such guarantees, and unless respondent does, in fact, honor such guarantees.

15. Failing to incorporate the following statement on the fact of all sales contracts, all notes, or other instruments of indebtedness executed by or on behalf of respondent's customers, with such conspicuousness and clarity as is likely to be read and understood by the purchaser:

"NOTICE

"If you are obtaining credit in connection with this purchase, you will be required to sign a promissory note, a sales contract, or other instrument of indebtedness, which may be purchased from the seller by a bank, finance company, or any other third party. If such is the case, you will be required to make your payments to someone other than the seller. You should be aware that if this happens you may have to pay the note, contract, or other instrument of indebtedness in full to the new owner even if your purchase contract is not fulfilled."

Respondent is also required to include on the face of its notes a notice that a subsequent holder may take over the note and the customer may still be required to pay the instrument of indebtedness even if the purchase contract is not fulfilled.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

COUNT I. *It is ordered*, That respondent Shangri-La Industries, Inc., a corporation, and its officers, and respondent Sanford Levinson, also known as Morris Cohen, Stanley Lewis, or any other assumed name or names, an individual trading and doing business as Shangri-La Industries, Modern Decorators, American Distributors and Decorators, or any other trade name or names, and respondent's agents, representatives, and employees, directly or indirectly, orally or in writing, or through any corporate or other device in connection with the advertising, offering for sale, distribution and installation of swimming pools or any other product or service, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

1. Advertising or offering any swimming pools or any other products or services for sale for the purpose of obtaining leads or prospects for the sale of different products or services, unless respondent maintains an adequate and readily available stock of said products or is ready, willing and able to perform said services.

2. Disparaging, in any manner, or refusing to sell, any swimming pool, or any other products or services advertised by respondent.

3. Using any advertising, sales plan or procedure involving the use of false, deceptive or misleading statements or representations which are designed to obtain leads or prospects for the sale of swimming pools or any other product or service.

4. Representing that any swimming pools or other products or services are offered for sale when such offer is not a bona fide offer to sell said swimming pools or other products or services.

5. Representing that the special swimming pool decks which are advertised are available for sale from respondent's salesmen.

6. Representing that the swimming pools, or any other products or services are nationally advertised in leading magazines, unless magazine advertisements featuring such products are circulated to a national market.

7. Representing that any amount is respondent's usual and customary retail price of swimming pools or any other product or service, unless the amount is the price at which the merchandise has been usually sold at retail by respondent in the regular course of business.

8. Repesenting that the swimming pools, or any other products are maintenance free, or words of similar meaning and import.

9. Representing that the Aquamate Swimming Pool can be used as an ice skating pond during the winter months, or that any product can be used for other than its primary purpose, unless the respondent fully discloses all problems related to such secondary uses.

10. Representing that the home of any of respondent's customers or prospective customers for swimming pools or other products or services has been selected to be used or will be used as a "model home" or otherwise for advertising or sales purposes.

11. Representing that any allowance, discount or commission, in the form of cash, merchandise or services, is granted by respondent to purchasers of swimming pools or any other product or service in return for permitting the premises on which respondent's products are installed or services are performed to be used for "model home" or demonstration purposes.

12. Using the term "guarantee" or any term of similar import or meaning in any advertising or sales presentation for swimming pools or other products or services, unless the purchaser of such swimming pool or other products or services is accorded full satisfaction including the right to cancel the contract and obtain a full refund for failure to honor the guarantee.

13. Representing that any of respondent's products and installations are guaranteed, unless the nature and extent of the guarantee, the identity of the guarantor, and the manner in which the guarantor will perform thereunder are fully and conspicuously disclosed in immediate conjunction therewith; or making any direct or implied representation that any of respondent's products or installations are guaranteed unless, in each instance, a written guarantee is given to the purchaser containing provisions fully equivalent to those contained in such representations, and unless respondent promptly fulfills all of his obligations under the represented terms of such guarantee.

14. Representing that respondent will honor the guarantee by providing service for any defects in the swimming pool or its related equipment, or any other product or service unless respondent has provided for the manpower, tools, equipment, and other facilities necessary to honor such guarantees, and unless respondent does, in fact, honor such guarantees.

15. Failing to incorporate the following statement on the fact of all sales contracts, all notes, or other instruments of indebtedness executed by or on behalf of respondent's customers, with such conspicuousness and clarity as is likely to be read and understood by the purchaser:

"NOTICE

"If you are obtaining credit in connection with this purchase, you will be required to sign a promissory note, a sales contract, or other instrument of indebtedness, which may be purchased from the seller by a bank, finance company, or any other third party. If such is the case, you will be required to make your payments to someone other than the seller. You should be aware that if this happens you may have to pay the note, contract, or other instrument of indebtedness in full to the new owner even if your purchase contract is not fulfilled."

V 37-225 NOV 21 72 XUM

It is further ordered, That respondent devote twenty-five percent (25%) of all advertising in newspapers, magazines, and other such media as may be used to advertise swimming pools or any other product or service, to a statement that the Federal Trade Commission has questioned respondent's advertising practices, such statement to appear in all advertising for 1 year after the effective date of this order.

COUNT II. *It is ordered*, That respondent Sanford Levinson, also known as Morris Cohen, Stanley Lewis, or any other assumed name or names, an individual trading and doing business as Shangri-La Industries, Modern Decorators, American Distributors and Decorators, or any other trade name or names, and respondent's agents, representatives, and employees, directly or through any corporate or other device in connection with the extension of consumer credit or advertisement to aid, promote, or assist, directly or indirectly, in any extension of consumer credit, as "consumer credit" and "advertisement" are defined in Regulation Z (12 CFR Part 226) of the Truth in Lending Act (Public Law 90–321, 15 U.S.C. 1601 et seq.), do forthwith cease and desist from:

1. Failing to disclose the date on which the finance charge begins to accrue if different from the date of the transaction, as prescribed by § 226.8(b)(1) of Regulation Z.

2. Failing to disclose the annual percentage rate, computed in accordance with § 226.5 of Regulation Z, as prescribed by § 226.8(b)(2) of Regulation Z.

3. Failing to use the term "cash downpayment" to describe the downpayment in money made in connection with the credit sale, as prescribed by § 226.8(c)(2) of Regulation Z.

4. Failing to use the term "unpaid balance of cash price" to describe the difference between the cash price and the total downpayment, as prescribed by § 226.8(c)(3) of Regulation Z.

5. Failing to use the term "finance charge" to describe the sum of all charges required by § 226.4 of Regulation Z to be included therein, as prescribed by § 226.8(c)(8)(i) of Regulation Z.

6. Failing to disclose the sum of the cash price, all charges which are included in the amount financed but which are not part of the finance charge, and the finance charge, and to describe that sum as the "deferred payment price," as prescribed by § 226.8(b)(8)(ii) of Regulation Z.

7. Failing to obtain a specifically dated and separately signed, affirmative, written statement from the customer indicating his desire to obtain insurance coverage, after the customer received written disclosure of the cost of such insurance, as prescribed by § 226.4(a)(5)(ii) of Regulation Z.

8. Failing to give notice of the customer's right to rescind the transaction by furnishing the customer with two copies of the notice in the form as set forth in § 226.9(b) of Regulation Z, as prescribed by § 226.9 of Regulation Z.

9. Failing to delay performance of the subject matter of the transaction, as prescribed by § 226.9(c)(4) of Regulation Z.

10. Failing, in any consumer credit transaction or advertising, to make all disclosures determined in accordance with § 226.4 and § 226.5 of Regulation Z at the time and in the manner, form and amount prescribed by §§ 226.6, 226.8, and 226.10 of Regulation Z.

It is further ordered, That respondent shall forthwith deliver a copy of this order to cease and desist to all present and future personnel engaged in the offering for sale or sale of swimming pools, swimming pool accessories, services, or other products, and in the consummation of any extension of consumer credit, or in any aspect of preparation, creation, or placing of advertising, and that respondent secure a signed statement acknowledging the receipt of said order from each such person.

It is further ordered, That the individual respondent named herein promptly notify the Commission of the discontinuance of his present business or employment and of his affiliation with a new business or employment. Such notice shall include respondent's current business address and a statement as to the nature of the business or employment in which he is engaged, as well as a description of his duties and responsibilities.

It is further ordered, That respondent shall, within sixty (60) days after service upon him of this order, file with the Commission a report in writing, setting forth in detail the manner and form in which he has complied with the order to cease and desist contained herein.

By the Commission.

Issued: October 6, 1972.

[Docket No. C–2302]

PART 13—PROHIBITED TRADE PRACTICES

U.S. Homes, Inc., and Robert G. Sandler

Subpart—Advertising falsely or misleadingly: § 13.70 *Fictitious or misleading guarantees.* Subpart—Misrepresenting oneself and goods—Goods: § 13 1647 *Guarantees.* Subpart—Offering unfair, improper, and deceptive inducements to purchase or deal: § 13.1980 *Guarantee, / in general.*

(Sec. 6, 38 Stat. 721; 15 U.S.C. 46. Interprets or applies sec. 5, 38 Stat. 719, as amended; 15 U.S.C. 45) [Cease and desist order, U.S. Homes, Inc. et al., Des Moines, Iowa, Docket No. C–2302, Oct. 11, 1972]

In the Matter of U.S. Homes, Inc , a Corporation, and Robert G. Sandler, Individually and as an Officer of Said Corporation

Consent order requiring a Des Moines, Iowa, firm selling custom-built homes and/or "package homes," among other things to cease representing that its products are guaranteed unless the nature, extent, and duration of the guarantee and the identity of and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed.

The order to cease and desist, including further order requiring report of compliance therewith, is as follows:

It is ordered, That respondents U.S. Homes, Inc., a corporation, and its officers, and Robert G. Sandler, individually and as an officer of said corporation, and respondents' agents, representatives, employees, successors, and assigns, directly or through any corporate or other device, in connection with the advertising, offering for sale, sale, or distribution of custom built homes and/or "package homes," or other products, in commerce, as "commerce" is defined in the Federal Trade Commission Act, do forthwith cease and desist from:

Representing by any means, directly or by implication, that respondents' products are guaranteed unless the nature, extent, and duration of the guarantee, the identity of the guarantor and the manner in which the guarantor will perform thereunder are clearly and conspicuously disclosed; and unless respondents promptly and fully perform all of their obligations and requirements, directly or impliedly represented, under the terms of each such guarantee.

It is further ordered, That respondents notify the Commission at least 30 days prior to any proposed change in the corporate respondent such as dissolution, assignment, or sale resulting in the emergence of a successor corporation, the creation or dissolution of subsidiaries or any other change in the corporation which may affect compliance obligations arising out of the order.

It is further ordered, That the respondent corporation shall forthwith distribute a copy of this order to each of its operating divisions.

It is further ordered, That the respondents herein shall, within sixty (60) days after service upon them of this order, file with the Commission a report in writing setting forth in detail the manner and form in which they have complied with this order.

By the Commission.

Title 19—CUSTOMS DUTIES

Chapter I—Bureau of Customs, Department of the Treasury

[T.D. 72–258]

PART 8—LIABILITY FOR DUTIES; ENTRY OF IMPORTED MERCHANDISE

Deposit of Estimated Duties; Correction

Treasury Decision 72–258, published in the FEDERAL REGISTER on September 27, 1972 (37 F.R. 20170), gave notice of the adoption of the revision of Part 158, relating to relief from duties on merchandise lost, damaged, abandoned, or exported, and conforming changes in other parts of the Customs regulations.

At the end of the document under Part 8—Liability for Duties; Entry of Imported Merchandise, the statement in the second line of amendatory paragraph 2, referring to § 8.28(b)r, "subpart A of section 158" is corrected to read "subpart A of Part 158."

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 2—ADMINISTRATION FUNCTIONS, PRACTICES, AND PROCEDURES

Subpart H—Delegations of Authority

DELEGATIONS REGARDING INFORMAL HEARINGS AND REVIEW BOARDS

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701 (a), 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), § 2.121 is amended in paragraph (b) to expand and clarify the delegations of authority in accordance with Food and Drug Administration policy and the assignment of new functions.

Accordingly, § 2.121 is amended by revising paragraph (b) as follows:

§ 2.121 Redelegations of authority from the Commissioner to other officers of the Administration.

• • • • •

(b) *Delegations regarding informal hearings and review boards.* (1) The Directors and Deputy Directors of Bureaus, Regional Food and Drug Directors, and Deputy Regional Food and Drug Directors are authorized to designate officials to hold informal hearings which relate to their assigned functions under sections 305, 404(b), and 801(a) of the Federal Food, Drug, and Cosmetic Act, sections 7 and 14 of the Federal Hazardous Substances Act, and section 5 of the Federal Import Milk Act. Officials so designated are delegated authority contemplated by section 1 of the Act of January 31, 1925 (ch. 124, 43 Stat. 803); sections 12 to 15 of Reorganization Plan No. IV, effective June 30, 1940; Reorganization Plan No. 1 of 1953, effective April 11, 1953; and section 556(c) of title 5 U.S.C. (80 Stat. 386), to administer to or take from any person an oath, affirmation, affidavit, or deposition for use in any prosecution or proceeding under or in enforcement of any law as cited in this section.

(2) The Director and Deputy Director of the Bureau of Biologics are authorized to appoint review boards as provided by § 273.233 of this title (21 CFR 273.233).

• • • • •

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (11–21–72).

PART 2—ADMINISTRATIVE FUNCTIONS, PRACTICES, AND PROCEDURES

Subpart H—Delegations of Authority

DISCLOSURE OF OFFICIAL RECORDS

Pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 701 (a), 52 Stat. 1055; 21 U.S.C. 371(a)) and under authority delegated to the Commissioner of Food and Drugs (21 CFR 2.120), § 2.121, is amended in paragraph (e) to update the delegations of authority regarding the disclosure of official records required by changes in the titles of some organizations and the addition of new organizations.

Accordingly, § 2.121 is amended by revising paragraph (e) as follows:

§ 2.121 Redelegations of authority from the Commissioner to other officers of the Administration.

• • • • •

(e) *Delegations regarding disclosure of official records.* (1) The following officials are authorized to make determinations to disclose official records and information in accordance with § 4.1 of this chapter.

(i) The Director and Deputy Director of the Bureau of Drugs, the Director and Deputy Director of the Office of Compliance of that Bureau, and the Director and Deputy Director of the Division of Regulatory Operations of the Office of Compliance of that Bureau.

(ii) The Director and Deputy Director of the Bureau of Foods, the Director and Associate Director of the Office of Compliance of that Bureau, and the Director of the Division of Regulatory Guidance of the Office of Compliance of that Bureau.

(iii) The Director and Deputy Director of the Bureau of Veterinary Medicine and the Director and Deputy Director of the Division of Compliance of that Bureau.

(iv) The Director and Deputy Director of the Bureau of Product Safety and the Director of the Division of Compliance of that Bureau.

(v) The Director and Deputy Director, Bureau of Radiological Health, the Director of the Division of Electronic Products, and the Director of the Office of Criteria and Standards of that Bureau.

(vi) The Director and Deputy Director of the Bureau of Biologics, the Associate Director for Regulatory and Administrative Management, and the Director of the Office of Compliance of that Bureau.

(2) The Chief of the Drug Registration Section of the Division of Regulatory Operations, Office of Compliance, Bureau of Drugs, is authorized to sign affidavits regarding the presence or absence of records of Registration of Drug Establishments.

(3) The Chief of the Records Section of the Administrative Services Branch, Division of General Services, Office of the Associate Commissioner for Administration, is authorized to sign affidavits regarding the presence or absence of records in the files of that section.

• • • • •

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (11–21–72).

SUBCHAPTER C—DRUGS

PART 135e—NEW ANIMAL DRUGS FOR USE IN ANIMAL FEEDS

Ipronidazole

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (43–477V) filed by Hoffmann La Roche, Inc., Nutley, N.J. 07110, proposing amendments to the regulation for ipronidazole to provide for its additional use in turkey feed for the treatment of blackhead. A change was also proposed in the assay limits for finished feed containing the higher treatment level of the drug. The supplemental application is approved.

The regulation is also amended to clarify the conditions of use for the drug and to delete the restriction on the use of bentonite with the drug in turkey feeds.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i)) and under authority delegated to the Commissioner (21 CFR 2.120), § 135e.56 is amended in paragraph (c), the text in paragraph (e) is deleted and reserved for future use, and the table in paragraph (f) is amended as follows:

§ 135e.56 Ipronidazole.

• • • • •

(c) *Assay limits.* Finished feed containing 0.00625 percent ipronidazole not less than 75 percent nor more than 125 percent of labeled amount. Finished feed containing 0.025 percent ipronidazole not less than 80 percent nor more than 120 percent of labeled amount. Premix not less than 98 percent nor more than 115 percent of labeled amount.

• • • • •

(e) [Reserved]

(f) *Conditions of use.* It is used as follows:

XUM
V37-225 NOV 21 72 V

Principal ingredient	Grams per ton	Combined with—	Grams per ton	Limitations	Indications for use
1. Ipronidazole	...	...	...	For turkeys; withdraw 4 days before slaughter. Do not feed to turkeys producing eggs for food.	...
2. Ipronidazole	...	...	...	For turkeys; withdraw 4 days before slaughter. Do not feed to turkeys producing eggs for food.	...
3. Ipronidazole	227 (0.025%)			For turkeys; withdraw 4 days before slaughter. Do not feed to turkeys producing eggs for food. Feed for 7 days at the 0.025 percent level. Follow treatment with the preventive level (0.00625 percent) of ipronidazole.	For the treatment of blackhead (histomoniasis) in turkeys.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (11-21-72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: November 14, 1972.

C. D. VAN HOUWELING,
Director,
Bureau of Veterinary Medicine.

Title 26—INTERNAL REVENUE

Chapter I—Internal Revenue Service, Department of the Treasury

SUBCHAPTER A—INCOME TAX

[T.D. 7220]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Recoveries of Damages for Antitrust Violations, Etc.

On April 29, 1972, notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) to reflect the addition of section 186 to the Internal Revenue Code of 1954 by section 904 of the Tax Reform Act of 1969 (83 Stat. 711) was published in the FEDERAL REGISTER (37 F.R. 8674). After consideration of all such relevant matter as was presented by interested persons regarding the rules proposed, the amendment of the regulations as proposed is hereby adopted, subject to the changes set forth below:

Paragraphs (c)(2), (c)(3)(i), (d)(2), (d)(3), and (e)(1) of § 1.186-1, as set forth in the notice of proposed rule making of April 29, 1972, are revised to read as set forth below.

(Sec. 7805 of the Internal Revenue Code of 1954; 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: November 15, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

§ 1.186-1 Recoveries of damages for antitrust violations, etc.

(a) *Allowance of deduction.* Under section 186, when a compensatory amount which is included in gross income is received or accrued during a taxable year for a compensable injury, a deduction is allowed in an amount equal to the lesser of (1) such compensatory amount, or (2) the unrecovered losses sustained as a result of such compensable injury.

(b) *Compensable injury*—(1) *In general.* For purposes of this section, the term "compensable injury" means any of the injuries described in subparagraph (2), (3), or (4) of this paragraph.

(2) *Patent infringement.* An injury sustained as a result of an infringement of a patent issued by the United States (whether or not issued to the taxpayer or another person or persons) constitutes a compensable injury. The term "patent issued by the United States" means any patent issued or granted by the United States under the authority of the Commissioner of Patents pursuant to 35 U.S.C. 153.

(3) *Breach of contract or of fiduciary duty or relationship.* An injury sustained as a result of a breach of contract (including an injury sustained by a third party beneficiary) or a breach of fiduciary duty or relationship constitutes a compensable injury.

(4) *Injury suffered under certain antitrust law violations.* An injury sustained in business, or to property, by reason of any conduct forbidden in the antitrust laws for which a civil action may be brought under section 4 of the Act of October 15, 1914 (15 U.S.C. 15), commonly known as the Clayton Act, constitutes a compensable injury.

(c) *Compensatory amount*—(1) *In general.* For purposes of this section, the term "compensatory amount" means any amount received or accrued during the taxable year as damages as a result of an award in, or in settlement of, a civil action for recovery for a compensable injury, reduced by any amounts paid or incurred in the taxable year in securing such award or settlement. The term "compensatory amount" includes only amounts compensating for actual economic injury. Thus, additional amounts representing punitive, exemplary, or treble damages are not included within the term. Where, for example, a taxpayer recovers treble damages under section 4 of the Clayton Act, only one-third of the recovery representing economic injury constitutes a compensatory amount. In the absence of any indication to the contrary, amounts received in settlement of an action shall be deemed to be a recovery for an actual economic injury except to the extent such settlement amounts exceed actual damages claimed by the taxpayer in such action.

(2) *Interest on a compensatory amount.* Interest attributable to a compensatory amount shall not be included within the term "compensatory amount."

(3) *Settlement of a civil action for damages*—(i) *Necessity for an action.* The term "compensatory amount" does not include an amount received or accrued in settlement of a claim for a compensable injury if the amount is received or accrued prior to institution of an action. An action shall be considered as instituted upon completion of service of process, in accordance with the laws and rules of the court in which the action has been commenced or to which the action has been removed, upon all defendants who pay or incur an obligation to pay a compensatory amount.

(ii) *Specifications of the parties.* If an action for a compensable injury is settled, the specifications of the parties will generally determine compensatory amounts unless such specifications are not reasonably supported by the facts and circumstances of the case. For example, the parties may provide that the sum of $1,000 represents actual damages sustained as the result of antitrust violations and that the total amount of the settlement after the trebling of damages is $3,000. In such case, only the sum of $1,000 would be a compensatory amount. In the absence of specifications of the parties, the complaint filed by the taxpayer may be considered in determining what portion of the amount of the settlement is a compensatory amount.

(4) *Amounts paid or incurred in securing the award or settlement.* For purposes of this section, the term "amounts paid or incurred in the taxable year in securing such award or settlement" shall include legal expenses such as attorney's fees, witness fees, accountant fees, and court costs. Expenses incurred in securing a recovery of both a compensatory amount and other amounts from the same action shall be allocated among such amounts in the ratio each of such amounts bears to the total recovery. For instance, where a taxpayer incurs attorney's fees and other expenses of $3,000 in recovering $10,000 as a compensatory amount, $5,000 as a return of capital, and $25,000 as punitive damages from the same action, the taxpayer shall allocate $750 of the expenses to the compensatory amount (10,000/40,000×3,000), $375 to the return of capital (5,000/40,000×3,000), and $1,875 to

the punitive damages (25,000/40,000×3,000).

(d) *Unrecovered losses*—(1) *In general.* For purposes of this section, the term "unrecovered losses sustained as a result of such compensable injury" means the sum of the amounts of the net operating losses for each taxable year in whole or in part within the injury period, to the extent that such net operating losses are attributable to such compensable injury, reduced by (i) the sum of any amounts of such net operating losses which were allowed as a net operating loss carryback or carryover for any prior taxable year under the provisions of section 172, and (ii) the sum of any amounts allowed as deductions under section 186(a) and this section for all prior taxable years with respect to the same compensable injury. Accordingly, a deduction is permitted under section 186(a) and this section with respect to net operating losses whether or not the period for carryover under section 172 has expired.

(2) *Injury period.* For purposes of this section, the term "injury period" means (i) with respect to an infringement of a patent, the period during which the infringement of the patent continued, (ii) with respect to a breach of contract or breach of fiduciary duty or relationship, the period during which amounts would have been received or accrued but for such breach of contract or breach of fiduciary duty or relationship, or (iii) with respect to injuries sustained by reason of a violation of section 4 of the Clayton Act, the period during which such injuries were sustained. The injury period will be determined on the basis of the facts and circumstances of the taxpayer's situation. The injury period may include a periods before and after the period covered by the civil action instituted.

(3) *Net operating losses attributable to compensable injuries.* A net operating loss for any taxable year shall be treated as attributable (whether actually attributable or not) to a compensable injury to the extent the compensable injury is sustained during the taxable year. For purposes of determining the extent of the compensable injury sustained during a taxable year, a judgment for a compensable injury apportioning the amount of the recovery (not reduced by any amounts paid or incurred in securing such recovery) to specific taxable years within the injury period will be conclusive. If a judgment for a compensable injury does not apportion the amount of the recovery to specific taxable years within the injury period, the amount of the recovery will be prorated among the years within the injury period in the proportion that the net operating loss sustained in each of such years bear to the total net operating losses sustained for all such years. If an action is settled, the specifications of the parties will generally determine the apportionment of the amount of the recovery unless such specifications are not reasonably supported by the facts and circumstances of the case. In the absence of specifications of the parties, the amount of the recovery will be prorated among the years within the injury period in the proportion that the net operating loss sustained in each of such years bears to the total net operating losses sustained for all such years.

(4) *Application of losses attributable to a compensable injury.* If only a portion of a net operating loss for any taxable year is attributable to a compensable injury, such portion shall (in applying section 172 for purposes of this section) be considered to be a separate net operating loss for such year to be applied after the other portion of such net operating loss. If, for example, in the year of the compensable injury the net operating loss was $1,000 and the amount of the compensable injury was $600, the amount of $400 not attributable to the compensable injury would be used first to offset profits in the carryover or carryback periods as prescribed by section 172. After the amount not attributable to the compensable injury is used to offset profits in other years, then the amount attributable to the compensable injury will be applied against profits in the carryover or carryback periods.

(e) *Effect on net operating loss carryovers*—(1) *In general.* Under section 186(e) if for the taxable year in which a compensatory amount is received or accrued any portion of the net operating loss carryovers to such year is attributable to the compensable injury for which such amount is received or accrued, such portion of the net operating loss carryovers must be reduced by the excess, if any, of (i) the amount computed under section 186(e)(1) with respect to such compensatory amount, over (ii) the amount computed under section 186(e)(2) with respect to such compensable injury.

(2) *Amount computed under section 186(e)(1).* The amount computed under section 186(e)(1) is equal to the deduction allowed under section 186(a) with respect to the compensatory amount received or accrued for the taxable year.

(3) *Amount computed under section 186(e)(2).* The amount computed under section 186(e)(2) is equal to that portion of the unrecovered losses sustained as a result of the compensable injury with respect to which, as of the beginning of the taxable year, the period for carryover under section 172 has expired without benefit to the taxpayer, but only to the extent that such portion of the unrecovered losses did not reduce an amount computed under section 186(e)(1) for any prior taxable year.

(4) *Increase in income under section 172(b)(2).* If there is a reduction for any taxable year under subparagraph (1) of this paragraph in the portion of the net operating loss carryovers to such year attributable to a compensable injury, then, solely for purposes of determining the amount of such portion which may be carried to subsequent taxable years, the income of such taxable year, as computed under section 172(b)(2), shall be increased by the amount of the reduction computed under subparagraph (1) of this paragraph, for such year.

(f) *Illustration.* The provisions of section 186 and this section may be illustrated by the following example:

Example. (i) As of the beginning of his taxable year 1969, taxpayer A has a net operating loss carryover from his taxable year 1966 of $550 of which $250 is attributable to a compensable injury. In addition, he has a net operating loss attributable to the compensable injury of $150 with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer. In 1969, he receives a $100 compensatory amount with respect to that injury and he has $75 in other income. Thus, A has gross income of $175 and he is entitled to a $100 deduction (the compensatory amount received) under section 186(a) and this section since this amount is less than the unrecovered losses sustained as a result of the compensable injury ($250+$150=$400). No portion of the net operating loss carryover to the current taxable year attributable to the compensable injury is reduced under section 186(e) since the amount determined under section 186(e)(1) ($100) does not exceed the amount determined under section 186(e)(2) ($150). Therefore, A applies a net operating loss carryover of $550 against his remaining income of $75 and retains a net operating loss carryover of $475 to following years of which amount $250 remains attributable to the compensable injury. In addition, he retains $50 of net operating losses attributable to the compensable injury with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer.

(ii) In 1970, A receives a $200 compensatory amount with respect to the same compensable injury and has $75 of other income. Thus, A has gross income of $275 and he is entitled to a $200 deduction (the compensatory amount received) under section 186(a) and this section since this amount is less than the remaining unrecovered loss sustained as a result of the compensable injury ($250+$50=$300). The net operating loss carryover to the current taxable year of $250 attributable to the compensable injury is reduced under section 186(e) by $150, which is the excess of the amount determined under section 186(e)(1) ($200) over the amount determined under section 186(e)(2) ($50). Therefore, A applies net operating loss carryovers of $325 ($225 not attributable to the compensable injury, +$100 attributable to such injury) against his remaining income of $75. A retains net operating loss carryovers of $250 for following years, of which amount $100 is attributable to the compensable injury. A has used all of his net operating losses attributable to the compensable injury with respect to which the period for carryover under section 172 has expired without benefit to the taxpayer.

(iii) In 1971, A receives a $200 compensatory amount with respect to the same compensable injury and has $75 of other income. Thus, A has gross income of $275 and he is entitled to a $100 deduction (the amount of unrecovered losses) under section 186(a) and this section since this amount is less than the compensatory amount received ($200). The net operating loss carryover to the current taxable year of $100 attributable to the compensable injury is reduced under section 186(e) by $100, which is the excess of the amount determined under section 186(e)(1) ($100) over the amount determined under section 186(e)(2) ($0). Therefore, A applies net operating loss carryovers of $150 against his remaining income of $175 ($100 compensatory amount plus $75 other income) which leaves $25 taxable income. No net operating loss carryover remains for following years.

XUM
V37-225 NOV 21 72 V
XUM

(g) *Effective date.* The provisions of this section are applicable as to compensatory amounts received or accrued in taxable years beginning after December 31, 1968, even though the compensable injury was sustained in taxable years beginning before such date.

[T.D. 7221]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Effect of Depreciation on Earnings and Profits

On August 23, 1972, there was published in the FEDERAL REGISTER (37 F.R. 16945) a notice of proposed rule making with respect to the amendment of the Income Tax Regulations (26 CFR Part 1) under sections 312, 964, and 1248 of the Internal Revenue Code of 1954 to conform such regulations to changes made by section 442 of the Tax Reform Act of 1969 (83 Stat. 628). After consideration of all such relevant matters as were presented by interested persons regarding the rules proposed, the amendment to the regulations as proposed is hereby adopted.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: November 15, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

In order to conform the Income Tax Regulations (26 CFR Part 1) under sections 312, 964, and 1248 of the Internal Revenue Code of 1954 to section 442 of the Tax Reform Act of 1969 (83 Stat. 628), such regulations are amended as follows:

PARAGRAPH 1. Section 1.312 is amended by adding new subsections (k), (l), and (m) to section 312 and by revising the historical note. These revised and added provisions read as follows:

§ 1.312 Statutory provisions; effect on earnings and profits.

SEC. 312. *Effect on earnings and profits.*

* * *

(k) *Special adjustment on disposition of antitrust stock received as a dividend.* If a corporation received antitrust stock (as defined in section 301(f)) in a distribution to which section 301 applied, and the amount of the distribution determined under section 301(f)(2) exceeded the basis of the stock determined under section 301(f)(3), then proper adjustment shall be made, under regulations prescribed by the Secretary or his delegate, to the earnings and profits of such corporation at the time such stock (or other property the basis of which is determined by reference to the basis of such stock) is disposed of by such corporation.

(l) *Earnings and profits of foreign investment companies*—(1) *Allocation within affiliated group.* In the case of a sale or exchange of stock in a foreign investment company (as defined in section 1246(b)) by a United States person (as defined in section 7701(a)(30)), if such company is a member of an affiliated group, then the accumulated earnings and profits of all members of such affiliated group shall be allocated, under regulations prescribed by the Secretary or his delegate, in such manner as is proper to carry out the purposes of section 1246.

(2) *Affiliated group defined.* For purposes of paragraph (1) of this subsection, the term "affiliated group" has the meaning assigned to such term by section 1504(a); except that (A) "more than 50 percent" shall be substituted for "80 percent or more", and (B) all corporations shall be treated as includible corporations (without regard to the provisions of section 1504(b)).

(3) *Partial liquidations and redemptions*—(A) *In general.* If a foreign investment company (as defined in section 1246) distributes amounts in partial liquidation or in a redemption to which section 302(a) or 303 applies, the part of such distribution which is properly chargeable to earnings and profits shall be an amount which is not in excess of the ratable share of the earnings and profits of the company accumulated after February 28, 1913, attributable to the stock so redeemed.

(B) *Effective date.* Subparagraph (A) shall apply only with respect to distributions made after December 31, 1962.

(m) *Effect of depreciation on earnings and profits*—(1) *General rule.* For purposes of computing the earnings and profits of a corporation, for any taxable year beginning after June 30, 1972, the allowance for depreciation (and amortization, if any) shall be deemed to be the amount which would be allowable for such year if the straight line method of depreciation had been used for each taxable year beginning after June 30, 1972.

(2) *Exception.* If for any taxable year beginning after June 30, 1972, a method of depreciation was used by the taxpayer which the Secretary or his delegate has determined results in a reasonable allowance under section 167(a), and which is not—

(A) A declining balance method,

(B) The sum of the years-digits method, or

(C) Any other method allowable solely by reason of the application of subsection (b)(4) or (j)(1)(C) of section 167,

then the adjustment to earnings and profits for depreciation for such year shall be determined under the method so used (in lieu of under the straight line method).

(3) *Certain foreign corporations.* The provisions of paragraph (1) shall not apply in computing the earnings and profits of a foreign corporation for any taxable year for which less than 20 percent of the gross income from all sources of such corporation is derived from sources within the United States.

[Sec. 312 as amended by sec. 3(a), Act of February 2, 1962 (76 Stat. 6); secs. 13(f)(3), 14(b)(1), Rev. Act 1962 (76 Stat. 1035, 1040); sec. 231(b)(3), Rev. Act 1964 (78 Stat. 105); sec. 1(b)(1), Act of August 22, 1964 (78 Stat. 597); sec. 1(b)(3), Act of September 12, 1966 (80 Stat. 762); secs. 211(b)(3), 442(a), 905(b)(2), Tax Reform Act 1969 (83 Stat. 570, 628, 714)]

PAR. 2. Section 1.312-7 is amended by revising the last sentence of paragraph (c)(1) and adding a new example at the end of paragraph (c)(2). The revised and added provisions read as follows:

§ 1.312-7 Effect on earnings and profits of gain or loss realized after February 28, 1913.

* * * * *

(c)(1) * * * The adjustments provided by such third sentence reflect the treatment provided by §§1.312-6 and 1.312-15 relative to cases where the deductions for depletion and depreciation in computing taxable income (or net income, as the case may be) differ from the deductions proper for the purpose of computing earnings and profits.

(2) * * *

Example (3). On January 1, 1973, corporation X purchased for $10,000 a depreciable asset with an estimated useful life of 20 years and no salvage value. In computing depreciation on the asset, corporation X used the declining balance method with a rate twice the straight line rate. On December 31, 1976, the asset was sold for $9,000. Under section 1016(a)(2), the basis of the asset is adjusted for depreciation allowed for the years 1973 through 1976, or a total of $3,439. Thus, X realizes a gain of $2,439 (the excess of the amount realized, $9,000, over the adjusted basis, $6,561). However, the proper adjustment to basis for the purpose of determining earnings and profits is only $2,000, i.e., the total amount which, under § 1.312-15, was applied in the computation of earnings and profits for the years 1973-76. Hence, upon sale of the asset, earnings and profits are increased by only $1,000, i.e., the excess of the amount realized, $9,000, over the adjusted basis for earnings and profits purposes, $8,000.

* * * * *

PAR. 3. After § 1.312-12, the following sections are added:

§ 1.312-13 [Reserved]

§ 1.312-14 [Reserved]

§ 1.312-15 Effect of depreciation on earnings and profits.

(a) *Depreciation for taxable years beginning after June 30, 1972*—(1) *In general.* Except as provided in subparagraph (2) of this paragraph and paragraph (c) of this section, for purposes of computing the earnings and profits of a corporation (including a real estate investment trust as defined in section 856) for any taxable year beginning after June 30, 1972, the allowance for depreciation (and amortization, if any) shall be deemed to be the amount which would be allowable for such year if the straight line method of depreciation had been used for all property for which depreciation is allowable for each taxable year beginning after June 30, 1972. Thus, for taxable years beginning after June 30, 1972, in determining the earnings and profits of a corporation, depreciation must be computed under the straight line method, notwithstanding that in determining taxable income the corporation uses an accelerated method of depreciation described in subparagraph (A), (B), or (C) of section 312(m)(2) or elects to amortize the basis of property under section 169, 184, 187, or 188, or any similar provision.

(2) *Exception.* (i) If, for any taxable year beginning after June 30, 1972, a

method of depreciation is used by a corporation in computing taxable income which the Secretary or his delegate has determined results in a reasonable allowance under section 167(a) and which is not a declining balance method of depreciation (described in § 1.167(b)-2), the sum of the years-digits method (described in § 1.167(b)-3), or any other method allowed solely by reason of the application of subsection (b)(4) or (j)(1)(C) of section 167, then the adjustment to earnings and profits for depreciation for such year shall be determined under the method so used (in lieu of the straight line method).

(ii) The Commissioner has determined that the "unit of production" (see § 1.167(b)-0(b)), and the "machine hour" methods of depreciation, when properly used under appropriate circumstances, meet the requirements of subdivision (i) of this subparagraph. Thus, the adjustment to earnings and profits for depreciation (for the taxable year for which either of such methods is properly used under appropriate circumstances) shall be determined under whichever of such methods is used to compute taxable income.

(3) *Determinations under straight line method.* (i) In the case of property with respect to which an allowance for depreciation is claimed in computing taxable income, the determination of the amount which would be allowable under the straight line method shall be based on the manner in which the corporation computes depreciation in determining taxable income. Thus, if an election under § 1.167(a)-11 is in effect with respect to the property, the amount of depreciation which would be allowable under the straight line method shall be determined under § 1.167(a)-11(g)(3). On the other hand, if property is not depreciated under the provisions of § 1.167(a)-11, the amount of depreciation which would be allowable under the straight line method shall be determined under § 1.167(b)-1. Any election made under section 167(f), with respect to reducing the amount of salvage value taken into account in computing the depreciation allowance for certain property, or any convention adopted under § 1.167(a)-10(b) or § 1.167(a)-11(c)(2), with respect to additions and retirements from multiple asset accounts, which is used in computing depreciation for taxable income shall be used in computing depreciation for earnings and profits purposes.

(ii) In the case of property with respect to which an election to amortize is in effect under section 169, 184, 187, or 188, or any similar provision, the amount which would be allowable under the straight line method of depreciation shall be determined under the provisions of § 1.167(b)-1. Thus, the cost or other basis of the property, less its estimated salvage value, is to be deducted in equal annual amounts over the period of the estimated useful life of the property. In computing the amount of depreciation for earnings and profits purposes, a taxpayer may utilize the provisions of section 167(f) (relating to the reduction in the amount of salvage value taken into account in computing the depreciation allowance for certain property) and any convention which could have been adopted for such property under § 1.167(a)-10(b) (relating to additions and retirements from multiple asset accounts).

(b) *Transitional rules*—(1) *Depreciation.* If, for the taxable year which includes June 30, 1972, (i) the allowance for depreciation of any property is computed under a method other than the straight line method or a method described in paragraph (a)(2) of this section, and (ii) paragraph (a)(1) of this section applies to such property for the first taxable year beginning after June 30, 1972, then adjustments to earnings and profits for depreciation of such property for taxable years beginning after June 30, 1972, shall be determined as if the corporation changed to the straight line method with respect to such property as of the first day of the first taxable year beginning after June 30, 1972. Thus, if an election under § 1.167(a)-11 is in effect with respect to the property, the change shall be made under the provisions of § 1.167(a)-11(c)(1)(iii), except that no statement setting forth the vintage accounts for which the change is made shall be furnished with the income tax return of the year of change if the change is only for purposes of computing earnings and profits. In all other cases, the unrecovered cost or other basis of the property (less a reasonable estimate for salvage) as of such first day shall be recovered through equal annual allowances over the estimated remaining useful life determined in accordance with the circumstances existing at that time. See paragraph (a)(3)(i) of this section for rules relating to the applicability of section 167(f) in determining salvage value.

(2) *Amortization.* If, for the taxable year which includes June 30, 1972, the basis of any property is amortized under section 169, 184, 187, or 188, or any similar provision, then adjustments to earnings and profits for depreciation or amortization of such property for taxable years beginning after June 30, 1972, shall be determined as if the unrecovered cost or other basis of the property (less a reasonable estimate for salvage) as of the first day of the first taxable year beginning after June 30, 1972, were recovered through equal annual allowances over the estimated remaining useful life of the property determined in accordance with the circumstances existing at that time. See paragraph (a)(3)(ii) of this section for rules relating to the applicability of section 167(f).

(c) *Certain foreign corporations.* Paragraphs (a) and (b) of this section shall not apply in computing the earnings and profits of a foreign corporation for any taxable year for which less than 20 percent of the gross income from all sources of such corporation is derived from sources within the United States.

(d) *Books and records.* Wherever different methods of depreciation are used for taxable income and earnings and profits purposes, records shall be maintained which show the depreciation taken for earnings and profits purposes each year and which will allow computation of the adjusted basis of the property in each account using the depreciation taken for earnings and profits purposes.

§ 1.964 [Amended]

PAR. 4. Section 1.964 is amended by striking out "For purposes of this subpart," and inserting in lieu thereof "Except as provided in section 312(m)(3), for purposes of this subpart" in section 964(a), and by adding "; amended by sec. 442(b)(1), Tax Reform Act 1969 (83 Stat. 628)" immediately after "(76 Stat. 1006)" in the historical note.

PAR. 5. Paragraph (c)(1)(iii) of § 1.964-1 is amended to read as follows:

§ 1.964-1 Determination of the earnings and profits of a foreign corporation.

* * * * *

(c) *Tax adjustments*—(1) *In general.*

* * *

(iii) *Depreciation.* Depreciation shall be computed as follows:

(*a*) For any taxable year beginning before July 1, 1972, depreciation shall be computed in accordance with section 167 and the regulations thereunder.

(*b*) If, for any taxable year beginning after June 30, 1972, 20 percent or more of the gross income from all sources of the corporation is derived from sources within the United States, then depreciation shall be computed in accordance with the provisions of § 1.312-15.

(*c*) If, for any taxable year beginning after June 30, 1972, less than 20 percent of the gross income from all sources of the corporation is derived from sources within the United States, then depreciation shall be computed in accordance with section 167 and the regulations thereunder.

* * * * *

§ 1.1248 [Amended]

PAR. 6. Section 1.1248 is amended by striking out "For purposes of this section," and inserting in lieu thereof "Except as provided in section 312(m)(3), for purposes of this section" in section 1248(c)(1), and by adding "; amended by sec. 442(b)(2), Tax Reform Act 1969 (83 Stat. 628)" immediately after "(76 Stat. 1041)" in the historical note.

[FR Doc.72-20002 Filed 11-20-72;8:50 am]

[T.D. 7223]

PART 1—INCOME TAX; TAXABLE YEARS BEGINNING AFTER DECEMBER 31, 1953

Elimination of Filing Requirement

In order to eliminate the filing requirement for Forms 2950 and 2950SE, relating to employees' pension, etc., plans, the Income Tax Regulations (26 CFR Part 1) under sections 404 and 6033 of the Internal Revenue Code of 1954 are amended as follows:

V37-225 NOV 21 72 XUM

PARAGRAPH 1. Paragraphs (b) and (c) of § 1.404(a)–2A are amended to read as follows:

§ 1.404(a)–2A Information to be furnished by employer; taxable years ending on or after December 31, 1971.

* * * * *

(b) *Forms.* The forms prescribed by this section are:

(1) Form 4848, generally relating to information concerning the qualification of the plan, and deductions for contributions made on behalf of employees or self-employed individuals,

(2) Form 4849, generally relating to the financial position of the trust, fund, or custodial or fiduciary account which is a part of the plan, and

(3) For any taxable year ending on or after December 31, 1971, and before December 31, 1972, Forms 2950 and 2950SE, relating to the identification of plans to which an employer has made a contribution and information with respect to a deduction for a contribution made on behalf of a self-employed individual, respectively.

(c) *Filing requirements.* (1) Form 4848 shall be filed by the employer for each taxable year during which he maintains a pension, annuity, stock bonus, profit-sharing, or other funded plan of deferred compensation. Such form shall be filed on or before the 15th day of the 5th month following the close of the employer's taxable year. For rules relating to the extension of time for filing, see section 6081 and the regulations thereunder and the instructions for Form 4848.

(2) Form 4849 shall be filed by the employer as an attachment to Form 4848 for each taxable year during which he maintains a pension, annuity, stock bonus, profit-sharing, or other funded plan of deferred compensation unless the employer (i) has been notified in writing that Form 4849 will be filed by the fiduciary for such plan as an attachment to Form 990–P or (ii) is not required to file Form 4849 under the instructions relating thereto.

(3) For any taxable year ending on or after December 31, 1971, and before December 31, 1972, Form 2950 shall be filed with the employer's tax return for any such taxable year during which a pension, annuity, stock bonus, profit-sharing, or other funded plan of deferred compensation is maintained.

(4) For any taxable year ending on or after December 31, 1971, and before December 31, 1972, Form 2950SE shall be filed by each self-employed individual with his income tax return for any such taxable year in which he claims a deduction for contributions made on his behalf.

* * * * * *

PAR. 2. Section 1.6033–2(a)(2)(ii)(f) is amended to read as follows:

§ 1.6033–2 Returns by exempt organizations; taxable years beginning after December 31, 1969.

(a) *In general.* * * *

(2) * * *

(ii) * * *

(f) For any taxable year ending on or after December 31, 1971, such information as is required by Forms 4848 and 4849 and, only with respect to any such taxable year ending before December 31, 1972, such information as is required by Form 2950. Such forms are required by this section to be filed by an organization exempt from tax under section 501(a) which is an employer who maintains a funded pension or annuity plan for its employees. See paragraph (g) of this section for exceptions from filing. Form 4849 need not be filed by the organization if the fiduciary for the plan has given written notification to the organization that such form will be filed as an attachment to Form 990–P filed by the fiduciary. Form 4848 (and Form 4849 if required to be filed by the organization) shall be filed as a separate return on or before the due date for Form 990. For rules relating to the extension of time for filing, see section 6081 and the regulations thereunder and the instructions for Form 4848. A central organization which files Form 990 as a group return under paragraph (d) of this section may also file Form 4848 as a group return. The rules provided by paragraph (d) of this section with respect to a group return filed on Form 990 shall apply to a group return filed on Form 4848. Unless otherwise expressly provided therein, an authorization to include a local organization in a group for purposes of filing Form 990 as a group return shall be treated as an authorization to include such local organization in a group for purposes of filing Form 4848 as a group return. A group return on Form 4848 shall be filed in accordance with this section and the instructions to Form 4848 and shall be considered the return of each local organization included therein. In addition to the information required to be furnished by Forms 4848 and 4849, the district director may require any further information that he considers necessary to determine qualification of the plan under section 401 or the taxability under section 403(b) of a beneficiary under an annuity purchased by a section 501(c)(3) organization.

* * * * * *

Because of the need for immediate promulgation of revised forms with respect to provisions contained in this Treasury decision and because such provisions do not adversely affect any taxpayer, it is found impracticable and unnecessary to issue it with notice and public procedure thereon under subsection (b) of section 553 of title 5 of the United States Code or subject to the effective date limitation of subsection (d) of that section.

(Sec. 7805, Internal Revenue Code of 1954, 68A Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: November 15, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

SUBCHAPTER D—MISCELLANEOUS EXCISE TAXES

[T.D. 7218]

PART 53—FOUNDATION EXCISE TAXES

Foreign Private Foundations

Correction

In F.R. Doc. 72–19374 appearing at page 23918 of the issue for Friday, November 10, 1972, in the 22d line of § 53.4948–1(a) insert the phrase "and will be paid annually" immediately following "section 6033 for the taxable year,".

SUBCHAPTER F—PROCEDURE AND ADMINISTRATION

[T.D. 7222]

PART 301—PROCEDURE AND ADMINISTRATION

Notice of Executors or Receivers

In order to revise the regulations on procedure and administration (26 CFR Part 301) under section 6036 of the Internal Revenue Code of 1954, such regulations are amended as follows:

Paragraph (a) of § 301.6036–1 is amended by revising subparagraph (4) (i) and (ii) thereof, and by adding a new subdivision (iii). These amended and added provisions read as follows:

§ 301.6036–1 Notice required of executor or of receiver or other like fiduciary.

(a) *Receivers and other like fiduciaries.* * * *

(4) *Contents of notice*—(i) *Bankruptcy and other proceedings.* * * *

(*b*) The name, address, and, for notices filed after December 21, 1972, the taxpayer identification number of the debtor or other person whose assets are controlled. * * *

(ii) *Assignment for benefit of creditors.* * * *

(*b*) The name, address, and, for notice filed after December 21, 1972, the taxpayer identification number of the debtor whose assets were assigned. * * *

(iii) The notice required by this section shall be sent to the attention of the Chief, Special Procedures Staff, of the district office to which it is required to be sent.

* * * * * *

Because this Treasury decision relates to general rules of procedure or practice, it is found unnecessary to issue this Treasury decision with notice and public procedure thereon under 5 U.S.C. 553(b), or subject to the effective date limitation of 5 U.S.C. 553(d).

(Sec. 7805, Internal Revenue Code of 1954, 68 Stat. 917; 26 U.S.C. 7805)

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

Approved: November 15, 1972.

FREDERIC W. HICKMAN,
Assistant Secretary of the Treasury.

Title 29—LABOR

Chapter XVII—Occupational Safety and Health Administration, Department of Labor

PART 1910—OCCUPATIONAL SAFETY AND HEALTH STANDARDS

Coal Tar Pitch Volatiles

Pursuant to section 8(g) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1600; 29 U.S.C. 657), Part 1910 of Title 29, Code of Federal Regulations, is amended by adding thereto a new § 1910.93b. The new section interprets the term, "coal tar pitch volatiles," as used in § 1910.93 (Table G–1). Although the term suggests that it only refers to the distillation residues of coal, it is considered to include other hydrocarbons with the same chemical composition. The term "coal tar pitch volatiles," thus denotes the complete class of fused polycyclic hydrocarbons which volatilize from the distillation residues of organic matter rather than from the distillation residues of coal alone. Since all of these volatiles have the same basic chemical composition and since all of them present the same dangers to a person's health, the standard prescribed by § 1910.93, is applied to the use of all of them.

Because the amendment is considered an interpretative rule, no notice and public procedure or delay in effective date are provided.

The new § 1910.93b reads as follows:

§ 1910.93b Coal tar pitch volatiles; interpretation of term.

As used in § 1910.93 (Table G–1), coal tar pitch volatiles include the fused polycyclic hydrocarbons which volatilize from the distillation residues of coal, petroleum, wood, and other organic matter.

(Sec. 8(g). 84 Stat. 1600, 29 U.S.C. 657)

Effective date. This amendment shall become effective upon publication in the FEDERAL REGISTER (11–21–72).

Signed at Washington, D.C., this 15th day of November 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

Proposed Rule Making

DEPARTMENT OF THE TREASURY

Bureau of Customs

[19 CFR Part 12]

FOREIGN-MADE PLEASURE BOATS AND EQUIPMENT

Importation and Safety Requirements

Notice is hereby given that under the authority of 5 U.S.C. 301, Revised Statute 251, as amended (19 U.S.C. 66), sections 623, 624, 46 Stat. 759, as amended (19 U.S.C. 1623, 1624), and sections 5, 11, 85 Stat. 215, 217 (46 U.S.C. 1454, 1460), it is proposed to amend Part 12 of the Customs Regulations to reflect and implement those sections of the Coast Guard Regulations (33 CFR Parts 181, 183), which specify safety standards to be imposed upon certain foreign-made pleasure boats imported into the United States after November 1, 1972.

The proposed amendments to the Customs Regulations incorporate certain definitions found in Public Law 92–75, approved August 10, 1971 (section 3, 85 Stat. 214; 46 U.S.C. 1452), and specify entry and general importation procedures and requirements for the subject boats and equipment.

Accordingly, it is proposed to amend Part 12 of the Customs Regulations by the insertion of a new center heading and § 12.85 to read as follows:

SAFETY STANDARDS FOR BOATS AND ASSOCIATED EQUIPMENT

§ 12.85 Coast Guard boat and associated equipment safety standards.

(a) *Applicability of standards prescribed by the Commandant, U.S. Coast Guard.* Boats and associated equipment (as hereinafter defined) are subject to U.S. Coast Guard safety regulations and standards when imported or, under certain conditions, brought into the United States after November 1, 1972. Those regulations and standards are prescribed by the Commandant, U.S. Coast Guard, pursuant to section 5, Federal Boat Safety Act of 1971 (46 U.S.C. 1454), as set forth in 33 CFR Parts 181, 183.

(1) The term "boats" includes:

(i) All vessels manufactured or used primarily for noncommercial use.

(ii) All vessels leased, rented, or chartered to another for the latter's noncommercial use.

(iii) All vessels engaged in the carrying of six or fewer passengers (see section 4.80 of this chapter on prohibitions against foreign vessels transporting passengers in the coastwise trade).

(2) The term "boats" does not include:

(i) Foreign vessels temporarily using waters subject to U.S. jurisdiction.

(ii) Military or public vessels of the United States, except recreational type public vessels.

(iii) A vessel whose owner is a State or subdivision thereof, which is principally used for governmental purposes, and which is clearly identifiable as such.

(iv) Ships' lifeboats.

(3) The term "associated equipment" includes:

(i) Any system, part, or component of a boat as originally manufactured, or a similar part or component manufactured or sold for replacement, repair, or improvement of such system, part, or component.

(ii) Any accessory or equipment for, or appurtenance to, a boat.

(iii) Any marine safety article, accessory, or equipment intended for use by a person on board a boat.

(4) The term "associated equipment" does not include radio equipment.

(5) The term "product" as used in this section, includes the terms "boats" and "associated equipment" as defined in subparagraphs (1) and (3) of this paragraph.

(b) *Prohibition against entry of nonconforming products.* Subject to the provisions of paragraph (d) of this section, no product shall be permitted entry into the United States unless it is in conformity with applicable safety standards in effect at the time of importation.

(c) *Evidence of compliance with general standards as condition of entry.* A product for which entry is sought into the Customs territory of the United States will, subject to the exceptions specified in paragraph (d) of this section, be permitted entry only if accompanied by evidence of compliance with standards as follows:

(1) Products subject to standards prescribed in 33 CFR Part 183 will bear a compliance certification label in accordance with the requirements of Subpart B, 33 CFR Part 181.

(2) Boat hulls subject to Subpart C, 33 CFR Part 181 will bear a hull identification number affixed by the importer or the original manufacturer. The number shall comply with the format requirements of Subpart C, 33 CFR Part 181.

(d) *Products not in compliance with standards: Alternative evidence required as condition of entry and release.* Certain products shall be permitted entry and release without a certificate of compliance or hull identification required by Subparts B and C, 33 CFR Part 181, if they fall within one of the following categories, and if the conditions for entry and release specified for each category of product are met:

(1) *Certain products manufactured before standards.* For certain products manufactured before standards were in force, a declaration will be filed in accordance with the requirements of paragraph (e) of this section. The declaration will state that the product was manufactured on a date when there were no applicable safety standards in force and that the Coast Guard has determined that alteration of the product is not required. If the district director believes that it is necessary in a particular case, he should communicate with the nearest Coast Guard district commander by the most expedient means to ascertain that Coast Guard has made that determination. A verbal declaration is acceptable at the option of the district director for products entering from Canada or Mexico otherwise than by sea.

(2) *Products in conformity and not offered for sale.* In the case of products in conformity but not to be offered for sale, a declaration will be filed in accordance with the requirements of paragraph (e) of this section. The declaration will state that the product is not being imported for sale and will state that it was either manufactured in conformity with applicable safety standards, or it was not manufactured in conformity with applicable safety standards, but has since been brought into conformity. The declaration should be accompanied by a statement of original compliance from the product's manufacturer, or a statement of the firm or person who has brought the product into conformity, which describes the nature and extent of the work performed. If it is not possible to obtain such a statement, the importer or consignee must present a statement identifying the manufacturer who constructed the boat in conformity with the standards, or identifying the firm or person who has brought the product into conformity with the standards and describing the nature and extent of the work performed. Bond for production of a statement under this subparagraph may be accepted in accordance with paragraph (f)(1)(i) of this section.

(3) *Products to be brought into conformity.* In the case of products that are not in conformity at the time of entry but will be brought into conformity, a declaration will be filed in accordance with paragraph (e) of this section. The declaration will state that the product does not conform with applicable safety standards and regulations, but that the importer or consignee will bring the product into conformity with safety standards and regulations, and will also state that the product will not be sold or offered for sale until the bond has been satisfied with respect to this obligation. To secure entry under this provision, bond must be given in accordance with paragraph (f)(1)(ii) of this section.

(4) *Certain products entering the United States for repair or alteration.* In the case of a nonresident of the United States who wishes to enter a product for the purpose of making repairs or alterations to it for a period not exceeding 60 days from the date of entry, a declaration will be filed in accordance with paragraph (e) of this section. The declaration shall state that the importer or consignee is a nonresident of the United States, that the product is being brought in for the purpose of making repairs or alterations to it, and that it will not remain in the Customs territory of the United States for more than 60 days following the date of the entry, and that it will not be sold or used for pleasure purposes in U.S. waters during that time. However, the declaration required by this subparagraph shall be waived for persons regularly entering the United States from Canada or Mexico otherwise than by sea who obtain, by application to the district director, an appropriate means of identification that has been affixed to the boat to serve in place of the declaration.

(5) *Products owned by certain foreign government or international organization personnel.* In the case of an importer or consignee employed in one of the capacities set forth in this subparagraph, a declaration will be filed in accordance with paragraph (e) of this section. The declaration shall state that the importer or consignee is either a member of the armed forces of a foreign country on assignment in the United States, or is a member of the Secretariat of a public international organization so designated pursuant to section 1 of the International Organizations Immunities Act of December 29, 1945 (22 U.S.C. 288), on assignment in the United States, or is a member of the personnel of a foreign government on assignment in the United States who comes within the class of persons for whom free entry of boats has been authorized by the Department of State, and that he is importing the product for purposes other than resale.

(6) *Certain products entered for tests or experimentation.* In the case of an importer or consignee seeking to enter a product, for tests or experimentation for a period not to exceed 1 year, that will not be sold in the United States, a declaration will be filed in accordance with the requirements of paragraph (e) of this section. The declaration will state that the importer or consignee is importing the product solely for the purpose of tests or experiments and it will not be sold or operated in the United States, except where such operation is an integral part of the tests and experiments for which the product was imported. The importer will attach to the declaration a description of the tests and experiments for which the product is being imported, the time period estimated to complete the tests, and the disposition to be made of the product after the tests and experiments are completed. Entry under this subparagraph may be authorized for a period not to exceed 1 year.

(e) *Declaration requirements.* All declarations submitted under paragraph (d) of this section, except verbal declarations submitted pursuant to paragraph (d)(1) of this section, must:

(1) Be filed with the entry, in duplicate.

(2) Be signed by the importer or consignee.

(3) State the name and U.S. address of the importer or consignee.

(4) State the entry number and date.

(5) Provide the make, model, and hull identification number of any boat, and a description of any equipment or component.

(6) Identify, if known, the city or State in which the product will be principally located.

The district director shall immediately forward the original of a declaration to the Commandant, U.S. Coast Guard, 400 Seventh Street SW., Washington, DC 20590.

(f) *Release under bond*—(1) *When bond required.* A bond in the amount prescribed by § 25.4(a) of this chapter will be required of the importer or consignee on Customs Form 7551, 7553, or 7595 in the following cases:

(i) *Failure to produce statement when products in conformity and not offered for sale.* When the importer or consignee of a product alleged to be in conformity and not to be offered for sale seeks entry of the product under paragraph (c)(2) of this section, but is unable to submit the statement under that subparagraph, the entry shall be accepted only if bond is given for the production of a statement in accordance with that subparagraph.

(ii) *When a declaration is made that a product is to be brought into conformity.* When the importer or consignee of a product declares that it will be brought into conformity before being sold or offered for sale, and seeks entry of the product under paragraph (d)(3) of this section, the entry shall be accepted only if bond is given for the production of a statement by either the importer or the consignee that the product described in the declaration is in conformity with applicable safety standards. The statement shall identify the person or firm who has brought the product into conformity with the standards and shall describe the nature and extent of the work performed.

(2) *Time limitation to produce statement for which bond is obligated.* Within 90 days after entry, or any additional period as the district director may allow for good cause shown, the importer or consignee shall deliver to both the district director and the Commandant, U.S. Coast Guard, a copy of the statement for production of which the bond was obligated. If the statement is not delivered to the district director for the port of entry of the product within 90 days after the date of entry or within an additional period allowed by the district director for good cause shown, the importer or consignee shall deliver or cause to be delivered to the district director those products which were released in accordance with this paragraph.

(3) *Damages to be assessed against bond.* In the event that any product is not redelivered within 5 days following the date required by subparagraph (2) of this paragraph, liquidated damages shall be assessed in the full amount of the bond given on Customs Form 7551. When the transaction has been charged against a bond given on Customs Form 7553 or 7595, liquidated damages shall be assessed in the amount that would be demanded under the preceding sentence if the merchandise had been released under a bond given on Customs Form 7551.

(g) *Merchandise refused entry.* If a product is denied entry under the provisions of this section, the district director shall refuse to release the merchandise for entry into the United States and shall issue a notice of the refusal to the importer or consignee.

(h) *Disposition of merchandise refused entry into the United States; redelivered merchandise.* Products which are denied entry under paragraph (b) or (c) of this section, or which are redelivered in accordance with paragraph (f)(2) of this section, and which are not exported under Customs supervision within 90 days from the date of notice of refusal of admission or date of redelivery, shall be disposed of under Customs laws and regulations. However, no such disposition shall result in an introduction into the United States of a product in violation of the Federal Boat Safety Act of 1971 (46 U.S.C. 1450–1489).

(Sec. 623, 46 Stat. 759, as amended, secs. 5, 11, 84 Stat. 215, 217, secs. 6, 7, 15, 85 Stat. 216, 219; 19 U.S.C. 1623, 46 U.S.C. 1454, 1455, 1456, 1460, 1464)

Data, views, or arguments with respect to the foregoing proposal may be addressed to the Commissioner of Customs, Attention: Regulations Division, Washington, D.C. 20226. To ensure consideration of those communications, they must be received in the Bureau of Customs not later than 15 days from the date of publication of this notice in the FEDERAL REGISTER.

Written material or suggestions submitted will be available for public inspection in accordance with § 103.3(b) of the Customs Regulations (19 CFR 103.3(b)), at the Regulations Division, Bureau of Customs, Washington, D.C., during regular business hours.

[SEAL] LEONARD LEHMAN,
Acting Commissioner of Customs.

Fiscal Service

[31 CFR Part 205]

FEDERAL GRANTS AND OTHER PROGRAMS

Funding; Letters of Credit

The Department of the Treasury finds that it is necessary to amend, by a complete revision, its existing regulations governing the withdrawal of cash from the Treasury for advances under Federal grant and other programs at 31 CFR Part 205 (also appearing as Department Circular 1075, 2d Revision). The primary reasons include the need for authorizing and fostering the use of the single letter of credit to replace numerous letters from the same Federal program agencies in favor of the same recipient organizations and to direct such agencies to require funding on a reimbursable basis or working capital basis for the operations of recipient organizations which prematurely draw on grant funds available by letter of credit or Treasury checks.

Accordingly, notice is hereby given pursuant to 5 U.S.C. 553 that the Secretary of the Treasury is considering the revision effective December 15, 1972, under authority of 5 U.S.C. 301 and 42 U.S.C. 4213, of Part 205, Subchapter A, Chapter II of Title 31 of the Code of Federal Regulations, so as to read:

PART 205—WITHDRAWAL OF CASH FROM THE TREASURY FOR ADVANCES UNDER FEDERAL GRANT AND OTHER PROGRAMS

Sec.

205.1 Purpose.
205.2 Scope of regulations.
205.3 General policy.
205.4 Treasury check.
205.5 Letter of credit.
205.6 Secondary recipients.
205.7 Termination of advance methods of financing grant programs.
205.8 Single letter of credit.
205.9 Responsibility of program agencies.
205.10 Implementing instructions.
205.11 Waivers.

AUTHORITY: The provisions of this Part 205 issued under 5 U.S.C. 301 and sec. 203, 82 Stat. 1101, 42 U.S.C. 4213.

SOURCE: The provisions of this part contained in Department Circular 1075, 3d Revision, 37 F.R. ----, Dec. --, 1972.

§ 205.1 Purpose.

Federal grant and other programs involving advances to various organizations outside the Federal Government constitute a significant portion of the Federal budget. Advances of cash from the Treasury to such organizations (hereinafter called recipient organizations) for the purpose of financing their current operations under the Federal programs have a substantial impact on Treasury financing costs and the level of the public debt. The purpose of this part is to prescribe the timing of such advances and the procedures to be observed to assure that cash withdrawals from the Treasury occur only when essential to meet the needs of a recipient organization for its actual disbursements.

§ 205.2 Scope of regulations.

(a) The regulations in this part cover disbursement practices for all cash advances to recipient organizations (including States and local governments, educational institutions, international organizations, and any other public and private organizations) under Federal grant or other programs. The regulations also establish guidelines to be observed by Federal program agencies with respect to their responsibilities in executing grant and other programs, including their review of recipient organization practices in obtaining cash advances by drawing on letters of credit and otherwise. Coverage applies to any Federal program requiring advances to finance the recipient organization's activities in carrying out the program, whether by contract, grant, contribution, or other form of agreement. Although these regulations are not generally applicable to loan programs, the letter-of-credit method described in § 205.5 should be considered by program agencies for application to loans carrying interest rates which are lower than Treasury borrowing rates.

(b) These regulations are not intended to apply to Government disbursements made to reimburse an organization for work already performed and financed with the organization's own working capital. However, these regulations do apply to reimbursable grant programs involving nonprofit organizations participating in the single letter-of-credit funding system as outlined in § 205.8. Any other specific application of features of these regulations to reimbursement payments will be considered by the Department of the Treasury if requested by a program agency.

§ 205.3 General policy.

Regardless of the particular method used, advances to a recipient organization shall be limited to the minimum amounts needed and shall be timed to be in accord only with the actual, immediate cash requirements of the recipient organization in carrying out the purpose of the approved program or project. The timing and amount of cash advances shall be as close as is administratively feasible to the actual disbursements by the recipient organization for direct program costs and the proportionate share of any allowable indirect costs.

§ 205.4 Treasury check.

When the annual advance to a recipient organization is less than $250,000 or if the annual advance to a recipient organization aggregates more than $250,000 but there is not a continuing relationship for at least 1 year, the advance shall ordinarily be made by Treasury check. Advances by Treasury check shall be made only in amounts necessary to meet current disbursement needs. Program agencies shall schedule advances made by Treasury check so that the funds are available to the recipient organization only immediately prior to their disbursement by the organization. Therefore, if disbursements are made by the recipient organization on a monthly, biweekly, or any other regular cycle, and the amounts involved would so warrant, the issuance of Treasury checks shall be similarly timed.

§ 205.5 Letter of credit.

(a) If a program agency has, or expects to have a continuing relationship with a recipient organization for at least 1 year, involving annual advances aggregating at least $250,000, the agency shall use the letter-of-credit method.

(b) This method provides program agencies, recipient organizations, and the Department of the Treasury with mechanics specifically designed to enable a recipient organization to obtain cash from Treasury promptly and with such frequency as may be necessary based upon its own determination of when and how much is actually needed for its disbursements.

(c) A letter of credit, which must be executed by an authorized certifying officer of the program agency concerned, gives the recipient organization the authority to draw directly on the Treasury, through its commercial bank (acting as its agent) and either a Federal Reserve Bank (acting as agent of the Treasury) or the Cash Division, Office of the Treasurer of the United States, subject to any monetary and other limits established by the program agency. Withdrawals must be made by authorized officials of the recipient organization designated by it and approved by the program agency's certifying officer.

(d) A letter of credit is irrevocable (the equivalent of cash available to the recipient organization) to the extent the recipient organization has obligated funds in good faith thereunder in executing the authorized Federal program in accordance with the grant, contract, or other agreement.

(e) Use of letters of credit shall be covered by a clause in the grant, contract, or other financing agreement whereby the recipient organization commits itself to (1) the practice of initiating cash drawdowns only when actually needed for its disbursements, (2) the timely reporting of cash disbursements and balances as required by the program agency, and (3) the imposition of the same standards of timing and amount upon any secondary recipients including the furnishing of reports of cash disbursements and balances, with the understanding that failure to adhere to these provisions may cause the unobligated portion of the letter of credit to be revoked by the program agency or by the Department of the Treasury. As provided for in Attachment G of OMB Circular A-102, the financial management system of the recipient organization shall provide for effective control over and accountability for all Federal funds.

(f) Drawdowns shall not ordinarily be made more frequently than daily, or be in amounts less than $10,000 or more than $1 million, but in no case more than $5 million unless so stated on the letter of credit.

(g) Since the letter-of-credit method enables the recipient organization to withdraw cash from the Treasury concurrently with and as frequently as disbursements are made by the recipient, there need be no time lag between drawdowns from the Treasury and disbursements by the recipient organization. Therefore, there is no necessity for the recipient organization to maintain balances of Federal cash other than the small balances necessary to accommodate the minimum limitation on individual drawdowns as provided for in paragraph (f) of this section and to provide for an element of bank float.

(h) In general, agreements shall provide for a recipient organization to initiate each drawdown at approximately the same time that checks are issued by the organization in payment of program liabilities, including those for allowable indirect costs, and in an amount approximately equal to the Federal share of such payments. In order to take advantage of the float on checks outstanding, program agencies wherever possible should arrange for recipient organizations to delay drawdowns on letters of credit until after the checks issued for program disbursements have been forwarded to the payees.

(i) In specific instances, as determined mutually by the Department of the Treasury and the program agency, a recipient organization may be requested to authorize its commercial bank to draw on a letter of credit in its behalf when checks issued by the recipient organization (covering disbursements of Federal funds) are presented to the bank for payment.

§ 205.6 Secondary recipients.

(a) Advances made by primary recipient organizations (those which receive payments directly from the Federal Government) to secondary recipients shall conform substantially to the same standards of timing and amount as apply to advances by Federal agencies to primary recipient organizations.

(b) Federal program agencies should encourage primary recipient organizations to develop procedures, similar to the Federal letter of credit, whereby secondary recipients can draw on the primary recipient as funds are needed for disbursement, in lieu of the primary organization advancing funds to the secondary recipient organization.

§ 205.7 Termination of advance methods of financing grant programs.

(a) When a recipient organization receiving advances by a letter of credit or by Treasury check has demonstrated to a program agency an unwillingness or inability to establish procedures that will minimize the time elapsing between advances and the disbursement thereof, the program agency, if permitted by the statutes governing the grant(s) in question, shall require the recipient organization to finance its operations with its own working capital, and payments to the recipient organization shall be made by Treasury check to reimburse it for actual cash disbursements. Program agencies shall process such reimbursements expeditiously so as to minimize the time elapsing between disbursement by and payment to the recipient organization.

(b) In those cases when the reimbursement method described in paragraph (a) of this section is not feasible, arrangements may be made whereby the operations of the recipient organization are financed on a working capital advance basis. On this basis, funds may be advanced to the recipient organization to cover its estimated disbursement needs for a given initial period. Thereafter, the recipient organization would be reimbursed for the amount of its actual cash disbursements. The amount of the initial advance shall be geared to the reimbursement cycle so that after the initial period the advance approximately equals the average amount of the recipient organization's unreimbursed program payments.

§ 205.8 Single letter of credit.

(a) The single letter of credit is basically the replacement of numerous letters of credit held by a recipient organization with one letter of credit administered centrally. It provides the mechanics for a single flow of funds between the Federal Government and the particular recipient organization.

(b) Each Federal program agency should work toward the objective of establishing a single letter of credit with each State government. As a first step, each program agency should consolidate its own internal procedures to provide for a single letter of credit being issued to each State to fund all the programs of that Federal agency as a whole. In addition, each program agency should join with the Department of the Treasury in efforts to achieve a single letter of credit from the Federal Government as a whole to each of the States.

(c) When a single letter of credit is established with a State, Federal program agencies may include in the single letter of credit, subject to the provisions of paragraph (d) of this section, reimbursable grant programs and also smaller grant programs which do not meet the $250,000 yearly limitation otherwise required in the use of letters of credit.

(d) The implementation of a single letter of credit with a State shall first be approved by Treasury and must be covered by a written agreement whereby the State obligates itself to the provisions outlined in § 205.5(e). The agreement must also indicate that the Department of the Treasury reserves the right to revoke the letter of credit in the event of noncompliance with any of these provisions.

(e) If requested by a program agency, the Department of the Treasury will consider extension of the single letter of credit to include recipient organizations other than State governments.

(f) The single letter of credit is a significant step in the simplification of Federal grant-in-aid funding and provides for a more effective means of administering the letter-of-credit method of funding grant-in-aid programs. The single letter of credit, as designed, will minimize the cash flow from Treasury with substantial savings and will facilitate sound cash management principles on the part of the recipient organizations.

§ 205.9 Responsibility of program agencies.

Regardless of the particular method used to advance funds, the program agency is responsible for (a) making such reviews of the financial practices of recipient organizations, both primary and secondary, as are necessary to insure that the provisions of this Part 205 are being complied with, and (b) instituting such remedial measures as may be necessary in the event that a recipient organization demonstrates its unwillingness or inability to comply with these provisions. Implementing procedures of program agencies shall specify the methods employed to carry out these responsibilities. Also, each program agency shall furnish the Department of the Treasury with reports, semiannually, showing cash balances in the hands of the recipient organizations as of each June 30 and December 31.

§ 205.10 Implementing instructions.

Implementing procedural requirements under this part will be promulgated by the Commissioner of Accounts in the Treasury Fiscal Requirements Manual for Guidance of Departments and Agencies.

§ 205.11 Waivers.

Any waivers of provisions of this part previously granted to program agencies are hereby revoked. Requests for waivers of specific provisions of this part shall be presented in writing to the Commissioner of Accounts.

Prior to adoption of the proposed revision, consideration will be given to any data, views, or arguments submitted to the Commissioner of Accounts, U.S. Department of the Treasury, Washington, D.C. 20226, and received not later than 30 days from the date of the publication of this notice in the FEDERAL REGISTER.

Dated: November 15, 1972.

[SEAL] JOHN K. CARLOCK,
Fiscal Assistant Secretary.

Attention: CC:LR:T, Washington, D.C. 20224, by January 20, 1973. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by January 20, 1973. In such case, a public hearing will be held, and notice of the time, place, and date, will be published in a subsequent issue of the FEDERAL REGISTER, unless the person or persons who have requested a hearing withdraw their requests for a hearing before notice of the hearing has been filed with the Office of the Federal Register. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to clarify the Income Tax Regulations (26 CFR Part 1) under sections 451 and 471 of the Internal Revenue Code of 1954, such regulations are amended as follows:

PARAGRAPH 1. Section 1.451-3 is amended to read as follows:

§ 1.451-3 Long-term contracts.

(a) *In general.* (1) Income from a long-term contract (as defined in paragraph (b)(1) of this section) may be included in gross income in accordance with one of the two long-term contract methods, namely, the percentage of completion method (as described in paragraph (c) of this section) or the completed contract method (as described in paragraph (d) of this section), if the method chosen clearly reflects income. Whichever method is chosen, it must be applied consistently to all long-term contracts within the same trade or business except that a taxpayer who has long-term contracts (as defined in paragraph (b)(1) of this section) of substantial duration and long-term contracts of less than substantial duration in the same trade or business may report the income from all the contracts of substantial duration on the same long-term contract method, and report the income from the contracts of less than substantial duration pursuant to another proper method of accounting. For example, if a manufacturer of heavy machinery has special-order contracts of a type that generally take 15 months to complete and also has contracts of a type that generally take 3 months to complete, the manufacturer may use a long-term contract method for the 15-month contracts and a proper inventory method pursuant to section 471 and the regulations thereunder for the 3-month contracts.

(2) When a taxpayer reports income under the percentage of completion method or the completed contract method, a statement to that effect shall be attached to his income tax return.

(3) The percentage of completion method and the completed contract method apply only to the accounting for income and expenses attributable to long-term contracts. Other income and expense items, such as investment income or expenses not attributable to such contracts, shall be accounted for under a proper method of accounting. See sections 446(c) and 1.446-1(c).

(b) *Definitions.* (1) (i) Except as provided in subdivision (ii) of this subparagraph, the term "long-term contract" means a building, installation, construction, or manufacturing contract, which is not completed within the taxable year in which it is entered into.

(ii) Notwithstanding subdivision (i) of this subparagraph, a manufacturing contract is a "long-term contract" within the meaning of this subparagraph only if such contract involves the manufacture of: (*a*) Unique items of a type which is not normally carried in the finished goods inventory of the taxpayer, or (*b*) items which normally require more than 12 calendar months to complete (regardless of the duration of the actual contract). Thus, for example, a contract to manufacture a unit of industrial machinery specifically designed for the needs of a customer and not normally carried in the taxpayer's inventory or a contract to manufacture machinery which will require more than 12 calendar months to complete are long-term contracts within the meaning of this subparagraph; however, a contract to manufacture 15,000 folding chairs which take 3 days each to manufacture is not a long-term contract within the meaning of this subparagraph even though it takes more than 12 calendar months to manufacture all 15,000 chairs and the contract is not completed within the taxable year it is entered into.

(2) For purposes of this section, a long-term contract ordinarily will not be considered "completed" until final completion and acceptance have occurred. Nevertheless, a taxpayer may not delay the completion of a contract for the principal purpose of deferring Federal income tax. However, see paragraph (d)(1) of this section for the treatment of disputes existing on or after tender of the subject matter of the long-term contract.

(3) "Costs which are properly associated with a long-term contract" shall be determined by applying the principles of § 1.471-11 (a), (b), and (c) [to be proposed ----------]. "Costs which are properly associated with a long-term contract" do not include costs incurred with respect to any guarantee, warranty, maintenance, or other service agreement, relating to the subject matter of the long-term contract.

(c) *Percentage of completion method.* (1) Under the percentage of completion method, the portion of the gross contract price which corresponds to the percentage of the entire contract which has been completed during the taxable year must be included in gross income for such taxable year.

(2) The determination of the percentage of completion of a contract generally may be made on either of the following methods:

(i) By comparing the costs incurred with respect to the contract as of the end of the taxable year with the estimated total costs, or

(ii) By comparing the work performed on the contract as of the end of the taxable year with the estimated total work to be performed.

In determining the percentage of completion pursuant to subdivision (i) of this subparagraph with respect to a long-term contract, a taxpayer may use any method of cost comparisons (such as comparisons of total direct and indirect costs incurred to date to estimated total direct and indirect costs, of total direct costs incurred to date to estimated total direct costs, or of direct labor costs incurred to date to estimated total direct labor costs) so long as such method is used consistently with respect to such contract and such method clearly reflects income. In determining the percentage of completion pursuant to subdivision (ii) of this subparagraph, the criteria used to compare the work performed on a contract as of the end of the taxable year with the estimated total work to be performed must clearly reflect the earning of income with respect to the contract. Thus, for example, in the case of a roadbuilder, a standard of completion based solely upon miles of roadway completed in a case where the terrain is substantially different with respect to roadway completed during one taxable year as compared with roadway completed during another taxable year may not clearly reflect the earning of income with respect to the contract. If the method described in subdivision (ii) of this subparagraph is used, certificates of architects or engineers or other appropriate documentation showing the percentage of completion of each contract during the taxable year must be available at the principal place of business of the taxpayer for inspection in connection with an examination of the income tax return.

(3) Under the percentage of completion method, all costs which are properly associated with a long-term contract (determined pursuant to paragraph (b)(3) of this section) incurred during the taxable year in connection with the contract (account being taken of the material and supplies on hand at the beginning and the endi of the taxable year for use in the contract) must be deducted.

(d) *Completed contract method*—(1) *In general.* Except in cases to which subparagraph (2) of this paragraph applies, under the completed contract method, gross income derived from long-term contracts must be reported by including the gross contract price of each contract in gross income for the taxable year in which such contract is completed (as defined in paragraph (b)(2) of this section). All costs which are properly associated with a long-term contract (determined pursuant to paragraph (b)(3) of this section) must be deducted from gross income for the taxable year in which the contract is completed. In addition, account must be taken of any material and supplies charged to the contract but remaining on hand at the time of completion.

(2) *Contracts with disputes.* (i) This subparagraph applies in any case where, on or after a taxpayer tenders the subject matter of a long-term contract, a dispute exists with respect to the work to be performed or the price to be paid under such contract. Any item of income or deduction which is properly associated with such contract and which is not included in or deducted from gross income in a prior taxable year pursuant to subdivisions (ii), (iii), (iv), or (v) of this subparagraph shall be included in or deducted from gross income in the taxable year in which the dispute is resolved.

(ii) If such dispute affects so much of the contract price that it is not possible to determine whether a profit or loss will ultimately be realized on such contract, then no item of income or deduction which is properly associated with such contract shall be included in or deducted from gross income in the taxable year in which such contract is completed (without regard to such dispute).

(iii) In all other cases, the entire amount of the gross contract price reduced by an amount equal to the amount reasonably in dispute shall be included in gross income in the taxable year in which such contract is completed (without regard to the dispute).

(iv) If the taxpayer is assured of a profit on such contract regardless of the outcome of the dispute, then all costs which are properly associated with such contract and which have been incurred prior to the end of the taxable year in which such contract is completed (without regard to the dispute) shall be deducted in such year.

(v) If the taxpayer is assured of a loss on such contract regardless of the outcome of the dispute, then there shall be deducted in the taxable year in which such contract is completed (without regard to the dispute) the total amount of costs properly associated with such contract which are incurred prior to end of such year reduced by the amount referred to in subdivision (iii) of this subparagraph which is reasonably in dispute. All other costs which are properly associated with such contract shall be deducted in the taxable year in which incurred.

(vi) For purposes of this paragraph, where there is additional work to be performed with respect to a contract in dispute, the term "taxable year in which the dispute is resolved" means the taxable year in which such work is completed rather than the taxable year in which the outcome of the dispute is determined by agreement, decision, or otherwise.

(3) *Examples.* The application of subparagraph (2) of this paragraph may be illustrated by the following examples:

Example (1). X, a calendar year taxpayer utilizing the completed contract method of accounting, constructs a building for Y pursuant to a long-term contract. According to the terms of the contract, the gross contract price is $2 million. X finishes construction of the building in 1972 at a cost of $1,900,000. Y examines the building and is dissatisfied with the construction. He demands either alterations or a $500,000 reduction in the gross contract price. This dispute affects so much of the contract price that X is unable to determine whether a profit or a loss will ultimately be realized on such contract. Accordingly, pursuant to subparagraph (2) of this paragraph, X does not include any portion of the gross contract price in gross income and does not deduct any costs which are properly associated with the contract until the taxable year in which the dispute is resolved.

Example (2). A, a calendar year taxpayer utilizing the completed contract method of accounting, constructs a bridge for B pursuant to a long-term contract. The terms of the contract provide for a $10 million gross contract price. A finishes construction of the bridge in 1972 at a cost of $9,500,000. When B examines the bridge, he insists that either certain girders be repainted or that the contract price be reduced $100,000. Since under the terms of the contract, A would be assured of a profit of at least $400,000 ($10,000,000—[$9,500,000+$100,000]) even if the dispute were resolved unfavorably to A, $9,900,000 ($10,000,000—$100,000 in dispute) of the gross contract price must be included in A's gross income in 1972 and $9,500,000 of costs must be deducted from A's gross income in 1972 pursuant to subparagraph (2) of this paragraph. In 1973 A and B resolve the dispute. A repaints certain girders at a cost to A of $60,000, and A and B agree that the contract price is not to be reduced. In 1973 A must include $100,000 ($10,000,000—$9,900,000) in gross income and must deduct $60,000 from gross income.

Example (3). M, a calendar year taxpayer utilizing the completed contract method of accounting, constructs a plant for N pursuant to a long-term contract. Under the terms of the contract M is entitled to receive $1 million upon completion of the plant. M finishes construction of the plant in 1973 at a cost of $1,200,000. N examines the plant and determines that an elevator operates unsatisfactorily and insists that M either replace the elevator or that the contract price be reduced $100,000. Under the terms of the contract M would be assured of a loss of at least $200,000 ($1,200,000—$1,000,000) even if the dispute were resolved in favor of M. Pursuant to subparagraph (2) of this paragraph, M must include $900,000 ($1,000,000—$100,000) in gross income for 1973 and must deduct $1,100,000 ($1,200,000—$100,000) from gross income in 1973. In 1974 the dispute is resolved, and M replaces certain components of the elevator at a cost of $50,000. M must include $100,000 ($1,000,000—$900,000) in gross income for 1974 and must deduct $150,000 ($100,000 of previously undeducted costs plus $50,000 of additional costs) from gross income in 1974.

Example (4). Assume the same facts as in Example (3) except that N is insisting that the contract price be reduced by $100,000 because an elevator has insufficient capacity and that in 1974 the dispute is resolved by a reduction in the gross contract price of $40,000 (from $1 million to $960,000). By the end of 1973, M is assured of a loss of at least $200,000 ($1,200,000—$1,000,000) under the terms of the contract even if the dispute were resolved in favor of M. Pursuant to subparagraph (2) of this subparagraph, M must include in gross income for 1973 $900,000 ($1,000,000—$100,000) and must deduct from gross income in such year $1,100,000 ($1,200,000—$100,000). In 1974, when the dispute is resolved, M must include $60,000 ($960,000—$900,000) in gross income and must deduct $100,000 ($1,200,000—$1,100,000) from gross income.

(e) *Severing and aggregating contracts.* (1) For the purpose of clearly reflecting income, it may be necessary in some instances either to treat one agreement as several contracts or to treat several agreements as one contract. Whether an agreement should be so severed or several agreements so aggregated will depend on all the facts and circumstances. Generally, one agreement will not be treated as several contracts unless such agreement contemplates separate delivery or separate acceptance of portions of the subject matter of the contract or unless there is no business purpose for entering into one agreement rather than several agreements. Several agreements will not generally be aggregated unless the several agreements would be treated as one contract under customary commercial practice in a taxpayer's trade or business or unless there is no business purpose for entering into several agreements rather than one agreement. An example of a factor which is evidence that two contracts entered into between the same parties should be aggregated is that one of the contracts would not have been entered into containing the terms agreed upon but for the entering into of the other contract.

(2) The application of this paragraph may be illustrated by the following examples:

Example (1). X, a calendar year taxpayer engaged in the construction business and using a long-term contract method, enters into one contract in 1972 with A, a real estate developer, to build three houses of different designs in three suburbs of a large city. The houses are to be completed, accepted, and put into service in 1973, 1974, and 1975. The portion of the total contract price attributable to each house can reasonably be determined. In these circumstances, the contract should be severed and treated as if the agreement to build each house were a separate contract for purposes of applying X's long-term contract method.

V 37 • 225 NOV 21 72 XUM

Example (2). Y, a calendar year shipbuilder using a long-term contract method, enters into two contracts at about the same time during 1972 with M. These contracts are the product of a single negotiation. Under each contract, the taxpayer is to construct for M a submarine of the same class. Although the specifications for each submarine are similar, it is anticipated that, since the taxpayer has never constructed this class of submarine before, the costs incurred in constructing the first submarine (to be delivered in 1973) will be substantially greater than the costs incurred in constructing the second submarine (to be delivered in 1974). If the contracts are treated as separate contracts, it is estimated that the first contract would result in little or no gain, while the second contract would result in substantial profits. It is unlikely that Y would have entered into the contract to construct the first submarine for the price specified without entering into the contract to construct the second submarine. In these circumstances, the two contracts must be treated as one contract for purposes of applying Y's long-term contract method.

(f) *Changing to or from a long-term method of accounting.* A taxpayer may change to or from the percentage of completion method or the completed contract method only with the consent of the Commissioner. See section 446(e) and § 1.446–1(e).

PAR. 2. Section 1.451–5 is amended by revising paragraph (b), by revising that part of paragraph (c)(1)(i) that precedes (*b*), by revising paragraph (c)(1)(ii), (2), and (3), by revising paragraphs (d), (e), and (f), and by adding a new paragraph (g). These amended and added provisions read as follows:

§ 1.451–5 Advance payments for goods and long-term contracts.

* * * * *

(b) *Taxable year of inclusion.* (1) Advance payments may be included in income:

(i) In the taxable year of receipt; or

(ii) Except as provided in paragraph (c) of this section,

(*a*) In the taxable year in which properly accruable under the taxpayer's method of accounting for tax purposes if such method results in including advance payments in gross receipts no later than the time such advance payments are included in gross receipts for purposes of all of his reports (including consolidated financial statements) to shareholders, partners, beneficiaries, other proprietors, and for credit purposes, or

(*b*) If the taxpayer's method of accounting for purposes of such reports results in advance payments (or any portion of such payments) being included in gross receipts earlier than for tax purposes, in the taxable year in which includable in gross receipts pursuant to his method of accounting for purposes of such reports.

(2) This paragraph may be illustrated by the following examples:

Example (*1*). S, a retailer who uses for tax purposes and for purposes of the reports referred to in subparagraph (1)(ii)(*a*) of this paragraph, an accrual method of accounting under which it accounts for its sales of goods when the goods are shipped, receives advance payments for such goods. Such advance payments may be included in gross receipts for tax purposes in the taxable year such goods are shipped (except as provided in paragraph (c) of this section).

Example (*2*). T, an aircraft manufacturer, is a calendar year taxpayer who uses the percentage of completion method for purposes of its financial reports (referred to in subparagraph (1)(ii)(*a*) of this paragraph) and an accrual-shipments method (under which the income is accrued when, and costs are accumulated until, the subject matter of the contract is shipped) for tax purposes. In 1974, T receives an advance payment of $1,000 from X with respect to an airplane to be manufactured for X for a total price of $2,000. The airplane is to be delivered in 1975. At the end of 1974, T determines that the airplane has been 30 percent completed and includes $600 in gross income for purposes of its financial reports. As a result of this contract, T must include $600 in its gross income for tax purposes in 1974 pursuant to subparagraph (1)(ii)(*b*) of this paragraph. In 1975, the airplane is completed and shipped to X. T includes $1,400, the remainder of the contract price, in gross income for 1975 for purposes of his financial reports. As a result of this contract, for tax purposes T must include in gross income in 1975 the balance of the advance payment, $400, plus the remaining $1,000 of the contract price.

(3) In the case of a taxpayer accounting for advance payments for tax purposes pursuant to a long-term contract method of accounting under § 1.451–3, advance payments shall be included in income in the taxable year in which properly included in gross receipts pursuant to such long-term contract method of accounting (without regard to the financial reporting requirement contained in subparagraph (1)(ii)(*a*) or (*b*) of this paragraph).

(4) The financial reporting requirement of subparagraph (1)(ii)(*a*) or (*b*) of this paragraph shall not be construed to prevent the use of the installment method under section 453. See § 1.446–1(c)(1)(ii).

(c) *Exception for inventoriable goods.* (1)(i) If a taxpayer receives an advance payment in a taxable year with respect to an agreement for the sale of goods properly includable in his inventory, or with respect to an agreement (such as a gift certificate) which can be satisfied with goods or a type of goods that cannot be identified in such taxable year, and on the last day of such taxable year the taxpayer—

(*a*) Is accounting for advance payments pursuant to a method described in paragraph (b)(1)(ii) of this section for tax purposes.

* * * * *

(ii) If advance payments are required to be included in income in a taxable year solely by reason of subdivision (i) of this subparagraph, the taxpayer must take into account in such taxable year the costs and expenditures included in inventory at the end of such year with respect to such goods (or substantially similar goods) on hand or, if no such goods are on hand by the last day of such second taxable year, the estimated cost of goods necessary to satisfy the agreement.

* * * * *

(2) If subparagraph (1)(i) of this paragraph is applicable to advance payments received with respect to an agreement, any advance payments received with respect to such agreement subsequent to such second taxable year must be included in gross income in the taxable year of receipt. To the extent estimated costs of goods are taken into account in a taxable year pursuant to subparagraph (1)(ii) of this paragraph, such costs may not again be taken into account in another year. In addition, any variances between the costs or estimated costs taken into account pursuant to subparagraph (1)(ii) of this paragraph and the costs actually incurred in fulfilling the taxpayer's obligations under the agreement must be taken into account as an adjustment to the cost of goods sold in the year the taxpayer completes his obligations under such agreement.

(3) For purposes of subparagraph (1) of this paragraph, a taxpayer will be considered to have received "substantial advance payments" with respect to an agreement by the last day of a taxable year if the advance payments received with respect to such agreement during such taxable year plus the advance payments received prior to such taxable year pursuant to such agreement, equal or exceed the total costs and expenditures reasonably estimated as includible in inventory with respect to such agreement. Advance payments received in a taxable year with respect to an agreement (such as a gift certificate) under which the goods or type of goods to be sold are not identifiable in such year shall be treated as "substantial advance payments" when received.

* * * * *

(d) *Information schedule.* If a taxpayer accounts for advance payments pursuant to paragraph (b)(1)(ii) of this section, he must attach to his income tax return for each taxable year to which such provision applies an annual information schedule reflecting the total amount of advance payments received in the taxable year, the total amount of advance payments received in prior taxable years which has not been included in gross income before the current taxable year, and the total amount of such payments received in prior taxable years which has been included in gross income for the current taxable year.

(e) *Adoption of method.* (1) For taxable years ending on or after December 31, 1969, and before January 1, 1971, a taxpayer (even if he has already filed an income tax return for a taxable year ending within such period) may secure the consent of the Commissioner to change his method of accounting for such year to a method prescribed in paragraph (b)(1)(ii) of this section in the manner prescribed in section 446 and the regulations thereunder, if an application to secure such consent is filed on Form 3115 within 180 days after March 23, 1971.

(2) A taxpayer who is already reporting his income in accordance with a method prescribed in paragraph (b)(1)(ii)(*a*) of this section need not secure

the consent of the Commissioner to continue to utilize this method. However, such a taxpayer, for all taxable years ending after March 23, 1971, must comply with the requirements of paragraphs (b)(1)(ii)(*a*) (including the financial reporting requirement) and (d) (relating to an annual information schedule) of this section.

(f) *Cessation of taxpayer's liability.* If a taxpayer has adopted a method prescribed in paragraph (b)(1)(ii) of this section, and if in a taxable year the taxpayer dies, ceases to exist in a transaction other than one to which section 381(a) applies, or his liability under the agreement otherwise ends, then so much of the advance payment as was not includible in his gross income in preceding taxable years shall be included in his gross income for such taxable year.

(g) *Special rule for certain transactions concerning natural resources.* A transaction which is treated as creating a mortgage loan pursuant to section 636 and the regulations thereunder rather than as a sale shall not be considered a "sale or other disposition" within the meaning of paragraph (a)(1) of this section. Consequently, any payment received pursuant to such a transaction, which payment would otherwise qualify as an "advance payment", will not be treated as an "advance payment" for purposes of this section.

PAR. 3. There is inserted immediately after § 1.471–9 the following new section:

§ 1.471–10 Applicability of long-term contract methods.

For optional rules providing for application of the long-term contract methods to certain manufacturing contracts, see § 1.451–3.

[26 CFR Part 1]

INCOME TAX

Requirements for Reporting Certain Information on Forms W–3, W–2, 1096, 1099, and 1042S

Notice is hereby given that the regulations with respect to the requirement for reporting certain information with respect to employees on Forms W–3 and W–2 which were published in tentative form with a notice of proposed rule making in the FEDERAL REGISTER for January 31, 1967 (32 F.R. 1091), are withdrawn and that the regulations set forth in tentative form below are proposed to be prescribed by the Commissioner of Internal Revenue, with the approval of the Secretary of the Treasury or his delegate. Prior to the final adoption of such regulations, consideration will be given to any comments or suggestions pertaining thereto which are submitted in writing (preferably six copies) to the Commissioner of Internal Revenue, Attention: CC:LR:T, Washington, D.C. 20224, by December 21, 1972. Any written comments or suggestions not specifically designated as confidential in accordance with 26 CFR 601.601(b) may be inspected by any person upon written request. Any person submitting written comments or suggestions who desires an opportunity to comment orally at a public hearing on these proposed regulations should submit his request, in writing, to the Commissioner by December 21, 1972. In such case, a public hearing will be held, and notice of the time, place, and date, will be published in a subsequent issue of the FEDERAL REGISTER. The proposed regulations are to be issued under the authority contained in section 7805 of the Internal Revenue Code of 1954 (68A Stat. 917; 26 U.S.C. 7805).

[SEAL] JOHNNIE M. WALTERS,
Commissioner of Internal Revenue.

In order to require the reporting by employers and others of certain information on Forms W–3, W–2, 1096, 1099, and 1042S, the Income Tax Regulations (26 CFR Part 1) under sections 1461, 6041, 6052, 6071, and 6091 of the Internal Revenue Code are amended as follows:

PARAGRAPH 1. Section 1.1461–2 is amended by revising paragraph (c)(1) to read as follows:

§ 1.1461–2 Return of tax withheld.

* * * * *

(c) *Form 1042S*—(1) *Filing requirement.* Every withholding agent shall make on or before March 15 an annual information return on Form 1042S of all items of income specified in § 1.1441–2 paid during the previous calendar year to nonresident alien individuals, foreign partnerships, or foreign corporations if such items consist of—

(i) Amounts upon which tax was required to be withheld under chapter 3 of the Code,

(ii) Amounts upon which tax would have been required to be withheld under such chapter but for an exclusion from gross income applicable under any income tax convention to which the United States is a party.

(iii) Amounts upon which tax would have been required to be withheld under such chapter but for the provisions of any specific exemption from withholding applicable under the authority of any regulation under this title or any ruling or procedure of the Commissioner, or

(iv) Amounts in respect of which tax withheld under such chapter has, pursuant to such authority, been released or refunded to the payee by the withholding agent.

Notwithstanding subdivisions (i) through (iv) of this subparagraph, income paid to nonresident alien individuals, foreign partnerships, or foreign corporations and required to be shown on Form W–2, or in the case of income paid prior to January 1, 1972, on Form 1001 (or on any special variation of Form 1001 referred to in paragraph (i) of § 1.1461–1, or the substitute thereof) is not required to be shown on Form 1042S. However, a return under this subparagraph is required on Form 1042S (rather than on Form W–2) in respect of amounts which otherwise would be required to be shown on Form W–2 solely by reason of § 1.6041–2 (relating to return of information as to payments to employees) or § 1.6052–1 (relating to information regarding payments of wages in the form of group-term life insurance). The original and duplicate copies of Form 1042S shall accompany Form 1042 and shall be filed with the Director of International Operations, Internal Revenue Service, Washington, D.C. 20225.

* * * * *

PAR. 2. Section 1.6041–1 is amended by revising paragraphs (a) and (g) to read as follows:

§ 1.6041–1 Return of information as to payments of $600 or more.

(a) *General rule.* (1) Except as provided in § 1.6041–3, every person engaged in a trade or business shall make an information return for each calendar year with respect to payments made by him during the calendar year in the course of his trade or business to another person of fixed or determinable—

(i) Salaries, wages, commissions, fees, and other forms of compensation for services rendered aggregating $600 or more;

(ii) Interest, rents, royalties, annuities, pensions, and other gains, profits, and income aggregating $600 or more; or

(iii) Foreign items, as defined in § 1.6041–4, aggregating $600 or more.

The payments described in subdivisions (i), (ii), and (iii) of this subparagraph shall not include any payments with respect to which a statement is required by, or may be required under authority of, section 6042(a) (relating to dividends), section 6043(a)(2) (relating to distributions in liquidation) section 6044(a) (relating to patronage dividends), section 6045 (relating to brokers' transactions with customers), or section 6049(a)(1) and (2) (relating to interest). Thus, the term "interest", as used in subdivision (ii) of this subparagraph, includes all interest other than that coming within the definition of interest provided in § 1.6049–2. For example, a closely held corporation borrows money from one of its officers on a promissory note not in registered form the yearly interest on which is $300. It also pays royalties to such officer amounting to $400 a year. An information return is required under subdivision (ii) of this subparagraph with respect to the payments to such officer since the interest does not come within the definition of interest provided in § 1.6049–2 and the aggregate of the interest and royalty payments is in excess of $600.

(2) *Prescribed form.* The return required by subparagraph (1) of this paragraph shall be made on Forms 1096 and 1099 except that (i) the return with respect to distributions to beneficiaries of a trust or of an estate shall be made on

V 37 • 225 NO 21 72 XUM

Form 1041, and (ii) the return with respect to certain payments of compensation to an employee by his employer shall be made on Forms W–3 and W–2 under the provisions of § 1.6041–2 (relating to return of information as to payments to employees). See, however, § 1.6041–2(a)(2) for special election applicable to the reporting of commissions paid to full-time life insurance salesmen. Where Form 1099 is required to be filed under this section, a separate Form 1099 shall be furnished for each person to whom payments described in subdivision (i), (ii), or (iii) of subparagraph (1) of this paragraph are made. For time and place for filing Forms 1096 and 1099, see § 1.6041–6.

. . . . . .

(g) *Payments made by the United States or a State.* Information returns on—

(1) Forms 1096 and 1099 and

(2) Forms W–3 and W–2 (when made under the provisions of § 1.6041–2)

of payments made by the United States or a State, or political subdivision thereof, or the District of Columbia, or any agency or instrumentality of any one or more of the foregoing, shall be made by the officer or employee of the United States, or of such State, or political subdivision, or of the District of Columbia, or of such agency or instrumentality, as the case may be, having control of such payments or by the officer or employee appropriately designated to make such returns.

PAR. 3. Section 1.6041–2 is amended to read as follows:

§ 1.6041–2 Return of information as to payments to employees.

(a)(1) *In general.* Wages, as defined in section 3401, paid to an employee are required to be reported on Form W–2. See section 6011 and the Employment Tax Regulations thereunder. Except as otherwise provided in subparagraph (2) of this paragraph, all other payments of compensation, including the cash value of payments made in any medium other than cash, to an employee by his employer in the course of the trade or business of the employer must also be reported on Form W–2 if the total of such payments and the amount of the employee's wages (as defined in section 3401), if any, required to be reported on Form W–2 aggregates $600 or more in a calendar year. For example, if a payment of $700 was made to an employee and $400 thereof represents wages subject to withholding under section 3402 and the remaining $300 represents compensation not subject to withholding, such wages and compensation must both be reported on Form W–2. A separate Form W–2 shall be furnished for each employee for whom a return must be made. At the election of the employer, components of amounts required to be reported on Form W–2 pursuant to the provisions of this subparagraph may be reported on more than one Form W–2.

(2) *Certain payments by a life insurance company.* All payments of commissions by a life insurance company to its full-time life insurance salesmen (within the meaning of section 3121(d)(3)(B)) may, at the election of the payer, be reported on Forms 1096 and 1099 rather than on Forms W–3 and W–2. A separate Form 1099 shall be furnished for each employee for whom a return must be made. For contents and time and place for filing Forms 1096 and 1099, see § 1.6041–6.

(3) *Transmittal form.* The transmittal form for a return on Form W–2 made pursuant to the provisions of subparagraph (1) of this paragraph shall be Form W–3. In a case where an employer must file a Form W–3 under this paragraph and also under § 31.6011(a)–4 or § 31.6011(a)–5 of this chapter (Employment Tax Regulations), the Form W–3 filed under such § 31.6011(a)–4 or § 31.6011(a)–5 shall also be used as the transmittal form for a return on Form W–2 made pursuant to the provisions of this paragraph.

(4) *Time for filing*—(i) *General rule.* In a case where an employer must file Forms W–3 and W–2 under this paragraph and also under § 31.6011(a)–4 or § 31.6011(a)–5 of this chapter (Employment Tax Regulations), the time for filing such forms under this paragraph shall be the same as the time (including extensions thereof) for filing such forms under § 31.6011(a)–4 or § 31.6011(a)–5.

(ii) *Exception.* In a case where an employer is not required to file Forms W–3 and W–2 under § 31.6011(a)–4 or § 31.6011(a)–5 of this chapter (Employment Tax Regulations), returns on Forms W–3 and W–2 required under this paragraph for any calendar year shall be filed on or before February 28 of the following year.

(iii) *Cross reference.* For extensions of time for filing returns, see section 6081 and the regulations thereunder.

(5) *Place for filing.* The returns on Forms W–3 and W–2 required under this paragraph shall be filed pursuant to the rules contained in § 31.6091–1 of this chapter (Employment Tax Regulations), relating to the place for filing certain returns.

(b) *Distributions under employees' trust or plan.* (1) Amounts which are—

(i) Distributed or made available to a beneficiary, and to which section 402 (relating to employees' trusts) or section 403 (relating to employee annuity plans) applies, or

(ii) Described in section 72(m)(3)(B), shall be reported on Forms 1096 and 1099 to the extent such amounts are includible in the gross income of such beneficiary if the amounts so includible aggregate $600 or more in any calendar year. In addition, every trust described in section 501(c)(17) which makes one or more payments (including separation and sick and accident benefits) totaling $600 or more in 1 year to an individual must file an annual information return on Form 1096, accompanied by a statement on Form 1099, for each such individual. Payments made by an employer or a person other than the trustee of the trust should not be considered in determining whether the $600 minimum has been paid by the trustee. The provisions of this subparagraph shall not be applicable to payments of supplemental unemployment compensation benefits made after December 31, 1970, which are treated as if they were wages for purposes of section 3401(a). Such amounts are required to be reported on Forms W–3 and W–2. See paragraph (b)(14) of § 31.3401(a)–1 of this chapter (Employment Tax Regulations).

(2) Any amount with respect to which a statement is required by § 1.6047–1, relating to employee retirement plans covering owner-employees, shall not be included in amounts required to be reported under section 6041.

(c) *Special rule for calendar years before 1972.* For calendar years before 1972, the provisions of this section will be deemed to have been complied with if the returns for such years were filed in accordance with the provisions of this section in effect prior to [insert date on which final regulations under this section are published in the FEDERAL REGISTER] or with the instructions applicable to the appropriate forms.

PAR. 4. Section 1.6041–3 is amended by revising paragraph (a) to read as follows:

§ 1.6041–3 Payments for which no return of information is required under section 6041.

. . . . . .

(a) Payments of income required to be reported on Forms 1042, 1042S, 1000, 1001 (including all special variations thereof), 1120–S, 941, W–3, and W–2 (however, see § 1.6041–2 with respect to Forms W–3 and W–2);

. . . . . .

PAR. 5. Section 1.6041–6 is amended to read as follows:

§ 1.6041–6 Returns made on Forms 1096 and 1099 under section 6041; contents and time and place for filing.

Returns made under section 6041 on Forms 1096 and 1099 for any calendar year shall be filed on or before February 28 of the following year with any of the Internal Revenue Service Centers, the addresses of which are listed in the instructions for such forms. The name and address of the person making the payment and the name and address of the recipient of the payment shall be stated on Form 1099. If the present address of the recipient is not available, the last known post office address must be given. See section 6109 and the regulations thereunder for rules requiring the inclusion of identifying numbers in Form 1099.

PAR. 6. Section 1.6052–1 is amended by revising paragraphs (a) and (b), by redesignating paragraphs (c) and (d) as paragraphs (d) and (e), and by inserting after paragraph (b) a new paragraph

(c). These amended and added provisions read as follows:

§ 1.6052–1 Information returns regarding payment of wages in the form of group-term life insurance.

(a) *Requirement of reporting*—(1) *In general.* (i) Every employer, who during any calendar year provides any one of his employees remuneration for services in the form of group-term life insurance on the life of such employee any part of the cost of which is to be included in such employee's gross income as set forth in paragraph (a)(2) of § 1.79–1, shall make a separate return on Form W–2 with respect to each such employee for such year which includes the following information:

(a) Name, address, and identifying number of the employer;

(b) Name, address, and social security number of the employee; and

(c) Total amount includible in the employee's gross income by reason of the provisions of section 79(a), computed as if each employee reported his income on the basis of a calendar year (determined as if the employer making such return is the only employer paying the employee remuneration in the form of group-term life insurance on his life which is includible in his gross income under section 79(a)).

Returns on Form W–2 required to be filed pursuant to the provisions of this section shall be transmitted by Form W–3. In a case where, with respect to the same employee, an employer must make a return on Form W–2 under this section and also under § 31.6011(a)–4 or § 31.6011(a)–5 of this chapter (Employment Tax Regulations), or under § 1.6041–2 (relating to return of information as to payments to employees), such employer may make such returns on the same Form W–2 or on separate Forms W–2. In a case where an employer must file a Form W–3 under this section and also under § 31.6011(a)–4 or § 31.6011(a)–5 of this chapter (Employment Tax Regulations), the Form W–3 filed under such § 31.6011(a)–4 or § 31.6011(a)–5 shall also be used as the transmittal form for a return on Form W–2 made pursuant to the provisions of this section.

(ii) Notwithstanding subdivision (i) of this subparagraph, if a life insurance company has elected, as provided by § 1.6041–2(a)(2), to report all payments of commissions to its full-time life insurance salesmen on Forms 1096 and 1099 rather than on Forms W–3 and W–2, remuneration for services in the form of group-term life insurance on the lives of such salesmen shall be reported on Forms 1096 and 1099. Returns on Form 1099 required to be filed pursuant to the provisions of this section shall include the information prescribed by subdivision (i)(c) of this subparagraph and shall be transmitted by Form 1096. In a case where, with respect to the same full-time life insurance salesman, a life insurance company is required to make a return on Form 1099 under this section and also under § 1.6041–2(a)(2) (relating to return of information as to payments to employees), the life insurance company may make such returns on the same Form 1099 or on separate Forms 1099. See § 1.6041–6 for contents and time and place for filing Forms 1096 and 1099.

(2) *Definitions.* Terms used in subparagraph (1) of this paragraph which are defined in paragraph (b) of § 1.79–1 have the meaning ascribed to them in such paragraph (b).

(b) *Time and place for filing*—(1) *Time for filing*—(i) *General rule.* In a case where an employer must file Forms W–3 and W–2 under this section and also under § 31.6011(a)–4 or § 31.6011(a)–5 of this chapter (Employment Tax Regulations), the time for filing such forms under this section shall be the same as the time (including extensions thereof) for filing such forms under § 31.6011(a)–4 or § 31.6011(a)–5.

(ii) *Exception.* In a case where an employer is not required to file Forms W–3 and W–2 under § 31.6011(a)–4 or § 31.6011(a)–5 of this chapter (Employment Tax Regulations), returns on Forms W–3 and W–2 required under paragraph (a) of this section for any calendar year shall be filed on or before February 28 of the following year.

(iii) *Cross reference.* For extensions of time for filing returns, see action 6081 and the regulations thereunder.

(2) *Place for filing.* The returns on Forms W–3 and W–2 required under paragraph (a) of this section shall be filed pursuant to the rules contained in § 31.6091–1 of this chapter (Employment Tax Regulations), relating to the place for filing certain returns.

(c) *Special rule for calendar years before 1972.* For calendar years before 1972, the provisions of this section will be deemed to have been complied with if the returns for such years were filed in accordance with the provisions of this section in effect prior to (insert date on which final regulations under this section are published in the FEDERAL REGISTER) or with the instructions applicable to the appropriate forms.

. . . . . .

PAR. 7. Section 1.6052–2 is amended by redesignating paragraph (d) as paragraph (e), by redesignating paragraph (e) as paragraph (f), by inserting after paragraph (c) a new paragraph (d), and by inserting after paragraph (f) a new paragraph (g). These amended and revised provisions read as follows:

§ 1.6052–2 Statements to be furnished employees with respect to wages paid in the form of group-term life insurance.

. . . . . .

(d) *Special rule where Form W–2 or Form 1099 is used.* The provisions of this paragraph shall apply notwithstanding anything to the contrary in paragraph (b) or (c) of this section. The requirement of this section for the furnishing of a statement to an employee may be satisfied by furnishing to such employee the employee's copy of Form W–2 filed pursuant to § 1.6052–1 in respect of such employee, or, in the case of an election by a life insurance company pursuant to the provisions of § 1.6041–2(a)(2), by furnishing to the full-time life insurance salesman a copy of Form 1099 filed pursuant to § 1.6052–1(a)(1). In a case where the statement furnished by an employer to an employee for purposes of complying with this section is the employee's copy of a Form W–2, or in the case of certain full-time life insurance salesmen a copy of Form 1099, then the rules in § 31.6051–1 of this chapter (Employment Tax Regulations) shall apply with respect to the means and time (including extensions thereof) for furnishing such statements to the employee and making corrections on such form.

. . . . . .

(g) *Special rule for calendar years before 1972.* For calendar years before 1972, the provisions of this section will be deemed to have been complied with if the statements for such years were furnished in accordance with the provisions of this section in effect prior to [insert date on which final regulations under this section are published in the FEDERAL REGISTER] or with the instructions applicable to the appropriate forms.

PAR. 8. Paragraph (c)(7) of § 1.6071–1 is amended to read as follows:

§ 1.6071–1 Time for filing returns and other documents.

. . . . . .

(c) *Time for filing certain information returns.* • • •

(7) For provisions relating to the time for filing information returns by persons making certain payments, see paragraph (a)(4) of § 1.6041–2 and § 1.6041–6.

. . . . . .

PAR. 9. Paragraph (b)(7) of § 1.6091–1 is amended to read as follows:

§ 1.6091–1 Place for filing returns or other documents.

. . . . . .

(b) *Place for filing certain information returns.* • • •

(7) For the place for filing returns of information reporting certain payments, see paragraph (a)(5) of § 1.6041–2 and § 1.6041–6.

BUTTER

Withdrawal of Proposed Standards for Grades

On October 7, 1972, a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 2133) regarding a proposed amendment of U.S.

(d) "State" means a State of the

V37-225 NOV 21 72 XUM

Standards for Grades of Butter, Subpart P, §§ 58.2627(b) and 58.2635(a). Interested persons were given until November 7, 1972, to submit written data, views, or arguments in connection with that proposal. In response to the publication of the proposal, several comments were received from the industry and consumer representatives. The American Butter Institute representing the majority of the industry was of the opinion that a more complete study of the standard should be made so that many of the provisions of the standard may be reconfirmed or, if indicated, changed.

As a result of this and other views submitted, the Department has decided to review the standard more extensively. Therefore the proposal as published October 7, 1972, is hereby withdrawn from further consideration at this time.

Done at Washington, D.C., this 16th day of November 1972.

E. L. PETERSON,
Administrator,
Agricultural Marketing Service.

MILK IN PADUCAH, KY., MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Notice is hereby given of a public hearing to be held at the Holiday Inn, 727 Joe Clifton Drive, Paducah, KY, beginning at 9:30 a.m., local time, on December 12, 1972, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Paducah, Ky., marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY THE SOUTHLAND CORP.

PROPOSAL NO. 1

Amend paragraph (a) of § 1099.51 to read as follows:

§ 1099.51 Class prices.

* * * * * *

(a) *Class I price.* The Class I price shall be the basic formula price for the second preceding month plus $1.70.

* * * * * *

PROPOSED BY THE DAIRY DIVISION, AGRICULTURAL MARKETING SERVICE

PROPOSAL NO. 2

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, Fred L. Shipley, 2550 Schuetz Road, Post Office Box 1485, Maryland Heights, MO 63043, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on November 15, 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

[7 CFR Part 1103]

[Docket No. AO 346-A16]

MILK IN MISSISSIPPI MARKETING AREA

Notice of Hearing on Proposed Amendments to Tentative Marketing Agreement and Order

Notice is hereby given of a public hearing to be held at Paul's Northside Restaurant, Sheraton Motor Inn, 4641 Highway 55 North, Jackson, MS, beginning at 9:30 a.m., local time, on December 11, 1972, with respect to proposed amendments to the tentative marketing agreement and to the order, regulating the handling of milk in the Mississippi marketing area.

The hearing is called pursuant to the provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601 et seq.), and the applicable rules of practice and procedure governing the formulation of marketing agreements and marketing orders (7 CFR Part 900).

The purpose of the hearing is to receive evidence with respect to the economic and marketing conditions which relate to the proposed amendments, hereinafter set forth, and any appropriate modifications thereof, to the tentative marketing agreement and to the order.

The proposed amendments, set forth below, have not received the approval of the Secretary of Agriculture.

PROPOSED BY BOARD OF TRUSTEES OF MENTAL INSTITUTIONS, STATE OF MISSISSIPPI

PROPOSAL NO. 1

In § 1103.46(a)(3)(iii), delete the semicolon and add the following language immediately after the word "Order": "Or from a plant exempt pursuant to 1103.60(b);"

PROPOSAL NO. 2

Redesignate § 1103.60 as "Exemptions."

PROPOSAL NO. 3

Designate the existing paragraph of § 1103.60:

"(a) Producer-handler:"

PROPOSAL NO. 4

Add the following new paragraph to § 1103.60:

"(b) None of the provisions of this part except § 1103.12 shall apply to a plant operated by a governmental agency."

PROPOSED BY THE DAIRY DIVISION, AGRICULTURAL MARKETING SERVICE

PROPOSAL NO. 5

Make such changes as may be necessary to make the entire marketing agreement and the order conform with any amendments thereto that may result from this hearing.

Copies of this notice of hearing and the order may be procured from the Market Administrator, William J. Larzelere, Post Office Box 9747, Northside Station, Jackson, MS 39206, or from the Hearing Clerk, Room 112-A, Administration Building, U.S. Department of Agriculture, Washington, D.C. 20250, or may be there inspected.

Signed at Washington, D.C., on November 15, 1972.

JOHN C. BLUM,
Deputy Administrator,
Regulatory Programs.

DEPARTMENT OF HEALTH, EDUCATION, AND WELFARE

Health Services and Mental Health Administration

[42 CFR Part 86]

GRANTS FOR EDUCATION PROGRAMS IN OCCUPATIONAL SAFETY AND HEALTH

Notice of Proposed Rule Making

Section 21(a)(1) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 670(a)(1)) authorizes the Secretary of Health, Education, and Welfare to make grants for the conduct of education programs to provide an adequate supply of qualified personnel to carry out the purposes of the Act.

Notice is hereby given that the Administrator, Health Services and Mental Health Administration, with the approval of the Secretary of Health, Education, and Welfare, proposes to amend Title 42, Code of Federal Regulations by adding a new Part 86 which sets forth the conditions and procedures for awarding traineeships and training grants for short- and long-term training in occupational safety and health.

A traineeship under these proposed regulations is an award of stipends and allowances directly to the individual who is being trained. A training grant is a grant of a lump sum to a training institution so that it may either award individual traineeships or defray the institution's costs of providing training, or both. Under the proposed regulations, training grants may be utilized to provide either long- or short-term training. Grants for long-term training projects are intended to provide training in the fields of, among others, occupational medicine, industrial hygiene, industrial nursing, and occupational safety engineering, while short-term training project grants involve postprofessional training programs for individuals who have satisfactorily completed basic professional preparation for employment in one of the occupational safety and health professions.

The Secretary has determined that the purposes of the Act will be achieved in a more effective and expeditious manner if the training grants awarded under this part are limited to public and private nonprofit agencies and institutions.

Written comments concerning the proposed regulations are invited from interested persons. Inquiries may be addressed, and data, views, and arguments relating to the proposed regulations may be presented in writing, in triplicate, to the Office of Extramural Activities, National Institute of Occupational Safety and Health, 1014 Broadway, Cincinnati, OH 45202. All material received within 30 days after publication of this notice will be considered before further action is taken on the proposal. All comments received in response to this publication will be available for public inspection during normal business hours at the foregoing address.

It is therefore proposed to adopt the following new Part 86 to be effective on the date of its republication in the FEDERAL REGISTER.

Dated: October 4, 1972.

VERNON E. WILSON,
Administrator, Health Services and Mental Health Administration.

Approved: November 8, 1972.

ELLIOT L. RICHARDSON,
Secretary.

PART 86—GRANTS FOR EDUCATION PROGRAMS IN OCCUPATIONAL SAFETY AND HEALTH

Subpart A—General

Sec.
86.1 Applicability.
86.2 Definitions.
86.3 Inventions and discoveries.
86.4 Publications and copyrights.

Subpart B—Occupational Safety and Health Training Grants

86.10 Nature and purpose of training grants.
86.11 Eligibility
86.12 Application for a grant.
86.13 Project requirements.
86.14 Evaluation and grant award.
86.15 Payments.
86.16 Use of project funds.
86.17 Civil rights.
86.18 Grantee accountability.
86.19 Records, reports, inspection, and audit.
86.20 Additional conditions.
86.21 Early termination and withholding of payments.

Subpart C—Occupational Safety and Health Traineeships

86.30 Nature and purpose of traineeships.
86.31 Eligibility; minimum requirements.
86.32 Application for traineeship.
86.33 Evaluation and award of traineeships.
86.34 Benefits: Stipends, dependency allowances, travel allowances, vacations.
86.35 Payments: Stipends, dependency allowances, travel allowances.
86.36 Benefits: Tuition and other expenses.
86.37 Payments—tuition and other expenses.
86.38 Duration and continuation.
86.39 Terms and conditions.
86.40 Accountability.
86.41 Termination of traineeship.

AUTHORITY: The provisions of this Part 86 issued under sec. 6(g), 84 Stat. 1600; 29 U.S.C. 657(g), sec. 21(a), 84 Stat. 1612; 29 U.S.C. 670(a).

Subpart A—General

§ 86.1 Applicability.

The regulations of this part are applicable to the award of training grants and traineeships pursuant to section 21(a)(1) of the Occupational Safety and Health Act of 1970 (29 U.S.C. 670(a)(1)) to assist in providing an adequate supply of qualified personnel to carry out the purposes of the Act.

§ 86.2 Definitions.

Any term not defined herein shall have the same meaning as given it in the Act. As used in this part:

(a) "Act" means the Occupational Safety and Health Act of 1970 (29 U.S.C. 651 et seq.).

(b) "Nonprofit agency or institution" means an agency, corporation, or association no part of the net earnings of which inures, or may lawfully inure, to the benefit of any private shareholder or individual.

(c) "Secretary" means the Secretary of Health, Education, and Welfare and any other officer or employee of the Department of Health, Education, and Welfare to whom the authority involved has been delegated.

(d) "State" means a State of the United States, the District of Columbia, Puerto Rico, the Virgin Islands, American Samoa, Guam, and the Trust Territory of the Pacific Islands.

(e) "Training" means job-specific skill development, the purpose of which is to provide qualified personnel to carry out the purposes of the Act.

§ 86.3 Inventions and discoveries.

Any grant award pursuant to § 86.14 or § 86.33 is subject to the regulations of the Department of Health, Education, and Welfare as set forth in 45 CFR Parts 6 and 8, as amended. Such regulations shall apply to any activity for which grant funds are in fact used whether within the scope of the project as approved or otherwise. Appropriate measures shall be taken by the grantee and by the Secretary to assure that no contracts, assignments or other arrangements inconsistent with the grant obligation are continued or entered into and that all personnel involved in the supported activity are aware of and comply with such obligations. Laboratory notes, related technical data, and information pertaining to inventions and discoveries shall be maintained for such periods, and filed with or otherwise made available to the Secretary, or those he may designate at such times and in such manner, as he may determine necessary to carry out such Department regulations.

§ 86.4 Publications and copyrights.

Except as may otherwise be provided under the terms and conditions of the award, the grantee may copyright without prior approval any publications, films or similar materials developed or resulting from a project supported by a grant under this part, subject, however, to a royalty-free, nonexclusive, and irrevocable license or right in the Government to reproduce, translate, publish, use, disseminate, and dispose, of such materials and to authorize others to do so.

Subpart B—Occupational Safety and Health Training Grants

§ 86.10 Nature and purpose of training grants.

(a) *Long-term training project grant.* A long-term training project grant is an award of funds to an eligible institution or agency, hereinafter called the "grantee," to pay part or all of the costs of organized identifiable activities, hereinafter termed the "project," that are undertaken to establish, strengthen, or expand graduate, undergraduate, or special training, of persons in the field of occupational safety and health. Such grants may include training in occupational medicine, industrial hygiene, industrial nursing and occupational safety engineering and the training of technicians and paraprofessionals in such areas.

(b) *Short-term training project grant.* A short-term training project grant is an award of funds to an eligible institution or agency, hereinafter called the

XUM
V37-225 NOV 21 72 XUM

"grantee," to pay part or all of the costs of organized identifiable activities, hereinafter termed the "project," that are undertaken to provide intensive training programs of less than 1 year for any one or a combination of the following purposes:

(1) To provide specialized instruction for occupational safety and health professional personnel which will increase their competence in an area in their respective fields.

(2) To prepare or expand the capabilities of occupational safety and health professionals for leadership roles as administrators or supervisors, and

(3) To prepare or expand the teaching capabilities of occupational safety and health professionals.

§ 86.11 Eligibility.

(a) *Eligible applicants.* Any public or nonprofit educational or training agency or institution located in a State is eligible to apply for a grant under this subpart.

(b) *Projects eligible for long-term or short-term training grants.* Any project found by the Secretary to be a long-term training project within the meaning of § 86.10(a) or a short-term training project within the meaning of § 86.10(b), shall be eligible for a grant award.

§ 86.12 Application for a grant.

(a) An application for a grant under this subpart shall be submitted to the Secretary at such time and in such form and manner as the Secretary may prescribe.[1] The application shall contain a full and adequate description of the project and of the manner in which the applicant intends to conduct the project in accordance with the requirements of this subpart, and a budget and justification of the amount of grant funds requested, and such other pertinent information as the Secretary may require.

(b) The application shall be executed by an individual authorized to act for the applicant and to assume for the applicant the obligations imposed by the regulations of this subpart and any additional conditions of the grant.

§ 86.13 Project requirements.

(a) An approvable application for a long-term training grant must contain each of the following, unless the Secretary determines that the applicant has established good cause for its omission.

(1) Provision of a method for development of the training curriculum and any attendant training materials and resources;

(2) Provision of a method for implementation of the needed training;

(3) Provision of an evaluation methodology, including the manner in which such methodology will be employed, to measure the achievement of the objectives of the training program; and

(4) Provision of a method by which trainees will be selected.

(b) In addition to the requirements set forth in paragraph (a) of this section, an approvable application for a short-term training grant must contain each of the following, unless the Secretary determines that the applicant has established good cause for its omission.

(1) Provision of a methodology to assess the particular skills, or knowledge that prospective trainees need to develop;

(2) Provision of at least 18 hours of formal instruction for a period of not less than 2½ days and not more than 1 academic year; and

(3) Assurances that no portion of the Federal funds will be used for (i) in-service training courses designed only for employees of a single agency, institution, or organization; (ii) correspondence courses; (iii) regular courses usually given for academic credit; or (iv) training the grantee's financial officers, program director, or the official who executed the application.

§ 86.14 Evaluation and grant award.

Within the limits of funds available for such purpose the Secretary may award grants to assist in the establishment and operation of those projects which will in his judgment best promote the purposes of section 21(a)(1) of the Act, taking into account:

(a) In the case of long-term training grants:

(1) The need for training in the area or areas of study outlined in the application;

(2) The degree to which the proposal represents a strengthening or expansion of the applicant's program in such areas;

(3) The record of the applicant's effectiveness in training in these or related areas as indicated, among other things, by the placement of its graduates;

(4) The competence of the project staff in relation to the service to be provided;

(5) The reasonableness of the budget in relation to the proposed project;

(6) The applicant's resources, including equipment, facilities, and funds, available for the project;

(7) The current and potential availability of students in the area of study to be offered and their prospective employability as a result of the proposed training;

(8) The extent to which the applicant expects to absorb faculty positions initiated as a result of the grant; and

(9) The degree to which the project adequately provides for the requirements set forth in § 86.13(a).

(b) In the case of short-term training:

(1) The relationship of the contents of the course to the purposes of the Act and to the current and emergency training needs to carry out such purposes;

(2) The qualifications of the instructional staff;

(3) The speed with which the training can be put to use by the persons proposed to be trained;

(4) The reasonableness of the budget in relation to the proposed project;

(5) The success of previous offerings of this course, or related courses;

(6) Evidence of ability to recruit trainees and the estimated number to be enrolled during each course offering; and

(7) The degree to which the proposed project adequately provides for the requirements set forth in § 86.13(b).

(c) The amount of any award shall be determined by the Secretary on the basis of his estimate of the sum necessary for all or a designated portion of direct project costs plus an additional amount for indirect costs, if any, which will be calculated by the Secretary either (1) on the basis of his estimate of the actual indirect costs reasonably related to the project, or (2) on the basis of a percentage, not to exceed 8 percent, of all, or a portion of, the estimated direct costs of the project when there are reasonable assurances that the use of such percentage will not exceed the approximate actual indirect costs or for designated direct costs. Such award may include an estimated provisional amount for indirect costs or for designated direct costs (such as travel or supply costs) subject to upward (within the limits of available funds) as well as downward adjustments to actual costs when the amount properly expended by the grantee for provisional items has been determined by the Secretary.

(d) Except as may otherwise be provided by the regulations of this subpart, the identification of direct and indirect costs will be consistent with the generally accepted and established accounting practices that the grantee applies to its own activities and in conformance with the applicable principles set forth in chapters 1–76, 3–60, 3–80, and 5–60 of the Department of Health, Education, and Welfare Grants Administration Manual.[2]

(e) All grant awards shall be in writing, shall set forth the amount of funds granted and the period for which support is recommended.

(f) Neither the approval of any project nor any grant award shall commit or obligate the United States in any way to make any additional, supplemental, continuation, or other award with respect to any approved project or portion thereof. For continuation support, grantees must make separate application annually at such times and in such form as the Secretary may direct.

§ 86.15 Payments.

The Secretary shall from time to time make payments to a grantee of all or a portion of any grant award, either in advance or by way of reimbursement for expenses incurred or to be incurred

[1] Applications and instructions may be obtained from the Office of Extramural Programs, National Institute for Occupational Safety and Health, 1014 Broadway, Cincinnati, Ohio 45202.

[2] The Department Grants Administration Manual is available for inspection at the Public Information Office of the several Department Regional Offices and available for purchase at the Government Printing Office, GPO Document No. 894–523.

in the performance of the project to the extent he determines such payments necessary to promote prompt initiation and advancement of the approved project.

§ 86.16 Use of project funds.

(a) Any funds granted pursuant to this subpart as well as other funds to be used in performance of the approved project shall be expended solely for carrying out the approved project in accordance with section 21(a) of the Act, the regulations of this subpart, the terms and conditions of the award, and, except as may otherwise be provided in this subpart, the cost principles set forth in the Department of Health, Education, and Welfare Grants Administration Manual.

(b) Prior written approval by the Secretary of revision of the budget and project plan is required whenever there is to be a significant change in the scope or nature of project activities, which in the case of short term training grants, includes any change in the course dates or training sites.

(c) Grant funds are available for trainee stipends and for tuition, including fees and instructional materials, for travel costs related to training, and for dependency allowances. Stipends and allowances may not be increased or be paid beyond the term of the stipend on account of vacation an individual might have been entitled to but did not take.

(d) Stipends may only be paid to a trainee who is a citizen of the United States, an alien lawfully admitted to the United States for permanent residence, or a permanent resident of Guam, American Samoa, or the Trust Territory of the Pacific Islands.

(e) In the case of short term training grants, stipends may not be paid to persons receiving lecture fees, salary, travel expenses, or payment in any form as members of the course instructional staff.

§ 86.17 Civil rights.

Attention is called to the requirements of title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C. 2000d et seq.) and in particular section 601 of such Act which provides that no person in the United States shall on the grounds of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to, discrimination under any program or activity receiving Federal financial assistance. A regulation implementing such title VI, which applies to grants made under this subpart, has been issued by the Secretary of Health, Education, and Welfare with the approval of the President (45 CFR Part 80).

§ 86.18 Grantee accountability.

(a) *Accounting for grant award payments.* All payments made by the Secretary shall be recorded by the grantee in accounting records separate from the records of all other grant funds, including funds derived from other grant awards. With respect to each approved project the grantee shall account for the sum total of all amounts paid by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures for direct and indirect costs meeting the requirements of this part: *Provided, however,* That when the amount awarded for indirect costs was based on a predetermined fixed-percentage of estimated direct costs, the amount allowed for indirect costs shall be computed on the basis of such predetermined fixed-percentage rates applied to the total, or a selected element thereof, of the reimbursable direct costs incurred.

(b) *Accounting for equipment.* As used in this section the term "equipment" means an article of property procured or fabricated which is complete in itself, is of a durable nature, and has an expected service life of more than 1 year. Equipment on hand on the date of termination for which accounting is required in accordance with the procedures set forth in chapter 1–410–50 of the Department of Health, Education, and Welfare Grants Administration Manual shall be identified and reported by the grantee in accordance with such procedures, and, accounted for by one or a combination of the following methods, as determined by the Secretary:

(1) *Retention of equipment for other occupational safety and health training projects.* Equipment may be used, without adjustment of accounts on other grant-supported projects (whether or not federally supported) within the scope of section 21 of the Act, and no other accounting for such equipment shall be required: *Provided, however,* (i) That during such period of use no charge for depreciation, amortization, or for other use of the equipment shall be made against any existing or future Federal grant or contract, and (ii) if, within the period of its useful life, the equipment is transferred by sale or otherwise for use outside the scope of section 21 of the Act, the Federal portion of the fair market value at the time of transfer shall be refunded to the Federal Government.

(2) *Sale or other disposition of equipment, crediting of proceeds or value.* The equipment may be sold by the grantee and the net proceeds of the sale credited to the grant account for project use, or they may be used or disposed of in any manner by the grantee by crediting to the grant account the Federal share of the fair market value on the termination date. To the extent equipment purchased from grant funds is used for credit or trade-in on the purchase of new equipment, the accounting obligation shall apply to the same extent to such new equipment.

(3) *Return or transfer of equipment.* The equipment may be returned to the Federal Government by the grantee or, in accordance with the provisions of chapter 1–410–50B of the Department of Health, Education, and Welfare Grants Administration Manual, may be transferred to another grantee for the purpose of continuing the project for which the equipment was purchased.

(c) *Accounting for grant-related income.*—(1) *Interest.* Pursuant to section 203 of the Intergovernmental Cooperation Act of 1968 (42 U.S.C. 4213), a State will not be held accountable for interest earned on grant funds, pending their disbursement for grant purposes. A State, as defined in section 102 of the Intergovernmental Cooperation Act, means any one of the several States, the District of Columbia, Puerto Rico, any territory or possession of the United States, or any agency or instrumentality of a State, but does not include the governments of the political subdivisions of the State. All grantees other than a State, as defined in this subsection, must return all interest earned on grant funds to the Federal Government.

(2) *Royalties.* Royalties earned from publications or similar material produced from a grant must first be used to reduce the Federal share of the grant to cover the costs of publishing or producing the materials. Royalties in excess of the costs of publishing or producing the materials shall be distributed as in subparagraph (3) of this paragraph.

(3) *Other income.* Other income earned by the grantee shall be disposed of in accordance with one of the alternatives specified in chapter 1–420 of the Grants Administration Manual as determined by the Secretary in the grant award.

(d) *Grant closeout.*—(1) *Date of final accounting.* A grantee shall render, with respect to each approved project, a full account, as provided herein, as of the date of the termination of grant support. The Secretary may require other special and periodic accounting.

(2) *Final settlement.* There shall be payable to the Federal Government as final settlement with respect to each approved project the total sum of:

(i) Any amount not accounted for pursuant to § 86.18(a);

(ii) Any credits for equipment on hand as provided in § 86.18(b);

(iii) Any credits for earned interest pursuant to § 86.18(c)(1);

(iv) Any other settlements required pursuant to § 86.18(c) (2) and (3).

Such total sum shall constitute a debt owed by the grantee to the Federal Government and shall be recovered from the grantee or its successors or assignees by setoff or other action as provided by law.

§ 86.19 Records, reports, inspection, and audit.

(a) *Records and reports.* Each grant awarded pursuant to this subpart shall be subject to the condition that the grantee shall maintain such operational and accounting records, identifiable by grant number, and file with the Secretary such operational and fiscal reports relating to the use of grant funds as the Secretary may find necessary to carry out the purposes of the Act and the regulations. All records shall be retained for 3 years after the close of the budget period. Such records may be destroyed

V 37 • 225 NOV 21 72 XUM

at the end of such 3-year period if the grantee has been notified of the completion of the Federal audit by such time. If the grantee has not been so notified, such records shall be retained (1) for 5 years after the close of the budget period or (2) until the grantee is notified of the completion of the Federal audit, whichever comes first. In all cases where audit questions have arisen before the expiration of such 5-year period, records shall be retained until resolution of all such questions.

(b) *Inspection and audit.* Any application for a grant under this subpart shall constitute the consent of the applicant to inspections of the facilities, equipment and other resources of the applicant at reasonable times by persons designated by the Secretary and to interview with principal staff members to the extent that such resources and personnel are, or will be, part of the project. In addition, the acceptance of any grant under this subpart shall constitute the consent of the grantee to inspections and fiscal audits by such persons of the supported activity and of records relating to the use of grant funds.

§ 86.20 Additional conditions.

The Secretary may with respect to any grant award impose additional conditions prior to or at the time of any award when in his judgment such conditions are necessary to assure or protect advancement of the approved project, the interests of public health, or the conservation of grant funds.

§ 86.21 Early termination and withholding of payments.

Whenever the Secretary finds that a grantee has failed in a material respect to comply with the Act, the regulations of this subpart, or the terms of the grant, he may, on reasonable notice to the grantee, withhold further payments, and take such other action, including the termination of the grant, as he finds appropriate to carry out the purposes of the Act and regulations. Noncancellable obligations of the grantee properly incurred prior to the receipt of the notice of termination will be honored. The grantee shall be promptly notified of such termination in writing and given the reasons therefor.

Subpart C—Occupational Safety and Health Traineeships

§ 86.30 Nature and purpose of traineeships.

A traineeship is an award of funds to an individual (herein called the "trainee") for his subsistence and other expenses during a period in which he is acquiring training (a) in the occupational safety and health professions, (b) for research relating to occupational safety and health, or (c) for teaching in occupational safety and health.

§ 86.31 Eligibility; minimum requirements.

In order to be eligible for an award under this subpart an applicant must:

(a) Have been accepted by a public or other nonprofit institution for the purpose of the activity for which the traineeship is sought.

(b) Be a U.S. citizen, an alien lawfully admitted to the United States for permanent resident or a permanent resident of Guam, American Samoa, or the Trust Territory of the Pacific Islands.

§ 86.32 Application for traineeship.

An application for a traineeship under this subpart shall be submitted to the Secretary at such times and in such form and manner as he may prescribe.[1] In addition to the information supplied by the applicant in his application, such further information may be required as is necessary to determine his or her qualifications.

§ 86.33 Evaluation and award of traineeships.

Within the limits of funds available for such purpose and subject to the regulations of this part, the Secretary may award traineeships to those qualified applicants who are in his judgment best able to carry out the purpose of the traineeships taking into consideration the need for training in the area of study specified in the application.

§ 86.34 Benefits: stipends, dependency allowances, travel allowances, vacations.

Individuals awarded traineeships shall be entitled to the following benefits:

(a) Stipends;

(b) Dependency allowances;

(c) Trainee travel expenses essential to the training; and

(d) Vacations; stipends and allowances will not be increased or be paid beyond the term of a traineeship on account of vacation an individual might have been entitled to but did not take.

§ 86.35 Payments: stipends, dependency allowances, travel allowances.

Payments for stipends, dependency allowances, and the travel allowances specified in § 86.34 may be made directly to the trainee or to the sponsoring institution for payment to the trainee.

§ 86.36 Benefits: tuition and other expenses.

The Secretary may authorize allowances for payment of expenses, in whole or in part, of tuition, fees, equipment, supplies, attendance at meetings required to carry out the purposes of the traineeships, or other expenses of the activities of the trainee.

§ 86.37 Payments—Tuition and other expenses.

(a) *Tuition and fees.* Allowances for tuition and fees may be made to the trainee or sponsoring institution.

(b) *Other expenses; standard or maximum allowances.* Any allowances for equipment, supplies, attendance at meetings, and other expenses shall, except as may otherwise be prescribed herein or by the Secretary, be paid to the sponsoring institution. The Secretary may establish a standard allowance or a maximum allowance for payment to the sponsoring institution for such expenses.

(c) *Attendance at meetings.* Allowances for expenses of attendance at meetings by trainees may be paid directly to such trainees.

(d) *Installments.* Payments to sponsoring institutions and to trainees under this section and § 86.35 may be made in advance or by reimbursement and in monthly installments.

§ 86.38 Duration and continuation.

Traineeship awards may be made for varying periods not in excess of 2 years. The Secretary may make one or more continuation awards for an additional period if he finds that satisfactory progress is being made toward accomplishment of the purpose of the initial traineeship award. Additional support may be provided on appropriate justification after expiration of the period of support in the previous award.

§ 86.39 Terms and conditions.

All traineeship awards shall be subject to the following terms and conditions:

(a) Training must be carried out at an institution found by the Secretary to provide a well-rounded course of instruction in the particular area of training for which the traineeship is awarded.

(b) No traineeship may be utilized to compensate any trainee for personal services or employment on behalf of the United States or any person.

§ 86.40 Accountability.

In addition to any other requirements relating to accountability which the Secretary may require, each grantee shall account for the sum total of all amounts paid to him by presenting or otherwise making available evidence satisfactory to the Secretary of expenditures.

§ 86.41 Termination of traineeship.

(a) The Secretary may terminate a traineeship at any time upon request of the trainee.

(b) The Secretary may terminate any traineeship prior to the date it would otherwise expire upon a determination, after reasonable notice to the trainee and opportunity to present his or her views and evidence, that the trainee's performance is unsatisfactory, that the trainee is no longer attending the sponsoring institution, or that he or she is unfit or unable to carry out the purpose of the traineeship.

(1) The views and evidence of the trainee shall be presented in writing unless the Secretary determines that an oral presentation is desirable.

(2) Such views and evidence shall be limited to whether the trainee's performance is unsatisfactory, whether the trainee is no longer attending the sponsoring institution, or whether he or she is unfit or unable to carry out the purpose of the traineeship, as the case may be.

LOW-RENT HOUSING HOMEOWNERSHIP OPPORTUNITIES

Notice of Proposed Rule Making

Correction

In F.R. Doc. 72-18845 appearing at page 23553 of the issue for Saturday, November 4, 1972, the following changes should be made:

1. In § 1270.109 the material designated as paragraphs (e) through (f) should be transposed to appear between paragraphs (d) and (h) in § 1270.110.

2. In § 1270.110, the reference in the last two lines of paragraph (a) to "paragraphs (c) and (d) of this section.", should read "paragraph (d) of this section and paragraph (c) of § 1270.111."

3. In Appendix I to § 1270.309, the second line should be transferred to appear immediately above "persons, residents of --------,".

CONTROL ZONE

Proposed Alteration

Correction

In F.R. Doc. 72-19481 appearing on page 24121 of the issue for Tuesday, November 14, 1972, the figure "30" in the 13th line of the control zone description should read "39".

[14 CFR Part 71]

[Airspace Docket No. 72-EA-109]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to alter the State College, Pa., transition area (37 F.R. 2143).

A review of the terminal airspace for State College, Pa., indicates that additional airspace is required to protect aircraft making instrument approaches and departures at University Park Airport and State College Air Depot Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attention: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of State College, Pa., proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to delete the description of the State College, Pa., 700-foot-floor transition area and insert the following in lieu thereof:

That airspace extending upward from 700 feet above the surface within a 12-mile radius of the center, 40°51'05" N., 77°51'00" W., of University Park Airport, State College, Pa., extending clockwise from a 020° bearing to a 130° bearing from the airport; within a 13.5-mile radius of the center of University Park Airport, extending clockwise from a 130° bearing to a 165° bearing from the airport; within a 5-mile radius of the center of University Park Airport, extending clockwise from a 165° bearing to a 210° bearing from the airport; within a 7-mile radius of the center of University Park Airport, extending clockwise from a 210°bearing to a 280° bearing from the airport; within a 13.5-mile radius of the center of University Park Airport, extending clockwise from a 280° bearing to a 020° bearing from the airport; within a 5-mile radius of the center, 40°46'15" N., 77°52'45" W., of State College Air Depot Airport, State College, Pa., extending clockwise from a 010° bearing to a 045° bearing from the airport; within a 12-mile radius of the center of State College Air Depot Airport, extending clockwise from a 045° bearing to a 080° bearing from the airport; within a 13.5-mile radius of the center of State College Air Depot Airport. extending clockwise from a 080° bearing to a 230° bearing from the airport; within a 6.5-mile radius of the center of State College Air Depot Airport, extending clockwise from a 230° bearing to a 260° bearing from the airport; and within a 14.5-mile radius of the center of State College Air Depot Airport, extending clockwise from a 260° bearing to a 010° bearing from the airport, excluding the portion that coincides with the Philipsburg, Pa., and Reedsville, Pa., transition areas.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on November 7, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

[FR Doc.72-19969 Filed 11-20-72;8:47 am]

[14 CFR Part 71]

[Airspace Docket No. 72-EA-111]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Summersville, W. Va., transition area over Summersville Airport, Summersville, W. Va.

A new NDB instrument approach procedure has been developed for Summersville Airport, Summersville, W. Va., and will require designation of a 700-foot-floor transition area to provide controlled airspace protection for IFR arrivals and departures at Summersville Airport.

Interested parties may submit such written data or views as they may desire. Communications should be submitted in triplicate to the Director, Eastern Region, Attn.: Chief, Air Traffic Division, Department of Transportation, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y. 11430. All communications received within 30 days after publication in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No hearing is contemplated at this time, but arrangements may be made for informal conferences with Federal Aviation Administration officials by contacting the Chief, Airspace and Procedures Branch, Eastern Region.

Any data or views presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

The official docket will be available for examination by interested parties at the Office of Regional Counsel, Federal Aviation Administration, Federal Building, John F. Kennedy International Airport, Jamaica, N.Y.

The Federal Aviation Administration, having completed a review of the airspace requirements for the terminal area of Summersville, W. Va., proposes the airspace action hereinafter set forth:

1. Amend § 71.181 of Part 71 of the Federal Aviation Regulations so as to designate a Summersville, W. Va., 700-foot-floor transition area as follows:

That airspace extending upward from 700 feet above the surface within a 5.5-mile radius of the center 38°13'50" N., 80°52'15" W., of Summersville Airport, Summersville, W. Va., extending clockwise from a 244° bearing to a 304° bearing from the airport;

XUM V37-225 NOV 21 72 XUM V

within a 7-mile radius of the center of the airport, extending clockwise from a 304° bearing to a 337° bearing from the airport; within a 9.5-mile radius of the center of the airport, extending clockwise from a 337° bearing to a 018° bearing from the airport; within an 8.5-mile radius of the center of the airport, extending clockwise from a 018° bearing to a 056° bearing from the airport; within a 10-mile radius of the center of the airport, extending clockwise from a 056° bearing to a 070° bearing from the airport; within a 10.5-mile radius of the center of the airport, extending clockwise from a 070° bearing to a 083° bearing from the airport; within a 12-mile radius of the center of the airport, extending clockwise from a 083° bearing to a 100° bearing from the airport; within a 14.5-mile radius of the center of the airport, extending clockwise from a 100° bearing to a 109° bearing from the airport; within a 22-mile radius of the center of the airport, extending clockwise from a 109° bearing to a 132° bearing from the airport; within a 19-mile radius of the center of the airport, extending clockwise from a 132° bearing to a 147° bearing from the airport; within a 17.5-mile radius of the center of the airport, extending clockwise from a 147° bearing to a 163° bearing from the airport; within a 12-mile radius of the center of the airport, extending clockwise from a 163° bearing to a 190° bearing from the airport; within a 7-mile radius of the center of the airport, extending clockwise from a 190° bearing to a 212° bearing from the airport; within a 6.5-mile radius of the center of the airport, extending clockwise from a 212° bearing to a 244° bearing from the airport; and within 4.5 miles southeast and 8 miles northwest of a 221° bearing from the Summersville, W. Va. RBN 38°13'46'' N., 80°52'14'' W., extending from the RBN to 11.5 miles southwest of the RBN excluding the portion that coincides with Lewisburg, W. Va., transition area.

This amendment is proposed under section 307(a) of the Federal Aviation Act of 1958 (72 Stat. 749; 49 U.S.C. 1348) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Jamaica, N.Y., on November 8, 1972.

ROBERT H. STANTON,
Acting Director, Eastern Region.

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Pella, Iowa.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Central Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, Federal Building, 601 East 12th Street, Kansas City, MO 64106.

A new public use instrument approach procedure is being developed for the Pella, Iowa, municipal airport. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a 700-foot transition area at Pella, Iowa.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is added:

PELLA, IOWA

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the Pella Municipal Airport (latitude 41°24'10'' N., longitude 92°56'40'' W.); and within 3 miles each side of the 176° bearing from the Pella Municipal Airport extending from the 5-mile radius to 8 miles south of the airport.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348); and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Kansas City, Mo., on October 20, 1972.

CHESTER W. WELLS,
Acting Director, Central Region.

[Airspace Docket No. 72-GL-55]

CONTROL ZONE AND TRANSITION AREA

Proposed Designation and Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a control zone and alter the transition area at Danville, Ill.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, 2300 East Devon Avenue, Des Plaines, IL 60018. All communications received within 45 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

Since designation of the controlled airspace at Danville, Ill., the approach procedures for the Vermilion County Airport have been revised and a control tower has been planned to be opened in April of 1973. Accordingly, it is necessary to alter the transition area at Danville to protect aircraft executing these revised procedures and a control zone must be established for the protection of IFR air traffic utilizing the Vermilion County Airport.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.171 (37 F.R. 2056), the following control zone is added:

DANVILLE, ILL.

That airspace within a 5-mile radius of Vermilion County Airport (latitude 40°11'54'' N.; longitude 87°35'49'' W.). This control zone is effective during the specific dates and times established in advance by a Notice to Airmen. The effective date and time will thereafter be continuously published in the Airman's Information Manual.

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

DANVILLE, ILL.

That airspace extending upward from 700 feet above the surface within a 6½-mile radius of the Vermilion County Airport (latitude 40°11'54'' N.; longitude 87°35'49'' W.); and within 2 miles each side of the Danville VORTAC 196° radial extending from the 6½-mile radius to the VORTAC.

These amendments are proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348); and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on October 31, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

[Airspace Docket No. 72-GL-59]

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Port Clinton, Ohio.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

A new public instrument approach procedure has been developed for Keller Field, Port Clinton, Ohio. In addition, the criteria for designation of transition areas have been changed. Accordingly, it is necessary to alter the Port Clinton, Ohio, transition area to adequately protect the aircraft executing the new approach procedure.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

PORT CLINTON, OHIO

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Carl R. Keller Field, Port Clinton, Ohio (latitude 41°30'57'' N., longitude 82°51'58'' W.) within 3 miles each side of the 082° bearing from the airport extending from the 7-mile radius to 8 miles east of the airport.

This amendment is proposed under the authority of sections 307(a), of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C 1655(c)).

Issued in Des Plaines, Ill., on October 31, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

[14 CFR Part 71]

[Airspace Docket No. 72-GL-60]

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at DeKalb, Ill.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, 2300 East Devon Avenue, Federal Aviation Administration, Des Plaines, IL 60018. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

A new public use instrument approach procedure has been established for the DeKalb, Ill., Municipal Airport, based on the new airport NDB. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at DeKalb, Ill. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is added:

DEKALB, ILL.

That airspace extending upward from 700 feet above the surface within a 5-mile radius of the DeKalb Municipal Airport (latitude 41°55'45'' N.; longitude 88°43'00'' W.); and within 3.5 miles each side of the 097° bearing from the DeKalb Municipal Airport, extending from the 5-mile radius to 11.5 miles east of the airport; excluding that airspace that overlies the Chicago, Ill., transition area.

This amendment is proposed under the authority of section 307(a), of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655 (c)).

Issued in Des Plaines, Ill., on October 31, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

TRANSITION AREA

Proposed Designation

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to designate a transition area at Frankfort, Ill.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, 2300 East Devon Avenue, Federal Aviation Administration, Des Plaines, IL 60018. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

A new public use instrument approach procedure has been established for the Frankfort, Ill., airport, based on the Chicago Heights VORTAC. Consequently, it is necessary to provide controlled airspace protection for aircraft executing this new approach procedure by designating a transition area at Frankfort, Ill. The new procedure will become effective concurrently with the designation of the transition area.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

XUM
V37-225 NOV 21 72 XUM

In § 71.181 (37 F.R. 2143), the following transition area is added:

FRANKFORT, ILL.

That airspace extending upward from 700 feet above the surface within a 5½-mile radius of the Frankfort Airport (latitude 41°29'00" N.; longitude 87°51'00" W.); and within 3½ miles either side of the 261° radial from Chicago Heights VORTAC extending from the 5½-mile radius to 8½ miles east of the airport, excluding that portion that overlies the Chicago, Ill., transition area.

This amendment is proposed under the authority of section 307(a), of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on October 31, 1972.

TRANSITION AREA

Proposed Alteration

The Federal Aviation Administration is considering amending Part 71 of the Federal Aviation Regulations so as to alter the transition area at Marquette, Mich.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should be submitted in triplicate to the Director, Great Lakes Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018. All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. No public hearing is contemplated at this time, but arrangements for informal conferences with Federal Aviation Administration officials may be made by contacting the Regional Air Traffic Division Chief. Any data, views, or arguments presented during such conferences must also be submitted in writing in accordance with this notice in order to become part of the record for consideration. The proposal contained in this notice may be changed in the light of comments received.

A public docket will be available for examination by interested persons in the Office of the Regional Counsel, Federal Aviation Administration, 2300 East Devon Avenue, Des Plaines, IL 60018.

New public use instrument approach procedures have been developed for the Marquette, Mich., county airport. Accordingly, it is necessary to alter the Marquette transition area to adequately protect the aircraft executing the new approach procedures.

In consideration of the foregoing, the Federal Aviation Administration proposes to amend Part 71 of the Federal Aviation Regulations as hereinafter set forth:

In § 71.181 (37 F.R. 2143), the following transition area is amended to read:

MARQUETTE, MICH.

That airspace extending upward from 700 feet above the surface within a 7-mile radius of Marquette County Airport (latitude 46°32'-03" N., longitude 87°33'35" W.); within 4½ miles north and 9½ miles south of the Marquette ILS localizer west course extending from the 7-mile radius to 16 miles west; within 4½ miles north and 4½ miles south of the Marquette ILS localizer east course extending from the 7-mile radius to 16½ miles east; within an 8-mile radius of K. I. Sawyer AFB (latitude 46°21'15" N., longitude 87°23'40" W.); within 2 miles each side of the K. I. Sawyer AFB ILS localizer course extending from the 8-mile radius area to 12 miles south of the LOM; within 2 miles each side of the K. I. Sawyer AFB TACAN 183° radial, extending from the 8-mile radius area to 12 miles south of the TACAN; and within 2 miles east and 5 miles west of the K. I. Sawyer AFB TACAN 015° radial, extending from the 8-mile radius area to 12 miles north of the TACAN; and that airspace extending upward from 1,200 feet above the surface within a 40-mile radius of K. I. Sawyer AFB, excluding the portion which overlies the Escanaba, Mich., transition area.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348), and of section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Des Plaines, Ill., on October 31, 1972.

LYLE K. BROWN,
Director, Great Lakes Region.

[14 CFR Part 73]

[Airspace Docket No. 72-WA-56]

TEMPORARY RESTRICTED AREAS

Proposed Extension

The Federal Aviation Administration (FAA) is considering an amendment to Part 73 of the Federal Aviation Regulations which would extend the period of designation of temporary Restricted Areas R-5116 A and B at White Sands Proving Grounds, N. Mex.

Interested persons may participate in the proposed rule making by submitting such written data, views, or arguments as they may desire. Communications should identify the airspace docket number and be submitted in triplicate to the Director, Southwest Region, Attention: Chief, Air Traffic Division, Federal Aviation Administration, Post Office Box 1689, Fort Worth, TX 76101.

All communications received within 30 days after publication of this notice in the FEDERAL REGISTER will be considered before action is taken on the proposed amendment. The proposal contained in this notice may be changed in the light of comments received.

An official docket will be available for examination by interested persons at the Federal Aviation Administration, Office of the General Counsel, Attention: Rules Docket, 800 Independence Avenue SW., Washington, DC 20591. An informal docket also will be available for examination at the Office of the Regional Air Traffic Division Chief.

On August 5, 1972, an amendment to Part 73 of the Federal Aviation Regulations was published in the FEDERAL REGISTER (37 F.R. 15857) which designated temporary Restricted Areas R-5116 A and B for the period October 1, 1972, through March 31, 1973.

Subsequent to the publication of the rule, the Department of the Air Force submitted a further request for the designation of R-5116 A and B, from sunrise to sunset, for the period April 1, 1973, through June 30, 1973. The area would be activated for only a period of minutes during each launching of a Hound Dog Missile and the same procedures which are currently in effect would apply to this proposed designation. These procedures include: (1) Advance notification to the public, through all available news media and scheduled Flight Service Station broadcasts, of the activation of these areas, and (2) coordination by the Air Force with the Albuquerque ARTC Center so the missile launchings will have a minimum impact on air traffic operations.

The proposed amendment would extend the time of designation of Restricted Areas R-5116 A and B from April 1, 1973, through June 30, 1973.

This amendment is proposed under the authority of section 307(a) of the Federal Aviation Act of 1958 (49 U.S.C. 1348(a)) and section 6(c) of the Department of Transportation Act (49 U.S.C. 1655(c)).

Issued in Washington, D.C., on November 14, 1972.

PAUL W. ROBINSON,
Acting Chief, Airspace and Air Traffic Rules Division.

Federal Railroad Administration

[49 CFR Part 215]

[Docket RSFC-1; Notice 2]

RAILROAD FREIGHT CARS

Proposed Minimum Safety Standards; Extension of Time for Filing Comments; Notice of Public Hearing

On September 22, 1972, the Federal Railroad Administration published in the FEDERAL REGISTER a notice of proposed rule making to amend Chapter II of Subtitle B of Title 49 of the Code of Federal Regulations by adding a new Part 215 to provide minimum Federal safety standards for railroad freight cars (37 F.R. 19821). Proposed Part 215 also includes inspection requirements for railroad freight cars. December 1, 1972, was set as the date by which all written data, views, or comments were to be submitted to the Federal Railroad Administration.

The Association of American Railroads and the Railway Progress Institute have requested a 90-day extension of the date for the submission of written comments. In consideration of these requests, the Federal Railroad Administration has decided to extend the comment period 45 days. Accordingly, comments received before January 15, 1973, will be considered by the Federal Railroad Administrator before taking final action on the proposed standards.

Communications should identify the regulatory docket number and notice number and should be submitted in triplicate to the Docket Clerk, Office of Chief Counsel, Federal Railroad Administration, Attention: Docket No. RSFC-1, 400 Seventh Street SW., Washington, DC 20590. All comments received will be available for examination by interested persons at any time during regular working hours in Room 5428, Nassif Building, 400 Seventh Street SW., Washington, DC. The proposals contained in the notice of proposed rule making may be changed in light of comments received.

In light of the extension of time granted for receipt of comments, the dates prescribed in proposed §§ 215.23 and 215.25 must be changed as follows: (1) The date after which railroad freight cars must be visually inspected, as provided in § 215.23(a), shall be six (6) months after the effective date of the proposed new part; (2) the date by which each railroad shall submit three copies of its instructions for visual inspection of railroad freight cars, as provided in § 215.23(b), shall be 30 days after the effective date of the proposed new part; and (3) the date by which each railroad shall submit three copies of its program for periodic inspection of railroad freight cars, as provided in § 215.25(c), shall be 30 days after the effective date of the proposed new part.

In addition, to provide all interested persons an opportunity for oral presentation, the FRA will conduct a public hearing at 10 a.m. on January 23, 1973, in room 5332, Nassif Building, 400 Seventh Street SW., Washington, DC.

The hearing will be an informal one, not a judicial or evidentiary type of hearing. There will be no cross-examination of persons making statements. A staff member of the FRA will make an opening statement outlining the matter set for hearing. Interested persons will then have an opportunity to present their oral statements. At the completion of all initial oral statements, those persons who wish to make rebuttal statements will be given the opportunity to do so in the same order in which they made their initial statements. Additional procedures for conducting the hearing will be announced at the hearing.

Interested persons may present oral or written statements at the hearing. All statements will be made a part of record of the hearing and be a matter of public record. Persons who wish to make oral statements at the hearing should notify the Docket Clerk, Office of the Chief Counsel, Federal Railroad Administration, 400 Seventh Street SW., Washington, DC 20590, before January 23, 1973, stating the amount of time required for initial statement.

This notice is issued under the authority of the Federal Railroad Safety Act of 1970, 84 Stat. 971 et seq., 45 U.S.C. 421 et seq.; and § 1.49(n) of the regulations of the Office of the Secretary of Transportation, 49 CFR 1.49(n).

Issued in Washington, D.C., on November 16, 1972.

HENRI F. RUSH, Jr.,
Deputy Federal Railroad Administrator.

CIVIL AERONAUTICS BOARD

[14 CFR Parts 207, 208, 212, 214]

[Docket No. 24788; EDR-233A]

FOREIGN ROUTE AIR CARRIERS AND FOREIGN CHARTER AIR CARRIERS

Protection of Customers' Deposits; Extension of Time

NOVEMBER 16, 1972.

The Board, by circulation of notice of proposed rule making EDR-233, dated September 28, 1972, and published at 37 F.R. 21347, gave notice that it had under consideration proposed amendments to Parts 207, 208, 212, and 214 of its Economic Regulations (14 CFR Parts 207, 208, 212, 214). These proposals would require supplemental air carriers, certificated route air carriers, and, to the extent that they operate charter trips originating in the United States, foreign route air carriers and foreign charter air carriers, to provide security protection for customers' deposits made with said carriers as advance payment for charter flights in the manner prescribed therein. Interested persons were invited to participate by submission of twelve (12) copies of written data, views, or arguments pertaining thereto to the Docket Section of the Board on or before November 20, 1972.

On November 13, 1972, counsel for Overseas National Airways, Inc. (ONA), requested a 30-day extension of time for filing comments. The request alleges that additional time is needed to circulate, to various supplemental carriers, draft comments which ONA hopes will form the basis for a joint submission by the supplemental industry. It is further maintained that the present filing deadline does not allow sufficient time for carriers to obtain from banks and other financial intermediaries information which, it asserts, is necessary for the preparation of meaningful comments. Counsel for Saturn Airways, Inc., has submitted a letter which also requests a 30-day extension of time to file comments.

The undersigned finds that good cause has been shown for an extension of time for filing comments, but for only 21 days. An extension of time beyond December 11, 1972, is not warranted and would hamper considerably the Board's desire to promulgate a final rule in this matter well in advance of the 1973 summer charter season. It is believed that an extension to December 11, which will provide a total of 65 days for responding, should be sufficient to enable carriers to gather the data they need to prepare comments.

Accordingly, pursuant to the authority delegated in § 385.20(d) of the Board's Organization Regulations, the undersigned hereby extends the time for submitting comments to December 11, 1972.

(Sec. 204(a), Federal Aviation Act of 1958, as amended, 72 Stat. 743, 49 U.S.C. 1324)

SECURITIES AND EXCHANGE COMMISSION

[17 CFR Part 270]

[Release No. IC-7486]

BOOKS AND RECORDS OF REGISTERED INVESTMENT COMPANIES

Use of Microfilming Process for Initial Maintenance and Preservation

Notice is hereby given, that the Securities and Exchange Commission has under consideration a proposal to amend Rule 31a-2(f) (17 CFR 270.31a-2(f)) under the Investment Company Act of 1940 (15 U.S.C. 80a-1 et seq.) to permit, under certain specified conditions, the books and records of registered investment companies to be initially maintained and preserved in the form of microfilm in lieu of hard copy paper printout.

In its present form, Rule 31a-2 requires the preservation in hard copy form of all records required to be maintained and preserved by Rule 31a-1 (17 CFR 270.31 a-1), except that the provisions of paragraph (f)(1) of Rule 31a-2 permit the substitution of microfilm after a period of 3 years following the creation of hard copy record.

By the proposed amendment, the hard copy maintenance and preservation requirements would be relaxed to permit the microfilming process to be used for the initial maintenance of records, and to authorize compliance with the preservation requirements of Rule 31a-2 in the form of immediate microfilm substitution for the hard copy record. It would be a condition of the amendment as proposed that a registered investment company availing itself of this procedure, or on whose behalf such procedure is employed, shall have readily available at all times appropriate reader-printer equipment for examination of the records by the Commission or by the directors of the investment company, as well as equipment for hard copy reproduction to be promptly furnished upon request of the directors or of the Commission and its examiners or other representatives. Moreover, as added protection against possible loss of records, the proposed amendment provides that a duplicate copy be made of all microfilm on a current basis and that such copy be stored separately from the original.

Books and records required to be maintained and preserved by investment advisers to registered investment companies pursuant to paragraphs (e) and (f) of Rule 31a-1 and paragraphs (d) and (e) of Rule 31a-2 would not be encompassed by the proposed amendment to Rule 31a-2(f). The books and records of such investment advisers are presently encompassed by the microfilm substitution provision in existing paragraph (f)(1) of Rule 31a-2 and they would, as a result of the proposed amendment to Rule 31a-2(f), become subject to the maintenance provisions of paragraph (g) of Rule 204-2 (17 CFR 275.204-2) under the Investment Advisers Act of 1940 (15 U.S.C. 80b-1 et seq.). That rule permits the substitution of microfilm for hard copy books and records of all registered investment advisers after a period of 2 years following the creation of the hard copy record.

Since subparagraph (1) of proposed Rule 31a-2(f) is substantially similar to the present Rule 17a-4(f) (17 CFR 240.17 a-4) under the Securities Exchange Act of 1934 (15 U.S.C. 78a et seq.), interested persons should refer to Securities Exchange Act Releases Nos. 8835 and 8875 (35 F.R. 4649, 7643) dealing with the proposal and the adoption of Rule 17a-4(f).

Persons who desire to avail themselves of the provisions of the proposed rule might, for general guidance on the matter of microfilm quality and care, refer to items 5 (g) and (h) under the caption, "General Instructions" contained in the Commission's Accounting Series Release No. 84 (17 CFR 257.315).

As proposed, amended Rule 31a-2(f) would read as follows:

Commission action. Part 270 of Chapter II of Title 17 of the Code of Federal Regulations is amended by revising paragraph (f) of § 270.31a-2.

As amended, § 270.31a-2(f) would read as follows:

§ 270.31a-2 Records to be preserved by registered investment companies, certain majority-owned subsidiaries thereof, and other persons having transactions with registered investment companies.

* * * * *

(f) (1) The records required to be maintained and preserved pursuant to paragraphs (a) through (d) of § 270.31a-1 and paragraphs (a) through (c) of this section may be immediately produced or reproduced on microfilm and be maintained and preserved for the required time in that form. If such microfilm substitution for hard copy is made by, or on behalf of, an investment company, such investment company shall: (i) At all times have available for examination of its records by the Commission, pursuant to section 31 of the Investment Company Act of 1940, or by the directors of such investment company, facilities for immediate, easily readable projection of the microfilm and for producing easily readable facsimile enlargements, (ii) arrange the records and index and file the films in such a manner as to permit the immediate location of any particular record, (iii) be ready at all times to provide, and immediately provide, any facsimile enlargement which the Commission, by its examiners or other representatives, or the directors of such investment company may request, and (iv) store separately from the original one other copy of the microfilm for the time required.

(2) Notwithstanding the provisions of paragraphs (a) through (e) of this section, any record, book, or other document may be destroyed in accordance with a plan previously submitted to and approved by the Commission. A plan shall be deemed to have been approved by the Commission if notice to the contrary has not been received within 90 days after submission of the plan to the Commission.

The amendment is proposed pursuant to the authority granted to the Commission in sections 31 (a) and (c) and 38(a) of the Investment Act of 1940, 15 U.S.C. 80a-30(a), 80a-30(c), and 80a-37(a).

All interested persons are invited to submit their views and comments on the above proposal in writing, to the Securities and Exchange Commission, Washington, D.C. 20549, on or before January 12, 1973. All such communications will be considered available for public inspection.

By the Commission, November 9, 1972.

[SEAL] RONALD F. HUNT,
Secretary.

DEPARTMENT OF STATE

Agency for International Development

HOUSING GUARANTY PROGRAM FOR DOMINICAN REPUBLIC

Information for Investors

The Agency for International Development (AID) has advised Banco Nacional de la Vivienda (the Borrower), an instrumentality of the Government of the Dominical Republic, that upon execution by an eligible U.S. investor acceptable to AID of an agreement to loan the Borrower an amount not to exceed $4 million, and subject to the satisfaction of certain further terms and conditions by the Borrower, AID will guarantee repayment to the investor of the principal and interest on such loan. The guaranty will be backed by the full faith and credit of the United States of America and will be issued pursuant to authority contained in section 222 of the Foreign Assistance Act of 1961, as amended (the Act). Proceeds of the loan will be used to construct housing projects in the Dominican Republic.

Eligible investors interested in extending a guaranteed loan to the Borrower should communicate promptly with:

John C. Peters, Esq., Kutak, Rock, Cohen, Campbell & Peters, 1700 Woodman Tower, Omaha, Nebr. 68102.

Investors eligible to receive a guaranty are those specified in section 238(c) of the Act. They are: (1) U.S. citizens; (2) domestic corporations, partnerships, or associations substantially beneficially owned by U.S. citizens; (3) foreign corporations whose share capital is at least 95 percent owned by U.S. citizens; and (4) foreign partnerships or associations wholly owned by U.S. citizens.

The estimated disbursement for the loan would be an initial disbursement on or before November 1, 1974, approximately nine intermediate disbursements of $300,000 each and the final disbursement on or before July 1, 1976. This disbursement schedule is approximate and will depend upon the progress of the housing projects.

To be eligible for a guaranty, the loan must be repayable in full no later than the 20th anniversary of the final disbursement of the principal amount thereof and the interest rate may be no higher than the maximum rate to be established by AID. AID will charge a guarantee fee equal to one-half of 1 percent per annum on the outstanding guaranteed principal amount of the loan.

Information as to eligibility of investors and other aspects of the AID-housing guaranty program can be obtained from:

Director, Office of Housing, Agency for International Development, Room 508, SA-16, Washington, D.C. 20523.

This notice is not an offer by AID or by the Borrower. The Borrower and not AID will select a lender and negotiate the terms of the proposed loan.

STANLEY BARUCH,
Director, Office of Housing, Agency for International Development.

Office of the Secretary

PIG IRON FROM BRAZIL

Notice of Tentative Negative Determination

NOVEMBER 17, 1972.

Information was received on March 6, 1972, that pig iron from Brazil was being sold at less than fair value within the meaning of the Antidumping Act, 1921, as amended (19 U.S.C. 160 et seq.) (referred to in this notice as "the Act"). This information was the subject of an "Antidumping Proceeding Notice" which was published in the FEDERAL REGISTER of April 12, 1972, on page 7262.

I hereby make a tentative determination that pig iron from Brazil is not being, nor likely to be, sold at less than fair value within the meaning of section 201(a) of the Act (19 U.S.C. 160(a)).

Statement of reasons on which this tentative determination is based. Information currently before the Bureau reveals that there are sufficient sales of pig iron in the home market to provide an adequate basis of comparison for fair value purposes.

Accordingly, the basis of comparison for fair value purposes was between purchase price or exporter's sales price, as appropriate, and the adjusted home market price of such or similar merchandise.

Purchase price was calculated by adding to the exfactory sales price, with no deductions, the Brazilian sales tax which was not collected by reason of exportation of the merchandise to the United States.

Exporter's sales price was calculated by deducting from the resale price of the related firm to purchasers in the United States, selling expenses, handling, and Customs clearance costs, ocean freight and insurance, and Brazilian and United States transportation charges. An addition was made for the Brazilian sales tax which was not collected by reason of exportation of the merchandise to the United States.

Adjusted home market price was calculated on the basis an exfactory price, including the Brazilian sales tax, with deductions for finance costs, commissions, and advertising costs, as applicable.

Comparisons between purchase price and exporter's sales price, as appropriate, and the adjusted home market price, revealed that purchase price or exporter's sales price was not lower than the adjusted home market price.

In accordance with § 153.33(b), Customs Regulations (19 CFR 153.33(b)), interested parties may present written views or arguments, or request in writing that the Secretary of the Treasury afford an opportunity to present oral views.

Any requests that the Secretary of the Treasury afford an opportunity to present oral views should be addressed to the Commissioner of Customs, 2100 K Street NW., Washington, DC 20226, in time to be received by his office not later than 10 calendar days from the date of publication of this notice in the FEDERAL REGISTER.

Any written views or arguments should likewise be addressed to the Commissioner of Customs in time to be received by his office not later than 30 days from the date of publication of this notice in the FEDERAL REGISTER.

This tentative determination and the statement of reasons therefor are published pursuant to § 153.33 of the Customs Regulations (19 CFR 153.33).

[SEAL] EUGENE T. ROSSIDES,
Assistant Secretary of the Treasury.

DEPARTMENT OF AGRICULTURE

Soil Conservation Service

MENDOTA WATERSHED PROJECT, ILLINOIS

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Mendota watershed project, LaSalle County, Ill., USDA-SCS-ES-WS-(ADM)-73-20(D).

The environmental statement concerns a plan for watershed protection and flood prevention. The planned works of improvement include conservation land treatment, supplemented by one floodwater retarding structure, four floodwater detention structures and 4,600 feet of channel modification.

This draft environmental statement was transmitted to the Council on Environmental Quality on November 14, 1972.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, D.C. 20250

Soil Conservation Service, USDA, Illinois State Office, Post Office Box 678, 200 West Church Street, Champaign, Ill. 61820

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151.

Mendota Watershed Project, Illinois, Notice of Availability of Draft Environmental Statement

Please use name and number of statement above when ordering. The estimated cost is $3.25.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments concerning the proposed action or requests for additional information should be addressed to Howard W. Busch, State Conservationist, Post Office Box 678, 200 West Church Street, Champaign, Ill. 61820.

Comments must be received within 60 days of the date the statement was transmitted to CEQ in order to be considered in the preparation of the final environment statement.

EUGENE C. BUIE,
Acting Deputy Administrator for Watersheds, Soil Conservation Service.

UPPER MULBERRY RIVER WATERSHED PROJECT, GEORGIA

Notice of Availability of Draft Environmental Statement

Pursuant to section 102(2)(C) of the National Environmental Policy Act of 1969, the Soil Conservation Service, U.S. Department of Agriculture, has prepared a draft environmental statement for the Upper Mulberry River watershed project, Barrow, Gwinnett, Hall, and Jackson Counties, Ga., USDA-SCS-ES-WS-(ADM)-72-29(D).

The environmental statement concerns a plan for watershed protection, flood prevention, and municipal water supply. The planned works of improvement include conservation land treatment, supplemented by seven floodwater retarding structures, two multiple-purpose reservoirs with municipal and industrial water storage capacity, approximately 8,750 feet of channel clearing and snagging, about 16.3 miles of stream bank protection, and 241 acres of road bank stabilization.

This draft environmental statement was transmitted to CEQ on September 26, 1972.

Copies are available during regular working hours at the following locations:

Soil Conservation Service, USDA, South Agriculture Building, Room 5227, 14th and Independence Avenue SW., Washington, D.C. 20250

Soil Conservation Service, USDA, Heritage Building, 468 North Milledge Avenue, Post Office Box 832, Athens, GA 30601

Upper Mulberry River Watershed Project, Georgia; Notice of Availability of Draft Environmental Statement.

Copies are also available from the National Technical Information Service, U.S. Department of Commerce, Springfield, Va. 22151. Please use the name and number of statement above when ordering. The estimated cost is $3.25.

Copies of the draft environmental statement have been sent for comment to various Federal, State, and local agencies as outlined in the Council on Environmental Quality Guidelines. Comments are also invited from others having knowledge of or special expertise on environmental impacts.

Comments must be received within 30 days of the date of this notice in order to be considered in the preparation of the final environmental statement.

EUGENE C. BUIE,
Acting Deputy Administrator for Watersheds, Soil Conservation Service.

DEPARTMENT OF COMMERCE

Maritime Administration

[Docket No. S-311]

AMERICAN TRADING TRANSPORTATION CO., INC.

Notice of Application

Notice is hereby given that application has been filed under the Merchant Marine Act of 1936, as amended, for operating-differential subsidy with respect to bulk cargo carrying service in the U.S. foreign trade, principally between the United States and the Union of Soviet Socialist Republics, to expire on June 30, 1973 (unless extended only for subsidized voyages in progress on that date). Inasmuch as the below listed applicant, and/or related persons or firms, employ ships in the domestic, intercoastal, or coastwise service, written permission of the Maritime Administration under section 805(a) of the Merchant Marine Act, 1936, as amended, will be required for each such applicant if its application for operating-differential subsidy is granted.

The following applicant has requested permisson involving the domestic, intercoastal, or coastwise services described below:

Name of applicant: American Trading Transportation Co., Inc. (Attco).

Description of domestic service and vessels: The applicant, Attco, is a subsidiary of American Trading and Production Corp. (Atapcorp), which company and other related companies operate in the domestic trades shown below, and requests written permission for the continuance of such services with the

right to move any vessel from one domestic trade to another and/or from a foreign trade to a domestic trade.

The following U.S. flag vessels of the applicant, all have coastwise privileges, operate or may operate in various domestic trades, commercially, under charter to the Military Sealift Command (MSC) or others:

American Trader (MSC).
Texas Trader (MSC).
Maryland Trader (MSC).
Baltimore Trader.
Virginia Trader.
Washington Trader.

Atapcorp also has substantial stock interests in Standard Oil Co. (Indiana) and Standard Oil Co. (New Jersey) and is the largest stockholder of Crown Central Petroleum Corp. The first two companies and their affiliates own and charter vessels for carriage of petroleum and its products in the domestic trade and the third occasionally charters vessels for domestic carriage of petroleum and its products. Atapcorp exercises no control over the ownership, operation, or charter of any tankers by any of these three companies.

Written permission is now required by the applicant, Attco, notwithstanding that a voyage in the proposed service for which subsidy is sought would not be eligible for subsidy if the vessels carried domestic commerce of the United States on that voyage.

Interested parties may inspect this application in the Office of the Secretary, Maritime Administration, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235.

Any person, firm, or corporation having any interest (within the meaning of section 805(a)) in the application and desiring to be heard on issues pertinent to section 805(a) or desiring to submit comments or views concerning the application must, by close of business on November 29, 1972, file same with the Maritime Administration, in writing, in triplicate, together with petition for leave to intervene which shall state clearly and concisely the grounds of interest, and the alleged facts relied on for relief.

If no petitions for leave to intervene are received within the specified time or if it is determined that petitions filed do not demonstrate sufficient interest to warrant a hearing, the Maritime Administrator will take such action as may be deemed appropriate.

In the event petitions regarding the relevant section 805(a) issues are received from parties with standing to be heard, a hearing has been tentatively scheduled for 10 a.m., December 1, 1972, in Room 4896, Department of Commerce Building, 14th and E Streets NW., Washington, D.C. 20235. The purpose of the hearing will be to receive evidence under section 805(a) relative to whether the proposed operation (a) could result in unfair competition to any person, firm, or corporation operating exclusively in the coastwise or intercoastal services, or (b) would be prejudicial to the objects and policy of the Act.

By order of the Maritime Administration.

Dated: November 17, 1972

JAMES S. DAWSON, Jr.,
Secretary.

[FR Doc.72-20153 Filed 11-20-72;8:56 am]

National Bureau of Standards

COLOR MARKING FOR ANESTHETIC GAS CYLINDERS

Notice of Intent To Withdraw Voluntary Product Standard

In accordance with § 10.12 of the Department of Commerce Procedures for the Development of Voluntary Product Standards (15 CFR Part 10, as revised, 35 F.R. 8349 dated May 28, 1970), notice is hereby given of the Department's intent to withdraw Simplified Practice Recommendation SPR 176-41, "Color Marking for Anesthetic Gas Cylinders." It has been tentatively determined, with the concurrence of the majority of the Standing Committee for SPR 176-41, that the standard is no longer generally acceptable to and used by the industry, is inconsistent with established policy, and revision is not feasible or would serve no useful purpose. The basis for this determination is primarily the existence of the following more current standards which relate to the identification and safety aspects for medical gas containers:

American National Standards Institute (ANSI) Z 48.1-1954 (1970), "Methods for Marketing Portable Compressed Gas Containers to Identify the Material Contained".

ANSI B 57.1-1965, "Compressed Gas Cylinder Valve Outlet and Inlet Connections (pin-index safety system)".

National Fire Protection Association (NFPA) 56 A-1971, "Inhalation Anesthetics (Flammable and Nonflammable)".

Military Standard 1018, Dec. 1970, "Color Code for Pipelines and Compressed Gas Cylinders".

Compressed Gas Association C-7, "Guide to the Preparation of Precautionary Labeling and Marketing of Compressed Gas Containers".

Department of the Army Technical Bulletin TB 34-9-127, "Colors for Medical Gas Cylinders".

International Organization for Standardization (ISO) R 32, "Identification of Medical Gas Cylinders".

Any comments or objections concerning the intended withdrawal of SPR 176-41 should be made in writing and directed to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, within 45 days of the publication of this notice. The effective date of withdrawal will be not less than 60 days after the final notice of withdrawal. Withdrawal action will terminate the authority to refer to the standard as a voluntary standard developed under the Department of Commerce procedures, from the effective date of the withdrawal.

Dated: November 16, 1972.

LAWRENCE N. KUSHNER,
Acting Director, National Bureau of Standards.

[FR Doc.72-20053 Filed 11-20-72;8:54 am]

CERTAIN HOSPITAL SUPPLIES

Notice of Intent To Withdraw Voluntary Product Standards

In accordance with § 10.12 of the Department of Commerce Procedures for the Development of Voluntary Product Standards (15 CFR Part 10, as revised, 35 F.R. 8349 dated May 28, 1970), notice is hereby given of the Department's intent to withdraw the 12 standards identified below. As a result of a review of these standards with interested industry and hospital groups, it has been tentatively determined that each of these Commercial Standards (CS) and Simplified Practice Recommendations (SPR) are obsolete, no longer technically adequate, and no longer generally acceptable to and used by the interested groups. Also it has been tentatively determined that revision of the standards would serve no useful purpose because of the existence of current Federal specifications for the products. (SPR 239-50 is also covered by U.S. Pharmacopeia.)

CS ------	54-35	Mattresses for hospitals.
CS ------	55-35	Mattresses for institutions.
CS ------	114-43	Hospital sheeting for mattresses protection.
CS ------	136-48	Blankets for hospitals (wool, and wool and cotton).
CS ------	146-47	Gowns for hospital patients.
SPR ----	24-37	Hospital beds.
SPR ----	85-52	Adhesive plaster.
SPR ----	86-52	Surgical gauze.
SPR ----	133-57	Surgical dressings.
SPR ----	224-47	Medical and surgical hypodermic needles (for hospital use).
SPR ----	239-50	Surgical sutures—Nonboilable type (catgut, silk, nylon).
SPR ----	240-50	Clinical utensils (aluminum, enameled steel, stainless steel).

Any comments or objections concerning the intended withdrawal of any of these standards should be made in writing and directed to the Office of Engineering Standards Services, National Bureau of Standards, Washington, D.C. 20234, within 45 days of the publication of this notice. The effective date of withdrawal will be not less than 60 days after the final notice of withdrawal. Withdrawal action will terminate the authority to refer to the standards as voluntary standards developed under the Department of Commerce procedures, from the effective date of the withdrawal.

Dated: November 16, 1972.

LAWRENCE M. KUSHNER,
Acting Director, National Bureau of Standards.

V37-225 NOV 21 72 XUM

National Oceanic and Atmospheric Administration

CHESAPEAKE BAY, MD.

Determination of Commercial Fishery Failure Due to Resource Disaster

Whereas, many individuals and firms in Maryland are engaged in harvesting, processing, and marketing oysters and softshell clams; and

Whereas, the oyster and softshell clam resources in the Maryland waters of Chesapeake Bay make an important contribution to the economy of the State, with an annual potential of 2,800,000 bushels of oysters valued at about $50 million and 508,000 bushels of softshell clams valued at nearly $18 million; and

Whereas, damage and destruction to the oyster and softshell clam resources from an extended period of low salinity waters, an extended period of high water temperatures, and die-off of shellfish food resulting from Hurricane Agnes, a natural cause, ranged from about a 30 percent mortality in the oyster crop to a nearly total loss of the softshell clam resource; and

Whereas, total economic losses over the next 4 years are projected at more than $130 million unless immediate measures are taken to restore the affected resources; and

Whereas, effective measures to restore the oyster and softshell clam resources are possible through transplants of brood stock, artificial propagation, and shell planting;

Now, therefore, as the authorized representative of the Secretary of Commerce, I hereby determine that the foregoing circumstances constitute a commercial fishery failure due to a resource disaster arising from natural causes within the meaning of subsection 4(b) of the Commercial Fisheries Research and Development Act as amended. Pursuant to this determination, I hereby authorize the use of funds under the Act to restore and put back into production the damaged oyster and softshell clam resources in the Maryland waters of the Chesapeake Bay.

ROBERT M. WHITE,
Administrator, National Oceanic and Atmospheric Administration.

[FR Doc.72-19943 Filed 11-20-72;8:45 am]

CHESAPEAKE BAY, VA.

Determination of Commercial Fishery Failure Due to Resource Disaster

Whereas, many individuals and firms in Virginia are engaged in harvesting, processing, and marketing oysters to meet consumer demand; and

Whereas, the oyster resources in the Virginia waters of Chesapeake Bay and tributaries make an important contribution to the economy of the State with an annual production potential of more than 1 million bushels of oysters with a dockside value of about $5 million; and

Whereas, mortalities of oyster stocks from prolonged exposure to fresh water resulting from Hurricane Agnes, a natural cause, ranged up to 90 percent in the major growing and seed areas of the Potomac, York, and James Rivers; and

Whereas, it is known that the damaged oyster resource can be effectively and economically restored through transplants of brood stock, shell planting, and planting of hatchery produced seed;

Now, therefore, as the authorized representative of the Secretary of Commerce, I hereby determine that the foregoing circumstances constitute a commercial fishery failure due to a resource disaster arising from natural causes within the meaning of subsection 4(b) of the Commercial Fisheries Research and Development Act as amended. Pursuant to this determination, I hereby authorize the use of funds under the Act to restore and put back into production the damaged oyster resource in the Virginia waters of the Chesapeake Bay and tributaries.

ROBERT M. WHITE,
Administrator, National Oceanic and Atmospheric Administration.

Office of Import Programs

THOMAS JEFFERSON UNIVERSITY ET AL.

Notice of Applications for Duty-Free Entry of Scientific Articles

The following are notices of the receipt of applications for duty-free entry of scientific articles pursuant to section 6(c) of the Educational, Scientific, and Cultural Materials Importation Act of 1966 (Public Law 89-651; 80 Stat. 897). Interested persons may present their views with respect to the question of whether an instrument or apparatus of equivalent scientific value for the purposes for which the article is intended to be used is being manufactured in the United States. Such comments must be filed in triplicate with the Director, Special Import Programs Division, Office of Import Programs, Washington, D.C. 20230, within 20 calendar days after the date on which this notice of application is published in the FEDERAL REGISTER.

Amended regulations issued under cited Act as published in the February 24, 1972, issue of the FEDERAL REGISTER, prescribe the requirements applicable to comments.

A copy of each application is on file, and may be examined during ordinary Commerce Department business hours at the Special Import Programs Division, Department of Commerce, Washington, D.C.

Docket No. 73-00204-33-46040. Applicant: Stein Research Center, Jefferson Medical College, Thomas Jefferson University, 920 Chancellor Street, Philadelphia, PA 19107. Article: Electron microscope, Model EM 9S-2. Manufacturer: Carl Zeiss, West Germany. Intended use of article: The article is intended to be used to study transplacental activity, and yolk sac morphology, and to further elucidate the mechanism by which abnormal development proceeds. The article will also be used as an educational tool for predoctoral, postdoctoral, and medical students in electron microscopy techniques. Application received by Commissioner of Customs: October 25, 1972.

Docket No. 73-00205-01-77030. Applicant: University of Vermont, Burlington, Vt, 05401. Article: NMR spectrometer, Model JNM-C-60-HL. Manufacturer: JEOL, Ltd., Japan. Intended use of article: The article is intended to be used in the following research studies:

1. Phosphorus-nitrogen chemistry; structure and bonding from ^{19}F and ^{31}P nmr data.
2. Structural chemistry via ^{13}C nmr with proton noise decoupling.
3. Bonding studies involving phenylphosphorus bonding studied by ^{13}C nmr.
4. 60 MHz proton nmr experiments.
5. Organic stereochemistry by ^{19}F nmr of induced $-CF_3$ groups; and
6. Stereochemistry of six-coordinate tin complexes with fluorinated ligands.

The article will also be used for education in chemistry courses for graduate and undergraduate students. Application received by Commissioner of Customs: October 26, 1972.

Docket No. 73-00206-33-77040. Applicant: Harvard University, Purchasing Department, 75 Mount Auburn Street, Cambridge, MA 02138. Article: X-ray Microanalyzer, Cameca Model MS 46. Manufacturer: CAMECA, France. Intended use of article: The article is intended to be used for the following general purposes:

1. To establish techniques for preparation and analysis of liquid samples of less than 0.1 nanoliters.
2. To establish techniques for preparation and analysis of tissue samples which preserve the subcellular localization of endogeneous soluble compounds and ionic species.
3. To establish techniques for identification and quantification of histochemical reaction products and electron dense materials produced by both new and conventional techniques.
4. To establish a "cold-tracer" methodology, analyzing the distribution within tissues of typical biological compounds bearing elemental labels.
5. To determine the instrumental requirements unique to biomedical electron probe work through experience, and to achieve these through equipment modification and development of specifications.
6. To speed the introduction of even newer microanalytical methods, such as direct-imaging mass spectroscopy (the "ion probe") and nonionic imaging devices, by serving as a link between medical scientists and instrumental research programs at MIT and elsewhere.

Specific research aims are as follows:

(1) Study of the intracellular ionic composition of kidney tubules in different diuretic states and in hypertension due to cadmium;

(2) Analysis of the elemental content of various fluids which occur within the early embryo and its immediate environment;

(3) Study of fluorine distribution and the effect of trace metals in binding fluorine to apatite;

(4) Study of localization of zinc and cadmium in spermatozoa, spermatogenesis and the accessory glands of the male reproduction tract;

(5) Study of the role of calcium turnover in uterine and ovarian tissue and the effects of gonadotrophin and prostaglandin;

(6) Study of the gastrointestinal tract (localization of zinc in pancreas, the localization in the mucosa of the actual agents used to experimentally disrupt the gastric barrier);

(7) Attempt to quantify standard ultrastructural cytochemical techniques which utilize metals as capture reagents;

(8) Defining the composition of renal ultrafiltrate and determining whether the filtrate composition changes in responses to circulating hormones; and

(9) Test of blood cells homogeneity with regard to ion distribution and chemical composition of the cell membrane.

STATISTICS ON STEEL IMPORTS

Availability of New Information Series

The Department of Commerce, in cooperation with the Departments of State and the Treasury, announces that it will issue a new statistical information series on importation of steel mill products covered by (1) the May 4, 1972, declaration of the Japan Iron and Steel Exporters' Association of its intention to extend through December 31, 1974, its limitations on exports of steel mill products to the United States, and (2) the May 2, 1972, declaration of the Association of the Steel Producers of the European Coal and Steel Community and the Association of Steel Producers of the United Kingdom of their intention to limit through December 31, 1974, exports of steel mill products to the United States.

Data will be collected and processed by the Bureau of Customs of the Department of the Treasury and the Bureau of the Census of the Department of Commerce. The data will show imports by country of origin of stainless steel, tool steel, alloy steel, carbon steel, fabricated structural steels, and cold finished bars; category groupings and product mix; and regional areas of entry. All statistics will be based on date of exportation and will be shown in metric tons. These data will be accompanied by an analysis prepared by the Department of Commerce.

A limited number of copies of these statistical reports will be available from the Commerce and Treasury Departments in Washington, D.C. No mailing list will be maintained. Address inquiries to U.S. Department of Commerce, Office of Import Programs, Washington, D.C. 20230, or to the Department of the Treasury, Office of Tariff and Trade Affairs, Washington, D.C. 20220.

A reference copy of these statistical reports also will be available in selected Business Services Field Offices of the Department of Commerce as listed below:

Atlanta, GA 30309, Suite 523, 1401 Peachtree Street NE.
Baltimore, MD 21202, 415 U.S. Customhouse, Gay and Lombard Streets.

LIPID METABOLISM AND NATIONAL BLOOD RESOURCE PROGRAM ADVISORY COMMITTEES

Notice of Meetings

Pursuant to Executive Order 11671 notice is hereby given of meetings of the following committees and the executive secretaries from whom substantive information may be obtained.

Committee, Date, Time, and Location of Meeting
Lipid Metabolism Advisory Committee, December 7, 1972, 9 a.m.–5 p.m., NIH Building 31, Room 5A24, Bethesda, Md.
Mrs. Edna Wilkerson, 496–1681, NIH Building 31, Room 4A19, Bethesda, Md.
National Blood Resource Program Advisory Committee, December 18–19, 1972, 9 a.m.–5 p.m., Main Campus, University of Arizona, Board of Regents Conference Room, Tucson, Ariz.
Dr. James M. Stengle, 496–9511, NIH Building 31, Room 4A03, Bethesda, Md.

Dr. Jerome G. Green, Director, Division of Extramural Affairs, National Heart and Lung Institute, Westwood Building, Room 5A14, NIH, 496–7416, will furnish summaries of the meetings and rosters of the committee members.

These meetings shall be closed to the public in accordance with section 13(d) of Executive Order 11671 and the Secretary's determination, in order to review, discuss and evaluate and/or rank contract proposals.

Dated: November 13, 1972.

JOHN F. SHERMAN,
Deputy Director,
National Institutes of Health.

[FR Doc.72–20025 Filed 11–20–72;8:55 am]

MEDICAL DEVICES APPLICATIONS COMMITTEE

Notice of Public Meeting

Pursuant to Executive Order 11671, notice is hereby given of the meeting of the Medical Devices Applications Committee, December 18, 1972, at 9 a.m., National Institutes of Health, Building 31, Conference Room 6. The agenda will include reports from the staff on a number of activities of the Division of Technological Applications, and a discussion of how the artificial heart program is viewed by the scientific community and the public. The meeting will be open to the public from 9 a.m. to 5 p.m.

Mr. Hugh Jackson, Information Officer, NHLI, Building 31, Room 4A10, National Institutes of Health, 496–4236, will furnish summaries of the meeting and rosters of the committee members. Substantive information may also be obtained from the Executive Secretary, Mr. Philip Janus, NHLI, Building 31, Room 5A04, NIH, 496–2395.

Dated: November 13, 1972.

JOHN F. SHERMAN,
Deputy Director,
National Institutes of Health.

NATIONAL EYE INSTITUTE BOARD OF SCIENTIFIC COUNSELORS

Notice of Meeting

Pursuant to Executive Order 11671, notice is hereby given of the meeting of the Board of Scientific Counselors, NEI, December 4–5, 1972, at 9 a.m., National Institutes of Health, Building 31, Room 6A–21. This meeting will be open to the public from 9 a.m. to 10 a.m., December 4, at which time Dr. Carl Kupfer, Director, National Eye Institute, will present an overview of Institute intramural research activities. The meeting will be closed to the public 10 a.m. to 5 p.m., December 4 and 9 a.m. to 4 p.m., December 5 to review specific intramural research projects under consideration or in progress and to consider and formulate advice on the intramural research programs. This portion will be closed in accordance with the Secretary's Determination of September 27, 1972.

Mr. Julian Morris, Information Officer, NEI, Building 31, Room 6A–27, National Institutes of Health, 496–5248, will furnish summaries of the meeting and rosters of the committee members. Substantive information may also be obtained from Dr. Carl Kupfer, Director, NEI, Building 31, Room 6A–03, National Institutes of Health, 496–2234.

Dated: November 13, 1972.

JOHN F. SHERMAN,
Deputy Director,
National Institutes of Health.

SICKLE CELL DISEASE ADVISORY COMMITTEE

Notice of Public Meeting

Pursuant to Executive Order 11671, notice is hereby given of the meeting of the Sickle Cell Disease Advisory Committee, December 14 and 15, 1972, National Institutes of Health, Building 31, Conference Room 6. The agenda items will generate discussion on subcommittee reports and program staff reports. The meeting will be open to the public from 10:30 a.m. to 5:30 p.m. on December 14, and from 8:30 a.m. to 5:30 p.m. on December 15.

Mr. Hugh Jackson, Information Officer, NHLI, Building 31, Room 4A10, National Institutes of Health, 496–4236, will furnish summaries of the meeting and rosters of the committee members. Substantive information may also be obtained from the Executive Secretary, Mr. Howard F. Manly, NHLI, Building 31, Room 5A21, NIH, 496–6931.

Dated: November 13, 1972.

JOHN F. SHERMAN,
Deputy Director,
National Institutes of Health.

[FR Doc.72–20027 Filed 11–20–72;8:55 am]

Public Health Service

NATIONAL INSTITUTE OF ARTHRITIS, METABOLISM, AND DIGESTIVE DISEASES

Establishment of Program of Digestive Diseases and Nutrition Centers

Notice is hereby given that the National Institute of Arthritis, Metabolism, and Digestive Diseases, under authority of section 301 and Title IV, Part D of the Public Health Service Act, as amended (42 U.S.C. 241, 289 et seq.), intends to support a number of Digestive Diseases and Nutrition Centers. Initially, only centers in which the research emphasis is in the areas of obesity, peptic ulcer, and hepatitis and cirrhosis will be supported. The scientific community will be informed when the support is expanded to centers in other areas of research.

The objectives of the Digestive Diseases and Nutrition Centers are to establish environments for the development of new and multidisciplinary research approaches to human digestive and nutritional diseases and for the acquisition of new knowledge essential for improved diagnosis, treatment, and prevention of these diseases. The centers are conceived as supporting scientific personnel, administration, conduct of research, and central support services to accomplish research goals that would not otherwise be possible.

A center grant application, prepared on Form PHS 398 "Application for Research Grant," will be reviewed by a special study section of the Division of Research Grants, composed of NIH consultants, and by the National Arthritis, Metabolism, and Digestive Diseases Advisory Council. A grant-supported center will also receive continuing review and evaluation by NIH staff and consultants.

In order that applications may be eligible for funding during the present fiscal year, a special deadline of April 1, 1973, has been established for the receipt of applications for Digestive Diseases and Nutrition Centers. To facilitate the planning of the review of these applications a "letter of intent" to submit an application should be sent to the Associate Director for Digestive Diseases and Nutrition, NIAMDD (address below), by January 1, 1973. Subsequently, new Center applications will be reviewed only once annually with a deadline of October 1, for receipt of applications.

Additional information and applications may be obtained by writing:

Associate Director for Digestive Diseases and Nutrition, Westwood Building, Room 603, National Institute of Arthritis, Metabolism, and Digestive Diseases, National Institutes of Health, Bethesda, Md. 20014. Telephone: Area Code 301—496–7455.

Dated: November 8, 1972.

ROBERT Q. MARSTON,
Director,
National Institutes of Health.

ATOMIC ENERGY COMMISSION

[Docket No. 50–382]

LOUISIANA POWER & LIGHT CO.

Notice and Order for Prehearing Conference

The Atomic Energy Commission, by a notice of hearing dated August 7, 1972, and published in the FEDERAL REGISTER on August 16, 1972, at volume 37, page 16562, gave notice that a hearing would be held, at a time and place to be set in the future by an atomic safety and licensing board, to consider an application filed under the Atomic Energy Act of 1954 by Louisiana Power & Light Co. The application is for a construction permit for a pressurized water nuclear power reactor designated as the Waterford Steam Electric Station, Unit 3, to be located on the west bank of the Mississippi River near the town of Taft in St. Charles Parish, about 20 miles west of New Orleans, La. As indicated in that notice of hearing, the issues to be determined by the atomic safety and licensing board are those identified in the notice pursuant to the Atomic Energy Act of 1954 and the National Environmental Policy Act of 1969.

A notice dated October 24, 1972, published in the FEDERAL REGISTER on October 26, 1972 at volume 37, page 22895, announced the appointment of an atomic safety and licensing board in this proceeding consisting of Dr. Emmeth A. Luebke, Dr. Gerard A. Rohlich, and Sidney G. Kingsley, Chairman, with Dr. J. V. Leeds, Jr., as a technically qualified alternate and Thomas W. Reilly as alternate chairman.

Both the notice of hearing and the notice of appointment of the atomic safety and licensing board announced that the date and place of a prehearing conference and of a hearing would be scheduled by the atomic safety and licensing board and would be published in the FEDERAL REGISTER.

Please take notice that a special prehearing conference will be held pursuant to § 2.751a of the Commission's rules of practice (Title 10, Code of Federal Regulations, Part 2) at 9 a.m. local time on December 20, 1972, at Room 209, 600 Camp Street, New Orleans, LA, to:

1. Permit identification of the key issues in the proceeding;
2. Take any steps necessary for further identification of the issues;
3. Hear oral argument on and consider petitions for intervention, in order to allow the atomic safety and licensing board to make such preliminary or final determinations as to the parties in the proceeding as may be appropriate;
4. Establish a schedule for further actions in the proceeding.

In addition to the purposes which have been specified, the special prehearing conference will take such further action as may be appropriate and practicable at that time, pursuant to § 2.752 of the rules of practice, to consider:

1. Simplification, clarification, and specification of the issues;
2. The necessity or desirability of amending the pleadings;
3. Stipulations and admissions of fact and of the contents and authenticity of documents in order to avoid unnecessary proof;
4. Identification of witnesses and the limitation of the number of expert witnesses, and other steps to expedite the presentation of evidence;
5. Establishment of a hearing schedule; and
6. Such other action as may aid in the orderly disposition of the proceeding.

Members of the public are entitled to attend this special prehearing conference and any later prehearing conferences, as well as the evidentiary hearing to be held at a later date to be fixed by the atomic safety and licensing board.

The special prehearing conference will be limited to the purposes specified, in preparation for the later evidentiary hearing. No evidence will be received at this prehearing conference, nor will there be an opportunity at the prehearing conference to present statements by members of the public who wish to make limited appearances for that purpose. All applications for permission to make limited appearances for the purpose of

XUM
V37-225 NOV 21 72 XUM

making such statements will be ruled upon by the atomic safety and licensing board at the evidentiary hearing to be held later.

It is ordered, That counsel for the applicant, the regulatory staff of the Commission, and applicants for intervention shall conduct such informal conferences, including telephone conferences, to the extent that they may be practicable, to expedite the proceeding and in particular to advance the purposes of the special prehearing conference.

Dated this 16th day of November 1972 at Washington, D.C.

ATOMIC SAFETY AND LICENSING BOARD,
SIDNEY G. KINGSLEY,
Chairman.

[Dockets Nos. 50-361, 50-362]

SOUTHERN CALIFORNIA EDISON CO. AND SAN DIEGO GAS AND ELECTRIC CO.

Notice of Availability of Draft Environmental Statement For the San Onofre Nuclear Generating Station

Pursuant to the National Environmental Policy Act of 1969 and the Atomic Energy Commission's regulations in appendix D to 10 CFR Part 50, notice is hereby given that a document entitled "Draft Environmental Statement by the Directorate of Licensing, U.S. Atomic Energy Commission, Related to the proposed construction of the San Onofre Nuclear Generating Station, Units 2 and 3, Dockets Nos. 50-361 and 50-362," is being placed in the following locations where it will be available for inspection by members of the public: the Commission's Public Document Room at 1717 H Street NW., Washington, DC 20545, and at the San Clemente Public Library, 233 Granada Street, San Clemente, CA 92672. The report is also being made available at the Office of the Lieutenant Governor, Office of Intergovernmental Management, 1400 10th Street, Room 108, Sacramento, CA 95814, and at the San Diego County Comprehensive Planning Organization, County Administration Center, 1600 Pacific Highway, San Diego, CA 92101. Copies of the Commission's draft environmental statement may be obtained upon request addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

The applicant's environmental report, supplemental environmental report, and amendment thereto are also availble for public inspection at the above-named locations. The notice of availability of applicant's environmental report and supplemental environmental report was published in the FEDERAL REGISTER on January 18, 1972 (36 F.R. 748).

Pursuant to Appendix D to 10 CFR 50, interested persons may, within thirty (30) days from the date of publication of this notice in the FEDERAL REGISTER, submit comments for the Commission's consideration on the proposed actions, environmental report, supplemental environmental report, and amendment thereto, and the draft environmental statement. Federal and State agencies are being provided with copies of these reports and the draft environmental statement (local agencies may obtain these documents upon request) and, when any comments thereon by Federal, State, and local officials are received, they will be made available for public inspection at the above-designated locations. Comments on the draft environmental statement from interested members of the public should be addressed to the U.S. Atomic Energy Commission, Washington, D.C. 20545, Attention: Deputy Director for Reactor Projects, Directorate of Licensing.

Dated at Bethesda, Md., this 15th day of November 1972.

For the Atomic Energy Commission.

MONTANA AND NORTH DAKOTA AERONAUTICS COMMISSIONS

Notice of Change in Meeting

Correction

In F.R. Doc. 72-19739 appearing on page 24382 of the issue for Thursday, November 16, 1972, the room number in the fourth line reading "Room 10277" should read "Room 1027".

[Docket No. 24897]

MILLARDAIR, LTD.

Notice of Prehearing Conference and Hearing Regarding Foreign Air Carrier Permit Renewal, Canada-United States

Notice is hereby given that a prehearing conference in the above-entitled matter is assigned to be held on December 13, 1972, at 10 a.m. (local time) in Room 726, Universal Building, 1825 Connecticut Avenue NW., Washington, DC, before Administrative Law Judge Frank M. Whiting.

Notice is also given that the hearing may be held immediately following conclusion of the prehearing conference unless a person objects or shows reason for postponement on or before December 6, 1972.

Dated at Washington, D.C., November 16, 1972.

[SEAL] RALPH L. WISER,
Chief Administrative Law Judge.

[FR Doc.72-20037 Filed 11-20-72;8:53 am]

COUNCIL ON ENVIRONMENTAL QUALITY

ENVIRONMENTAL IMPACT STATEMENTS

Notice of Availability

Environmental impact statements received by the Council from November 6 through November 10, 1972.

NOTE: At the head of the listing of statements received from each agency is the name of an individual who can answer questions regarding those statements.

DEPARTMENT OF AGRICULTURE

Contact: Dr. T. C. Byerly, Office of the Secretary, Washington, DC 20250, 202—388-7803.

FOREST SERVICE

Draft, November 2
Herbicide use, Oregon National Forests, Oreg. The statement refers to the proposed use of the herbicides Amitrole, Dicamba, 2,4,5-T, 2,4-D, Silvex, and Picloram on the Deschutes, Fremont, Ochoco, and Winema National Forests. The purposes of the action include the control of vegetation which interferes with crop trees, is poisonous to livestock, or is classified as noxious on agricultural land. Additional purposes are the improvement of wildlife habitat and the reduction of rodent populations. The use of these chemicals will put herbicide residues into the environment in varying amounts; nontarget species will be hit. Very little is known about what effect these herbicides will have on the plant and wildlife community. (Approx. 350 pages) (ELR Order No. 05575) (NTIS Order No. EIS-72 5575-D)

ATOMIC ENERGY COMMISSION

Contact: For nonregulatory matters: Mr. Robert J. Catlin, Director, Division of Environmental Affairs, Washington, D.C. 20545, 202—973-5391.
For regulatory matters: Mr. A. Giambusso, Deputy Director for Reactor Projects, Directorate of Licensing, Washington, D.C. 20545, 202—973-7373.

Draft, November 6
Cooper Nuclear Station, Nemaha County, Nebr. The statement refers to the proposed continuation of a construction permit and the issuance of an operating permit to the Nebraska Public Power District for the new station. The station will employ a boiling water reactor to produce 2,381 MWT and 778 MWE (net), with future levels of 2,486 MWT and 813 MWE anticipated. Cooling water will be drawn from and discharged to the Missouri River (at 18° F. above ambient). The estimated release of radioactive effluents is higher than that considered acceptable by AEC for long-term operation; the estimated potential doses from radioactive iodine near the site boundary are also higher than those which AEC considers acceptable. (174 pages) (ELR Order No. 05596) (NTIS Order No. EIS-72 5596-D)

Draft, November 10
Underground Nuclear Test Program (NTS), Nye County, Nev. The statement refers to NTS for fiscal years 1974 and 1975. The program includes tests of 1 megaton or less, for nuclear weapons development, Department of Defense sponsored nuclear effects tests, and Plowshare tests to develop nuclear explosives for peaceful uses. All tests will be conducted at the Nevada test site. Improved containment design is expected to minimize the number of tests that vent radioactivity to the atmosphere and the amount of radioactivity that reaches offsite locations. (62 pages) (ELR Order No. 05614) (NTIS Order No. EIS-72 5614-D)

DEPARTMENT OF DEFENSE
ARMY CORPS

Contact: Mr. Francis X. Kelly, Director, Office of Public Affairs, Attention: DAEN-PAP, Office of the Chief of Engineers, U.S. Army Corps of Engineers, 1000 Independence Avenue SW., Washington, DC 20314, 202—693-7168.

Draft, November 3
Carters Dam and Lake, Murray, Gilmer, and Gordon Counties, Ga. The statement refers to the complete construction and operation of a multipurpose (flood control, hydroelectric power, and recreation) reservoir project on the Coosawattee River. Approximately 8,900 acres have been acquired for the project. Of that amount 4,250 acres (mostly forest and agricultural lands), will be inundated. (32 pages) (ELR Order No. 05577) (NTIS Order No. EIS-72 5577-D)

Draft, November 2
Michoud Canal, La. The statement refers to the proposed construction of the Mississippi River-Gulf Outlet, Michoud Canal. The purpose of the action is the improvement of navigation to industrial areas along the Canal. Approximately 2.5 miles of canal will be dredged to a depth of 36 feet mean low gulf, and a width of 250 feet. Wildlife habitat will be damaged at the sites of spoil deposit; aquatic life will be adversely affected. (52 pages) (ELR Order No. 05558) (NTIS Order No. EIS-72 5558-D)
Mooring facilities, Ohio River, Ohio. The statement refers to the proposed construction and maintenance of mooring facilities at various sites in the Ohio River system. The anchorage would be primarily for use in emergency situations. An unspecified amount of riparian habitat would be committed to the action. (18 pages) (ELR Order No. 05569) (NTIS Order No. EIS-72 5569-D)

Draft, November 9
Pawtuxent Cove, R.I. The proposed project is the maintenance dredging of the Federal navigation project in the cove, for the purpose of maintaining the Federal channel and anchorage basin at their authorized dimensions. Approximately 45,000 cubic yards of shoal material will be removed and disposed of at an approved spoil site. Temporary disruption of marine biota and smothering and burial of some sessile organism and nonburrowing benthic forms will occur. (25 pages) (ELR Order No. 05601) (NTIS Order No. EIS-72 5601-D)

Final, November 6
Beach erosion project, Brevard County, Fla. The statement refers to the partial restoration of 2.8 miles of shoreline at Cape Canaveral and 2 miles of shoreline at Indialantic and Melbourne Beach. A total of 1,511,000 cubic yards of material would be dredged for the two sites; marine biota will be damaged. (32 pages) Comments made by USDA, USCG, EPA, DOI, DOT, State, and local agencies (ELR Order No. 05590) (NTIS Order No. EIS-75 5590-F)
Bal Harbour, Dade County, Fla. The statement refers to a beach erosion and hurricane protection project which would partially restore an 0.85 mile reach of protective and recreational beach. Approximately 1.8 million cubic yards of sand would be dredged from an offshore borrow bit; there would be adverse impact on marine biota. (49 pages) Comments made by USDA, EPA, HEW, HUD, DOI, USCG, DOT, DOC, State, and local agencies. (ELR Order No. 05591) (NTIS Order No. EIS-72 5591-F)
Monroe Floodwall, La. The proposed action is the closing of a 1,750-foot gap in the existing flood protection facility on the east bank of the Ouachita River. The closure will be a folding wall structure which will be in a vertical position only during flood conditions. (17 pages) Comments made by EPA, HUD, DOI, State, and local agencies. (ELR Order No. 05585) (NTIS Order No. EIS-72 5585-F)
Choctaw Bayou, Pointe Coupee, and West Baton Rouge Counties, La. The statement refers to the proposed construction of an improved drainage outlet for Choctaw Bayou and its tributaries. The purpose of the project is that of providing flood control for agricultural lands. Approximately 1,700 acres of forest will be lost, with resulting impacts upon local wildlife populations. (48 pages) Comments made by USDA, DOI, EPA, State agencies of Florida and Louisiana and concerned citizens. (ELR Order No. 05588) (NTIS Order No. EIS-72 5588-F)
South Branch Rahway River, N.J. The statement refers to the proposed construction of a flood control project, consisting of channel works, levees, floodwalls, a pumping station, etc., along a 0.4 mile stretch of the river. The project would protect the site of a HUD urban renewal project. Approximately 15 acres of tidal mudflats would be filled by the project. (25 pages) Comments made by USDA, EPA, DOC, DOT, and State agencies. (ELR Order No. 05587) (NTIS Order No. EIS-72 5587-F)
Wellsville Protection Project, Allegany County, N.Y. The project, which is located in Wellsville, near the confluence of Dyke Creek and the Genesee River, consists of modifications to the existing channel to contain flood flows within the river channel at reduced velocities, and to decrease future bank erosion. The project is designed to rectify the deficiencies in the existing completed local flood protection project. Fishery habitat will be disturbed during construction. (17 pages) Comments made by EPA, and DOI, (ELR Order No. 05586) (NTIS order No. EIS 72-5586-F)

NAVY

Contact: Mr. Joseph A. Grimes, Jr., Special Civilian Assistant to the Secretary of the Navy, Washington, D.C. 20350, 202—697-0892.

Final, November 9
Fort McArthur, Los Angeles County, Calif. The statement refers to the proposed construction of 340 units of Navy family housing on two tracts of Department of the Navy land in the San Pedro area of Los Angeles. The project differs significantly from that discussed in the draft statement; earlier plans called for 700 units on four tracts of land. The addition of children in the new housing will exceed the present capacity of the local school system. (Approx. 350 pages) Comments made by EPA, HUD, HEW, DOI, and DOT. (ELR Order No. 05597) (NTIS Order No. EIS 72-5597-F)

ENVIRONMENTAL PROTECTION AGENCY

Contact: Mr. Sheldon Meyers, Director, Office of Federal Activities, Room 3630 Waterside Mall, Washington, D.C. 20460, 202—755-0940.

Final, November 3
Wastewater Treatment, Hot Springs, Garland County, Ark. The statement refers to proposed Federal assistance, in the amount of $10,569,000, to aid in the construction of wastewater transportation and treatment facilities. New 20 MGD capacity biological/chemical facilities, with advanced wastewater treatment processes, outfall lines, lift stations, and sanitary sewer interceptors would be included; rehabilitation of the existing sewer network is also contemplated. Adverse effects would include construction disruption, noise, odor, and unsightliness. (400 pages) Comments made by USDA, COE, DOI, and OEO. (ELR Order No. 05579) (NTIS Order No. EIS-72 5579-F)

S.R. 260, Navajo County, Ariz. This addendum to the final statement refers to the proposed construction of a 4.5 mile segment of S.R. 260 between Show Low and Pinetop-Lakeside. The addendum discusses the proposed location of the highway, which would be on a new alignment. (Approx. 50 pages) Comments made by USDA, DOI, DOT, HEW, HUD, and State agencies. (ELR Order No. 05594) (NTIS Order No. EIS-72 5594-F)

Final, November 6
Interstate 40, Tennessee. The statement refers to the proposed construction of a 4.5 mile segment of Interstate 40 between Memphis and Nashville. The project would require the relocation of 2 miles of the Loosahatchie River. (Approx. 50 pages) Comments made by USDA, DOI, DOT, HEW, HUD, and State agencies. (ELR Order No. 05595) (NTIS Order No. EIS-72 5595-F)

Final, November 9
Interstate 40, Tennessee. The statement refers to the proposed construction of a 4.5 mile segment of Interstate 40 between Memphis and Nashville. The project would require the relocation of 2 miles of the Loosahatchie River. (Approx. 50 pages) Comments made by USDA, DOI, DOT, HEW, HUD, and State agencies. (ELR Order No. 05595) (NTIS Order No. EIS-72 5595-F)

Final, November 10
Underground Nuclear Test Program (NTS), Nye County, Nev. The statement refers to NTS for fiscal years 1974 and 1975. The program includes tests of 1 megaton or less, for nuclear weapons development, Department of Defense sponsored nuclear effects tests, and Plowshare tests to develop nuclear explosives for peaceful uses. All tests will be conducted at the Nevada test site. Improved containment design is expected to minimize the number of tests that vent radioactivity to the atmosphere and the amount of radioactivity that reaches offsite locations. (62 pages) (ELR Order No. 05614) (NTIS Order No. EIS-72 5614-D)

V 37 N 225 NOV 21 72 XUM

Final, November 10
City of Richland, Wash. The statement refers to the proposed modification of the existing Richland sewage treatment plant, the installation of alarm reporting systems at lift stations, and the construction of a lift station to serve the Badger Mountain area, a 7,000-acre area south of the Yakima River. At issue is the question of whether the city should develop Badger Mountain into a residential district. Opponents of the action have voiced concern over possible impact upon wildlife, land use, and local policies. (234 pages) Comments made by COE, HUD, DOI, HEW, OEO, DOT, State, and local agencies and concerned citizens. (ELR Order No. 05609) (NTIS Order No. EIS–72 5609–F)

GENERAL SERVICES ADMINISTRATION

Contact: Mr. Rod Kreger, Acting Administrator, GSA–AD, Washington, D.C. 20405, 202—343–6077.

Final, November 10
Mitchell Air Force Base, Nassau County, N.Y. The statement considers an exchange of land between the county of Nassau and the Federal Government. Approximately 55.42 acres of land at the former Air Force base would be conveyed to the county in exchange for 38 acres of county-owned land. The stated reason for the exchange is that the land now owned by the Government is suitable for the development planned by the county and the land now owned by the county is better suited for the development planned by the Government. No significant and adverse effects upon the environment are foreseen. (30 pages) Comments made by EPA and HUD. (ELR Order No. 05613) (NTIS Order No. EIS–72 5613–F)

DEPARTMENT OF HUD

Contact: Mr. Richard H. Broun, Director, Environmental and Land Use, Planning Division, Washington, D.C. 20410, 202—755–6186.

Draft, November 2
Fair Oaks Apartments, Henrico County, Va. The statement refers to the proposed construction of a 13 building, 100 apartment complex for low and moderate income housing under section 236 of the National Housing Act. The site lies within CNR Noise Zone 2 of the Richard E. Byrd Airport; this will have effects upon residents of the complex. The area is one of poor water drainage; structural measures will be needed to facilitate water removal. (36 pages) (ELR Order No. 05568) (NTIS Order No. EIS–72 5568–D)

DEPARTMENT OF THE INTERIOR

Contact: Mr. Bruce Blanchard, Director, Environmental Project Review, Room 7260, Department of the Interior, Washington, D.C. 20240, 202—343–3891.

Draft, November 9
International Convention on World Heritage. The statement refers to the proposed international convention on a world heritage. An agreement by the convention would lead to the establishment of an international system for identifying, protecting, conserving, preserving, and transmitting to future generations natural and cultural heritage that is of outstanding universal value. The international system would function within UNESCO at Paris, and will be considered at UNESCO's 17th General Conference, in November 1972. (14 pages) (ELR Order No. 05604) (NTIS Order No. EIS–72 5604–D)

Allamuchy Mountain State Park, Sussex, and Warren Counties, N.J. The statement refers to the proposed granting of a request by the State of New Jersey for assistance from the Federal Land and Water Conservation Fund in purchasing 3,604.6 acres to be added to the park. Approximately 2,800 acres would be left in its natural state for low intensity recreational use. A ski area will be developed in the future. (18 pages) (ELR Order No. 05602) (NTIS Order No. EIS–72 5607–D)

BUREAU OF SPORTS FISHERIES AND WILDLIFE

Draft, November 2
Crescent Lake National Wildlife Refuge, Garden County, Nebr. The statement refers to the proposed legislative designation of 24,502 acres of the refuge as wilderness within the National Wilderness Preservation System. The refuge is a significant breeding ground and resting area for migratory waterfowl. Wilderness designation would commit the area to the forces of nature and remove options for future development and intensified management. (30 pages) (ELR Order No. 05567) (NTIS Order No. EIS–72 5567–D)

Final, November 6
San Juan National Wildlife Refuge San Juan, and Skagit Counties, Wash. The statement refers to the proposed designation of Puffin, Colville, Bare, and Buck Islands, and Bird and Williamson Rocks (totaling 28 acres), plus 140 acres of Matia Island, as wilderness within the National Wilderness Preservation System. No adverse impacts are anticipated. (35 pages) Comments made by USDA, DOC, DOD, EPA, DOI, and one state agency. (ELR Order No. 05582) (NTIS Order No. EIS–72 5582–F)

NATIONAL PARK SERVICE

Draft, November 9
Willow Creek Recreation Site, Rio Arriba County, N. Mex. The statement refers to the proposed construction of roads, parking areas, underground utilities, a well, and a sewage lagoon at the recreation area, which is a boating facility at Lake Heron. The completion of the project would draw large numbers of people to what would be an incomplete development site. Sanitation, safety, and resource protection problems would be aggravated. (37 pages) (ELR Order No. 05603) (NTIS Order No. EIS–72 5603–D)

INTERNATIONAL BOUNDARY AND WATER COMMISSION

Final, November 3
Restoration—Arroyo, Colo., Hidalgo, and Cameron Counties, Tex. The statement refers to the proposed construction of a low earth sill in the entrance of the North Floodway in order to restore the historic low flow diversion to the Arroyo Colorado. Former drainage conditions will thereby be restored, and flooding reduced. Aproximately 27 acres of land will be periodically inundated. (46 pages) Comments made by USDA, COE, EPA, HEW, DOI, State and local agencies and concerned citizens. (ELR Order No. 05578) (NTIS Order No. EIS–72 5578–F)

DEPARTMENT OF TRANSPORTATION

Contact: Mr. Martin Convisser, Director, Office of Environmental Quality, 400 Seventh Street SW., Washington, DC 20590, 202—426–4355.

FEDERAL AVIATION ADMINISTRATION

Draft, November 6
Biddeford Municipal Airport, York County, Maine. The proposed project contemplates the acquisition of land for the widening, strengthening, lighting, and extension of Runway 6–24 (from 2,000 feet by 75 feet to 5,000 feet by 100 feet); the construction of a parallel taxiway and access road; and the installation of security fencing, VASI–2, and approach clearing and/or obstruction lighting. The expanded airport will be capable of accommodating aircraft of the business jet type and smaller. The noise level will increase. (33 pages) (ELR Order No. 05592) (NTIS Order No. EIS–72 5592–D)

Draft, November 2
Jackson County Airport, Jackson County, N.C. The proposed project involves the purchase of approximately 154 acres of land to develop a new basic utility airport capable of accommodating all propeller aircraft of less than 12,500 pounds. Initial construction will consist of grading and paving a 3,400- by 50-foot runway, a 300- by 150-foot aircraft parking apron, a 250- by 30-foot stub taxiway, the installation of a medium intensity lighting system, a 36-inch rotating beacon, four hazard beacons, and a terminal building. Ultimate development consists of expanding initial development and constructing T-hangars, parking apron, a 2501 by 30-foot stub pollution levels will increase. (28 pages) (ELR Order No. 05572) (NTIS Order No. EIS–72 5572–D)

Draft, November 9
Will Rogers Municipal Airport, Rogers County, Okla. The statement refers to the proposed construction of a new municipal airport southwest of Claremore. The project contemplates construction of a runway (3,400 feet by 60 feet); construction of a taxiway (175 feet by 30 feet); construction of an aircraft parking apron (315 feet x 240 feet); installation of a VASI, and medium intensity lighting; and construction of supporting facilities to consist of a parking lot, fencing, an access road, etc. The purpose of the project is to replace the existing airport which cannot be expanded because of surrounding land uses. Air and noise pollution levels will increase (56 pages). (ELR Order No. 05599) (NTIS Order No. EIS–72 5599–D)

Draft, November 2
The Tomahawk Airport, Lincoln County, Wis. The statement refers to the proposed development of a general utility airport to serve the city of Tomahawk and the surrounding area. The project contemplates the acquisition of land (420 acres); the construction of the east/west primary runway; the construction of an apron and connecting taxiway; the installation of a medium intensity lighting system; the relocation of a town road and the construction of an entrance road, auto parking area, etc. Adverse affects include the proximity of an active bald eagle nest to the project site) (46 pages). (ELR Order No. 05571) (NTIS Order No. EIS–72 5571–D)

Final, November 6
Edgar County Airport, Edgar County, Ill. The statement refers to the proposed development of a new general aviation facility to serve the Paris/Edgar community. The project contemplates acquisition of land (120 acres) for the construction of a runway, taxiway, apron, terminal building, access road, and other accessory and/or incidental items. Aircraft noise will be introduced in an area where none currently exists (64 pages). Comments made by USDA, COE, DOC, EPA, DOI, State and local agencies. (ELR Order No. 05583) (NTIS Order No. EIS–72 5583–F)

Final, November 9
Warroad Municipal Airport, Roseau County, Minn. The statement refers to the proposed acquisition of 190 acres for the construction of new airport facilities at an existing turf strip. New construction would include a 3,700- by 75-foot runway with taxiway and apron, safety fencing, an access road, and a parking lot. (35 pages) Comments made by USDA, DOC, EPA, DOI, DOT, State and local agencies. (ELR Order No. 05598) (NTIS Order No. EIS–72 5598–F)

Final, November 6
Seward Municipal Airport, Seward County, Nebr. The statement refers to the proposed development of a new airport to serve the Seward community. The project involves acquisition of 260 acres (fee) and 8 acres (easement) for airport development; construction of a 3,600- by 60-foot northwest/southeast primary runway, a 3,400- by 150-foot turf secondary runway, turf aprons, taxiways and other associated developments. The existing airport cannot be expanded due to area obstructions (36 pages) Comments made by USDA, DOC, COE, EPA, HUD, DOI, State, local and regional agencies. (ELR Order No. 05593) (NTIS Order No. EIS–72 5593–F)

FEDERAL HIGHWAY ADMINISTRATION

Draft, November 6
I–10–1(35) Mobile, and Baldwin Counties, Ala. The proposed project is the construction of 8 miles of projects I–10–1 (35) and F–346(9). The projects include a bridge which will traverse the Mobile Bay Delta. A section 4(f) statement has been filed for land acquisition from the Meaher State Park. (41 pages) (ELR Order No. 05584) (NTIS Order No. EIS–72 5584–D)

Draft, November 7
Relocation of Du Pont Road, New Castle County, Del. The proposed action is the reconstruction and relocation of Du Pont Road (State Route 100) beginning at the Maryland Avenue-Du Pont Road intersection and ending north of New Road (Delaware Route 2). The project consists of four lanes and a bridge over Little Mill Creek and the B&O Railroad. The number of displacements and the length of the project will depend upon the route selected. (109 pages) (ELR Order No. 05610) (NTIS Order No. EIS–72 5610–D)

Draft, November 2
State Route 21, Chatham County, Ga. The proposed project is the widening of State Route 21. Length of the project would be 7.5 miles. Approximately 10 families and 11 businesses may be displaced, depending upon the route chosen. Adverse effects will consist of increased noise pollution after construction. (66 pages) (ELR Order No. 05570) (NTIS Order No. EIS–72 5570–D)

PAU Route 8825, Winnebago County, Ill. The proposed project is the construction of 0.455 mile of PAU Route 8825. Land acquisition will include 6.4 acres. Increases in noise, air and water pollution are expected after construction. One hundred and fifty trees will be removed, causing displacement of wildlife. (35 pages) (ELR Order No. 05576) (NTIS Order No. EIS–72 5576–F)

Draft, November 6
N.C. 268 (Elkin Bypass), Surry, Yadkin, and Wilkes Counties, N.C. The proposed project is the 8-mile construction of the N.C. 268 Bypass of Elkin. Three-hundred acres of land will be acquired; 35 residences, five businesses, a State Highway Patrol Station, and a church will be displaced. The project will traverse the Yadkin and Elkin Rivers causing siltation. Other adverse effects will include loss of wildlife and increases of noise and air pollution after construction. (22 pages) (ELR Order No. 05589) (NTIS Order No. EIS–72 5589–D)

Shaw Freeway, Sumter County, S.C. The proposed project is the construction of Shaw Freeway, which is approximately 7 miles in length, on new location. Six families and six businesses would be displaced. Adverse effects will include increases of noise and air pollution after construction, and erosion and siltation. (13 pages) (ELR Order No. 05595) (NTIS Order No. EIS–72 5595–D)

Draft, November 10
U.S. 82, Grayson County, Tex. The statement refers to the proposed construction of a connector between existing U.S. 82 and proposed U.S. 82. Project length is 1.4 miles. Adverse effects include acquiring additional grass and wooded area for right-of-way and displacing two homes. (34 pages) (ELR Order No. 05611) (NTIS Order No. EIS–72 5611–D)

U.S. 59, Polk County, Tex. The statement refers to the proposed construction of a U.S. 59 bypass around the west side of the city of Livingston. The project consists of a four-lane divided highway facility with two-way frontage roads on each side; grade separation interchanges for connection with existing U.S. 59, and overpasses for the Southern Pacific Railroad. Nine families and five businesses will be displaced; 326 acres of land will be committed to right-of-way. (40 pages) (ELR Order No. 05612) (NTIS Order No. EIS–72 5612–D)

Draft, November 6
Route 265 (Danville Expressway), Pittsylvania County, Va. The proposed project is the construction of Route 265 (Danville Expressway). The expressway will displace 49 families and 17 businesses. The project will traverse the Dan River, causing erosion and siltation. The only adverse effect after construction will be an increase in noise pollution. (62 pages) (ELR Order No. 05594) (NTIS Order No. EIS–72 5594–D)

Final, November 2
Tutuila Perimeter Road, American Samoa. The statement refers to the proposed construction of 2.88 miles of roadway between the villages of Vatia and Alfono, on the north side of Tutuila Island. There is presently no vehicular access to the two villages. The project will introduce noise and air pollution where it presently does not exist. Two or three fales (dwelling units), and an unspecified number of graves will require relocation; family ties being exceptionally strong on Samoa, this aspect of social impact will be of significance (49 pages). Comments made by USDA, EPA, DOI and DOT. (ELR Order No. 05560) (NTIS Order No. EIS–72 5560–F)

Tutuila Perimeter Road, American Samoa. The statement is concerned with the proposed construction of 3.37 miles of two-lane roadway, on the north side of the island, between the villages of Afono and Masefu. There is presently no means of vehicular access to the villages. The project will require an unspecified amount of land for right-of-way; several individual gravesites will be relocated; noise and air pollution will be introduced where they do not presently exist (53 pages). Comments made by USDA, EPA, DOI, DOC, and DOT. (ELR Order No. 05565) (NTIS Order No. EIS–72 5565–F)

S.R. 260, Navajo County, Ariz. This addendum to the final statement (filed June 7, 1971, NTIS Order No. PB–199 747–F) refers to a 2-mile line change in the Clay Springs section of the project. The alinement change will diminish adverse impacts on Cottonwood, Wash (10 pages). Comments made by USDA and DOI. (ELR Order No. 05561) (NTIS Order No. EIS–72 5561–F)

Fourth Street and County Avenue, Yuma County, Ariz. The statement considers the proposed joint Yuma City-Yuma County construction of two 36-foot roadways over both new and existing alinement. Total project length is approximately 3 miles. One apartment building and two family residences will be displaced. An unspecified amount of agricultural land will be committed to the action. (42 pages) Comments made by DOI. (ELR Order No. 05562) (NTIS Order No. EIS–72 5562–F)

Final, November 6
State Road 516 (U.S. 192), Brevard County, Fla. The proposed project is the addition of two lanes to the existing causeway State Road 516 (U.S. 192). The project's length is 2.4 miles. Adverse effects will be upon marine life. Increases of noise pollution are expected. (169 pages) Comments made by COE, DOC, DOI, EPA, HEW, HUD, State and regional agencies. (ELR Order No. 05580) (NTIS Order No. EIS–72 5580–F)

Final, November 9
Lafitte-La Rose Highway, Jefferson and Lafourche Counties, La. The statement refers to the proposed construction of approximately 28 miles of highway on new location between La Rosa and the Village of Estelle. The project consists of an ultimate four-lane, full access, land service, rural-type facility with fixed high-level bridges at Bayou Perot, Kerner Ferry, and Wagner Ferry. Initial construction will provide a two-lane, two-way facility. Approximately 1,018 acres, of which 130 acres is residential, 636 acres fresh or salt water marsh, and 252 acres is swampland, will be committed to right of way. Nineteen families and two businesses will be displaced. (85 pages) Comments made by USDA, COE, DOC, DOI, DOT, EPA, and State agencies. (ELR Order No. 05608) (NTIS Order No. EIS–72 5608–F)

Final, November 2
U.S. 191, Gallatin and Madison Counties, Mont. The proposed project is located on U.S. Route 191. Total length of the project is 9.7 miles. There will be no displacements. One hundred and fifty acres of land will be acquired. Adverse effects will be upon wildlife, particularly deer, and the water table. (Approx. 470 pages) Comments made by USDA, COE, DOI, EPA, HEW, HUD, State, regional, and local agencies and concerned citizens. (ELD Order No. 05574) (NTIS Order No. EIS–72 5574–F)

Route 9D—Beacon Arterial, Dutchess County, N.Y. The statement refers to a corridor study for the reconstruction of a segment of Route 9D between Dutchess Junction and I–84. Project length is approximately 3.5 miles. The number of displacements and the amount of right-of-way required will depend upon the route chosen. Wildlife, fish, and waterfowl populations will be disturbed during construction of a bridge over Fishkill Creek. A 4(f) statement for Hudson Highland State Park and the Southern Dutchess Country Club is part of this report. (80 pages) Comments made by EPA, HUD, DOI, DOT, and State agencies. (ELR Order No. 05559) (NTIS Order No. EIS–72 5559–F)

V 37 • 225 NOV 21 72 XUM

U.S. 64—relocated, Nash County, N.C. The proposed project is the 11 mile relocation of U.S. 64. Four-hundred and seventy-five acres of woodland and 175 acres of agricultural land will be acquired. Five families and one business will be displaced. Several waterways will be traversed. Construction will have an adverse effect upon Far River, which is an important fish spawning area. Other adverse effects, include the lowering of the water table and increases in noise and air pollution. (74 pages) Comments made by USDA, COE, DOI, DOT, EPA, GSA, and State agencies. (ELR Order No. 05568) (NTIS Order No. EIS–72 5586–F)

U.S. WATER RESOURCES COUNCIL

Final, November 2

Wabash River Basin Study, Illinois, Indiana, and Ohio. The statement refers to a study of the problems and needs of the river basin, with proposed projects and programs. Structural features of the project would include 13 major multiple-purpose reservoirs. (120 pages) Comments made by AEC, EPA, FPC, USCG, HEW, DOI, HUD, DOC, COE, USDA, and State agencies of several States. (ELR Order No. 05573) (NTIS Order No. EIS–72 5573–F)

Final, November 6

Kanawha River Basin Study, North Carolina, West Virginia and Virginia. The statement refers to a study of the problems and needs of the river basin, along with proposed projects and programs. (90 pages) Comments made by USDA, AEC, COE, DOC, EPA, FPC, USCG, HEW, HUD, DOI, and State agencies of several States. (ELR Order No. 05581) (NTIS Order No. EIS–72 5581–F)

FEDERAL MARITIME COMMISSION

ASSOCIATED NORTH ATLANTIC FREIGHT CONFERENCE

Notice of Agreement Filed

Notice is hereby given that the following agreement has been filed with the Commission for approval pursuant to section 15 of the Shipping Act, 1916, as amended (39 Stat. 733, 75 Stat. 763, 46 U.S.C. 814).

Interested parties may inspect and obtain a copy of the agreement at the Washington office of the Federal Maritime Commission, 1405 I Street NW., room 1015; or may inspect the agreement at the field offices located at New York, N.Y., New Orleans, Louisiana, and San Francisco, Calif. Comments on such agreements, including requests for hearing, may be submitted to the Secretary, Federal Maritime Commission, Washington, D.C. 20573, within 20 days after publication of this notice in the FEDERAL REGISTER. Any person desiring a hearing on the proposed agreement shall provide a clear and concise statement of the matters upon which they desire to adduce evidence. An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Howard A. Levy, Attorney, Associated North Atlantic Freight Conferences, Suite 631, 17 Battery Place, New York, NY 10004

Agreement No. 9978–1, among the Associated North Atlantic Conferences, modifies the basic agreement to allow an accused member line to admit or not contest the allegations brought against it in any complaint under the self-policing procedure. Such admission or no contest plea may be considered in mitigation of any penalty to be imposed and any appeal in such cases must be limited to a review of the amount of fine imposed.

Dated: November 15, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

An allegation of discrimination or unfairness shall be accompanied by a statement describing the discrimination or unfairness with particularity. If a violation of the Act or detriment to the commerce of the United States is alleged, the statement shall set forth with particularity the acts and circumstances said to constitute such violation or detriment to commerce.

A copy of any such statement should also be forwarded to the party filing the agreement (as indicated hereinafter) and the statement should indicate that this has been done.

Notice of agreement filed by:

Howard A. Levy, Attorney, North Atlantic Continental Freight Conference, 17 Battery Place, New York, NY 10004.

Agreement No. 9214–6, among the member lines of the above-named conference, notice of which was originally published on June 12, 1972, would modify the Conference's organic agreement to include within its scope cargo moving via ports in the Hamburg/Dunkirk range to interior points in continental Europe. The member lines have now requested that this amendment be modified to show that the Conference's jurisdiction extends to interior points in continental Europe whether the cargo moves under a through bill of lading or otherwise. It has also been modified to provide for termination of the inland jurisdiction on September 30, 1973, with further extension subject to Commission approval.

Dated: November 16, 1972.

By order of the Federal Maritime Commission.

FRANCIS C. HURNEY,
Secretary.

[Docket No. CP73-119]

ALABAMA-TENNESSEE NATURAL GAS CO.

Notice of Application

NOVEMBER 16, 1972.

Take notice that on November 3, 1972, Alabama-Tennessee Natural Gas Co. (applicant), Post Office Box 918, Florence, AL 35630, filed in Docket No. CP 73-119 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of vaporous natural gas facilities and liquefied natural gas (LNG) facilities and an increase in peak day sales of natural gas to certain existing customers, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate a 0.9-mile 6⅝-inch OD crossover pipeline connecting its 10¾-inch OD pipeline with its 12¾-inch and 16-inch pipelines at its Sheffield Compressor Station in Colbert County, Ala., and LNG facilities for the liquefaction, storage, and vaporization of natural gas to be located near Greenbrier, Limestone County, Ala., in order to meet the estimated increased natural gas requirements of its customers. Applicant states that such LNG facilities will include a liquefaction plant having a design capacity of 2,000 Mcf of vaporous gas per day, a storage tank with a capacity of 400,000 Mcf of vaporous gas and two vaporizers, each with a send-out rating of 15,000 Mcf of vaporous gas per day.

Applicant further states that it has entered in contracts with its direct industrial customers and precedent agreements with its resale customers providing for increased peak day sales volumes of 18,600 Mcf of natural gas per day commencing in the winter of 1974-75. Applicant indicates that these increased sales will not require an increase in the maximum daily quantity of natural gas presently authorized for purchase from Tennessee Gas Pipeline Co., a division of Tenneco Inc., its sole supplier.

Applicant estimates the total cost of the proposed facilities at $3,935,000, which it plans to finance by means of first mortgage bonds to be sold in 1974 and funds from retained earnings over the period 1973-75.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 11, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-20010 Filed 11-20-72;8:51 am]

[Docket No. CP73-125]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Application

NOVEMBER 16, 1972.

Take notice that on November 10, 1972, Algonquin Gas Transmission Co. (applicant), 1284 Soldiers Field Road, Boston, MA 02135, filed in Docket No. CP73-125 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the transportation and exchange of natural gas for the benefit of Buzzards Bay Gas Co. (Buzzards Bay), all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that Buzzards Bay has made arrangements for the purchase of liquefied natural gas (LNG) from New England LNG Co., Inc., and for the storage of such gas by Connecticut Natural Gas Corp. (CNG) at CNG's LNG facility in Rocky Hill, Conn. Applicant asserts that in order for Buzzards Bay to have the use of this gas this winter, it is necessary for it to assist Buzzards Bay.

Applicant proposes, pursuant to the terms of a temporary transportation agreement between it and Buzzards Bay dated November 9, 1972, to reduce its deliveries of natural gas to CNG at the existing Cromwell point of interconnection in Connecticut between applicant and CNG, where applicant regularly sells and delivers natural gas to CNG, and to deliver concurrently the equivalent volumes of gas to Buzzards Bay. Said agreement provides that the approximate quantities of gas to be delivered by applicant shall not exceed 500,000 Mcf.

Applicant proposes to charge Buzzards Bay 10 cents for each Mcf of gas delivered.

It appears reasonable and consistent with the public interest in this case to prescribe a period shorter than 15 days for the filing of protests and petitions to intervene. Therefore, any person desiring to be heard or to make any protest with reference to said application should on or before November 28, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the

V 37-225 NOV 21 72 XUM

Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

MID LOUISIANA GAS CO.

Notice of Proposed Purchased Gas Adjustment Clause

NOVEMBER 16, 1972.

Take notice that Mid Louisiana Gas Co. (Mid Louisiana), on October 30, 1972, tendered for filing proposed changes in its FPC Gas Tariff, First Revised Volume No. 1. The filing consists of the following tariff sheets:

Original Sheet No. 3a, First Revised Sheet No. 3a (superseding Original Sheet No. 3a), Original Sheet No. 26a, Original Sheet No. 26b, Original Sheet No. 26c, and Original Sheet No. 26d.

Mid Louisiana avers that this supplemental filing is for the purpose of making the provisions for flow-through of supplier refunds and the tracking of supplier decreases and increases which Mid Louisiana assumed in Dockets Nos. RP71-101 and CP72-42, conform to the requirements of the Commission Orders Nos. 452 and 452-A in Docket No. R-406.

Mid Louisiana proposes that the PGA clause be effective as of August 13, 1972.

Mid Louisiana has also requested waiver of the Commission's notice requirements, pursuant to § 154.51 so that there will be continuity in both Mid Louisiana's agreeemnt to track supplier decreases and increases and its obligation to flow-through supplier refunds.

Mid Louisiana has also stated that due to the limited nature of this filing which they state conforms Mid Louisiana's tariff with its prior rate provisions concerning tracking of supplier rate changes and flow-through of supplier refunds, certain statements, schedules, and workpapers have been omitted and a waiver of the Commission's regulations has been requested to the extent necessary.

Any person desiring to be heard or to protest said application should file a petition to intervene or protest with the Federal Power Commission, 441 G Street NW., Washington, DC 20426, in accordance with sections 1.8 and 1.10 of the Commission's rules of practice and procedure (18 CFR 1.8, 1.10). All such petitions or protests should be filed on or before November 28, 1972. Protests will be considered by the Commission in determining the appropriate action to be taken, but will not serve to make protestants parties to the proceeding. Any person wishing to become a party must file a petition to intervene. Copies of this filing have been served on all Mid Louisiana's resale customers and interested State commissions. In addition, copies of this filing are on file with the Commission and are available for public inspection.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-118]

TRUNKLINE GAS CO. AND TRANSCONTINENTAL GAS PIPE LINE CORP.

Notice of Application

NOVEMBER 14, 1972.

Take notice that on November 2, 1972, Trunkline Gas Co. (Trunkline), Post Office Box 1642, Houston, TX 77001, and Transcontinental Gas Pipe Line Corp. (Transco), Post Office Box 1396, Houston, TX 77001, filed in Docket No. CP73-118 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of facilities and the exchange of natural gas, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicants propose to exchange natural gas by Trunkline's causing of Texas Gas Transmission Corp. (Texas Gas) to deliver up to 50,000 Mcf of gas per day to Transco at a point of interconnection between the facilities of Transco and Consolidated Gas Supply Corp. in Acadia Parish, La., and by Transco's and Trunkline's use of their best efforts to redeliver and receive up to 15,000 Mcf of gas per day through existing facilities at the tailgate of the Continental Oil Co. Egan Plant in Acadia Parish and Transco's redelivery or causing the redelivery of the remaining portion of the gas to Trunkline at the tailgate of the Mobil Oil Corp. Cow Island Plant in Vermilion Parish, La., through measuring facilities to be installed and operated by Trunkline. Applicants state that the instant exchange is necessary to enable Trunkline to effectuate a delayed exchange agreement with Texas Gas in order to assure maintenance of adequate natural gas service on Trunkline's pipeline system. The exchange agreement between applicants is for a term from November 1, 1972, to November 1, 1974.

Applicants state that no new facilities are required for the delivery of gas to Transco or the redelivery of gas to Trunkline at the Egan Plant. Trunkline proposes to construct and operate a skid-mounted meter run, side valves, and approximately 400 feet of pipeline at a cost of $135,000 for redeliveries at the Cow Island Plant. The gas redelivered at the Cow Island Plant will be compressed by others at a cost to Trunkline of approximately 0.8 cent per Mcf.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicants to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19996 Filed 11-20-72;8:49 am]

[Docket No. CP73-122]

ALGONQUIN GAS TRANSMISSION CO.

Notice of Application

NOVEMBER 15, 1972.

Take notice that on November 3, 1972, Algonquin Gas Transmission Co. (applicant), 1284 Soldiers Field Road, Boston, MA 02135, filed in Docket No. CP73-122 an application pursuant to section 7(b) of the Natural Gas Act to abandon by sale to Boston Gas Co. (Boston) a natural gas pipeline in Everett, Mass., all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to abandon and sell to Boston 992 feet of a 16-inch pipeline which lies downstream of the Algonquin meter and regulator station in Everett, Mass. Applicant states that the construction of this line was financed by a contribution in aid of construction from Boston, that the line is located on rights-of-way owned by Boston, which operates and maintains the line, and that all gas flowing in the line is the property of Boston. Applicant indicates that this proposal will allow Boston to provide service to its customers in the immediate area of the line by permitting direct taps along the line, rather than constructing a distribution line to the desired service points.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 11, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-91]

C. B. GAS GATHERING, INC.

Notice of Application

NOVEMBER 13, 1972.

Take notice that on September 1, 1972, C. B. Gas Gathering, Inc. (Applicant), Post Office Box 1873, Corpus Christi, TX 78403, filed in Docket No. CP73-91 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the continuation of the transportation and sales of natural gas in interstate commerce formerly made by Bluebonnet Gas Corp. (Bluebonnet) all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that by an instrument of assignment captioned "Sale of Assets" dated June 30, 1972, it acquired all of the assets and properties of Bluebonnet. Bluebonnet was authorized to gather natural gas from certain independent producers and transport and sell such gas to Florida Gas Transmission Co. Applicant herein seeks authorization to continue the activities heretofore performed by Bluebonnet.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 5, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-120]

COLUMBIA GAS TRANSMISSION CORP.

Notice of Application

NOVEMBER 14, 1972.

Take notice that on November 3, 1972, Columbia Gas Transmission Corp. (Applicant), 20 Montchanin Road, Wilmington, DE 19807, filed in Docket No. CP73-120 an application pursuant to section 7 of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain facilities replacing certain segments of its existing pipeline system and for permission and approval to abandon certain other pipeline and compressor facilities no longer used or useful in its transmission operations, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct and operate the following facilities:

(1) Approximately 5.3 miles of 4-inch-transmission pipeline replacing a like amount of 3-inch pipeline in Fayette, Greene, and Madison Counties, Ohio;

(2) Approximately 1.1 miles of 20-inch-transmission pipeline replacing a like amount of 12-inch pipeline in Richland County, Ohio;

(3) Approximately 0.7 mile of 6-inch-transmission pipeline replacing a like amount of 4-inch pipeline in Medina County, Ohio;

(4) Approximately 1.9 miles of 4-inch-transmission pipeline replacing a like amount of 3-inch pipeline in Jefferson County, Ohio;

(5) Approximately 1.4 miles of 10-inch-transmission pipeline replacing a like amount of 8-inch pipeline in Lawrence County, Pa.;

(6) Approximately 3.5 miles of 6-inch-transmission pipeline replacing a like amount of 12-inch pipeline in Mineral County, W. Va.; and

(7) Approximately 7.3 miles of 36-inch-transmission pipeline replacing a like amount of two parallel 26-inch pipelines in Upshur County, W. Va.

Applicant states that the above described existing pipeline segments, because of their age and corroded condition and on the basis of operating and maintenance experience, must be replaced with cathodically protected pipe in order to assure continued sale and reliable service.

The cost of the proposed construction, inclusive of filing fees, is estimated by Applicant to be $2,839,100, which cost Applicant proposes to finance with internally generated funds.

Applicant proposes to abandon the following facilities because, it states, they are no longer used or useful:

(1) Two 1,000 horsepower units and two 1,300 horsepower units at Kenova Compressor Station in Wayne County, W. Va.;

(2) Approximately 0.8 mile of 20-inch-transmission pipeline in Kanawha County, W. Va.;

(3) Approximately 0.6 mile of 10-inch and 12-inch-transmission pipeline crossing the Ohio River in Meigs County, Ohio, and Jackson County, W. Va.;

(4) Approximately 13.4 miles of 10-inch-transmission pipeline in Washington County, Pa.;

(5) Approximately 1.3 miles of 16-inch and 20-inch and 4.4 miles of 12-inch-transmission pipeline in Allegheny and Washington Counties, Pa.;

(6) Approximately 1.8 miles of 10-inch-transmission pipeline in Washington County, Pa.; and

(7) Approximately 3.1 miles of 10-inch-transmission pipeline in York County, Pa.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements

direct preferred interruptible and direct ments or protests as to whether the

Mississippi, Tennessee, Kentucky, Indi-

for leave to intervene is timely filed, or

GP states that it has received a notice

of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate and permission and approval for the proposed abandonment are required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc 72-19991 Filed 11-20-72;8:49 am]

[Docket No. RP66-4, RP68-1]

FLORIDA GAS TRANSMISSION CO.

Order Accepting Filing as Compliance Filing but Rejecting Proposed Tariff Sheets

NOVEMBER 14, 1972.

On October 16, 1972, Florida Gas Transmission Co. (Florida Gas) tendered for filing proposed changes in its FPC gas tariff, Original Volume No. 1[1] which would establish volumetric limitations on Florida Gas' service to its customers, to become effective November 15, 1972. The proposed tariff changes result from Opinion No. 611, ordering paragraphs (F) and (G) which read as follows:

(F) On or before September 1, 1972, and after soliciting comments from its jurisdictional customers with respect to volumetric limitations, Florida Gas shall file a revised I rate schedule deleting the restrictive provisions discussed above, with a volume limitation on sales, and containing a revised definition of commercial service in accordance with this opinion.

(G) On and after September 1, 1972, Florida Gas shall not increase its sales to resale customers, direct firm customers, direct preferred interruptible and direct intermediate interruptible customers, above the levels set forth in the applicable service agreements as of that date, without prior Commission authorization.

Six protests and three petitions to intervene were filed.[2] In summary, the protests alleged that Florida Gas had discriminated against its resale customers by allowing increases beyond September 1, 1972, levels in the volumes allocated to the direct customers while not allowing such increases in the I—schedule service to the resale customers. Requests for a hearing and 5 months suspension were also made.

Under the proposed revised tariff sheets, Florida Gas would establish volume entitlements for the interruptible I Rate Schedule at September 1, 1972, levels as ordered by the Commission. However, deliveries under its G Rate Schedule and under contracts for sales to its direct industrial customers allow for adjustments above the September 1, 1972, levels in contravention of the Commission's Opinion No. 611.

Therefore, it is reasonable and appropriate that Florida Gas, tendered filing be accepted as a compliance filing, but that the proposed revised tariff sheets be rejected and Florida Gas be required to file within 10 days of the issuance of this order substitute tariff sheets showing volumetric limitations based on its contractual obligations as of September 1, 1972, to firm resale customers taking under Rate Schedule G and to all direct customers as reflected in service agreements and contracts on file with the Commission. Within 30 days from the issuance of this order, all customers of Florida Gas will have the right to challenge whether the volumes allocated to it by Florida Gas in fact represent contractual obligations as of September 1, 1972.

The Commission finds:

(1) It is reasonable and appropriate in the public interest to aid in the enforcement of the Natural Gas Act that the tendered filing be treated as hereinafter ordered and conditioned.

(2) The participation of the petitioners listed in Footnote 2 in these proceedings may be in the public interest.

The Commission orders:

(A) Florida Gas' filing of October 16, 1972, is hereby accepted as a compliance filing but the proposed revised tariff sheets tendered therewith are rejected.

(B) Within 10 days of the issuance of this order, Florida Gas shall file proposed volumetric limitations based on its contractual obligations as of September 1, 1972, for its firm resale (Rate Schedule G) customers and all I–Schedule and direct customers as reflected in service agreements and contracts on file with the Commission.

(C) Within 30 days of the issuance of this order, all customers shall file comments or protests as to whether the volumes allocated to them are equal to Florida Gas' contractual obligations as of September 1, 1972.

(D) The volumetric limitations reflecting the actual contractual obligations of Florida Gas as of September 1, 1972, shall be effective as of November 15, 1972.

(E) The petitioners listed in Footnote 2 are hereby permitted to intervene in these proceedings, subject to the rules and regulations of the Commission: *Provided, however,* That the participation of such intervenors shall be limited to matters affecting rights and interests specifically set forth in the respective petition to intervene: *And provided further,* That the admission of such intervenors shall not be construed as recognition that they or any of them might be aggrieved because of any order or orders issued by the Commission in these proceedings.

(F) Pursuant to § 2.59(c) of the Commission's rules of practice and procedure, Florida Gas Transmission Co. shall promptly serve copies of its filing upon the above-mentioned intervenors, unless such service has already been effected pursuant to Part 154 of the regulations under the Natural Gas Act.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19987 Filed 11-20-72;8:48 am]

[Docket No. CP73-114]

MICHIGAN WISCONSIN PIPE LINE CO.

Notice of Application

NOVEMBER 14, 1972.

Take notice that on October 27, 1972, Michigan Wisconsin Pipe Line Co. (Applicant), 1 Woodward Avenue, Detroit, MI 48226, filed in Docket No. CP73-114 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant states that its customers have nominated an increase of 187,928 Mcf of natural gas in their maximum daily quantities commencing September 1, 1973 and Applicant proposes to transport and deliver increased quantities of natural gas from its supplies on its pipeline system by the construction and operation of the following new facilities:

1. 209.9 miles of 30- and 36-inch loop lines on its Louisiana main line system in the States of Louisiana, Arkansas, Mississippi, Tennessee, Kentucky, Indiana, and Ohio;

2. Two 12,000 horsepower class compressor units at its North Tepetate Compressor Station in Louisiana;

3. One 12,000 horsepower class compressor unit at each of its La Grange and St. John Compressor Stations in Indiana and its Sandwich Compressor Station in Illinois;

4. One 1,100 horsepower class compressor unit at a proposed new Weyauwega Compressor Station in Wisconsin;

5. 6.5 miles of 12-inch loop line on its Beloit lateral in Wisconsin; and

6. Two new delivery points for existing customers, Fountaintown Gas Co. at Carthage, Ind., and St. Joseph Light & Power Co. at Maryville, Mo.

Applicant states that it has available an additional annual sales volume of 27,895,000 Mcf of natural gas through the continued development of underground storage plus increased pipeline throughput, utilizing newly acquired offshore Louisiana reserves. Applicant intends to reserve 520,000 Mcf of this volume to meet in full the increased annual requirements of its small general service customers and to allocate the remaining 27,375,000 Mcf among customers purchasing gas under its ACQ and MDQ rate schedules in the ratio of their respective current annual gas purchase entitlements.

Applicant estimates the total cost of the proposed facilities at $66,201,180, which it plans to finance initially with treasury funds, retained earnings, and other funds generated internally, together with borrowings from banks under short term lines of credit as required.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19992 Filed 11-20-72;8:49 am]

[Dockets Nos. CI72-834; CP72-274]

NAVARRO GAS PRODUCTION CO. ET AL.

Order Denying Issuance of Temporary Certificate; Motion for Reconsideration

NOVEMBER 10, 1972.

Navarro Gas Production Co. and Louisiana Gas Production Co., a Division of Commercial Solvents Corp.; and Georgia Pacific Corp.

On October 30, 1972, Georgia Pacific Corp. (GP) filed a motion for reconsideration and in the alternative for issuance of temporary certificate of public convenience and necessity and for rescheduling of procedural dates and other relief.

On October 20, 1972, the Commission issued an order in the above dockets consolidating the proceedings for formal hearing and establishing procedures which required GP and Navarro to serve testimony on November 10, and formal hearing to commence on November 14, 1972. On November 6, 1972, notice was issued by the Commission herein postponing the above procedural dates pending disposition of the instant motion.

These applications involve a proposal by GP to extend its industrial pipeline into the Monroe Field so as to purchase gas from Navarro for transportation to Crossett, Ark. for use in a papermill. GP operates its own pipeline and presently has an attached gas supply which was certificated in CP72-50 on November 15, 1971. Georgia Pacific also has an interruptible gas purchase contract with Mississippi River Transmission Corp. for 40,000 Mcf/d.

Navarro is presently selling gas, which is the subject of application, to Mid-Louisiana Gas Co. through existing facilities. The short term sale to Mid-Louisiana expires on December 1, 1972. Navarro states that upon expiration it will resume using this gas in its own industrial plants in Sterlington, La. Mid-Louisiana states that it is interested in continuing to purchase this gas after December 1, and objects to the extension of Georgia Pacific's pipeline into the Monroe Field, because to do so would reduce the amount of gas available to pipelines presently in the Monroe Field, which have existing capacity more than adequate to handle the declining volume of available gas.

GP states that it has received a notice of cancellation of its gas purchase contract with Navarro, which has a term of 3 years, for the purchase of 11,000 Mcf/d from the Monroe Field. GP further states that it must obtain authorization in Docket No. CP72-274 on or prior to November 18, 1972, or the gas purchase contract is of no further force and effect and that it must, therefore, receive the authorization pursuant to the shortened procedure or through the issuance of a temporary certificate of public convenience and necessity. Issuance of a temporary certificate under the circumstances outlined by GP, and as set forth in the pleadings, do not meet the statutory requirements for issuance of a temporary certificate. Furthermore, as stated in the order issued in these dockets on October 20, 1972, an evidentiary record should be made to develop the public interest issues involved in issuing a certificate of public convenience and necessity to GP, including the proposed end-use of natural gas.

GP submits that there are no issues involved in this application which require a formal hearing. Mid-Louisiana has however objected to the issuance of a certificate to GP because of the dwindling sources of natural gas in the Monroe Field and questions whether the Commission should authorize a new industrial pipeline into the area in view of the reduction in available supplies to existing purchasers in the Monroe Field.

The Commission finds:

(1) The motion of GP for reconsideration of the Commission order issued October 20, 1972, is not well taken and should be denied; and

(2) The motion of GP for issuance of a temporary certificate of public convenience and necessity is not required in these circumstances.

The Commission orders:

(A) The motion of Georgia Pacific Corp. for reconsideration of the Commission's order in these proceedings issued October 20 and other relief is denied;

(B) The procedural dates for filing of testimony and commencement of formal hearing set forth in the order of October 20 (paragraph B, C, and D) are hereby changed to: November 20 for filing of testimony by applicants: November 27 for filing of testimony by other parties; and November 30 for commencement of hearing.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19998 Filed 11-20-72;8:49 am]

[Docket No. RP73-47]

SEA ROBIN PIPELINE CO.

Order Accepting for Filing and Suspending Proposed Tariff Changes and Permitting Intervention

NOVEMBER 13, 1972.

On September 29, 1972, Sea Robin Pipeline Co. (Sea Robin) tendered for filing nine tariff sheets to its FPC Gas Tariff, Original Volume Nos. 1 and 2. The proposed changes would appear at sheet No. 3 of Original Volume No. 1; and sheets Nos. 4–6, 20–22, 39, and 64 of Original Volume No. 2.

The proposed changes would increase revenues from jurisdictional sales and service by $30,789,109 based on a 12-month period ending June 30, 1972, as adjusted for changes known and measurable through March 15, 1973. Sea Robin alleges that the rate changes are necessary to compensate Sea Robin for an alleged jurisdictional revenue deficiency of $30,789,109 under the cost of service for the aforementioned test period. Sea Robin also proposes a composite book depreciation rate of 8.33, an increase of 4.33 percentage points over the present rate being used. Sea Robin proposes a rate of return of 9.75 which they maintain is necessary in order to properly provide financing for its pipeline operations.

Sea Robin avers that the proposed rate increase would offset increased costs which reflect an increased rate base, increased cost of capital, increased cost of operation and maintenance, increased cost of depreciation, and increased taxes.

The notice of proposed changes in rates and charges was issued October 13, 1972, and set a final filing date of November 3, 1972, for petitions to intervene and protests. Petitions to intervene or notices of intervention have been filed by the Public Service Commission of the State of New York, Alabama Gas Corp., Mississippi Valley Gas Co., South Carolina Electric & Gas Co., Southern Natural Gas Co., and Columbia Gas Transmission Co.

In accepting the proposed rates for filing, we note that Sea Robin utilizes a fixed and variable classification system in the allocation of its cost of service. In view of the fact that in our opinion 600–A we adopted an unmodified Seaboard method of cost allocation and that we called for a reappraisal of the pricing mechanisms of interstate pipeline companies, we intend to review such pricing mechanisms including cost classification, allocation, and rate design as they pertain to Sea Robin in this proceeding. To the extent that the commodity component of Sea Robin's two-part rates and its straight line rate claimed in Docket No. RP73-47 do not recover fully allocated Seaboard costs, as may be determined herein, Sea Robin may be required to absorb the impact of any undercollections under these rates as may occur.

Sea Robin has also included approximately $23 million of noncertificated facilities in its rate base, and therefore, requests waiver of § 154.63(e)(2)(ii) of the Commission's regulations to permit inclusion of such costs. In the event these facilities are not placed in service prior to April 15, 1973, Sea Robin shall file revised tariff sheets adjusting its rates to reflect elimination of noncertificated facilities and shall also file supplemental cost and revenue data which reflects the elimination of these noncertificated facilities from its section 4(e) application in these proceedings.

Review of the filing indicates that it raises certain issues which may require development in an evidentiary hearing. The proposed increases in rates and charges have not been shown to be just and reasonable and may be unjust, unreasonable, unduly discrimnatory or preferential, or otherwise unlawful.

The Commission finds:

(1) It is necessary and proper in the public interest and to aid in the enforcement of the provisions of the Natural Gas Act that the Commission enter upon a hearing concerning the lawfulness of the rates and charges contained in Sea Robin's FPC Gas Tariff, as proposed to be amended in this docket, and that the tendered tariff sheets be accepted for filing and suspended as hereinafter provided.

(2) The disposition of this proceeding should be expedited in accordance with the procedure set forth below.

(3) In the event this proceeding is not concluded prior to the termination of the suspension period herein ordered, the placing of the tariff changes applied for in this proceeding into effect, subject to refund with interest while pending Commission determination as to their justness and reasonableness, is consistent with the purpose of the Economic Stabilization Act of 1970, as amended.

(4) Participation of the above-named petitioners for intervention in this proceeding may be in the public interest.

(5) Waiver of § 154.63(e)(2)(ii) of the Commission's regulations subject to the conditions herein specified may be in the public interest.

The Commission orders:

(A) The tendered tariff sheets are accepted for filing subject to the conditions stated in this Order.

(B) Pursuant to the authority of the Natural Gas Act, particularly sections 4 and 5 thereof, the Commission's rules of practice and procedure, and the regulations under the Natural Gas Act (18 CFR, ch. I), a public hearing shall be held, commencing with a prehearing conference on April 10, 1973 at 10 a.m., e.s.t., in a hearing room of the Federal Power Commission, 441 G Street NW., Washington, DC 20426, concerning the lawfulness of the rates, charges, classification, and services contained in Sea Robin's FPC Gas Tariff, as proposed to be amended herein.

(C) At the prehearing conference on April 10, 1973, Sea Robin's prepared testimony (statement P) together with its entire rate filing shall be admitted to the record as its complete case-in-chief subject to appropriate motions, if any, by parties to the proceeding. All parties will be expected to come to this conference prepared to effectuate the provisions of §§ 1.18 and 2.59 of the Commission's rules of practice and procedure.

(D) On or before March 15, 1973, the Commission staff shall serve its prepared testimony and exhibits. The prepared testimony and exhibits of all intervenors shall be served on or before March 29, 1973. Any rebuttal evidence by Sea Robin shall be served on or before April 13, 1973. The public hearing herein ordered shall convene on April 24, 1972, at 10 a.m., e.s.t.

(E) A presiding administrative law judge to be designated by the chief administrative law judge for that purpose (18 CFR 3.5(d)), shall preside at the hearing in this proceeding, shall prescribe relevant procedural matters not herein provided, and shall control this proceeding in accordance with the policies expressed in § 2.59 of the Commission's rules of practice and procedure.

(F) Pending hearing and a decision thereon Sea Robin's tariff sheets are suspended for 5 months and the use thereof deferred until April 15, 1973 and until such further time as they are made effective in the manner provided in the Natural Gas Act.

(G) The aforementioned petitioners for intervention are hereby permitted to intervene in this proceeding subject to the rules and regulations of the Commission: *Provided, however,* That participation of the intervenors shall be limited to the matters affecting asserted rights and interests specifically set forth in the petitions to intervene: and *Provided, further,* That admission of the intervenors shall not be construed as recognition by the Commission that the intervenors may be aggrieved by any order entered in the proceeding.

(H) Waiver of § 154.63(e)(2)(ii) of the Commission's regulations is hereby granted to Sea Robin, subject to the conditions specified herein.

By the Commission.

[SEAL] KENNETH F. PLUMB,
Secretary.

[Docket No. CP73-115]

TENNESSEE GAS PIPELINE CO.

Notice of Application

NOVEMBER 14, 1972.

Take notice that on October 31, 1972, Tennessee Gas Pipeline Co., a division of Tenneco Inc. (Applicant), Post Office Box 2511, Houston, TX 77001, filed in Docket No. CP73-115 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the construction and operation of certain natural gas facilities, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to construct the following additions to its system:

1. 56.6 miles of 36-inch loop lines in Louisiana, Mississippi, Alabama, and Tennessee,

2. 14.7 miles of 42-inch loop line in Kentucky,

3. A 2,500 horsepower addition to its Collinwood Compressor Station, and

4. A 10,000 horsepower additional to its Ysclosky Compressor Station.

Applicant states that construction of the facilities proposed herein will increase its authorized system design capacity by 53,000 Mcf to a total of 3,835,000 Mcf and will provide only sufficient increased capacity to enable it to continue to provide presently authorized service.

Applicant estimates the cost of the proposed facilities at $27,845,000, which it plans to finance initially from general funds of the company and/or from borrowings under the company's revolving credit agreements.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 8, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CS71-383]

TEXAS GULF, INC., ET AL.

Notice of Redesignation

NOVEMBER 13, 1972.

By letter dated August 10, 1972, Texas Gulf Inc. has advised the Commission that its corporate name has been changed from Texas Gulf Sulphur Co. effective April 28, 1972.

Accordingly, the small producer certificate of public convenience and necessity issued pursuant to section 7(c) of the Natural Gas Act to Texas Gulf Sulphur Co. (Operator), et al., is redesignated as that of Texas Gulf, Inc., et al.

KENNETH F. PLUMB,
Secretary.

[FR Doc.72-19995 Filed 11-20-72;8:49 am]

[Docket No. CI73-335]

TEXACO INC.

Notice of Application

NOVEMBER 15, 1972.

Take notice that on November 8, 1972, Texaco Inc. (Applicant), Post Office Box 60252, New Orleans, LA 70160, filed in Docket No. CI73-335 an application pursuant to section 7(c) of the Natural Gas Act and § 2.75 of the Commission's general policy and interpretations (18 CFR 2.75) for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Tennessee Gas Pipeline Co., a Division of Tenneco Inc. (Tennessee), from the East Cameron Block 271 Field, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes under the optional gas pricing procedure to sell natural gas to Tennessee from East Cameron Blocks, 254, 255, 271, and 272 at an initial rate of 45.0 cents per Mcf, subject to upward and downward B.t.u. adjustment, at 15.025 p.s.i.a. The subject contract with Tennessee dated October 6, 1972, provides for reimbursement to the seller for 100 percent of any new or increased taxes, for price escalations of 1.0 cent per Mcf annually, and for a term of 20 years.

Applicant asserts that the 45.0-cent per Mcf initial rate is significantly lower than prices for sales of liquefied natural gas to be used as base load supplements and for peak shaving purposes for which applications are pending or have been approved by the Commission, lower than the estimated prices for sales of synthetic pipeline gas, gas produced by coal gasification plants and Alaskan gas, and lower than the proposed new ceiling rate of 50.0 cents per Mcf for the Applachian area, which has received wide support. Applicant further asserts that the 45.0-cent price compares favorably with the prices at which new gas suppliers from Canada will be priced in the years ahead. Applicant contends that the least cost alternative concept is a proper device for testing whether the price for the subject sale is justified, and that the instance price, including all fixed escalations, is significantly less than that for the otherwise available alternatives from nonconventional sources.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 11, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10) and the regulations under the Natural Gas Act (18 CFR 157.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for Applicant to appear or be represented at the hearing.

KENNETH F. PLUMB,
Secretary.

[Docket No. CI73-343]

UNION TEXAS PETROLEUM

Notice of Application

NOVEMBER 15, 1972.

Take notice that on November 9, 1972, Union Texas Petroleum, a division of

V37-225 NOV 21 72 XUM

Allied Chemical Corp. (Applicant), Post Office Box 2120, Houston, TX 77001, filed in Docket No. CI73-343 an application pursuant to section 7(c) of the Natural Gas Act for a certificate of public convenience and necessity authorizing the sale for resale and delivery of natural gas in interstate commerce to Columbia Gas Transmission Corp. (Columbia) from Block 273, East Cameron Area, offshore Louisiana, all as more fully set forth in the application which is on file with the Commission and open to public inspection.

Applicant proposes to sell gas to Columbia at 45 cents per Mcf at 15.025 p.s.i.a. Applicant states that the proposed sale is subject to its option to receive 25 percent of the average daily quantity of gas produced and made available by Applicant to Columbia from Block 273.

Any person desiring to be heard or to make any protest with reference to said application should on or before December 11, 1972, file with the Federal Power Commission, Washington, D.C. 20426, a petition to intervene or a protest in accordance with the requirements of the Commission's rules of practice and procedure (18 CFR 1.8 or 1.10). All protests filed with the Commission will be considered by it in determining the appropriate action to be taken but will not serve to make the protestants parties to the proceeding. Any person wishing to become a party to a proceeding or to participate as a party in any hearing therein must file a petition to intervene in accordance with the Commission's rules.

Take further notice that, pursuant to the authority contained in and subject to the jurisdiction conferred upon the Federal Power Commission by sections 7 and 15 of the Natural Gas Act and the Commission's rules of practice and procedure, a hearing will be held without further notice before the Commission on this application if no petition to intervene is filed within the time required herein, if the Commission on its own review of the matter finds that a grant of the certificate is required by the public convenience and necessity. If a petition for leave to intervene is timely filed, or if the Commission on its own motion believes that a formal hearing is required, further notice of such hearing will be duly given.

Under the procedure herein provided for, unless otherwise advised, it will be unnecessary for applicant to appear or be represented at the hearing.

FEDERAL RESERVE SYSTEM

AMERICAN BANCORPORATION

Order Denying Formation of Bank Holding Company

American Bancorporation, Los Angeles, Calif., has applied for the Board's approval, under section 3(a)(1) of the Bank Holding Company Act (12 U.S.C. 1842(a)(1)), of formation of a bank holding company through acquisition of 50 percent, plus one share, of the outstanding voting shares of Ranchers Bank, Quartz Hill, Calif.

Notice of receipt of the application has been given in accordance with section 3(b) of the Act, and the time for filing comments and views has expired. The Board has considered the application and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

On the basis of the record, the application is denied for the reasons set forth in the Board's statement[1] of this date.

By order of the Board of Governors,[2] effective November 14, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-20030 Filed 11-20-72;8:50 am]

FIRST FINANCIAL CORP.

Order Approving Acquisition of Bank

First Financial Corp., Tampa, Fla., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire not less than 90 percent of the voting shares of First Financial National Bank of Tampa, Tampa, Fla. (Bank), a proposed new bank.

Notice of the application, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and none has been timely received. The Board has considered the application in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Applicant controls 10 banks with aggregate deposits of $555 million, representing 3.4 percent of the total commercial bank deposits in the State, and is the sixth largest banking organization and bank holding company in Florida. (All banking data are as of December 31, 1971, unless otherwise noted, adjusted to reflect all bank holding company acquisitions and formations approved by the Board through October 31, 1972.) Since Bank is a proposed new bank, no existing competition would be eliminated nor would concentration be increased in any relevant area.

Bank would be located in a fast growing area north of Tampa, with an estimated population of 55,000, and would be competing in the Tampa banking market, in which applicant controls 32.9 percent of deposits. Applicant presently operates three subsidiary banks in the Tampa banking market, the closest being applicant's lead bank, the First National Bank of Tampa, located about 9 miles south of the proposed site of Bank. The ninth and seventh largest banking organizations in Florida rank second and third in the Tampa banking market and control 25.0 and 13.5 percent, respectively, of market deposits. Subsidiaries of five other bank holding companies also compete in the Tampa market, four of which are among the State's 10 largest banking organizations. Additionally, there are numerous intervening banks. It appears that consummation of the proposal herein would not alter adversely the competitive situation nor the concentration of resources in the market, nor is there any evidence in the record that applicant's proposal is an attempt to preempt a site before there is a need for a bank.

The financial and managerial resources and the future prospects of applicant and its subsidiaries are regarded as generally satisfactory. Prospects for Bank appear favorable since it would have capable and experienced management and would be adequately capitalized. Bank would be able to provide an additional source of full banking services in an area which is experiencing rapid growth. Considerations relating to the convenience and needs of the area to be served lend slight support to, and are consistent with, approval of the application. It is the Board's judgment that the proposed acquisition would be in the public interest and that the application should be approved.

On the basis of the record, the application is approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, and (c) First Financial National Bank of Tampa, Tampa, Fla., shall be opened for business not later than 6 months after the effective date of this order. Each of the periods described in (b) and (c) may be extended for good cause by the Board, or by the Federal Reserve Bank of Atlanta pursuant to delegated authority.

By order of the Board of Governors,[1] effective November 14, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-20032 Filed 11-20-72;8:50 am]

NBC CO.

Order Approving Acquisition of Mutual Savings Company

NBC Co., Lincoln, Nebr., a bank holding company within the meaning of the Bank Holding Company Act, has applied for the Board's approval, under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y, to acquire all of the voting shares of Mutual Savings Co., Lincoln, Nebr. (Mutual), a company that engages in the operation of an industrial loan company in the manner authorized by Nebraska law and neither accepts demand deposits nor makes commercial loans. Such activity has been determined by the Board to be closely related to banking (12 CFR 225.4(a)(2)).

Notice of the application, affording opportunity for interested persons to submit comments and views on the public interest factors, has been duly published (37 F.R. 15347). The time for filing comments and views has expired, and none has been timely received.

Applicant's banking subsidiary, National Bank of Commerce Trust and Savings Association (Bank), is the second largest of the 11 banks located in Lincoln, Nebr., and held deposits of $158.6 million, as of December 31, 1971. Mutual issues "certificates of indebtedness" and with funds derived thereby, makes small personal loans secured primarily by automobiles, household goods, and second mortgages on real estate. With total assets of $786,000, Mutual operates out of a single office in Lincoln, Nebr., and is the smallest of the three industrial loan companies in Lincoln.

The proposed transaction would have no significant adverse effect on existing competition in the market for lendable funds. Whereas Bank offers the usual range of deposit services offered by commercial banks, Mutual offers "certificates of indebtedness" which, though similar to certificates of deposit, represent a higher risk, due to their uninsured character, than do deposits received by Bank. This is reflected in higher interest rates paid by Mutual on such funds, than are paid by Bank for its deposit liabilities and by the fact that a substantial portion of the holders of Mutual's "certificates of indebtedness" also maintain savings deposits at insured institutions. Barriers to entry into the banking business and legal requirements that Bank, as a national bank, maintain the insured character of its deposits and comply with limitations upon the payment of interest on deposits established by the Board's Regulation Q (12 CFR Part 217) suggest that future significant development of competition between Mutual and Bank in the market for such lendable funds is unlikley. The major portion of Mutual's loan portfolio is secured by second mortgages on real estate. Bank is generally prohibited by section 24 of the Federal Reserve Act (12 U.S.C. 371) from making loans in primary reliance on a second mortgage on real estate as security. However, some slight competition may exist between Mutual and Bank in the making of other consumer loans. Nevertheless, consummation of the proposed transaction would have only an insignificant adverse effect upon competition in the Lincoln consumer loan market in view of Mutual's relatively slight position in that market.

There is no evidence in the record indicating that consummation of the proposed transaction would result in any undue concentration of resources, unfair competition, unsound banking practices, or other adverse effects on the public interest. It is anticipated that Mutual's affiliation with applicant will strengthen Mutual's ability to compete vis a vis the two other industrial loan companies in Lincoln, both of which are substantially larger than Mutual. To the extent that consummation of the proposed transaction will strengthen Mutual as a competitive alternative in Lincoln and enable Mutual to accommodate certain borrowers which Mutual is presently unable to serve, public benefits would derive from consummation of the transaction.

Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors the Board is required to consider under section 4(c)(8) is favorable. Accordingly, the application is hereby approved. This determination is subject to the conditions set forth in section 225.4(c) of Regulation Y and to the Board's authority to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[2] effective November 14, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-20034 Filed 11-20-72;8:51 am]

NORTHERN STATES FINANCIAL CORP. AND TWIN GATES CORP.

Order Approving Acquisition of Bank

Northern States Financial Corp., Detroit, Mich. (Northern States), a bank holding company within the meaning of the Bank Holding Company Act, and Twin Gates Corp., Wilmington, Del. (Twin Gates), a registered bank holding company owning directly 22.48 percent of the voting share of Northern States[1] have applied for the Board's approval under section 3(a)(3) of the Act (12 U.S.C. 1842(a)(3)) to acquire all of the voting shares of the successor by merger to Bank of Lansing, Lansing, Mich. (Bank). The applications state that the acquisition will be made directly by Northern States. The bank into which Bank is to be merged has no significance except as a means to facilitate the acquisition of all the voting shares of Bank. Accordingly, the proposed acquisition of shares of the successor organization is treated herein as the proposed acquisition of the shares of Bank.

Notice of the applications, affording opportunity for interested persons to submit comments and views, has been given in accordance with section 3(b) of the Act. The time for filing comments and views has expired, and the Board has considered the applications and all comments received in light of the factors set forth in section 3(c) of the Act (12 U.S.C. 1842(c)).

Northern States is the seventh largest banking organization in Michigan, and controls one bank, City National Bank of Detroit, Detroit, Mich. (City National), with total deposits of $529.2 million, representing 2.3 percent of total commercial bank deposits in the State. (Unless otherwise indicated, banking data are as of December 31, 1971, adjusted to reflect holding company formations and acquisitions approved by the Board through October 31, 1972.) Upon acquisition of Bank ($130 million deposits), Northern States' share of deposits would increase by 0.6 percent, and Northern States would become the sixth largest banking organization in Michigan.

Bank, which operates seven offices in the city of Lansing and environs, holds 17.3 percent of the total commercial bank deposits in the Lansing market, and is the third largest bank in the market. The two larger banks in the market hold, respectively, 38.3 percent and 20.5 percent of the deposits in the market. (Market data are as of June 30, 1970.) It does not appear that any significant existing competition between Bank and the subsidiaries of Northern States and Twin Gates would be eliminated as a result of consummation of the proposal. The nearest banking office of City National or Rochester Bank is located 58 miles east of an office of Bank. Furthermore, in view of the distances involved, the large number of banking alternatives available, and the restrictions placed on branching by Michigan laws, it appears unlikely that any significant competition between the banking institutions would develop in the future.

While Northern States possesses the resources to enter the market de novo or through acquisition of a smaller bank, the elimination of such potential competition does not appear to be significantly adverse in view of the fact that Bank does not occupy a dominant position in the market. On the basis of the

[1] Filed as part of the original document. Copies available upon request to the Board of Governors of the Federal Reserve System, Washington, D.C. 20551, or to the Federal Reserve Bank of San Francisco.

[2] Voting for this action: Vice Chairman Robertson and Governors Mitchell, Daane, Brimmer, Sheehan, and Bucher. Absent and not voting: Chairman Burns.

[1] Voting for this action: Chairman Burns and Governors Robertson, Sheehan, and Bucher. Absent and not voting: Governors Mitchell, Daane, and Brimmer.

[2] Voting for this action: Chairman Burns and Governors Robertson, Sheehan, and Bucher. Absent and not voting: Governors Mitchell, Daane, and Brimmer.

[1] In addition, 10 separate trusts established for the benefit of the shareholders of Twin Gates hold an additional 15.8 percent of the voting shares of Northern States. Control of said shares is attributed to Twin Gates by virtue of sec. 2(g)(2) of the Act. Twin Gates and Northern States control indirectly, as a result of the profit-sharing trust of the banking subsidiary of Northern States, 13.2 percent of the voting shares of National Bank of Rochester, Rochester, Mich. (Rochester Bank). Twin Gates also directly owns an additional 20 percent of the voting shares of Rochester Bank, which is thus deemed to be a subsidiary of Twin Gates.

V 37 • 225 NOV 21 72 XUM

foregoing and the facts of record, the Board concludes that consummation of the proposal would not eliminate significant existing competition nor foreclose the development of significant potential competition.

In view of plans to improve the capital position of City National Bank,[2] it appears that Northern States and its subsidiary bank are in generally satisfactory financial condition; their managements are capable, and prospects for each appear favorable. The financial and managerial resources of Twin Gates appear satisfactory, and its prospects are considered favorable. In reviewing the financial condition and prospects of Banks, the Board notes that Bank has experienced loan losses and is in need of additional capital. Northern States plans to immediately augment Bank's equity capital by $5 million. As a result of the implementation of this program and the technical assistance that Northern States would be able to provide Bank's management, the financial condition of Bank would be strengthened and its prospects enhanced. Thus, considerations relating to the banking factors as they relate to Bank lend weight to approval of the application. It appears that the banking needs of the Lansing banking market are being met; however, in view of the improved financial strength of Bank resulting from its affiliation with Northern States, Bank should be able to improve and expand its banking services. It is the Board's judgment that consummation of the proposed acquisition would be in the public interest and that the applications should be approved.

On the basis of the record, the applications are approved for the reasons summarized above. The transaction shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Chicago pursuant to delegated authority.

By order of the Board of Governors,[3] effective November 14, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

[FR Doc.72-20033 Filed 11-20-72;8:51 am]

[2] The Board's approval on Aug. 22, 1972, of Northern States' application to become a bank holding company was based, in part, on Northern States' proposal to increase the capital account of City National by $25 million. (1972 Federal Reserve Bulletin 827.)

[3] Voting for this action: Chairman Burns and Governors Robertson, Sheehan, and Bucher. Absent and not voting: Governors Mitchell, Daane, and Brimmer.

NORTHWEST KANSAS INSURANCE AGENCY, INC.

Order Approving Merger of Bank Holding Companies and Acquisition Through Merger of Insurance Agency

Northwest Kansas Insurance Agency, Inc., Colby, Kans., has applied for the Board's approval under section 3(a)(5) of the Bank Holding Company Act (12 U.S.C. 1842(a)(5)) to merge bank holding companies and, thereby, to acquire 41.5 percent or more additional voting shares of The Thomas County National Bank, Colby, Kans. (Bank).

The proposed acquisition of Bank is to be accomplished by means of a statutory merger of Applicant with the Hi-Plains Insurance Agency, Inc., Colby, Kans., a bank holding company under common control with applicant. The application to acquire Bank, therefore, is under the jurisdiction of section 3(a)(5) of the Act, which provision requires the Board's prior approval "for any bank holding company to merge or consolidate with any other bank holding company." The Board has considered this application on that basis.

At the same time applicant has applied for the Board's approval under section 4(c)(8) of the Act and § 225.4(b)(2) of the Board's Regulation Y to engage in insurance agency activities through the acquisition, by merger, of the insurance agency business formerly conducted by the Hi-Plains Insurance Agency, Inc. (Hi-Plains Agency), to be named The Thomas County Insurance Agency, Inc., each of Colby, Kans.

Notice of receipt of the applications has been given in accordance with sections 3 and 4 of the Act (37 F.R. 21017), and the time for filing comments and views has expired. The Board has considered the applications in the light of the facts set forth in section 3(c) of the Act (12 U.S.C. 1842(c)), and the considerations specified in section 4(c)(8) of the Act (12 U.S.C. 1843(c)(8)) and finds that:

Applicant is a one-bank holding company by virtue of its ownership of 41 percent of the outstanding voting shares of Bank; and the Hi-Plains Insurance Agency, Inc. (Hi-Plains), is a one-bank holding company by virtue of its ownership of 41.5 percent of Bank. In addition, applicant and Hi-Plains each own and operate a general insurance agency on the premises of Bank. Through these applications, applicant proposes to acquire 41.5 percent additional voting shares of Bank and succeed to the insurance agency business formerly conducted by Hi-Plains. Apolicant would accomplish this restructuring of corporate ownership of Bank and Hi-Plains Agency by merging Hi-Plains into applicant. Accordingly, no significant issues are presented by these applications.

Bank, with deposits of $11.5 million,[1] is the smaller of two commercial banks in Colby, Kans. Upon approval of this application, applicant would own 82.5 percent of Bank's voting shares. No existing or potential competition would be eliminated upon consummation of this proposal.

The financial and managerial resources of applicant, Bank, and Hi-Plains Agency are considered sound, and the future prospects of the respective organizations appear favorable. Consolidation of the structure under which Bank and Hi-Plains Agency operate could improve the internal operating efficiency of the respective organizations. It appears that consummation of applicant's proposal would not have any immediate effects on the convenience and needs of the communities to be served. Applicant, would, however, be more able, through increased resources, to offer expanded services to the community as such needs arise. Considerations relating to the convenience and needs of the communities to be served are, therefore, consistent with approval of the applications. It is the Board's judgment that the proposed transaction is consistent with the public interest and should be approved.

Applicant and Hi-Plains each currently operate separate general insurance agencies on Bank's premises. Applicant would acquire the insurance business formerly conducted by Hi-Plains Agency through its proposed acquisition by merger of Hi-Plains. Both Agencies compete with seven other insurance agencies in Colby, Kans., and Hi-Plains Agency engages in a general insurance agency business. Hi-Plains Agency sells life, credit life, fire, casualty, crop-hail insurance, and short term grain fire insurance.

Colby, Kans., is a town of approximately 4,700; acting as a general insurance agent or broker in a community of less than 5 000 people is an activity that the Board has previously determined by regulation to be closely related to banking (12 CFR 225.4(a)(9)). No existing or potential competition would be eliminated upon consummation of this proposal, since it represents only a restructuring of corporate ownership.

There is no evidence in the record indicating that consummation of the proposal would result in any undue concentration of resources, unfair competition, conflicts of interests, unsound banking practices, or other adverse effects on the public interest. Based upon the foregoing and other considerations reflected in the record, the Board has determined that the balance of the public interest factors that the Board is required to consider regarding the acquisition of Hi-Plains Agency under § 4(c)(8) is favorable and that the application should be approved.

[1] Banking data are as of June 30, 1972.

On the basis of the record, the applications to acquire Bank and Agency are approved for the reasons summarized above. The acquisition of Bank shall not be consummated (a) before the 30th calendar day following the effective date of this order or (b) later than 3 months after the effective date of this order, unless such period is extended for good cause by the Board, or by the Federal Reserve Bank of Kansas City pursuant to delegated authority. The determination as to Agency's activities is subject to the Board's authority to require reports by, and make examinations of, holding companies and their subsidiaries and to require such modification or termination of the activities of a holding company or any of its subsidiaries as the Board finds necessary to assure compliance with the provisions and purposes of the Act and the Board's regulations and orders issued thereunder, or to prevent evasion thereof.

By order of the Board of Governors,[1] effective November 14, 1972.

[SEAL] MICHAEL A. GREENSPAN,
Assistant Secretary of the Board.

GENERAL SERVICES ADMINISTRATION

[Federal Property Management Regs. Temporary Reg. F-161]

SECRETARY OF DEFENSE

Delegation of Authority

1. *Purpose.* This regulation delegates authority to the Secretary of Defense to represent the consumer interests of the Federal Government in an electric service rate proceeding.

2. *Effective date.* This regulation is effective immediately.

3. *Delegation.* a. Pursuant to the authority vested in me by the Federal Property and Administrative Services Act of 1949, 63 Stat. 377, as amended, particularly sections 201(a)(4) and 205(d) (40 U.S.C. 481(a)(4) and 486(d)), authority is delegated to the Secretary of Defense to represent the consumer interests of the executive agencies of the Federal Government before the California Public Utilities Commission in a proceeding (Application No. 53185) involving electric service rates provided by the Pacific Gas and Electric Co.

b. The Secretary of Defense may redelegate this authority to any officer, official, or employee of the Department of Defense.

c. This authority shall be exercised in accordance with the policies, procedures, and controls prescribed by the General Services Administration, and, further, shall be exercised in cooperation with the responsible officers, officials, and employees thereof.

ARTHUR F. SAMPSON,
Acting Administrator of General Services.

NOVEMBER 14, 1972.

SECURITIES AND EXCHANGE COMMISSION

[Release No. 9849]

CENTRAL CERTIFICATE SERVICE, INC.

Proposals Released for Public Comment

NOVEMBER 8, 1972.

The Securities and Exchange Commission announced that Central Certificate Service, Inc. (CCS, Inc.), a wholly owned subsidiary of the New York Stock Exchange (NYSE), has submitted to the Commission pursuant to Rule 17a-8 under the Securities Exchange Act of 1934,[1] a proposed package[2] in anticipation of the eventual transfer of the operations of CCS, Inc., to trust company status with multiple ownership. The Commission is requesting public comment on these proposals and is making them publicly available in the manner described herein.

BACKGROUND OF THE PROPOSALS

CCS, Inc., has provided the Commission with the following background information on its proposal:

Recently as part of an internal reorganization of the clearing facility of the New York Stock Exchange, Central Certificate Service (CCS), which was a division of that NYSE clearing facility, became a wholly owned subsidiary of the NYSE operating under substantially the same rules and procedures applicable to CCS. Plans for CCS, Inc.'s development as a securities depository provide for it to evolve in stages from sole ownership and control by the NYSE to a separate and independent entity whereby ownership will be based upon the use of the depository by its participants. This evolution would follow the path outlined in a memorandum of understanding of September 1971 among the members of the Banking and Securities Industry Committee (BASIC). BASIC, which is sponsored by the NYSE, American Stock Exchange (Amex), the National Association of Securities Dealers, and 11 New York Clearing House Banks, is devoted to the solution of interindustry problems. One of the primary objectives of BASIC has been to expand CCS into a Comprehensive Securities Depository System which will serve all brokers, banks, and other financial institutions such as insurance companies and investment companies. The September memorandum signed by the sponsors of BASIC, among other things, commits each of the signatories to employ its best efforts to create a comprehensive depository in New York for stocks and other securities.

It is contemplated that CCS, Inc., would exist as a business corporation for only a matter of months until its business could be transferred to a limited purpose trust company chartered by the New York State Banking Department. The trust company would seek membership in the Federal Reserve System and would function under new rules which CCS, Inc., has submitted to the Commission and are a part of this package. These rules are not being reviewed by the Commission and as previously indicated, your comment is invited on them. The NYSE would be the sole owner of the trust company initially, and the Board of Directors of CCS, Inc., would become the Board of the trust company.

At such time as amendments in various States to section 8-102(3) of the Uniform Commercial Code make it possible for a depository to be owned by entities in addition to a national securities exchange, it is contemplated that ownership of the shares of CCS, Inc., in its trust company form will be widened to reflect the intention that it become a user-owned entity. At that time it is expected that several New York Clearing House Banks, the Amex, and NASD would purchase stock in the trust company from the NYSE. Ownership of the trust company's stock threafter would be determined annually based on the extent to which participants in the depository used its services during the previous year. The Board of CCS, Inc., has affirmed its commitment to the goal of user-based ownership. However, the time required to obtain necessary State law changes means that user-based ownership of the trust company successor of CCS, Inc., will not be possible before 1974.

A description of the proposed package now follows:

CERTIFICATE OF INCORPORATION OF CCS, INC.

CCS, Inc., has submitted a newly proposed corporate charter which contains the following principal provisions:

1. A purpose clause setting forth the purposes for which CCS, Inc., is formed. The new charter, as submitted, specifically precludes CCS, Inc., from acting as a transfer agent.

2. Voting and quorum requirements necessary for the Board of Directors to act on various matters.

3. Provision is made for election of directors by cumulative voting in the new charter.

[1] Under Rule 17a-8, exchange depositories are required to file proposed rule changes with the Commission for its review and comment. The term rule includes the constitution, articles of incorporation, bylaws, or rules or instruments corresponding thereto whatever the name, and stated policies.

[2] The package consists of a proposed certificate of incorporation, and proposed bylaws, rules, manual of operating procedures, form agreements, and certain corporate resolutions.

V 37 • 225 NOV 21 72 XUM

4. The charter submitted also differs from the present CCS, Inc., charter in having provisions regarding stock ownership in CCS, Inc. Stock ownership is available to banking organizations, insurance companies, investment companies, and to national securities exchanges or associations as representatives of broker-dealers. The proposed charter does not allow broker-dealers to own stock in CCS, Inc.

BYLAWS OF CCS, INC.

In general, the bylaws of CCS, Inc., cover the following principal matters:

1. Meetings of shareholders, including the time, place, notice required for special and annual meetings, quorum requirements, and voting, in person or by proxy.

2. Directors including the number and term of office, special and annual meetings of the Board, quorum requirements, committees of the Board and their authority, and director compensation.

3. Officers of the corporation including their title, duties, and manner of choosing and compensating them.

4. Indemnification of officers and directors.

5. Authority of the board of directors to prescribe and amend the rules of CCS, Inc.

RULES OF CCS, INC.

In general the rules of CCS, Inc., contain the following principal provisions:

Rules 2–3. Those permitted to be participants in CCS, Inc., are corporations engaged in clearance and settlement activities or a member or member organization of such corporation, depositories, banks or trust companies, insurance companies, investment companies, pension funds and any other entity of such type as CCS, Inc., may determine it has the capability to serve. Such prospective participant must file an application which must be approved by the corporation "which approval shall only be given upon a determination by the corporation that it has the existing capability to perform its services for such entity and that such entity has demonstrated and continues to possess the character, financial ability, and operational history and capability necessary to fulfill its commitments in an efficient and businesslike manner consistent with the interests of the corporation and other participants and pledgees and has the capability to conform to any condition and requirement which the corporation deems necessary for its protection and the protection of other participants and pledgees * * *."

Rule 4. A participant's fund will require deposits by participants upon the basis of a formula established by CCS, Inc., based upon usage. The minimum contribution is $10,000. The fund is available for the uses specified in the rules including for the purposes of its business.

Rule 5. CCS, Inc., plans to accept an issue of securities as eligible securities only upon a determination by it that it has the existing capability to continue successfully to provide its services to participants and pledgees when securities of such issue are deposited. In seeking the addition of issues of securities to its list of eligible securities, CCS, Inc., states that it will also be guided by the extent to which the addition of those issues will produce the maximum benefit to the processing of securities transactions.

Rule 6. Services to be performed by CCS, Inc., for its participants and pledgees include acceptance of eligible securities from participants for deposit; effecting transfers by a participant of its deposited securities to another participant; effecting pledges by a participant of its deposited securities to a pledgee; effecting the release of such pledges; delivering to a participant its deposited securities; delivering dividends, distributions, rights, securities, proxy material, etc.; disbursing money to, and receiving money from, participants and pledgees in connection with related securities transactions; and providing participants and pledgees information and statements of account regarding their business with CCS, Inc.

Rule 7. Each participant which does not appoint another participant as its agent is required to make operational arrangements satisfactory to CCS, Inc., to deliver to, and receive from, an office, agency, or custodian of CCS, Inc., securities, instructions, and other documents. Also, if required by CCS, Inc., because of the location of the participant, the participant shall arrange communications facilities between the participant and CCS, Inc., which shall be satisfactory to CCS, Inc.

Rule 9. Money payments between CCS, Inc., and participants or pledgees and between participants or pledgees and other participants or pledgees arising out of transactions delivery with respect to which is effected through the facilities of CCS, Inc., are to be made through CCS, Inc. In addition, it should be noted that balances due CCS, Inc., from a participant or pledgee shall be paid by check payable in New York clearinghouse funds.

Rules 11–13. These rules describe the circumstances under which CCS, Inc., may cease to act for a participant either with respect to a particular transaction or transactions or with respect to transactions generally and the effects thereof.

Rule 19. CCS, Inc. may fine a participant for violating the rules or procedures, for errors, delays, or other conduct detrimental to the operations of CCS, Inc., or for not providing adequate facilities for its business with CCS, Inc. The fine for any given offense is limited to $1,000. In addition to or in lieu of a fine, CCS, Inc., may impose penalties on a participant. The fine or penalty (and the amount thereof) may be imposed by the chairman of the board, the president or any executive vice president of CCS, Inc.

Rule 20. A participant or pledgee or an applicant to become such shall have the right to appeal any decision of CCS, Inc., (a) which denies such applicant's application to become a participant or a pledgee, (b) to cease to act for such participant, or (c) to terminate its agreement with such pledgee. The rule also describes the manner in which such decision shall be appealed.

OPERATING PROCEDURES OF CCS, INC.

These are detailed technical procedures which deserve special attention by those familiar with the processing of security transactions.

CORPORATE RESOLUTIONS OF CCS, INC.

The corporate resolutions provide that when the stock of CCS, Inc., is owned by more than one person, users who are eligible to purchase its shares under the charter will be encouraged to become owners. Ownership will be determined annually based on the extent to which participants in the depository used its services during the previous year. The resolutions also provide that CCS, Inc., will seek a limited profit. Its objective in pricing its services to users is to charge the lowest fees possible consistent with coverage of normal operating costs, foreseeable needs for new equipment and capital improvements, and a surplus position. It will pay limited annual dividends to shareholders.

FOUR BASIC FORM AGREEMENTS

We have been provided with four basic form agreements which must be signed by prospective participants, pledgees and custodians. These are:

1. Participants agreements.
2. Participants fund agreement.
3. Pledgee agreement.
4. Custodian bank agreement.

These documents should be reviewed by interested persons.

PUBLIC AVAILABILITY OF DOCUMENTS

It should be noted that the release does not attempt to fully describe the provisions of any of the aforementioned documents nor has the Commission or its staff in any way passed upon the merits of the proposals. Since the proposal and accompanying documents may have a significant impact upon the financial community, the public and the Commission's regulatory oversight over depositories which are trust companies and are not wholly owned subsidiaries of an exchange, the Commission believes it appropriate that all interested persons have an opportunity to comment on these proposals.[3]

A copy of the certificate of incorporation, bylaws, rules, operating procedures, two corporate resolutions and four basic form agreements are available for inspection at the Commission headquarters office and its regional offices. The September memorandum of understanding

[3] In its Aug. 23, 1972 report of the Study of the Securities Industry at p. 110, the House Subcommittee on Commerce and Finance of the Committee on Interstate and Foreign Commerce expresses its view in support of exposing important NYSE rule proposals for public comment.

is also available for inspection. In addition, any person may, upon request, receive a copy of the proposed rules, certificate of incorporation and corporate ffficate of incorporation and corporate resolutions from the Commission. Inasmuch as the release does not touch upon all the details contained in the various documents and may omit reference to provisions which may be of significance to certain parties, it is recommended that the documents be reviewed.

All interested persons are invited to submit their views and comments on the proposals in writing to Lee A. Pickard, Associate Director, Division of Market Regulation, Securities and Exchange Commission, 500 North Capitol Street NW., Washington, DC 20549, on or before December 12, 1972. All such communications will be available for public inspection.

By the Commission.

[SEAL] RONALD F. HUNT, *Secretary.*

DEPARTMENT OF LABOR

Occupational Safety and Health Administration

TUDOR ENGINEERING CO. AND ST. JOE MINERALS CORP.

Grants of Variances

Tudor Engineering Company:

I. *Background.* Tudor Engineering Co. made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596) and 29 CFR Part 1905 for a variance from the safety and health standard prescribed in 29 CFR 1910.27, requiring that a caged ladder have a maximum length of 30 feet between landing platforms. Notice of the application for variance made by Tudor Engineering Co. was published in the FEDERAL REGISTER on May 31, 1972 (37 F.R. 10820). The notice invited interested persons, including affected employers and employees, to submit written data, views, and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were permitted to request a hearing on the application for a variance. No written comments and no request for a hearing have been received.

II. *Facts.* The applicant has installed supplemental navigation lights and appurtenant facilities for the Umatilla Toll Bridge at Umatilla, Oreg. The bridge, which is owned by Umatilla County, crosses the Columbia River and connects Umatilla County, Oreg., with Benton County, Wash.

Applicant has installed one fixture each on the upstream and downstream faces of the bridge piers, which are concrete structures with vertical faces. The light fixtures are located at an elevation prescribed by the U.S. Coast Guard, which is approximately 30 feet below the top of the piers involved. Tudor states that the most convenient arrangement for servicing the light fixtures would be from a platform located 4 feet below the fixture. The applicant argues that another landing platform 4 feet above the working platform, which would be required by § 1910.27(d)(2), would serve no safety purpose, especially since the ladders would be used only two or three times a year for servicing the fixtures. Accordingly, applicant would use four ladders in order to provide access to the new navigation lights. The ladders, two 34 foot-length and two 35 foot-length are fixed vertical metal ladders with cages.

III. *Decision.* Section 1910.27(d)(2) requires landing platforms to be provided for each 30 feet of height, or fraction thereof, when ladders with cages are used to ascend heights exceeding 20 feet. The primary purpose of the standard is to limit the height to which an employee may be required to ascend using a ladder before there can be a break or stop in his ascent. A landing platform provides a stopping point which an employee may use for rest or emergency.

The light fixtures of the applicant are installed on the upstream and downstream faces of the bridge piers at an elevation prescribed by the U.S. Coast Guard. Since this elevation is approximately 30 feet below the top of the bridge piers the most convenient arrangement is to service the fixtures from a platform that is located about 4 feet below the fixtures. Such a platform requires ladders which are approximately 34 feet long. In view of the fact that the ladders will exceed the length allowed without a landing platform by only 4 or 5 feet, and of the fact that few workers will use the ladders, and, then, only two or three times a year, we believe the ladders will be just as safe as they would be with another landing platform 4 feet above the working platform. Therefore,

IV. *Order.* Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, 29 CFR Part 1905, and in Secretary of Labor's Order No. 12–71 (36 F.R. 8754), *It is ordered,* That Tudor Engineering Co. be, and it is hereby, authorized to use two 34-foot and two 35-foot fixed vertical metal ladders with cages to provide access to the new supplemental navigation lights and appurtenant facilities, for the servicing of the light and facilities, on the Umatilla Toll Bridge at Umatilla, Oreg., without the landing platform otherwise required by 29 CFR 1910.27(d).

As soon as possible, Tudor Engineering Co. shall give notice to affected employees of the terms of this order by the same means required to be used to inform them of the application for variance.

St. Joe Minerals Corp.:

I. *Background.* St. Joe Minerals Corp. made application pursuant to section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970 (84 Stat. 1596), section 41 of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 941) and 29 CFR Part 1905, for a variance from 29 CFR 1918.74(a)(9) concerning load indicating devices for cranes used to load or unload vessels. Notice of the application was published in the FEDERAL REGISTER on May 31, 1972 (37 F.R. 10820). The notice invited interested persons, including affected employers and employees, to submit written data, views, and arguments regarding the grant or denial of the variance requested. In addition, affected employers and employees were permitted to request a hearing on the application for a variance. No written comments and no request for a hearing have been received.

II. *Facts.* The applicant uses a crane for loading and unloading zinc metal bars and zinc ingots into river barges on the Ohio River. The work is performed at applicant's Zinc Smelting Division which is located on the Ohio River about 30 miles downstream from Pittsburgh, Pa. The applicant's variance request concerns the requirement of load indicating devices on cranes used for loading and unloading vessels. Applicant requests to be permitted to use cranes without load indicating devices.

The applicant has posted the manufacturer's rated load capacity of 12 tons in the cab of the crane. Loads are not containerized so that they are plainly visible to all employees involved in the operation. Each load to be lifted by the crane is accurately weighed and the weight is marked on a weight ticket which is then attached to the load itself. In addition, applicant insures that the maximum weight of a load lifted is within the rated load capacity of the crane by hoisting the zinc metal bars inside a steel lifting frame designed to limit the weight of the total load to 9 tons. Since each load is weighed before it is hoisted and the lifting frame is designed to limit the total weight of the load to 9 tons, the applicant argues that its loading and unloading operation is just as safe as it would be if the crane were equipped with a load-sensing device.

III. *Decision.* The longshoring standard, from which a variance is sought, requires load-indicating devices or alternative devices on cranes used to load or discharge cargo into or out of a vessel, 29 CFR 1918.74(a)(9). The primary purpose of a load-indicating device is to indicate to a crane operator the weight of a lift before the lift is made, to insure that it is within the capacity of the crane. Without such information the crane could attempt to lift loads in excess of its capacity, in which case it may overturn or drop the load, and injure employees engaged in the operations.

It appears from the application and a supporting statement of an accredited cargo gear surveyor that the operator of the applicant's crane is informed of the weight of each load. Each load is accurately weighed, and the weight is marked on a current weight ticket which is attached to the load. In addition, it appears that zinc bars, the usual load, are hoisted inside a steel lifting frame which

with Car Service Rules 1 and 2 would on the N. & W. within the switching dis- with Rule 16 (49 CFR 1100.16 relating to

V 37 • 225 NOV 21 72 XUM

is so designed that the weight of the total load is limited to a maximum of 9 tons. When zinc ingots are occasionally lifted, they are lifted one at a time, and weigh about 1,000 pounds each. Therefore, the maximum weight of each load lifted by the crane is known to the operator and in addition is at least 2 tons less than the rated load capacity (12 tons) of the crane at maximum reach. Thus, a load indicating device on the crane would only repeat the information already obtained by actual weighing. It follows that applicant's operation of loading and unloading zinc bars and ingots by means of a crane without a load indicating device or other alternatives required by 29 CFR 1910.74(a)(9) is at least as safe as it would be if the crane were equipped with such a device. Therefore,

IV. *Order.* Pursuant to authority in section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970, section 41 of the Longshoremen's and Harbor Workers' Compensation Act (33 U.S.C. 941), 29 CFR Part 1920, 29 CFR Part 1905, and in Secretary of Labor's Order No. 12–71 (36 F.R. 8754), *It is ordered,* That St. Joe Minerals Corp. be, and it is hereby, authorized to use cranes for loading and unloading zinc bars and ingots into and out of vessels, without any load indicating device or alternative device required by 29 CFR 1918.74(a)(9), provided that (a) the rated capacities of the cranes are made known to the crane operators and (b) the weight of each load is made known to the operators before it is lifted.

As soon as possible, St. Joe Minerals Corp. shall give notice to affected employees of the terms of this order by the same means required to be used to inform them of the application for variance.

Effective dates. These orders shall become effective on November 21, 1972, and shall remain in effect until modified or revoked in accordance with section 6(d) of the Williams-Steiger Occupational Safety and Health Act of 1970.

Signed at Washington, DC this 15th day of November 1972.

G. C. GUENTHER,
Assistant Secretary of Labor.

[FR Doc.72-19984 Filed 11-20-72;8:48 am]

INTERSTATE COMMERCE COMMISSION

[Notice 120]

ASSIGNMENT OF HEARINGS

NOVEMBER 16, 1972.

Cases assigned for hearing, postponement, cancellation or oral argument appear below and will be published only once. This list contains prospective assignments only and does not include cases previously assigned hearing dates. The hearings will be on the issues as presently reflected in the Official Docket of the Commission. An attempt will be made to publish notices of cancellation of hearings as promptly as possible, but interested parties should take appropriate steps to insure that they are notified of cancellation or postponements of hearings in which they are interested. No amendments will be entertained after the date of this publication.

AB 49, Ann Arbor Railroad Co. abandonment entire line of railroad, including all of its car ferry routes, in Benzie County, Mich., and Kewaunee and Manitowoc Counties, Wis., now assigned December 4, 1972, at Frankfort, Mich., hearing will be held in the Eagle Hall, Highway M–22, East End.

MC 124606 Sub 3, Ford Truck Line, Inc., now assigned December 11, 1972, at Memphis, Tenn., hearing will be held in Room 914, Federal Office Building, 167 North Main Street.

No. 35558, Arkansas Intrastate Freight Rates and Charges—1972, now assigned December 18, 1972, at Little Rock, Ark., hearing will be held in Room 5404, Federal Office Building.

MC–124211 Sub 217, Hilt Truck Line, Inc., now assigned December 4, 1972, will be held in Room 1630, Everett McKinley Dirksen Building, 219 South Dearborn Street, Chicago, IL.

FD–26835, Cadillac & Lake City Railway Co. reorganization, now assigned December 11, 1972, will be held in the First National Bank Building, Cadillac, Mich.

MC–20783 Sub 88, Tomokins Motor Lines, Inc., now assigned December 13, 1972, will be held in Room 204, Federal Office Building, 167 North Main Street, Memphis, TN.

I&S 8773, Transit, vegetable and animal oils, midwest to west, now assigned December 6, 1972, at Chicago, Ill., hearing is postponed to February 7, 1973, at Chicago, Ill., in a hearing room to be later designated.

MC 73165 Sub 305, Eagle Motor Lines, Inc., now assigned November 27, 1972, at Birmingham, Ala., is canceled and the application is dismissed.

MC 136750 Sub 1, New England Finishing & Furniture Haulers, Inc., now assigned January 24, 1973, at Boston, Mass., is advanced to January 22, 1973, at Boston, Mass., in a hearing room to be later designated.

MC–51146 Sub 211, Schneider Transport & Storage, Inc., now assigned December 18, 1972, will be held in Room 1010, Federal Building, 230 North First Avenue, Phoenix, AZ.

MC 55898 Sub 48, Harry A. Decato, doing business as Decato Bros. Trucking Co., now assigned January 22, 1973, at Boston, Mass., hearing is postponed indefinitely.

AB–5 Sub 10, George P. Baker, Richard C. Bond, Jervis Langdon, Jr., and Willard Wirtz, Trustees of the property of the Penn Central Transportation Co. Debtor, abandonment Catskill Mountain Branch between Kingston and Bloomville, in Delaware, Schoharie and Ulster Counties, N.Y., now assigned December 11, 1972, will be held at the Village Hall, Main Street, Stamford, N.Y.

MC–119632 Sub 54, Reed Lines, Inc., now assigned January 8, 1973, at Columbus, Ohio, is canceled and Application Dismissed.

MC–P 11530, John R. Remis, Bernard Sacharoff, John Roncoroni, Louis Geik, Henry Bono, Nicholas Accardi, New Deal Delivery Service, Inc., Eastern Transportation Co., Inc. and Airfreight Transportation Corporation of New Jersey—Investigation of control, MC–FC–71876, Resil Trucking Corp., Transferee and Eastern Transportation Co., Inc., Transferor, now assigned December 13, 1972, at New York, N.Y., hearing will be held in Room A–238, Court of Claims, 26 Federal Plaza.

[Ex Parte 241; Rule 19, Exemption 24]

EMERGENCY MOVEMENT OF MILITARY IMPEDIMENTA

Exemption from Mandatory Car Service Rules

It appearing, that there is an emergency movement of military impedimenta from Army depot, Georgia, to Mobile, Ala.; that the originating carrier has insufficient system cars of suitable dimensions immediately available for loading with this traffic; that sufficient cars of other ownerships having suitable dimensions are available on the lines of the originating carrier and on its connections; and that compliance with Car Service Rules 1 and 2 would prevent the timely assembly and use of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the Car Service Division of the Association of American Railroads is authorized to direct the movement to the Southern Railway Co., the railroads designated by the Car Service Division are authorized to move to, and the Southern Railway Co. is authorized to accept, assemble, and load not to exceed twelve (12) empty cars with military impedimenta from Army depot, Georgia, to Mobile, Ala., regardless of the provisions of Car Service Rules 1(b), 2(c), 2(d), or 2(e).

Effective November 10, 1972.

Expires November 20, 1972.

Issued at Washington, D.C., November 10, 1972.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[Ex Parte 241; Rule 19, Exemption 25]

EMERGENCY MOVEMENT OF MILITARY IMPEDIMENTA

Exemption from Mandatory Car Service Rules

It appearing that there is an emergency movement of military impedimenta from Leland (Sunny Point), N.C., to Fort Estill, Ky.; that the originating carrier has insufficient system cars of suitable dimensions immediately available for loading with this traffic; that sufficient cars of other ownerships having suitable dimensions are available on the lines of the originating carrier and on its connections; and that compliance with Car Service Rules 1 and 2 would prevent the timely assembly and use of such cars.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, the Car Service Division of the Association of American Railroads is authorized to direct the movement to the Seaboard Coast Line Railroad Co., the railroads designated by the Car Service Division are authorized to move to, and the Seaboard Coast Line Railroad Co. is authorized to accept, assemble, and load not to exceed twenty-five (25) empty cars with military impedimenta from Leland (Sunny Point), N.C., to Fort Estill, Kentucky, regardless of the provisions of Car Service Rules 1(b), 2(c), 2(d), or 2(e).

Effective November 10, 1972.

Expires November 20, 1972.

Issued at Washington, D.C., November 10, 1972.

[SEAL] R. D. PFAHLER,
Agent.

[FR Doc.72-20022 Filed 11-20-72;8:52 am]

[Ex Parte 241; Rule 19, Exemption 23]

NORFOLK AND WESTERN RAILWAY CO.

Exemption From Mandatory Car Service Rules

It appearing that there is a substantial short-time movement of grain traffic in intraterminal switching service within the Toledo, Ohio, switching district of the Norfolk and Western Railway Co. (N. & W.); that the N. & W. is unable to supply sufficient plain boxcars of its system ownership to fully meet the car supply needs of this traffic; that there is a regular movement of empty foreign boxcars of eastern railroad ownership, en route to owners via the Toledo, Ohio, terminals of the N. & W., that use of such cars for a single trip in intraterminal grain traffic within the Toledo, Ohio, terminal of the N. & W. will enable that line to protect fully the freight car requirements of the shippers originating this traffic; and that such limited use of eastern line boxcars by the N. & W. would have no significant effect on the boxcar supplies of the car owners.

It is ordered, That pursuant to the authority vested in me by Car Service Rule 19, cars listed in the Official Railway Equipment Register, I.C.C. R.E.R. No. 385, issued by W. J. Trezise, or successive issues thereof, as having mechanical designation XM, with inside length 49 ft. 8 in., equipped with doors 8 ft. wide or less, and bearing reporting marks assigned to railroads not serving Toledo, Ohio, which are classified by the Car Service Division, Association of American Railroads, Supplement No. 113 to Circular CCS–1, as being in the eastern district, may be loaded for one trip only with grain originating and terminating on the N. & W. within the switching district of Toledo, Ohio.

When so loaded, such cars shall be exempt from the provisions of Car Service Rule 2; and

It is further ordered, That after being unloaded at Toledo, Ohio, after a single trip in the aforementioned intraterminal movements of grain, such cars shall be subject to all of the provisions of Car Service Rule 2.

Effective November 10, 1972.

Expires January 15, 1973.

Issued at Washington, D.C., November 10, 1972.

INTERSTATE COMMERCE COMMISSION,
[SEAL] R. D. PFAHLER,
Agent.

[Ex Parte No. MC–19 (Sub-No. 19)]

PRACTICES OF MOTOR COMMON CARRIERS OF HOUSEHOLD GOODS

Denial of Petition for Reconsideration

Order. At a session of the Interstate Commerce Commission, Division 1, Acting as an Appellate Division, held at its office in Washington, D.C., on the 15th day of November 1972.

Upon consideration of the record in the above-entitled proceeding, of the petition, filed November 7, 1972, of Grace Polk Stern for reconsideration of the procedural order of Commissioner Murphy entered herein on October 31, 1972, embracing a motion seeking review of the involved procedural matters by the entire Commission, and of the comments of Consumers Union of the United States, Inc., in support thereof; and

It appearing, that by notice dated July 28, 1972, and published in the FEDERAL REGISTER (37 F.R. 15466) on April 2, 1972, in this proceeding, the Commission invited representations by all interested persons in favor of, or against, the relief sought by petitioner, the Department of Transportation, and requested the Department to supply for the record the information and data upon which its petition is based; that the date for filing representations in this proceeding has been twice extended and is now fixed as December 11, 1972; and that to date, representations have been filed on behalf of, among others, the persons, organizations, associations, and carriers listed below; that contrary to the contention of petitioner, this list demonstrates that individuals and consumer groups have responded to the Commission's invitation, have not met with any resistance of their participation, and are well represented in this proceeding;

It further appearing, that the above-described notice directed interested persons to serve a single copy of their representation upon DOT and to serve an original and 15 copies upon this Commission; that this Commission calls for copies of representations in conformity with Rule 16 (49 CFR 1100.16 relating to number of copies) so that each of the 11 Commissioners and appropriate staff have a copy available for consideration; that Rule 15 of the Commission's rules of practice (49 CFR 1100.15 relating to typographical and other physical specifications) is designed to ensure that legible documents are received for placement in the docket in each proceeding which is then made available to any interested member of the public;

It further appearing, that by motion filed October 18, 1972, Grace Polk Stern sought waiver of these procedural requirements, set forth in Rules 15 and 16 of the Commission's rules of practice; that by order of Commissioner Murphy, dated October 31, 1972, this motion was denied, but the order stated that individual requests for waivers of any of the requirements of said rules will be considered when the document to which the request pertains is submitted; and that the reasons for this action are: (1) the broad nature of the request, which would have required this Commission to accept all representations in this proceeding regardless of their legibility, length, or relevancy, leaves considerable doubt as to the effect or impact on Commission procedures of a grant of the requested waivers, and (2) it could not be determined from the motion how great a burden approval of the requested waivers would place upon the Commission's limited staff and budget;

It further appearing, that the order hereunder review expressed this Commission's willingness and desire to consider waiver requests on an individual basis (whether express or implied from all the circumstances) and when accompanied by the tendered documents to which the requests pertain; and that the involved order, in our judgment, was just and equitable and indicates clearly that the public participation in this proceeding is indeed invited and welcome;

It further appearing, that, contrary to petitioner's contentions, the prior order of Commissioner Murphy plainly established that the criteria which will govern the disposition of all such waiver requests are those stated in Rule 2 of the Commission's rules of practice (49 CFR 1100.2), viz., that the rules "shall be liberally construed to secure just, speedy, and inexpensive determination of the issues presented";

It further appearing, that in this proceeding the Commission is attempting to obtain the views of as many individual members of the public as possible, and that there is no intent to hinder any individual from presenting views, arguments, or any other representations that will assist the Commission in any action which it may wish to take herein; that in order to assure that all interested persons are heard in this proceeding, and in accordance with Rule 2 described above, all representations received by this Commission not in complete compliance with Rules 15 or 16 will be treated as though accompanied by an implied waiver of these rules; and that the Commission will seek to permit all legible and

XUM

V37-225 NOV 21 72 XUM

V

reasonably sized pleadings into evidence in this proceeding; that this procedure assures that no undue burden will be placed upon any persons seeking to make their views known to this Commission and having such views considered; and good cause appearing therefor:

It is ordered, That, subject to the further explanation set forth above, the petition and embraced motions be, and they are hereby, denied and overruled, respectively, for the reasons (1) that the order of Commissioner Murphy, entered herein on October 31, 1972, is in accordance with the evidence and the applicable law, and (2) that no proper or sufficient cause appears for reopening this matter for reconsideration or for granting any of the relief sought.

By the Commission, Division 1, Acting as an Appellate Division.

[Notice 163]

MOTOR CARRIER BOARD TRANSFER PROCEEDINGS

Synopses of orders entered by the Motor Carrier Board of the Commission pursuant to sections 212(b), 206(a), 211, 312(b), and 410(g) of the Interstate Commerce Act, and rules and regulations prescribed thereunder (49 CFR Part 1132), appear below:

Each application (except as otherwise specifically noted) filed after March 27, 1972, contains a statement by applicants that there will be no significant effect on the quality of the human environment resulting from approval of the application. As provided in the Commission's special rules of practice any interested person may file a petition seeking reconsideration of the following numbered proceedings within 20 days from the date of publication of this notice. Pursuant to section 17(8) of the Interstate Commerce Act, the filing of such a petition will postpone the effective date of the order in that proceeding pending its disposition. The matters relied upon by petitioners must be specified in their petitions with particularity.

No. MC-FC-73850. By order of November 9, 1972, the Motor Carrier Board approved the transfer to Intercity Bus Lines, Inc., Roanoke, Va., of that portion of the Certificate of Registration in No. MC-121564 (Sub-No. 1) issued July 19, 1965, to Abbott Bus Lines, Inc., Roanoke, Va., which relates to that portion of Certificate No. P-2301 dated April 7, 1964, issued by the Virginia State Corporation Commission authorizing the transportation of passenger service including baggage, mail, light express, and newspapers, between Roanoke and Clifton Forge, via Fincastle and Eagle Rock, Va. Calvin F. Major, 200 West Grace Street, Richmond, VA 23220, attorney for applicants.

No. MC-FC-73965. By order of November 9, 1972, the Motor Carrier Board approved the transfer to Joseph Ruffin, doing business as Ruffin's Motor Freight, Yeadon, Pa., of Permit No. MC-30561 issued April 14, 1970, to Michael J. Bobb Warehouse Corp., Philadelphia, Pa., authorizing the transportation of such merchandise as is dealt in by wholesalers and distributors of hardware, electrical appliances, tools, radios, sound equipment, sporting goods, household furnishings, and automobile accessories and such merchandise as is dealt in by wholesalers and distributors of hardware, subject to Keystone restrictions, from, to, and between Philadelphia, Pa., and New York, N.Y., and points in Delaware, Maryland, New Jersey, and the District of Columbia, and steel wire springs and component parts, from the Sterling Wire Products Co. in Philadelphia, Pa., to Washington, D.C., Baltimore, Md., Wilmington, Del., New York, N.Y., and points in New Jersey. Maurice M. Green, 1530 Chestnut Street, Philadelphia, PA 19102, applicant's attorney.

No. MC-FC-74038. By order of November 10, 1972, the Motor Carrier Board approved the transfer to Wright Motor Freight, Inc., Jackson, Mich., of a portion of the operating rights set forth in Certificate No. MC-112590 (Sub-No. 1) issued by the Commission September 13, 1961, in the name of United Motor Freight, Inc., Lansing, Mich., and acquired by Raben Wright, Munith, Mich., pursuant to No. MC-FC-73838, consummated September 15, 1972, and assigned Certificate No. MC-136931, authorizing the transportation of general commodities, with exceptions, between Jackson, Mich. and the Willow Run Airport and the Wayne Major Airport, both located near Detroit, Mich. Eugene C. Ewald, Suite 1700, 1 Woodward Avenue, Detroit, MI 48226, attorney for applicants.

[Notice 153]

MOTOR CARRIER TEMPORARY AUTHORITY APPLICATIONS

NOVEMBER 15, 1972.

The following are notices of filing of applications[1] for temporary authority under section 210a(a) of the Interstate Commerce Act provided for under the new rulues of Ex Parte No. MC-67 (49 CFR Part 1131), published in the FEDERAL REGISTER, issue of April 27, 1965, effective July 1, 1965. These rules provide that protests to the granting of an application must be filed with the field official named in the FEDERAL REGISTER publication, within 15 calendar days after the date of notice of the filing of the application is published in the FEDERAL REGISTER. One copy of such protests must be served on the applicant, or its authorized representative, if any, and the protests must certify that such service has been made. The protests must be specific as to the service which such protestant can and will offer, and must consist of a signed original and six (6) copies.

A copy of the application is on file, and can be examined at the Office of the Secretary, Interstate Commerce Commission, Washington, D.C., and also in field office to which protests are to be transmitted.

MOTOR CARRIERS OF PROPERTY

No. MC 5326 (Sub-No. 15 TA), filed October 26, 1972. Applicant: WILSON B. DILL, CARL M. DILL, SR., AND ARTHUR B. DILL, doing business as DILL BROS. COMPANY, Galena, Md. 21635. Applicant's representative: Chester A. Zyblut, 1522 K Street NW., Washington, DC 20005. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Animal and poultry feed*, from Delmar, Del., to points in Cecil, Kent, Queen Annes, Talbot, and Caroline Counties, Md., for 180 days. Supporting shipper: The General Crushed Stone Co., Easton, Pa. 18042. Send protests to: Paul J. Kenworthy, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 309 U.S. Post Office Building, Scranton, PA 18503.

[1] Except as otherwise specifically noted, each applicant states that there will be no significant effect on the quality of the human environment resulting from approval of its application.

No. MC 107496 (Sub-No. 864 TA), filed October 30, 1972. Applicant: RUAN TRANSPORT CORPORATION, Third at Keosauqua Way, Post Office Box 855, Des Moines, IA 50304. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Bentonite clay*, in bulk, in tank vehicles, having a prior movement by rail, from Des Moines, Iowa, to Saylorville Damsite, Iowa, for 150 days. Supporting shipper: American Colloid Co., 5100 Suffield Court, Skokie, IL 60076. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 107496 (Sub-No. 865 TA), filed October 30, 1972. Applicant: RUAN TRANSPORT CORPORATION, Third at Keosauqua Way, Post Office Box 855, Des Moines, IA 50304. Applicant's representative: E. Check (same address as applicant). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Liquid feed and liquid feed supplements*, in bulk, in tank vehicles, from Madison, Wis., to points in Illinois, Iowa, and Minnesota for 150 days. Supporting shipper: International Multi Foods, 1401 Stoughton Road, Madison, WI 53716. Send protests to: Herbert W. Allen, Transportation Specialist, Interstate Commerce Commission, Bureau of Operations, 875 Federal Building, Des Moines, Iowa 50309.

No. MC 117565 (Sub-No. 68 TA), filed October 26, 1972. Applicant: MOTOR SERVICE COMPANY, INC., Post Office Box 448, Route 3, Coshocton, OH 43812. Applicant's representative: John R. Hafner (same address as above). Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Motor homes*, in driveaway service, from the plantsite of Skyline Corp., near Arkansas City, Kans., to points in Arizona, Arkansas, Colorado, Georgia, Illinois, Indiana, Iowa, Kentucky, Louisiana, Michigan, Minnesota, Montana, Mississippi, Missouri, Nebraska, New Mexico, North Dakota, Ohio, Oklahoma, South Dakota, Tennessee, Texas, Utah, Wisconsin, and Wyoming, for 180 days. Supporting shipper: Skyline Corp., Escapade Motor Homes Division, 2520 Bypass Road, Elkhart, IN 46514. Send protests to: Frank L. Calvary, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 255 Federal Building and U.S. Courthouse, 85 Marconi Boulevard, Columbus, OH 43215.

No. MC 119774 (Sub-No. 57 TA), filed October 19, 1972. Applicant: EAGLE TRUCKING COMPANY, Post Office Box 471, 301 East Main Street, Kilgore, TX 75662. Applicant's representative Bernard H. English, 6270 Firth Road, Fort Worth, TX 76116. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Iron and steel articles*, between the storage facilities and dock facilities of the Port of Muskogee at Muskogee, Okla., to points in Arkansas, Kansas, Missouri, Oklahoma, and that part of Texas, on and north of U.S. Highway 80, for 180 days. NOTE: Carrier does intend to tack the authority. Possibility exists wherein proposed service could be joined with applicants MC 119774 Sub-No. 3, Sub-No. 12, Sub-No. 11, Sub-No. 16, and Sub-No. 30. Supporting shipper: Willbros Terminal Co., Port of Muskogee, R.F.D. 5, Port 50, Muskogee, OK 74401. Send protests to: District Supervisor E. K. Willis, Jr., Interstate Commerce Commission, Bureau of Operations, 1100 Commerce Street, Room 13C12, Dallas, TX 75202.

No. MC 126102 (Sub-No. 15 TA), filed October 30, 1972. Applicant: ANDERSON MOTOR LINES, INC., Post Office Box 1808, 86 Washington Street, Plainville, MA 02762. Applicant's representative: Robert G. Parks, 306 Dartmouth Street, Boston, MA 02116. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Such commodities* as are sold or used in drugstores, chain, discount, and department stores, and *returned shipments of such commodities*, from Walpole, Mass., to points in Alabama, Arkansas, California, Connecticut, Delaware, Florida, Georgia, Illinois, Indiana, Iowa, Kansas, Kentucky, Louisiana, Maine, Maryland, Massachusetts, Michigan, Mississippi, Missouri, Nebraska, Nevada, New Hampshire, New Jersey, New York, North Carolina, Ohio, Oklahoma, Pennsylvania, Rhode Island, South Carolina, Tennessee, Texas, Virginia, Vermont, and Wisconsin, for 180 days. Supporting shipper: D. W. Jewelry Co., Inc., 50 Providence Highway, East Walpole, MA 02032. Send protests to: Gerald H. Curry, District Supervisor, Interstate Commerce Commission, Bureau of Operations, 187 Westminster Street, Providence, RI 02903.

No. MC 133713 (Sub-No. 7 TA), filed October 17, 1972. Applicant: UELAND TRUCKING, INC., Route 1, Box 25 B, Shakopee, MN 55379. Applicant's representative: Val M. Higgins, 1000 First National Bank Building, Minneapolis, Minn. 55402. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Ammonium nitrate* from Pine Bend, Minn., to points in upper Michigan, for 180 days. Supporting shipper: St. Paul Ammonia Products, Inc., Post Office Box 418, South St. Paul, MN. Send protests to: A. N. Spath, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building, and U.S. Courthouse, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 133966 (Sub-No. 20 TA), filed October 24, 1972. Applicant: NORTH EAST EXPRESS, INC., Post Office Box 61, Mountaintop, PA 18707. Applicant's representative: Edward G. Villalon, 1032 Pennsylvania Building, Pennsylvania Avenue and 13th Street NW., Washington, DC 20004. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Mineral wool, mineral wool products, insulation and insulation materials*, (except commodities in bulk), from Wright Township, Luzerne County, Pa., to points in Kentucky, for 180 days. Supporting shipper: Certain-Teed Saint Gobain Insulation Corp., Valley Forge, Pa. 19481. Send protests to: Paul J. Kenworthy, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 309 U.S. Post Office Building, Scranton, Pa. 18503.

No. MC 133966 (Sub-No. 22 TA), filed October 26, 1972. Applicant: NORTH EAST EXPRESS, INC., Post Office Box 61, Mountaintop, PA 18707. Applicant's representative: Kenneth R. Davis, 999 Union Street, Taylor, PA 18517. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: *Plastic containers*, from South Rockwood, Mich., to Malvern, Pa., for 180 days. Supporting shipper: Better Plastics, Inc., Post Office Box 434, Malvern, PA 19355. Send protests to: Paul J. Kenworthy, District Supervisor, Bureau of Operations, Interstate Commerce Commission, 309 U.S. Post Office Building, Scranton, Pa. 18503.

No. MC 136371 (Sub-No. 5 TA), filed October 30, 1972. Applicant: CONCORD TRUCKING CO., INC., 30 Pulaski Street, Bayonne, NJ 07002. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *such commodities* as are dealt in by discount or department stores, for the account of Unishops, Inc., between the facilities of Unishops, Inc., their divisions and subsidiaries, located in Jersey City and Bayonne, N.J., on the one hand, and, on the other, Adrian, Mich.; Lincoln, Nebr.; Bailey Cross Roads, Va.; and Fairfax, Va., for 180 days. Supporting shipper: Unishops, Inc., 21 Craven Point Avenue, Jersey City, NJ 07305. Send protests to: District Supervisor Robert E. Johnston, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102.

No. MC 138080 (Sub-No. 1 TA), filed October 24, 1972. Applicant: EDWARD R. WOLFE, doing business as WOLFE TRUCKING, 6725 Doncaster Drive, Gladstone, OR 97027. Applicant's representative: Edward R. Wolfe, Gladstone, Oreg. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Expanded shale rock*, from points in Washington County, Oreg., to points in Washington, for 180 days. Supporting shipper: Empire Building Material Co., 9255 Northeast Halsey, Post Office Box 20086, Portland, OR 97220. Send protests to: District Superisor A. E. Odoms, Interstate Commerce Commission, Bureau of

V 37 • 225 NOV 21 72 XUM

Operations, 450 Multnomah Building, 319 Southwest Pine Street, Portland, OR.

No. MC 138091 (Sub-No. 2 TA), filed October 6, 1972. Applicant: L. HODGINS, doing business as L. HODGINS TRUCKMAN, 1325 Adams Street, Hoboken, NJ 07030. Applicant's representative: George A. Olsen, 69 Tonnele Avenue, Jersey City, NJ 07306. Authority sought to operate as a *contract carrier*, by motor vehicle, over irregular routes, transporting: *Burlap*, for account of New Yorker-Peters Corp., from piers in New York Harbor, N.Y., to Elizabeth and Lyndhurst, N.J., for 180 days. Supporting shipper: New Yorker-Peters Corp., 805 East Grand Street, Elizabeth, NJ 07201. Send protests to: District Supervisor Robert E. Johnson, Bureau of Operations, Interstate Commerce Commission, 970 Broad Street, Newark, NJ 07102.

No. MC 138097 (Sub-No. 1 TA), filed October 30, 1972. Applicant: PERCY KAGEL, doing business as KAGEL TRUCKING, 404 Fifth Avenue, Ironton, MN 56455. Applicant's representative: A. R. Fowler, 2288 University Avenue, St. Paul, MN 55114. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, transporting: (1) *Lumber and wood products*, from points in Minnesota in and north of the counties of Wilkin, Grant, Douglass, Todd, Morrison, Mille Lacs, Kanabec, and Pine, to points in Illinois, Iowa, North Dakota, South Dakota, and Wisconsin; and (2) *lumber*, from points in the Upper Peninsula of Michigan, and those in Wisconsin on and north of a line extending from Hudson, Wis., along U.S. Highway 12 to junction with Wisconsin Highway 29, thence along Wisconsin Highway 29 to Green Bay, to points in Iowa and Minnesota, for 180 days. Supporting shipper: Woodland Container Co., Aitkin, Minn. 56431. Send protests to: District Supervisor Raymond T. Jones, Bureau of Operations, Interstate Commerce Commission, 448 Federal Building, 110 South Fourth Street, Minneapolis, MN 55401.

No. MC 138102 (Sub-No. 1 TA), filed October 31, 1972. Applicant: CARSON D. BOUTWELL, doing business as BOUTWELL TRUCK LINES, Route 3, Box 338, Jay, FL 32565. Authority sought to operate as a *common carrier*, by motor vehicle, over irregular routes, tranporting: *Dry bulk fertilizer*, in compartmentized side-unloading bulk transports or in dump trucks, from Cottondale and Pensacola, Fla., to points in Alabama and Mississippi, for 180 days. Supporting shipper: Kerr-McGee Corp., Kerr-McGee Building, Oklahoma City, Okla. 73102. Send protests to: Clifford W. White, District Supervisor, Bureau of Operations, Interstate Commerce Commission, Room 814, 2121 Building, Birmingham, Ala. 35203.

An Invaluable Reference Tool

1972/73 Edition

This guidebook provides information about significant programs and functions of the U.S. Government agencies, and identifies key officials in each agency.

Included with most agency statements are "Sources of Information" sections which give helpful information on:

- Employment
- Contracting with the Federal Government
- Environmental programs
- Small business opportunities
- Federal publications
- Speakers and films available to civic and educational groups

This handbook is a "must" for teachers, students, librarians, researchers, businessmen, and lawyers who need current official information about the U.S. Government.

FEDERAL REGISTER
Area Code 202 Phone 962–8626

Published daily, Tuesday through Saturday (no publication on Sundays, Mondays, or on the day after an official Federal holiday), by the Office of the Federal Register, National Archives and Records Service, General Services Administration, Washington, D.C. 20408, pursuant to the authority contained in the Federal Register Act, approved July 26, 1935 (49 Stat. 500, as amended; 44 U.S.C., Ch. 15), under regulations prescribed by the Administrative Committee of the Federal Register, approved by the President (1 CFR Ch. I). Distribution is made only by the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The FEDERAL REGISTER will be furnished by mail to subscribers, free of postage, for $2.50 per month or $25 per year, payable in advance. The charge for individual copies is 20 cents for each issue, or 20 cents for each group of pages as actually bound. Remit check or money order, made payable to the Superintendent of Documents, U.S. Government Printing Office, Washington, D.C. 20402.

The regulatory material appearing herein is keyed to the CODE OF FEDERAL REGULATIONS, which is published, under 50 titles, pursuant to section 11 of the Federal Register Act, as amended (44 U.S.C. 1510). The CODE OF FEDERAL REGULATIONS is sold by the Superintendent of Documents. Prices of new books are listed in the first FEDERAL REGISTER issue of each month.

There are no restrictions on the republication of material appearing in the FEDERAL REGISTER or the CODE OF FEDERAL REGULATIONS.

ANTIBIOTICS—
FDA approves cephalexin monohydrate tablets and minocycline hydrochloride oral suspension (2 documents); effective 11–22–72 ..... 24816, 24817
FDA proposal for the recodification and technical revisions of the ampicillin monographs; 60 days for comment 24830

FEDERAL COAL MINE VIOLATIONS—Interior Dept. proposal to revise procedure for protest and appeal of civil penalties; comments within 45 days 24828

SOLICITATIONS IN GUISE OF BILLS—Postal Service prescribes mailing provisions 24825

COTTON—USDA 1973 acreage allotments and marketing quotas for extra long staple cotton; effective 11–17–72 24813

List of CFR Parts Affected

The following numerical guide is a list of the parts of each title of the Code of Federal Regulations affected by documents published in today's issue. A cumulative list of parts affected, covering the current month to date, appears following the Notices section of each issue beginning with the second issue of the month. In the last issue of the month the cumulative list will appear at the end of the issue.

A cumulative guide is published separately at the end of each month. The guide lists the parts and sections affected by documents published since January 1, 1972, and specifies how they are affected.

Title 6—ECONOMIC STABILIZATION

Chapter III—Price Commission

PART 300—PRICE STABILIZATION

Forms PC–50 and PC–51; Certification

The purpose of this amendment is to restate the certification of no price increase set forth in the instructions for the preparation of Forms PC–50 and PC–51 appearing in Appendix II to Part 300 of the Price Commission regulations.

On November 15, 1972, the Commission published (37 F.R. 24188) a revision of the certification appearing in the second paragraph of the "Who Must File" part of the instructions for the preparation of Forms PC–50 and PC–51 to cover special regulation No. 1, the custom products rule of § 300.410, and the volatile pricing rule of § 300.51(f). The certification provided in part as follows:

> • • • I further certify that this firm has not (1) determined a base price for any custom product or service under § 300.410 of the regulations of the Price Commission, or, if it has determined such a price, that the annual revenues attributable to that product or service represent less than $1 million and less than 1 percent of the firm's total annual revenues • • •.

In order to make it clear that a firm that has determined a base price for a custom product or service may execute the certification, only if the revenues from all of its custom products or services total less than $1 million and less than 1 percent of its total annual revenues, the words "the annual revenues attributable to that product or service" in the certification as published on November 15, 1972 are changed to read, "the annual revenues attributable to all its custom products or services."

For the convenience of interested persons, the certification as amended is set forth in full in this amendment.

Because the purpose of this amendment is to provide guidance and information that is needed immediately for compliance with the Price Stabilization Program, notice and public procedure is impracticable and good cause exists for making it effective in less than 30 days after publication in the FEDERAL REGISTER.

(Economic Stabilization Act of 1970, as amended, Public Law 91–379, 84 Stat. 799; Public Law 91–558, 84 Stat. 1468; Public Law 92–8, 85 Stat. 13; Public Law 92–15, 85 Stat. 38; Economic Stabilization Act Amendments of 1971, Public Law 92–210; Executive Order No. 11640, 37 F.R. 1213, January 27, 1972; Cost of Living Council Order No. 4, 36 F.R. 20202, October 16, 1971)

In consideration of the foregoing, the certification appearing in the second paragraph of the "Who Must File" part of the "Instructions for the preparation of Form PC–50" and of the "Instructions for the preparation of Form PC–51," is amended to read as follows, effective November 20, 1972:

> I certify that as of (last day in firm's fiscal quarter), (name of firm) has not at any time since November 13, 1971, charged a price in excess of base price established for any property or service under the regulations of the Price Commission, or if such a price was charged, that the firm has complied with all of the requirements of special regulation No. 1 and since that time has not increased a price above base price. I further certify that this firm has not (1) determined a base price for any custom product or service under § 300.410 of the regulations of the Price Commission, or, if it has determined such a price, that the annual revenues attributable to all its custom products or services represent less than $1 million and less than 1 percent of the firm's total annual revenues, and (2) increased a price pursuant to the special rule for volatile pricing under § 300.51(f) of the regulations of the Price Commission.

Title 7—AGRICULTURE

Chapter I—Agricultural Marketing Service (Standards, Inspection, Marketing Practices), Department of Agriculture

PART 52—PROCESSED FRUITS AND VEGETABLES, PROCESSED PRODUCTS THEREOF, AND CERTAIN OTHER PROCESSED FOOD PRODUCTS

Subpart—U.S. Standards for Grades of Canned Plums

Correction

In F.R. Doc. 72–19106 appearing at page 23807 of the issue for Thursday, November 9, 1972, the following changes should be made:

1. In § 52.1788(c) the symbols reading "LWLx" and "LRLx", respectively, should read "LWLx" and "LRLx", respectively.

2. In the second part of table III in § 52.1788 the following heading should be inserted between the sixth and seventh horizontal rows: "Green-Yellow Plums, Whole, Unpeeled".

Chapter VII—Agricultural Stabilization and Conservation Service (Agricultural Adjustment), Department of Agriculture

SUBCHAPTER B—FARM MARKETING QUOTAS AND ACREAGE ALLOTMENTS

PART 722—COTTON

Subpart—1973 Crop of Extra-Long Staple Cotton; Acreage Allotments and Marketing Quotas

STATE RESERVES AND COUNTY ALLOTMENTS

Section 722.562 is issued pursuant to the Agricultural Adjustment Act of 1938, as amended (52 Stat. 31, as amended; 7 U.S.C. 1281 et seq.). This section establishes the State reserves and allocation thereof among uses for the 1973 crop of extra-long staple cotton. It also establishes the county allotments. Such determinations were made initially by the respective State committees and are hereby approved and made effective by the Administrator, ASCS, pursuant to delegated authority (35 F.R. 19798, 36 F.R. 6907).

Notice that the Secretary was preparing to establish State and county allotments was published in the FEDERAL REGISTER on September 6, 1972 (37 F.R. 18039) in accordance with 5 U.S.C. 553. The views and recommendations received in response to such notice have been duly considered.

In order that farmers may be informed as soon as possible of 1973 farm allotments so that they may make plans accordingly, it is essential that this section be made effective as soon as possible. Accordingly, it is hereby found and determined that compliance with the 30-day effective date requirement of 5 U.S.C. 553 is impracticable and contrary to the public interest, and § 722.562 shall be effective upon filing this document with the Director, Office of the Federal Register.

§ 722.562 State reserves and county allotments for the 1973 crop of extra-long staple cotton.

(a) *State reserves.* The State reserves for each State shall be established and allocated among uses for the 1973 crop of extra-long staple cotton pursuant to § 722.508 of the Regulations for Acreage Allotments for 1966 and Succeeding Crops of Extra-Long Staple Cotton (31 F.R. 6247, 13530, 32 F.R. 5416, 33 F.R. 8427, 16066, 16435, 34 F.R. 5, 808, 37 F.R. 9202, 11965). Pursuant to this authority, the 1973 State acreage reserve for Florida has been approved by the Deputy Administrator, State and County Operations, to be in excess of 2 percent but not more than 10 percent of the State allotment available for distribution to

V 37-226 NOV 22 72 XUM

counties in the State. It is hereby determined that no State reserve is required for trends, abnormal conditions, inequities and hardships or small farms. The following table sets forth the State reserve for each State. The table also sets forth the allotment in the State productivity pool which shall not be allocated to counties and farms, as required under § 722.509(a) of the Regulations for Acreage Allotments for 1966 and Succeeding Crops of Extra-Long Staple Cotton.

State	State productivity pool	Total State reserve	Allocation from State reserve for new farms and corrections of errors
Arizona	666	10.0	10.0
California		15.5	15.5
Florida			
Georgia		10.8	10.8
New Mexico	−43		
Texas	171		
U.S. total	794	36.3	36.3

(b) *County allotments.* County allotments are established for the 1973 crop of extra-long staple cotton in accordance with § 722.509 of the Regulations for Acreage Allotments for 1966 and Succeeding Crops of Extra-Long Staple Cotton. The following table sets forth the county allotments:

County	County allotment (acres)
ARIZONA	
Cochise	2,080.0

Chapter IX—Agricultural Marketing Service (Marketing Agreements and Orders; Fruits, Vegetables, Nuts), Department of Agriculture

[Amdt. 14]

PART 906—ORANGES AND GRAPEFRUIT GROWN IN THE LOWER RIO GRANDE VALLEY IN TEXAS

Container, Pack, and Container Marking Regulations

Findings. (1) Pursuant to the marketing agreement, as amended, and Order No. 906, as amended (7 CFR Part 906), regulating the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas, effective under the applicable provisions of the Agricultural Marketing Agreement Act of 1937, as amended (7 U.S.C. 601–674), and upon the basis of the recommendations of the Texas Valley Citrus Committee, established under the aforesaid marketing agreement and order, and upon other available information, it is hereby found that the limitation on the handling of Texas oranges and grapefruit, as hereinafter set forth, is in accordance with the provisions of said marketing agreement and order, and will tend to effectuate the declared policy of the act.

(2) This action reflects the Department's appraisal of the need for restricting the use of containers and pack sizes to those most suitable for the packing and handling of fruit to promote orderly marketing, so as to provide consumers with good quality fruit, while improving returns to producers pursuant to the declared policy of the act. The amendment adds four containers to those currently authorized under paragraph (a)(1) of § 906.340 (7 CFR 906.340; 37 F.R. 2765; 4707; 21800; 23262) for the shipment of Texas oranges and grapefruit. These containers are four different types of bulk bins, on which the committee has conducted suitability tests under the research provisions of paragraph (a)(1)(ix) of § 906.340. The wire crib would be authorized for an indefinite period, while the two plywood bins and the corrugated fiberboard carton would be authorized through July 31, 1973. Under the amendment, handlers who use bulk bins would be required to use new liners in these containers each time they are filled for shipment. Such requirement is necessary to prevent contamination and spoilage of the fruit during shipment.

(3) It is hereby further found that it is impracticable, unnecessary, and contrary to the public interest to give preliminary notice, engage in public rulemaking procedure, and postpone the effective date of this amendment until 30 days after publication in the FEDERAL REGISTER (5 U.S.C. 553) in that (i) the handling of fruit is now in progress and to be of maximum benefit the provisions of this amendment should be effective upon the date hereinafter specified, (ii) the effective date hereof will not require of handlers any preparation that cannot be completed prior thereto, (iii) this amendment was recommended by members of the Texas Valley Citrus Committee in an open meeting at which all interested persons were afforded opportunity to submit their views, (iv) the time intervening between the date when information upon which this amendment is based became available and the time when this amendment must become effective in order to effectuate the declared policy of the act is insufficient, and (v) this amendment relieves restrictions on the handling of oranges and grapefruit grown in the Lower Rio Grande Valley in Texas.

Order. Therefore, it is ordered, That the provisions of paragraph (a)(1) of § 906.340 (7 CFR 906.340; 37 F.R. 2765; 4707; 21800; 23626) be revised by deleting subdivision (x), and adding the following new subdivisions (x), (xi), (xii), and (xiii) to read as follows:

§ 906.340 Container, pack, and container marking regulations.

(a) • • •

(1) • • •

(x) Wire crib with inside dimensions of 46½ by 37 by 30 inches: *Provided,* That such cribs be constructed of either 4 by 4 inch mesh wire at least 0 gage, or 2 by 2 inch mesh wire at least 2 gage; and *Provided further,* That a new liner shall be placed in this container each time it is filled for shipment;

(xi) For the period November 20, 1972, through July 31, 1973, corrugated fiberboard carton with inside dimensions of 47¼ by 39¼ by 28 inches: *Provided,* That the container has a Mullen or Cady test of at least 1,100 pounds; and *Provided further,* That a new liner shall be placed in this container each time it is filled for shipment;

(xii) For the period November 20, 1972, through July 31, 1973, plywood bin with inside dimensions of 45 by 36 by 32 inches: *Provided,* That a new liner shall be placed in this container each time it is filled for shipment; and

(xiii) For the period November 20, 1972, through July 31, 1973, plywood bin with inside dimensions of 46¼ by 41⅛ by 21½ inches: *Provided,* That a new liner shall be placed in this container each time it is filled for shipment.

• • • • • •

(Secs. 1–19, 48 Stat. 31, as amended; 7 U.S.C. 601–674)

Dated November 17, 1972, to become effective November 20, 1972.

PAUL A. NICHOLSON,
Acting Director, Fruit and Vegetable Division, Agricultural Marketing Service.

Title 14—AERONAUTICS AND SPACE

Chapter I—Federal Aviation Administration, Department of Transportation

[Airspace Docket No. 72-SO-90]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

The purpose of this amendment to Part 71 of the Federal Aviation regulations is to alter the Swainsboro, Ga., transition area.

The Swainsboro transition area is described in § 71.181 (37 F.R. 2143). In the description, an extension is predicated on the Swainsboro TVOR 315° radial. Because of a change in the final approach radial of VOR runway 13 instrument approach procedure it is necessary to alter the description to redesignate the extension and predicate it on the Swainsboro TVOR 294° radial. Since this amendment is minor in nature, notice and public procedure hereon are unnecessary.

In consideration of the foregoing, Part 71 of the Federal Aviation regulations is amended, effective December 7, 1972, as hereinafter set forth.

In § 71.181 (37 F.R. 2143), the Swainsboro, Ga., transition area is amended as follows:

"• • • 315° • • •" is deleted and "• • • 294° • • •" is substituted therefor.

(Sec. 307(a), Federal Aviation Act of 1958, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in East Point, Ga., on November 13, 1972.

DUANE W. FREER,
Acting Director, Southern Region.

[FR Doc.72-20065 Filed 11-21-72;8:45 am]

[Airspace Docket No. 72-WE-39]

PART 71—DESIGNATION OF FEDERAL AIRWAYS, AREA LOW ROUTES, CONTROLLED AIRSPACE, AND REPORTING POINTS

Alteration of Transition Area

On October 6, 1972 a notice of proposed rule making was published in the FEDERAL REGISTER (37 F.R. 21175) stating that the Federal Aviation Administration was considering an amendment to Part 71 of the Federal Aviation regulations that would alter the description of the Las Vegas, Nev., transition area.

Interested persons were given 30 days in which to submit written comments, suggestions, or objections. No objections have been received and the proposed amendment is hereby adopted without change.

Effective date. This amendment shall be effective 0901 G.m.t., January 4, 1973.

(Sec. 307(a), Federal Aviation Act of 1958, as amended, 49 U.S.C. 1348(a); sec. 6(c), Department of Transportation Act, 49 U.S.C. 1655(c))

Issued in Los Angeles, Calif., on November 13, 1972.

ROBERT O. BLANCHARD,
Acting Director, Western Region.

In § 71.181 (37 F.R. 2143) the description of the Las Vegas, Nev. transition area is amended in part as follows: Beginning in line 6 delete "• • •, latitude 36°16'00" N., longitude 115°32'00" W., • • •" and substitute "• • •, latitude 36°16'00" N., longitude 115°55'00" N., to latitude 36°58'00" N., longitude 115°55'00" W., • • •" therefor.

[FR Doc.72-20064 Filed 11-21-72;8:45 am]

Title 16—COMMERCIAL PRACTICES

Chapter I—Federal Trade Commission

SUBCHAPTER D—TRADE REGULATION RULES

PART 423—CARE LABELING OF TEXTILE WEARING APPAREL

Amendment to Trade Regulation Rule

The Federal Trade Commission pursuant to the Federal Trade Commission Act, as amended, 15 U.S.C. 41, et seq., and the provisions of Part I, Subpart B of the Commission's procedures and rules of practice, 16 CFR 1.11 et seq., proposed and amendment to example 4 of the trade regulation rule relating to the care labeling of textile wearing apparel. The rule, published in the FEDERAL REGISTER on December 16, 1971, became effective on July 3, 1972. Notice of the proposed amendment was published in the FEDERAL REGISTER on July 11, 1972 (37 F.R. 13560). The proposed amendment was to change example 4 of the rule to read: "4. Professional dry clean only." Example 4 of the rule as originally promulgated read: "4. Dry clean only. Do not use petroleum solvents, or the coin operated method of drycleaning." Interested parties were thereafter afforded opportunity to comment on the proposed amendment through the submission of written data and to express their approval or disapproval of the proposed amendment or to recommend revisions thereof.

The Commission has now considered all matters of fact, law, policy, and discretion, including the data and views submitted for the record by interested parties in response to the notice, as prescribed by law, and has determined that example 4 to the care labeling rule be amended as proposed with the exception that the word "professional" not be included. On the basis of the recommendations in the record, the Commission concluded that inclusion of the word "professional" in the amendment would serve only to confuse those for whose benefit the rule was originally promulgated. Otherwise, the record unanimously supported the amendment as proposed in the notice.

Accordingly, example 4 of the trade regulation rule relating to the care labeling of textile wearing apparel now reads:

§ 423.1 The rule.

• • • • • •

Examples: • • •

4. Dry clean only.

(38 Stat. 717, as amended; 15 U.S.C. 41–58)

Effective: November 22, 1972.

Promulgated: November 22, 1972.

By the Commission.

[SEAL] CHARLES A. TOBIN,
Secretary.

[FR Doc.72-20137 Filed 11-21-72;8:52 am]

Title 21—FOOD AND DRUGS

Chapter I—Food and Drug Administration, Department of Health, Education, and Welfare

SUBCHAPTER A—GENERAL

PART 1—REGULATIONS FOR THE ENFORCEMENT OF THE FEDERAL FOOD, DRUG, AND COSMETIC ACT AND THE FAIR PACKAGING AND LABELING ACT

"Cents-Off" and "Economy Size" Package Promotions; Stay in Part of Confirmation of Effective Date

In the FEDERAL REGISTER of December 30, 1971 (36 F.R. 25219), a final order was published which established new enforcement regulations (21 CFR 1.1d, 1.1e) to control "cents-off," "economy size," and other savings representations.

V37-226 NOV 22 72 XUM

This order was confirmed in the FEDERAL REGISTER of Saturday, July 15, 1972 (37 F.R. 13976).

Grocery Manufacturers of America, Inc., and a number of adversely affected persons have petitioned the U.S. Court of Appeals for the District of Columbia Circuit and for the Ninth Circuit for review of the order entered on July 15, 1972, denying requests for hearing and confirming the effectiveness of regulations governing "cents-off," "coupon," or other savings representations, (21 CFR 1.1d), published in the FEDERAL REGISTER of December 30, 1971 (36 F.R. 25219), and confirmed in the FEDERAL REGISTER of July 15, 1972 (37 F.R. 13976).

The Commissioner of Food and Drugs, having considered the request by Grocery Manufacturers of America, Inc., to stay the effectiveness of those provisions of the regulations (21 CFR 1.1d) which apply to coupon promotions pending judicial review, orders that the request for a stay be, and is hereby granted.

Effective date. This stay is effective upon publication in the FEDERAL REGISTER (11–22–72).

Dated: November 16, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–20069 Filed 11–21–72;8:45 am]

SUBCHAPTER B—FOOD AND FOOD PRODUCTS

PART 121—FOOD ADDITIVES

Subpart D—Food Additives Permitted in Food for Human Consumption

MOLECULAR SIEVE RESINS

The Commissioner of Food and Drugs, having evaluated data in a petition (FAP 1A2644) filed by Energy Products Department, Stauffer Chemical Co., 7505 Washington Avenue S., Edina, MN 55435, formerly ENRG International Corp., 4570 West 77th Street, Minneapolis, MN 55435, and other relevant material, concludes that the food additive regulations should be amended, as set forth below, to provide for the safe use of molecular sieve resins consisting of purified dextrans cross-linked with epichlorohydrin in the final purification of partially delactosed whey.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1)) and under authority delegated to the Commissioner (21 CFR 2.120), Part 121 is amended by adding a new section to Subpart D as follows:

§ 121.1246 Molecular sieve resins.

Molecular sieve resins may be safely used in the processing of food under the following prescribed conditions:

(a) The molecular sieve resins consist of purified dextran having an average molecular weight of 40,000, cross-linked with epichlorohydrin in a ratio of 1 part of dextran to 10 parts of epichlorohydrin, to give a stable three dimensional structure. The resins have a pore size of 2.0 to 3.0 milliliters per gram of dry resin (expressed in terms of water regain), and a particle size of 10 to 300 microns.

(b) The molecular sieve resins are thoroughly washed with potable water prior to their first use in contact with food.

(c) Molecular sieve resins are used as the gel filtration media in the final purification of partially delactosed whey. The gel bed shall be maintained in a sanitary manner in accordance with good manufacturing practice so as to prevent microbial build-up on the bed and adulteration of the product.

Effective date. This order shall become effective on its date of publication in the FEDERAL REGISTER (11–22–72).

(Sec. 409(c)(1), 72 Stat. 1786; 21 U.S.C. 348(c)(1))

Dated: November 16, 1972.

SAM D. FINE,
Associate Commissioner for Compliance.

[FR Doc.72–20141 Filed 11–21–72;8:52 am]

SUBCHAPTER C—DRUGS

PART 135—NEW ANIMAL DRUGS

Subpart C—Sponsors of Approved Applications

PART 135c—NEW ANIMAL DRUGS IN ORAL DOSAGE FORMS

Bunamidine Hydrochloride

The Commissioner of Food and Drugs has evaluated a supplemental new animal drug application (35–016V) filed by Cooper U.S.A., Inc., 1909 North Clifton Avenue, Chicago, IL 60614, proposing the safe and effective use of bunamidine hydrochloride tablets in different strengths than those presently provided for, for the treatment of tapeworm infections in dogs and cats. The supplemental application is approved.

The firm changed the corporate name from William Cooper & Nephews, Inc. to Cooper U.S.A., Inc. and an appropriate change is being made in Part 135 in § 135.501 to reflect the new corporate name. A change is also being made in Part 135c in § 135c.27 to identify said firm by their code number to be consistent with other sections in that part.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 512(i), 82 Stat. 347; 21 U.S.C. 360(i)) and under authority delegated to the Commissioner (21 CFR 2.120), Parts 135 and 135c are amended as follows:

1. Part 135 is amended in § 135.501 (c) by revising the name and address for the firm identified by Code No. 010 as follows:

§ 135.501 Names, addresses, and code numbers of sponsors of approved applications.

* * * * *

(c) * * *

Code No.	*Firm name and address*
* * *	* * *
010	Cooper U.S.A., Inc., 1909 North Clifton Avenue, Chicago, IL 60614.
* * *	* * *

2. Part 135c is amended in § 135c.27 in paragraphs (b) and (c) as follows:

§ 135c.27 Bunamidine hydrochloride.

* * * * *

(b) *Specifications.* The drug is an oral tablet containing bunamidine hydrochloride.

(c) *Sponsor.* See Code No. 010 in § 135.501(c) of this subchapter.

* * * * *

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (11–22–72).

(Sec. 512(i), 82 Stat. 347; 21 U.S.C. 360b(i))

Dated: November 15, 1972.

C. D. VAN HOUWELING,
Director, Bureau of Veterinary Medicine.

[FR Doc.72–20068 Filed 11–21–72;8:45 am]

PART 148w—CEPHALOSPORIN

Cephalexin Monohydrate Tablets

The Commissioner has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act, with respect to approval of the antibiotic drug cephalexin monohydrate tablets.

He concludes that data supplied by the manufacturer concerning the subject antibiotic drug is adequate to establish its safety and efficacy when used as directed in the labeling and that the regulations should be amended to provide for the certification of this drug.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commission (21 CFR 2.120), Part 148w (21 CFR 148w) is amended to provide for the certification of the antibiotic cephalexin monohydrate tablets by adding the following new section:

§ 148w.9 Cephalexin monohydrate tablets.

(a) *Requirements for certification—*(1) *Standards of identity, strength, quality, and purity.* Cephalexin monohydrate tablets are composed of cephalexin monohydrate and one or more suitable and harmless diluents, binders, lubricants, colorings, and coating substances. Each tablet contains cephalexin monohyrate equivalent to 500 milligrams of cephalexin. Its potency is satisfactory if it is not less than 90 percent and not more than 120 percent of the number of milligrams of cephalexin that it is represented to contain. Its moisture content is not more than 9 percent. The tablets disintegrate within 30 minutes. The cephalexin monohydrate used conforms to the standards prescribed by § 148w.6 (a)(1).

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this subchapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this subchapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The cephalexin monohydrate used in making the batch for potency, safety, moisture, pH, absorptivity, identity, and crystallinity.

(*b*) The batch for potency, moisture, and disintegration time.

(ii) Samples required:

(*a*) The cephalexin monohydrate used in making the batch: 10 packages, each containing approximately 300 milligrams.

(*b*) The batch: A minimum of 36 tablets.

(*b*) *Tests and methods of assay—*(1) *Potency.* Use either of the following methods; however, the results obtained from the microbiological agar diffusion assay shall be conclusive.

(i) *Microbiological agar diffusion assay.* Proceed as directed in § 141.110 of this chapter, preparing the sample for assay as follows: Place a representative number of tablets into a high-speed glass blender jar containing sufficient 1 percent potassium phosphate buffer, pH 6.0 (solution 1), to give a stock solution of convenient concentration. Blend for 3 to 5 minutes. Further dilute with solution 1 to the reference concentration of 20.0 micrograms of cephalexin per milliliter (estimated).

(ii) *Iodometric assay.* Proceed as directed in § 141.506 of this chapter, preparing the sample as follows: Blend a representative number of tablets in a high-speed glass blender with sufficient distilled water to give a stock solution of convenient concentration. Further dilute with distilled water to the prescribed concentration of cephalexin. NOTE: The 10.0 milliliters of 0.01*N* iodine must be added within 20 seconds after the addition of the 2.0 milliliters of 1.2*N* hydrochloric acid, and the assay should be completed within 1 hour after the sample and standard are first put into solution.

(2) *Moisture.* Proceed as directed in § 141.502 of this subchapter.

(3) *Disintegration time.* Proceed as directed in § 141.540 of this subchapter, using the procedure described in paragraph (e)(1) of that section.

Since the conditions prerequisite to providing for certification of subject antibiotic have been complied with and since the matter is noncontroversial, notice and public procedures and delayed effective date are not prerequisites to this promulgation.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (11–22–72).

(Sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357)

Dated: November 14, 1972.

PART 150g—MINOCYCLINE HYDROCHLORIDE

Minocycline Hydrochloride Oral Suspension

The Commissioner has evaluated data submitted in accordance with regulations promulgated under section 507 of the Federal Food, Drug, and Cosmetic Act, with respect to approval of the antibiotic drug minocycline hydrochloride oral suspension.

He concludes that data supplied by the manufacturer concerning the subject antibiotic drug is adequate to establish its safety and efficacy when used as directed in the labeling and that the regulations should be amended to provide for the certification of this drug.

Therefore, pursuant to provisions of the Federal Food, Drug, and Cosmetic Act (sec. 507, 59 Stat. 463, as amended; 21 U.S.C. 357) and under authority delegated to the Commissioner (21 CFR 2.120), Part 150g (21 CFR 150g) is amended to provide for the certification of the antibiotic minocycline hydrochloride oral suspension by adding the following new section:

§ 150g.13 Minocycline hydrochloride oral suspension.

(a) *Requirements for certification—*(1) *Standards of identity, strength, quality, and purity.* Minocycline hydrochloride oral suspension is minocycline hydrochloride with one or more suitable flavorings, wetting agents, preservatives, and diluents in an aqueous vehicle. Each milliliter contains minocycline hydrochloride equivalent to 10 milligrams of minocycline. Its potency is satisfactory if it is not less than 90 percent and not more than 130 percent of the number of milligrams of minocycline that it is represented to contain. Its pH is not less than 7.0 and not more than 9.0. The minocycline hydrochloride used conforms to the standards prescribed by § 150g.1(a)(1).

(2) *Labeling.* It shall be labeled in accordance with the requirements of § 148.3 of this subchapter.

(3) *Requests for certification; samples.* In addition to complying with the requirements of § 146.2 of this chapter, each such request shall contain:

(i) Results of tests and assays on:

(*a*) The minocycline hydrochloride used in making the batch for potency, safety, moisture, pH, minocycline content, identity, and crystallinity.

(*b*) The batch for potency and pH.

(ii) Samples required:

(*a*) The minocycline hydrochloride used in making the batch: 10 packages, each containing approximately 300 milligrams.

(*b*) The batch: A minimum of five immediate containers.

(*b*) *Tests and methods of assay—*(1) *Potency.* Proceed as directed in § 141.111 of this chapter, preparing the sample for assay as follows: Dissolve an accurately measured representative aliquot of the well shaken suspension in sufficient 0.1*N* hydrochloric acid to give a stock solution of convenient concentration containing not less than 150 micrograms of minocycline per milliliter (estimated). Remove an aliquot and dilute with 0.1*M* potassium phosphate buffer, pH 4.5 (solution 4), to the reference concentration of 0.100 microgram of minocycline per milliliter (estimated).

(2) *pH.* Proceed as directed in § 141.503 of this subchapter, using the undiluted sample.

Since the conditions prerequisite to providing for certification of subject antibiotic have been complied with and since the matter is noncontroversial, notice and public procedures and delayed effective date are not prerequisites to this promulgation.

Effective date. This order shall be effective upon publication in the FEDERAL REGISTER (11–22–72).

(Sec. 507, 59 Stat. 465, as amended; 21 U.S.C. 357)

Dated: November 14, 1972.

Title 22—FOREIGN RELATIONS

Chapter I—Department of State

[Dept. Reg. 108.679]

PART 2—PROTECTION OF FOREIGN DIGNITARIES AND OTHER OFFICIAL PERSONNEL

Designation of Foreign Officials and Official Guests

Part 2 of Title 22 of the Code of Federal Regulations is amended as set forth below:

New §§ 2.2 through 2.5 are added to read as follows:

§ 2.2 Purpose.

Section 1116(b)(2) of title 18 of the United States Code, as added by Public

Law 92–539, approved October 24, 1972, authorizes the Secretary of State to protect the person of a foreign official, official guest, or internationally protected person in the United States and, within the limits of his authority, the family of such person. Any inquiries by law enforcement officers

(3) Accouterments are those belong-

Sec. (1) Was the property of the sponsor § 803.12 Screening, cleaning, and re-

Law 92-539, An Act for the Protection of Foreign Officials and Official Guests of the United States (86 Stat. 1071), defines the term "foreign official" for purposes of that Act as "any person of a foreign nationality who is duly notified to the United States as an officer or employee of a foreign government or international organization, and who is in the United States on official business, and any member of his family whose presence in the United States is in connection with the presence of such officer or employee." Section 1116(c)(4) of the same Act defines the term "official guest" for the purposes of that Act as "a citizen or national of a foreign country present in the United States as an official guest of the Government of the United States pursuant to designation as such by the Secretary of State." It is the purpose of this regulation to specify the officer of the Department of State who shall be responsible for receiving notifications of foreign officials under the Act and determining whether persons are "duly notified" to the United States and who shall be responsible for processing official guest designations by the Secretary of State.

§ 2.3 Notification of foreign officials.

Any notification of a foreign official for purposes of section 1116(b)(2) of title 18 of the United States Code shall be directed by the foreign government or international organization concerned to the Chief of Protocol, Department of State, Washington, D.C. 20520. For persons normally accredited to the United States in diplomatic or consular capacities and also for persons normally accredited to the United Nations and other international organizations and in turn notified to the Department of State, the procedure for placing a person in the statutory category of being "duly notified to the United States" shall be the current procedure for accreditation, with notification in turn when applicable. The Chief of the Office of Protocol will place on the roster of persons "duly notified to the United States" the names of all persons currently accredited and, when applicable, notified in turn, and will maintain the roster as part of the official files of the Department of State adding to and deleting therefrom as changes in accreditations occur.

For those persons not normally accredited, the Chief of Protocol shall determine upon receipt of notification, by letter from the foreign government or international organization concerned, whether any person who is the subject of such a notification has been duly notified under the Act. Any inquiries by law enforcement officers or other persons as to whether a person has been duly notified shall be directed to the Chief of Protocol. The determination of the Chief of Protocol that a person has been duly notified is final.

§ 2.4 Designation of official guests.

The Chief of Protocol shall also maintain a roster of persons designated by the Secretary of State as official guests. Any inquiries by law enforcement officers or other persons as to whether a person has been so designated shall be directed to the Chief of Protocol. The designation of a person as an official guest is final. Pursuant to section 2658 of title 22 of the United States Code, the authority of the Secretary of State to perform the function of designation of official guests is hereby delegated through the Deputy Secretary of State to the Deputy Under Secretary of State for Management.

§ 2.5 Records.
